World's Fair Visitors Get Time, Money-Saving Tips

K-Bavites returning to the Mainland who plan to visit the World's Fair may find these few pointers helpful in conserving time for seeing more things than expected.

One thing to do is to arrive at the fair early in the morning. The gates open at 9 a.m. and exhibits open at 10.

Pick out one of the big exhibits which usually has a long waiting line during the day, and get in line before the exhibit opens.

Once the exhibit opens the line will go very fast.

Lines are also shorter during the lunch and dinner hours. On weekends crowds are generally no larger than the weekday crowds and have, on occasions, been smaller.

Time is not the only thing servicemen are interested in saving at the fair. Money is also an important factor. Food is really the only thing

But did you ever stop and consider the fact that there is only one frontier where we can all be pioneers? In fact, it is a frontier where only-first hand experience will do.

The vast realm of man's relationship to God is waiting to be explored and it is an exploration that each man must make for himself.

How close can a human being approach his Maker—how much can he discover of God and the things of God? Why are you here, where are you going, what is the meaning of life?

There are no questions more exciting than these and if you are the curious, inquisitive, pioneer type, this should be right down your

KBYAA Urges Housewives to Help Enrich Treasury by Clipping Coupons

K-Bay's Youth Association has a chance to enrich its treasury but it's up to the housewives to determine how many coins will be dropped into the till.

The Dole Company of Hawaii is offering to donate 10° to the Youth Activities Association every time a special coupon and a lahel from selected Dole products are turned in to the MCAS branch of the Bank of Hawaii.

The coupons will appear in the Pali Press and Military Press newspapers. They will also be available at the Commissary.

Cdr. H.E. Thurman, Chairman of K-Bay's Youth. Activities Association, has made an appeal to housewives to "please take the time to turn in these coupons and labels and earn funds for the association."

"Just take the coupon and one of the labels from certain Dole products which will he displayed and identified at the commissary to the bank and the Youth Activities Association will be credited with a cash value of 10."

According to the Dole Company, military families do not get the full benefit of most company promotional campaigns because they do their shopping in commissaries.

This is Dole's way of showing their appreciation for "the outstanding efforts of the people of Hawaii's military organizations and their dependents in their constant and effective actions to provide wholesome and interesting activities for military youth."

Coupons will be good through Aug. 31, 1964.

The campaign is also being conducted at Pearl Harbor, Schofield Barracks and Hickam

The new unit was designed strictly for runways and will replace the old unit which was constructed primarily for air-craft carrier use," he said.

The unit consists of two large drums, one on each side of the runway, each holding 1300 feet

of treated nylon tape.
A 180-foot long "wire" is attached to the nylon tape on each side of the runway.

When an aircraft catches the wire, the tape is pulled out of the large drum through hydraulic pressure, slowing the plane to a stop.

The Morest crew is on hand to disengage the aircraft's tail

hook from the wire when the plane comes to a complete stop.

After the tail hook is disengaged, hydraulic pressure re-turns the arresting gear to battery position.

According to WO R.W. Eiler. Station Crash Crew OIC, the new unit will be used to arrest aircraft making emergency landings.

Aloha Luncheon Sept. 8

0-Wives Plan New Season of Events

By Helen Lo Prete

A big Aloha to old and new alike!

August is on the wane and for those of us who have man-aged to survive "Summer with the Smallfry," the time has come to think of our O-Wives club activities.

Tuesday, Sept. 8. has been set for our first luncheon of the new season. Circle that date on your calendar!
"Aloha" will be the theme

so this would be a good time (or excuse?) to shop for a new muumuu, holomuu, or other type of Hawaiian wear. Further details in next week's column.

To refresh tired summer minds, here again are the new officers of our club: Mary McDowell, president; Marge Thurman, vice-president; Natalie O'Keefe, treasurer; Judy Webster, recording-secretary and Lee Tucker, corresponding secretary.
A special "mahalo" to Joyce

Harte who did such an out-standing job writing this column last year. Her shoes will be difficult to fill-so please bear with me!

DRIVER OF THE MONTH—Maj. J.L. Gibnoy, 3/12 CO (1), presents Driver of the Month plaque to PFC. W.T. Bauguess, H—3/12. PFC. Bauguess received the award as the battalion's best driver for the month of July. He arrived in K-Bay in June 1963.

Station Safety Officer Offers Advice To Prevent Lawn Mowing Accidents

Several injuries have been inflicted on K-Bayites as a result of improper use of power lawn mowers with rotary blades

Al Roth, Station Safety Officer offers the following rules to help avoid injury:

Before starting mower -Check the mower for cracks or breaks. Replace defective parts. Be sure that all nuts and

a hot exhaust pipe.

When starting and using-Never let a child or anyone who does not know the hazards involved operate the mower. Keep a firm footing when you use a pull starter, so that your foot won't slip under the mower. Keep hands and feet away from the muffler, the blade and the discharge opening. Never leave it running unattended.

Do not mow barefooted. The hlade can easily cut through an ordinary shoe, but a shoe does give some protection. Always keep a firm grip on the mower and don't run with it. Keep people a safe distance from the discharge chute.

Mow across slopes whenever you can. Start at the top. Pushing up or downhill increases the danger of the mower getting away and rolling into you or someone else. If you can't mow across slopes, use a rope to let the mower roll down by force of gravity and then pull it back up

Following these basic rules may help you and your toes enjoy a longer life together.
