## WINDWARD MARINE

Vol. 17, No. 22 Marine Corps Air Station, Kaneohe Bay, Hawaii June 6, 1968

### Capt. St. Clair Assumes PMRF Command Friday

Captain Robert H. St. Clair Jr., will assume duties as the Commanding Officer, Pacific Missile Range's Hawaiian Facility at Barking Sands, Kauai, relieving Capt. R. W. Rynd who is retiring.

The change of command ceremony will take place here tomorrow at 2 p.m. on the ramp area immediately adjacent to Hanger 101.

Capt St. Clair reported to Point Mugu in July, 1967, as the deputy vice commander, PMR headquarters staff. He served a previous tour on the staff from 1958 through 1960 when he was Range Safety Officer for "Thor" and "Discoverer" missiles launched into the Pacific Missile Range from Vandenberg Air

Force Base.

While acting in this capacity Capt. St. Clair was the first Naval officer required to destroy an Air Force missile when Discover X veered off course shortly after lift-off.

The captain enlisted in the Navy in November, 1942, after graduating from Pittsfield High School, Pittsfield, Mass. He entered flight training in March, 1943, and received his naval aviator wings in November, 1944.

He then served with Fighter Squadron Four, flying F6F Hellcats, F4U Corsairs and F8F Bearcats during the closing days of World War II.

Captain St. Clair served aboard the USS Boxer during the Korean conflict and from February to December, 1952, was a student at the General Line School, Monterey, Calif. This was followed by flight instructor duty at NAS Pensacola until April, 1954.

Following helicopter training at Pensacola he reported to Helicopter Squadron Four as a pilot where he served until May, 1956. He was then ordered to the Staff, Commander Naval Air Force, U. S. Pacific Fleet, as officer in charge of Aviation Statistics Unit.

Next was his first tour on the staff of Commander, Pacific Missile Range at Vandenberg. He left there in July, 1961, and attended the Armed Forces Staff College in Norfolk, Va. Upon completion he once again served with Helicopter Squadron Four, via Helicopter Squadron 10. He returned to HS-4 in June, 1962, and served as executive officer prior to taking command in May, 1963.

The following year Capt. St. Clair served as a professor of Naval Tactics at the Marine Command and Staff College, Quantico, Va. Prior to reporting to PMR for his second tour, the captain attended the Industrial College of the Armed Forces in Washington, D.C.

Captain St. Clair and his wife, the former Sylvia M. Campbell of Imperial Beach, Calif., have five children; Robert H. III, and two set of twins, Terri L. and Garry L.; and Kimberly A. and Karen J.

### How Would You Feel If —

What would you do if you had some neighbors that continually dumped trash on your lawn? Or how would you feel if they threw their "empties" onto your property as they drove by late in the evening.

If you're normal, you'd get angry, to say the least. You're probably thinking right now "why if I could catch them I'd really (you fill it in)."

One of our neighbors is angry, and rightly so. He lives just outside the gate and autos bearing base stickers have been seen throwing "empties" on his lawn. This is not very "neighborly" to say the least.

The gentleman in question has contacted the station commander to voice his complaint, and these are not the type of calls any station commander likes to receive.

Needless to say, if anyone is caught in this unthinking and rude act, the person or persons involved will be punished to the full extent of the law.

The next time you are tempted to use a car window instead of a trash container, think before you act. In other words, follow the Golden Rule and "Do unto others as you would have others do unto you."

**WEDDING TEARS**  
By Chaplain  
G. F. Rossbach

Since June is traditionally the month for weddings and June Brides will be walking down the aisle in many churches throughout our land, perhaps a few lines might be in order about a side-effect produced at times during a wedding — tears.

Almost everyone sheds tears at weddings. The reasons may be as varied as the attendance, but no wedding escapes the presence of either the silent type or the full-grown, damp tear trickling noiselessly down a cheek.

The Mother of the Bride cries because of her happiness and her sadness, because of her hope and her faith. A Groom's Mother wipes away tears for her son, for this man who was a lad only last week it seems. Already she has a feeling of love for her son's Bride, but she worries a bit that such a young girl can take care of her son as well as she has throughout all these years.

A Father's tears, most often silent, cause a contraction in the throat which is quite painful. The Bride's Father has a deep sense of loss, because he has handed over his little girl to some man much younger than he. He is facing the astounding fact that his young daughter, and Oh so young, will

soon become the woman of her own household, beginning her own family.

The Groom's Father feels compassion for his son who is taking on the responsibility of becoming a husband... and a father, he hopes. Having a grandchild would be the wonder of his life, but he ponders the many rocky paths young Junior will travel on his way through life.

For these parents, seeing these youngsters married before the altar of God makes them realize how old they are becoming, and yet they know that through their tears they are witnessing something new, something thrilling, something blessed.

# Chef de Cuisine

## By La Trelle

Windy's kitchen has found two mouth watering salads for you to try. They look scrumptious and taste even better. What can be more pleasing on a hot, sultry day?

Our first recipe is simple to prepare yet hearty enough for a light lunch.

### Shrimp Salad

1 cup chopped shrimp  
1 cup diced tuna  
1 cup lettuce hearts  
(cut up small)  
1 tsp. lemon juice  
1 tsp. finely minced onion  
salt and paprika to taste

Mix all ingredients lightly. Chill thoroughly. Just before serving, drain and toss together with mayonnaise to moisten. Serve on crisp lettuce. Garnish with tomato sections, wedges of lemon, slices of hard-cooked egg and shiny ripe olives. Serve four.

This next recipe is more of a relish but it goes well with most any main course and is light and refreshing.

### Kiyuri Namasu (Cucumber Salad)

3 cups cucumbers (sliced very thin)  
1/2 tsp. salt  
1 tsp. ginger root (chopped fine)  
1/2 cup white vinegar  
2 tbsp. sugar  
1/4 tsp. monosodium glutamate

Partly peel cucumbers leaving strips of green, and slice thin. Add salt to cucumbers and let stand for 15 minutes. Combine remaining ingredients. Press excess liquid cucumbers and add to sauce. Chill and serve. Serves six.

Thinly sliced mushrooms, carrot or abalone can be added to this salad.

These recipe are simple and involve very little preparation but if you prefer the congealed or molded type of salad, perhaps your favorite will be listed next week. I plan to feature congealed salads with mayonnaise, cream cheese and/or whipping cream. Until next week then, au revoir and bon appetit.

# Command and Management Presentation Slated Tuesday

A team of officers and enlisted men from Headquarters Marine Corps will visit the Air Station, June 11, to give a Command and Management Presentation (CAMP) to station personnel and all tenant

units. The team is headed by the Director of the Management Analysis Group, Brigadier General Oscar F. Peatross. It will describe the Marine Corps' management process, modern management tools, new command and management systems, and related education programs.

The purpose of the presentation is to show Marines the developing systems which are made possible by the application of the newest computers, communications equipment and management techniques. It will emphasize the need for understanding and support from the individual Marine to develop the systems and to exploit their potential.

CAMP also tells of the increasing emphasis on education in management, including computer and information sciences, and outlines the opportunities available for increasing knowledge in these areas.

The presentation will be given in Station Theater No.1, at 8:30 a.m., and runs for three hours. It includes movies, slides, audiotapes and narration.

Although CAMP is designed for Marine officers, staff noncommissioned officers, and key civilian employees, attendance by others is encouraged.

Brigadier General Louis H. Wilson Jr., from duty as Legislative Assistant to the Commandant, to duty as Chief of Staff, FMF, Pacific, replacing BrigGen. Charles F. Widdecke, in August. General Widdecke's next assignment has not been announced.

**MEETS DONERS** - Ernest F. Charter Jr., a hemophiliac, is introduced to two of the members from H&MS-24 who donated blood to the Hemophilia Foundation, 1stSgt. R. L. Law, left, and ASI L. L. Johnson, right, by Major J. B. Parker, center, squadron commander. Overseeing the drawing is Miss Helena Chun of the Blood Bank of Hawaii.

# H&MS-24 Donates To Hemophiliac Foundation

"Lie down and bleed!" This could well be the motto of Marines serving with Headquarters and Maintenance Squadron 24, Marine Air Group 24.

This is what they have been doing since last January - and all for one man, 18 year old Ernest F. Charter Jr., of Kailua.

Ernie is one of the relatively few people in Hawaii afflicted with the inherited disease Hemophilia, known also as "bleeders."

This disease is carried by the mother and passed on to her sons. In some rare cases it has affected the women but usually when this happens it indicates a record of hemophilia on both sides of the family.

Some think that the only danger facing a hemophiliac is the possibility of a cut, but victims of the disease suffer more from bruises causing internal bleeding into the joints which is not only painful in itself, but if uncontrolled can result in crippling of the joint.

The Marines from Kaneohe have been traveling to Queens Hospital and donating their blood to the Blood Bank of Hawaii and in Ernie's name. Currently they are averaging about 10 pints per month, and, according to the squadron First Sergeant R. L. Law, there is never a problem of having enough volunteers.

The biggest problem confronting the squadron is the newly passed law which prohibits members of the Armed Forces from donating blood within two years following a tour in Southeast Asia.

One of the main reasons for the squadron to undertake this mission is the byproduct of the disease - the great financial burden which the hemophiliac and his family must try to carry. The cost of each transfusion, for plasma alone, is \$90, with administrative costs averaging \$15.

A hemophiliac may need three transfusions a year or three a day. During the past year Ernie has had to use 541 pints of blood. The cost for these transfusions was \$16,374.

Because no family can possibly pay such expenses, the Hemophilia Foundations have

been organized all over the world. In Hawaii the foundation receives assistance from the Aloha United Fund, but even this assistance cannot possibly cover the high blood plasma bills.

During Ernie's life he has been kept supplied in part by donations from Marines at K-Bay. Ten years ago when the first appeal was made by his family, some 800 Marines offered to donate blood for him.

All donations are credited to the account of the Hemophilia Foundation of Hawaii and the members pool their resources and attempt to work out their problems together.

Ernie attended school in Kailua from kindergarten through graduation from Kailua High. Sometimes he was out for half of the school year, but with the help of the Department of Public Instruction tutors, he made up the work lost due to illness.

He now has a full time job at Honolulu Mortgage Company, and his health has been very good. Still, he has transfusions at least twice a month, and sometimes more.

# Tripler Blood Bank To Hold Drawing Here

The Blood Bank Team from Tripler Army Hospital will be at the Station Dispensary Tuesday, June 11. Personnel who desire to donate blood should call the Medical Administrative Office, 72172 Ext. 133 or 141, for a specific appointment time.

The blood needs of the patients at Tripler is critical at this time due to the increased air evacuations of patients from Vietnam.

This is a worthwhile cause, especially in this great time of need. The requirement for blood increases daily. The balance between supply, demand, and human life depends on blood donors.

By Jean Kiviaho

The Staff NCO Wives' Club Aloha Coffee will be held at the Staff Club, Wednesday, June 12, at 9 a.m.

The Aloha Coffee Chairman, Betty Pinder, has once again planned a very interesting and informative program for the coffee. She has invited a representative from the Nancy Hansen Modeling Agency to talk to the members of the club and their guests on the subject "A Course in Self Improvement." Topics to be discussed are exercise and figure control, makeup, poise and hair styling.

Betty has asked that all members wishing to bring a guest, or any wife of a Staff NCO who would like to attend this coffee, notify her at 254-3415 or her assistant Barbara Albertson, 254-3632. Also, all members of the club that will be leaving before our next coffee are asked to call Betty or Barbara.

The members of the Staff NCO Wives' Club Bowling League hung their bowling shirts in the closet and donned their dressy clothes to attend the Bowling Banquet at Ernie's in Kailua. They enjoyed a steak dinner and monkey pod pieces were the trophies for this league.

The first place team, the Beach Combers - Lois McGregor, Anne Mulligan, Virginia Duff and Jean Kiviaho - received a chip and dip set.

Second place team, the Gutter Dusters - Cecelia Finn, Jeanne Martin, Delores Hatfield and Bernice Dougherty - received half pineapple bowls.

Third place team, the Hawks - Gerri Payne, LaTrelle Walker, Mildred Sawdy and Sharon Piggott - received a pepper leaf.

Individual trophies were awarded to: Mary Frye, high game of 141, a wooden flower arrangement; Bernice Dougherty, high three of 491, a large sea shell; Anna Bond, high game of 210, a large sea shell; LaTrelle Walker, high three with handicap, 618, a

fruit bowl arrangement; Lois McGregor, high game with handicap, 217, a fruit bowl arrangement; Jean Valis, most improved bowler, plus 14, a snail dish; and Lois Yarber, bowler in the hole, a tiki statue.

The last place team, the Alley Cats - Peggy Castor, Barbara Mickle, Nancy Politano and Helen Fisk - received a standing fish pickle holder.

All ladies participating in the league received monkey pod banana dishes. To the ladies who served on the Trophy and Banquet Committees, Mahalo for making the banquet a success.

There is still time to get your name on the list for the next league which starts June 10. Interested members of the Staff Wives' Club may contact Bernice Dougherty, 254-3600, or Jean Kiviaho, 254-4096, after 5:30 p.m.

**'GET FIT' and 'STAY FIT'**

**"COST OF LIVING RISING on food."** Such is the regular 'headline' we see much too frequently. While we can't quickly do much about the garbled economics that has brought about this situation... each one of us can very definitely reduce the cost of food and 'pamperment' (I have coined this word to refer to things we ingest which are not in fact nourishment... but may actually do us harm).

There can be few people even in ghetto areas who are not ingesting more than the body requires for its health and well-being. Most of us are living on 'castle fare' although our bodies have in fact 'a toilers need'. This in an important respect is the tragedy of our civilized life.

Food... should first be considered for our health's sake and then as a social grace... never as an 'escape'.

A very large part of what is eaten and drunk nowadays is without nourishment value and that which is designed to titillate our tastes the most is in fact the most expensive and harmful.

Basic 'unrefined' items are still very economical... and even those on welfare assistance can be well nourished. It is a tragic waste of money and youthful health... that one sees every morning and after-school around the many 'coffee shops'. Doughnuts, slushes, pops, and such trash, bought by hundreds of children going to and coming from school. Where do they get so much money? What a burden their elders are placing upon them. They should be fed properly and at home.

No matter how well one selects nourishment... this alone, while the most important... is not enough. One must 'exercise' adequately to utilize the food eaten.

We coach our pupils on 'nourishment' and exercise. Everyone who enrolls with us get individual programming and coaching. You cannot fail our way. You must become totally fit.

# WINDY

Windy wandered locally outside the Main Gate last weekend, down Kalaheo "strip" until we reached one of Windward's most beautiful beaches - Kailua Beach Park.

Arriving early in the morning the beach looked desolate. Windy realized in a few short hours cars would cram parking spaces and the beach would be speckled with bikini-clad bathing beauties.

The weather was fine - the sun hot - and as minutes passed, car after car filed on to this Pacific beach.

It appeared they came to stay for good, for many brought enough outdoor equipment to make the gold digging "49-ers" seem foolish to attempt a cross-country trek.

The beach itself is beautiful. It curves into the white sand shore and the reef causes calmness of the sea. Though the water is salty, it is usually warm and good for novices to learn swimming.

Out on the ocean there are different colored sailboats which seem to drift aimlessly over the horizon. Palm trees blowing in the salty air give this South Pacific beach the image it endures. Mountains in the distance tumble to ocean floors giving Mother Nature this scenic shroud she's created during centuries past.

Throughout most of the afternoon you can observe two generations: elders huddling in picnic areas, and the young generation who find a temporary sanctuary from the pressures of reality.

Here is where the young people relax and think of summer vacation. Cares are temporarily forgotten - all concerned find freedom to do as they please.

No need to worry about school exams, long hair, length of skirts. Most are concerned about what's happening NOW - where the action is, who's on the beach, are they going with anyone and should I invite myself to their company.

The differences between both groups are clear as day and night:

\* Where youngsters carry small hand transistors, the old generation bring clumsy home-like radios. Young persons prefer listening to the pulsating sounds of KKUA compared to their elders who tune in FM.

\* Young sun worshippers relax on straw mats whereas oldsters sit in beach chairs.

\* Youngsters race in to the water and old folks inch their way out as if they were to evaporate if swooped under by a wave.

\* Teenagers came to the beach in vehicles that appeared to be turned away by junkies. Old folks ride in luxury.

\* The young generation buy refreshments at the concession

stand - oldsters bring food with them.

\* Youngsters are constantly on the go - strolling down the beach with transistor in hand. Oldsters prefer to relax on the beach and take an occasional dip in the water.

\* Conversations in both

groups vary. Where teenagers talk about records, singing groups, movies and romance, old folks discuss world tension, the value of the pound and the latest Dow Jones stock report.

The list goes on and on but all persons seem to have one thing in common: they all come to the beach for fun and relaxation. Though each group finds pleasure in their won way, Windy observed that most persons leaving Kailua Beach Park were a little reluctant to go.

# Past Carnival Highlights

Here's what a water carnival is all about: beautiful girls, sailboats cutting through the waves, canoes fighting for position in the numerous canoe races, beautiful girls, mighty powerboats roaring across the bay, skydivers floating earthward, beautiful girls, a carnival midway with fun and games for all, and more beautiful girls.

This year's carnival will not be on the same scope as carnivals of the past - it will be much larger. Two fun-packed days are planned for the 8th Annual K-Bay Water Carnival with each day offering excitement and action for all.

June 15 and 16 are the days to remember. Bring the family and enjoy the show.

## Queen Named . . .

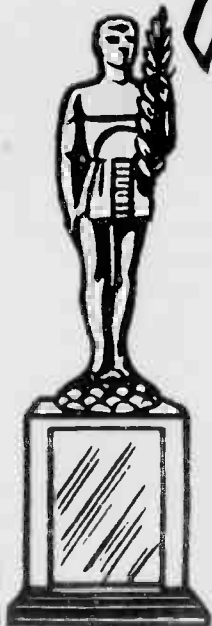

(Continued from page 1)  
make this the best show ever. Last year's carnival netted some \$20,000. This money was turned over to the K-Bay Youth Activities Association for use in their annual budget. The money ended up supplying such things as tents for the various scouting programs, baseballs and bats for Little League ball clubs, footballs and equipment for Little League Football, operating funds for the Teen Club, Summer Fun Program, Swim Club, Christain Youth Fellowship, and many others.

For two fun-filled days of midway excitement, bring the family to Kaneohe Marine Corps Air Station, June 15 and 16.

Results of the money collected by each unit, with the amount on a per man basis, is as follows:

Operations, \$16.09; PMRF, \$13.03; MACS-2/MATCU-70, \$10.15; 1st Radio Bn, \$10.10; H&HS, \$9.96; Supply, \$9.30; Hedron/Security, \$8.13; Public Works, \$6.75; 1st ANGLICO, \$6.00; VME-212, \$4.60; H&MS-24, \$4.46; and H&S Co., Brigade, \$1.12.

# Windward Bowmen Open Field Archery Range

Long past archers like William Tell, Robin Hood and his band of merry men never had it as good as the Windward Bowmen Archery Club aboard Station.

Cherrywood long bows have been replaced with sleek fiberglass and even the old warped wooden arrows have been done under with the advent of aluminum.

But, the skill of putting an arrow in the little bullseye is still there. With the opening of the Windward Bowmen's new outdoor field archery range June 2, today's modern archers will compete similarly with those of long ago.

The range, on the slopes below Kansas Tower, offers club members opportunities to shoot safely and competively aboard

## Changes Effect Grid Schedule

Two changes were announced in the Quantico Marines football schedule.

Presbyterian College (Clinton, S. C.) has been added and will be the opening game for Quantico, September 14. The Marines will travel to Clinton to play the Blue Hose in a Saturday night encounter.

The other change was in location. The site of the Quantico-East Tennessee game scheduled for November 2, was moved from Johnson City, Tennessee, to Quantico's Bulter Stadium.

The changes leave the Marines with a 10-game schedule, seven of them on the road.

Football coach King Dixon still in hopeful of scheduling a November 23 game at Butler Stadium to give the Marines a fourth home game.

Persons desiring to learn more about the Windward Bowmen should call John Colburn, 254-3726; Chuck Simpson, 254-2539 or Marv Kojder, 254-2925.

## Sports World Humor At Its Best

Humor has long been a part of the American way of life, especially dealing with sports. Here are some amusing anecdotes compiled by Franklin Hibel:

An American League umpire named Jack Kerns had a phobia against calling games. No matter how dark it got, Kerns felt that a ball game has to be at least nine innings. This, of course, was before night games and lights. One day in Washington's Griffith Stadium when Kerns refused to call a game, the pitcher in desperation huddled with his catcher and whispered, "Listen, you keep the ball in your mitt. I'll wind up and pretend to throw it. You pop your glove as though you'd caught it."

There were two strikes on the batter. The pitcher set himself and went through his motion: the catcher popped his mitt. "Strike three and out!"

"Strike?" screamed the batter.

May 29, and marked their ninth win against one defeat in Little League Baseball action.

Hurlers Bob Thornquist and John Arthur teamed to limit the Braves to one scratch single in the third inning. Arthur had a big night at the plate also, belting his third and fourth home-runs of the year in successive trips. Tim Paul powered a pitch out to notch his fourth round-tripper in the 27-hit barrage.

In other Little League play May 27, the Pirates bumped the second place Phillies for their fourth defeat, 13-9. The "Bucs" broke open a 4-all tie in the third inning pushing across seven runs on seven hits to take the lead.

The Phillies rebounded from their earlier loss, blitzing the cellar-bound Senators, 19-8 to mark their eighth season victory.

The Phils quickly jumped out to a 6-1 lead in the first inning, followed by another big, 5-run inning in the second.

In play June 1, the red-hot Twins jumped into the double figures column, copping their tenth win with a 9-3 verdict over the Athletics. Mike Tinney clouted a home-run, his first of the year, to lead his team to the victory.

Rounding out the youth action last week, the Pirates nipped the Braves, 4-3, after Greg Gibson doubled, stole third and came home on an error.

Fans got added entertainment last Sunday as the umpires met the managers in the "Game of the Year." The umps, proving to hold as much savvy at bat as they do behind the plate, bombed the managers, 35-13.
