Senior Leaders “...think multi-component...”

“No matter what the exercise, my guidance to all FORSCOM commanders, regardless of component, is to **think multi-component, total Army, in everything we do.**”

– Gen. Mark A. Milley
Commanding General, FORSCOM
Oct. 13, 2014, Washington
AUSA Annual Meeting

On Point Cybersecurity: Personal awareness key to success

Individual cybersecurity awareness focuses on the individual's understanding of their roles and responsibilities in reducing the occurrence of security incidents that undermine national security and degrade operational capabilities. Individual awareness allows individuals to review their cybersecurity training, to educate themselves about cybersecurity and to become more aware of cybersecurity and the cyber threats facing the Army, themselves and their family and friends. Cybersecurity is critical to all Army functions. Cyber attacks and user negligence threaten Army networks and information every day, putting Army operations and personnel at risk.

Network Integration Evaluation 15.1

Network Integration Evaluation (NIE) 15.1 is the eighth in a series of Soldier-led evaluations designed to further integrate and rapidly progress the Army's tactical communications network which is a critical Army modernization priority.

‘Ready, Reliable...Globally Responsive’ Command turns 10

Brig. Gen. JB Burton (right), commanding general of the 20th CBRNE Command (Chemical, Biological, Radiological, Nuclear, Explosives), talks with a Soldier from the 22nd Chemical Battalion (Technical Escort) during a training exercise on Fort A.P. Hill, Virginia, May 13, 2014. (U.S. Army photo courtesy of 20th CBRNE Public Affairs)

By Walter T. Ham IV, 20th CBRNE Command Public Affairs

ABERDEEN PROVING GROUND, Md. (Oct. 16, 2014) - The U.S. Department of Defense's only command that combats chemical, biological, radiological, nuclear and explosive hazards marked its 10th anniversary, Oct. 16.

Headquartered in Maryland's science, technology and security corridor on Aberdeen Proving Ground, 20th CBRNE Command (Chemical, Biological, Radiological, Nuclear, Explosives) was activated by U.S. Army Forces Command on Oct. 16, 2004, to consolidate the U.S. Army's CBRNE forces under one command.

“Since its creation, the 20th CBRNE Command has saved lives, protected property and enabled mission success around the globe,” said 20th CBRNE Commanding General, Brig. Gen. JB

Burton.

“The 20th CBRNE Command takes on the entire world every day,” said Burton. “Our Soldiers and civilians voluntarily deploy to the most dangerous places in the world to confront the most dangerous weapons in the world and they come face-to-face with our enemy's preferred weapons every day.”

Since 2004, Soldiers from 20th CBRNE Command have deployed to Iraq, Afghanistan, Kuwait and the Balkans. Together with their joint service partners, 20th CBRNE Command Explosive Ordnance Disposal technicians have defeated more than 50,000 IEDs.

Stationed on 19 posts in 16 states, 20th CBRNE units defuse unexploded ordnance, remediate chemical weapons sites and serve in the Defense CBRNE Response Force.

FORSCOM in the news

Division Commander Maj. Gen. Michael Bills and Division Command Sergeant Major Andrew Barteky, **uncased the 1st Cavalry Division colors** recently.
