### *Special Forces*

Special Forces (Green Berets) units perform seven missions - unconventional warfare, foreign internal defense, special reconnaissance, direct action, combatting terrorism, counter-proliferation, and information Operations. These missions make Special Forces unique because they are employed in peacetime, conflict and war. The Special Forces motto is “De Oppress Liber - to Free the Oppressed.”

### *Rangers*

The professionalism and capabilities of Army Special Operations Aviation are developed through a “train as you fight” mentality.

## Components

### *Civil Affairs Soldiers*

Civil Affairs units support military commanders by working with civil authorities and civilian populations in the commander's area of operations during peacetime, contingency operations and war. Civil Affairs specialists identify critical requirements needed by local citizens in war or disaster situations.

### *Military Information Support Operators*

MISO cover a broad range of U.S. political, military, economic and ideological activities used by the U.S. government to secure national objectives. MISO units develop, produce and disseminate information to foreign audiences in support of U.S. policies and national objectives.

*Sea, Air, Land (SEAL)*

The SEAL Team is the heart of the NSW force; a multipurpose combat force organized and trained to conduct a variety of Special Operations missions in all environments. SEALs conduct clandestine missions infiltrating their objective areas by fixed- and rotary-wing aircraft, Navy surface ships, combatant craft, submarines and ground mobility vehicles.

### *Special Warfare Combatant-craft Crewmen*

Special Boat Teams are manned by Special Warfare Combatant-craft Crewmen who operate and maintain state-of-the-art surface craft to conduct coastal patrol and interdiction and support Special Operations missions. Focusing on infiltration and exfiltration of SEALs and other SOF, SWCCs provide dedicated rapid mobility in shallow water areas where larger ships cannot operate. They also bring to the table a unique SOF capability: Maritime Combatant Craft Aerial Delivery System — the ability to deliver combat craft via parachute drop.

### *Enablers*

If SEALs and SWCC are considered to be the action arms of NSW, then the Enablers are the backbone of the organization. SEALs rely heavily on the services of technicians such as mobile communications teams, tactical cryptologic support and explosive ordnance disposal specialists. Enablers contribute heavily toward the success of the special warfare operations mission.

## Maritime - Undersea

**MK VIII MOD SEAL Delivery Vehicle and Dry Deck Shelter**

The Dry Deck Shelter is a floodable pressure vessel carried by a host submarine for undersea operations. A minimum crew of six Navy divers operates the controls for flooding, draining and pressurizing the DDS. The host submarine provides the DDS with electrical power and high-pressure air. The DDS can be used to launch and recover a SEAL Delivery Vehicle or to conduct mass swimmer lock-out/lock-in operations utilizing SEALs and Combat Rubber Raiding Craft. The divers who operate the DDS control assist in all launch and recovery operations.

**SEAL Delivery Vehicle**

The MK VIII MOD 1 SEAL Delivery Vehicle is a free-flooding wet submersible designed for undersea Special Operations including direct action, hydrographic reconnaissance and insertion/extraction of SEALs. SDVs can be inserted into the water via a DDS-equipped submarine, or surface ships.
