88th RSC **Organizational Overview**

"Providing worldclass services and base operations support to Army Reserve Soldiers, Families and Civilians in the northern U.S. from the Ohio River to the Pacific Coast"

he 88th Regional Support Command, and logistical services. These services are services and base operations support to services expected by units on active duty more than 46,500 Army Reserve Soldiers, installations. Families and Civilians serving in 525 units in 325 training facilities dispersed across vices, medical administrative support, 19 states in the northern U.S. from the Ohio funding, physical security, facilities, en-River Valley to the Pacific Coast.

headquartered on Fort McCoy, Wis., is typically beyond the capabilities of coma two-star command which provides mands and are most comparable to the

Examples include human resource servironmental compliance, training areas, Base Operations Support, or BASOPS, is safety, legal, religious support, force mandefined as the provision of administrative agement, equipment maintenance and

storage, new equipment fielding, and strategic outreach.

Accomplishing the 88th RSC's mission is a total force of more than 15,000 Army Reserve Soldiers, Military Technicians, Department of the Army Civilians and Contractors assigned throughout the northwest region.

Additionally, the 88th RSC coordinates Army Music support to the 19-state-region with the command and control of six Army Bands in seven different locations.

88th RSC Mission and Vision

Mission:

A geographically aligned and dispersed organization, building readiness by providing seamless, efficient and continual BASOPS services to primarily Army Reserve Soldiers, Civilians, Family members and units operating in our region. Provide Mission Command for assigned Bands and other units as directed.

Vision:

The 88th RSC builds readiness by continually providing best in class services and BASOPS support for Soldiers, Families, Civilians and supported commands with subordinate units operating within the 88th RSC AOR.

Strategic Objectives:

The 88th RSC has identified seven strategic objectives which provide our organization direction from the Mission to achieving the Vision

- Optimize Army Reserve land and facility functional capabilities to enable readiness of supported units.
- 2. Provide efficient and quality equipment maintenance, storage services and fielding to increase readiness of supported units.
- 3. Provide human resource life-cycle support to build readiness of OFTS Commands.
- 4. Provide effective mission command to subordinate units.
- 5. Foster a culture of cost management within the 88th RSC that ensures operational effectiveness and statutory/regulatory compliance while achieving business efficiencies and audit readiness.
- 6. Serve as a synchronizing and collaborating agent for messaging and interactions with strategic leaders, partners, and members of the community.
- 7. On order, stand up the 88th Readiness Division and build it into a capable regional mission command activity, serving as the center of gravity for readiness for the northwest region.

> The 88th RSC is committed to supporting your unit's readiness. Together we will ensure the Army Reserve is ready to meet any and all global requirements in support of Nation's strategic priorities. Please let us know how we can better serve you.

> > PATRICK J. REINERT Major General, USAR Commanding General

88th RSC Commander's Intent

We provide the facilities, programs and services required to enable Army Reserve readiness, sustain the Force, and provide the infrastructure for current and future mission requirements.

- We will gather and share best practices with other organizations to bring to bear the best solutions for delivering services, implementing programs, and sustaining facilities.
- We will inculcate sustainable Baldrige and Army Communities of Excellence principles throughout our business processes and procedures.
- We will use every opportunity to listen to and communicate effectively with our customers and our workforce.
- We will provide a safe workplace.

- We will remain committed to being a customer-centric organization that seeks and applies customer feedback to evaluate and improve the delivery and receipt of programs and services.
- We will be good stewards of the environment and the resources entrusted to us.
- We will target our resources to meet high priority needs of our customers while eliminating redundancies, identifying and mitigating risk, and optimizing return on investments.

88th RSC Facility

Official Mail Operations

Providing BASOPS service for Official Mail to all facilities located within the 88th RSC AOR.

acility Official Mail Operations is a function of the Directorate of Human Resources at the 88th RSC. The 88th RSC is responsible for postage expenditure for all facilitates within the 88th RCS Area of operations.

Our main objective is to standardize and provide same baseline level of service for official mail through <a>Stamps.com. The website explains the various training tools to assist you in learning how to meter your facility's mail.

As a reminder, only appointed official mail personnel may meter mail. Each facility is allowed up to three personnel to have access to the <u>Stamps.com</u> system. This means in addition to the listed facility mail manager who sets up the system, you can authorize two other personnel to serve as alternates. The personnel must be full time Military or DoD civilian employees.

In addition, your facility received a package from Stamps.com containing a scale, a label printer and other items to assist you in the transition. You will produce the meter strip from your own computer. In addition to the label printer, you are able to print postage in a variety of methods such as directly on the envelope, on a sheet of paper, or onto standard Avery labels.

To request postage under the new system, the facility mail manager will send an e-mail to the Admin Services mailbox. Once the 88th RSC OMM transfers funds into the facility subaccount, you will receive an e-mail informing you the transaction is complete.

For all Official Mail/FedEx issues send an e-mail to the team email address: usarmy.usarc.88-rsc.mbx.adminsvc@mail.mil

Official Mail Policies

The USPS will be used only when it is the least costly transportation method which will meet the required delivery date, security, accountability, and Private Express **Statute requirements.**

When mailed, official matter will move at the lowest postage rate that meets the required delivery date, security, and accountability requirements. Official matter becomes official mail when it is postmarked by a distribution center or is placed under USPS control, whichever occurs first. Official matter ceases to be official mail when control passes from USPS or its representatives to the OMDC of the addressee.

Tips for Cost Effective Mailing

- · When mailing six sheets or less of bond paper, use a letter size envelope.
- Send correspondence by e-mail or fax whenever appropriate and possible.
- · Mail using the lowest postal rate legally possible that meets required delivery date and security requirements.
- When mailing several items to the same address, it is less expensive to place all items in a single envelope than to use multiple envelopes.
- Check with your OMDC for activities/ agencies within the local area that are serviced by couriers-no postage required. If you need evidence that something was mailed or receiveduse Certificate of Mailing or Delivery Confirmation whenever possible.
- Limit use of express mail to instances when absolutely necessary.

- Determine if use of other commercial carriers is cheaper for shipments of items not under the Private Express Statutes.
- Review recurring mailings for continued necessity.
- · Limit use of merchandise return, BRM, and special services such as registered, certified, and insured.
- Use drop-shipments for zone rated mail when cost effective.
- Ensure USPS "shape based" pricing is considered when packaging.
- Use packaging provided free of charge by USPS whenever possible.
- Use USPS Priority Flat Rate envelopes and boxes whenever cost effective.
- · For additional information and guidance, contact your OMM.

and Assistance System. When issues are discovered, corrective actions are recorded, tracked, and completed.

Staff assistance visits provide further assistance and guidance as needed. Failure to comply with environmental regulations can result in civil and criminal prosecution.

The 88th RSC proactively pursues compliance through planning and review, while working closely with facilities and units to provide guidance and improvement.

Environmental Compliance

The 88th RSC is committed to environmental protection and enhancement, pollution prevention and continual improvement.

This is accomplished by meeting or exceeding environmental standards and regulations, enabling Army Reserve operations to maximize readiness and protect Soldiers through the institutionalization of best management practices.

88TH RSC RESOURCE GUIDE ~ JULY 2017

he 88th RSC Conservation Program is tasked with the protection of our history, the people, and the land on which we live.

The Conservation Program is broken down into three areas: Cultural Resources, Natural Resources and Pest Management. Please contact your local 88th RSC Area **Environmental Protection** Specialist if you have any questions or concerns.

Cultural Resources are the establishment of a historic preservation program, to include the identification, evaluation, and treatment of historic and cultural properties in consultation with the Advisory Council on Historic Preservation, State Historic Preservation Officer, local governments, Federally-recognized Indian Tribes, and the public, as appropriate, in accordance with federal, state, and local regulations as well as DoD and DA guidance.

Natural Resources provide for the conservation and rehabilitation of natural resources to protect wildlife, sensitive species and ecosystems on Army lands while supporting the training mission. To maintain the ecosystem, a variety of methods are used to include prescribed burns, mowing, agricultural leases, timber harvest, and chemical application to control weeds. By controlling the factors that degrade the ecosystem we support threatened and endangered species, wildlife and habitats.

Pest Management is the protection of the people and property from nuisance animal, insect and plant species which can physically injure, harbor disease and/or contain toxins. The 88th RSC uses Integrated Pest Management approach to address the issues associated with nuisances.

More about

Pest Management

The 88th RSC embraces an Integrated Pest Management approach to managing pests IAW AR 200-1 and DODI 4150.7. Pests are broadly defined as any plant, animal or insect whose activities interfere with human health, comfort, and/or property.

Pest management operations are conducted in a manner respectful to the health and safety of personnel and the environment. Pest management responsibility begins with those individuals who occupy or maintain buildings or open space on any 88th RSC facilities.

Non-chemical control efforts are used to the maximum extent possible before pesticides are used. This is done by using Integrated Pest Management principles which consists of combining mechanical and physical, cultural, biological, and chemical control techniques to achieve effective results with minimal environmental contamination.

If pest services are needed, submit a CSS ticket or contact your aFOS or aEPS.

Having properly trained people leads safer, and more knowledgeable personnel. Environmental Training is not only a re- Additionally, it promotes improved Soldier tions, reduction in waste and the cost of clean-ups.

Environmental considerations must be integrated into all our activities. Therefore, we request Commanders and Supervisors at all levels in 88th RSC facilities to comply with all applicable environmental protection regulations and policy.

Always ensure personnel receive all reguired training, as well as ensure all major training events have an environmental risk assessment completed by a trained Environmental Compliance Officer.

88th RSC Environmental Training Courses

Hazardous Materials/ Hazardous Waste Generators Initial Course:

What: This is a 5-day (32-hour) course, which meets the hazardous waste generator requirements under Federal Law and Army Regulations. Hazardous material and waste training is a major component of the Environmental Compliance Program.

Who: All full time support personnel working with hazardous materials and hazardous waste must be trained and hold a current certificate. This includes, but is not limited to AGR Motor Sergeants, AGR Supply Sergeants, and all (AMSA/ECS) mechanics.

Hazardous Materials/Hazardous Waste Generators Annual Refresher Course:

What: The 8-hour annual requirement after completing the Initial course to reinforce the issues discussed.

Who: Personnel who have completed the Initial Hazardous Materials/Hazardous Waste Generators course.

Environmental Risk: Advanced Environmental Compliance Officer Training Course:

What: This is a one-day (8-hour) course designed to inform the student of the roles and responsibilities of the ECO and to support the Command as required in AR 200-1. The course is centered on an exercise for the preparation, execution, and return from a training exercise. It covers many environmental aspects of the operation to include coordinating with the host environmental office.

Who: IAW AR 200-1, each Commander must appoint a Unit Environmental Compliance Officer (ECO) to monitor the unit's environmental compliance and advise on environmental requirements whether it is laws at Home Station, U.S. installation or Host Nation.

Reserve Soldier Hazardous Materials/Waste/Spill Clean-Up Course:

What: This is a half-day (4-hour) awareness course that combines an overview of hazardous materials and hazardous waste issues and/ or a condensed spill clean-up course.

Who: Intended for units whose personnel meet the requirement for hazardous material/hazardous waste training, but cannot attend the Initial course. This course is offered at the request of the unit Commander and can be held on drill weekends at the unit's location.

Energy Saving Tips

Lighting

- Turn off lights when not in use. Interior fire lights will remain on at all times.
- Use only minimal lighting necessary in hallways during duty hours.
- Exterior lights are only turned on during hours of darkness.

Water conservation

- Turn off water faucets when not immediately needed.
- Ensure irrigation of grounds is done at night or early morning.
- Report all water leaks or improperly functioning fixtures immediately to the aFOS.

Door discipline

- Requires constant monitoring and on-thespot corrections by leadership.
- · Keep exterior doors, interior doors for foyers or leading to unheated and un-cooled rooms, and stairwell and fire doors, closed

Electronic devices

• Turn off when not in use and at the end of every business day.

Windows

- Keep windows closed during winter heating season and keep shades open.
- · Windows may be opened in spring and fall when heating and cooling are not needed.
- Keep windows and blinds closed during summer season to restrict daytime heat.

Freezers and refrigerators

- Turn off or down settings when not used.
- · Consolidate items into one unit.
- Do not operate personal refrigerators.

Indoor temperatures

- Max 72°F when heating
- Min 76°F when cooling.
- Turn off heat, unless genuine need exists, when outdoor temperature is above 65°F.
- Turn off AC when outdoor temperature drops below 78°F.
- Do not heat above 50°F or air condition unoccupied rooms and buildings.
- Space heaters and window AC units are prohibited unless authorized by Facility Commander and approved by 88th RSC.

10.5 million dollars were spent by the 88th RSC on Utilities in FY16

25% of all facilities are audited annually for energy conservation

Facility Protection

Always ready - always alert, because someone is counting on you!

he 88th RSC full fills critical roles in the protection of Army Reserve Facilities within the command's 19-state region. There are six Physical Security Inspectors in the region performing regulatory inspections of all USAR assets on an 18 month rotational basis, with re-inspections occurring as required.

Inspections identify structural and procedural deficiencies. Correcting proce-dural deficiencies is a unit command responsibility. Facility coordinators ad-dress structural deficiencies using the 88th RSC's Customer Support System (CSS).

Inspected commands can access their inspection reports via the USARC Physical Security Integrated Compliance Tool at https://opminspections.ar.ds.army.mil. To be able to see a report, commanders and command representatives must first access the site, so that their digital imprint is made.

Antiterrorism Program

The 88th RSC Antiterrorism program provides multiple services to units and Soldiers across the region.

Support includes threat, criticality and vulnerability assessments, as well as guidance for facility antiterrorism planning.

Additionally, the 88th RSC conducts comprehensive program reviews. All commands are required to conduct triennial AT Program Assessments and forward a completed copy to 88th RSC ATO.

Personnel Security

The 88th RSC Personnel Security Office provides and array of support to Soldiers, Civilians and Contractors.

These include assistance obtaining and renewing security clearances, fingerprinting, and foreign travel threat briefings.

They also assist in obtaining permission for weapon vault unaccompanied access, Local Area Network access, and contractor Common Access Cards. 840 urity Compliar

Welding & Fabrication Sustainment Training

Students will become familiar with the following Welding Process to include, Principles, Theories and Best Practices as well as all Safety aspects of each process; Shielded Metal Arc Welding, Gas metal Arc Welding, Gas Tungsten Arc Welding, Oxy-Acetylene Flame Cutting, Plasma Cutting.

RT-608: Refrigeration and EPA-608

Students will be trained on fundamentals of how refrigeration works and instruction on system maintenance, diagnostics and repair. An EPA-608 test will be given for certification. Students will demonstrate hands-on proficiency in diagnostics and repair.

ART-609: Automotive Refrigeration Training & EPA 609

Students will be trained on fundamentals of how refrigeration works and instruction on system maintenance, diagnostics and repair. An EPA-609 test will be given for certification. Students will demonstrate hands-on proficiency in diagnostics and repair.

ASV-FLM: Armored Security Vehicle-Field level Maintenance

Students will be given an overview of the M1117 Armored Security Vehicle and provided in depth instruction on vehicle systems. Students will become familiar with the components of all the systems of the ASV and will identify component locations, functions of components and systems, possible malfunctions and troubleshooting procedures. Students will remove turret and the engine and drive assembly.

KALMAR RTCH FLM: KALMAR-Rough Terrain Container Handler FLM

Students will learn in a mixture of classroom and maintenance shop bay environment. Students will be given instruction on operation of the Rough Terrain Container Handler and in depth instruction of maintenance procedures, to include troubleshooting the hydraulic & electrical systems. This course is primarily on maintenance procedures, and will not result in driver certification or licensing.

FMTV-FLM: Family of Medium Tactical Vehicles-Field Level Maintenance

Students will be given an overview of the Family of Medium Tactical Vehicles and provided in depth instruction on vehicle systems. Students will become familiar with the components of all systems of the FMTV and identify component locations, functions of components and systems, possible malfunctions and troubleshooting procedures.

HEMTT-FLM: Heavy Expandable Mobility Tactical Truck

Students will be given an overview of the Heavy Expanded Mobility Tactical Trucks and provided instruction on vehicle systems. Students will become familiar with the components of all systems of the HEMTT and identify component locations, functions of components and systems, possible malfunctions and troubleshooting procedures.

BHL-FLM: Backhoe Loader Field Level Maintenance

Students will be given an overview of the Back Hoe Loader and provided in depth instruction on vehicle systems. Students will become familiar with the components of all the systems of the BHL and will identify component locations, functions of components and systems, possible malfunctions and troubleshooting procedures.

M9 ACE - FLM: M9 Armored Combat Excavator (Ace)-Field Level Maintenance

Students will be given an overview of the M9 Armored Combat Excavator and provided instruction on vehicle systems. Students will become familiar with the components of all the systems of the ACE and will identify component locations, functions of components and systems, possible malfunctions and troubleshooting procedures.

M966H-FLM: M966H 5 Yard Loader - Field Level Maintenance

Students will be given an overview of the M966H 5 Yard Loader and provided in depth instruction on vehicle systems. Students will become familiar with the components of all the systems of the M966H and will identify component locations, functions of components and systems, possible malfunctions and troubleshooting procedures.

Human Immunodeficiency

Virus Assistance

IV Assistance Program is a function of the Directorate of Human Resources at the 88th RSC. The 88th RSC will provide Commander and Soldier assistance to units in support of its BASOPS mission.

- Role of the HIV Program Manager: Upon positive test results, the 88th RSC Program Manager will receive notification from HRC/USARC that a Soldier may be infected in its BASOPS AO; program manager will notify the unit CDR and walk through the process for Soldier counseling, a second confirmatory test, and Soldier retention options.
- Can a HIV Soldier remain in the Selected Reserve? Generally yes. Soldiers found fit will be permitted to serve in the Selected Reserve in a nondeployed billet, if available. Grade, MOS, and commuting constraints are applicable per existing regulations. Soldiers meeting fitness standards and placed in nondeployable billets must be re-evaluated at least annually. Initial and subsequent evaluations will be at the Soldier's expense, see AR 600-110, para 7-12a.
- Separation Procedures: HIV infected USAR Soldiers who demonstrate progressive clinical illness or immunological deficiency, as determined by medical authorities, and who do not meet medical retention standards under AR 40–501 will be processed per AR 135–178 (enlisted) or AR 135–175 (officer), see AR 600-110, para 7-13b.
- Soldier Confidentiality: Soldier HIV status will be treated with the utmost confidentiality, IAW HIPPA standards. Only those individuals in the Soldier's chain of command who your commander has decided have a "need to know."

Psychological Health

Services and support to manage change, transitions, and readjustment for our Soldiers and their Families.

he U.S. Army Reserve Psychological Health Program serves to enhance resilience and assist with recovery of Army Reserve service members and their families through outreach, education and training, non-stigmatizing behavioral health screenings and referral resources.

The Program provides support for psychological health concerns to ensure service members and their families are psychologically ready and resilient to carry out their mission.

We connect geographically dispersed service members and their families with relevant resources within their community.

The Psychological Health Program also serves to assist and empower Army Reserve leaders in advocating, referring, monitoring and caring for Reserve service members.

By empowering those who serve in the Army Reserve as well as their Families, we strengthen resiliency as well as readiness. If you, your battle buddy, or Family member needs support in managing change, transition or readjustment, contact your Director of Psychological Health Office.

It is normal to experience a range of intense emotions before, during, and after periods of stressful events. Sometimes even the strongest Soldiers need additional support

- Balancing Reserve and civilian expectations
- · Recent struggle or break-up in a significant relationship
- Financial difficulties
- · Job transition, tension and unemployment
- Health issues related to or affecting military services
- Increasing anger or frustration with other people
- Avoiding social situations
- Withdrawing from friends and Family
- Feeling stuck
- Feeling different from others
- · Decreasing work performance
- · Worrying that issues may affect your career

Facility Safety Inspections

Ensuring Work-Place and Soldier Safety

he 88th RSC Safety Office continuously travels the region visiting facilities to increase safety compliance.

In FY16 they conducted 115 Safety Inspections and coordinated 15 Federal Occupational Health Industrial Hygiene Surveys.

These inspections ensure the health and wellbeing of all Soldiers and Civilians working within the fa-

When discrepancies are found, facility managers are given corrective actions to take and the required time to accomplish them.

The end goal is to fully mitigate all hazards and prevent personnel injury In this ongoing effort, it is required

for all personnel to be familiar with regulations, abide by guidelines, make on-the-spot corrections, and report the hazard when necessary.

Common Safety Deficiencies Found Within ARCs:

- Fire extinguisher monthly inspects not recorded.
- · Annual fire extinguisher servicing not completed.
- Annual facility fire inspection not completed.
- Emergency light is non-functional.
- Extension cords run through ceiling panels.
- Extension cords used for high draw equipment.
- Electrical receptacles with no cover, exposing live electrical parts.
- Heat generating appliances, i.e. refrigerators, coffee pots, microwaves not directly plugged into wall outlets.
- Use of portable heaters not approved, no automatic shut off feature, or not UL or NRTL listed.
- Rooms used for storage with no discernible aisles.
- Emergency exits and aisles blocked with equipment.
- Electrical panel boards exposing live electrical parts.
- Multiple extension cords and multi-receptacle outlet units connected to one another. This is a very dangerous practice AND THE MOST COMMON SERIOUS DEFICIENCY.

Motorcycle Safety Program

Rider Safety Courses are **MANDATORY** for all Soldiers operating motorcycles while on duty status or on a military installation.

All Soldiers in the Northwest region can attend Rider Safety Courses for FREE through the 88th RSC Motorcycle Safety Program

he 88th RSC Safety Office can fund dation based Basic Rider Courses, istration fee payment. Experienced Rider Courses, and Sport Bike Rider Courses.

then visit the MSF website, www.msf-usa. from with your commander, supervisor, or org to find a company that offers motor- unit administrator's approval. cycle training in your area.

course, call the company to pre-register, information in an e-mail to 88th RSC Safety inform them that your reservation will be Office at usarmy.usarc.88-rsc.list.safety-allpaid for by the 88th RSC.

Make sure you get the person's name Soldiers for Motorcycle Safety Foun- and telephone number who handles reg-

Complete a SF 182, Authorization, Agreement and Certification of Training Begin by informing your supervisor and and 88th RSC motorcycle training request

Provide enrollment information to your When you are sure you can attend the supervisor and safety officer; include this users@mail.mil.

Course requests to the 88th RSC must be received at least 30 days prior to start date to allow arrangement for payment.

The Safety Office will contact the company once the request is received. The intent of the 88th RSC is to issue payment as early as possible after receiving the reguired information, but no earlier than 45

Immediately after course completion, you must e-mail a copy of your certificate or MSF card to both your supervisor and the 88th RSC Safety Office.

Military Personnel are required to wear proper personal protective equipment whenever operating a motorcycle

HELMET: Helmets are required and must meet DOD and DOT standards. Helmets are the single most important item of PPE and should be comfortable and fit snug.

EYE PROTECTION: Eye protection is required; it can be a full-shield helmet or goggles. Impact or shatter resistant goggles, wrap-around glasses, or full face shield properly attached to the helmet must meet or exceed ANSI Safety Code Z87.1, for impact and shatter resistance. A windshield alone is not proper eye protection.

JACKET: A long sleeved shirt or jacket must be worn. When driving during the day, a brightly colored outer upper garment will be worn. Reflective upper garment must be worn at night.

GLOVES: Closed-finger Gloves are required and should be made specifically for motorcycle use. The intent is to protect riders' fingers from strikes from flying objects. Gloves that are not for motorcycle use, provide less and protection.

PANTS: Pants are required to cover the entire leg and should provide the same protection against abrasion as jackets.

BOOTS: Over-the-ankle footwear is required and should be made of sturdy leather and have a good oil resistant sale to reduce slipping hazards. Army boots meet the requirement.

What is the Basic Rider Course?

The Basic Rider Course is a complete entry-level, learn-to-ride class that consists of at least 15 hours of formal classroom activities and oncycle riding exercises conducted over two or three days.

About five hours are devoted to learning activities in the classroom, and around 10 hours of hands-on practice is included. Training motorcycles are provided. Successful completion may lead to a waiver of the motorcycle license skill test and an insurance discount.

Prerequisites: Ability to ride a bicycle. Full protective attire is required. Must be of legal age to operate a motorcycle on the street. Depending on state; participants may need a driver's license and/or motorcycle permit.

88TH RSC RESOURCE GUIDE ~ JULY 2017

Sleeping in Facilities

Requires Planning, Preparation and Approval

Il units wishing to have Soldiers sleep in Army Reserve Facilities within the northwest region must first gain approval for from the 88th RSC Safety and Occupational Health Office.

Sleeping in an 88th RSC facility will be approved on a case-by-case basis. Determinations will be based on facility evaluations, risk assessments, effective implementation of risk reduction measures, and mission needs.

"Incidental" sleeping in any Reserve Center is considered non-daily/non-routine utilization of facilities by individual(s) under the command and control of the local or facility commander. Soldiers are lodged overnight in conjunction with Inactive Duty Training, Annual Training, or other duty status operations.

Restrictions imposed for utilization of facilities for sleeping do not apply during times of natural disaster, civic unrest, or mobilization for war. Full utilization of Army Reserve facilities is authorized during war and emergency/disaster relief operations, when authorized.

as Incidental Sleeping Quarters must be submitted in writing 30 days prior to the recommendations have been completed, scheduled event. Commanders will sub- the packet will be forwarded to the 88th mit an Incidental Sleep Plan in accordance RSC DCG for final approval. with this memo to the 88th RSC for each event. Alcohol & Drug Control

Drug Demand Reduction and Substance Abuse Assistance

rug Demand Reduction is a function of the 88th RSC's Directorate of Human Resources.

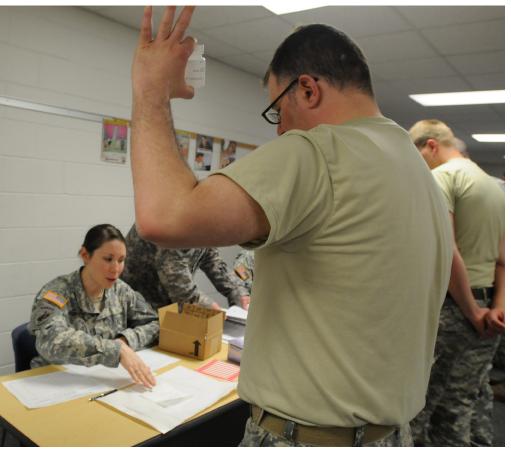

The 88th RSC is responsible for providing Substance Abuse Assistance to its units and in support of its BASOPS mission.

The Army Substance Abuse Program (ASAP) is a command program that emphasizes readiness and personal responsibility.

The use of illicit drugs and the abuse of legal drugs or alcohol by either military or civilian personnel employed by the Army are inconsistent with Army values and the standards of performance, discipline, and readiness necessary to accomplish the Army's mission.

The command mission role is the prevention, biochemical testing, early identification of problems, rehabilitation and administration of judicial actions as needed.

All Commanders and staff will ensure that all officials and supervisors support the ASAP mission and roles., IAW AR 600-85, Army Substance Abuse Program. The USAR urinalysis testing rate will be one hundred percent random testing of assigned strength.

Frequent and accurate drug testing of Soldiers is an effective deterrence against the usage of illegal substances and supports mission readiness.

Signs of Drug Abuse and Addiction:

- People with drug problems might act differently than they used to.
- They might: spend a lot of time alone
- Lose interest in their favorite things
- Get messy—for instance, not bathe, change clothes, or brush their teeth
- Be really tired and sad
- Be very energetic, talk fast, or say things that don't make sense
- Be nervous or cranky (in a bad mood)
- Quickly change between feeling bad and feeling good
- Sleep at strange hours
- Miss important appointments
- Have problems at work
- Eat a lot more or a lot less than usual

"People with an addiction usually can't stop taking the drug on their own. They want and need more. They might try to stop taking the drug and then feel really sick. Then they take the drug again to stop feeling sick. They keep using the drug even though it's causing terrible Family, health, or legal problems. They need help to stop using drugs."

Source: National Institute of Drug Abuse (Revised March 2013

Where to Get Help: Following resources can provide referrals to counseling and/or assistance programs which may help employees with drug or alcohol problems to find local treatment resources, including peer support and recovery groups.

Education Services

Preparing today's Soldier for tomorrow

"Education is the key to unlock the golden door of freedom." **George Washington Carver**

he 88th RSC employs five Education Service Specialists (ESS) who are services consisting of: available to provide educational support to Army Reserve Soldiers, Families and Army Civilians throughout the northwest region.

The 88th RSC ESSs serve as part of the greater Department of Defense military education program and are able to provide a wealth of educational resources to ensure your success.

The five 88th RSC ESS's provide core

- Educational Counselling
- Degree Planning
- Tuition Assistance
- Testina
- Financial Aid
- Student Loan Repayment
- and much more!

The 88th RSC ESSs are available to provide unit level education benefits briefs institutions.

and command level education fairs.

The education offices provide guidance at the start and critical decision points. This is where an ESS can provide the largest impact to assist Soldiers in their pursuit of continuing education.

An ESS can provide detailed learning options based on cost, location, or time. They are well versed in the nuances of traditional and non-traditional learning

Tuition Assistance

The Tuition Assistance program provides financial assistance for voluntary off-duty education programs in support of a Soldier's professional and personal self-development goals. TA is available for courses that are offered in the classroom or by distance learning and is part of an approved academic degree or certificate program.

TA is an integral element of the Army Reserve's continuing education program. The 88th RSC ESS's devote a significant amount of effort helping Soldiers navigate the tuition assistance process to ensure payments are timely and accurate.

The 88th RSC Education Services looks forward to serving Soldiers and enhancing their military and civilian careers through education and skills.

Guiding Principles

- Education is an integral part of the Army culture.
- Lifelong learning is for everyone.
- Education enhances quality of life and mission readiness.
- Education programs and services are customer driven.
- Diversity demands flexibility.
- Professional development of our workforce is non-negotiable.

88TH RSC RESOURCE GUIDE ~ JULY 2017

88th RSC office of the **Inspector General**

Mission of the IG:

Advise the Commanding General on the overall welfare and state of discipline of the Command. Provide a continuous assessment of the Command's operational and administrative effectiveness.

Determine the discipline, efficiency, economy, morale, training, and readiness of the Regional Support Command, Headquarters and Headquarters Company, and its subordinate and supported units.

Provide recommendations to the Commander in order to eliminate shortcomings and violations of standards.

Receive, review, and process complaints, requests for assistance, advice, information, or grievances from individuals assigned to the Command, and ensure appropriate action is taken.

Confidentiality

All IGs have a duty to protect, to the maximum extent possible, the personal identity of a complainant, witness or any other individual providing information to the IG, particularly when the individual specifically requests confidentiality. Confidentiality and discretion are core concepts for IGs, though IGs do not have a complete legal privilege of confidentiality. Rather, IG confidentiality results from the IG's special relationship with the commander, the deliberative process, protection in the FOIA and the PA, and as a necessary incident to the protections of 10 USC 1034.

~AR 20-1, para 1-12

Do you need assistance from the IG?

We review and process complaints, requests for assistance, advice, information and grievances to ensure appropriate action is taken.

Who May File IG Complaints?

Assistance is the IG function that provides Soldiers, Family members, DA Civilians, retirees, and contract employees the ability to seek help from the IG on matters affecting their health, welfare, and personal readiness. However, anyone may submit a complaint, allegation, or request for information or assistance to any Army IG concerning a matter of Army interest.

~AR 20-1, para 6-1

IGs Do Not...

- -Recommend punishment
- -Interpret law
- -Establish command policy
- -Exercise directive authority
- -Change established redress procedures

~AR 20-1, para 2-7

Be Ready to be Asked...

- 1. What do you want the IG to do for you? This is the single most important question an IG will ask when receiving complaints. It helps to focus the complainant and ensures that the matters of concern are of Army interest and appropriate for the IG.
- 2. Do you have any supporting documents?
- 3. Have you requested assistance from any other source or agency?
- 4. Have you given your chain of command an opportunity to address the problem?
- 5. What is your status (active duty, reserve, DA civilian, retiree, etc)?

Before you contact IG...

- 1. IGs encourage the Soldier or civilian employee to discuss first with the chain of command any issues, allegations or requests for assistance with the commander, chain of command, or supervisor.
- 2. Contact your IG office or nearest IG staff for assistance or information.
- 3. Keep in mind that IGs only make recommendations, not order a resolution.
- 4. Be patient and don't expect instant action on your request. Investigations take time and IGs tend to have heavy workloads.
- 5. Be mentally prepared for a final response that may not give you the answer wanted. The IG will however explain how and why the final answer was determined.

Sexual Harassment Assault Response

SHARP CHANGING THE CULTURE of Reporting Sexual Harassment & Sexual Assault

The SHARP Program's mission is to reduce with an aim toward eliminating sexual offenses within the Army through cultural change, prevention, intervention, investigation, accountability, advocacy/response, assessment, and training to sustain the All-Volunteer Force.

n 2 June 2014, the Chief of Staff, Army, directed the implementation of a Sexual Harassment, Assault Response and Prevention Resource Center Pilot Program.

The prevention of and response to sex- AM. STRONG). ual assault and harassment continues to be one of the CSA's top priorities. As a result, our goal is to reduce and ultimately enemy within our ranks. eliminate these crimes from our ranks. The pursuit of that goal requires our Army to we must focus on potential offenders early be flexible and open to new ideas and approaches.

The SHARP Program is focused on identifying problems at the earliest level (sex-

ual innuendo and harassment) and dealing with that problem head-on before it evolves into sexual assault.

SHARP also focuses on the need for bystanders to Intervene, Act and Motivate (I.

Soldiers are expected to change the norm and take action early to combat the

Rather than focus on victims reactively, - in the harassment stage - proactively. NO MORE INNOCENT BYSTANDERS! We are a profession of Arms and we need to police each other up!

Under the Department of Defense's Confidentiality Policy, sexual assault victims are offered two reporting options: restricted reporting and unrestricted reporting. While DoD prefers unrestricted reporting of sexual assaults to activate law enforcement actions, it recognizes that some victims desire only medical, legal, advocate, and support services and no command or law enforcement involvement.

DoD's first priority is to protect the victims; treat them with dignity and respect; and to provide them with the medical treatment, legal assistance, victim assistance, care and counseling they deserve.

Special Victim Counsel Program

Sexual Assault is absolutely unacceptable, but the ugly truth is that it happens. In order to help in the fight against Sexual Assault, the Army recently implemented the Special Victim Counsel Program (SVCP), which addresses the reality that victims of sexual assaults often have special interests that are unique to the prosecution of this type of crime.

The SVC services are available to Soldiers, their adult Family members, and other Service members in cases where the offender is a Soldier. These victims are eligible even if the offense took place offpost and was committed by a civilian, and services are available regardless of whether a victim chooses to file an unrestricted or restricted report. SVCs will diligently argue for the best interests of victims of sexual assault while also maintaining complete confidentiality and ensuring the attorney-client privilege.

If you are a victim of a sexual assault and would like to speak with the SVC servicing Fort McCoy, please call the 24/7 Sexual Assault Hotline at (608) 388-5000 or the SHARP office at (608) 388-0315 and an appointment will be set up for you.

When I recognize a threat to my fellow Soldiers, I will have the personal courage to INTERVENE and prevent sexual assault. I will condemn acts of sexual harassment. I will not abide obscene gestures. language, or behavior. I am a Warrior and a member of a team. I will INTERVENE.

You are my brother, my sister, my fellow Soldier. It is my duty to stand up for you, no matter the time or place, I will take ACTION. I will do what's right. I will prevent sexual harassment and sexual assault. I will not tolerate sexually offensive behavior. I will ACT.

We are American Soldiers, MOTIVATED to keep our fellow Soldiers safe. It is our mission to prevent sexual harassment and sexual assault. We will denounce sexual misconduct. As Soldiers, we are all MOTIVATED to take action. We are strongest...together.

Strong Bonds Program

"Strengthening the Relationships - that matter the most"

he strength of the Army Reserve is only as strong as the relationships that support the Soldiers within it. The Army Reserve works to improve the resiliency of those relationships with a chaplain-led program called Strong Bonds.

The Strong Bonds Training Program offers skills-basedtraining that focuses on enhancing the most important relationships. These skills can make good relationships great and assist you to persevere through difficult times.

Strong Bonds is conducted in an off-site training format to maximize the training effect. This training provides an interactive, safe, and secure environment to address many challenges of the military.

ELIGIBILITY:

All Army Reserve Soldiers residing within the 88th RSC's region are eligible to attend Strong Bonds events held by the 88th RSC.

Typically, Soldiers may only attend training events within 400 miles of their residence.

Soldiers who are geographically remote or geographic bachelors must contact the 88th RSC Strong Bonds Team for exceptions to the above requirements

FUNDING:

Orders for TPU Soldiers who live in the 88th RSC footprint are funded, created and emailed to the Soldier by the 88th RSC Strong Bonds Team.

Soldiers attend training in ADT status and receive pay and retirement points. These orders will be certified at the end of training; the orders will be turned into your unit for pay.

If you are AGR or on an ADOS-RC order, you will not receive ADT orders.

Strong Bonds Single Soldier and Married Couple participants are given tools and information to enhance communication and healthier relationships with a nationally recognized curriculum from Prevention Relationship Enhancement Program, or PREP.

Family event participants are instructed using a program called Family Wellness.

Using these curriculum, participants are led through video and workbook-supported discussions on various aspects of communication, personalities and problem solving.

This training provides an interactive, safe, and secure environment to address many challenges of the military life.

The Strong Bonds **Program** offers three **learning** tracks

Married Couple Training: Train in effective communication, conflict management, developing friendship and fun with your partner.

Family Training: Build your team dynamic through training in managing change in all types of Families, raising healthy children, and maintaining healthy relationships.

Single Soldier Training: Develop better self awareness and skills to make wise choices for long-lasting, healthy relationships.

The 88th RSC conducts 10 to 15 Strong Bond events a year. Please visit our facebook page (www.facebook.com/88thRSCStrongBonds) or contact us directly for the most up to date listing. Registrations must be received no later than 30 days prior to training. Exceptions will be considered on a case by case basis. Upon successful registration you will receive an e-mail confirming your registration and you will receive an event specific MOI.

88th RSC Suicide Prevention

Program Office

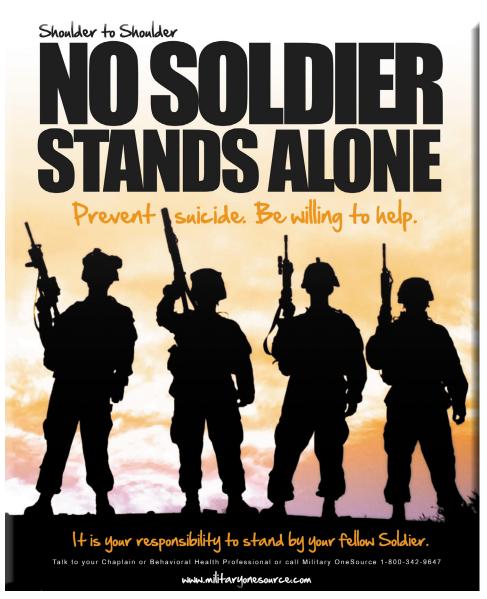

he 88th RSC's Suicide Prevention Program Manager provides Suicide Prevention, Intervention and Postvention Training support to all Unit's within the northwest region.

The Office also conducts outreach and informational support to the 88th RSC Yellow Ribbon Reintegration Program.

In addition, the Program Office provides support to the community and develops support systems of available Suicide Prevention and Intervention resources.

It is our mission to assist Units attending Annual Training at Fort McCoy for all services as they relate to suicide, to include, expertise on local resources for Soldiers in need, assisting commands on reporting processes and how to assess resource both in the Fort McCoy area and getting Soldier safely back to their Home of Record and follow on services (through our Director of Psychological Health).

The Program Manager is accessible 24 hours a day seven days a week for the above services.

Suicide Prevention and Intervention Training

The 88th RSC conducts regional Applied Suicide Intervention Skills Training (ASIST), Quarterly ASIST Train the Trainer (ASIST-T4T), and Ask-Care-Escort Suicide Intervention Train the Trainer (ACE-SI T4T) workshops. Please contact the 88th RSC Suicide Program Manager for more information.

ASIST Training: Applied Suicide Intervention Skills Training (ASIST) prepares personnel to provide suicide first aid interventions. It is an intensive, interactive and practice-dominated course designed to help participants recognize and review risk, and intervene to prevent the immediate risk of suicide. It is by far the most widely used, acclaimed and researched suicide intervention training workshop in the world.

ACE: All Army suicide awareness training has at its core the Ask, Care, Escort (ACE) model for identifying and supporting someone who may be struggling. ACE Cards can be ordered from the Public Health Command e-catalogue.

Ask your buddy

• Have the courage to ask the question, but stay calm

 Ask the question directly: Are you thinking of killing

- Calmly control the situation; do not use force: be safe
- · Actively listen to show understanding and produce relief
- · Remove any means that could be used for self-injury

Escort your buddy

- Never leave your buddy alone
- Escort to chain of command. Chaplain, behavioral health professional, or primary care provider

TA - 095 - 0510

Care for your buddy

RVICES

he Yellow Ribbon Reintegration Program is a congressionally mandated DoD wide effort to promote the well-being of National Guard and Reserve members, their families and communities, by connecting them with resources throughout the deployment cycle.

Through YRRP events, Soldiers and their Families and designated representatives are connected with resources and support before, during and after deployments.

There are four events staged throughout the deployment cycle: One 2-day pre-deployment event for Soldiers and Families, one 2-day event for the Families while the Soldiers are deployed, and two 2-day events at 90 and 180-days postdeployment for Soldiers and Families, to include children. The Regional Support Commands are responsible for hosting the post-deployment events.

The Yellow Ribbon program is centrally

funded and does not count against the Command's operational funding.

The program provides access to Military Family Life Consultants who provide counseling and referral services for individual, relationship, parenting, and general reintegration support. Also available are Personal Financial Consultants who provide financial planning, budgeting, credit, home purchasing options along with other financial related issues.

"...the Yellow Ribbon Reintegration Program is important to readiness, regardless of whether you are mobilizing for a war or mobilizing to go to Europe to backfill a unit there. You don't have to be leaving to go into a war zone to need the type of support this program provides..." - Mr. Ronald G. Young
