

CORPUS CHRISTI ARMY DEPOT

THE CORNERSTONE OF ARMY AVIATION

May-June 2017

Army Birthday June 14

The celebration of the U.S. Army's 242nd Birthday coincided with CCAD's Media Day on June 14. NAS Corpus Christi Staff and Army employees commemorated the event during a ceremony at Building 8. The media exposure for CCAD in print, social media and television coverage strengthened the relationship between depot and the community by demonstrating how readiness remains the Army's number one priority at the Corpus Christi Army Depot. **242 Years Strong!**

Corpus Christi Army Depot meets industry standard with AS9110B

The Corpus Christi Army Depot, where the U.S. Army team delivers quality helicopters, parts and services to soldiers defending the nation, renewed their globally-recognized industrial standard AS9110B, May 24.

"Good enough for government work" takes on a different meaning at the Corpus Christi Army Depot where U.S. Army Civilians and contractors deliver quality helicopters, parts and services to soldiers defending the nation.

Active Shooter Training

provided classroom instruction by a subject matter expert instructor on the actions to take should an active shooter situation occur in any building or hangar on the depot.

The training encourages individuals to become mentally and physically prepared to deal with an active shooter situations because most cases often last between 10 to 15 minutes, well before law enforcement arrives on the scene.

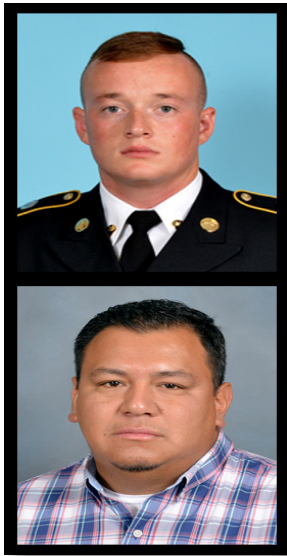

Since training for an active shooter situation and creating an Emergency Action Plan both prepare employees to effectively respond in such emergency situations, attendees were coached on how to create active shooter emergency plans for their individual work centers to make the depot an even safer place to work.

As Corpus Christi Army Depot employees were going on lunch break, news was breaking of a potential active shooter incident occurring at the Redstone Arsenal in Alabama. CCAD employees felt confident about their response after the training they received just the week prior to the incident.

The CCAD Security Division, together with the Workforce Development Division offered an “Active Shooter Defense” training course to CCAD employees in June.

Personnel attended the hour-long “Active Shooter Defense” training which

CCAD Soldier and Employee of the Quarter

Mr. Jose Gomez of the Directorate of Accessories & Rotor Blades ACC/RTR Blade Production Control Division, is the new Civilian of the Quarter.

Awards & Recognition

Hurricane Preparedness

Among the most powerful and destructive weather singularities is the hurricane.

On average, 12 tropical storms, half of which become hurricanes, form over the Atlantic Ocean, Caribbean Sea or Gulf of Mexico during the hurricane season which runs from June 1 to November 30 each year.

Increase your chances of survival by knowing how to prepare for a hurricane. Know what conditions to expect and what to do as a hurricane approaches and most importantly, what to do after a hurricane.

Keep in mind that tropical depressions and storms can also deliver a wallop with heavy rain and storm surge flooding. The potential for destructive winds, tornadoes and beach eroding surf and rip currents are also hazards that residents of coastal communities can experience.
