SAFETY CORNER

Springtime Chores

by Mike Jett

82nd Training Wing Safety Office

It's finally spring and time to take care of all those outdoor chores. Data shows that each year about 400,000 people are treated in hospital emergency rooms for injuries from lawn and garden tools. Each year, about 25,300 people are injured and 75 people are killed on or near riding lawnmowers and garden tractors. One out of every five deaths involves a child.

Please consider the following precautions to prevent injuries from lawn and garden equipment.

- Dress appropriately for the task. Wear long pants, long-sleeved shirts (to avoid injuries from thrown objects like rocks or sticks), close-fitting clothes and no jewelry (to avoid getting anything caught in moving parts), sturdy shoes with slip-resistant rubber soles, eye protection, heavy gloves (protects hands when changing, sharpening, or cleaning blades), and hearing protection such as ear plugs when using motor-driven equipment.
- Before starting up machinery, remove objects from the area in which you are working that can cause injury or damage equipment, such as sticks, glass, metal, wire, and stones.
- Make sure that safety devices on the equipment are in place and functioning properly before starting work.
- Never let a child ride or operate a garden tractor or riding mower, even if the child is supervised. Teenagers should only be allowed to operate outdoor power equipment if they possess adequate strength and maturity to do so safely. They also should be supervised by a responsible adult. Keep children indoors and supervised at all times when any outdoor power equipment is being used. Young children move quickly and are attracted to mowers and mowing activity, especially if they have been given rides on mowers before. Never assume children will remain where you last saw them. Be alert and turn off the mower if children enter the mowing area. Use extra care when backing up or when approaching corners, shrubs, and trees. Be sure power tools are turned off and made inoperable if they must be left unattended to prevent use by children.
- Unplug electric tools and disconnect spark plug wires on gasoline-powered tools before making adjustments or clearing jams near moving parts. Handle gas carefully. Never fill gasoline tanks while machinery is on or when equipment is still hot. Wipe up spills. Store gas in an approved container away from the house. Finally, never smoke or use any type of flame around gasoline or any gasoline-powered equipment.
- Never work with electric power tools in wet or damp conditions. For protection against electrocution, use a ground fault circuit interrupter (GFCI). GFCIs come in several models, including a portable plug-in type. Be sure that extension cords are in good condition, are rated for outdoor use, and are the proper gauge for the electrical current capacity of the tool.

Time to prepare for EOY process

Although it feels like we just closed out Fiscal Year 2018, the current fiscal year closeout will hit you before you know it. Unit resource management and mission requirement owners should begin working with the 82nd Contracting Squadron as soon as possible to start building their End-of-Year requirement list. If you are aware of a requirement, it is never too early to begin preparation and coordination with your local contracting and finance offices. In fact, the earlier you are prepared, the more likely your chances are to receive additional funding for requirements prior to end of year should funding come down. The earlier a requirement is identified, the earlier the acquisition process begins, the greater the likelihood of success to create more positive opportunities for your organization to achieve project goals and objectives. Units are encouraged to have their requirements completed and submitted by June 17, 2019.

Recruitment & Cross Training

Are you thinking considering cross training? If you find yourself at a career crossroads, and are interested in learning more about the Manpower career field, give us a call or stop by, we will be glad to discuss it with you further. If you possess a strong desire for outside the box thinking, are currently in a balanced or over-age AFSC, and in the grades of E-4 through E-7, with 4-to-15 years of service, you might be qualified for this opportunity. Contact Jim Getchell at 676-4935 to find out more.

Finance Office Hours

The Finance Office will be closed for training every third Wednesday of the month beginning on Jan. 16, 2019. Customer service hours on those days will be 1-4 p.m. As a reminder, customer service hours are 9 a.m.-4 p.m. Monday-Friday, with Tuesdays from 4-6 p.m. reserved for our AiT population. For more information call 940-676-4866.

Public Affairs streamlining multimedia work order process

- Support for graphics, video and command information products will begin once an AF IMT 833 is submitted to public affairs by email to 82.trw.pav@us.af.mil. Products approved for public affairs support include still photography, motion photography, audio, video, photo and broadcast journalism products, and graphics as well as news and feature articles to be published on the Sheppard Air Force Base public website at www.sheppard.af.mil.
- Requesters must complete items 7-12, 16-22, and 24 on the AF IMT 833. Work will not be authorized until the requester completes each field as required. This is to ensure the public affairs staff has the most accurate and descriptive information needed to successfully complete the request.
- Customers needing official photos can call the photo studio at 940-676-6620 or 940-676-2732 to schedule an appointment. An AF IMT 833 will be filled out electronically during the appointment.
- The AF IMT 833 can be downloaded [here](#) or by going to the Public Affairs page on the Sheppard AFB public website. Call 940-676-7239 for more information.
