Expeditionary DISPOSITION SERVICES

DLA
Defense Logistics Agency

Warfighter First

Expeditionary Disposal

DLA Disposition Services provides combatant commands with the ability to exercise expeditionary disposal operations worldwide.

Disposition Services has the ability to rapidly deploy portable, scalable Expeditionary Site Sets (ESS) with standardized equipment and supplies and a highly capable Expeditionary workforce that is fully mission capable shortly after arriving in theater.

Note: the Request for Forces drives the response time for ESS deployment.

ESS provides an expeditionary DLA Disposition Services capability to the warfighter in austere, limited support environments.

The ESS is packaged for surface and air transportation. The ESS has a deployable capability that is integrated into combatant command plans and the Joint Operational Planning and Execution System.

About DLA

As the nation's combat logistics support agency, the Defense Logistics Agency manages the global supply chain – from raw materials to end user disposition – for the Defense Department, other federal agencies, and partner and allied nations.

Headquartered at Fort Belvoir, Virginia, DLA is a global enterprise. Wherever the United States has a significant military presence, DLA is there to support.

Highlights

- DLA provides more than \$37 billion in goods and services annually
- Manages nine supply chains and about 5 million items
- Employs about 26,000 civilians and military
- Supports more than 2,400 weapon systems
- Administers the storage and disposal of strategic and critical materials to support national defense
- Operates in most states and 28 countries
- Operates a global network of distribution centers
- Leads DOD's efforts to supply the military services with alternative fuel and renewable energy solutions
- Supports disaster response and humanitarian relief efforts at home and abroad

ESS Location Map

ESS-1

Camp Arifjan, Kuwait
Supporting CENTCOM

ESS-2

USN Base Santa Rita, Guam
Supporting INDO PACOM

ESS-3

Germersheim, Germany
Supporting EUCOM/AFRICOM

ESS-R/T

Battle Creek, Michigan
Strategic Reserve

ESS Capabilities

➔ Warfighter First

MHE / Mobility

- Kalmar RT-022 LCRTF
- Caterpillar 277D Skid-Steer
- 3/4 Ton Dodge 3500 truck
- Kubota RTV

Life Support

- Offices/living shelter
- Alaska shelter systems
- Small Shelters
- Maintenance shelters
- 5-Ton environmental control units

Warehousing

- Ban air rack boxes for pilferable items
- Site tool storage
- Scrap storage

Power Generation

- Redundant 120kw Generators
- 6-Shelter Power Distribution Package (PDP)

DEMIL

- Petrogen Torches
- OxArc Armor Cut and Heavy Armor Cut Systems
- Hammel family of shredders
- Volvo Grapple and Shear

Comms Suite

- Local, DSN and international telephone
- VOIP
- Tandberg
- Hand-held and mobile radio communications
