The new \$17,345 Annex to the main Jacksonville USO building

was officially opened by Gen-

eral Joseph O. Butcher, Com-manding General of Camp Le-

jeune Saturday afternoon June

Accompanying the General was Mrs. Butcher who serves on the Board of Governors.

The Annex was built by Nat-ional USO. The annex will now

provide the needed additional fac-

ilities. The cost of most of the

furnishings of colorful furniture and game equipment equalling several thousand dollars was

secured through local auspices.

The two story annex adds close to 2200 square feet to the Jack-sonville USO club. The new annex was constructed by the Gillen-water Construction Company.

All the rooms have fluores-

cent lighting fixtures. The Annex

SSgt Schudder Donates 41 Pints Of Blood Over 17 Year Period

With an air of indifference, denoting much past experience, Staff Sergeant Stanly E. Scudder, reclined on the plain, flat table, allowing the needle to be inserted into his forearm---marking his forty-first donated pint of blood, Although he has not been back from Viet Nam the required 2year waiting period necessary to contribute whole blood, Staff Sergeant Scudder of Second Motor

STAFF SERGEANT Stanly E. Scudder asks a question of Hospitalman Third Class Richard Ring, about the storage and use of blood donations. Inside the "reefer" is 40-pints of blood, the amount that Staff Sergeant Scudder has donated in fifteen years.

New Summer School Schedule

According to the superintendant of the Camp Lejeune School, there has been a change in the previously announced schedule for Summer Sessions of the Camp Lejeune School System. Opening day for the 1968 summer session has been moved from June 10 to June 17.

All students in grade level seven and eight will attend the Berkeley Manor School. Students in grade on through six, Stone Street and Berkeley Manor Elementary, will attend the Berkeley Manor Elementary.

Grade level one through six at the Air Facility, Geiger Trailer Park, Knox Trailer Park, Midway Park, Tarawa Terrace One and Two Schools will attend Tarawa Terrace Two Elementary School.

Grade nine through 12 will attend Lejeune High School.

Period Transport Battalion, Second Marine Division, was able to donate a pint for blood by-products. This brought his total record of blood donations one-pint over the five calleon mark

the five gallon mark. It took him approximately seventeen years, since his first donation in 1951 to accumulate a score-card of blood donations this large.

He says that every time he is eligible, every eight weeks and not more than 5 times a year, he donates to a blood bank, preferably at a Naval Hospital.

Tuesday, at the Camp Lejeune Naval Hospital, the veteran-blood donor received special treatment as Hospitalman Third Class Richard Ring gave him a short lecture and tour of their blood storage facilities.

Contributing blood this consistently requires good health. This is no problem to Staff Sergeant Scudder, since, according to him, in 17-years of service with the Marine Corps he has only accumulated about 2-pages in his medical record book. Since the average human body

contains about eight-pints of blood, he can consider himself as having contributed enough for 5-more human beings. When answering the question

when answering the question why he has donated so much blood, he says, "I just figure somebody can use it."

Nav-Marine Corps Medal Given For Heroic Action

"Upon what face of reason, can that assistance be denied to save the life of a man." (BLACKSTONE) Such seemed to be the case made evident by Cpl. Harold Ramsey, Jr. of Headquarters and Service Battalion, Marine Corps Base, Gamp Lejeune, N.C.

Jeune, N.C. While serving in the Republic of Victnam with the 2d Battalion, 5th Marines, Cpl. Ramsey saved the life of a fellow Marine who had spilled gasoline upon himself. The citation read: "When a

The citation read: "when a gasoline burner became flooded, a messman obtained a can to catch the gasoline falling from the burner. Suddenly a gust of wind blew the flames from another burner into the partially filled can of gasoline, igniting it. Reacting instantaneously the messman dropped the blazing can, spilling flaming gasoline over most of his body and the surrounding area,"

Disregarding his own safety, Cpl. Ramsey unhesitatingly ran through the flames and led the stunned and burning Marine from the building.

Once outside, he rolled the man on the ground and began covering his burning body with sand and dirt until the flames were extinguished.

For his actions, Cpl. Ramsey received the Navy and Marine Corps medal from his battalion commander, Colonel W.W. Curtis, May 31.

HOW TO DISPLAY THE FLAG

Respect should always be shown for the flag and the following practices are recommended: The flag should always be raised and lowered by hand. It should be displayed only between sunrise and sunset. When raising the flag, it should be unfurled first. Do not raise the flag while it is furled. After unfurling, hoist it quickly to the top of the staff. When lowered, it should be done slowly and with dignity. When the flag is displayed other than being flown from a staff, it should be displayed flat, whether indoors or out. When displayed in a window, it should displayed with the stars uppermost and to the flag's own right (to the left of the observer). It should not be allowed to touch the ground or floor, nor to brush against objects. Place the flag as part of costume or uniform.

It's Time We All Did A Little Flag-Waving!

Displaying the flag is more than just an expression of love of country...it's a sign that we believe in the principles upon which this country was founded. We all have a stake in America's destiny. Proclaim your Americanism by flying the Stars and Stripes and live your Americanism by participating in America's democracy.

Our Forgotten Holiday

June is the month of Day. In many quarters one of our most neglected holidays. Most people don't even notice its passing because it's not the type of holiday that warrants a day off from work. It isn't observed on the grand scale of any of many of our holidays because it requires some personal effort.

The holiday under discussion is Flag Day-June 14. It's the anniversary of the adoption of the American Flag in 1777 and was designated a day of observance in 1895.

Although not a legal holiday, Flag Day is uniquely American. It's the day for Americans to proudly display the Stars and Stripes and recall the freedom, opportunity and heritage for which it stands.

It is, perhaps, a sad comment on the times to see the lack of interest and participation of far too many Americans in national holiday observances. Many have become so sophisticated or are so busy they can't be bothered with a holiday as "old-fashioned" as Flag

patriotism is considered to be out-dated and people are selfconscious when it comes to showing respect for the Flag or the Nation.

As members of the Armed Forces, we must lead the way in showing our respect and dedication to our Nation, its principles and its National Emblem on Flag Day. Our men fighting in Vietnam are obvious in their dedication and their beliefs. The rest of us must make that "Extra effort."

Decisions About Future Require Close Scrutiny

"What me ship?" This com-mon phrase too often shows a complete disregard for the close scrutiny needed in any decision that will affect a man's future. Many Marines, too many in fact, refuse to listen to the reenlistment talks given by their unit commanders, first sergeants and their Career Advisory NCO's simply because a buddy told them they shouldn't "ship-over."

When you look closely at the benefits offered to a Marine, especially on his first enlistment, you become somewhat stunned at what can be yours for the asking.

The VARIABLE BONUS PLAN is one good example. Here is a Is one good example, here is a new car, new furniture for his wife, a savings account for your child's education or a host of other things that you have always wanted, but could never afford. The chance of DUTY STATION OPTION is another example, Mayyou want Inspector-Inhe spector duty near your home town. Maybe you would like to be a recruiter. Perhaps you want to spend two years in Europe, the Bahamas, Hawaii or South America. You can get almost any station in the world, if you qualify.

Viet Casualties Gain Under Soc. Sec. Law

The Social Security Program now has special provisions for persons who become disabled before age 31, according to David Bryan, District Manager of the New Bern Social Security Office.

Under the new change, if a worker becomes disabled beif a tween ages 24 and 31, he will need to have worked under social security for only half the time between his 21st birthday and the time he becomes unable work. If he becomes disabled before age 24, he only needs $1\frac{1}{2}$ years of work credits out of the 3 year period ending

when	his	disability	began.	
------	-----	------------	--------	--

This provision is not only for those who become disabled now and in the future, but also for those who became disabled in the past and are still disabled. If a previous claim was denied because a person did not have enough work credits, and he became disabled before age 31, he should file a new claim. He may now be eligible for benefits, not only for himself but also for his dependents. The first month benefits can be paid is for March 1968. Bryan cited as an example, a young man who finished college and had worked for a little less than 2 years when he was in an accident and became disabled. He was 23

years old when the accident hap-pened. Since he had worked at least 6 calendar quarters, or $1\frac{1}{2}$ years, he was eligible for disability benefits.

This provision also applies to Vietnam casualties. Military service now counts under social security the same as civilian employment,

Anyone needing more details about these benefits, or any other part of the program should visit the local Social Security Office at 308 New Street, New Bern.

The telephone number is 637-4101. Some may prefer to con-tact Jerry Creech, Field Repreact serry creech, Field Repre-sentative from that office, who is in Jacksonville every Tuesday and Thursday from 9:45 a.m. to 12:30 p.m., in Room 103 of the Courthouse. Are you dissatisfied with your CURRENT TRADE? Why not ask for a change of specialty? I know a Marine sergeant who recently traded his MOS in food services for a position in ac-counting and finance, a field he had long desired

EDUCATION is yet another feature of the program. No company, no matter how large, has the educational opportunities offered by the Marine Corps. Every possible subject is cov-ered, from basic infantry tactics to the complex field of data processing. These doors are processing. open to you.

So far, we have mentioned only the material things. Have you ever considered the INyou ever considered the IN-TANGIBLE BENEFITS that you now have in your possession?

These things are hardto but are summed up in phrase - Esprit de Coi friendship you have wi Marines, the respect who are not Marines, dignity associated with fession, are but a few that make a career 1

Old Glory Herals Honor Filled Pa

Our flag, the Stars and Stripes was first carried by an American Army under General John Stark, at the Battle of Bennington, August 17, 1777. After the Hessian Colonel Fredrick Baum, Com-mander of the British Army, had been mortally wounded, his troops surrendered. This battle flag had thirteen white stars on a blue field, and 13 stripes, 7 white and 6 red, which placed a white stripe at the top and at the bottom.

Our flag heralds a glorious past and a promising future. It is the flag of past generations of Americans, who frequently adored its stand for opportun-ity, equal rights and the pursuit of happiness. Our flag and the Republic for which it stands, represents the ages of man's thirst for liberty and recognition of the It stands for no individual.

race; but for all who li its protection. It is th and hope for Americ people of a free world, now crushed by the iron Communism. It proud over our men fighting : in battles for freedom nam and Korea.

Vietnam Story: Marines at War Stories and Photos from III Marine Amphibious Force

JOR GENERAL Don J. Robertson, commanding general, 1st ine Division, prepares to pull the lanyard to fire the 11th ines' one millionth round.

3/11 Fires Millionth Round

As the commanding general, 1st Marine Division, pulled the lanyard, a 3rd Bn., 11th Marine Regiment howitzer fired the battalion's one millionth artillery round since the unit arrived in

Vietnam on July 5, 1965. Major General Donn J. Robertson fired the round last week during ceremonies at "H" Bat-tery headquarters, northwest of DaNana

In direct support of Leather-necks of the 7th Marine Regiment, the 3rd Battalion has participated in more than 50 combat operations since their arrival in country nearly three years ago.

Consisting of eighteen 105mm howitzers and six 4.2-inch mortars, the battalion also has an attachment of four 155mm howitzers.

In order to represent the en-tire battalion at the monumen-tal ceremony, the 10-man gun crew for the 105mm howitzer comprised nearly every occupa-tion in the battalion. Each of the 10 men, ranging from forward observer and radio operator to truck driver and corpsman, received personal congratulations from the general prior to launching the historic round.

While providing support for the 7th Marines and security for the vital DaNang area, the bat-talion emplacements have come under heavy attack themselves. In each case, the batteries of the battalion have provided effective counter fire. During the Tet offensive, "G" Battery de-livered counter-fire within two minutes after the first incoming enemy rounds were taken.

Also during the Tet offensive, from January 30 until February 10, the battalion fired 56,037 rounds-an average of 4,671 rounds daily.

MR. JOHN FRISTOE, principal of the Tarawa Terrace II Elementary School, receives the American Educators Medal and Citation from MajGen. J.O. Butcher, commandinggeneral, Marine Corps Base, Camp Lejeune. The Medal is awarded by the Freedom Foundation at Valley Forge for educational accomplishments in the American Way of Life,

Principal Awarded Educators' Medal

Pride and appreciation of our National Heritage have not been divorced from the education of the Marine's, children attending

school here. This fact was most effectively pointed out through the presentation of the American Educators Medal from the Freedom Foun-dation at Valley Forge to Mr. John Fristoe, principal of the Tarawa Terrace II elementary school.

Presenting the medal to Mr. Fristoe was Major General Joseph O. Butcher, commanding general, Marine Corps Base, Camp Lejeune at the PTA meeting of May 21.

The American Educators Medal received by him was awarded for the educational work he had accomplished and giving the students at the school a solid foun-dational knowledge of their country and its heritage.

Foremost of these accomplish-ments is a curriculum guide, for

grades one through six, that deals with the subjects of patriotism

and devotion to country. Annually a flag pageant is also presented for the children, which depicts the birth and life of the

American Flag. Other contributions are the depiction of the first American Patriot killed in the American Revolution at Action, Mass., and also a tableau presentation of first minute men and their actions on April 19, 1775.

The medal presented to Mr. Fristoe was the only American Educators Medal awarded in North Carolina, this year.

On the plaque accompanying the medal is the inscription, "Long after this medal is laid away "Long and the language of his citation, forgotten, the values of this educator's work in the behalf of the American Way of Life will live for the future, through the lives and actions of boys and girls grown taller and older."

Dental Disease Affect Even Those Who Eat W

Periodontal disease. called pyorrhea, and dental caries, or tooth decay, are very real diseases. They both de-They both destroy the teeth.

Tooth decay affects almost evvoid decay anects annosteve eryone, especially those who eat well. Refined, processed foods are often the worst causes of dental carles. Carbohydrates, sugar and flour - above all other foodstuffs - cause tooth decay. These foods so into solutions

These foods go into solution with mouth fluids and penetrate into the clumps of invisible germs sticking to tooth surfaces. Waste products are then formed which soften the teeth and cause cavities.

Dental caries doesn't occur where there are no germs. It can be prevented or stopped only by thoroughly removing the germs each day. That is why the say-ing, "A clean tooth does not de-cay," came into being. The mi-crobial matter that sticks to the tooth surface is semitranspar-ent; it resembles the tooth in color. It is found most often on the biting surfaces of the teeth, between them and around the gumline. It usually takes sev-eral days for a thick clump of germs to grow and stick to tooth surfaces. And then decay occurs.

Many clumps of germs live on tooth surfaces near the edge of the gum. They grow and survive the gum. They grow and survive on the slippery secretions that coat the inside of the mouth and the teeth. The waste product of these masses of microbes soak into the edge of the gums and irritates the tissues, causing them to become red, tender, and inflamed. When the condition worsens, they begin to bleed and the mouth gives off a bad smell. Periodontal disease, trench Periodontal disease, trench mouth, Vincents, gingivitis and pyorrhea are the terms used to describe this condition. Later signs of this disease are loose teeth, sore gums, and pockets between teeth and gums that fill with pus. X-rays reveal that the bone which supports the teeth starts to resorb or "dissolve."

Thorough cleansing of the teeth and mouth each day is the easiest and most effective preventive measure. Wise and healthfulfood habits can also help. Follow a diet which stresses nutritious foods and eliminate between meal snacks. Above all, brush your teeth properfy. Use dental floss

to clean between the underneath the edge of Use the toothpaste rece ed by your dentist. *i* brushing, rinse your m orously to remove orously clumps of bacteria or for oral hygiene measures p tine visits to your dentis initely help you preve disease.

Activities Calendar

Girl Scouts

Girl Scout Council of The Coastal Carolina established camp season opens June 23 at Camp Pretty Pond near Wilmington and Camp Traillee near Goldsboro. Sessions at both camps will be held from June - July 6; and July 7 - July 20.

Camp Pretty Pond is full, but Camp Traillee has a few vacan cies left with applications still coming in,

Program at camp features swimming, hiking, cookouts, creative crafts related to the site, and camp craft activities, Traillee also offers special units with emphasis on Folk arts and primitive camping skills while Pretty Pond offers sailing and

All girls who are interested in attending are urged to get their applications in immed-Girls who are not Girl iately. Scouts may also attend and ap-plications are available from the

Council Office, P.O. Box 1735, Goldsboro.

The Girl Scout Council of Coastal Carolina is an agency of United Funds and Community Chests.

Swimming Class

A senior life saving and swimming class will begin June 17 at 5:30, according to the local Red Cross chapter.

The class will be taught by Sergeant Peter Tolemy, a qualified water safety instructor, and is a Red Cross sanctioned session. Certificates will be pre-sented upon successful comple-tion of the course.

class will be from 5:30 until 8:30, five nights per week June 17 through 28 at the Area No. 2 swimming pool, Military and civilian personnel who are qualified swimmers and are interested in participating in the course should contact Sgtl Tol-emy at 7-3891 or Mr. O'Brien 7-5523 prior to 5 p.m. June

The Lejeune Homemakers Club will meet on June 26, at 1000 in the Tarawa Terrace Annex. Mrs. Mary Ruth Howell, Econ-omics Agent of Jacksonville, will present a study of wills, savings, retirement and life insurance

and a baby sitting service is available. The Lejeune Homemakers

Devilpup Sports Best Ever

Camp Lejeune High School won the first annual All Sports Tro-phy, which is presented to the Coastal Plains Conference team

with the seasons best overall sports record, as they gained conference champions in all five varsity sports. Lejeune, in ad-dition to producing the finest overall sports record in the school's history, sent the foot-ball, basketball, baseball, golf, track and soccer teams to the State Championships. Ironically, they were stymied in every state title bid, and failed to gain even one State Champion.

The football team set the stage and provided impetus for what

WADE JUDGE drives for two against Burgaw in this season's District Playoffs.

I'm afraid the anglers haven't done too well this last week. The fish just don't seem to be cooperating. The best bait seems to be the old standby - worms. Some of the best fishing this last

fish just don't seem to be cooperating. The best bait seems to be the old standby - worms. Some of the best fishing this last week was reported by out-of-state anglers. One family from Pensacola, Fla. tried their luck at Hayward's Landing. After fishing all day Thursday they were finally re-warded with a $4/_2$ lb, jack. The fish hit on a minnow. The White Oak River produced some stringers of white perch. The lucky anglers were those fishing for bream with worms on a bobber. Stringers of white perch are very rarely taken in this area. area.

The largest bream for the week at the local bait shop was a 22 oz, blue bream taken out of the Goshin Swamp. The angler was fishing with worms when he tied into this whopper. This swamp, located near Kingsville is a hazzard for fishermen. There are just as many logs and snakes as there are fish - and that's a lot. As you remember, I said we would be hearing more from Cather-

Lake. The largest bass reported for the week was taken out ine's ine's Lake. The largest bass reported for the week was taken out of Catherine's on a black and white striped tiny torpedo. The angler weighed the fish in at 6 lb, On the week-ends this lake is plagued with swimmers and water skiers. The best thing to do is try to break loose during the week and give this lake a good fishing. Use your surface lures and check out the edge of the lily, pads all around the lake. I don't think you'll go unrewarded. Salt water hook and liners fishing from the Mardi J, report no luck trolling. Some anglers have had some luck bottom fishing from the Special Services chartered craft, HM1 Fabricante,

reported that before the bait hit bottom they had hits with as many as 3 fish hauled in at a time. These anglers had only one problem; it took them over 4 hours to clean their catch.

Although yesterday would normally have marked the beginning of the turtle season, a new State law prohibits killing them or their offspring. Of course people who enjoy turtle watching may still do so.

Did you know - that the world record on large mouthed bass is 22 lb. 4 oz. This monster was caught in Alabama in 1932. The angler used a spring lizard.

Fishing tip - When fishing with minnows for bass use a very small split shot to allow the minnow to work for you. Vary your depth from 6 inches to as deep as 6 or 8 feet until you find ol'

Any fishing scoop. Give me a call at ext, 73964. "Gone fishin' "

was to follow. Coach Tom Mc Ghee's gridiron power roared through the Coastal Plains Conthrough the coastal Plains Con-ference undefeated, and moved into the 2A playoffs in Novem-ber with a 7-1 overall slate. However, the Pups were knocked off in the opening round by Eden-ton High School, thus receiving the first in a long series of playoff disappointments. Buddy Charlesworth was named to the second All-State team, and Le-jeune was ranked sixth among all 2A schools in Eastern NorthCarolina.

The basketball team, led by Lane Argetsinger and Rick Gutekunst, who were named to the all conference team for the second year in a row, gained co-conference honors with Swansboro. Argetsinger, while lead-ing the team to an 18-5 record, was Eastern North Carolina's high scorer with a 26.7 points per game average. The Lengh scorer with a 25,7 points per game average. The Le-jeune Cagers were the leading scorers in the county with an average of 74 points per game, and were ranked 11th in Eastern North Carolina.

The baseball Devilpups logged an 18-4 record, and were run-ners up for the 2A State title. Their state title bid was thwarted by Holbrooke High School in two games that were both decided by run. Mike Evans and Tim Slayton were the two outstand-ing players for the Pups, Evans, a junior, logged a 9-2 pitching slate and an earned run average of just over one. Slayton led the team in hitting with a .384 average. Both Evans and Slay-ton, and also Wade Judge the shortstop, were named to the 2A All Eastern North Carolina Team

Rounding out the sports picture Rounding out the sports picture were unblemished records in match play in both track and golf. The track team, which went 10-0 in regular season match play, was led by Mike Hollings-worth and Ron Peoples, who both played in the State Meets. Mike Brown and Steve Peppler piloted the golf team to an 11-0 mark and acometed in the State

mark, and competed in the State playoffs.

596 Series Rolled At Bonneyman

By Marti Herder

Monday morning saw the lad-ies of the Scratch Trio rolling some beautiful games. Leading them was Joyce Connell with a 246-546. She was followed closey by another well known Bonney-man bowler, Barb Scott, who rolled a high game of 232, and a 523 series. Last, but not least, was Jewell Marioth's 194-518. I may seem a bit partial, but that's nice bowling, girls!

On Tuesday night the Staff NCO league was led by Ron Millar, who put together games of 208 and 223 on his way to a terrific 596 set. D. Haggerty was close by with a 224-574 effect. Other pice games were effort. Other nice games were rolled by Mac Whaley with a 222 game, and J.O. Kelly with a 211

In the Coffee and Tea League the Scoreless "4" showed that they don't always live up to their name. Barb Scott led this quar-tet with a 484 series. Moral support was given by Grace Hill's 471 set, and Marti Herder's 474. This teams secret weapon is This teams secret weapon is little Lori Garber, who can really roll that ball in the clutch. Not to be outdone, the Nutty Buddies, led by Vicki Hill's 173-502, and Jewell Mariotti's 180 - 476, showed that they're a team to be reckoned with. Reba Well-ant's 193 game, and Fumie Wiggs' 183 also added to the excite-ment! ment!

menti The Wednesday Nite Men's Handicap League was led by Walt Neuls, with a fine 203-559 ef-fort. I understand Walt bowled a 559 set the previous week. That's consistent bowling, Walt, hear it we

That's consistent bowling, Wait, keep it up! The Twi-Liter gals placed a 139 average bowlerette in the spotlite this week. Mikki Ther-rel, could do no wrong, as she rolled a terrific 207-526 set.

Nice bowling Mikki! Other Twi-Nice bowing Mikki Other in-Liters rolling fine sets were Marti Herder, with a 510, and Joyce Connell, with a 503. Joyce also led the high games with a 208, followed by Mikki Thered with a 207. THE ORIOI

GLOBE, FRIDAY, JUNE 14, 1968 9

COMPUTER CORNER By Bud Goode

Which teams in the American and National Leagues have the

Which teams in the American and reactional resputs hard the best strikeout percentage? With the first 1000 At Bats under their belts, Computer Corner poured the season statistics into the electronic evaluator to com-pare the team standings on Strikeout percentage. Here are the results through games of May 14:

National League	Strikeout%	American League	Strikeout%
N. Y. Mets	19.2	Cleveland	21.6
San Francisco	16.8	Baltimore	17.6
Philadelphia	16.7	Minnesota	17.5
Los Angeles	16.0	Detroit	16.8
Pittsburgh	16.0	Oakland	16.0
Chicago	15.9	Boston	16.0
St. Louis	15.2	Chicago	15.9
Cincinnati	15.1	New York	15.2
Houston	15.0	Washington	14.4
Atlanta	12.0	California	/ 14.3
Average	16.0	Average	16.8

The New York Mets are the phenomena of the National League. Their pitchers strike out 19.2 per cent of all batters facing them vs. only 15.2 per cent in '67. Ryan is the Met's sensation, striking out 58 men in only 6 games. He leads the league in SO's. Singer, of the Dodgers, has 57 strikeouts to his credit, and Sadecki of the Giants, 51. Cleveland leads the American League this season just as they did in '67. The Indians are now domaing 216 per cent of all once

Cleveland leads the American League this season just as they did in '67. The Indians are now dropping 21.6 per cent of all oppos-ing batters with strikeouts vs. 20.1 per cent last year. Three of the four top American League strikeout artists belong to Cleveland-McDowell, who leads the league with 73; followed by McLain of DAroit with 52; then Tiant and Siebert, both of Cleveland, with DAroit wit 51 and 41.

Intramural Softball 1/8 Cops American League Crown

One Eight won in a romp over 1-10 last week, thus ending their regular season play in first place the American League. Next week they will play the winners of the National League in a series that will determine this years Division Softball Champion. Other action last week saw 3-2 bomb Hq. Soccer

1-2 Beaten

The Norfolk NavySeals showed the Booters of $\frac{1}{2}$ last Friday that they couldn't be beaten as they doubled the Marines score 4-2. The Seals, a Navy unit specializing in physical provess, users at first supremed by $\frac{1}{2}$ is were at first surprised by $\frac{1}{2}$'s aggressive attacks on their goal, but used their experience, gained in numerous contests, to quell the novice Leathernecks.

After forty-five minutes of serious play, the Seals took the lead 2-1. First half star for the Marines was R.T. Thompson who continually burst through the strong Navy defense and relentlessly drove toward their goal.

The Booters' inability to cap-The Booters' inability to cap-italize on a penalty shot and to stay outside in their scoring at-tempts proved to be the deciding factor in determining the game's outcome.

Taking advantage of the Booters' scoring lapse, the Seals added two goals in the last half

Action last week saw Radio Bn. beat MCES 6-0 and then Hn. bear MCES 6-0 and then lose to Bridge Co. 5-2, Bridge Co. was in turn bumped by Topo 11-10. Topo lost their second contest to Motor T 11-4. Am Tracs moved into second place with wins over 2d Tanks 8th Comm. and Anglico. They beat

the Amtracers 16-6, leveled 8th Comm. 12-2 and totaled Anglico 19-1. H & S Bn. also won a pair. They downed Supply 7-0 19-1. If the owned Supply 7-0 pair. They downed Supply 7-0 and 8th Comm. 3-2. In single games, MCES whitewashed Motor T 1-0, 2d Fag blasted Hq. Co. FT 9-1 and totaled Anglico 19-1.

Boxer Profile

Lance Corporal Pete Browner joined the Marine Corps in 1966. Eighteen months and 15 fights later he was the All Marine flyweight champion.

The scrappy 23 year old lea-therneck, who is a bricklayer by trade, began boxing in the Boys' Club in his home town of Muncie, Indiana, In 1963 he won the Indiana State Golden Gloves Championship, a title which he held for the next two years until his entry into service.

Browner is best known for his speed and evasiveness. Says trainer J.C. Davis, "Pete relies heavily upon his ability to move. But he also has a fine left hook that can do a great deal of damage to any man who might be chasing him.

"I like a man who comes to me," says Browner, "I always feel that I can finish off an op-ponent much easier if I don't have to chase him."

To date Browner has had 15 Marine Corps fights. He has emerged victorious in nine of contests. When asked what these he dislikes most about boxing, Browner replied, "Man, bad decisions are my biggest gripe.

Too often a fight I feel I've won

ends up with my being on the short end of the decision." In regard to his opportunities in the upcoming All Marine Trials J.C. Davis said, "Pete has the style and capabilities to do it. Besides, the competition in his weight class isn't as great as it is in some of the others. This competition factor also holds true for the Olympic trials (to be held in September). I look for some big wins from Pete."

Pete Browner

Red Cross Adds That Special Touch

"Problems are as different as the people who have them," states an attractive, blonde-haired young social worker, "This is one reason this job is so interesting."

This is the way Miss Linda Atkins of the American Red Cross describes the work of the women who are making the lives of hundreds of patients and their families happier each year at the Naval Hospital here. An interesting job? -- Yes, but demand-

ing. Twenty-four hours a day, seven days a week, the Red Cross is on duty. At any given moment, you might find one acting as a librarian to bedridden patients on a ward, counseling a man with a problem, or outcuing some patient in a game of pool.

Red Cross workers are primarily divided into two groups; regulars and volunteers.

Housewives and single women with free time on their hands contribute nearly 10,-000 hours to the wards and clinics at the hospital yearly. After completing a Basic Orientation Program, volunteers do personal shopping, distribute hobby materials and library books among patients and help with recreation programs throughout the ward. Volunteers find that their services are in demand at the hospital Blood Bank, a variety of clinics, including surgery, gynecology and obstetrical clinics, as well as secretarial and receptionist duties.

The services of these women are acclaimed by the six regular workers as "invaluable."

The professional workers are subdivided into two sections; social and recreation workers.

Recreation workers provide materials and set up recreation programs for the patients. Instruction is often necessary for such things as leather craft, copper tooling or painting. Many a hospitalized Marine has found himself with a new hobby.

Encouraging patients to participate in recreation, often requires the worker to be just as skilled in the particular game herself, as pretty Miss Kay Ellis is well aware. Many an astonished patient has fallen victim to her wicked cue stick or her slashing ping-pong paddle.

ing ping-pong paddle. "Just showing an interest and talking to some of the patients is a great help," says Miss Ellis, "It gives a guy a much needed chance to get a few things off his chest." If a Marine has a

financial, family or personal problem, a social worker is always available. For most problems, the social worker acts as a medium between the patient and his commanding officer, his family or the chaplain.

Many times the Red Cross is asked to verify a Marine's need for emergency leave. However, they are not authorized to grant leave, as is sometimes believed.

In cases where the Marine is unable to finance an emergency leave, the Red Cross will either loan or grant the necessary funds, depending on the man's situation.

By Cpl. Steve Gambee

It's a hard fact of life that a small percentage of children are born to parents that did not receive enough instruction dur-ing their pregnancy or the weeks

following birth, According to the National Cen-ter for Health Statistics, "A-mong infants (aging from birth to one year), such things as lack of post-natal care. . .contributes to the high death rate of babies in the United States.

Fully understanding the need to control these problems and also give a "helping hand" to "first term" mothers, the Navy Re-lief Society conducts pre-natal classes for them.

The instructions for the prenatal classes are held each Thursday from 1 p.m. to 3 p.m., by three registered nurses from the Jacksonville area, Theyare, Nona Jones, Lyda Whaley and Hattie White. A new class be-gins every other month and lasts four weeks.

During the classes there are films and visual training aids that depict the mother's preg-nancy. "One of the most im-portant parts of the afternoon program," says instructor Lyda Whaley, "is the question and an-swer portion. It is here we try to absolve all the old wives tales and to instill confidence in their new motherhood."

Not content to leave off with the woman's pregnancy instruc-tion, Navy Relief nurses are with the mother in the hospital fol-lowing childbirth. Here the nurses form a more

intimate relationship with the new mother, giving her instructions on baby care as well as her personal care. The nurses also familiarize the patient with hos-pital administrative procedures.

In keeping with their program to help wives of military personnel as much as possible, the nurses visit homes of new mothers within the Quad Com-mand and Onslow County area,

The nurses bring pamphlets and portable weighing scales to the homes. These pamphlets aid the nurse in explaining the after effects of the recent delivery. With the scales she will weight the baby, bringing the mother up to date on vital sta-

Also included in post-natal care of babies is a Well Baby Clinic. Here nurses check babies weighing less than 30 pounds for health

and nutritional progress. Well Baby Clinic nurse Nona Well Bady Chinic nurse Nona Jones explains, "we cannot pro-vide medical attention or help, but we can help the mothers avoid unfamiliar illness in their child and also refer her to med-ical officers for inocculations

and checkups." The Well Baby Clinic is held the 1st Tuesday of each month at the Geiger Community Center, the 3d Tuesday of each month at the Midway Park Community Center and the 4th Tuesday of each month at the Knox Commun-ity Center. The times for the classes are from 10 a.m. to 2 p.m.

The pre and post-natal clinics are only one of the many ser-vices offered by the Navy Re-lief Society in an effort to help "take care of our own". us Your contribution to the society will help enhance their mission. Did You Know?
