MARINE CORPS BASE, CAMP LEJEUNE, N. C.

MARCH 25, 1965

Maj. Gen. A. L. Bowser
Future CG, FMFLant

Gen. Nickerson Named As Relief For Gen. Bowser

Major General Herman Nickerson, Jr., is scheduled to relieve Major General A. L. Bowser as Commanding General, Marine Corps Base, Camp Lejeune, sometime during the month of June.

General Bowser, as stated in last week's GLOBE, has been selected for promotion to lieutenant general and will replace Lieutenant General James P. Berkeley as Commanding General, Fleet Marine Force, Atlantic. General Berkeley is scheduled to retire.

The present commanding general of MCSC, Barstow,

Calif., Gen. Nickerson entered the Corps as a second lieutenant July 10, 1935. He was promoted to first lieutenant while serving with the Fourth Marines in Shanghai. During the Second World War, General Nickerson advanced from the rank of captain to lieutenant colonel. After his tour during the war years with the 2d Marine Brigade, he returned to the States in July, 1943, and was assigned to MCS, Quantico. He was again assigned to duty in the Pacific early in 1945 with the III Amphibious Corps.

For conspicuous gallantry in September, 1950, while with the First Marines, 1st Marine Division in Korea, he was awarded the Silver Star Medal. In April 1951, he became CO, Seventh Marines in Korea and earned both the Legion of Merit with Combat "V" and subsequently, the Army Distinguished Service Cross. He was promoted to the rank of brigadier general on January 1, 1959, while serving as Fiscal Director of the Marine Corps. In June 1962, he assumed command of the 1st Marine Division and was promoted to his present rank of major general, July 1, 1962.

General Bowser has served as Commanding General here since July 25, 1963.

Maj. Gen. H. Nickerson, Jr.
Future CG, MCB

Joint British Amphibious Warfare Team To Study Div., FT and Wing Tactics

Major General F. C. Barton, CBE, Royal Marines, Commandant, Joint Warfare Establishment, England, will lead a group of seven members of the British Amphibious Warfare Presentation Team (BAWPT) which will visit the Camp Lejeune - Cherry Point complex Friday through Sunday.

Accompanying the BAWPT will be LtCol. R. N. Joens, USMC, liaison officer.

Purpose of the visit of the BAWPT is to study methods and equipment used by the 2d Marine Division, FMF, 2d Marine Aircraft Wing and Force Troops, FMF, Atlantic, during, and in support of, amphibious operations.

Members of the BAWPT are expected to arrive at 3 p. m., Friday at the Marine Corps Air Facility, New River, where General Barton will receive honors. They will then receive a briefing and tour Marine Aircraft Group-26.

An informal reception will be held in the Lejeune Room, commissioned officers mess, Paratrooper Barracks, Saturday

(Continued on Page 12)

Piney Green Road Open To Traffic

Piney Green Road has been made passable for privately-owned vehicles to go from Sneads Ferry Road to N. C. Hwy. 24.

This road eliminates the need for the third outgoing lane on Holcomb Blvd. The Piney Green Road will be open for traffic, commencing March 30 and the hours it may be utilized are from 4 p. m. to 6 p. m. Monday through Friday. It is to be used for traffic exiting the Base only during these hours. Entry to the Base via this road is not authorized.

The speed limit will be 35 MPH with no passing.

The Piney Green Road is opened with the hope that Holcomb Boulevard will be relieved of traffic congestion and safety will be enhanced.

Local Units Invent Sling For 'Ontos'

Ingenuity and initiative led members of the 2d Anti-Tank and 2d Shore Party Battalions, 2d Marine Division to the invention of a sling which is capable of lifting the ONTOS without inflicting damage to it or its guns.

Under the guidance of Maj. George F. Cribb, then Shore Party S-4 officer, the crew of an ONTOS got together and devised the sling.

(Continued on Page 12)

Open House Scheduled For FT Birthday, April 1

Members of the Quad-Command and the general public are invited to observe a display of Force Troops' heavy armor and specialized combat equipment at 10 a. m., on April 1, at the Camp Lejeune base parade ground. The ceremonies will commemorate the 14th anniversary of Force Troops.

A wide variety of equipment including tanks, 50-ton self-propelled guns, troop-carrying amphibian tractors, engineer equipment and a field-type hospital will be shown.

The Force Troops Drum and Bugle Corps will be featured. Refreshments will be served following a cake-cutting ceremony.

The guest of honor for the festivities will be MajGen. W. J. VanRyzin, CG, 2d Marine Division. The Honorable A. D. Guy, Mayor of Jacksonville, will head the list of local distinguished civilian visitors.

Force Troops, presently commanded by Brigadier General Donn J. Robertson, was activated April 1, 1951, as a command under the Commanding General, Fleet Marine Force, Atlantic, to administer and coordinate its units in garrison status, training them to provide heavy combat support and heavy combat service support to other Fleet Marine force units.

In 1958, the Marine Corps modified Force Troops to complement the reorganized Marine Division. Redesignated, it provides the Commanding General, Fleet Marine Force, Atlantic, with support which could be used to tailor units of the Division

and Marine Air Wing to meet any situation.

This group of varied sized, highly specialized units, each with its own role, is fully ready to mount out on short notice to provide many services to the Fleet Marine Force in combat.

Base To Sponsor Local Elimination For Photo Contest

Base Special Services is now sponsoring a Quad-Command Photo Elimination Contest, in conjunction with the 1965 All-Marine Contest.

Two first place winners in local competition will be entered in the All-Marine event. Entries will be divided into two groups for both the local and All-Corps' contest—black and white, and color transparencies.

Marine Corps Base Bulletin 1710 gives full details on entrance, and picture requirements.

Entries in the black and white division may vary from a minimum size of 80 square inches to a maximum of 480 square inches. Photos may be dry mounted, but tinting is not allowed.

Pictures must have been taken after Dec. 1, 1962. Entries must be made to the Recreation NCO of Base Special Services before 10 a. m., April 8. Judging will be at Goette Memorial Field House April 12.

Entry forms may be obtained from unit special services or from the Base Recreation Office.

Each of the two groups will be entered in one of seven categories: People, Babies and Children, Animals and Pets, Action, Scenic, Military Life, and Experimental.

Screening Team Here Next Week

The Drill Instructor Screening Team from the Marine Corps Recruit Depot, Parris Island, S. C., will visit Camp Lejeune from March 28 through April 2, 1965 to screen applicants.

Interested personnel are urged to read current directives concerning eligibility and make application through their respective CO's in advance of the team's arrival.

Proper Respect To Anthem —Mark Of A Good Marine

"TIS the Star-Spangled Banner — O long may it wave."
The "Star-Spangled Banner," officially approved as the national anthem of the United States by Congress in March, 1931, was written by Francis Scott Key while he was captive aboard a British warship in Chesapeake Bay during the bombardment of Ft. McHenry in the War of 1812.

The words of the patriotic song were written in a burst of inspiration as Key saw the flag still flying over the fort through the morning mist after the bombardment.

"Whose broad stripes and bright stars through the perilous fight, O'er the ramparts we watch'd, were so gallantly streaming."

Just as Key was inspired by the sight of the U. S. flag billowing victoriously over Ft. McHenry, veterans of all of the United States' wars and conflicts have been inspired after their

enjoy today. In dedication to this freedom all citizens of the United States should pay proper homage whenever the national anthem is played.

But there are frequent occasions when some citizens, unfortunately including members of the armed forces, do not pay proper respect to the "Star-Spangled Banner."

It is unthinkable that men, men or women, wearing the uniform of their country's armed forces, and thereby solemnly com-

tary people who don't know any better or who feel they are not required to pay respect to the anthem, will be the first to censure a man or woman in uniform who does fail to do so. Pots do sometimes call kettles black.

Paying proper respect proudly is a mark of a good soldier, sailor, Marine or airman—to say nothing of a good citizen. If you feel ashamed or if you fear being called a "flag-waver" or a "square" for showing outwardly your respect for your country, then you are in the wrong profession.

And you may be quite sure that if there had not been enough men before you who were openly proud of their country and its symbols, you would never have heard or seen "The Star-Spangled Banner." Think it over.

What so proudly we hailed...

perilous fights. For, after victory, they too could experience that swelling of pride if they could see Old Glory still "gallantly streaming" after the battle.

Though our national anthem was inspired by one battle in a war of long ago, its words could be used to describe the many battles that won the freedom we

mitted and dedicated to the protection of their country, could be so lax as to ignore or—worse—avoid paying respect to the national anthem. It is not "square" or "corny" to get your heels together, face the music and salute when the national anthem is played. And as paradoxical as it may seem, some non-mili-

We would like to take this opportunity to thank you, ward staff #4, USNH, for the life of our son Clinton. We not only wish to thank you, but it is our desire that everyone at Camp Lejeune be made aware of your accomplishment.

Our son was admitted March 1, in a coma. His problem was diagnosed as sugar diabetes. We learned that the chances of survival for a four-year-old in this condition were 50-50 at the best.

Doctors, nurses and corpsmen of Ward 4 seemed to take considerably more than just a professional interest in the case. There was someone at his bedside continuously for 48 hours. On at least one occasion we observed a doctor come in, on his own time, to check our son and to consult with the doctor on duty.

Not only did our son receive this best of medical care, but we were extended every courtesy conceivable during this period of uncertainty, not knowing if our only child would live or not.

Clinton is at home now. He is on a special diet and must have a shot of insulin daily, but this is trivial. We are more thankful than words can express, just to have him back.

Marines and dependents at Camp Lejeune should be thankful that the Navy end of the Navy-Marine Corps team is just as efficient at the hospital as they are when committed in combat. They may have to wait longer at the Navy Hospital to see a doctor about a common cold, but when the chips are down, Navy medical personnel are tops. God bless them all.

Sgt. and Mrs. Paul C. Whitlock, Midway Park, N. C.

AMERICAN
CANCER
SOCIETY

Please Help Me, Marine?

The campaign to collect funds for the Federal Service Joint Crusade and National Health Agencies is rapidly drawing to a close. Personnel at Camp Lejeune have always supported this campaign with enthusiasm. It is hoped that 1965 will only show a response as heartening as in the past—or even better.

This year's campaign directors are asking for donations in an unusual way. Instead of coming out and saying, "This is what we feel is your fair share contribution," they are saying, "Give whatever you can...no amount is too small, but PLEASE...GIVE."

Donations to the Federal Services Joint Crusade will go to organizations such as Radio Free Europe, CARE, HOPE and the American Korean Foundation.

Donations to the National Health Agencies will help support the major health organizations in their fight against disease and provide financial support for much-needed research.

Another unique feature of the campaign is the choice the donor has. You can donate whatever amount you wish to any or all of the agencies listed on your donation card. This means you have a direct hand in saying who you would like to help most.

Marines have long been known for their reputation as fighters. Giving to the campaign is fighting a battle too. A battle against ignorance, poverty, disease and suffering. Are you going to be the Marine who will turn a deaf ear to the crippled boy who pleads: "Hey Marine! Lend me a dollar to help me walk and I'll make you feel good all day?"

This paper is published for informative purposes only and material herein is not to be construed as directive in nature.

Look First—Then Move

Since the first of the year there have been 49 vehicle accidents which were caused by improper backing. Personal injuries were minor and property damage was just under \$3,000.00. In all of the accidents the fault was with the driver and not due to vehicle defects.

It is the responsibility of every operator of a motor vehicle prior to backing or making any other move to insure that the intended move can be made in safety.

In these backing accidents, damage to any one vehicle did not exceed \$150.00 BUT the owner was inconvenienced while his car was being repaired. He filed a claim with an insurance company—a mark as a careless driver; not a "big mark", but nevertheless, a mark. Reports had to be submitted. This takes time and costs money—manpower, report forms, film, pho-

tos, etc. A summons to Traffic Board was probably involved to answer the charge. Result—Loss of driving privileges—more drastic action.

All of this because drivers involved failed to make sure that the intended move—BACKING—could safely be made.

PREVENT BENT FENDER HOODS, GRILLS, AND BUMPERS—PREVENT A "CASE" NERVES—KEEP YOUR DRIVING RECORD CLEAN—LOOK FIRST, THEN MOVE!

Chaplain's Corner

"AND FROM THE IGNOBLE, THERE SHALL RISE GOODNESS"

It is told that many years ago, there stood in the streets of Florence, a Carrara marble. It had been started, hacked — really ruined and left unfinished by ungifted artist. Other mediocre artists passed by lamented the waste—but offered no aid.

Then one day, Michelangelo walked by it, noticed it and asked it be brought to his studio. There he applied his chisel, his genius, his inspiration. And out of that supposedly ruin of marble came the immortal statue of David.

Here is one simple truth: nothing is so low or base that it can't be lifted higher. Nothing is so bad that it can't be made better. No action is so menial that it cannot be ushered among the noble. No person is so doomed that he cannot be retrieved for sanctity.

Since with God all things are possible, the reportedly unendurable human tragedies need not be forgotten. They have a place, there is a remedy, they have their own special notch in the plan of Providence.

Our actions often times look very sordid. Perhaps they are. Here is where courage is needed and where hope is essential. Who knows—maybe what we do does look dull—to us, but not necessarily to God.

Down in the gutter of a city street was a crop of water, soiled, dirty and stagnant. Way up in the heavens, a gentle sunbeam traced its way lazily across the sky. When it saw the little drop, it leaped out its azure home down to the drop, kissed it, thrilled it through

and through with a new struggle and hope, and lifted it higher and higher, beyond clouds, over the rainbows, and then one day, let it fall to earth as a beautiful flake of immaculate snow.

These can be our actions; they are ennobled and spiritualized by the Almighty. It is we are lifted by our sincerity, crystallized by our good intentions.

—Chaplain R. T. Matuszewski

FOUR STAR QUOTES...

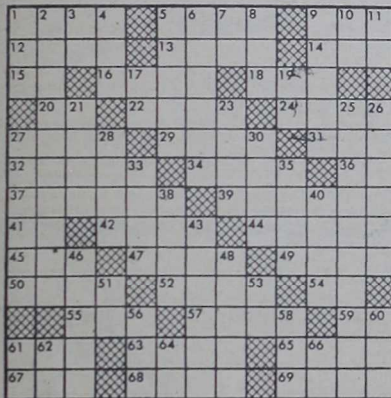

"... let us have the courage to make decisions to use strength in the pursuit of what is right. Let us be willing necessary, to give up our comforts, to forego our luxuries. Let us be willing, to tax ourselves, to mobilize our resources, to offer ourselves our country, so that we retain the priceless heritage of freedom that is ours, for future generations."

—Gen. Wallace M. Greene, Commandant

EASTMANCOLOR A UNITED ARTISTS LOPERT RELEASE

TOM JONES
This movie won the "Best Picture of the Year" award, the "Best Actor" (Albert Finney), and the "Best Director" (Tony Richardson). It stars Albert Finney, Susannah York and a host of others.

TIME Magazine—"Absolutely Magnificent! Let the gasping customers fall where they may."
N. Y. TIMES—"A roaring entertainment. Surely one of the wild- est, bawdiest and funniest comedies ever brought to the screen. A major creative achievement."
CAMP LEJEUNE GLOBE—"Need more be said?"

MAN IN THE DARK
Man in the Dark stars an all-star British cast including William Syl- vester and Barbara Shelley. A gripping suspense story, Man in the Dark tells of secret love, temptation, hatred, suspicion and attempted murder as a ruthless wife plans the murder of her very rich, but blind husband. A Universal release.

THE SECRET INVASION
To perform one of the most dan- gerous and crucial exploits of World War II, a team of criminals is recruited from the toughest prisons in allied territory.
One of the criminals is under sentence of death. The others have nothing to look forward to but long, bleak years in prison. None have much to lose.

Each, however, is a specialist in some department of crime. All their combined talents are vital to the accomplishment of this mission. They are told that the chances of ac- complishing it are only five. The alternative to success is certain death before a Nazi firing squad.
See Stewart Granger, Raf Vallone, Mickey Rooney, Edd Byrnes and Henry Silva in The Secret Invasion.

RIFLE RANGE (RR), Indoor; 7 p.m. daily.

MONTFORD POINT (MP), Outdoor; daily 7 p.m.

CAMP GEIGER INDOOR (CGI), 6:30 and 8:30 p.m. daily.

CAMP THEATER (CT), Indoor; 6 and 9 p.m. Monday through Friday; 2, 6 and 9 p.m. Saturday, Sunday and Holidays.

CAMP GEIGER OUTDOOR (CGO), 7 p.m. daily.

NEW RIVER AIR FACILITY (AF), Indoor; 6 and 8 p.m. daily.

CAMP GEIGER TRAILER PARK (TP), Indoor; 7 p.m. daily.

DRIVE IN (DI), Outdoor; 7 p.m. daily.

Base Bus Schedule Effective Today

Buses will stop **ONLY** at designated stops when passengers are waiting to embark or wishing to disembark.

HADNOT POINT — U. S. NAVAL HOSPITAL Schedule No. 1A & 1B

Provides half hour service from the Bus Terminal through Hadnot Point Area via the following route: "G" Street, River Road, U. S. Naval Hospital, Cross Street, Virginia Dare Drive, Molly Pitcher Drive, Holcomb Boulevard, Main Service Road, Louis Road, Dogwood Street, West Road, Cedar Street, Center Road, Ash Street, Michael Road, Sneads Ferry Road, Louis Road, "N" Street, River Road, "G" Street to the Bus Terminal.

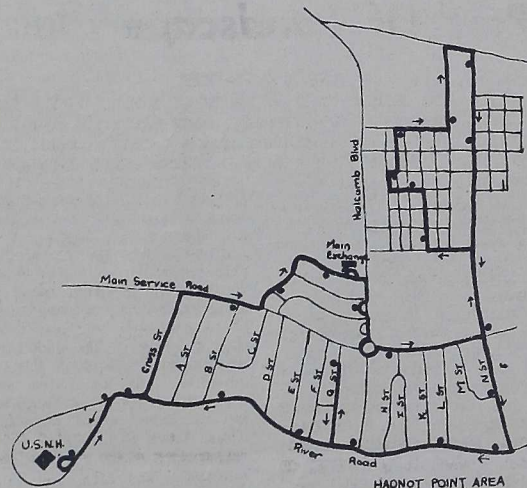

No. 1A originates each hour commencing at 0700 and terminates at 1730 Monday through Saturday.

No. 1B originates each hour com-

mencing at 0730 and terminates at 1800 Monday through Friday.

Buses stop at the below designated stops in the order listed:

Bldg. 235, Bus Terminal
Bldg. 223, 2nd. Mar. C.P.
Bldg. 123, 6th. Mar. C.P.
Wallace Creek Boat House Road
Entrance to Officers Country, USNH
Bldg. 41, Navy Relief — Red Cross
Bldg. 37, PMO
Bldg. 62, Central Area Service Club
Bldg. 84, Main Exchange
Bldg. 15, Main Dispensary
Bldg. 315, 8th Engr. Bn. C.P. 2nd Tank Bn. C.P.
Bldg. 1800
Bldg. 1601, M.T. Maintenance Co., 2d FSR
Bldg. 1403, Thrift Shop
Bldg. 1200, Commissary
Bldg. 1101, Base Property
Bldg. 1006, Civilian Cafeteria
Bldg. 914, 2d FSR C.P.
Bldg. 1116, Base Mat. Bn.
Intersection "N" & "M" Streets
Bldg. 522, 10th Mar. C.P.
Bldg. 423, 8th Mar. C.P.
Bldg. 317, HqBn., 2d Mar Div. C.P.
Bldg. 235, Bus Terminal

MIDWAY PARK — TARAWA TERRACE Schedule No. 2

From Bus Terminal to Tarawa Terrace I and II via Midway Park.

Bus enters Midway Park by the Shopping Center, proceeds to Butler Circle via Butler Drive. Bus stops at Shopping Center, Quarters 1054, 1422, 1264, 1206, 906, 330, 102 on Butler Drive.

Bus enters Tarawa Terrace I on Tarawa Boulevard and continues to Tarawa Terrace II. Bus stops: Quarters 138, 189, 222, 268, TT-44 (Community Center), 2447, 2357, 2137, 2013, on Tarawa Boulevard then continues to Lejeune Boulevard.

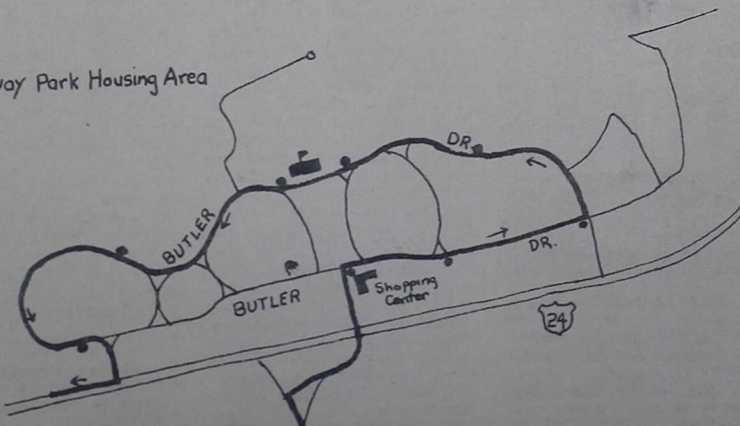

Bus operates five (5) days a week every two (2) hours until 1500 and each hour thereafter until 2000. On Sat., Sun., and Holidays the bus operates hourly commencing at 0700 and terminating at 2000.

| Bus Term. | DEPARTS | Midway Pk. | TT I |

Naval Prep School Nominating Rules Published In MCO

WASHINGTON--Authority to nominate candidates for the Naval Preparatory School is announced in MCO 1531.18.

The order establishes detailed nominating, screening, and selection procedures. Further, the new order requires additional information regarding the candidate's past performance and estimated future potential. These modifications are made to maintain the mission of the Naval Academy. Interviewing techniques, during the past year have resulted in the improvement of student quality for the preparatory school.

Applicants must be between the ages of 17 and 20 years old as of July 1, 1965. No waivers will be granted.

Further, no waivers will be granted on the GCT or AA score, which must total no less than 120.

An applicant must be a high school graduate, or equivalent, with the necessary 15 credits required for admission to the Naval Academy. A maximum of 3-1/2 credits in English, Mathematics, and Physics may be obtained at the preparatory school to build a candidate's credit standing to Naval Academy standards.

The order states that CO's should be concerned mainly with the applicant's officer-like qualities and his motivation to attend the Naval Academy.

Marines Using 'Topsy' To Find Viet Guerrillas

A battlefield surveillance radar called Topsy-21 was put to use in a wartime environment recently and proved its effectiveness by detecting Viet Cong guerrillas moving toward the Da Nang air base complex in the Republic of Viet-Nam.

The Topsy-21 equipment used by Marines in their security role to protect the Da Nang area where Army, Navy and Air Force personnel and supplies are located, is only one type used by the services.

To assist in detection of enemy activity, the Army has a whole family of ground radars with effective ranges from 100 to 20,000 meters for use by combat units and supporting artillery.

The Topsy-21 radar, used by the Marine Corps in the Republic of Viet-Nam, is an Army-Navy transportable radar system used to detect movement of personnel and vehicles during periods of reduced visibility.

This particular radar system is an additional means of surveillance, according to Marine Corps officials, and does not replace normal reconnaissance

methods.

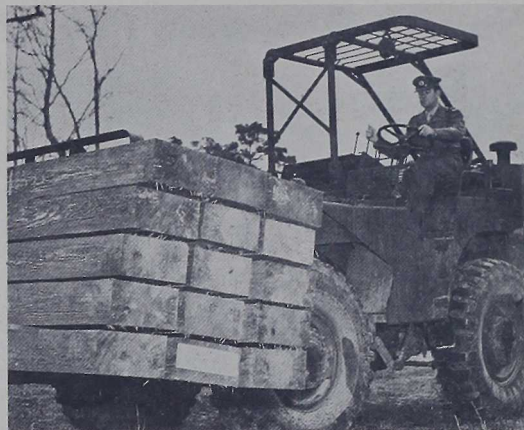

Detection by Topsy-21 is obtained by sounds, officials explained, not visually as had been reported.

The sensitivity of this radar system, for example, can differentiate between the sounds of blowing leaves and the movement of feet. It is capable of detecting crawling persons and has a range of more than five miles.

When audible tones of moving objects are picked up by Topsy-21, the operator can adjust dials to display range and azimuth of the moving targets.

There are 30 Topsy-21 radar sets in each Marine division. Two are assigned each infantry battalion and 12 to each reconnaissance battalion.

The Topsy-21 weighs approximately 255 pounds, including the generator.

HEAVY LOAD—WO Kevin R. Lockwood, Australian Royal Engineers, manipulates a heavy load on a 6,000 lb. Fork Lift Truck. Mr. Lockwood recently completed a course at Camp Lejeune's Marine Corps Engineer School on the machine in anticipation of a shipment of fork lifts to Australia sometime this summer.

Extensive Tree Cutting Part Of Landscape Plan

By PVT. S. G. POTTER

To the casual observer, driving around Camp Lejeune, it seems that somebody, somewhere, is running around, saw in hand, cutting down beautiful trees for no logical reason. The ardent conservationist, however, understands the reason.

In reality, the tree cuttings taking place throughout the reservation are in conjunction with an extensive, long-range maintenance and beautification program. The Horticultural Management Program, as it is called, was initiated in March 1964, and is one of many programs directed by the Base Maintenance Department.

"A tree is like a human being," said Mr. K. N. Hawkins, Base Landscape Architect, "when it is injured or sick, it must be cared for."

Since the spring of 1964, Mr. Hawkins has been actively involved in a program of developing the improved and semi-improved areas on the base. This entails many projects, one of which is the cutting, pruning and transplanting of trees of all sizes and varieties.

All the improved and semi-improved areas were carefully studied and plans drawn up to establish a maintenance program that would produce an optimum year round appearance of beauty.

If, for example, the architect were assigned the job of developing a school area, many factors must be taken into consideration before the work is started.

First, a plan must be drawn up which includes: (1). The over-all beauty of the area, (2). The safety element (3). The maximum amount of shade for the most essential places, and (4). The treating or removal of diseased trees and the assurance of tree health over a prolonged period of time.

The beauty of the school and its surroundings is the main obvious consideration. All portions of the site are studied for their potential aesthetic value and as a result, the finished product provides beauty and uncomplicated maintenance.

Mr. Hawkins stated that at one school area he developed a tree plagued with dead limbs, hovered over the swing area in the school playground. The corrective action needed was obvious--trimming the dead branches.

Location Sometimes Dangerous

Trees can and do cause many problems with buildings and telephone poles. A beautiful oak growing too close to a house could, weaken or destroy the foundation, discolor or ruin the paint, damage the roof or plug the drainage system. There

is also the possibility of a strong wind blowing a tree down and destroying the building.

Sites for the planting of the new trees are not selected at random. Aside from being a thing of beauty, a tree has a more practical function--producing shade. The selection of sites for these trees, therefore, is based on where the majority of the children are at certain times during the day. Thus, trees are planted near classrooms which get both the morning and afternoon sun. Trees are also located in the playground area to protect the children from the sun while at play.

Distance between trees is important. Large shade trees, in order to reach proper height and remain healthy, should be planted at least 40 feet apart. This allows each tree to receive the required amount of sunlight and food. It is far better to have a few good shade trees than a lot of poor ones.

Projects Completed

Under this new program, Mr. Hawkins has completed such areas as the Bowling Center, the BOQ, and the Golf Course. The Golf Course project alone has over 200 new Dogwood trees. Sites at both Paradise Point and Montford point have also been completed. "Future plans," stated Mr. Hawkins, "include three different school areas along with many other areas."

In 1965 alone, the Horticultural Department has planted over 65,000 saplings and has transplanted 1500 larger trees. In reply to the question of how many trees have been or would be cut down, Mr. Hawkins said, "For every tree we cut down, we plant about a hundred."

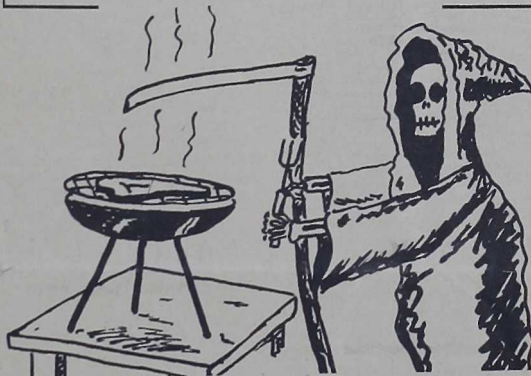

Several varieties of trees are used by the Horticultural Department. The main ones are Oaks, Elms, and Pines, but other trees such as Birch, Dogwood, and Linden are also being planted.

Mr. Hawkins' ambition is to see to it that Camp Lejeune will become one of the most beautiful military bases in the United States at the program's completion date of 1972.

Special Services Closed

All Base Special Service Activities will be closed for inventory Tuesday and Thursday, March 30 and April 1.

CADMIUM POISONING

Now that the time is approaching when backyard barbecues will be used frequently, the Base Safety Office reminds you to use extra caution in assuring that the food is fresh, that the proper equipment is used, and that rules of sanitary food preparation are observed.

In one instance a few years ago, a family of four became violently ill after enjoying barbecued steak, baked potatoes and salad--all fresh and prepared sanitarly. Investigation revealed, however, that the steaks had been grilled on an old refrigerator shelf. Tests showed that the shelf had been plated with cadmium, which melted under the high temperature of burning charcoal and stuck to the steak. Result: Cadmium Poisoning.

Many metal household products are coated with cadmium. "DON'T USE MAKESHIFT UTENSILS OF THIS KIND IF THEY TOUCH THE FOOD!"

MEDAL OF HONOR WINNER—Vice Admiral Joel T. Boone, USN, (Ret.) (left), who won the Medal of Honor while serving with the 6th Marines in France during World War I, receives a plaque and history of the 6th Marines from Col. George W. E. Daughtry, CO, 6th Marines. Doctor Oscar S. Goodwin, Apex, N. C., (center), who served with Admiral Boone as a corpsman with the 6th Marines in France, observes the presentation which took place March 19.

Norway Operation Photos

MajGen. Odd Molaster, Norwegian Army, and Capt. Paul K. Dougherty (right), CO, Company "C", 1st Bn., 8th Marines, talk at Bergen railroad station.

Cpl. Leo F. Furfey (left), has his rifle inspected by his platoon sergeant, SSgt. Nicholas Prokopchuk.

Marines practice downhill skiing.

The 2d Squad, 2d Platoon, Company "C" learns to "herring-bone" in order to climb slopes.

Straight Scoop On Local Schools

How many of us here at Camp Lejeune really know what goes on in the schools of our dependents at Camp Lejeune? Here is the inside story that every Marine owes to itself to be concerned with.

The Camp Lejeune Dependents Schools were organized in 1944 and have been maintained since that time to provide formal public education, grades 1 through 12, for children eligible for attendance.

The schools on the base are funded by the U. S. Department of Health, Education and Welfare and operated by the U. S. Marine Corps in consonance with the standards of the Department of Education of the State of North Carolina.

School Board

Here on the Base the Commanding General has appointed an Agency or School Board to:

(a) Make recommendations concerning policy matters affecting the schools.

(b) Monitor the operation of the schools in compliance with all applicable laws, policies, rules and regulations.

(c) Insure that the specific duties and responsibilities of the Superintendent, as set forth in the Camp Lejeune Dependents' School Employee Regulations are complied with.

Standing Committees

The School Board is composed of a chairman and ten other members, two of whom are adult dependents. These members represent the Tri-Command, U. S. Naval Hospital and the Marine Corps Air Facility. The Board is organized into Standing Committees which have cognizance over all school matters.

The responsibilities of the Standing Committees are:

THE ADMINISTRATION COMMITTEE: Represent the School Board on matters pertaining to Supply, Budget, Lunchroom, Fiscal and Personnel.

THE EDUCATION COMMITTEE: Represent the School Board on matters pertaining to educational programs, teacher training and student activities.

THE FACILITIES COMMITTEE: Represent the School Board on matters pertaining to building requirements criteria and standards, and the operation and maintenance of the School Plant.

The Board meets monthly on the call of the Chairman with at least one member of each of the above committees present. The President of the Dependents Schools PTA sits with the School Board at all meetings to present items of interest as may be considered appropriate for cognizance by the School Board.

Members of the 1964-'65 School Board are:

Chairman: Colonel R. M. Port; Chairman, Education Committee, LtCol. E. K. Vickers; Chairman, Facilities Committee, LtCol. E. L. Little; Chairman, Administration Committee, Maj. W. D. Everett; LtCol. R. D. McKittrick; LtCol. E. B. Miller; Maj. W. C.

Blood Donor Program

Volunteers are being sought for the Navy Blood Donor Program during the months of March through June. The following schedule for donations has been established:

Marine Corps Base
March 29, April 4, April 19-25, May 10-16, May 31 - June 6 and June 21-27.

2d Marine Division
April 5-11, April 26 - May 2, May 17-23, June 7-13 and June 28 - July 4.

Force Troops
April 12-18, May 3-9, May 24-30, and June 14-20.

Donors are requested to check with their First Sergeants if they desire to donate blood. Do not contact the U. S. Naval Hospital directly.

Ashley, Jr.; MSgt. F. O. Tarbox; GySgt. J. O. Cressionne, Jr.; Mrs. B. E. Horner; Mrs. Albert Benson; Mrs. T. S. Ivey, PTA Council Representative; Mr. W. H. Tuck, Superintendent; and Mr. H. L. Green, Business Manager.

Parents Suggestions Considered

Those parents who have recommendations to better the Base School System in areas which fall within the responsibilities of the above committees are fully encouraged to submit suggestions addressed in writing to the Chairman of the Committee in which the subject matter falls.

\$440 Per Student Spent

Statistically speaking: The U. S. Department of Health, Education and Welfare is spending \$1,883,824.94, with a per student allotment of \$441.59, during this year to support our 4,266 (Average Daily Attendance) children in our system.

These schools are located in 7 buildings on 150 acres of school lands. They employ 16 administrators, 174 teachers, and 78 general employees. There are 34,549 books in our libraries; 468,000 lunches will be served this year; 28 school buses will roll 259,400 miles. Our school population is growing about five percent a year and the school board has proposed a significant increase in school plant capacity.

Dependents Schools here at Camp Lejeune compose the second largest base school system in the United States, surpassed only by that of Fort Knox, Kentucky. Major Kenneth L. Smith, Head, Dependent Schools Unit, Education and Information Sec-

tion, HQMC, stated that the school system is currently projecting the development of other elementary school classrooms, and that this be proposed in the near future.

A drawback common to public schools is that the school system receives its allowance through a monthly attendance system. If, for example, the system were hit by an influenza epidemic, funds would drop in proportion to attendance. In a recent issue of Navy Times, it was stated that the Naval Service is proposing an annual allowance to combat any such impairment of the school system.

Improvement Gradual

Colonel R. M. Port, Chairman of the School Board in a recent interview has stated, "Any changes, any growth, must be made on a gradual improvement of facilities, well as many desired facilities must also be on a gradual approach."

With the consideration of the financial appropriateness, Col. Port has stated, "Within the limitations of funds available, Camp Lejeune can be considered excellent."

SPEEDING MOTORISTS SHOULD REMEMBER THAT IT'S BETTER TO BE A LITTLE LATE DOWN HERE THAN TOO EARLY UP THERE.

New Personal Equipment Slated For Leatherneck

WASHINGTON — A more comfortable bed pillow, standardization of uniform apparel, and one "hard hat" instead of two are among the many selections made by the Defense Supply Agency (DSA) in its ever increasing endeavor to procure a standard item for use by the Army, Navy, Air Force and Marine Corps.

Statistically, the Agency has reviewed more than 460,000 items since its beginning more than three years ago. Of this figure, 188,000 items have been tagged "non-standard" and will be eliminated from the supply system when present stocks are exhausted.

Except for color and fabric, necessary to provide distinctive features used by the services, the uniform has gone through an extensive standardization stage. Several uniform items are now being manufactured using the same specifications and patterns.

It won't be long before the Navy and Marine Corps begin using the same five-ounce poplin shirt and eight-ounce cotton twill trousers for summer uniforms. Also the Marine Corps and Army will use the same tropical wool khaki trousers.

Soon, the same olive green utility shirts and trousers will be used by the Army, Air Force, Marine Corps and Navy Seabees. As a standard item, the Air Force and Army have adopted a utility cap that has been improved in appearance.

High on the list of outstanding examples of standardized equipment is the combat boot used by the Marine Corps and Army. The standard boot now comes in 56 sizes. Previously, the Marine Corps had 132 sizes and the Army had 132 sizes.

The new boot has reduced annual procurement costs \$330,000. Also, a special variation in design provides hooks in boots for amphibious troops who must at times wade in or out, or put them on, easily.

Standardization is also providing a common dark sweater for Women Marines and women of the Air Force.

Specially treated crowland-fowl feathers are now used as filling for pillows. This standardization has produced a pillow which is subject to dusting and attack by microorganisms.

while at the same time absorbing less moisture and retaining its resilient qualities after laundering.

To insure head protection, two types of "hard hats" worn by construction workers and one by electrical workers have been replaced by a standard hat providing protection to both types of work-

Air Delivery Marines Furnish Fast Support

PVT. D. E. BELSEY

Forty-two men of Force Troops, designated as the Air Delivery Platoon, exist primarily to throw gear out of the tail-end of a flying aircraft. Actually their job isn't quite as simple as it sounds.

The actual mission of the Air Delivery Platoon is to provide rapid air delivery logistic support for Marine ground units in the field by preparing, packaging and loading equipment and supplies on aircraft for subsequent delivery to the using unit by parachute; and in the case of transport aircraft, furnish the cargo master and crew to eject or extract the cargo over the drop zone.

Who are the men of Air Delivery? How do they get where they are, and why do we have them? The men of the Air Delivery Platoon are commanded by their Platoon Commander CWO A. L. Selleck, and number 2 officers and 40 men. Small but highly effective, the men are the backbone of the troops in the field when quick and efficient support is needed. An air deliveryman is sent to Fort Ben-

ning, Georgia, for training, to be qualified as a parachutist. Then he undergoes 12 weeks of Heavy Air Delivery School at Fort Lee, Virginia. When this is completed the man is then sent to an Air Delivery Platoon to begin a career in the function and practical application of what was learned. All the men of the Air Delivery Platoon are school trained, and all are qualified parachutists.

Air delivery of supplies and equipment is normally employed under the following condi-

of hazard connected with air delivery. Cargo being dropped from an aircraft leaves the plane at an average speed of 130 knots, and the cargo can sway just before being let off and a Marine can lose a foot.

Or it can haphazardly turn on its side leaving the aircraft and tear the rear of the aircraft fuselage off causing an air suction that can take the men inside the aircraft down with the cargo (chutes are always worn on missions).

WARMING UP—Marine Lance Corporal Robert Delescavage Wilkes-Barre, Pa., is seen turning up the fuel control on tent stove. Cpl. Delescavage is a member of the 2d Motor Transport Maint. Co., USMCR, and is at Camp Lejeune with 130 man company for two weeks reserve training.

2d Div. Woodworking Shop A Top Recreational Facility

Throughout the 2d Marine Division, Camp Lejeune, N.C., is a recreational outlet for nearly every Marine, regardless of his particular hobby.

For the Joe Marine who likes to create, construct and admire, the 2d Marine Division's Woodworking Shop is the best place for him to let his hobby take an actual case occurred recently at the shop as an ex-

see men inside who were busy sanding boards, cutting two-by-fours, or nailing two pieces of wood together.

Somewhat intrigued by their action, Joe approached the building, opened the door and entered the working and storage area for the hobby shop.

Almost immediately Joe was approached by Sergeant Leo R. Sheepwash, head instructor for the shop. Sergeant Sheepwash introduced himself to Joe, and asked if he could help him with anything.

Joe blurted out that he was just killing time, and didn't really have any need to be in the shop.

Sheepwash suggested that Joe look around the shop.

Joe took the advice. He walked around the various machines.

He then looked through the glass windows surrounding the sales counter and in addition to an almost endless supply of items necessary for finishing woods and projects, Joe saw heavy duty belt sanders, saws, polishers, saber saws, portable saws, portable drills, a router and hundreds of smaller hand tools.

By the time Joe had toured the building, he was standing in a corner where books full of blueprints and plans were laying open. He reached over to one of the books and thumbed through a few pages. Suddenly his eye was caught by the plan of a pipe rack.

Joe studied the plan more closely. It would only take one and one-half feet of inch-thick wood, and it looked simple enough to make.

He was still studying the plan when Corporal Arthur A. Bartley, assistant instructor, commented on how easy it would be to make the pipe rack.

Bartley asked Joe if he had any experience with wood, and Joe immediately replied that he did.

Joe decided that walnut was the best wood for the project, so he ordered the necessary board. Bartley then suggested

that Joe purchase a piece of sand paper, and put a smooth finish on the board.

After Joe had completed the sanding, he drew a pencil outline on the board—showing where and how he wanted to cut the wood—then he looked around for one of the instructors for more help.

This time Joe latched onto Sergeant Sheepwash, and asked him how to cut the holes and circular design which he had penciled on the board.

Sheepwash explained to Joe that he wouldn't be allowed to operate the power tools until he had been properly checked out on them and had obtained machine operator's card. Joe was told that he could attend a class of instruction from 11:30 a. m. until 1:15 p. m., Monday through Friday.

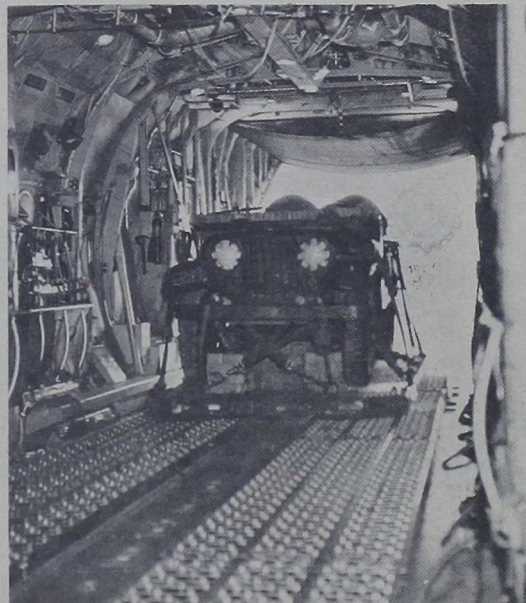

Joe found out that the shop is open every day of the week: Working hours, Monday through Friday from 11:30 a. m. to 1 p. m. and again from 3 to 10 p. m. On Saturday, the shop is open from 9 a. m. to 6 p. m. and on Sunday its open from noon to 6 p. m.

The next morning Joe was waiting for Sergeant Sheepwash and Corporal Bartley to open the shop so that he could get schooled on the machines. After receiving the necessary instruction Joe qualified as a machine operator.

That evening Joe returned to the shop, and he completed his project.

In addition to learning a new way of life after a full day of military routine, Joe is meeting a group of officers and men who have the same interests.

Joe is also saving money. Before his introduction to woodworking, he was like so many other young men around Camp Lejeune. He had plenty of free time on his hands, but, his off-base recreational facilities were limited. He used to make it a point to leave the base every free night he could, and as a result, he spent money like it was going out of style—actually wasting it.

A NEEDED VEHICLE is on the way. An air dropped vehicle can usually be unstrapped and driven away in just a few minutes.

tions:

(1) Preplanned delivery of equipment and supplies not air transportable by helicopter, required in a helicopter-borne amphibious assault.

(2) Delivery of supplies and equipment when airfields are not available within the objective areas for delivery by air-landed means.

(3) Delivery of equipment and supplies to a task force, beachhead or bridgehead when the need is urgent and the normal land or water transportation facilities are disrupted, inadequate or not established.

The Air Delivery Platoon utilizes five different types of aircraft: KC-130 F, C-117D, C-1A, UH34D, and the UH-1E. The aircraft most utilized is the KC-130F, the best in heavy air support the Marine Corps has to offer, and it is utilized to its fullest extent.

There is a certain amount

The delivery power of the platoon is vast. One aircraft can put as much tonnage on the ground in one pass as 35 helicopters. The delivery tonnage ranges from 500 pounds under normal conditions to 25,000 pounds in a 1,000 mile radius. Any article of any size can be packaged and dropped, from life saving blood to a D6 Bulldozer. The supplying power of the Air Delivery Platoon is 70 tons per day.

Air drops are accurate as science can make them, especially when the aircraft rapidly descends from a level of 5,000 feet to 300 feet, and rides the treetops for the assurance that the drops are accurate.

With the current trend toward guerrilla warfare, and the necessity for highly mobile troops, air delivery will play an ever-increasing role in future logistical support.

FINISHING TOUCHES—A member of the 2d Marine Division's Woodworking Club adds the finishing touches to a project.

Young Marine, whom we'll call Joe, found himself on his bunk one evening in the barracks. Most of his friends had gone on liberty since Joe only had a dollar and seventeen cents in his pocket. He didn't figure that was for him that night, so he went to the hobby shop. Joe left his barracks and started walking around the area.

Joe passed a large sign on the side of the street, his attention was whetted by the sign—Special Hobby Shop (Woodworking). He glanced toward the building and could

GENERAL VIEW—This is a general view of the 2d Marine Division Hobby Shop's facilities located in building 331, Camp Lejeune, N. C.

13th All-Mar Tourney Underway

39 Boxers Are Entered In This Year's Corps Classic

The first round of the All-Marine Boxing Tournament being held at Camp Lejeune's Goettge Field House was fought last night. Due to the GLOBE's deadline last night's results were not available for publication. Fifteen battle tested sluggers from Camp Pendleton made the trip from the west coast to fight in this year's Corps classic.

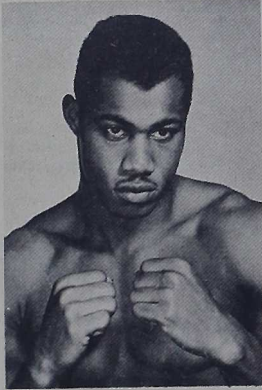

Tomorrow night's semi-finals and the finals on Saturday evening will begin at 7:30. Admission to the fights is free. Winners will advance to the Interservice Championships held at Fort Hamilton AFB, Calif., May 5-7.

Leading the Pendleton boxers in their quest for the team championship is Maurice Friot, 1964 Interservice Welterweight Champion.

Jimmy Wright, last year's Interservice Lightweight Champion, along with Interservice Heavyweight kingpin, Al Wilson, will be on hand adding stiff competition for the tourney hosts, Camp Lejeune.

Fourteen members of the Camp Lejeune Devil dogs are slated to see action in the three day classic. Led by big boys, Art Redden and Ken Norton, the local pugilists will be gunning to wrest their eighth team title of the season. They have one setback on their record.

Redden, Lejeune's Lightweight Heavyweight contribution to

Ken Norton

last year's Interservice Champions, will be aiming for his second straight All-Marine title. Last year, the Golden Hog captured the Middleweight division crown.

A newcomer to the fight game, Ken Norton will be pitted against a more experienced Al Wilson. The herculean-built heavyweight has walked off with all eight of his bouts this season.

Other members of Lejeune's high-flying team entered in the competition are Charlie Davis and Bill Mercedes, Bantamweight; Ray Mulet, Featherweight; Bob Reid, Lightweight; Harrison Payne and Bill Boston, 139 pounds; Marshall Fortune, Welterweight; Floyd Stevens and Francis Hutchinson, at 156 pounds; and Charles Perry, Middleweight.

"Z" Returns

Another pleasant surprise for most fight fans, who have been following Lejeune this year, is the return of Bob Lozada to the ring. Last year's All-Marine Featherweight champion, "Z", has just recovered from a broken nose, which he received in the Carolinas AAU bouts. Fighting out of the Lightweight division this year, he has captured four of his five fights.

Rounding out the field of this year's competitors are Allen Richardson, Cherry Point, Featherweight; W. Rumph, 3rd MarDiv, Lightweight; Roosevelt Hamilton, Barstow, Calif., James Czaikowski, Cherry Point, and Ray Ellis, Albany, Ga., Light Welterweights; Jose Chapel, 3rd MarDiv and Jimmy Hamm, Cherry Point, Welter-

Bob Lozada

weights; and Daniel Pate, a 178 pound bomber from USNB Charleston.

Pate, who has three years service boxing behind him, is a new addition to the star studded tourney cast. Last year's Okinawan Interservice Light Heavyweight Champion, the 178 pound puncher has compiled an impressive 29-1 record since joining the Corps.

Sailing Tutor

Anyone having any sailboat instruction experience, and who would be interested in teaching classes, contact the Base Special Services Officer or Recreation Director at 7-5528 or 7-5694.

Daniel Pate, Charleston

Cherry Point Wins V-Ball Tournament

Last week on their home court, the Cherry Point Marine Volleyball team, captured the FMFLant Volleyball Tournament, beating a game Beaufort team in the finals. After an opening round win over Marine Aircraft Group 31-32 (MAG) team from Beaufort, S. C., the Air Wingers dumped the 2d Marine Division team from Camp Lejeune.

In the semi-final game, MAG-31-32 outlasted the Division team in the best of three games, placing them in the finals against Cherry Point.

Climaxing this double elimination tournament, the Cherry Point Leathernecks captured the first game 15-8. Beaufort came storming back to grasp the second 15-11, but ran out of gas in the final contest. The Cherry Point champs won the third game 15-4.

At the conclusion of the tournament, Brigadier General John F. Dobbin, Assistant Wing Commander, presented the winners with their trophies.

Lejeune Harriers Race In Cross Country Meet

The Camp Lejeune Harriers have scheduled another Junior-Senior Division cross-country track meet on April 4 at 1:30 p.m. A third in a series of two division races, the upcoming cross country meet stacks up as a highly competitive race.

The runs, which will take place rain or shine, are scheduled to occur alongside the main road. All interested in competing in either the junior division 4 mile run or the senior division six mile jaunt, should report to the Goettge Memorial Field House track one-half hour prior to the race.

All college, high school or armed forces runners are eligible to participate in the races. An entry fee of \$1 is required to defray the cost of trophies and medals.

First place finishers in both the junior and senior division will be presented with a trophy. Runners placing second through fifth in both events will be given medals.

The junior division is set up to provide an opportunity for those interested in physical fitness to run with individuals of comparable ability, while the senior division provides good competition for the more seasoned runners.

This weekend the winners of last week's time trials in the track and field events are competing against William & Mary College, Va.

For more information concerning the upcoming cross-country runs or future events, contact Lt. R. W. McDermott, U. S. Naval Hospital, Ext. 44-313, or 1st Lt. Ed Laughton, HMM-265, MAG-26, New River at Ext. 06-147.

Base Golfers Battle For Tri-State Sports

Selection of a team, which will represent Corps Base in this year's Tri-State Golf Tournament now being held at the Paradise Point Golf Course, personnel who desire to try out can sign up with Gantz, Club Professional prior to commencement of the qualifying round.

The tourney, which will be held at the Parris Island Golf Course, kicks off on April 21, and will run for three days.

Two rounds of golf must be played prior to April 3. In both rounds, each qualifying member must be accompanied by no less than one other member, who is also playing for qualification scores.

At the end of each round the qualifying golfer will sign his own scorecard and will ensure his scorecard is signed by at least one other participating golfer. All scorecards will be turned in to Mr. Gantz at the end of each round.

There will be two divisions in this upcoming tournament. An open Division team consisting of five competitors and two alternates will be selected. Each representative must be a member of a Marine Corps Base organization and must have a handicap of 8 or less.

In the Senior division is no limitation placed on number of participants. However, the Camp Lejeune Recreation Fund will provide financial support for competitors and two alternates. Selected representatives must also be members of organizations, and be of age or older. They must sport a handicap of 12. A Senior is not eligible to compete in both team play and individual play.

After both qualifying rounds have been played, the golfers having the lowest scores will represent Lejeune in the sixth round. The eighth best scores will represent the Senior division. The Senior division will be determined in the same manner.

In the event there are ties in total scores, the person with the lowest established handicap will be selected. The records of the Point Golf Professionals will be selected.

Roving With Rick

For all those golfing enthusiasts who were present at taking in this year's Azalea Golf Tournament, Services has purchased a limited number of tickets which are available free of charge to military personnel stationed aboard the Base. Tickets can be reserved first come, first serve basis during the day prior to the event by calling the Reservation Office, Memorial Field House (7-3762) during working hours. No one will reserve a ticket for any two consecutive days. The tourney will be played this year at the Country Club, Wilmington, March 22-28.

Ten members of Camp Lejeune have been selected to represent the local command in the East Interservice Conference Bowling Tournament, which will be held on the new base lanes April 1-3. G. C. String led the qualifiers in the twelve roll-off with 2383 total, for a 198 average. Ordy was 37 pins back as 2346. HM1 L. Nicolette finished third with a 2335 score. Gunny S. T. D. was three pins off Nicolette's total with 2332. A. P. Jukoski and DT2 K. R. Millar rounded out the top six slots with scores of 2313 and 2309 respectively. The four men picked as team alternates are Cpl. R. Haversat, 2297, SSgt. W. T. Parker, SSgt. K. D. Joles, 2276, and PFC J. M. Toner, 2269. High game in the roll-off was turned by Nicolette in his final game. He blazed the lanes with a sparkling 269.

The All-Marine basketball squad dropped a decision to the strong Army contingent recently Interservice Cage Championships at Ft. Lewis. The Leathernecks, under the wing of head coach A. Karker, placed five cagers on the All-Service team which was selected by a panel of college coaches. Army placed four men on their team, while the Navy and the Air Force each placed two. Marines chosen for the All-Service squad were Brian Sheehan, Dick Peloff, Bob Birkle and Jim from Quantico and Bill Connolly of Hawaii. The Service team is now representing the Armed Forces in the National AAU Basketball Tournament.

Walejeune Cage Play led By 2d Division

The 2d Marine Division Basketball Teams are making a strong bid to run away with the laurels in the Quad-Command Cage Tourney now being played at the George Memorial Field House. The only blocks left in their path now are Marine Base, team No. 1, and Force Troops, team No. 2.

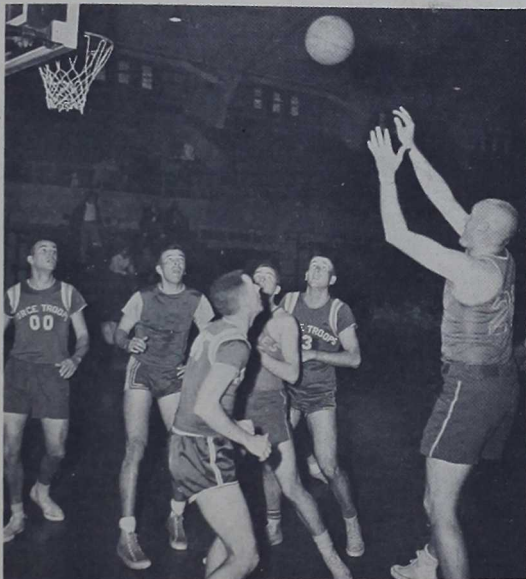

Due to the GLOBE's deadline, results of the semi-final games were not available

games which pitted both 2d Division Teams against each other, and once Force Troops against the remaining Base squad. The Force Troops will be eliminated from the elimination tourney. The 2d Division's No. 1 team (1st Marines) led by the scoring of Dennis Jend and Charlie Heard, have over Marine Corps Base, team 99-71 and Force Troops No. 1 team, 65-57 while the semis.

Locals Split Two Battles

The Camp Lejeune Marines Baseball team split two games with the Springfield College Maroons this week, as they copped the opener 4-2 and dropped the second 5-3.

Fred Roth, the returning hurler from last year's ECIC Championship team, went the entire distance in

Sunday's contest. He gave up eight hits, while his teammates made five miscues, which accounted for both Springfield runs.

As the bottom of the third inning opened, Leon Kislowksi led off with a walk and moved to second as Jim Hall sacrificed him. Ron Nay singled him home for Lejeune's first run.

The Leatherneck stickmen flexed their muscles in the fifth inning. After Jimmy Hall walked, Ron Nay reached first on an infield error. Al Davis's bunt went awry, but Joe Schratz brought both of the runners home with a resounding triple to right center. Ken Eeles pushed across the third run in the inning as he singled Schratz home.

Dick Hall, opening day loser

Fred Roth

th and two more in the eighth off of the strong Lejeune hurler.

After Tom McHenry lined the first Marine home run of the season in the second inning, the Lejeune team couldn't seem to get going. Hall's curve ball was hanging and was rapped repeatedly by the power packed Springfield lineup.

Despite the nine hit barrage thrown up by the Maroons, the local batmen out hit them by one, but couldn't get them back to back. Hall, who struck out eight in his first ball game, wiffed 13 opponents. Tom McHenry was the batting star for the locals as he collected three hits, all for extra bases.

Lejeune opens a three game series with Virginia Tech today. They will play on Friday and Saturday also. Cornell University will then move in for a three game series Sunday, Monday and Tuesday.

Joe Schratz

against Wilmington College, dropped his second decision of the young season, as the Maroons collected two runs in the fourth inning, one in the seven-

With the Azalea Open this weekend it isn't too early to start making plans to take a trip to Augusta, April 8 through the 11. It might be a long time before you will be stationed this close to the Masters so take advantage of it.

Myself and a few friends are planning a 'gypsy' trip for at least two days. If anyone is interested in going and would like riders or needs a ride, give me a call at 2-2750 after working hours. I will do my best to match up the drivers and those needing transportation. If you can't make the Masters, the Greater Greensboro Open, April 1 through the 4, in Greensboro should produce its share of thrills and touring pros.

200 PINS AHEAD—Pictured with MajGen. A. L. Bowser, Base Commander, are members of the H&S Bn., MCB, Bowling Team. The squad won the recent Base Bowling Tourney by defeating MCSS by 20 pins. The team members

are, from left to right, Sgt. Charles Koechling, Sgt. Hugh Crawford, SSgt. Bob Anderson, General Bowser, Team Captain SgtMaj. Gene Stinnette, SSgt. Bill Parker, and SSgt. Dave Joles.

Free-Loan Films Of Interest To All

"There's a new film tailored to suit the program interest of every club and organization in North Carolina," states Mrs. Ruth Lieban, recently appointed Films Officer of the North Carolina Film Board, in Raleigh. Former Executive Secretary of the Governor's Commission on the

Status of Women, Mrs. Lieban refers to the fourteen documentaries produced by the Film Board during the past two years.

For her new role promoting statewide use of Film Board documentaries, Mrs. Lieban draws upon an extensive background in writing, directing, and film-making. In New York and the Ryukyu Islands, she researched and supervised production of films for the U. S. Government's overseas information program. In Chicago, she scripted ABC's "Coronet Story Teller," directed "Helen Trent" and "Great Artists," and produced for educational station WBEZ. The new Films Officer was also a Chicago editor for Consolidated Book Publishers. She holds a B. A. degree from Northwestern University.

In 1955, with her husband, administrator for anthropology at University of N. C. in Chapel Hill, Mrs. Lieban moved to North Carolina.

Mrs. Lieban's work requires wide contact with community leaders, ranging from college presidents and TV program directors to officers of professional and civic groups, both men's and women's. Her work is to inform organizations about the diversified programs of North Carolina films now available. She also prepares promotional material about the new films and the film-makers who produce them.

Most of the documentaries made under N. C. Film Board's Director James Beveridge, are color films of 30-minute length. They are deposited for free-loan borrowings, with a number of established 16mm film libraries in the state, including local public libraries. They circulate among schools, civic and service clubs, TV Stations, and many educational groups. Ultimately it is hoped that an extensive body of original North Carolina films dealing with public-affairs problems and educational themes, will be widely available throughout the state.

Future of the film-making agency was plunged into doubt last month when the forthcoming State budget disclosed no provision for continuing film production. However negotiations are now in progress for alternative sources of finance and administrative sanction, outside State government. Films produced to date have entered widely into 16mm distribution particularly among the schools.

Community groups interested in the use of such film programs may contact Mrs. Lieban at the North Carolina Film Board on Western Boulevard, Raleigh.

CURTAIN GOING UP—Cast members of the Camp Lejeune High School presentation, "The Mouse That Roared," shown in costume for their parts are, left to right, (front row) Edward Baker, Connie Williamson, Joe Tinkham and Sue More; (second row) Jean Tuck, Bill Turville, Pat West; (third row) Mike Norris, Garry Hunter, David Horton, Rick Demer and Dana Eddings. The play will be held at the Camp Lejeune High School Auditorium at 8 p.m. tonight.

C. L. Seniors Present Play

The Senior Class of Camp Lejeune High School will present "The Mouse That Roared" tonight in the high school gym.

The play is about the Dutchy of Grand Fenwick, a small nation in Europe, ruled by Gloriana the Twelfth (Butchle DeAtley) which declares war on the United States because the United States is ruining their wine production. Count Montjoy (Bob Ehly) and David Benter (Joe Whitehead) decide to send Tully Bascom (John Boulware) with a group of soldiers to invade New York. While they are in the United States they capture the Q Bomb, the most powerful weapon in the world, created by Professor Kokinz (Dave Horton) and defeat the United States.

The President of the United States (Ed Baker) sends Secretary of State (Joe Tinkham) to seek peace terms and to try to have the prisoners released, General Snippet (Bill Turville) and his two daughters (Gall Annis and Pat West) Woman Marine officers.

"The Mouse That Roared" is a two hour long comedy. Admission is one dollar for adults, and fifty cents for students. Proceeds from the play are to finance the class trip. The public is invited.

OF THE WM'S—Members of the winning WM team the H&S Bn., Intramural Bowling League pictured with CO, Captain Carol A. Vertalino (center) are, left to LCpl. Katherine Burr, PFC Cheryl Arnold, LCpl. Gail and Cpl. Diane Marin. The team received their trophies at the League Banquet which was held at the Exchangeateria on March 17. Not present for the presentations were Carol Crocker and PFC Maridee Lenz.

M Bowling Team Receives Trophies

In St. Patrick's Day (last Wednesday), the Battalion Intramural Bowling League held its Awards Banquet at Camp Cafeteria.

The guest speakers were Col. John F. Mallard who presented the trophies; GySgt. Larry Hile, president of the league, and Mrs. Kitty Sullivan. The league took this occasion to honor Mrs. Sullivan's birthday with a cake decorated in green, fitting the day, and presented her with a bowling apron.

Captain Carol A. Vertalino, CO, WM CO., accepted the Woman Marine Special Team award on behalf of team 11, The Absentees. Bowlers of this first place team were LCpl. Gail G. Work, team captain, LCpl. Carol Crocker, Cpl. Diane Marin, PFC Maridee Lenz, PFC Cheryl Arnold and LCpl. Katherine Burr.

The individual award winners were: High Average and High Game Scratch to 1stLt. E. Carol Rhodes; High Game w/handicap to Cpl. Diane Marin; and Most Improved Bowler Award went to LCpl. Burr.

The league secretary, Sgt. Ray Wells acted as host and co-ordinator of the banquet. Hopes have been expressed that the Battalion Intramural League will be re-activated sometime this summer.

Activities Calendar

NOTICE

Group VIII — OWC

The transportation for wives of Group VIII for the 2nd Field Artillery Group Demonstration on April 8 will be at 10 a. m. at Goettge Memorial Field House instead of at the "O" Club as previously announced.

Navy Relief

Mrs. Robert A. Churley assumes the position of Chairman of Volunteer Women, relieving Mrs. R. S. Johnson.

Mrs. Churley has done volunteer work over a 17 year period at various Auxiliaries. She has earned a 100 hour pin, 600 hour pin and a meritorious award.

Mrs. James H. Boyers assumes position of Layette Chairman relieving Mrs. E. B. Robertson.

Volunteer workers for this committee are always welcome. For information call 7-5584.

A new series of Pre-Natal Classes will start on April 8 at Camp Lejeune. These classes will be held each Thursday for five weeks from 1 to 3 p. m. in the U. S. Naval Hospital Theater.

Group IV — OWC

GROUP IV OWC...Friday, at the Paradise Point Officers Club, from 6:30 till 8:30 p. m. is the cocktail party for wives of Group IV their husbands, and invited guests.

TT NCO Wives

Last Monday the TT NCO Wives Club held a celebration for their second birthday.

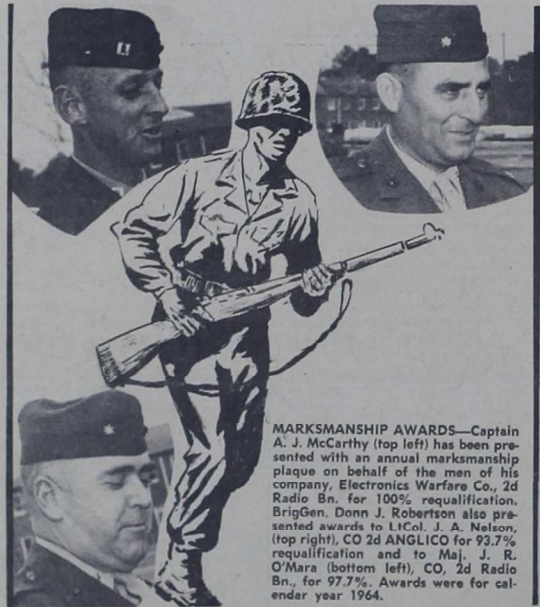

Mrs. Kitty Jenkins, USO Advisor, along with Mrs. Evelyn Tyndall, president, were there to cut the cake.

Entertainment was provided by Magic Unlimited.

Our next meeting is April 12. All E-4 and E-5 wives living in the Terrace or in town are welcome to attend. The time: 7:30; the place: Tarawa Terrace Community Center Annex.

LATE COMING MEDAL—Gunnery Sergeant Giles P. Cagle (right), Company "K", 3d Bn., 2d Marine Division, has the Purple Heart Medal pinned onto his uniform by his Battalion Commander, LtCol. Bruce F. Meyers, March 12 in a ceremony conducted in the colonel's office. Gunnery Sergeant Cagle received the award for a wound he sustained on Feb. 23, 1951, during Operation Killer in Korea. No explanation could be offered for the delay.

MARKSMANSHIP AWARDS—Captain A. J. McCarthy (top left) has been presented with an annual marksmanship plaque on behalf of the men of his company, Electronics Warfare Co., 2d Radio Bn. for 100% qualification. BrigGen. Donn J. Robertson also presented awards to LtCol. J. A. Nelson, (top right), CO 2d ANGLICO for 93.7% qualification and to Maj. J. R. O'Mara (bottom left), CO, 2d Radio Bn., for 97.7%. Awards were for calendar year 1964.

RECEIVES RIBBON—LCpl. Darwin R. Pilson (right), 3d Bn., 2d Marines, receives the Navy Unit Commendation Ribbon from his battalion commander, LtCol. Bruce F. Meyers. Stationed at Marine Barracks, Kodiak, Alaska, Pilson was on hand when the severe earthquake hit the island Mar. 27, 1964 and assisted in police action during the crisis. For a job well done he received the Navy Unit Commendation Ribbon.

ONTOS Sling ... (Continued from Page 1)

Prior to this time, there was no way to lift the ONTOS without damaging it or its guns. The "Thing" as it is called, can now be placed on main decks of ships instead of well and tank-decks. It came about like this:

First; they selected a piece of cable and cut it into four equal parts placing a separation bar half way down the cable to run lengthwise over the ONTOS. Next by adding cross-bars front and rear, "A"

frames were created to get the right space in the pick-ups. Then by adding hooks to the four bottom cables and loops in the top, the invention was ready for its first test.

The loops were hooked to a crane and an ONTOS was driven to the scene for the tests. After all hooks had been fastened, the word was given, "Let her up".

The ONTOS rose--the test was a success.

Cmdr. R. Tenn 'College' Nomin

Commander Robert A. Tennille, Jr., MSC, USN, Administration Officer, USN, been notified by the College of Hospital Administration that he has been designated for nomination in the College.

This College was founded February 13, 1933 in the United States and Canada. Its objectives are to elevate the standards and to establish competence for hospital administration; and to develop and promote standards of education and training for hospital administrators.

Affiliation with the College means that the person attains specific status in the field to warrant recognition through membership.

Commander Tennille served in his present assignment since July, 1962. He is a graduate of the U.S. School of Hospital Administration, the Harvard School of Business Administration and the Army Management School. He is a member of the American Hospital Association, the N. C. Hospital Association.

Warfare Team

(Continued from Page 1)

dise point, upon the arrival at Camp Lejeune.

On Saturday, the team will observe a 2d Shore Party Battalion equipment demonstration prior to receiving a briefing by 2d Marine Division personnel in the Command General's Mess.

Following the briefing, the team will motor to the basin, Courthouse Bay, where they will view a County Exhibit by the 8th Marines. The exhibit consists of weapons and vehicles used by the 2d Marine Division.

Upon termination of the exhibit viewing, the team will serve the 8th Engineer Battalion, Force Troops, a state water distillation demonstration by the 2d Amphibian Battalion, Force Troops.

On Sunday, the team will part for Marine Corps Station, Cherry Point, where they will receive a briefing on equipment and tactics of the wing in support of forces.

On Tuesday, the team will observe the ordnance for the 1st Marine Division, which is for those STAFF
