MAJOR GENERAL, U.S. MARINE CORPS

Lejeune Observes Civil Service Week

RESEARCH IS OUR MOST IMPORTANT PRODUCT—Demonstrating the centrifuge which separates blood plasma from the cells is Civil Service worker, Dr. John J. Burt, a physiologist, who works at the Medical Research Lab. Dr. Burt has been with Civil Service since March of 1962.

Civil Service workers aboard Camp Lejeune will gather at the Base Theater Jan. 18 at 11:15 a. m. to commemorate their 80th anniversary.

Opening the program will be the 2d Division Band with the National Anthem. Following the Welcome to be given by Col. S. M. Kelly, AC/S, G-1, Capt. F. W. Kelly, base chaplain, will conduct the Invocation.

Maj. Gen. J. P. Berkeley, commanding general, Marine Corps Base, will then address the group and present the awards and certificates.

The Civil Service Act, signed into law on January 16, 1883, has stood for 80 years as the foundation of the merit system of employment in the Federal service. It established the framework for today's comprehensive personnel system under which two million employees serve the American people.

In our Nation's infancy, appointments to public office generally were made on a basis of fitness for the jobs. But for approximately a half century prior to 1883, the slogan 'To the victor belong the spoils' was the accepted principle in filling Government jobs. The "spoils system" reached such proportions that in 1841, when William Henry Harrison took office as President, 30,000 to 40,000 office seekers swarmed into the Capital City to claim the 23,700 jobs that made up the Federal executive service of that day.

By 1853 it had become the

AN ARTIST OF SORTS—Posed at his "easel" is Mr. R. M. Sheegog, a structural engineer, who works with other Civil Service workers in the Architectural / Structural / Electrical Branches Section of the Public Works Department, Bldg. 1005.

custom to stop all regular activities for a month after a change of administration to allow the President and heads of departments to devote time to settling the multitudinous and conflicting claims of the spoilsmen.

Public reaction against the spoils system and sentiment for civil-service reform began to develop during the Civil War, but reform efforts failed until a national tragedy, directly traceable to the spoils system, shocked the American people. The climax came on July 2,

1881, when Charles Guiteau, incensed because his expectancy of a patronage appointment went unheeded, slipped up behind President Garfield in a Washington railroad station and shot him in the back.

The tragedy aroused public indignation and resulted in the passage of the Civil Service Act, Signed into law on January 16, 1883 by President Chester A. Arthur, the act has remained basically unchanged for 80 years.

Framed largely by Dorman B. Eaton, the act laid down certain principles and aims for the civil service and left the President the responsibility for providing the rules and regulations

THE CARPENTER SHOP — Pictured is Barney Conway, one of the many Civil Service workers at the Carpenter Shop of Base Maintenance, Bldg. 1202. Mr. Conway has been with Civil Service for 13 years.

for accomplishing the purposes of the act.

Competitive examinations open to all qualified citizens and practical in character, are a basic requirement. Selection for appointment are made from among those graded highest in the examinations, and appointees must serve a probationary period to prove their ability and fitness. The act reaffirmed veteran preference provisions already on the statute books and gave employees protection against political removals, demotions, and assessments.

The passage of the Act of 1883 did not spell the end of the civil-service story. For the next 80 years two main threads are evident: the gradual extension of the coverage of the act until at present 91 percent of executive-branch positions in the United States are covered; and the transformation of the service into a modern, responsive instrument to meet the needs of the people in our complex civilization.

Bulletin

Now that the Cuban Crisis has subsided and the holidays are a fond memory, Marine Corps Institute students who have not been submitting lessons are strongly encouraged to maintain their active status by submitting a lesson prior to Feb. 1.

During the Cuban Crisis inactive MCI students have now been disenrolled because of the possibility that their commitment may have precluded course activity. However, effective Feb. 1, students who have not submitted a lesson since July, 1962, will be disenrolled for inactivity.

Submit that lesson so that the Service Record Book reads, "Completion," rather than, "Disenrolled for Inactivity."

Recon Lieutenant Heads 600-Man Airborne Class

The son of an Army colonel, a U. S. Naval Academy Graduate, a Force Reconnaissance Marine, 1st Lt. Charles E. Davis "leaped" to "Top Honors" in a 600-man class which completed the Basic Airborne Course at Fort Benning on Dec. 20.

Currently serving as S-2 Officer, of the 2d Force Reconnaissance Company, Force Troops, Atlantic, Lt. Davis added another laurel to those already earned by Recon Marines, when he received a Paratrooper Statuette, which is presented to the Honor Graduate of each Airborne Class.

The four week course at Fort Benning involves learning techniques of parachuting, physical conditioning, and orientation in airborne operations. This is culminated with five parachute jumps in the final week.

Lieutenant Davis, a former member of "D" Company, 1st Battalion, 8th Marines, 2d Marine Division, joined Recon Company in October 1962.

He summed up his feelings about being a Recon Marine by saying, "I recommend Recon Company duty for any Marine with the desire to travel, to attend a variety of schools, and

to lead a physically active life."

Lieutenant Davis feels that he is a member of one of the most versatile units in the Marine Corps today, and that the members of this unit are "Tops".

To cite some individuals who "Topped" their classes at school recently, he named Company Executive Officer, Captain Stanley Wawrzyniak, 1st in Army Ranger School, Captain Peter J. Johansen, Company Communications Officer, 1st in Underwater Swimmers' School, and LCpl. Dennis C. Redmond, a Radio-Telegraph Operator, 1st in Airborne School.

Lieutenant Davis said, "It's people like this that make our company what it is. Association with men as determined and with the drive and fortitude such as Recon Marines display in their everyday job brings out the satisfaction derived from putting forth their maximum effort. This could be a by-word for all Marines".

HEY, MR. POSTMAN!—A familiar and welcome sight in the Capehart area is mailman Douglas Fisher, shown here "on the job" delivering mail to Mrs. E. P. Rabalais. Mr. Fisher has been with Civil Service since September of 1962.

2,000-Man Landing Force To Conduct PHIBULEX-63

Jan. 8--A two thousand man Marine Landing Force is embarking aboard ships at Onslow Beach and Morehead City, for a two-month training period in the Caribbean.

The exercise, PHIBULEX-63, is being conducted to maintain the efficiency of today's amphibious striking force.

Captain J. A. Marks, Commander Amphibious Squadron 10, will direct the training from his flag ship the amphibious assault ship Boxer.

The embarked 30th Marine Expeditionary Unit is commanded by Colonel John D. Maas, Jr., Commanding Officer, Marine Aircraft Group-31.

Marine ground forces participating in the amphibious training consist of the 3d Battalion, 8th Marines, 2d Marine Division,

plus supporting units from Force Troops, FMFLANT.

Second Marine Aircraft Wing units furnishing air support for the training exercise are Marine All-Weather Fighter Squadron-115, and Marine Light Helicopter Squadron-285.

Ships participating in the amphibious training are the Attack Cargo Ship, Rankin; Dock Landing Ship, Fort Snelling; High Speed Transport, Ruchamkin, and Tank Landing Ship, Grant County.

Detachments from Tactical Air Control Squadron-22, Underwater Demolition Team 21, Assault Craft Unit Two, Beach Master Unit Two, and Amphibious Construction Unit Two will also be embarked.

The squadron is scheduled to return in early March.

PARATROOPERS' "OSCAR"—1st Lt. Charles E. Davis, right, 2d Force Reconnaissance Company, Force Troops Atlantic, smiles proudly as he shows his company commander, Maj. John Conroy, his Paratrooper Statuette.

ITR Marines Selected For Part In MARCAD Program

"Your life for the next 18 months will have but one purpose . . . flying." Following these words by their commanding officer, three trainees at 1st Infantry Training Regiment, Marine Corps Base, Camp Lejeune, were informed that they had been selected to attend Marine Aviation Cadet Training.

The trio includes Private First Class Robert W. Bailey of Euclid, Ohio, and Privates William S. Whittam, Jr., of Braintree, Ohio and Robert M. Kepner of Clearfield, Pa.

The program, 18 months in length, is completed at Marine Aviation Detachment, Naval Air Station, Pensacola, Fla., and includes every aspect of Marine Aviation.

Divided into several groups, the course begins with 16 weeks of preflight training, followed by eight weeks of primary flight

training. Next the trainee may be assigned to 24 weeks of Basic Jet Flight Training or a similar period of Basic Prop Flight Training.

Advanced Flight Training follows and includes approximately 20 weeks of either instruction in Jet Fighters, Jet Attack, Multi-Engine or Helicopters.

Upon graduation from the program, the students will be commissioned Second Lieutenants in the Marine Corps and awarded the gold wings of a Marine pilot.

A CHANGE OF PACE—Pvt. William S. Whittam Jr., of Braintree, Mass., trying an observation plane for size, exchanges his steel helmet for that of a pilot's after being accepted for Marine Aviation Cadet Training. Helping in the exchange of head gear and informing the former student at the 1st Infantry Training Regiment in what to expect during the program is 1st Lt. William Dale Merriss of VMO-1, MAG-26, New River Air Facility. Whittam was one of three ITR Marines selected for the program. The others are Pvt. Robert M. Kepner of Clearfield, Pa., and Pfc Robert W. Bailey of Euclid, Ohio.

Justice Dept. Asks For Alien Report

The Department of Justice has issued its annual reminder that aliens living in the United States or its possessions, including servicemen and their dependents, must report their addresses to the U. S. Attorney General during January.

Cards on which to file these reports are available at all post offices.

Aliens temporarily absent from the United States during January are required to report their address to the Attorney General within 10 days following return to the United States.

Major Frank M. Soltys, Base Postal Officer, as a reminder stated, "All cards must be filed by January 31, and willful failure to submit the report may lead to serious penalties such as fine, imprisonment, or deportation. Accordingly, it is important that alien members of the Marine Corps, or those who have dependents or relatives who are not U. S. citizens, take steps to insure compliance."

OUR AMERICAN HERITAGE

"The Star Spangled Banner"

(Freedom)

(Editors Note: The following article was submitted to the GLOBE for publication in regards to the announcement in the Jan. 3 edition, that this paper has entered the American Heritage Contest and would welcome any articles on this subject.)

Thomas Jefferson was one of the first presidents to fight for what we call FREEDOM (1801-1809). This tall, auburn-haired, sharp-featured Jefferson spoke for the farmers, pioneers, and apprentices and despised what he called, "the aristocracy of wealth." Yet, he was an aristocrat to his finger tips. He owned two hundred slaves, a large plantation and the grandest home in Virginia. In the White House, his French chef and a staff of 14 servants frequently served lavish dinners. At the same time he cut out many glit-

tering presidential ceremonies, opened his doors to all without regard to social classification, came and went like any citizen and often did his own marketing.

Nearly forty years had gone by since the signing of the Declaration of Independence, but the United States was again fighting for its life with England. The city of Washington had been burned. The British Fleet was advancing up the Patuxent River to Baltimore. The Declaration of Independence was saved by being stuffed in a sack and carried away in a farmer's wagon.

It was while the British were attacking Baltimore, shortly after Jefferson's term in office, that a young American, Francis Scott Key, became a prisoner aboard one of the attacking

ships.

As he stood by the ship's railing, anxiously watching smoke and flame engulfing a small, red brick fort (Fort M'Henry) flying a flag containing fifteen stars and fifteen broad stripes, Key pulled an envelope from his pocket and started scribbling the words of a poem.

This poem was later put to the music of a popular waltz of the time and was sung in every state. It was a song of courage, hope and endurance. A song of brave men whose bodies stood as a living rampart between their homes and the foes who had come to destroy them.

It was the Star Spangled Banner, our National Anthem.

LCpl. Earl J. Burak
Engineer Maintenance Co.
Material Supply & Maint. Bn.
2d Force Service Regt., FMF
Camp Lejeune, N. C.

PROMOTED—1st Lt. Albert F. Lucas, Jr., Assistant S-3 of the 3d Bn., 6th Marines, exchanges smiles with wife, Teresa, as she assists her husband's father, Col. Albert F. Lucas, in pinning on current rank insignia in New York City. Colonel Lucas is Director of the First Marine Corps Reserve and Recruitment District, headquartered at Garden City, L. I., N. Y.

It's Tax Time Again!

It's that time again---time for most people to get out the adding machines and headache reliever pills for income tax forms.

Marines at Camp Lejeune will have no need for calculators or pills for quick relief, for disbursing officers have reported W2 forms will be distributed this month.

Next in line are the 1040 and 1040A forms which are to be filled out and sent along with the W2 form. These will be available at all area post offices next week.

Company officers and staff will be glad to offer assistance to personnel having any questions concerning the forms.

TAX TABLE FOR INCOMES UNDER \$5,000

If your total income (line 9 on your return) is \$5,000 or more use Tax Computation Schedule on page 3 instead of this Tax Table.

To find your tax read down income column until you find the line covering the total income shown on line 9. Then read across to appropriate column headed by number corresponding to number of exemptions claimed on line 13. Enter tax on line 10.

To approximate county headed by number corresponds to number of exemptions claimed on form 1-2. Error rate is less than 1%.

Driveway Repairs Start At Capehart

Unaligned motor vehicle front ends among Capehart residents at Camp Lejeune, may soon become the exception rather than the rule. Last week a curb repair project was begun in the Capehart areas aboard the Base to correct a handicap to residents' family automobiles.

The curb repair project was initiated after it was discovered the slope of the driveway entrances of Capehart homes, opened to certain officer and enlisted personnel in 1961, caused severe strain to the front ends of residents' motor vehicles.

Although the design of the original curbs had been approved by the Federal Housing Administration in the belief they were suitable for Capehart project needs, the Base Public Works Office obtained permission from Headquarters Marine Corps to lower the driveway entrances and thus alleviate strain on vehicles.

Work on the curb repair project began last week and should be completed by mid-March this year, according to Base Public Works Officer, Captain W. W. Moore, Jr., CEC, USN.

Not all the Capehart residents aboard the Base, however, will have their driveway entrances repaired. Fortunately, the new design was utilized on a large number of the homes still being built when the curb problem was recognized.

Parents are urged to keep their children away from these repairmen. Several have been injured slightly from fragments of stone chipped from pneumatic hammers.

Base Set To Host '63 Rifle Matches

Camp Lejeune will have the honor this spring to play host to the shooters entered in the Eastern Division Matches (May 20-25) and the Marine Corps Matches (June 3-8). Camp Lejeune has not had this honor since 1961.

Those Marines selected during the try-outs to represent their unit in the matches, will attend a one week school at the Rifle Range commencing April 22. After the schooling, the shooters will then have three weeks of firing before the matches actually begin. The third week of this firing will be the final qualification for a team.

The try-outs for the matches will commence March 30. Marines firing 210 and above during last year's requalification are eligible to apply for the try-outs.

These matches, from the lowest to the highest, form a ladder on which a Marine may climb in the ranks of shooters. The try-outs lead to the Eastern Division Matches; the Eastern Division Matches lead to the Marine Corps Matches which lead to the National Matches at Camp Perry, Ohio in the summer. They give every Marine the opportunity to reach the top in a skill the Marine Corps takes pride in. All personnel in the 210 and above category are encouraged to get out and show their stuff this year.

AIRLIFT MIGHT—The CH46A Vertol helicopter, which will soon beef-up the airlift capacity of the Marine Corps, is shown in flight (top) and being loaded in a demonstration for military and civilian officials in Philadelphia. The new chopper, which can carry a two-ton payload of troops or equipment, will be phased into the Corps in about two years.

Air Force Vet Receives Gold Leaves From CG

The new year opened at Camp Lejeune, N. C., Wednesday, January 2, with an unusual promotion. Major Oliver F. Goen, USAF, Base Veterinarian Officer, was presented with the insignia of his new rank by Major General James P. Berkeley, Commanding General Marine Corps Base, during ceremonies in the General's office.

Assisted by Mrs. Goen, General Berkeley pinned on Major Goen's gold oak leaves after administering the oath of office in accordance with Marine Corps tradition.

However, it was not the first time Major Goen was sworn in by a Marine Corps Officer. During World War II, he served from 1944-46 as an enlisted Marine.

Major Goen interrupted his veterinary medical studies which he had begun at Texas A&M College, in 1940, to enlist in the

Marine Corps. Following his release from active duty in 1946, he returned to Texas A&M to resume his studies, and was graduated the next year with a Doctor's Degree in Veterinary Medicine.

Commissioned a 1st lieutenant in the U. S. Air Force in 1952, the Major subsequently served at Air Force Bases in Alabama, Georgia, Texas and West Germany, before being assigned here as Base Veterinarian Officer in September 1961.

Major Goen's decorations include: the National Defense Service Medal, the American Campaign Medal, World War II Victory Medal, the Outstanding Air Force Unit Citation and the Air Force Commendation Medal. He won the latter two decorations while serving with the 88th Tactical Hospital in Ranstein, Germany, where he was Base Veterinarian and Assistant Preventative Medical Officer.

INTERSERVICE TEAMWORK—Maj. Oliver F. Goen, USAF, Base Veterinarian Officer, Camp Lejeune, smiles approvingly as Mrs. Goen, left, and Maj. Gen. James P. Berkeley, commanding general, Marine Corps Base, pin on the gold oak leaf insignia of his present rank. An enlisted Marine during World War II, Major Goen entered the Air Force in 1952 and served at Air Force Bases in Alabama, Georgia, Texas and Germany before being assigned to Camp Lejeune. 'Fill It Up' Fuel Men Have 'Bulk' Of A Job

On these nippy evenings when the temperature drops, many of us slide over to the thermostat, increase the setting, and sit back warm and snug, well protected from the elements. But what do we do when the fuel tank runs dry?

Do we phone the officer of the day, or the chief of staff? No, we don't. If you discover your fuel supply running low, simply tell the people directly concerned with your fuel supply problems.

Order fuel for military use by calling the chief fuel distribution point at extension 7-5186, day or night. In addition, the men there will deliver fuel to dependant quarters at the Naval Hospital compound only. Residents of other government quarters needing fuel may phone the Base Maintenance office during working hours at 7-5781. After hours call 7-3814.

Sounds simple enough, doesn't it? But behind-the-scenes of what is actually a complex fuel supply are the men of the fuel distribution point in the Base industrial area. This "fuel farm" as it is more commonly called by its workers, is run by the Central Shop Stores section of Base Material Battalion, 2nd Force Service Regiment. This fuel farm is one of eight distribution points scattered about the base remaining open around the clock to service Camp Lejeune. Our fuelhandlers stoically work overtime daily and through week-ends and holidays, delivering their precious and dangerous commodity.

Fuel truck drivers who operate from the fuel farm are acutely aware of the obvious dangers of the fuel hauling business. Each maintains a healthy respect for his cargo.

Drivers carry no matches or cigarette lighters, nor do they smoke on the job. They constantly recheck their massive tank trucks for leaking valves and hoses. They must remember to make contact between the hose nozzle and the fuel tank they are filling, thus electrically grounding the fuel load. Gasoline swishing about a tanker in motion builds itself into a potentially explosive state that static electricity can easily ignite. A clever groundwire built into the hose prevents disaster.

Naturally, supplying the camp with fuel for buildings and gasoline for military vehicles is not without headaches. The fuel farm people are continually plagued by last-minute telephone requests for fuel. Often as not, the call comes in at 4 p. m., requesting delivery that evening at some outlying camp. The driver hauls his tanker 10 or 15 miles only to find no one present to direct him to the fuel tank.

Military vehicle drivers gas-up their jeeps and trucks at the fuel farm or at an outlying fuel point, only to discover that they have forgotten to bring along their gasoline credit card or "charge-a-plate." Our automotive gas distribution system includes some 3,000 such credit cards. Understandably, much added paper work is born from such forgetfulness, much to the chagrin of the lone Staff Sergeant who keeps the records straight.

Two million gallons of gasoline are distributed by this hard-working crew of 15 Marines and 5 civilian workers. To make their job easier, they have asked

the GLOBE to pass on to its readers these reminders:

Order your fuel at least a day ahead of expected delivery date; make certain that you have adequate storage space (at least two 55 gallon fuel storage drums); and if you're driving, remember to have your gasoline charge-a-plate handy.

Tonite when you settle under the blankets in your warm barracks or quarters, you owe a silent "thank you" to these Marines and workers of central shop stores, 2nd FSR.

Like firemen, policemen and medical men, our fuel handlers are always on call.

NEW STAMP—Going on sale Jan. 9 in Washington, D. C., is this new first-class postage stamp. The five-cent rate is effective Jan. 7.

Bulletin

Spanish lessons will continue for Lejeune linguists according to an announcement by H&S Bn., MCB. One-hour classes in spoken Spanish (basic course, part II), begin Feb. 4, at 11:15 p. m., at the Central Area Service Club, Bldg. #62, to continue for six weeks.

Interested military personnel possessing a basic knowledge of Spanish are invited to participate in the group study, even though they did not attend previous study sessions.

GYPSY DANCES AGAIN—Natalie Wood portrays the famed striptease queen Gypsy Rose Lee in Warner Bros.' motion picture, "Gypsy." The picture is based on the long-run Broadway musical.
