

# Camp Lejeune Globe

VOL. 18

CAMP LEJEUNE, N. C., THURSDAY, NOVEMBER 22, 1962

NO. 47

## Write The Right Way; United Fund

Would you like to have your handwriting analyzed? It can be done in just a matter of seconds at the Marine Corps Exchange by an IBM Card Computer.

With the cooperation of Data processing personnel and in connection with the Camp Lejeune, Onslow County United Fund Drive, this machine has been placed in the Exchange in an effort to increase donations to the Fund Drive.

All you have to do for an analysis is walk up to one of the operators and ask for a card, sign your name, and return the card to the operator. He will

then insert it into the machine and what comes out is the machine's impression of your handwriting.

Despite recent hindering circumstances, units of Camp Lejeune are still climbing towards their goals but they need the full cooperation of all personnel now, more than ever.

One more unit has joined the ranks of the 100 percent Honor Club this week. The GLOBE salutes the 2d Amtrac Bn, Force Troops on their success in surpassing the 100% mark by reaching 104% in their drive.

The 100 Percent Honor Club now consists of 14 members,

and they are: from the 2d Marine Division: Security Platoon, Marines; LANFOR MED 2-62 and LANFORMED 3-62; from and Lan For Med 3-62; from Force Troops: 2d Amtrac Bn.; Hq., Co.; 2d Anglico Co.; 4th Dental Co.; 2d Separate Surgical Co.; 8th Comm. Bn.; from Marine Corps Base: Motor Transport Schools Co.; and the Field Medical Research Lab; from Marine Corps Air Facility, New River: VMO-1; and MACS-8.

With the end of this year's United Fund Drive nearing, the GLOBE has but one question to ask. HAVE YOU DONE YOUR SHARE?

**FAREWELL KISS**—As Gary Jones huddles in the midst of feathery Thanksgiving Dinner table dressings, the two turkeys in the foreground seem to be giving their last farewells to each other before meeting the axe.

## Australian Officer Cites TR's Training Methods

What would most impress a foreign military officer during his first visit to the United States?

Captain Alfred B. Garland, of the 1st Special Air Service Company, Royal Australian Regiment, says, "We are basically the same stock. We live in the same manner, but what amazes me most within the United States is the tremendous size of the cities and their ability to produce industrial matter in comparison to Australia."

"What we consider a large city at home is nothing more than a small town here."

Under unilateral agreement between the United States and Australia, Capt. Garland recently began a special observation program at the 1st Infantry Training Regiment. The program is scheduled to be completed late next month.

Further stressing the importance of small arms ability, Capt. Garland stated that each Australian soldier must qualify annually, not only with his permanent weapon, but also with another.

Following an early morning lecture by Cpl. Richard Ser., of the Regiment's Tactical Section, Capt. Garland gave his impression of the calibre of instruction at Camp Lejeune, saying, "I have heard lectures on 'Technique of rifle fire' many times, but never have I heard it expressed as competently and realistically as this morning."

**SMALL ARMS CLASS**—Captain Garland and Corporal Stuart exchange views on small arms tactics during a class of instruction at 1st Infantry Training Regiment.

## Thanksgiving Services

## Only Emergency Messages Sent To 2d Division Units—Otherwise Letters

The American Red Cross has been on the job. The 2d Marine Division's Red Cross Field Director, Mr. Alton W. Sims, has recently returned from deployment with units of the Division and has several items of advice for Marine dependents in the Camp Lejeune area.

Mr. Sims has been with the Red Cross for seven years and aboard Camp Lejeune since July of this year. Before being assigned as the Field Director of the 2d Marine Division, Mr. Sims was the senior assistant field director for the entire Camp Lejeune area.

The Director stated that since communications between Camp Lejeune and deployed units of the division are to be held to

a minimum, only emergency messages concerning death or anticipated death within 60 days in a Marine's immediate family will be forwarded.

He stated that the mail situation has been very poor recently, in both incoming and outgoing mail, thus the dependents in this area should not worry if they have not heard from their husbands often.

Ten thousand books and magazines have been ordered for the deployed units so far, and the GLOBE has reached the troops, but to the troops, mail from home is the most important.

A. W. SIMS

## Food Service Men Close Conference

Six hundred forty years' food service experience from Marine Corps commands from all over the United States met at Marine Corps Supply Schools last week for the first food services conference in the history of the Marine Corps.

Hosted by Food Services Company, MCSS, conferees are submitting recommendations to the Commandant of the Marine Corps suggesting improvements.

The delegates have slated the next conference for the first quarter of fiscal year 1965, pending approval by the commandant.

## 900 Parents Prove AEW 'Open House' Successful

A visit to Camp Lejeune's dependent schools last week by nearly 900 parents spelled a big success to the Open House program held aboard the Base in observance of National Education Week November, 11-17.

Beginning last Tuesday morning, parents appeared at Montford Point and Tarawa Terrace Schools for a first-hand look at American Education in action at Camp Lejeune.

Later in the week parents visited Stone Street, Camp Geiger, Brewster, Midway Park, and Camp Junior-Senior High Schools to observe teaching processes at work.

Particular emphasis was put on the theme of National Education Week, "Education Meets the Challenge of Change" through the media of posters and displays in classrooms and other places throughout the schools.

School officials in general expressed their pleasure with the over-all turn out of parents to the schools during the Open House observance aboard the Base.

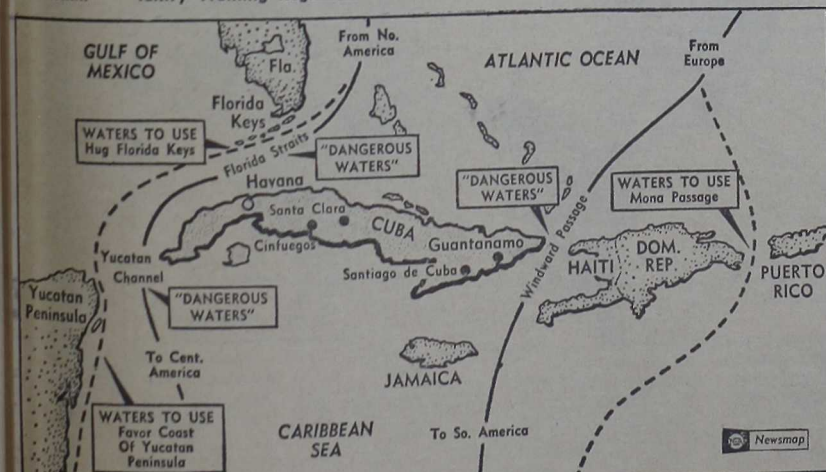

## Brazilian Admiral To Visit Lejeune

Brazilian surgeon general, Vice Admiral W. C. Pires will pay a three-day visit to Camp Lejeune, Nov. 27-29. The chief purpose of this tour is to observe the medical doctrine and organization and the medical and public health facilities of Camp Lejeune.

Arriving here on the afternoon of Nov. 27, Admiral Pires will not begin his tour until Wednesday morning, Nov. 28. After receiving honors on the Parade Ground at 8 a. m., the admiral will then proceed to Bldg. 15, where he will be briefed by the base medical officer, Capt. J. E. D. Humphreys.

Following this briefing, Admiral Pires will make a tour of the medical facilities of Hadnot Point, including a mosquito control static display, and water purification plant. He will then visit the Field Medical Service School until he lunches with Capt. Humphreys.

In the afternoon, the admiral is scheduled to visit the Field Medical Research Lab.

**"DANGEROUS WATERS"**—United States Navy is warning all shipping of potentially "dangerous waters" off Cuba. Newsmap locates areas, and shows routes suggested by Navy.

# Lejeune's 'Ham' Operators Keep Marines Connected With Home

Transmitters crackle and tensions mount as Camp Lejeune and Guantanamo radio operators set up communications enabling a Marine and his family to talk to each other after a separation of many months. The scene is repeated several times daily at "ham" radio stations at Camp Lejeune and Guantanamo as Marines in battle dress take off a few minutes from outpost duty along the defense perimeter of the Guantanamo Naval

**HELLO, GUANTANAMO. THIS IS LEJEUNE**—Cpl. William Markwood, radio operator at the Base Amateur Station, makes contact with a station in the Caribbean before setting up radio-telephone communications with a Lejeune-based Marine and his family residing in the Jacksonville, N. C., area. The connection is made by an instrument called a "phone patch" to both transmitter and telephone at the station. (Photo by Cpl. S. P. Rice)

Base to hear once again the voice of loved ones here.

Camp Lejeune's "ham" radio station operates on a daily schedule from a small two-story building a few hundred

Mussa explains that it is virtually impossible to set up calls on an immediate of hit-or-miss proposition unless in case of dire emergency.

"Scheduling," says Mussa, "serves to reduce the need for making such attempts, and at the same time helps to keep the work consistent."

SSgt. Mussa has been a li-

censed "ham" operator since 1959. A Supply chief attached to the 8th Comm Battalion aboard the Base, Mussa handles the business end of the station's activities as well as the electronic activities.

Sgt. Salyer has been a Marine communicator since 1948 and has had his "ham" radio operators license since 1954. During his Marine Corps career Salyer has served on Guam, in Hawaii and aboard ship in the Atlantic and Pacific.

While operating a "ham" radio at Kaneohe Bay, Hawaii he once received a radio message from a station in Alaska which had originated in Arkansas.

yards behind the Base Drive-In Theater.

The station is maintained on the top floor of the building by a crew of three men. Equipment consists of enough transmitters and receivers to handle three messages at once, on separate frequencies.

Behind the building where the station is maintained are three large antennas, each for handling separate frequencies.

Calls from the Caribbean area or elsewhere via "ham" radio to residential phones are effected by means of a "phone patch." This is an instrument wired into both the radio transmitters and the phone line for the convenience of the phone users.

According to Sgt. M. O. Salyer, radio operator at the station, Marines desiring to call their family from stations in the Caribbean need only give the name of their wives and phones here in the area. The station will then make the call and set up the connection.

The weekly schedule according to Salyer includes some 50-75 phone patch communications between Lejeune and Gtmo, and ranging from 5-10 such set-ups daily.

"The greater majority of our work done here at the station," says SSgt. R. S. Mussa, NCOIC, of the station, "is done on a schedule basis."

**HELLO, YES, I CAN HEAR YOU**—Replies a Marine's wife at Camp Lejeune, shown surrounded by her children, to her husband calling via radio-telephone hook-up from the Caribbean area. The scene typifies the work of the Base Amateur Radio Station in setting up communications enabling Lejeune-based Marines away from the area to keep in touch with their families here after a separation of many months. The station handles some 50-75 such calls on a 5-10 call daily schedule. (Photo by Cpl. S. P. Rice)

## East Carolina Classes Now Starting

The Camp Lejeune Branch of East Carolina College announces the registration for graduate courses and a few specialized undergraduate classes for the winter term. Registration will begin Friday, November 19 and will extend through Friday, Nov. 30 '63.

**COURSES OFFERED:**  
TUESDAY (to begin Nov. 26:

EDUCATION 334G (Home, School & Community Relations) WEDNESDAY (to begin Nov. 27; SHORTHAND 115 (Sequel course to High School Shorthand & Shorthand 114)

THURSDAY (to begin Nov. 28: PSYCHOLOGY 370G (Mental Hygiene)

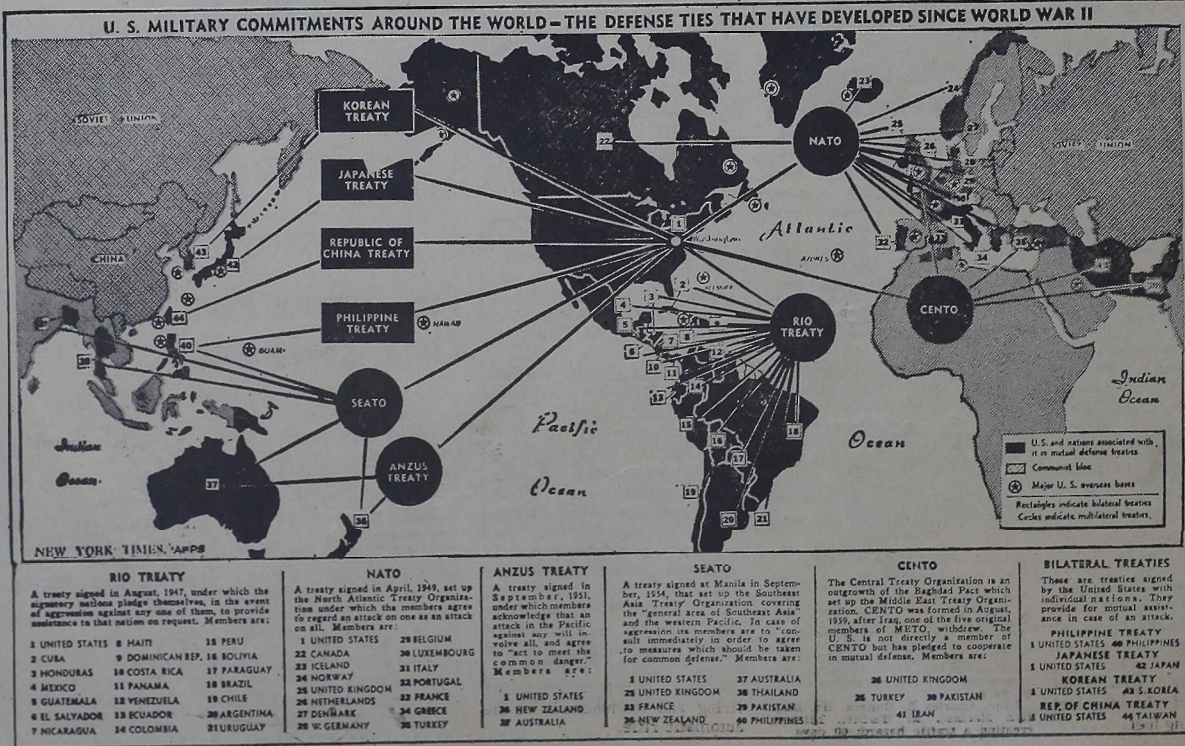

MONDAY (to begin Dec. 3: PHYSICS 125 (Mechanics) WEDNESDAY (to begin Dec. 5): PHYSICS 125 (Lab.)

All registration will be held in the Branch Office, Building 67, from 8:30 a. m. to 4:30 p. m. each day during the scheduled dates. For further information, please call 7-5864, Camp Lejeune.

Those desiring to register in the graduate courses may still do so by filing their registration and paying their fees the first night of the class.

### In Gratitude

Sgt. and Mrs. James A. Campbell wish to express their deepest appreciation to the staff and personnel of the Camp Lejeune U. S. Naval Hospital and the Naval Hospital in Portsmouth, Va., for their kindness. Mrs. Campbell's baby was born at the Naval Hospital here Nov. 10, flown to Portsmouth for an operation and died there Sunday, Nov. 11.

# Lejeune GLOBE Ready To Serve You

How does the GLOBE get to you? There is no mathematical formula, nor anything mysterious involved in the process.

It is just effort, organization and cooperation combined to give you a weekly Camp Lejeune GLOBE.

With a normal "deadline" of 5 p. m. on Tuesdays, it is far from unusual to find the GLOBE staff in its office from 8 a. m. to 6-7 p. m. weekdays, and often on Saturday's holidays.

Receiving news copy from the formation offices of Marine

Corps Base, 2d Marine Division and Force Troops, the GLOBE staff organizes it for printing by the Mount Olive Tribune, Mount Olive, N. C. on Wednesdays.

Arriving at Mount Olive early Wednesday morning, the staff digs into its work of proofreading and readying correct copy for putting into page form. Also, throughout the day, the staff works side by side with the printers to assure the pages are correct: putting the right copy under the right headline, lining up the copy, and putting the

pictures in their correct positions.

Late on Wednesday evening, the finished plates are put on the press and the press is prepared to roll. Once the press is rolling however, the mission of the GLOBE staff is finished, but only until the following morning, when it begins another week of gathering and preparing news for its next issue.

The Camp Lejeune GLOBE, several time winner of the Armed Forces Journalism Award, is your paper that lives up to its name by being read

in every part of the globe. Approximately 356 GLOBES are mailed all over the world weekly with the subscription rate steadily climbing. There are at least 21 renewals each month. Current circulation of 20,000 makes the GLOBE the largest weekly newspaper in North Carolina.

For \$2.60, you or your family can get the GLOBE, wherever you may live, 51 weeks out of the year. A check or money order for the correct amount addressed to the Custodian, Camp Recreation Fund, Camp

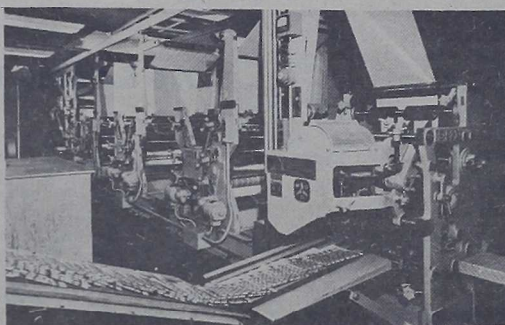

Lejeune, will get you the subscription.

In local distribution, 17,000 GLOBES are distributed to all units in the Camp Lejeune, Geiger, New River area combined. There are at least 1,900 copies distributed to all central pick-up stations that service Quad-Command housing areas.

The GLOBE, founded in February, 1941, to replace the New River PIONEER, is here to serve every Marine and his family in the Camp Lejeune area with the best coverage available.

OFFICIAL OBSERVES — Congressman David N. Henderson, Dem., N. C., takes a look at a GLOBE issue with editor, Gysgt. Tom Donaldson, center. LCpl. Marilyn Hughes, left.

FIRST CLASS — This new Goss Suburban Web-fed Offset Press, the "latest" in the press world, is responsible for the great progress of the GLOBE. In the first four offset editions, it has experimented with color, pictures and drawings, all with success.

FINAL COPY CHECK — Giving the galley's another close reading before "putting the GLOBE to bed" are left to right, Sgt. George Selby, assistant editor, Pfc. Tedd Neswald, reporter and Pfc. Andy Reynolds, sports editor.

## Former History Instructor New ECC Branch Director

Mr. Mack Trent, Jr., assumed the duties at Camp Lejeune as the new branch director of East Carolina College, October 28, 1962. He is replacing Mr. Herman D. Thelphs who was recalled to active service in the 1st Force, with the reserves, the outbreak of the Cuban crisis.

Prior to assuming his new duties Mr. Trent had been serving as a full time history instructor here at the East Carolina branch college.

Mr. Trent, a native of North

Carolina, was born in Lumberton, N. C. He graduated from Cameron High School, in Cameron, N. C. Upon completion of high school he entered the army, where he spent five years stationed with the Army Airborne.

In September 1955, he entered East Carolina College. In June 1959, he was awarded his Bachelor of Arts degree. After further study at East Carolina College he was awarded his Bachelor of Science Degree. Then in June of 1961, he received his Masters of Arts degree in history at East Carolina.

Mr. Trent is married to the former Judith Johnson of Beaufort, N. C. The Trents have one son, John David, who was a recent arrival on September 24, 1962.

## Correct Stove Fuel Gives Best Results

Hurricane warnings, football games, and green leaves turning brown remind us once again that winter is right around the corner.

With the coming of winter anyone using a heating stove should hold a complete cleaning and check for useability before the first frost arrives.

Also, units requiring fuel deliveries other than housing areas are to observe the following:

Have more than one 55-gallon drum.

Make sure drums and tanks have plugs.

Measure your fuel frequently.

Order only when requirement is more than 55 gallons.

Do not wait until tank is empty to order.

Order correct type of fuel.

Place orders at least one day prior to requirement.

Call 7-5762 for fuel deliveries.

Dependents occupying government quarters need not order fuel as Base Maintenance controls fuel for the housing areas through civilian contracts.

These fuel tanks are serviced on a routine schedule relieving personnel occupying quarters of the problems of checking fuel level and ordering fuel.

## Traffic Violations

Those who drive under the influence, reckless drivers, and speedsters are helping to solve the 4:30 p.m. traffic jam on Holcomb Blvd. This week one more Camp Lejeune Marine received a permanent suspension of driving privileges on Base, making 83 the total of the year.

Pfc. Herman L. Stephens, 8th Comm Bn., F.T., failure to stop for stop sign, reckless driving; Permanent.

Sgt. John O'Connor, 1st School Co., MCB, driving under the influence; 1 year.

MSGT. William B. Sewell, H&S Co., 2d FSR, driving under the influence; 2 years.

Pfc. Richard L. Freimuth, MS&M Bn., 2d FSR, 70/55; 6 months.

Pvt. John Armstrong, 1st ITR, 53/35; 6 months.

Pfc. Eileen Green, WM Co., H&S Bn., MCB, 53/35; 6 months.

Sgt. Jerry Byran, 2d Force Recon Co., no drivers license, no form 400, reckless driving; 6 months.

Pvt. George E. Barnes, 10th Mar., 2d MarDiv, 53/35; 4 months.

LCpl. Lawrence Robertson, H&S Bn., 2d FSR, reckless driving; 3 months.

Cpl. David L. McClaskey, MCS, MCB, 40/25; 3 months.

Cpl. Ernest Jones, Jr., 2d Bn., 8th Marines, 2d MarDiv, no drivers license, no form 400; 90 days.

LCpl. Michael Downs, 3d Bn., 10th Mar., 2d MarDiv, careless and reckless driving, defective equipment, destruction of government property; 90 days.

LCpl. Charles E. Hughes, Hq. Btry, 10th Marines, 2d MarDiv, littering creating a traffic hazard; 60 days.

CALENDAR GIRL — Tina Louise smiles with approval of this week's picture pages and urges all Marine dependents to bring their old or new toys to Santa's pick-up station at Bldg. 1402.

## World News Bulletins

**NEW DELHI** — Indian Premier Nehru has told his parliament of new military losses in northern India and the appointment of a new Army Commander whose job it is to stem the invasion by Red Chinese troops fighting toward Assam.

Nehru told the lawmakers that the Chinese have taken the mountain town of Bomdila and are fighting toward the oil fields of Assam State. Nehru said: "We should expect the worst and be prepared for it." The

U. S. and British embassies are arranging for the removal of American and British nationals from northern Assam.

**BONN** — The five free democratic party members of West German Chancellor Adenauer's cabinet turned in their resignations yesterday. Adenauer's coalition government is in danger of collapse because of the walkout which resulted from the Chancellor's refusal to fire his defense minister.

## ITR's New Practical Testing Successful

Practical testing, locally designed and adopted earlier this year, for Marines undergoing Individual Combat Training at the 1st Infantry Training Regiment, has been termed highly successful by course instructors.

Purpose of the testing, according to instructors, is fourfold.

1. Scores graduate students on key techniques learned during training.

2. Provides unit competition.

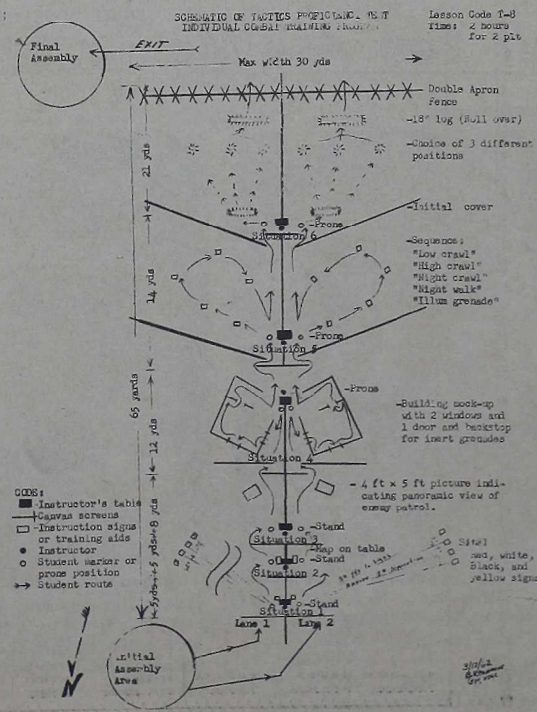

3. Assists responsible officers in determining the awarding of honor student commendations and possible promotions.

4. Points out weak areas during training cycle for instructors.

A combined effort of the Tactical and Weapons Sections at ITR, the tactical portion of the field tests includes six situations involving the compass, map reading, reconnaissance, combat in built-up areas, day and night movement and advance and assault techniques.

Weapons testing is divided into 15 phases. These include: the M-1 rifle, close combat and rifle grenade firing, identification of enemy targets, ground signals and grenades, combat aiming points, range estimation under combat conditions and firing and malfunctions of the automatic rifle.

It also covers the loading and unloading of the light machine gun, the flame thrower and the rocket launcher, hand grenade accuracy, arming and disarming of mines and the wearing of the field protective mask.

# God's Gift: The Real Thanksgiving Meaning

Every year in this country the last Thursday of the "Golden Harvest" month of November is set aside as a day for the people of this nation to thank God for the many gifts He has given us. His greatest gift came, not in the golden haze of prosperity as signified by mellow Indian Summer, but descended into our midst during a time of cold and barren desolation, into a world ruled by tyrants who had all but extinguished the warmth of human hearts and the flickering flame of faith.

Our greatest gift was not heralded by vast armies, nor was it resplendent in riches and power. Instead, it came to us in the form of a little babe, born in a bleak, cold stable, wrapped in plain homespun garments. Yes, a mere infant, most helpless of all God's creatures, who grew into manhood and died for every sin that

you and I and all of mankind have committed since the dawn of time.

Our real thanksgiving should be manifested on December 25, commemorating the night when we were lifted up from darkness and shown the way of truth—the eve on which Jesus Christ, the Son of God, became man—the eve on which the Angel's message of peace echoed across the hills. HE is the peace which they promised, the Prince of Peace, awaited by all mankind. For HIM we should be thankful, for HE is born again on every Christmas altar and carried away in every faithful heart, and that is the meaning of Christmas.

To those who will accept Him, the Babe of Bethlehem brings peace. Though all else around them should be shattered with violence and strife, within themselves they are at peace. They have sought the GIFT, have found it, and possess it, and theirs is true happiness on Christmas, and throughout the year.

## Thanksgiving Message

In this country we have much for which to be thankful. Never were any people better fed, better clothed nor enjoyed a higher standard of living than ours; but we can be grateful for more than this. We can be thankful for the spirit of free people who are tirelessly working despite discouragement to establish a free world. We may be thankful to have friendships—for people who bring courage, wisdom and love in their path. We may be thankful for the heritage of faith which gives meaning to life and for the dreams and inspiration of youth as well as for the opportunities which lie around us. The continuation of these blessings which we take for granted is partially conditioned to our thankfulness, appreciation and our obedience to God's laws.

—Guy M. Leonard, Jr.  
Asst. Base Chaplain

The GLOBE is printed by the Mount Olive (N. C.) Tribune at no expense to the government, being paid for from the Camp Recreation Fund. Published in compliance with Marine Corps Order 5727.3. Circulation this issue, 20,000.

The GLOBE is distributed free to service personnel of this Camp every Thursday. No advertising accepted. Yearly subscription, \$2.50.

The GLOBE receives Armed Forces Press Service (AFPS) material. All photos official USMC unless otherwise indicated.

## If You Ask Me:

WHAT DOES THANKSGIVING  
MEAN TO YOU,  
MR. GOBBLER?

GOBBLER NO. 1 — Sure n' tis a fine day for us turkeys. During this time of year people stop and think of what really historic birds we are. Why I remember my great "grandcock" telling me of that first Thanksgiving in 1620.

GOBBLER NO. 2 — Well, lets face it. It's the only time people ever pay us any attention. The only catch is that they very impolitely drool while they look with "that certain smile."

GOBBLER NO. 3 — Thanksgiving is a time of hope for me. Hope that someday I will be chosen to grace somebody's family and enrich their lives. I only regret that I have but two drumsticks to give for my country.

GOBBLER NO. 4 — Are you kidding? I dread it! Every year have to fast for about three weeks before "D" Day so I will not be picked to be plucked. My fellow gobblers are even calling me Hansel.

## Club Entertainment News

# Hadnot Point Staff Annex Readies Turkey Day Feast

HADNOT POINT STAFF NCO ANNEX is going all out on this year's first a terrific menu which will meet all budgets, plus an afternoon of 'happy hours' plus Tea Dance. Now to give the details...Our Dining Room will open at 1 p. m. for the 'early birds' and the menu will be, at this time...Turkey plus Baked Ham, Giblet Gravy, Corn, Dressing (like only Roger can make) potatoes of all kinds, vegetables, Cranberry Sauce, rolls, and choice of beverage, plus your choice of pie... This for \$1.00 and the little angels' eat for two quarters and one dime and they get their fill with this meal. Next, the dance will start at 4 p. m. and it will run through to 8 p. m. so we ask why cook this year? Let us do all of it to make our Turkey day a treat. P. S. ...the computers have figured this out, and it's the truth...Mom and Dad and the little one can eat, dance and make the happy hours' for just a Five Dollar Bill...November 23, how about the whole gang getting together here for 'happy hours' and a little something extra from the Galley. November 24, its dancing night and Eddie Long will be on hand to provide the sounds from 9 p. m. to 1 a. m.

## Montford Point Staff NCO Annex

We're going all out to bring you a most memorable turkey day. Starting at 11:30 a. m. the club will open and from 1 a. m. to 7 p. m. dinner will be served. Featured on our menu will be roast Young Tom Turkey with all the trimmings and pumpkin pie for \$1.25 for grownups and 50 cents for the youngsters and Virginia Baked Ham with all the trimmings with sweet potatoes for \$1 for adults and 65 cents for children. Now don't forget us. We're waiting to serve you on this, the start of the holiday season. Friday, November 23, 'Happy Hours' are from 3:30 to 6:30 p. m. The 'Happy Hours' special this week from 3:30 to 8 p. m. will be filet of flounder or cube steak for just 50 cents. Saturday, November 24, will be Dance Night. The live sounds of the past and fingers of today will be coming from the Hammond Organ of Andy Owing and his followers, the Tremolo's. So come on in. The fun begins at 8:30 p. m. and goes to the hour of 12:30 a. m. Sunday, there will be a menu special from 5 to 7:30 p. m. It will be a big T-bone steak for the big people for .25 and a veal cutlet dinner for the children, for the low price of 50 cents. Tuesday, November 27, 'Happy Hours' go from 4:30 to 6:30 p. m. The 'Happy Hour' special from 6 to 8 p. m. will be chicken in the skillet. Hey! If you're planning party and you need a place to eat all the gang in...call MSgt. Rapp at 9-8108; he's got the room and the open dates on Monday and Wednesday.

## Air Facility Officers Club

Thanksgiving Day dinner will be served from 3 to 7 p. m. the menu for the day will feature roast tom turkey and ham with all the trimmings. The price will be \$1.75 for adults and .25 for children from ages six to 12.

## Camp Geiger Staff NCO Annex

We're tired of turkey and ham. So we've worked up a Thanksgiving dinner that's real different, club steak for just 90 cents, lobster tails and frog legs for \$1.60. Get out of the rut and dine in our newly redecorated dining room. If you can't make it Thursday, and you like our specials, try Friday, Saturday or Sunday. Saturday night is free juke box dancing night, so come on out and just push the buttons for your favorite tunes. Sunday there will be live music on the bandstand when Andy Owing and the Tremolo's get in the mood between 8:30 p. m. and 12:30 a. m. For special parties up to 50 persons our revamped private lounge containing a 25 foot bar is available. Reservations must be made one week in advance.

## Paradise Point Officers Club

Thursday, November 22, dinner will be served in both the cafeteria and the dining room. The hours in the cafeteria will be from 2:30 to 7 p. m. and in the dining room from 7 to 9 p. m. Prices for the dinner will be \$1.75 for adults and 85 cents for children under 12. Waitress assistants are available for the children. If you want to eat at home but you don't want to cook, order a Turkey to go, with sage dressing and giblet gravy, at 6-6180. Friday, November 23, 'Happy Hours' will run from 4 to 6:30 p. m. During 'Happy Hours', Jimmy Williams will be playing on the bandstand. Saturday, November 24, the Divisionaires will be at the club to add to your dining pleasure and to provide music for dancing as an after dinner special.

## NCO Club

Plan on another big weekend of music at the club plus big specials every night on the menu for your dining pleasure. To start the weekend the Rockets will propel the music from the bandstand. Saturday, November 24, the Vagabonds will play from 8:30 p. m. to 12:30 a. m. Then on Sunday Paul Peek and his band will put the cap on the three day jam session.

## Air Facility Staff NCO Club

Friday, November 23, 'Happy Hours' will go from 4:30 to 6 p. m. The menu special will be filet of flounder or cube steak. The low price for the special will be 60 cents for adults and 40 cents for children. On Saturday it will be Dance Nite...from 9 p. m. to 1 a. m. with Dick Sherman providing the music. Sunday, save mom from the galley and bring her out to the club for a special chicken dinner from 4 to 7 p. m. with a low price of 75 cents for adults and 50 cents for children.

## Courthouse Bay Staff NCO Annex

Friday 'Happy Hours' are from 4 to 6 p. m. 'Happy Hours' Saturday will be from 1 to 3 p. m. Sunday cocktail hours are from 2 to 5 p. m. with a steak special.

\* No movie due to dance night every other Saturday.

**RUNNING TIME (RT) — In minutes.**  
**MIDWAY PARK (MID) —** Daily, 6:30 p.m. Matinee on Saturday, Sunday and holidays at 2:15 p.m.  
**COURTHOUSE BAY (CB) —** Indoors, one showing daily, 7 p.m. Matinee on Saturday, Sunday and holidays at 2 p.m.  
**NAVAL HOSPITAL (NH) —** 7 p.m., Mon-Fri.; 1:15 and 7 p.m. Sat-Sun. (Patients only).

**THE WILD WESTERNERS**  
Gold shipments from Montana Territory to Washington during early Civil War days are being stopped by robbery and murder. A husky United States marshal sent to look into the situation suspects a small-town sheriff and his black-clad deputy. Catching up with the outlaws is slowed by complications, created mostly by Indian raids and a dancehall girl who tricks the lawman into marriage.

### BACK STREET

The third remake of a classic American novel which first came to the screen in 1932, about a woman in love with a married man forced to live in the back street of his life.

**RIFLE RANGE (RR) —** Indoors, 7 p.m.  
**MONTFORD POINT (MP) —** Outdoors, Monday through Sunday at 7 p.m.  
**CAMP GEIGER (CG) —** Indoors, Monday through Friday, 7 p.m.  
**INDUSTRIAL AREA (IA) —** Outdoors one-half hour after sundown.  
**CAMP THEATER (CT) —** 6 and 9 p.m. Monday through Friday; 2, 6 and 9 p.m. Saturday and Sunday.  
**PARADISE POINT (PP) —** Closed

**SEA WIFE**  
Starring Richard Burton and Joan Collins. The story is about three men and a nun shipwrecked together for several months.

**WAR OF THE WORLDS**  
An action packed science fiction thriller which in its initial appearance as a radio show sent the people of New York into mass panic. Cast in the starring roles are Gene Barry and Ann Robinson.

**KING SOLOMON'S MINES**  
The stars in this giant spectacular from the early 1950's are Deborah Kerr and Stewart Granger.

Deals with the crisis in the life of a young girl who is romantically involved with three men, and her unfortunate first real love affair. Stars Troy Donahue, Connie Stevens, Dorothy McGuire and Lloyd Nolan.

until further notice.  
**500 AREA (500) —** One show nightly at 8 p.m.

**CAMP GEIGER OUTDOOR (CGO) —** Daily at 7 p.m.

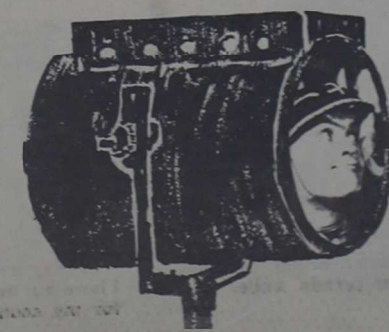

**AIR FACILITY, NEW RIVER (AF) —** Monday through Friday 6 and 8 p.m. Saturday and Sunday, 2-6 and 8 p.m.

**CAMP GEIGER TRAILER PARK (TP) —** Indoors at Community Center, 7 p.m.

**JACK THE GIANT KILLER**  
A good starring cast which includes Kerwin Mathews, Judi Meredith and Terin Thatcher in a movie designed for family entertainment.

**DEVIL AT 4 O'CLOCK**  
Filmed in Hawaii. Story of a priest and three convicts on a small island in the Pacific and the dramatic events that unfold when a volcano erupts, threatening to destroy the entire island. The priest and convicts together save a colony of leper children, but all sacrifice their lives in the undertaking. Stars: Spencer Tracy, Frank Sinatra, Kerwin Mathews and Jean Pierre Aumont.

# SANTA'S BUS

What all began eight years ago as a family of seven's attempt to spread a little Christmas cheer to a few other families has now snowballed into a

base-wide project.

In 1955 GySgt. Joe Levasseur, at the request of his four children to give their used toys to some of the less fortunate

children in the area, organized a family "fix-it" shop.

Working together, they repaired the toys and enriched the Christmas' of five needy families at the same time enriching their own lives by learning something of the joy of giving.

Through the years many people have joined them in this "fine arts school" by offering to give of their time and themselves.

Last year, through the combined efforts of many, over 3500 toys were furnished to local families making Santa Claus a reality in the hearts of their children.

A Santa's Workshop was set up in Bldg. 1402 where the toys were brought by individuals wishing to contribute. They were then transported to GySgt. Joe "Santa" Levasseur's garage where his crew set to work on them.

His wife, Mrs. Mayetta Santa, took charge of the doll department. Her teenage assistants, Gloria and Jean, completed all minor repairs and did the hand sewing on doll clothing and stuffed animals while the small fry members of the family, Elaine and Debbie, set about their task of untangling wigs.

During the growth of "Operation Santa Claus" another little Levasseur elf was also growing. Young Terry, now six years of age, works as his father's apprentice in repairing the mechanical, metal and plastic toys.

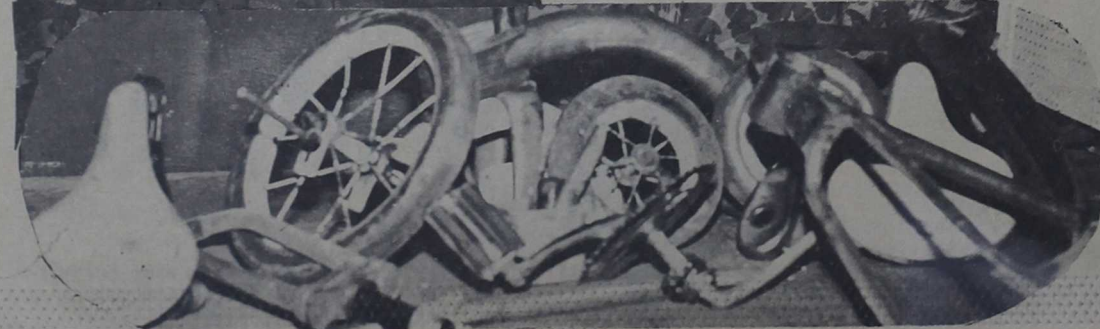

This year, Sgt. Levasseur's elf crew numbers approximately 50. Two weeks ago, CWO Arnold H. Smith, officer in charge of

Engineer Maintenance Section of Medium Support Company, 2d Marine Division, after receiving the go ahead signal from Battalion Commander, Col. J. A. Donovan, Jr., and Battalion Executive Officer, Lt. Col. D. H. Pepper, offered Sgt. Levasseur the services of his section and also their building.

Naturally delighted, Sgt. Levasseur accepted his offer. "I never dreamed this thing would get so big!" he exclaimed as he watched the men throw themselves completely into the project.

With the mechanical assistance of tractors and lifts, the men joined in hanging out their

red and white shingle, christening Bldg. 1808 as the new Santa Workshop, to add "atmosphere" they surrounded the sign with pine boughs and decorated windows with red Christmas wreaths and red and green

# WORKSHOP

uper.  
Inside, the workshop is can-  
pied off and an assembly line  
et up. GySgt. Robert J. Cappock,  
COIC of Engineer Maintenance,  
ho has been dubbed "chief of  
ves", assigns the men to

various crews. In one corner,  
a team completely dismantles  
the incoming toys and passes  
them on to the next crew.

Bikes and toy cars, which  
compose the majority of the toys  
they receive, are completely  
overhauled and spray painted.

"This project is serving a  
double purpose," stated WO  
Smith. "Besides making hund-  
reds of children happier, it is  
also a great morale booster to  
our men. Having been packed  
and moved in and out so many  
times it does them good to oc-  
cupy their minds with filling a  
different sort of pack."

How many of Santa's packs  
they do fill now depends on the

amount of toys donated. Bldg.  
1402 is now the central delivery  
and pick up station. Those wish-  
ing to contribute are asked to  
bring their toys there anytime  
Monday through Friday from 8  
a. m. to 4:30 p. m. A box is  
being set up outside for night  
and weekend deliveries. Those  
not able to bring their toys in  
may call 7-3317 for pick up.

With the toy repairing being  
as complete as it is and the  
men using their personal sup-  
plies not only are donations of  
toys needed but also maintenance  
gear such as swing chains and  
paint.

Due to the time and work in-  
volved in rehabilitating the toys  
it has been necessary to estab-  
lish a Dec. 15 deadline for  
the repairable toys contribu-  
tions.

"I can't express my thanks  
enough to all these people who  
are doing such a fine job,"  
said Sgt. Levasseur.

There will be many people this  
year who won't be able to "ex-  
press their thanks enough" so  
the GLOBE takes this oppor-  
tunity to do it for them. A  
heartfelt "thanks" to GySgt. Joe  
"Santa" Levasseur and his won-  
derful family, Col. Donovan, Lt.  
Col. Pepper and the men of

R. L. Hackney.

# Boy's League Championship Grid Action

## ☆ Profile ☆

This week the sport spotlight hits Pfc. William Marciniak, player-coach of Headquarters Company, H&S Battalion, Marine Corps Base, "Ski", as he is better known, was asked to express his views in regard to intramural athletics.

"In all phases of life a person will find success not only in accordance with how he performs individually but also in how he performs as a member of a group. The need for team work and group accomplishment can be easily seen in the armed services but more particularly in the intramural activities which are part of the self same service. Why are intramural activities an integral part of service life? The importance of any activity can be measured by what it produces or effects. Intramural sports stress the need for teamwork among individuals who are working together as a group; casting aside individual accomplishments for the group as a whole. A team comprised of all 'chiefs' and no 'Indians' is not a team but a group of disorganized individuals doing more harm than good. A team that works well

Bill Marciniak

together and performs as a unit will be a successful one not only in intramurals but in all parts of the service life.

Intramural sports also serve to make the participant feel a sense of accomplishment in having done a job and having done it well. It serves as a change of pace when the ordinary everyday routine becomes tiresome and maybe a little drudgerous. This feeling of accomplishment, the ability to work together as a team will help in building up morale which is often necessary in military life."

## NCAA, AAU Make Truce; Allows U. S. Top Athletes In '64 Olympics

The United States, always a world leader in amateur athletics, may be the strongest power in years to come as officials of America's two ruling bodies in amateur sports agreed last week to join in a track and field alliance, the first step in a truce that would allow this country's top athletes to compete in the 1964 Olympic Games in Tokyo.

The announcement was made after a series of meetings in New York between top brass of the U. S. Amateur Athletic Union and the National Collegiate Athletic Association.

This was the first break in a dispute between these two groups for control of amateur athletics in America and was seen as setting a pattern that could clear the way for athletes in all major sports to be officially approved for Olympic competition.

Before the meetings, which were set up and highlighted by suggestions from Attorney General Robert F. Kennedy, Olympic status of American athletes had been threatened because each group refused to honor athletes who competed in events sanc-

tioned by the rival group.

According to Mr. Kenneth L. "Tug" Wilson, "This was the first time both sides sat down in a spirit of cooperation to work things out between themselves." Mr. Wilson is the president of the U. S. Olympic Committee, and presided over the meetings since their inception in October.

The Olympic committee hopes that this alliance will set the pattern for solving other disputes. Both basketball and gymnastics, two sports that the AAU and NCAA have been battling over for control, have not yet been discussed at the talks.

The AAU is expected to wait until its annual convention at Detroit next week to vote on ratification of the track and field alliance. The NCAA's annual convention will be held at Los Angeles, Jan. 7-9, but that group may resort to a mail vote for ratification in an effort to settle matters before the start of the indoor track season.

Athletes apparently will be able to participate in indoor meets now without danger of expulsion by either group, according to NCAA officials.

## Colts Capture Boys' League '62 Football Championship

The blue-clad Colts of Camp Lejeune's Boys League had the 1962 championship firmly in their grasp when the dust had cleared after Saturday's thrilling 25 to 19 playoff against the Redskins on the Tarawa Terrace gridiron.

At the end of the regular season the Redskins and Colts were tied for the league lead, setting up Saturday's game as the crucial tilt of the season.

The first scoring break came when, midway in the second period, the Colts faced a fourth down punting situation on their own 16 yard line. Rather than lose possession of the ball they attempted a pass which fell incomplete, giving the ball to the Redskins dangerously deep in Colt territory. Halfbacks Carl Wiggins and Bob Yezierski moved the 'Skins offensive to the 4 yard line. From there Carl Wiggins legged it into scoring territory. The extra point attempt failed and the Redskins took the lead by a 6-0 margin. But, it was no more than 6 plays later when the powerful Colt offense, sparked by full-back Jack Ferris crossed the Redskin goal line. With the ball on the Skin's 18 yard marker Jack Ferris passed complete to Steve Nowak who ran the remaining 5 yards for the Colt tally. As the half ended the two teams stood deadlocked 6-6.

The second half saw the lead see-saw between the two hard-fighting teams. Nowak snagged another of Ferris's aeriels and sprinted 35 yards for the second Colt touchdown. Ferris carried for the PAT on a wide sweep around the right end.

Both teams pulled out all the stops in the fourth quarter. Redskin Billy Vain connected with a long pass to Carl Wiggins, who charged into the end zone, closing the scoring gap to a 13-12 margin with the Colts still maintaining a slight edge. Again, the Colts quickly retaliated with Jack Ferris pinpointing Steve Walton on the center field stripe. Walton snatched the pass and scampered 50 yards to paydirt--Colts 19, Redskins 12. With but two minutes remaining in the ball game Billy Vain uncorked another fine aerial, this time delivering the ball to Carl Wig-

gins, 1961's Most Outstanding Backfield Man, and Wiggins sprinted the remaining 22 yards to paydirt. Now with the score at 19-18 the Colts dug in to protect their slim lead, but the Redskins would not be denied and Skin "scatback" Bob Yezierski crashed over for the point thus deadlocking the game as the clock ran out.

Faced with a "sudden death" playoff the two teams came back on the playing field with the Colts remaining in possession and the ball resting on the 50 yard

marker. The Colts, playing spirited ball, and led by Ferris, Mark Ward and Nowak passed and sprinted two successive first downs, the ball lying inside the skin's 20 yard line, Ferris back, waiting till Nowak translated the Redskin end then unleashed his own braided guided missile. It's aim was and Nowak gathered it in the touchdown and the 1962 Boys League Football Championship Final Score: Colts--25, Redskins--19.

## Deer 'Out-Doe' Hunter, Robin Hoods Try Again

Something out of the ordinary occurred at Camp Lejeune last week. In this highly mechanized space age world in which we live it is highly unusual when men lay aside their highpowered lever-action rifles and expensive shot guns to take to the woods and hunt as the American Indians did hundreds of years ago.

Last Saturday, a group of twelve archers did just that. With Lt. C. E. Beyer, MC, USN, as huntmaster, they stealthily slipped into the wooded areas surrounding Verona Loop to touch off the first organized deer hunt of the season.

In the past all bow and arrow hunting was done individually. Up until a few years ago this still held true; now organized hunts have become exceedingly popular, and successful.

The average huntsman carries a bow that ranges from forty-five to fifty-pounds of pull. The arrows are really "wicked", broadheaded, made of tempered steel and especially constructed for a quick, sure kill. Some of the heads have two, three, four

and even six blades.

Lt. Beyer, huntmaster and president of the Camp Lejeune Archery Club had this to say: "Hunting with bow is different from rifle hunting. It's a limited firing range makes bow hunter rely on stalking and woodsmanship much more than a hunter armed with a rifle. There seems to be more sportsmanship in hunting because the hunter placed on a little more footing with his quarry. Odds against a deer kill are twenty to one."

## All-Star Teams Play At TT Field

All-star games are on both the Tiny Tot and M. Leagues. On Sunday, November 25 at 1:15 p.m., a Rams-Vikings team will play with the best of the Browns squads. On Sunday, November 2 at 1:15 p.m. the get League All-star game between the Colts-Eagles and Redskins-Bears teams be played. These games are to the public and all fans are invited to attend the Tarawa Terrace Cheerleading Queens from two leagues will be crowning the halves of the re-tive All-star games.

### Attention, Archers

The Camp Lejeune Archery Club meets next on Sunday, Dec. 2, 1962 at the Field Range. All members and prospective members are invited to attend.

## Quantico Set for Cagers' Tournament

MARINE CORPS SCHOOLS, QUANTICO, VA., --The Quantico Marines 1962-63 basketball team, under the direction of Coach, Maj. Ira P. Norwood, will open their 29 game season on Nov. 30, against American University at Washington, D. C.

The Marines lost the services last year's starting five who went to an East Coast Inter-School Championship. However a stud group of collegians on hand to make up for the

leading the list of newcomers Brian "Puddy" Sheehan former Georgetown University student, who was selected to fill college All-American shoes. The 5'9" playmaker established himself as one of the best backcourt men to ever represent the Washington District.

Sheehan will be joined by Jim Allen, Belmont Abbey, Bruce Korman and NAIA ALL-American Walt Mischler of Manhattan College; Gary Koeing, New England and All-Yankee reference star from Rhode Island University; Steve Flynn, Oregon State University and Quinn of Iona College.

In addition, four reserves in last year's quintet are expected to provide added bench strength for the Leathernecks. Miller, Philadelphia Textile; Bob Hopkins, Florida; Dick Hall, Marshall University; and Bob Brooks, St. Clark College.

Service veterans Derek Dickson and 6'6" Jim Meyers, from season's Camp Lejeune Marine squad, round out the team.

**TOP BACKCOURT MAN**—Brian Sheehan, former Georgetown University basketball star, is one of the key players on the 1962-63 Quantico Marine squad. The 5'9" playmaker was named to the Catholic Digest All-American team in 1960-61.

## Hq. Co. Basketball Team's Spirit High

Headquarters Company, Marine Corps Base is again planning for the coming months when they will participate in the tentative round-robin intrabattalion basketball tournament.

All companies in the battalion will be represented. Headquarters Company, Service Company, MP & Guard Company and Motor Transport Company will play an eight game schedule with the winning team being awarded the Colonel's trophy.

"Team spirit is running high at Headquarters Company", said Pfc. William Marcinak who will be playing a dual role this season as both player and coach. At six feet five, Bill should be one of the stalwarts of the team. He has two years of college ball behind him along with two years of service ball. Bill stated, "It looks as though Headquarters Company should be the team to beat. We're looking forward to some well-played, hard-fought games."

# Game Warden States Hunting Rules, Restrictions For Woods Bound Men

Due to the proximity of some Base hunting areas to populated sections of Camp Lejeune, the following areas heretofore unrestricted will be in the future only open for scheduled, organized deer hunts conducted under the supervision and control of a designated huntmaster. These areas include:

All A, B, C and D Areas (minus DC area); Golf Course area; Paradise Point area; Hadnot Point Area; Tarawa Terrace Area; Camp Geiger Trailer Park; Courthouse Bay Area; and Rifle Range Detachment Area.

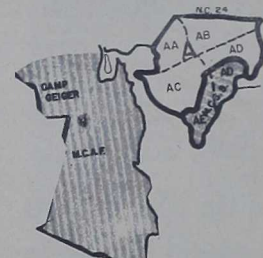

All hunters desiring to hunt on the Camp Lejeune Reservation on 22, 23, and 24 November 1962, must obtain area assignment and special permits from the Game Warden's Office, Building #37, prior to hunting.

Upon completion of hunting in assigned areas, all hunters will return such special permits to the Game Warden's Office.

Reservations and Special Permits issued will be for

separate days but may be renewed for the next day on a first come first served basis.

Reservations for area assignments will not be made prior to 1300, 21 November 1962.

## Tiny Tots Tangle In Tough Contests

In Tiny Tot action Sunday, the league-leading Rams downed the Browns, 13-6, as David Rechia tallied two six-pointers including an 80 yard marathon run in the fourth quarter. The Brown's touchdown came on a double reverse sending Kevin Richards around his right side from the Brown's 45.

In the second game Sunday the Vikings racked up their first win of the season by upsetting the favored Lions, 13-6. Halfback Sellers recovered a blocked punt in the Lion's end zone for the initial TD and the successful PAT attempt raised their lead to 7-0. The Lions countered with a tally before the half when Paul Black scored from the Viking 12 yard line. With only two minutes remaining in the game Viking halfback Harvey Boulanger ran around the right end to insure the upset victory at 13-6.

## Lardner Takes Final Race In Sailing Series

1st. Lt. Breck Lardner and his crew withstood strong challengers, high winds, and choppy seas to come through with a victory in the final race of the Fall Sailing Series last weekend on Wallace Creek.

Leading the entire race, Lardner got a break midway through the race when Capt. L. S. Van Gaasbeek and his crew, 1st Lt. H. C. Stackpole, in a close second place, were forced to withdraw from the contest when malfunctions with their halyard caused a stay to break away.

Finishing second in the race was Dr. Howard S. Brown, a visiting doctor from the Naval Hospital at Newport, R. I. finished fourth.

## Our Fish Resources at Stake

# The Threat of Russian Trawlers

By James E. Mays  
Virginia-Pilot Outdoors Writer

The announcement that the Soviet Union will establish a fishing port in Cuba to serve a huge Red awler fleet may be bad news to American commercial and sport fishing as well as to the Defense State Departments.

It indicates Russian exploitation of fisheries resources which have traditionally thought of our own.

It undoubtedly means Soviet per-trawlers—far superior in numbers and modern equipment—our own trawler fleet—soon will be operating just off the coasts of Florida, Georgia, South Carolina, North Carolina, Virginia, and the Gulf states.

It may mean chaos in the Caribbean, particularly if the Soviet fishing effort is expanded to include the taking of shrimp. This is regarded among government fisheries experts as a virtual certainty. Cuban tastes an heavily toward shrimp and Castro is expected to pressure Russians to enter the Caribbean shrimp fishery to supply a domestic Cuban market.

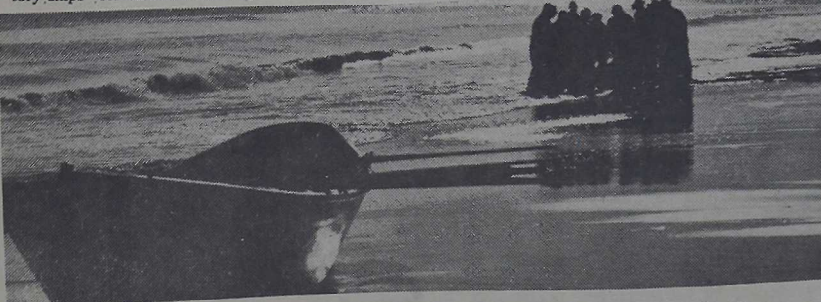

The announcement may also mean Red entry into the tuna fishery, particularly on the newly discovered tuna grounds off the west coast of Africa and along the edges of the Gulf

Stream in the Western Atlantic. Washington officials in the Bureau of Commercial Fisheries speculated last week that the Cuban trawler base would include extensive fish processing facilities.

Until now, the Russians have lacked processing facilities in the Western Hemisphere. This led them to construct huge "factory ships" for on-board canning

weeks and sometimes months until the holds of the factory ship are filled, then the factory ship and its satellite trawlers return to Russia with millions of pounds of canned and frozen fish.

Shore-based processing facilities in Cuba, say American fishing officials, would accomplish both a reduction in Soviet operating costs and an expansion of production.

Commercial fishing in the surf of North Carolina Outer Banks.

and freezing of their catches' on the Grand Banks of Newfoundland in winter and Georges Bank off the Massachusetts coast in summer.

Each factory ship serves as the "mother" for a fleet of trawlers. The trawlers fill their holds and return to the anchored mother-ship to discharge their fish and return for another load. The procedure continues for

Already, however, the Soviet Union is the largest fishing nation. A substantial portion of the animal protein consumed in the Iron Curtain countries is in the form of fish and fish products. By contrast, American consumption of animal protein leans heavily toward beef, pork and poultry.

One of the least understood aspects of the Cold War is the

use of animal protein — desperately short in Asian and African countries — as a weapon against the West. The Communists have already gained inroads in some underdeveloped nations simply by sending in Soviet oceanographers and fisheries technicians to teach native fishermen how to catch more fish.

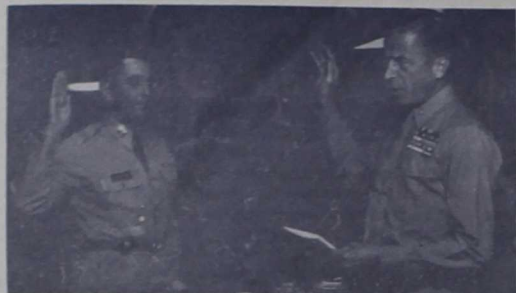

African or Asian can afford.

At the very time that the Communists have been reaching toward this goal, the American high-seas fishing fleet has deteriorated appallingly. The United States is no longer an important fishing nation. After World War II the tariffs on fish were lowered to the point that American fishermen could no longer compete. While the objective here was to provide a U.S. market for fish produced by our allies—Japan, for example—it also resulted in economic disaster to the American high-seas fishing industry. Very few new American trawlers have been built since World War II, and even these have been small vessels with nothing to compare with the advanced equipment in common use by Russia, Japan, West Germany, and Canada.

Thus, if the Russians decide to enter the shrimp fishery in the Gulf of Mexico, real trouble may lie ahead there. The deadly efficiency of Red equipment and methods could not only wreck the American shrimp industry, but could also threaten the shrimp resource itself.

The Russian trawler base in Cuba is generally viewed as having an overriding military purpose, but its potential consequences to the fisheries are also grave and far-reaching.

**BIRTHDAY PROMOTION**—Brig. Gen. Rathvon McC. Tompkins, right, assistant commander of the 2d Marine Division, promotes Army Maj. Charles Horton to present rank aboard the USS Francis Marion Nov. 10 during the celebration of the 187th Anniversary of the founding of the Marine Corps. The general reaffirms the oath of office taken by the major when he was commissioned. This ceremony is a tradition in the 2d Marine Division, and the major wholeheartedly agreed to follow the Marine tradition. (Photo by Cpl. Dan R. Paul)

## Army Major Promoted On USS Francis Marion by Brigadier General Tompkins

One officer to be promoted (supplied by the Army)—one senior officer to perform the ceremony (supplied by the Marine Corps)—setting for the promotion (supplied by the Navy).

These were the circumstances November 10 when a U. S. Army officer was promoted by a Marine Corps General aboard a Navy ship, during the celebration of the 187th Anniversary of the U. S. Marine Corps.

Major Charles Horton was promoted to his present rank by Brigadier General Rathvon Tompkins, Assistant Commander of the 2d Marine Division, aboard the USS Francis Marion, while the ship was docked in Charleston, S. C.

As is customary on November 10 each year, Marines the world

over celebrate the founding of their Corps with a traditional cake-cutting ceremony presided over by the senior Marine Officer present at the time. General Tompkins, the senior officer embarked aboard the USS Francis Marion, cut the Birthday Cake in the ship's wardroom and presented the first slices of the cake to Captain D. S. Bill, Commanding Officer of the Marion, and Captain J. J. Becker, Commodore of Amphibious Squadron 12.

At the conclusion of the ceremony, Captain Horton was called forward and Gen. Tompkins and Mrs. Horton pinned the gold oak leaves on the new major. The general presented the third slice of birthday cake to the major.

## Engineer Schools Presents Diplomas

Some 67 enlisted Marines received graduation certificates upon successful completion of engineer utilities courses at the Marine Corps Engineer Schools during ceremonies at the Court House Bay Area Theater last Friday Morning.

Col. R. E. Collier, Assistant Chief of Staff G-3, Marine Corps Base, Camp Lejeune, presented the graduation certificates after delivering a short farewell address to the graduates.

In his speech, Colonel Collier emphasized the importance of the graduates exemplifying the highest traditions and standards of Marine Corps Engineering as taught by the faculty of the Marine Corps Engineer Schools.

A total of 22 students graduated from the Engineer Equipment Mechanics course; 19 from the Welding class; 11 from Electricians and 15 from the Plumbing and Water Supply courses.

Honor men for their respective classes were: Pfc. F. J. Burke, 1st Marine Div., Electricians course with a 91.58 per cent average; Pfc. J. S. Miclette, 3d Marine Air Wing, Plumbing and Water Supply, 90.17 per cent; Pfc. J. F. Niespodziany, 1st Marine Division, Welders course; 88.27 per cent and Pfc. H. A. Tiltz, 2d Marine Division, Engineer Equipment Mechanics course, 83.43 per cent average.

**PUNCHING PAYS OFF** — Pfc. Donna R. Gross, a card punch operator at the Data Processing Installation, is all smiles receiving a Meritorious Mast from Col. Wade H. Hill, commanding officer, H&SBN, MCB (left), while Capt. James Wallis (center), commanding officer, Woman Marine Company H&SBN, looks on. (Photo by GySgt. R. F. Rhoades, Jr.)

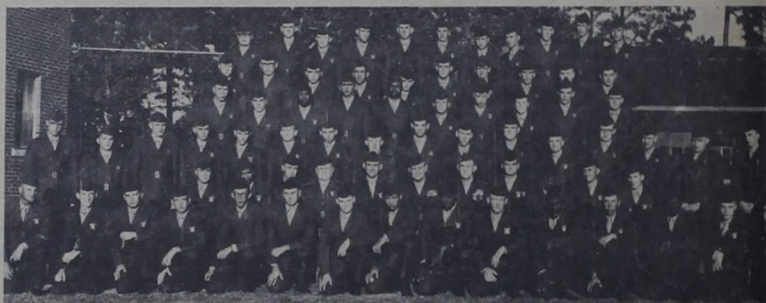

## WM Awarded Mast For Outstanding Achievements As Key Punch Operator

Private First Class Donna R. Gross, Woman Marine Company, H&SBN, MCB, received a Meritorious Mast last week for her outstanding performance of duty as Card Punch Operator in the Card Computer Branch of Data Processing.

Donna has served as a Card Punch Operator since January of this year. During the period of April 1 to September 30, she has attained an average of over 10,000 strokes per hour which is

3,000 strokes over the average and over 2,000 strokes above the performance expected of an operator of her experience. She has already attained a proficiency rarely matched by punch operators of similar experience.

Not only has her performance of duty merited recognition, Donna's conduct, appearance, military bearing have at times been in keeping with the highest traditions of the Marine Corps.

**90 PROMOTED** — Headquarters and Service Battalion, 2d Force Service Regiment, promoted 90 men on November 1, 1962. Sixteen were promoted to Corporal, 32 to Lance Corporal, and 42 to Private First Class. The sixty-nine men present for the mass promotion ceremonies

were photographed with their Battalion Commander, Lieutenant Colonel E. L. Roberts, Company Commanders, Captain R. C. Kropf, and Captain E. S. Jazcko, on his right, and Captain B. W. Dick, and First Lieutenant R. Burroughs, on his left.

## Page, Fry, Complete IBM Engineering Course Held By Defense Department

SSgt. Herbert M. Page and Sgt. William R. Fry of 2d Data Processing Platoon Mobile, 2d Force Service Regiment, recently completed a seventeen week school on IBM Engineering held in Rochester, Minn. The school covered all phases of repair on the basic IBM machines.

SSgt. Page and Sgt. Fry were tested in the field of Math prior to being accepted for the school. They scored high on the test and finished equally well in the school. SSgt. Page took 4th place honors with a class average of 87%, while Sgt. Fry held down the number ten spot with an average of 82%.

## On Alert For Peek-A-Boo Motorists

The frost is on the pumpkin and the MP's are on the alert for motorists with frost on their windows and windshields. The Base Provost Marshal has

ordered that "peek-a-boo" drivers be cited for creating a traffic hazard.

MP's are giving tickets to motorists who are not cleaning the frost from their windows. It has been noted that some drivers are cleaning only a small portion of their windshield, enabling the driver to see only to the front. Base and State regulations require that all windows be clear and unobstructed.

According to the Provost Marshal, motorists stopped for frosted or iced windows or windshields will be subject to deprivation of their Base driving privileges.

The Provost Marshal also noted that many motorists are not keeping the electrical equipment on their cars working properly. Brake lights, directional signals, license plate lights, and headlights must work properly. Drivers cited for "Defective Equipment" will lose their Base driving privileges.

# Lejeune GySgt. Proud Possessor Of 516-Year-Old Medallion From Italy

A Force Troops, Atlantic Marine, GySgt. H. H. Merrill, of Headquarters Co. is the owner of a unique and priceless medallion, executed by the great Italian portrait medalist, Vittore Pisano, also known as Pisanello, one of the first artists to model portraits and cast them in bronze, in the year 1446.

The medallion, coined in Rimini, Italy, then known as Ariminensi, commemorated Isotta degli Atti, wife of the Latin prince, Sigismondo Malatesta, lord of Rimini. From his childhood, he was a daring and skillful soldier, and was known as one of the worst tyrants in Italy of the time. However, he, like most men of high degree at the time, shared to a high degree in the Renaissance cult of art and letters, having the temple of San Francesco built for him at Rimini by Leon Battista Alberti.

Sigismondo is accused of the murder of his two wives, Ginevra d'Este and Polissena Sforza,

afterwards marrying his mistress, the commemorated Isotta. It is probable that Sigismondo had a medal of himself cast at the same time as the one of Isotta, but it has been lost.

The medallion came into the possession of GySgt. Merrill's grandfather in 1888, when he

it up from a forgotten and marked grave, probably that of an Italian explorer or pirate. There is no mystery about the beginnings of the medallion; it will probably never be known how it came to rest in the location in which it was found.

On the reverse side of the medal, is a relief portrait of Isotta, and the words "D. Isotta" and "Ariminensi", and the reverse is a relief of a elephant and the Roman numeral MCCCXVI, or 1446; again, not marred by its beauty nor roded the art of its maker.

Famous antiquarians from Newberry Library, the Smithsonian Institution and Field Museum have inspected the medallion and pronounced it to be genuine and of great historical value.

The medal was handed down to GySgt. Merrill's father, Merrill, who in turn bequeathed it to his son in 1959. Merrill plans to place the medallion in the Metropolitan Museum, New York City, the temple of San Francesco in Rimini has expressed hope of obtaining the medal in order to enshrine it along with the medal by Pisanello now possessed by the church, and a portrait of Sigismondo, done by Gostino de Duccio. Sigismondo and Isotta are enshrined in the church.

GySgt. Merrill, a veteran of World War II and the Korean conflict states, "The medallion has been in our family for seventy-five years, and I would like to see it for sale at any price."

purchased it for an unknown amount from a laborer who had found it on the banks of the Mississippi River, south of St. Paul, Minn. The laborer discovered it when his plow turned

## Deferred Payment Plan on Uniforms

All commissioned and warrant officers, regardless of duty station, and staff non-commissioned officers on duty at Camp Lejeune are authorized the extension of credit on the purchase of uniforms and uniform accessories provided the minimum aggregate amount of the purchase is thirty-five dollars (\$35.00).

The schedule of deferred

payments is as shown below and payments shall be due and payable on or before the same dates of subsequent months from the actual date of purchase.

Minimum Down Payment—20%—balance in six equal monthly payments.

No new deferred payment contract shall be authorized for a patron who has an obligated balance on a previous deferred payment contract unless especially authorized by the Exchange Officer.

The maximum unpaid balance shall not be more than three hundred dollars (\$300.00).

Deferred payment contracts will be executed only at the Uniform Department in the Main Exchange. Payments will be made at the office of the Marine Corps Exchange Treasurer, Building No. 84, or by mail, addressed to the Marine Corps Exchange, Camp Lejeune, North Carolina. There is no additional charge for credit purchases of uniforms and uniform accessories.

## Advanced Spanish Class Forming

Spanish language students of Marine Corps Base who have a basic knowledge of "la lengua espanola" may make requests at this time for enrollment in a proposed advanced spoken Spanish class to be conducted during the noon hour beginning in February.

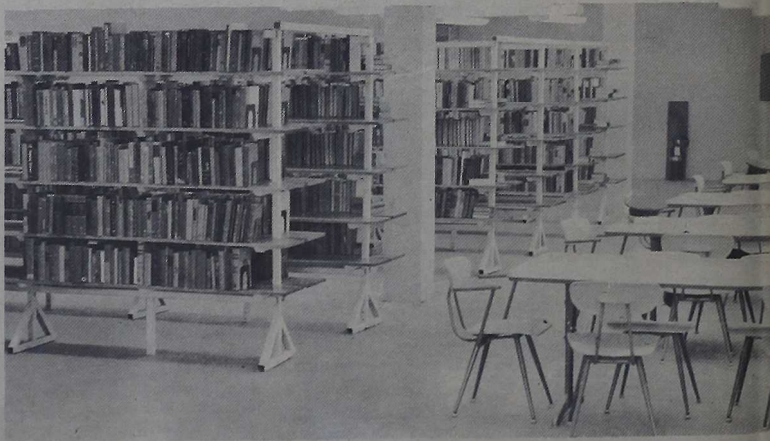

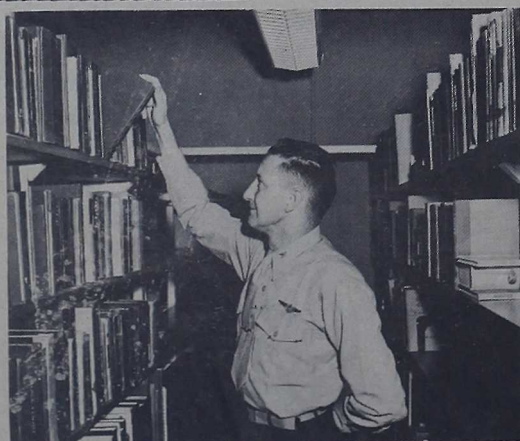

Corporal L. F. Huff, Education NCO at Headquarters and Service Battalion, Marine Corps Base has issued a call for all personnel within the battalion who have completed a basic Spanish course or who have a knowledge of basic spoken Spanish to contact his office if interested in continuing study. The proposed class will begin on February 4 and continue for 8 weeks, covering the materials in USAFI Spoken Spanish course A610.

The new language class is designed to follow up the basic course that was taught in the battalion last July and the current class now meeting in the Central Area Club from 12:00 noon until 1:00 p. m. Tentative plans are for the new class to meet in the same room at the same hours. Applications should be in to Cpl. Huff's office at H&S Battalion S-3 by December 5.

## Appreciation

The Commanding Officer, U. S. Naval Hospital, has expressed his appreciation of the spirit of understanding demonstrated by everyone at Camp Lejeune since the beginning of the current international crisis. The hospital has temporarily lost the services of eleven doctors, twenty corpsmen. Outpatients have been required to wait longer for appointments, certain operative procedures have been canceled. This situation is not expected to prove until the return of TAD personnel.

## Marine Corps Air Facility Opens New Library

FIRST BOOK from New River's new library was checked out by Col. E. C. Fusan, commanding officer, MCAF, as its doors officially opened Wednesday, Nov. 14. The library has temporary hours of 1 to 4:30 p.m., Monday through Friday, by LCpl. H. L. Shaw)
