

SUPPLY HOOK-UP—Act. GySgt. R. P. Thurber, standing, and Act. GySgt. A. P. Walls as he sends the local command's supply order to Albany, through a nation-wide network of electronic computers that will soon control all the quarter of items in the Corps' gigantic supply system.

Local Supply System Ties National Univac Setup

A Data Processing Installation tied in with a nation-wide network of Univac electronic computer systems recently will soon have all the quarter of a million items in the gigantic supply bin under its control.

The new IBM Transceiver was installed at the processing plant on last spring and has been nightly feeding all Quad-2 supply needs to an identical "mechanical marvel" at the Marine Corps Supply Center, Albany, Ga.

However, the Albany console has the information on to Univac computer system electronically manages the and other Corps organization of shoelaces and 60-

computer network was by Brig. Gen. W. P. Bateman, commanding general of the MCB, as the "efficient answer to military system requirements in a and missile age," at ceremonies February 17.

Conversion will greatly improve the efficiency of Marine inventory management, Battell declared. In full the new system will tie East and West Coast inventories into networks which will interlock with a master point at Philadelphia. The network, the withdrawal of each inventory item at Lejeune will be recorded on cards. This information will be transmitted automatically through the Univac computers at Albany (or Calif.) where it will be stored on magnetic tape. Information to recording amounts on hand, the Univac automatically tell the supply stock managers which Lejeune are in short supply and automatically bypass all normal supply.

The new system will completely replace the need for outlying requisition material points to requisition material points. The computer will withdrawal records

HQMC Sets New Early Out Policy

More "early outs" were announced last week by HQMC, when commands were authorized to separate "as soon as practicable" during April all enlisted marines due for release or discharge between April 1 and June 30 inclusive.

The move was the third such "hasty discharge" announcement within the last three months. Early discharges for the Yul tide were followed up by Marine Corps Order 1910.17, published late last month, authorizing commanding officers to grant early releases to marines returning from overseas duty with 120 days or less to serve.

Both the "overseas" release order and the new cut require the individual's written consent and understanding that credit for pay, allowances and active Federal service cease on the actual date of release.

In addition, alien marines who intend to qualify for expeditious naturalization because of three years military service, must make a statement of understanding that an "early out" will jeopardize their opportunity for such naturalization.

Specifically, the orders apply to expiration of enlistment obligated service and release from active duty in determining eligibility for early separation.

Those returning from overseas must have 120 days or less of obligated active service remaining upon the date of CONUS arrival to qualify.

Personnel desiring "early outs" will not have their reenlistment bonus recouped. Indebtedness to the government, however, will be a bar to early release, unless the debt is liquidated or normal enlistment expires, whichever date is earlier.

The bulletin does not apply to six month reserves, but does apply for reservists on EAD.

No waivers for establishing eligibility for the Good Conduct award will be granted to those taking advantage of the "early outs."

In event of mobilization the orders are cancelled. In addition, marines, if recalled in the future, will be considered in the same status as those who have completed their enlistment or periods of extended active duty.

FIRST PUBLIC QUARTERS—Act. GySgt. William L. Annis receives the keys to his newly renovated, newly furnished government quarters at Tarawa Terrace from Col. M. I. Shuford, Base supply officer. The informal ceremonies were held last Friday as Sergeant Annis and his family became the first TT residents relocated to renovated quarters.

First Families Move Into Newly Renovated Public Quarters At Tarawa Terrace

Act. GySgt. and Mrs. William L. Annis became the first family to relocate in a newly renovated Tarawa Terrace unit Friday.

At informal welcoming ceremonies, Col. M. I. Shuford, Base supply officer, presented the Annis family the keys to their "new" home.

Three other families had been moved into the 300 block of West Peleliu Drive by GLOBE presstime, according to housing officials. The remainder of the

previously announced 28-tenant increment will be relocated by the first of the week, depending on the arrival of more kitchen and bathroom fixtures and other materials.

Thereafter, occupants will be moved to renovated units on a continuing basis at the rate of

about 10 a day, providing the receipt of purchased materials keeps pace with the moves, the report said.

The first occupant, Sgt. Annis, a heavy equipment instructor at Marine Corps Engineer Schools, told visitors, "I've been around the Marine Corps a long time, and so far, this is the best place we've ever had." Recalling other duty stations, he added that he had once given up his quarters allowance for a small trailer.

The Annis' have an 11-year-old daughter, Gail, and will be forfeiting a \$77.10 BAQ, which will cover rent, furniture and all utilities, except phone service.

"Over the 12 months of the year," he went on, "I figure that we'll be ahead (compared to paying rent and utilities) about two dollars a month."

When asked how she felt about her new quarters, Mrs. Annis laughed and said, "I feel just like a bride. This is the best place we've ever lived in. The furniture is beautiful and I especially like the desk and the china cabinet."

Mrs. Annie guided the visitors through the two-bedroom unit commenting favorably on the furniture.

(Continued on Page 2)

Local Area Fund Drive Ends Today

During the annual six-week National Health and International Agencies fund drive, which officially ended today, over \$30,000 was donated by Quad-Command marines.

Second Division units donated over \$16,000 with every unit in the Division, with the exception of one, donating 100 per cent. Three Division units, the Eighth Marines, 2nd Recon. Bn., and the 2nd Medical Bn., topped their 100 per cent donation mark during the last week of the drive.

As the drive ended no new units from MCB, Force Troops or the Air Facility were reported as reaching their 100 per cent goal.

Total contributions for MCB units were over \$12,000 with over two-thirds of that total coming from 1st ITR. Force Troops units wound up with a total collection figure of almost \$2,500, and approximately \$900 was contributed by the Air Facility. Civilian workers aboard the Base contributed almost \$1,000.

The \$30,000 will be used to help support the 10 National Health Agencies which sponsored the campaign.

MARINE CORPS ASSOCIATION MEETING

TONIGHT, 7 P.M. — MARSTON PAVILION

Maj. Gen. W. S. Brown, USMC (Ret'd), principal speaker, in this the first of a scheduled series of lectures. His lecture will cover "British Designs on New Orleans Before 1815," which include British interest and adventures in acquiring territory in the Caribbean and Gulf of Mexico prior to this time.

ALL ASSOCIATION MEMBERS URGED TO ATTEND.

Those Wishing To Join The Association Are Welcomed

GLOBE Round-Up

REUNIONS SET — Five Marine Division Associations schedule conventions.

Section 34.66 P. L. & R.
U. S. POSTAGE
PAID

PERMIT NO. 9
JACKSONVILLE, N. C.

If you ask me...

DO YOU THINK THE PRESENT MEDICARE PROGRAM IS FULFILLING ITS PURPOSE?

CAPT. B. BERCKMANS, JR., Hq. Bn., MCB — No, because of the limitations currently imposed on the selection of civilian medical facilities.

Navy facilities are still overcrowded and inadequate. Navy medical personnel are being occupied with dependent care instead of being free to devote themselves to taking care of marines.

The service to dependents is not at all comparable to that received on the outside.

MSGT. CECIL MARTIN, Force Troops — If the dependents would not abuse the Medicare Program and the civilian doctors, there would be more cooperation from both sides.

I'm sure that the government would go along with a modification of the present bill as it stands now.

ACT. GYSGT. D. C. BOWMAN, Hq. Bn., MCB — I think the Medicare program as it stands now is somewhat inappropriate.

At times, the husband finds it difficult to get away from his job thus making it inconvenient when the wife is unable to drive and provide her own transportation to the hospital. I feel that the serviceman has an obligation to the service and his family also.

ACT. MSGT. D. A. DAVIS, Spt. "B", Co., Hq. Bn., MCB — The present Medicare Program is much better than the old program which used to be in effect.

Many dependents not living in the vicinity of their husbands are receiving excellent care, much cheaper than they would otherwise. It would be better if we could also get dependents dental care.

CAPT. R. L. SCHIAVONE, 2nd Med. Col., Hq. Bn. — Presently there are not enough doctors to handle the number of patients.

As a result, this causes doctors to work too rapidly. Many times a long wait is necessary before the patient is admitted for treatment, sometimes as long as two hours. Changes in the program would help to eliminate this situation on Base.

ACT. SGT. ROBERT M. HEGAN, Hq. Bn., MCB — Having never used the old Medicare system, I'm not too qualified to give an opinion.

For myself, government medical care is sufficient, but dependents, especially wives, would rather have a chance to choose their own doctor.

First Families Moved Into New TT Units

(Continued from Page 1)

closet and cabinet space. It was the second time the Annis' had distinguished guests in their home. Last year, General Randolph McC. Pate, CMC, visited their house during a brief inspection tour of the Lejeune area.

Mrs. Annis commented, "The thing I like most about everything, is that we don't have to worry about going here to pay rent, there to pay the electric bill, and this place and that. It's all done for you."

According to Sergeant Annis, he was notified of the relocation about a month ago. Early last week, the family chose their furniture and last Thursday got their notice to move. A local Jacksonville concern moved their household effects.

Other guests at the welcoming ceremonies were Mr. A. P. Olmsted, Base housing director and Lt. Col. H. G. Bozarth, Base maintenance officer.

Housing officials have received numerous queries in regard to allotments, repayment of rental security deposits and costs of added electrical appliances.

Assignment to public quarters does not stop monthly dependents' allotment check. However, the total amount of the check is provided from the man's basic pay, as BAQ allowance is automatically "docked" from his pay.

Should his pay be insufficient to cover the total amount of the allotment check, the man will receive all pay and allowances, except BAQ, in his twice-monthly pay checks, according to Base Disbursing officials.

Although not recommended, the individual can also stop the allotment altogether or reduce it to any amount, and receive his total pay on normal pay days.

The disbursing report went on to say that upon disposition of public quarters, the individual who stops his monthly dependents' allotment must re-register the allotment in order to start receiving it at a new duty station.

Terrace residents are further notified that upon occupancy of public quarters, flat rate utilities no longer apply. They will therefore not be charged for additional home appliances such as freezers and air conditioners, but may use as much as they like.

In regard to unused rental funds, TT occupants will be refunded their security deposits, unused rent and unused flat rate utilities upon assignment to public quarters.

Disposal Of 10 Cars Slated; Sealed Bids Received At Lot 201

The Redistribution and Disposal Office has announced that 10 passenger vehicles which have been either abandoned or salvaged at Camp Lejeune will be sold by sealed bid.

Persons wishing to inspect automobiles may do so at Open Storage Lot 201 from 10 a.m. until 4 p.m., Monday through Friday, and until 12:30 p.m. on March 11.

Sales invitations covering these vehicles are obtainable at Lot 201. A bid deposit constituting the total amount of the bid must be submitted.

Cars listed for sale are: 1950 Chevrolet, tudor coupe; 1949 Dodge, fordor sedan; 1951 Ford, tudor coupe; 1949 Ford convertible, tudor; 1950 Ford, tudor; 1942 Ford, tudor; 1952 Ford, tudor; 1954 Mercury, tudor sedan; 1940 Oldsmobile, fordor sedan, and 1939 Plymouth, fordor sedan.

The condition of all vehicles is poor. Further information may be obtained by calling 7-5537.

Graduate Courses Offered During Spring Semester

Graduate courses in "Principles of Guidance" and "Techniques of Teaching" are being offered local personnel holding bachelors degrees by the Base Education Office for the spring semester.

The courses will begin on March 3 and 5. Guidance classes will be held Tuesday evenings and Teaching Techniques on Thursdays.

Three quarter hours credit is granted for the courses. Tuition for military personnel is \$4.50 plus textbooks, and enrollments will be accepted for the courses through March 3 at the Education Office.

Principals of Guidance classes will meet in Room 137, Camp High school. Teaching classes will be held in the testing room of the Base Education Office, located in the rear of the Camp Theater.

Germs Find Mess Hall Isn't Eatery

They're starving to death in Mess Hall 408.

According to a report by the Division Mess Administrator, the 2nd Pioneer Bn. "eatery" is no safe place for a hungry microbe. And the same report awarded an "outstanding" grade to this 2nd Division mess establishment for the third consecutive month following an inspection there February 13.

The galley, run by Act. MSGT. W. H. Lewis, got a resounding vote of confidence on such details as personal hygiene and sanitation. Equipment and areas were judged neat and clean. There was proper storage and food temperatures maintained in storage areas and washing and sterilizing procedures were in exact keeping with the book.

Records and reports were complete and up to date and the financial status of the mess showed why all the troops were healthy and happy; at the end of the last accounting period there was only \$45.16 left in the chow fund.

Lt. Col. H. R. Gingher, Pioneer Bn. CO, not only demands a clean dining room with mess personnel properly instructed and closely supervised, but insists that the food be well prepared and served in an appetizing atmosphere. This morale factor is proving popular with 254 Pioneers and the word has gone out to hungry microbes: Stay away from Bldg. 408!

Self-Service Super Market Deals Out Division Supplies

At a time when super market "self service" are becoming increasingly popular with military supplies, the 2nd Service Bn. has come up with "home as an even more efficient and economical mode of service.

Charged with the responsibility for supply units of the 2nd Division with over 44,000 different items, the battalion has begun a daily delivery service to 26 "customers" in various areas of Camp Lejeune.

Previously each organization called for its own supplies at one of the battalion's warehouses or storage lots. That meant a separate vehicle run for each command each time it drew supplies. "Now," according to Maj. A. R. Kurowski, 2nd Serv. Bn. supply officer, "two trucks can deliver all supplies on order in about four hours. This means considerable economies in vehicle operation and manpower."

In nearly all cases requirements now will be filled within 24 hours. Requisitions handed to the driver one morning will be delivered the following day from the battalion's stock of ordnance, engineer, electronic and ration items.

Most of the items of general supply are stocked in a huge warehouse in the Industrial Area of Camp Lejeune supervised by Act. MSGT. E. L. Church. When a requisition is received it is checked through the stock records section where IBM-type cards show the quantity and location of every item in stock. Number codes show not only the section of the warehouse where the item is stored but even gives the number of the bin and the shelf within the bin.

Actual filling of requisitions is accomplished by the Issue Section under Act. Gysgt. Frederick J. McGuffin. His crew, using shopping carts for small items, literally covers miles of warehouse aisles each day picking out the articles on order.

Ammunition, medical stores and certain other materials will continue to be ordered and picked up as before. Vehicles, because of mechanical inspections required before acceptance, must also be called for at storage areas.

U. S. Treasurer Visits Command

U. S. Treasurer Ivy Baker Priest arrived here Tuesday from Cherry Point for a short afternoon visit and inspection of training facilities.

During her stay, Mrs. Priest and four other civilian dignitaries were briefed at Bldg. 1, visited the Marine Corps Air Facility, and observed platoon infiltration tactics, squad firing, and "live" hand-grenade practice by ITR trainees.

PUSH CART SERVICE: Cpl. Roger L. Brown, houseman, 2nd Serv. orders the easy way with a pushing cart. All the items will be delivered the morning.

Instructors Course In Water Safety Offered Marines

A two-phase Water Safety Instructor Course is now open for enrollment to all Quartermaster's School graduates and currently Cross Senior Life Savers and are at least 18 years old, according to Base Public Affairs Officer.

The two-phase course is designed to supply local units with Water Safety Instructors in the first phase, will be conducted by local instructors. Those who successfully complete the course will be instructed by an Army Cross representative during the second.

All interested personnel should report to the NCC of Area 2 Swimming Pool at 7:45 a.m. on March 2 at the scheduled day thereafter.

Units should provide students with transportation from classes. Participants must furnish their own swimming equipment.

Phase one will begin Monday and continue through Thursday. Classes are Monday through Thursday from 8 a.m. to 12 p.m. in the afternoon beginning at 3 p.m. and ending at 3 p.m.

Class schedule for phase will begin on March 13 and continue to March 13. Times for classes are to be announced the first week.

Division Associations Schedule Reunions

Five Marine Division Associations have scheduled annual reunions, and the Marine Corps Reserve Officers Association plans an Annual Military Conference during 1959, according to information compiled by Headquarters Marine Corps.

The associations, composed of veterans of World War I and Korea, represent thousands of Marines, past and present. Members of the First Marine Division Association will hold two reunions. Their West Coast reunion will be held at the Marine Memorial club, San Francisco, June 26-27 and on the East Coast at the Hotel Statler, Detroit, Mich., August 6 through 8. Further information is available from the Association Secretary, Post Office Box 84, Alexandria, Va.

The Second Division Association will meet at the Marine Memorial club, San Francisco, June 17 through 19. Additional details may be obtained from Bob Meggellin, 2072 Sherman Drive, Pleasant Hill, Calif. Third Division veterans will meet at the Mayflower Hotel, Washington, D. C., July 17 through 19. Tom Stowe, 3427 Valley Drive, Parkfairfax, Alexandria, Va., can furnish additional information. The Somerset Hotel, Boston, Mass., will be the scene of the Fourth Division Association Reunion, June 25 through 27. Captain

Peter Benavage, USMC, Headquarters Marine Corps, Arlington 25, D. C., has announced formation.

Fifth Marine Division veterans will gather at the Jung Hotel, Mobile, La., July 10 through their annual meet. Lt. Lidyard, USMC (ret.) 901 St. Falls Church, Va., has announced additional details.

Members of the Marine Reserve Officers Association will hold their Annual Military Conference at the Hotel Washington, D. C., May 26. Additional information obtained from the Executive, Maj. Richard Bishop, 729 15th Street, N. W., Washington, D. C.

RESEARCH SPACEMEN—Although it appears Maj. Gen. Oliver K. Niess, Air Force Surgeon General, left, and Col. John Stapp, pioneer researcher in space medicine, are jumping for joy, they are literally floating in air during a weightlessness experiment aboard a specially modified transport at Wright-Patterson AFB, Ohio. The tests were each of 15 seconds duration.

Loss By Underwriters Explain Insurance Rates

Editor's Note: The following article reprinted from the National Casualty Underwriter magazine, provides many of the answers to why automobile insurance rates are on the rise. Remember, be truthful in claims and careful in driving. By paying attention to these two easy rules it will help prevent the climb in insurance rates that has been the rule rather than the exception during the last few years.

NEW YORK. — Members of National Bureau of Casualty Underwriters had a country-wide underwriting loss in 1957 of \$147 million on automobile liability. This followed a \$64 million loss in 1956 and one of \$5,315,883 in 1955. The total for the three years was more than \$216.5 million, and for the

Multi-Million Dollar Contract Awarded For New Weapons

WASHINGTON (AFPS)—The first of two contracts for new M-14 rifles has been awarded to the Winchester-Western Div., Olin Mathieson Co., New Haven, Conn., the Army has announced.

The contract totaled \$4.1 million and calls for 35,000 M-14's to be delivered within 12 months after the order is placed. The second contract, to be let later, will be negotiated with a company in a surplus labor area, officials said.

The Army Ordnance's Springfield Armory, Springfield, Mass., handled design and production engineering of the new rifle and will deliver the first of the rifles from its pilot line to troops by July.

Chambered to fire the standard NATO 7.62 cartridge, the M-14 will replace four hand weapons currently in use in the Army.

last 12 years amounted to \$396,684,549. In only three years of the last 12 have these insurers showed an underwriting gain—in 1954 with \$39,219,110, in 1953 with \$12,446,478, and in 1949 with \$13,070,261.

The 1957 loss meant that auto liability claim costs were \$116.70 for every \$100 of premiums earned.

The other casualty lines of which the bureau has jurisdiction increased the total losses so that the aggregate underwriting loss for the five lines—auto liability, liability other than auto, burglary and theft, glass and boiler and machinery—was \$157,034,838.

One favorable factor pointed out by William Leslie Jr., general manager of the bureau, is that since January 1 auto liability rate increases, have been approved by about half the states, and rate increases will be proposed in the other states soon. These increases should improve the underwriting results.

However, claim costs for both BI and PDL have increased on an average of six per cent a year over the postwar period. Claims settled in the year ended last September 30 were 87.4 per cent above the level of 1946 and PDL claims were 99.8 per cent higher, according to Mr. Leslie.

-6 Area Live-Grenade Range Opens

LETHAL PASSES—The F-6 area live-grenade range was officially opened last week by Maj. Gen. P. Riseley, commanding general, MCB. Constructed by members of Bravo Co., 2nd Pioneer Bn., the range will be managed by the Base range office.

Military Offers Average H.S. Graduate Best Jobs

The leading Congressional expert on military personnel matters, Rep. Paul J. Kilday, said last week that the average high school graduate can do better in the military services than he can in any other job, Navy Times reports.

At the same time he sharply rebuked his fellow Congress-

men for making speeches criticizing low service pay without thorough knowledge of the benefits available to the serviceman. He said these Congressmen make service sound worse than it is and discourage potential volunteers.

Rep. Kilday charged another reason there aren't more volunteers is that the services do not give proper publicity to benefits voted for servicemen.

"There are some people in high places in the military establishment who, as soon as we pass one benefit, start seeking another, the representative stated.

The second top man on the Armed Services Committee said that for the men who don't go to college—and not counting those who have a family business or moneyed position waiting for them—military service is the most profitable road open in life.

"There is nothing in the world he can do that will guarantee him the future that enlisting as a recruit in any of the military services will guarantee him," Kilday said in speaking of the average secondary school graduate.

He mentioned the right to retire after 20 years at age 37 with 50 per cent pay. He noted that service people are, "The only public employees in the United States with the full privilege of noncontributory retired pay and of Social Security, too."

Kilday's remarks were made as the House passed the four-year extension of the draft, the doctor draft and the Dependents Assistance Act. There has been criticism from Congressmen that the draft was a method of getting cheap, forced labor.

Kilday said the raw recruit who gets \$78 a month has room, board, clothes, medical and dental care, allowances and medical attention for his dependents.

"The only thing in the world the man has to buy when he is in the service is his toothpaste, shaving cream, blades, laundry and haircuts," Kilday said. "I would like to know where there is another young man in the same age bracket who has \$78 a month left after he has paid his expenses."

ASD Bn. Kicks Off Savings Bond Drive On Successful Note

Automatic Supply Distribution Bn., 2nd FSR, began a Savings Bond drive early this month, and in the last two weeks saw its participation figures jump from nine to 20.6 per cent.

Before the drive started, it was noted that ASD's bond activities were slack, according to Maj. John M. Lomac, executive officer. An interviewing board, headed by 1st Lt. Blaine Park, was formed for the purpose of interviewing battalion members to explain the advantages of buying savings bonds.

According to Major Lomac, the move has paid off as company totals clearly indicate. Supply Co. jumped from 14.7 to 24 per cent; Bulk Fuel Co. leaped from 6.5 to 20 per cent and Hq. Co. more than doubled their participation, going from 7.4 to 18 per cent.

The figures are actual, Major Lomac, said, as a man is not added to the percentages until the bond allotment has started. He added that of the 259 men in the outfit, about 120 out on maneuvers have yet to be contacted.

Other board members are: Act. MSgt. Robert J. Martin, Sup. Co.; Act. GySgt. Gerald Bowman, Bulk Fuel; and Act. SSgt. Charles Finch, Hq. Co.

CAPT. JOHN B. LIPPARD
... New Base 150

Capt. Lippard Named Base Info Officer

Capt. John B. Lippard has assumed duties as Informational Services Officer, Marine Corps Base.

Captain Lippard served as Informational Services Officer of the 1st Marine Air Wing, Iwakuni, Japan, prior to this assignment.

A veteran of 19 years service in the Marine Corps, he has been in the informational services field since 1946. He received his commission in 1952 following 12 years of enlisted service.

Captain Lippard has also served as informational services officer for the 3rd Marine Aircraft Wing, El Toro; Marine Corps Recruit Depot, San Diego; and the Fourth Marine Corps Reserve and Recruitment District, Philadelphia.

The captain was in the Philippines at the outbreak of World War II and participated in the defenses of Bataan and Corregidor. He spent 41 months as a prisoner-of-war in the Philippines, Manchuria, and Japan. Decorations and medals include: Purple Heart, Army Distinguished Unit Citation with Oak Leaf Cluster, Silver Life Saving Award, Philippine Defense Medal, Philippine Presidential Unit Citation and four Enlisted Good Conduct Awards.

Captain Lippard is married to the former Miss Bonnie Jo Vanney of Yuma, Ariz. They have five children and are currently residing in Swansboro.

Copter Pilot Invents New Safety Feature

WASHINGTON (AFPS)—A marine major has patented a pocket computer for helicopter pilots that makes possible quick calculation of proper load, a prime factor in the safe operation of helicopters.

Maj. Archie J. Clapp Jr., himself a helicopter pilot, had noted that any payload is affected by temperature, altitude, humidity, wind, distance and ground speed.

With the new computer a pilot moves a series of dials accounting for all payload factors and in a minute or two can calculate what he may safely carry.

Previously used methods involved several charts and computations and the transfer of data from one chart to another.

CAMP LEJEUNE GLOBE

The Camp Lejeune GLOBE is the official publication of Camp Lejeune, N. C., and is published in the interest of Marines, Navy personnel and their dependents.

MAJ. GEN. JAMES P. RISELEY

The GLOBE is printed by The Mount Olive Tribune, Mount Olive, N. C., at no expense to the government, being financed by non-appropriated funds from the Camp Special Services Office at the direction of the Camp Recreation Council. It complies with Paragraph 17107, Chapter 17, Marine Corps Manual.

The GLOBE accepts no advertising. It is delivered free to service personnel of this Camp every Thursday. It has a circulation of 20,000 this issue. Subscription rates payable in advance, \$2.60. Address Circulation Manager, The GLOBE, Marine Corps Base, Camp Lejeune, N. C.

Road Courtesy

Why not try a little more courtesy on the highway next time you're in the driver's seat? It costs so little and can save so much. As a pedestrian, most of us make courteous gestures to one another in our daily encounters.

It might be a greeting, a salute, or a tip of the hat. Even at a busy doorway, one person will usually step aside to let another pass, if only to avoid physical contact.

How much safer our highways would be if we would use more of that policy when we get behind the wheel of a car. Think of the physical contact that might be prevented among precious lives and expensive cars.

Next time a car attempts to pass, a sensible gesture would be to ease off the accelerator and help it get by. Until the other car is safely by, both cars are in a dangerous position.

On most cars, a flick of the finger will show where you are going to drivers in front and to the rear. Most drivers will appreciate and respect your signal.

Many attempts at hand signals indicate nothing more than the fact that the driver's window is cranked down. A little more effort on the part of us, the driving public, will help protect all.

Leadership

Readiness and efficiency are the ultimate goals of every organization and to attain these ends, the qualities of good leadership must be stressed continually.

We of the military are confronted with the ideals of good leadership during each passing day.

Cooperation in peace and combat stems from the efforts exercised to influence actions of other men through proper guidance.

Remembering that men in every unit look to their officers and NCO's for leadership, each leader should strive to understand the problems of his men and attempt to offer a solution for satisfactory ends.

The task may seem unnecessary and trivial at times, but it is a job that must be performed faithfully if full cooperation and harmony are to be achieved.

Our country is defended by the men who are trained each day by the leaders in the service.

WASHINGTON REPORT

NEW YORK (APFS)—Selective Service Director Lt. Gen. Lewis B. Hershey thinks that men rejected for military service should be formed into a special training corps to help their communities in the event of nuclear attack.

In an article written for General Press International, General Hershey said draft records show that nearly 3,000,000 men have been rejected at this time. But "their rejection today under high standards does not mean that these men would not be used in an all-out mobilization.

"It does not mean that they have nothing to contribute to the defense of their nation."

General Hershey, who has worked with the problems of military manpower for more than two decades, emphasized that the majority of draft rejects "are carrying on useful, active lives. . . . Only because of some isolated deficiency which hampers them not at all in civilian life are they at present unacceptable to the military forces.

"These men," he continued, "from whom no other service in national defense is now being exacted, constitute a reservoir of manpower which with training could furnish reason for military action. . . . There are others too. The military forces are not using fathers."

Chaplain's Corner

THE GULLS

Have you ever watched the gulls fly? They beat their wings to get into the wind and then they let the wind carry them along. They do not fly against the wind. They go with the breeze.

But don't we, so to speak, fly against the wind? Don't we try by foul means to get fair results? Aren't we callous to others, expecting others to be kind to us? Don't we complain of the very faults in others which we practice ourselves? And isn't all this a hopeless attempt to fly against the wind?

For life has a grain—and that grain is justice. Every attempt to go against that grain will, in the long run, end unhappily. One does not rub his hand against the grain of a piece of wood without picking up splinters. It is the same with life. For just as every piece of wood has its grain, just as every screw has its thread, just as every river has its current, just as every creature has its nature, so life has its law.

Life is not a jungle which we must hack our way through. It is a highway system of law. It is not overgrown by chance. It is planned by God.

Let the gulls be our example. And may we go with the current of reason, with the thread of truth, with the grain of justice, with the law of love.

—Norman Hirsch,
Chaplain, 2nd Division.

The Old Corps

Today, 1899 — Marines ashore at Bluefields, Nicaragua.

Friday, 1928 — Battle of Bromaderos, Nicaragua.

Saturday, 1945 — Marine aviators cover Army landing, Palawan, Philippine Islands.

Sunday, 1944 — Marines captured Parry Island, Eniwetok and the Marshalls.

Monday, 1776 — First amphibious raid, New Providence, Bahamas.

Tuesday, 1924 — Marines land at Puerto Cortez and Tela, Honduras.

Wednesday, 1895 — Marines land at Port-of-Spain, Trinidad.

Short Rounds

A marine jet fighter plane accidentally dropped explosive practice bomb on an empty Japanese facility at Iwakuni recently. The marine pilot apologizing that it wasn't his company, but the Marine Corps said it wasn't a lug holding the bomb in its rack gone way.

A marine officer, formerly an enlisted abroad the aircraft carrier USS Boxer, returned to his old ship last month after a 12-year absence. Capt. Robert E. O'Neil first served aboard the Boxer in 1947 as a Navy enlisted aircraft traffic director. He is now a marine aviator with the Landing Force training aboard the carrier in the Caribbean waters.

A radio fan all the way from Australia is very unhappy because she can't pick up the weekly radio show from San Diego Recruit Depot. In a letter to San Diego's band director the short wave fan expressed her sorrow that she no longer received the show. The Diego band director CWO LaRocco has no idea why the lady from down under the program at the present as the shows are through the facilities of the Armed Forces Radio.

Roger T. Carleson was just as proud as any father when his son recently finished Navy boot camp at Lakes, Ill. But everyone at the Navy Training Center betting that Carleson wished his son was ending Marine boot training. Why? Roger T. Carleson is a brigadier in the Marine Corps.

The Cherry Point Air Station's overhaul department now has the Navy's first and only Sea Auxiliary Gas Turbine, Gas Turbine Air Starter and WE-34/36 Turbojet maintenance school in the States. The 320-hour school trains Navy and Marine personnel as well as civilians.

The Fleet Marine Force Pacific Drum and Bugle Corps from Hawaii ended a 10-day visit at Manila, P. I., on their first leg of a two-month Far East tour. While the team performed at various universities and military installations in the area.

AL Instructors' Aid For 6th District

Training Aids Library not only serv-
ols and training NCO's throughout
-Command, but also provides film,
sound equipment to the entire 6th

22-man section carries out its mis-
two main departments, an up-to-
library and an informal projector
school.

ed by Act. MSgt. Gerald W. Fiegle,
affed with a 14-man art department,
an film section, a sound equipment
in, a unit stockman and a clerk-typ-

SSgt. William W. Robinson is in
f TAL's largest section—the art de-
t. At long rows of lighted drawing
marine illustrators copy maps, design
nd prepare a wide variety of other
devices.

section has a complete file of charts
ons, tactics, drill, first-aid and other
subjects. Often the art department
on to make special training aids and
le illustrations for lectures and meet-
-addition, most of the signs around
ejeune are painted and lettered in
y section.

ie film department, a complete and
orary library of training movies is
ed. Incoming and outgoing films re-
rough inspections here. When a reel

of film is run through the section's "inspection
machine," it is checked for sprocket hole
defects, thickness and number of splices.

In addition, footage is counted and the
film is cleaned. All of these checks are made
in one run-through. The machine also has an
attachment for rewinding.

TAL maintains a supply of the latest, larg-
est and sometimes unusual training devices.
Newest among these is a schematic demon-
strator of a telephone system. Operating
transparencies of the M-1, 45 cal. pistol, op-
erating group of the .30 cal. machine gun and
slide rule are also available for check-out.
The movable transparencies are designed for
use with the opaque projector.

Among the more interesting training aids
at the library are cut-aways of basic infantry
weapons, which must be cleaned frequently
—just like normal firearms. These weapons
actually operate, but with exterior coverings
removed, internal operating parts are easily
visible.

Act. Sgt. Karl W. Staiger is the library's
sound equipment repairman. The sergeant
also repairs and maintains the projectors
and is the section's instructor on projector
operation. The class is provided each week
for all Lejeune units who wish to have basi-
cally trained projector operators for their
training classes and other unit activities.

INCOMING JOB—Act. SSgt. John A. Towle, left, an instructor at 2nd Service Bn. GMST school, gives job specifications for "up-scaling" a textbook map to classroom training proportions to Act. SSgt. William W. Robinson, center, and Act. Cpl. Jackie S. Foster.

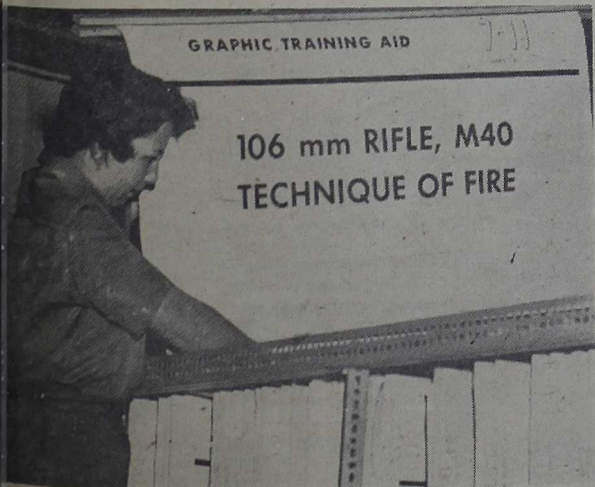

WAYS—Pfc John Caiazzo cleans weapons in the stockpile of infantry training aids.

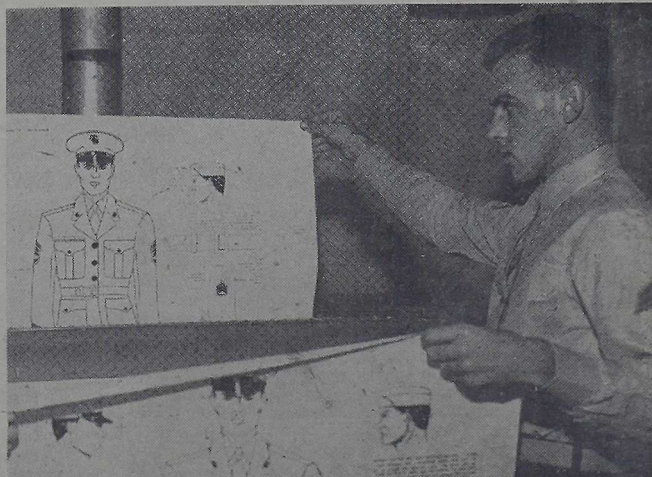

PROJECTOR TECHNICIAN—Act. Sgt. Karl W. Staiger, sound equipment repairman, replaces a worn armature in a 16mm projector.

ILLUSTRATOR—Pfc Robert D. Reynolds makes the final copy of a technical communications chart from a rough copy.

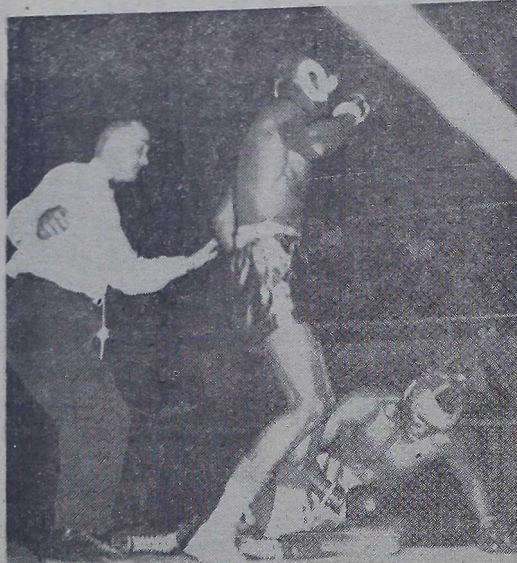

FILE—Pfc Ann Lynn Knowles, returns a graphic training aid chart to the file of hundreds.

ORIGINAL AND COPY—Act. Sgt. Paul J. Payne reproduces a copy of a "personal appearance" reminder on the ozalid machine. The transparent original below leaves an imprint on the chemically treated "bulletin board" copy.

Lejeune Scores Unanimous Decision

Quantico Tagged With Defeat As Locals Avenge

OH! MY ACHING HEAD—Camp Lejeune's Jerry Eley stands over John Almond of Quantico after sending his opponent to the canvas at 2:54 of the final round. The bell saved Almond as the unbeaten Eley received a unanimous decision from the judges. Moving into action is referee Curtis Wade. While Eley was taking his 10th straight, the Lejeune stable was tagging the visiting Virginians with a 9-0 blanking, reversing an earlier loss to Quantico.

Not since the Thanksgiving Day football game has Quantico had a victory so satisfying as when Lejeune boxing team rapped out a unanimous decision over the visiting Virginians at the Goettge Memorial gym Monday night. Not even St. Nicks or the Garden had

a better show to the spectators as the local pugs avenged their only defeat of the season with a 9-0 shut out victory that brought their record to 8-1.

Ringsiders had a hard time judging the best bout of the night. Leaving little to be desired was the Billie Hailes vs Bill Vicks slugfest that saw the 139-pound Lejeune All-Marine throw every left in the book with a few rights mixed in on the combinations. However, Vicks had his own tune working as he was able to absorb Hailes' punching leather right to the final bell. Hailes was awarded a unanimous decision.

In another pier six brawl, Luchion Green, 165 pounds, was matched against former two-time All-Marine Eugene Wright. The less experienced Green played the script to the letter, coming in low on his taller opponent and hitting with a solid left. Wright

was hanging on at the end of the three judges giving the decision to the Lejeunite.

Jimmy Flood competed for Ron Delany for the championship honors as he chafed for three rounds of pound scrap. The class in command the rounds working effective combinations and all the time to catch up with the tactics of his opponent. It was Flood by a unanimous decision and his seventh campaign.

In another 165-pounder Lejeune's unbeaten Jerry Eley was the right moment in combinations against Almond until the final bell. Eley threw a terrific left 30 seconds remaining in the The Philly blaster reared 2:54 left, decking Almond bell saved the Virginia unanimous decision was

At 132 pounds, Blackie Zangler returned to the Lejeune after a three-year absence after a split decision with Roger Goedert. Zangler exhibited a great deal of savvy for the first time. However, with Goedert's body attack and the local pug running out of steam, Blackie (Continued on Page 5)

ITR Smoker Features 15 Second KO

A 15-second knockout and a come-from-behind TKO highlighted action at the 1st ITR boxing smoker last Wednesday night in the Goettge Memorial field house before 2,500 fans.

J. C. Leichty of Toledo, Ohio, never threw a punch as Tony Lewis, Cleveland, Ohio, battered him with rights and lefts, knocking out the 127-pounder in 15 seconds of the first round in the initial bout of the 10-card fight.

Knocked down twice for the mandatory eight-count, Riley Byers, Owsnboro, Ky., literally came off the deck in staging a terrific comeback, finally sending Edgar Shaffer to the canvas as the bell ended the second round. Shaffer, a 158-pounder, was unable to come out for the final stanza.

Receiving the Outstanding Boxer Award was Bill Weir, New Castle, Pa., who stalked Herman Taylor all over the ring and finally caught the New York City native with two stinging lefts at 1:45 of the third round. Referee Wade Curtis stopped the fight with Weir winning via a TKO.

Barry Dakin of East Hartford, Conn., caught Jimmy Neal, Farrell, Pa., with two lefts and a right hook at the end of the second round. With Neal unable to answer the bell, Dakin was nodded a TKO.

Memphis' Larry Brooks scored a third round TKO over Dennis Marsh in the semi-final bout. With one minute gone in the final stanza, Brooks rocked his 197-pound opponent with four straight rights, scoring another knockdown. Referee Curtis stopped the fight at 1:40.

In other action, R. F. White, Springfield, Ohio, won by a split decision over Charley Hawks, Memphis, Tenn.; Joe Paolevii, Plattsburg, N. Y., took a split nod from Clarence Glenn, Waterbury, Conn.; Fred Phillips, Brooklyn, N. Y., lost a split decision to Fred Jenkins, Johnson City, Tenn.; Francis Madden, Albion, N. J., dropped a split decision to Melvin Couch, Philadelphia, Pa.; and in the final, Earl Holmes, Washington, D. C., beat out a split decision over Ullyses Harris, Philadelphia, Pa.

ITR will sponsor another smoker on April 3 in the Goettge gym at 8 p.m.

Pups Ousted From Onslow County Play

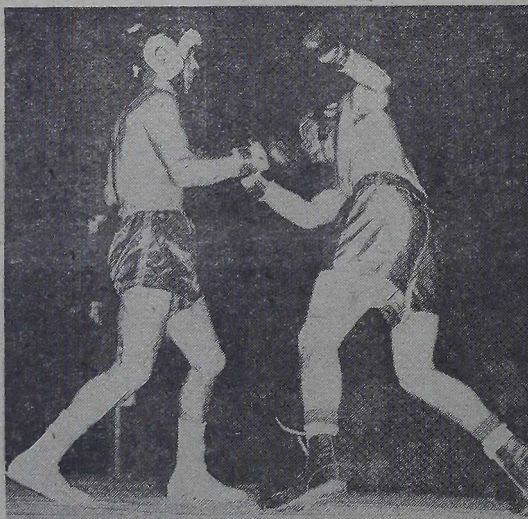

The Camp Lejeune Devilpups concluded their season last Tuesday night as White Oak eliminated them from the Onslow County Tournament, 53-31, at Richlands High. The girls also lost as Swansboro came out on top of a 62-55 score.

The Pups were only able to keep it close through the first period, but quickly faded in the second quarter with the winners taking a 26-15 halftime lead.

Defensive standout for the losers was Louis Boynton who held White Oak's star, J. W. Banks, to just one field goal. Offensively, Art Potts paced the locals with 10 points.

The girls, playing their best game of the season, were paced by Jo Brickley's 27 points. The Lejeunite hit on 13 floor shots and one charity toss. Cheyenne Shelton had 15 for runner-up honors.

Lejeune and Swansboro ended first quarter play with 10 points apiece. The Pirates went ahead at the half, 34-17, but then spent the entire second half, warding off the locals' rally as Lejeune tallied 19 markers in both the third and fourth stanzas.

WATCH THE RIGHT—Blackie Zangler prepares to slam Quantico's Roger Goedert in their 137-pound clash Monday night at the Goettge arena. Zangler was decked in the third round for the mandatory eight-count but weathered the storm. The local pug received a split decision after piling up points with a classy boxing exhibition in the first two rounds.

Wrestler 26-11 Defeat On Va. State

Virginia State (left) victim to a traveling Camp Lejeune wrestling team last day as the local matmen up their fourth win in the campaign, snapping a pure losing streak.

Dave Peterson, St. Louis, performed an iron man act in the 26-11 victory as he won in two events, taking the decision in the 137 class. He came back to register the pin of the night in 14 seconds. Peterson stopped Hal with a half-nelson cross body 50 seconds recorded of the

Dick Brittain, wrestling pounds, put the finishing on Duane Fisher at 10 into the second period, ending a chicken wing and nelson.

Heavyweight Lynn echoed "Hippo" Farrar a 45 of the second stanza, and Lejeune win was chalked up Battiston who won by a 177-pound match.

George McCreary, 120-pounder, dished Jim Hallway. Carroll Campbell and Beckowitz dropped decision collegiates while Henry R pinned.

Coach Phil Hayes is 1st Lt. Fred Campbell who led his tour with the Marine Coach Hayes wrestled two Fairmont State colleges.

Additional tryouts have slated for Monday and through the week. It is hoped candidates desiring to with the team will hold weight classes in preparation for the All-Marine to be held March. Anyone wishing to out with the local club should report Monday at 1 p.m. at the gym.

Javelin Throwers, Shot Putters Needed By Track Team; Open With Springfield

Coach Gary Gilson put out the call for experienced javelin throwers and shot putters as the second week of track screening got underway Monday. Working with 60 candidates, the former Dartmouth

trackman has urged that all service personnel reporting aboard and desiring to try out for the team, contact him at the Goettge Memorial field house.

Bessie Boyer, Rodweller Take Top Tourney Honors

Members of Camp Lejeune's WGA participated in an invitational tourney at the Pine Valley CC, Wilmington, last Tuesday. Individual honors were taken by Bessie Boyer and Flo Rodweller, winner and runner-up, respectively. Ione Everett captured the least putts prize.

In the second flight, Jan Faber came home the victor while Val Pomasello was runner-up. Hap Haight and Mary Dyer tied for least putts.

Pat Folsom took third flight honors. Mary Fremenko and Elaine McRea knotted for second place. Least number of putts was taken by Joyce Bandyke.

Tuesday, coach Gilson plans to cut his squad to 30 runners and weightmen. This year's club will open against Springfield college on March 26 at Liversedge field. Included in the schedule are dual meets with Ft. Lee and Cherry Point, both here. A triangular meet with N. C. college and N. C. A&T has been set for March 28.

The team will also participate in two carnivals, the Quantico Relays and Penn Relays. These two events annually attract some of the finest talent in the world.

Camp Lejeune pitchers last year threw 16 shutouts in 101 games. Seventeen additional contests resulted in Marine chuckers allowing only one run.

OUTSTANDING FIGHT AWARD—Pvt. Bill Weir, "Q" Co., 3rd Bn., 1st ITR, receives a Times self-winding watch from Col. Richard D. Strickler, commanding officer, 1st ITR. Private Weir was awarded the watch on performance in the ring as he slammed out a TKO over Pvt. Herman Taylor, "O" Co., 2nd Bn., in ITR's boxing smoker last Wednesday night at the Goettge gym.

Marines Win Atlantic Fleet Cage Title; ServLant Stopped

By PFC RICHARD J. BOLAND
Sports Publicist

The Camp Lejeune cagers, representing the FMFLant, defeated ServLant, 62-52, Friday night at Charleston, S. C., to cop the U. S. Atlantic Fleet tournament.

It was the second time in three days the locals had beaten the runner-up ServLant aggregation in the eight-team double-elimination tourney.

The Marines, who posted a perfect 4-0 slate in the tourney, fought their way to the finals with wins over SubLant, 82-33; PhibLant, 58-50, and ServLant, 72-71.

Rick Benson led the well spread out offensive attack on the final night with 15 points. John McKenna and Don Greiner followed with 14 and 13, respectively, while Ed Peterson chipped in 11.

Mitch Mitchell, 6'3" ServLant forward voted MVP of the tourney, was high man in the game with 18 points.

After trailing, 22-21, with seven and a half minutes to go in the first half, each of the five Marines on the court at the time contributed to a nine-point spree which eventually gave them a 32-24 intermission lead.

Jump shots by Angelo Cuttaia, Benson and Greiner, a tap-in by McKenna, and Peterson's free throw gave the Marines a 30-22 edge with 1:50 remaining in the half.

Greiner tallied seven points in the first seven minutes of the second half, and the locals surged ahead to their biggest lead in the game, 45-30.

ServLant rallied back to a 51-

46 deficit with 4:27 left in the tilt, behind the jump shooting of Mitchell. The Marines dampened the ServLant fire in the next two minutes when McKenna hit on a free throw and Greiner and Dick Meade connected for two more buckets.

The most exciting game of the tourney, however, was the win over ServLant last Wednesday night which put the locals into the finals on Friday.

Both teams entered this tilt with 2-0 records, and a win at this point had a vital bearing on the remainder of the tourney. The winner would draw a bye on Thursday and be well rested for the final encounter Friday, whereas the loser would have to sweep by two other clubs with 2-1 marks Thursday morning and evening.

After taking a 37-33 halftime lead behind the sharp-shooting of Greiner who tossed in 17 points, the Marines dropped the lead and found themselves on the short end of a 68-57 count with only 5:20 remaining in the game.

With the pressure on, Lejeune's two big men, 6'7" McKenna and 6'6" John Ritch rebounded magnificently off the offensive boards and scored tap-ins and layups to close the gap to 69-66 with 2:50 remaining.

Then the little men took over. Meade, a 5'9" guard, hit on a drive at the 2:00 mark. With 1:30 to go Frank Turpin of ServLant injured the Marines' hopes with a jump shot which opened the gap to three once again, but Meade scored a 25-foot set shot with 55 seconds on the clock.

Then Lejeune recovered a loose ball and Greiner, who was high man for the night with 24 points, threw in a 20-foot jump shot with 33 seconds left to pull out the victory.

JOHN RITCH
... Helps Pace Winners

Cherry Point Loses To Marine Quintet In Conference Final

The Camp Lejeune basketball team turned their last East Coast Conference game into a successful one as they downed the Cherry Point Flyers, 64-58, in a game last Sunday afternoon at Goettge Memorial field house.

The locals, who now own a 33-15 season mark, finished up in the conference with a 6-6 record, good enough for a second place behind

The local Marines suffered their 16th loss of the season Monday night as the Ft. Eustis Wheels pinned a 97-67 defeat on the visiting Lejeune quintet. John Ritch's 18 points paced the Marine attack. Ed Peterson and Charley Buechlein bucketed 13 and 12, respectively.

undefeated Quantico. Parris Island finished third at 57, while Cherry Point was the cellar-dweller with one win in 12 games.

After leading at intermission, 33-28, the locals built up their biggest margin after nine minutes of the second half, 50-38. Twice thereafter, the Flyers threatened but couldn't close the gap to less than five points.

Don Greiner paced the local attack with 14, while Angelo Cuttaia added 12. Flyer Don Holman took high scoring honors for the day with 20 points.

Lejeune will wrap up the 1958-59 season with a two-game series against the Ft. Gordon Signalers tonight and tomorrow night at Augusta, Ga.

CLUB ACTION — It appears that Lejeune's John Mc-41) just stopped SubLant's Russ Emerald (23) from scoring by means of a left hook to the jaw. Actually, Emerald had won an offensive rebound in the opening round of the Atlantic tournament at Charleston, S. C., last week. The Marines kept four straight games to cop the championship, defeat-4) in the finals Friday night, 62-52.

Final Plans Under Way '59 Baseball Opener

The final cutting sessions in back of them, coaches McGowan and Curt Salyer have begun making final preparations for the first road trip of the campaign. On March 1,

Lejeune baseball team will depart for Albany, Ga., where they will workout for a week following week, the Marines against Rollins College.

The initial trip of the Lejeune coaches have on several inter-squad games the first set for tomorrow at the practice field.

Further, the Lejeune infield will be the last year's veteran Charley Armstrong, Hal

Golf Slices

By JIM BUTLER

Spring still remains slow and the wishing to make the Azalea Tournament at Charleston, S. C. Several of our golfers have been turning in some fine scores. Among the winners are Joe Moore, Dinga, 71; and Phil Ed-72.

Courses have been in fine fettle but the rain has softened the ball so that the extent of ball scores must be in the greens.

Though the system of the ball rack on the first has been used for quite some time, it seems some golfers fully understand how it

do upon reaching the rack. When the ball is dropped from the rack, the ball will reach the bottom of the rack. The standard note on this. The standard note on this. The standard note on this. The standard note on this. The standard note on this.

Norton and player-coach Salyer. Newcomers include Pete Hofinga, Stan Jackson, Dick Meade, Jim Riley and Paul Rosky.

Hofinga broke into service ball with Pensacola Navy in 1957. Last season, he was at Quantico where he hit .285 while playing first base. Hofinga picked up his playing experience at Springfield college.

Jackson is a veteran service player. In 1952 he hit .290 at Hawaii while holding down second base. The following year, he averaged .300 with Guam and in 1954, he played at Quantico where he had a .287 mark.

Meade finished off his college career at Cornell university where he won nine varsity letters, the first athlete in the school's history to record this feat. In his last year, he hit .319. He has seen two years of competition at Quantico with both the baseball and basketball clubs. Meade also played on this year's Lejeune quintet.

Riley, a St. John's university product, hit .392 in his last season there. This will mark his debut in service ball. Rosky, also a newcomer, averaged .400 for three years while playing shortstop and third base at Calvert Hall high school in his hometown of Baltimore, Md.

Lejeune's two catchers are Homer Hobgood and Barry Fullerton. Hobgood, an All-Marine and All-Sea Service selectee with the 1958 football team, caught four years at Elon college. Fullerton, a first year man, played four seasons at Michigan State university.

Finn Team To Perform At 8 Tonite

The internationally ranked National Finnish Gymnastic team will put on an exhibition tonight at the Goettge Memorial field house, beginning at 8 p.m.

Tickets, selling for 25 and 50 cents, may be obtained at the Main Post Exchange, Base Athletic Office and at unit special services.

Included in the program will be exercises and rhythmic dances. With the touring group are concert pianist Elsa Aro and Yrjo Ikonen, baritone from the Finnish National Opera.

DIVISION CHAMPS—Brig. Gen. Sidney S. Wade, assistant Division commander, presents the 1959 2nd Marine Division championship basketball trophy to 1st Lt. Joseph Caputo, coach of the Second Marines. The Second Regiment, led by James

Allen, left, who was selected as the Outstanding Player of the 1959 Division Tournament, and Ed Smith, right, defeated the Tenth Marines in the finals Friday for their third straight Division crown.

Second Marines Win Third Straight Division Basketball Championship

The Second Marines, their backs to the wall, defeated the Tenth Marines twice Friday, on fantastic shooting by Jimmy Allen and the all-around play of Ed Smith, to capture their third straight 2nd Marine Division basketball championship.

Beaten, 77-61, by the Tenth Wednesday, the Second Regiment stopped the Tenth, 67-49, Friday afternoon at Goettge Memorial field house after trailing by 15 points, and scored

again Friday night, 64-57, to lock up another title. The Tenth could have won the championship by taking either of the two games.

The Second Marines battled into the finals with a 75-71 win over the Sixth Marines Thursday. The Tenth, unbeaten in three games before Friday, automatically gained the finals on their Wednesday victory.

Allen, shooting one-hand and two-hand pushes from as far as 30 feet out, and swishing most of them, scored 24 points in Friday's afternoon triumph and 12 in the night win. Smith, a fine passer, superb rebounder and the tournament's leading foul shooter, had 16 in the afternoon and 19 in the night game.

Scoring 111 points in six games, Allen was selected by tournament officials as the week-long event's Outstanding Player. Only his spectacular shooting—better than 50 per cent from the floor—enabled him to beat out Smith, however.

A high-jumping 6'3" center, Smith controlled the backboards for the Second throughout the tournament, made 26 of 31 foul shots in six games, and reserved his best scoring performances for the final two contests.

Both clubs were cold at the start of the championship game Friday night, and the Second led, 8-7, aft-

er eight minutes of play. The Tenth pulled out front, 23-21, on five baskets, by Dave Kuchta, but a two-hander by Allen, two baskets and a free throw by Smith, and foul tosses by Bud Peete and Allen gave the Second nine points in succession and a 30-23 lead.

The Tenth Marines narrowed that gap to 30-27 at the half, and to 30-29 at the start of the final 20 minutes. But clutch-shooting Smith again sank two baskets and a free throw, Peete hit two push shots and two foul tosses, and Linwood Cox scored on a jump, while the Tenth was mustering one lone field goal. That made it 43-31 with 5:45 gone in the second half, and the Tenth never again came closer than five points.

Peete, a substitute for five games, played all the way in the title game. He scored 15 points and grabbed several rebounds. Kuchta led the Tenth with 24 points.

Down 23-8 after 10 minutes of the afternoon game, one they had to win to stay in the running, the Second Marines made a terrific comeback, outscoring the Tenth, 59-26, for the last 30 minutes of play. The Second closed to within three points, 32-28, at the half, and outpointed the Tenth, 38-17, in the last half, with Allen hitting for

14 points and Smith for nine.

Pete Irvin's 12 points topped the Tenth.

The Second Marines beat Group II, 71-49, the Eighth Marines, 70-63, and the Sixth Marines, 75-71, in addition to the three games with the Tenth. The Tenth Marines stopped 2nd Serv. Bn., 89-60, the Sixth Marines, 65-61, and beat the Second in their first meeting to reach the finals.

WM's Lose To Quantico; Beat HQMC

An improved Red Raider team came within six points of defeating a visiting Quantico sextet Saturday, 48-42, and then came back to win by 10 over Henderson Hall, 49-39, behind the fine shooting of Pat Wiggins who bucketed 26 points.

In a see-saw battle against the Virginians, the Raiders led after the first quarter, 14-10, at the half, 24-23, and after the third period, 37-34. However, Quantico changed to ball control tactics with three minutes remaining. The visitors piled up a quick nine points while holding the locals scoreless.

Wiggins tied Betty Simms of Quantico for scoring honors as each accounted for 20 points apiece.

In their game against Henderson Hall, the Raiders enjoyed a 23-16 intermission lead and had little trouble winning their fifth game of the year. Wiggins' 26 markers led all scorers while Elsie Stevens, former Lejeune player, had 21.

Lejeune Blanks Virginians At Goettge Gym Monday

(Continued from Page 8)

finally swung the right punch in the third round, landing a short right to Zangler's head at 1:40 for a mandatory eight-count. Zangler weathered the storm as Goedert tried desperately to set him up for the kill.

Rocky Fiorentino won his fifth straight by a close unanimous decision over southpaw Harold Johnson in a 125-pound match. The tall, lanky Johnson never let Fiorentino

effectively work inside until the final when the Boston slugger came to life, slamming the tiring Johnson at will in the last minute of the bout.

All-Marine Jerry Moore, 112 pounds, began the night's action with a split nod over Lyle Faughn. Moore carried the attack to Faughn putting on a classy show of boxing skill. Faughn, a better fighter, came back strong in the late portion of the final round.

Bobby Tuell (119) rapped out a unanimous decision over Nat Coleman. Tuell was in complete command from the opening bell, cutting Coleman's eye in the second round. The loser ran into serious trouble in the third with Tuell hitting at will.

John Williams lost a unanimous decision to Lejeune's Dick Gilford in a slow-moving encounter. Gilford, weighing in at 147, worked in flurries, banging out his sixth victory.

ROD AND GUN CLUB

Col. C. O. Totman will speak to members and guests of the Camp Lejeune Rod and Gun club at the next scheduled meeting, March 13, at Marston Pavilion. Highly experienced in the field of conservation, Colonel Totman is a special assistant to the Secretary of the Navy.

Act. Sgt. William Smith

BASKETBALL The 1958-59 basketball season is drawing to a close. It should be noted that along in that surge, one of the regulars not injured, the team went on a winning streak paced by Rick Benson. The quiet finished second in the East Coast Conference with a impressive 6-6 record. However, the fact is that the losses were the results of Quantico's work and the Island's. The latter defeats came in the early part of the season and the local Marines had their revenge at last.

To lose to Quantico, however, can be no consolation for reporters in the Virginia area are tabbing it as the best ever to represent that base.

BOXING Assorted notes taken from the Quantico-Lejeune boxing scene Monday night: Jerry Moore pitted old friends against one another. Both fighters were born and raised not two doors from Philadelphia, Pa. Bobby Tuell's win over Nat Coleman was much sweeter for the Philly dandy as it reversed a split decision loss to the Quantico pug in their first meeting this year.

Jerry Moore's decision against Lyle Faughn was the second one this season for the Lejeune pug. The pug's "award" for the night would have to go to Quantico's Vicks, who took everything Billie Hailes threw at him and yet Vicks never once conceded defeat, as he was there trying all the time.

Blackie Zangler, who took a split over Roger Moore fought here in '56 under Pete Benson's direction and recently came back into the Marine Corps.

Coach Ray Rogers' comment after the match, "my fighters worked well. Four didn't." It would be interesting to visualize what would happen if all nine went all-out, after blanking Quantico, the only team to beat the Lejeune team.

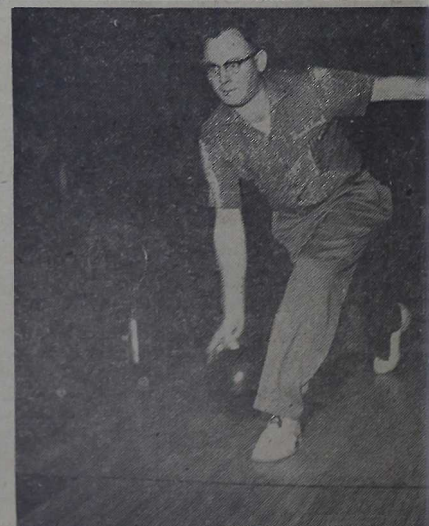

Both clubs will meet again in the All-Marine boxing tournament on the subject of boxing, a recent Jimmy column, The Powerhouse, quoted Frank Morris, a police officer who has been a fixture as a Golden Gloves champion since 1933, as stating:

"Boxing will always be with us, whether it is underground or not. Boxing is the most popular sport with the armed forces. Our soldiers and sailors love it without other sports, but they always vote overwhelmingly for boxing, both amateur and professional.

"They argue about the respective merits of the two sports. They make small wagers on black trunks or white trunks. But they talk boxing around the clock and support the installation I ever visited."

Crowds at the Goettge gym have been off and on since the son. The team will be home for one more display before going to the All-Marine. Next week, days beginning Monday, the Atlantic Fleet will bring a team to camp.

It would be nice to see the gym filled to capacity for a single night. For those who will miss the event, they can see their last chance to view a team which will be competing for their seventh straight AllMar title, and who are top contenders for the Inter-Service crown.

TOP DIVVY KEGLER—Frank Beach, 1958 All-American champion, led almost 50 bowlers into the 2nd Marine Division bowling tournament which began Tuesday at Camp Lejeune. Beach's 197 was the individual high in the 1958 tourney. The 119 was his end today.

WASHINGTON (AFPS)—A three-stage Vanguard rocket fired from Cape Canaveral, Fla., February 17, has launched the world's first weather satellite which may orbit "forever."

Heralded as man's first step toward continuous weather mapping of the earth, the highly instrumented 21½-pound satellite—the size and shape of a beachball—is expected to transmit previously unattainable data on cloud formations to ground tracking stations for about two weeks.

The cloud cover probe, the sixth scientific "moon" put in orbit around the earth by the U. S., was launched under the direction of the nation's new civilian space agency, the National Aeronautic and Space Administration (NASA), which took over Project Vanguard from the Navy last October.

Although the weather instruments will have a relatively short life, D. T. Keith Glennan, NASA administrator, said, "As far as our scientists can tell now," the new satellite named the Vanguard II, "may remain in orbit forever."

Thus the moonlet, 20 inches in diameter, will travel in a virtually endless path stretching out 2,050 miles at the farthest point and approaching to within 335 miles of our planet, making a complete circuit every two hours and six minutes.

Vanguard II's "weather reports," however, will be limited to an area between the Equator, where it passes through Central America, and 40 degrees North Latitude (on a line with Philadelphia, Pa.).

The cloud-mapping instruments jam-packed into the stainless steel sphere were developed by the Army's Signal Research and Development Laboratory at Ft. Monmouth, N. J.

The instrumentation includes both tracking and cloud data transmitters and a magnetic tape recorder which operates when photo cells in two small windows on opposite sides of the satellite are scanning the sunlit side of the earth.

The Minitrack transmitter, powered by mercury batteries, has an expected life of four weeks; the weather data devices, two weeks, according to NASA scientists.

Sensitive to the sun's reflective differences on land, sea and clouds, the photo cells pick up measurements representing these reflections and transmit them into electrical impulses which are stored on the tape.

Solar cells, tucked behind the gridded, three-inch windows, operate a switch which halts the tape when Vanguard II is in the shadow of the earth, thus conserving battery power.

When the satellite passes over the appropriate tracking stations, the information stored on the 50-minute tape is triggered by a signal and transmitted to the ground in one 60-second burst. The data then is erased from the quarter-inch plastic ribbon and the system is set to record again.

This information will be fed into an electronic complex at Ft. Monmouth which will transform it into crude photographs. These film strips then will be fitted together in the manner of aerial photos.

Weather experts eventually expect to be able to spot hurricanes in the Atlantic and typhoons in the Pacific as the process advances and make long-range forecasts not possible at present with the same degree of accuracy.

Camp Lejeune Master Menu

COBE will publish the weekly Master Menu for Camp shall as received and verified by the Base food center.

Minor changes are permitted such as the interchanging of and noon meals.

FRIDAY, FEBRUARY 27

illed fresh apples, assorted dry cereal, chilled fresh milk, eggs, oven-broiled bacon, hash browned potatoes, hot toast, butter and coffee.

od platter, cocktail sauce, lemon wedges, potatoes au gratin, Brien, salad bar, lemon cake pie, hot cornbread, bread, butter and coffee.

ir stew, crackers, cold cuts, roast beef, canned ham, bologna, sliced cheese, baked beans, macaroni salad, potato chips, salad tterscotch pie, bread, butter and coffee.

SATURDAY, FEBRUARY 28

illed pineapple juice, fresh bananas, assorted dry cereal, fresh milk, French toast, fried pork sausage, hot toast, butter, and coffee.

d pork chops, chilled applesauce, baked sweet potatoes, simmered sprouts, salad bar, chocolate brownies, bread, butter and coffee.

hetti with meat sauce, meat balls, buttered broccoli, grilled sandwiches, salad bar, oatmeal cookies, fruit gelatin, bread, and coffee.

SUNDAY, MARCH 1

orted fruit juices, chilled fresh apples, assorted dry cereal, fresh milk, fiddle cakes, eggs to order, grilled ham slices, oat syrup, butter, jam and coffee.

ed beef steaks, mashed potatoes, mushroom gravy, savory beans, buttered whole kernel corn, salad bar, ice cream, straw- shortcake with whipped topping, bread, butter and coffee.

MONDAY, MARCH 2

illed tomato juice, assorted dry cereal, chilled fresh milk, d beef, hash browned potatoes, hot toast, butter, jam and coffee.

d ham, raisin sauce, French baked potatoes, buttered green chilled applesauce, salad bar, pineapple pie, bread, butter and coffee.

LOST MISSILE
Here is a science fiction story for those who prefer weird action. The movie stars Robert Loggia and Ellen Parker and is completely out of this world. (70 min.)

TWO HEADED SPY
Stars Jack Hawkins, Gia Scala and Alexander Knox on a spy mission in Nazi territory. Hawkins, as a Nazi general, capable of carrying on a masquerade of loyalty to the Fuehrer, while piping information to the British on the location of supply depots under his control. Gia Scala plays the beautiful lover of Hawkins, who proves herself to be an equally important spy for the Allies, singing songs over the radio that can be decoded. (93 min.)

CITY OF FEAR
Vince Edwards and Lyle Talbot head the characters in this exciting and mysterious drama. (81 min.)

GIGI
This production was taken from the hit Broadway musical-comedy starring Maurice Chevalier, Leslie Caron and Louis Jourdan. It features several top musical selections and a lot of excitement and laughter as "Gigi" makes herself at home, no matter where she is, and spreads cheer and confusion. (116 min.)

THUNDER ROAD
Robert Mitchum heads the cast in this action melodrama. (93 min.)

NEVER STEAL ANYTHING SMALL
James Cagney, wisecracks, sings, and boots his way through this delightfully entertaining and often funny farce. (93 min.)

SONG OF BERNADETTE
Jennifer Jones, William Eythe, Charles Backler and Vincent Price star in this powerful return taken from the book by Franz Werfel. The story is made up of human elements including a slight romance, politics, envy, hate, humor and spiritual love. Based on the faith and courage of a young girl, the movie should prove tops with all audiences. (154 min.)

WAR OF THE WORLDS
A science fiction movie based on the weapons, communications and transportation of the future. Gene Barry and Ann Robinson star in this action-packed, color movie.

GUNMAN FROM LAREDO
Robert Knapp and Gene Moorehead head the cast of this typical western. The story features a gunman in the usual unsettled West, versus the law-abiding citizens who want to clean up the country. There should be plenty of action

and shooting with a touch of romance and humor to brighten the scenes.

THE BADLANDERS
This outdoor adventure finds Alan Ladd and Ernest Borgnine portraying a couple of adventurers who had known and disliked each other while in an Arizona prison, joining forces with Nehemiah Persoff, as a Mexican mining worker, to carry out an unusual robbery. Ladd, who has been a mining engineer, knows the secret location of a rich gold ore deposit in an "abandoned shaft." The catch is that the legal owners of the mine are working it in a section near the spot Ladd and his cohorts want to loot. (83 min.)

SUSAN SLEPT HERE
A comedy in color with laughter and love in very unusual circumstances. Debbie Reynolds plays Susan and wherever she goes there is turmoil. She comes to Dick Powell in the rain, under force, and as a juvenile delinquent of sort.

PLUNDERERS OF PAINTED FLATS
The movie stars John Carroll and Corne Calvert. No further information is available.

PARIS HOLIDAY
Bob Hope gets into all kinds of predicaments when he teams up with Anita Ekberg and Fernandel in this story of a trip to Paris. Besides the excitement about the Ile de France, Hope encounters strange searchers who go through his luggage, a runaway taxi cab ride and a very comical interlude in an insane asylum in which Fernandel, dressed as a laundress, tries to help patient Hope escape. (100 min.)

RIDE LONESOME
A 73-minute western, starring Randolph Scott and Karen Steele. No other information available. Movie times for this show while at the Camp are: Monday on March 6 are 5:15 p.m. and 8:30 p.m.

JEANNE EAGLES
This is the story of Jeanne Eagles' brief career as a Broadway star, from a beauty contest at a traveling carnival in Kansas City to her suspension by Equity and her collapse from drugs, drunkenness and drugs. Lasting 114 minutes, the plot is based on fact and fiction and stars Kirk Novak, Jeff Chandler and Agnes Moorehead.

FIRST MAN INTO SPACE
A combination of science fiction and some known space facts starring Bill Edwards, Marshall Thompson and Maria Lani. The plot deals with two rocket pilots who are lost when they pass out of the earth's atmosphere. Their return to earth was undiscovered until

a recurrence of several grisly murders that lead officials to believe they had been turned into space-created monsters.

PATHS OF GLORY
An excellent melodrama with a good cast. Kirk Douglas, Ralph Meeker, and Adolph Menjour in a realistic film about an incident during World War I. A French advance is being blocked by Germans entrenched on a huge hill known as the "Ant Hill." Kirk Douglas is defense council for three men to be court-martialed for not making a success of the attack. Realistic and sincere. It is a portrayal of a drive for justice and human right. (96 min.)

TAP ROOTS

This one dates back just a few years but is said to have carried a good pub-

lic opinion when released.

The 109-minute movie stars Gene Kelly and Susan Hayward.

NO WHERE TO GO
It just might appeal to those who haven't anything planned for the weekend.

MARJORIE MORNINGSTAR
Natalie Wood plays the 18-year-old who tries to make a business in this highly rated won ton honors as a well-known show Miss Wood manages to show with several enterprises. Gene Kelly who she meets in summer camp. She follows several bouts with the studio and across Europe before lesson.
