Camp Lejeune Gridders Defeat Parris Island 33-6

Pointing The Way

Steve Zakula, Lejeune fullback, points the way to further scoring as he takes a tumble on the fifty after returning a punt from his own 35 in the final football game of the local season against Parris Island last week. No. 34, Moledor, Lejeune guard, arrived too late to be of much help on this play, but the husky lineman, like every other member of the team, was one of the reasons for the concluding victory of the season. The tally for '48 stands at seven won and four lost. (Photo by 2d Division Photo Sect.).

Seven Wins, Four Losses Final Tally As Locals End 1948 Football Season

By PFC. AL MAINARD

The Camp Lejeune varsity football team ended the 1948 season with win number seven by downing a hard-fighting Parris Island eleven 33-6 in a Thanksgiving Day game on the PI gridiron. The final tally for '48 gives the locals four losses to seven wins.

'49 License Plates On Sale In J'ville; Early Purchase Urged

North Carolina automobile license plates for 1949 went on sale yesterday in Jacksonville.

The new plates are sold from the S. & M. Auto and Home Supply Company (The Goodrich Store) located at 712 New Bridge street.

The plates will be opposite in color than those for 1948 with black letters on an orange background.

L. C. Rosser, Motor Vehicle Commissioner, said the tremendous job of running the 1949 registration cards had been completed and that all cards would be mailed by December 1. He urged motorists to "hold

See LICENSE On Page 3

The Lejeuners scored in every quarter except the third, but scored 19 points in the last period to make up for the oversight. "Big" Hipps led the scoring parade with four touchdowns. The remaining touchdown came in the second period with Ptak's pass to Gallo who made a sensational catch on the goal line.

Lejeune stayed on the ground Thanksgiving Day and repeatedly tore the tough Parris Island line to shreds. Hipps, Stein, and Zakula, led the yards gained list, with Moody adding his usual spectacular running until he was injured in the third quarter.

It was everybody's day to play outstanding ball, with the nod going to Charlie Dawson, Canzona, Gigli and Barto on the line.

The longest run of the game came with Parris Island's only

Marine Barracks Annual Inspection To Be Completed Today; Division Next

Annual inspection for units of the Marine Barracks was conducted by representatives of the Inspector General of the Marine Corps on Tuesday and Wednesday and is scheduled to be completed today.

The Second Division will be inspected commencing tomorrow following the completion of the inspection of the Marine Barracks. With the exception of VMO-1 which has inspected Monday afternoon.

H&S Battalion and Montford Point Camp were inspected Tuesday and Marine Corps Supply Depot and Supply School Battalion were inspected yesterday. Scheduled for today is inspection of those activities not visited on the previous dates.

Inspection of units includes personnel inspection on the appropriate parade grounds, clothing and equipment on the bunk, inspection of organic supply activities, and examination of training received under Letter of Instruction 1544.

A request Mast for each unit is conducted at 1300 on the day inspection is scheduled.

At any time during the 3-day inspection period, the following activities will be inspected: Camp Property, Camp Dispensary, Post Office, Photo Lab, Provost Marshal's Office, Fire Dept. Medical Field Research Lab, Public Works, Malaria Control, Commissioned Officers' Mess, Staff NCO Club, Rifle Range, all supply activities, all administrative offices, Camp Special Services, Camp Exchange, Camp Motor Transport, Food Services, Sales Commissary, Laundry, Bakery, Auditors Office, Camp Schools, Disbursing Office, Industrial Relations Office, Camp Communications, Public Informa-

tion Office, Chaplain's Office, and Camp Maintenance.

COMMISSARY OPEN

The Sales Commissary will remain open for business during the annual inspection and essential work in all activities will be continued during the inspection.

DIVISION SCHEDULE

The schedule of inspection for the various organizations of the 2nd Marine Division is as follows:

Tomorrow—1st Provisional Marine Regiment.

Monday—2nd Provisional Marine Regiment, 16th Marines.

Tuesday—10th Marines, 2nd Engineer Battalion, 2nd Tank Battalion.

Wednesday—2d Combat Service Group (Medium).

Thursday—2d Amphibian Tractor Battalion, 1st AAA Battalion.

Friday—H&S Battalion, 2d Medical Battalion.

Leatherneck Feature Tells 'What's Eating What's Eating Guam'

The answer to a timely question, "What's Eating What's Eating Guam?" is answered in the December issue of Leatherneck in a hilarious article by Cpl. William Milhon, "Beetle-Baum For Guam." "With visions of Agana bluff slowly crumbling away, the whole

Adm. R. Hayler, Com 6, Visits Camp Lejeune

The Commandant of the 6th Naval District, Rear Admiral Robert W. Hayler, USN, paid a brief visit to Camp Lejeune Tuesday.

Upon his arrival at Peterfield Point at 1040, the admiral was welcomed by Maj. Gen. Franklin A. Hart and members of his staff.

Full honors were rendered Admiral Hayler at 1145 on the Camp Parade Ground by the saluting battery and the 1st Infantry Company, Training Group, H & S Battalion, 2nd Marine Division.

The admiral was the guest of Maj. Gen. Hart at a luncheon at the Officers' Mess. Other guests included Brig. Gen. H. D. Lincolnton, Col. R. H. Jeschke, Capt. F. P. Keaney, USN; Col. G. F. Good, Comdr. G. S. Robinson, USN, and Lt. Col. J. G. Goldberg.

Admiral Hayler accompanied the commanding general on a brief inspection tour of Hadnot Point in the afternoon.

Russ Carlyle Plays Camp Theater, Pavilion Tonight; Div. Orch At MPC

Marines attending the concert at the Camp Theater tonight from 1800 to 1900 and the dance at Marston Pavilion from 2030 to 2400 will be treated to the music of Russ Carlyle, America's newest singing star, and his orchestra.

At Montford Point, the 2nd Division dance orchestra will play for a dance from 2000-2400.

The Carlyle band features Nancy Clayton on the vocals Norman Scott's interpretation of novelty tunes, The Lamplighters quartette, and The Coachman Choir.

Russ Carlyle and his orchestra have drawn long hold-over en-

gagements at prominent location stands, such as the Blackhawk Restaurant, Chicago; the Muehlbach Hotel, Kansas City; and the Claridge Hotel, Memphis, because of their ability to contribute a complete floor show in addition to their music.

Aside from the many vocal numbers

Endowment Of Many

Courage

It is said courage is common, but the immense esteem in which it is held proves it to be rare. Animal resistance, the instinct of the male animal when cornered, is no doubt common; but real courage, courage with conduct, self possession in the face of enemy fire, cheerfulness in lonely adherence to the right, is the endowment of elevated characters.

Man begins life helpless. His childhood terrors are quite reasonable because of his ignorance and weakness. In growing from infant stages to that of manhood he learns how to meet and avoid his dangers, and thus loses his childhood terrors. Fear or terror is cruel and mean.

Nature has made up her mind that what cannot defend itself shall not be defended. What cannot stand must fall; and the measure of our sincerity, and therefore of the respect of men, is the amount of health and wealth we will hazard in the defense of our right.

Knowledge is the antidote to fear.—Knowledge, Use and Reason, with its higher aids. They can conquer who believe they can. It is he who has done the deed once who does not shrink from attempting it again. It is the veteran soldier, who, hearing the sound of guns in the midst of battle, and using judgment and reason, knows what to do and does it. Familiarity with danger enables him to estimate the danger.

Many great soldiers have acknowledged the trembling fear they first experienced when going into action, and how after becoming accustomed to going into places of danger, and doing whatever they were afraid to, their courage returned.

In short, courage consists in equality to the problem before us, consists in the conviction that the agents with whom we contend are not superior in strength or resources or spirit to us.—W. B. K.

The Haitian police force, later known as the Garde d'Haiti, was first established in 1915, with Marine officers and non-commissioned officers as its commissioned personnel. Marines were withdrawn in 1934.

JEWISH SERVICES

Rabbi Jerome G. Tolochko of Temple Israel, Kinston, will conduct services each Tuesday evening at 1900 in the new location in Building 67. A social and refreshments will follow.

Chaplain's Corner

I Have A Problem

The day is a rare one when the chaplain does not receive in his office a man who prefaces his remarks with the words, "I have a problem." Frequently it is heard in the plural as he begins a recital of his difficulties by alleging ruefully, "I have problems."

While the chaplain listens and hears of involved human relationships growing more entangled, he often feels the need of something beyond human wisdom. He realizes only too well that there are difficulties to which no man can offer an immediate solution and even the suggestion of a certain line of conduct may be fraught with dangerous possibilities. At such times he will urge the serviceman to seek divine guidance that he may be in accord with the One who keeps the universe running in an ordered harmony and who holds the key that releases from his difficulty the most tightly-locked prisoner.

In the Metropolitan Museum of Art in New York City there hangs a painting of arresting symbolism. The artist has depicted the burning sands of Egypt at the close of day. In the background are the ancient Pyramids, and in the foreground the inscrutable Sphinx. At one side of the canvas Joseph stands thoughtfully leaning on his staff. Between the paws of the Sphinx, Mary is sleeping. Within her arms she holds the infant Jesus. The legend of the painting makes plain for us that in the center of this hard and stony riddle of a universe Jesus Christ has the answer for every problem.

To Him, then, let us repair for a solution that is ultimate and cannot be shaken. And having received the guidance sought, resolve to carry it out at any cost. A young man who once approached the Christ for instruction as to how to obtain eternal life did not like the answer. He turned his back on the difficult right path and reentered the easy but unsatisfactory one he had been traveling. But we are told that he was "very sorrowful" in the refusal. That is ever the portion of those out of harmony with the divine government and out of touch with divine fellowship.

As Dwight L. Moody once summed it all up: "We can do a great many things after we have prayed. But we cannot do anything more important than to first take our problem to Him."

Chaplain Robert L. Murphy

"Did you have to borrow much money on your farm?"

"Did I? I have so many government loans on the place that I have to milk the cows with political pull."

What's New

Wish You Knew?

QUESTIONS

1. Mr. Truman is the first native of Missouri to be elected President. Do you know the two States in which the largest number of Presidents were born?
2. By the way, when does the President's term of office begin? When do those of Senators and Representatives?
3. The Chinese Nationalists lost Mukden, in Manchuria, to the Chinese communists recently. Who held Mukden just before the Nationalists?
4. Last week there was talk of a possible East-West deal to admit more nations to the United Nations. Which of the following nations are now trying to get in: Portugal, Ceylon, Trans-Jordan, Yugoslavia, Rumania, Bulgaria?

ANSWERS

1. Virginia — eight (Washington, Jefferson, Madison, Monroe, William Henry Harrison, Tyler, Wilson); Ohio — seven (Grant, Hayes, Garfield, Benjamin Harrison, McKinley, Taft, Harding).
2. The President's term begins January 20, those of Senators and Representatives on January 3, as provided in the the 20th amendment to the Constitution.
3. The Russians. They had taken it from the Japanese at the end of World War II. The Russians withdrew from Manchuria in 1946 and turned Mukden over to the Nationalists.
4. All but Yugoslavia, which is already a member of the United Nations.

NEW RIVER RIPPLES

Our outfit was fortunate in having a sergeant who couldn't do enough for his men. In fact, he even went so far as to pass out cognac to the men before they went out on patrol duty.

On one particularly bad night he doubled the portion of cognac. This went over well with the men, especially the corporal, who was fond of any alcoholic drink.

That was the night the corporal discovered the enemy trying to infiltrate our ranks. He shot it out with a squad of Germans, killing three and capturing the rest. He in turn, got a slug in the leg. He was awarded the Silver Star and Purple Heart.

Several months passed before he rejoined the outfit. He seemed the same happy person until it came his turn to go out on patrol duty again. When the sergeant uncorked the cognac and said, "Here is men. Come and get it," the corporal said very softly, "I think I'll take water."

"Water!" roared the sergeant. "You will not. You'll take cognac."

"Oh, no I won't," said the corporal, nervously rubbing the leg that had been wounded. "I'll take water. Cognac makes you too brave."

He: "Was your father a college man?"

She: "Yes, but he never mentioned it. The college he went to had a rotten football team."

Memo to married men: Keep your wife happy by filing your house with mirrors. If she is beautiful she'll look at herself and think how lucky you are to have such a beautiful wife. If she isn't beautiful she'll look at herself and think how lucky you are to have such a beautiful wife.

The inductee who never stopped wiggling was being given the once over by the Psychiatrist. Suddenly, he shouted, "Grasshoppers, grasshoppers all over me."

The doctor jumped up quickly and pushed his chair back, ordering, "Well, for heaven's sake, don't push them off on men."

Fourth Marines Mailing Address Has Been Changed

All personnel corresponding with personnel of the Fourth Marines (Reinf) are advised that 'Navy 214' to be deleted from the address of the Fourth Marines (Reinf). The correct address is now 'Fourth Marines, Second Provisional Marine Regiment, Fleet Marine Force, Fleet Post Office, New York, N. Y.'

Pictorial History Of Marine Corps In WW II Now On Sale

NEW YORK—"Hit The Beach," pictorial history of the U. S. Marine Corps during War War II, currently available at the nation's bookshops, it was announced today by the New York Marine Corps Public Information Office.

The book is a photographic record of the many actions and campaigns in which Marines engaged during the war in the Pacific. Every Marine Division is represented in the book, which contains over 700 photos of battle scenes.

In addition, all major battles are covered by articles written by famous Marine Corps officers including General Clifton B. Cates, Commandant, General A. A. Vanegrift, Major General Lemuel C. Shepherd and Colonel Clayton C. Jerome. General Thomas Holcomb (Ret'd), General Holland M. Smith (Ret'd), Lieutenant General Harry Schmidt (Ret'd) and Lieutenant General Julian C. Smith (Ret'd) also contributed articles to the book. Major William P. McCahill, USMCR, wrote the captions for the pictures.

The book is published by Wm. H. Wise & Co., of New York, New York.

(SEA)—"Chow rag" is a slang term for the meal pennant.

Louisiana Bonus Reality; Complete Instructions Soon

WASHINGTON, D. C. (November 24).—The Louisiana Department of Veterans' Affairs has notified the Marine Corps that the "Louisiana bonus is a reality," and payable to Marines, both male and female, and to certain relatives of Marines and former Marines.

Although the Louisiana electorate recently voted favorably to amend the Constitution of the State in regard to bonuses, the Department of Veterans' Affairs is not yet in a position to receive applications for the bonus.

Application blanks are presently being prepared, and instructions for filing applications, address to which applications should be forwarded, eligibility requirements and amounts of payments will be made public at a future date.

Until more explicit instructions are disseminated, the Louisiana Department of Veterans' Affairs requests that interested persons not write for information.

Dances

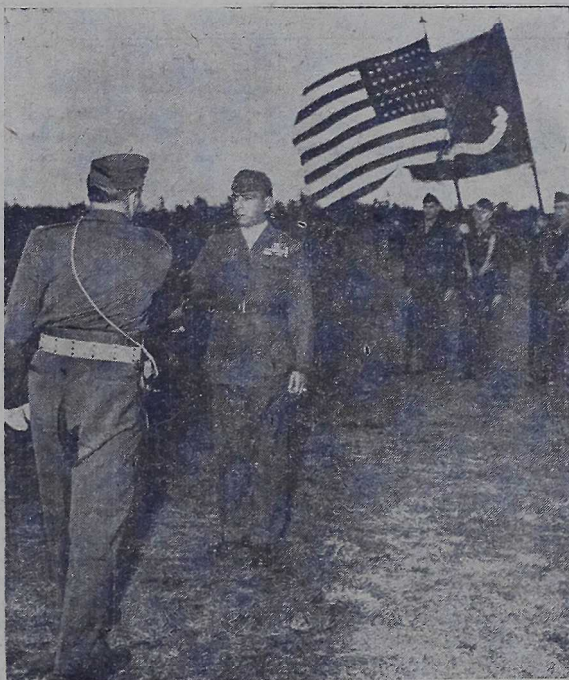

CONT. FROM PAGE 1

bers which have proven ideal as show numbers. Russ and his sidemen and vocalists have worked out several musical playlets which have proved show-stoppers, even when they were working opposite some of the outstanding names in show business.

Typical of these showmanly efforts are "John's Other Wife's Other John" and "The Skunk Hollow Follies." In the first, Russ and his musical cohorts take an audience behind the scenes in radio, enacting out a comedy version of the much maligned soap opera, replete with sound effects. During the "Skunk Hollow Follies," the band takes out their Ozark garb and steps into a hillbilly production that rivals Sady Hawkins' Day for laughs.

Bronze Star

Following the presentation of the Bronze Star Medal during ceremonies last Saturday, MSgt. J. A. Rodriguez is congratulated by Lt. Col. A. N. B. Robertson, CO of the 8th Marines. The medal was awarded to Robertson for meritorious achievement during operations against enemy Japanese forces on Saipan in June 1944. (Photo by Cpl. Pajakowski, 2nd Division Photo Sect.)

MSgt. Rodriguez Awarded Bronze Star For Meritorious Achievement On Saipan

MSgt. John A. Rodriguez, currently serving with the 16th Marines, was awarded the Bronze Star Medal at ceremonies on the parade ground last Saturday for meritorious achievement during operations against enemy Japanese forces on Saipan in June 1944.

The medal was presented by Lt. Col. A. N. B. Robertson, Commanding Officer of the 8th Marines, during a parade by that unit.

MSgt. Rodriguez, then gunnery sergeant, was awarded the Bronze Star for service as set forth in the following citation:

"For meritorious achievement while serving with Company G, Second Battalion, Twenty-Third Marines, Fourth Marine Division, during operations against enemy Japanese forces on Saipan, Marianas Islands, from 15 to 23 June 1944. Landing with an assault company in the face of heavy fire, Gunnery Sergeant Rodriguez efficiently accomplished the difficult task of maintaining adequate supplies of ammunition, weapons, water and rations throughout the critical period of the assault, thereby assisting his unit in establishing a firm foothold on the hostile shore. Responsible for the uninterrupted delivery of supplies to his unit during the attack

inland against stubborn resistance, he continued to fulfill his duties effectively until he himself was wounded and evacuated on 23 June. By his ingenuity and skill in furnishing front line units with vital supplies he helped to encourage the men of his unit which suffered heavy casualties. His unswerving devotion to duty in the face of intense hostile fire was in keeping with the highest traditions of the United States Naval Service."

MSgt. Rodriguez is authorized to wear the Combat "V".

License Plates

CONT. FROM PAGE 1

on to them for your convenience in purchasing your 1949 plates." The registration cards must also be shown when submitting vehicles for inspection next year.

All motorists are asked to get their tags as early in December as possible, in order to avoid last-minute congestion that heretofore has always developed around the middle of January. Persons caught driving on old tags after January 31 will be subject to indictment.

The department announced that there would be no change in licensing procedures—the same plan of paying a flat fee of either \$10 \$12 or \$15 for private passenger vehicles will be followed again this year. The flat rate, which was enacted into law by the 1947 General Assembly, and was used in the issuance of 1948 plates, has greatly simplified licensing procedures for both motorists and licensing officials. In years prior to 1948 vehicles were licensed according to their weights.

Light-weight cars like Ford, Chevrolet, Dodge, Plymouth, and Studebaker will fall in the \$10 tag bracket.

Into the \$12 bracket fall Buick, Chrysler, Lincoln Zephyr (changed to Lincoln in 1946), and Packard.

At Age 73, Marine Completes 41 Yrs., Ships Over For 4

QUANTICO, Va., Nov. 24.—Oldest Marine in point of age and service in the Corps, M/Sgt. H. D. Bartley today completed 41 years of service and re-enlisted for another four.

The sergeant, starting his 11th cruise today, declares that he has never been on the sick list, never missed a day's duty and that his Good Conduct medal with six bars indicates the quality of the marks in his service record.

73 years old, he shipped in the Marine Corps in 1907 and has served in such out-of-the-way places as the Philippines, Hawaii, Cuba, Haiti, Santo Domingo and Nicaragua and aboard the vessels New Hampshire, Buffalo, Crook, Panther, Prairie and Lebanon.

His promotion warrants were signed, first of all for PFC., by Maj. Gen. Commandant John A. Lejeune, then for Corporal by W. M. Biddle as commandant, then for sergeant by Maj. Gen. George Barnett in 1915. Bartley has been a first pay grade Marine since 1928.

He was sworn in this morning by Maj. Gen. Lemuel C. Shepherd, Jr., commandant of the Marine Corps Schools, with witnesses Maj. C. A. Brooks, commanding Service Battalion, and Capt. W. G. Hopkins, officer representing Bartley's present Reclamation and Salvage duty.

Television Career Offers Opportunity; MCI Points The Way

Qualified analysts in assaying the inspirational upsurge of television in the past two years predict that it will have as great an impact on American life as the radio and telephone. Most people connected with television are even more optimistic, believing that it is destined to become one of the nation's largest industries.

The industry is mushrooming so fast that it's difficult to chart its seven-league strides — two years ago about 16,000 sets were in use, now there are more than half a million. This comet-like rise will result in 13 million sets in use by the end of 1952, if the dreams of television executives are realized.

EMPLOYMENT CHANNELS OPEN

The alchemy of this industry opens new "channels" of employment opportunities to men who respond to its compelling signal. Today, it is in the crystal-radio stage of its growth—its tomorrow is limitless, its possibilities have scarcely been explored. Informed observers predict that television will give employment to 250,000 people and as television sets multiply, engineers and skilled servicemen will have an increasingly important advantage in job-seeking.

TECHNICAL TRAINING OFFERED

This "Career of tomorrow" is not something nebulous or beyond hand's reach, nor will Marines be denied the chance to move with its rising tide. The Marines' own school, Marine Corps Institute, with its up-to-the minute education for on-the-go Marines offers an outstanding course of technical training in this new communication media. Now open for enrollment, TELEVISION SIMPLIFIED as See TELEVISION On Page 6

Mess Award

The Rifle Range mess hall won its second efficiency pennant last week. During ceremonies Friday, Brig. Gen. H. D. Linscott, Deputy Camp Commander, made the presentation of the pennant with one star (below) to MSgt. J. R. Stram, mess sergeant. Lt. Col. W. A. Lee is officer in charge of the range. (Photo by 2nd Division Photo Sect.)

Dance, Bowling Match, Meeting Scheduled By Staff NCO Club

Johnny Mack and his orchestra will play for the dance at the Staff NCO Club tomorrow night. All members and their guests are invited to attend and the music is sure to please.

MEETING

The regular monthly meeting of the Board of Governors will be held Tuesday, 7 December. Several interesting matters are on the agenda and full attendance is desired.

BOWLING

Bowling tournaments are held on Tuesdays and Thursdays of each week.

Three teams from the Ingraham Bowling Center in Wilmington will bowl the Staff NCO Club Sunday on the club's alleys. There will be two mens' teams and one ladies' team.

Lejeune Pugilists Fought Quantico There Last Night

Camp Lejeune Boxers took the long road to Quantico Tuesday, and yesterday evening ventured into the squared circle for the first time this season against the pugilistic team of Quantico.

2ND. LT. J. E. COCKRUM

Coach J. E. Cockrum, assisted by Archie Ballanger and Alex Diaz, put 14 of his fighters against Quantico boxers in their first try for laurels, but it is not known at present how they made out against the Marines from that base, who have three previous smokers with outside competition already under their belts.

Complete results of the match will be published in the next issue of the Globe.

Legal Aid For Vets

More than 1,000,000 veterans and dependents of deceased veterans have given the Red Cross power of attorney to represent them in development and presentation of claims for government benefits.

Camp Lejeune cagers took the first of three games with the U. S. Naval Operating Base in Bermuda by a score of 55-37.

Wake Forest Here Dec. 7th For Cage Tilt With Lejeune

Basketball comes into its own at Camp Lejeune next Tuesday at 2000 when the Camp Lejeune Marines take to the hardwood against the Wake Forest Deacons in the first official home game of the current season.

The Demon Deacons, one of the Southern Conference basketball powers, will be heavy favorites to romp over the locals, but those who watched the Marines scrimmage against N. C. State, and then Wilmington J. C., know that the Lejeuners have a club capable of holding its own against any competition.

The Lejeuners will be at a disadvantage, for they will probably still be tired from their trip to Bermuda, where they played a total of five games in as many days.

Game time is 2000, 7 December, at Gym 201. This marks the second appearance this season of the Marines against a top college team, at Lejeune, and all hands are urged to attend and support the Camp Lejeune Marines when they meet the Deacons of Wake Forest.

Flag Tournament With New Twist At Golf Course 4-5 Dec.

This weekend, 4-5 December, all Camp Lejeune golfers are invited to participate in another golf tournament. The tourney will be one of the most popular ever devised, a Flag Tournament, but with a new twist.

All contestants will register at the Pro Shop, and be issued a flag, which will be planted when all allotted strokes, (par plus individual handicaps), have been completed.

Prizes of \$40 in PX Chits will

Quantico Plays Little Creek Fri. For Eastern Title

QUANTICO, Va.—It will be Marines vs Sailors this Friday here at Butler Stadium when the Quantico Marines meet the Amphibs of Little Creek in a playoff for the East Coast All-Navy football crown. The winner will meet the West Coast champions, San Diego Marine Corps Recruit Depot, on Dec. 11 at Foreman Field, Norfolk, Va., in a tussle for the All-Navy crown.

Twice-beaten Little Creek will have the underdog role in their attempt to halt the Marine's win streak that has continued for two seasons and 22 victories. Quantico's ten-game schedule featured two upsets that brought them into the collegiate limelight. They squeezed out a one-touchdown victory over the favored Wayne University of Detroit and rolled over Xavier of Cincinnati, 26-15. Their official season ended on Thanksgiving Day when they dropped the Naval Academy Prep School of Bainbridge, Md., 12-0.

The big guns of the Quantico offense which has racked up 2,092 rushing yards against an opponents 573, are two former Naval Academy players and a high school footballer from Arnold, Pa. Joe Bartos and Dick Ambrogi, ex-Middies and now second lieutenants, lead the scoring column with Bartos having 78 points and Ambrogi holding 36.

George Greco, 165-pound scabbard, is the former high school star. He lugged the ball in every game this season for an average of 8.9 yards per rushing attempt. Bartos, playing his second season with the Marine team, heads the ball carrying department with an average of 10.0 yards for his 56 rushes and has been on the receiving end of 16 passes that netted a total of 363 yards. Ambrogi has an average of 8.9 in 67 tries at cracking the opponents lines.

Rudy Flores, light weight "T" general of the Marine team and former Southwestern University athlete, is the top passer in the service. He completed 50 aeriels out of 86 attempts for an average of 581, five points higher than the leading collegiate passer, Heath of Nevada U.

be awarded to the golfers who finish in the 18th cup regardless of how many strokes are unused. Prizes will be divided equally to all who made the 18th hole cup. In the event no one makes the 18th cup, the winners will be picked from those in the 17th cup.

Players are reminded that it is necessary to play the course in company with at least one other tournament player, no exceptions allowed, in order to be eligible for the prizes.

Vet's Workshop

An arts and skills workshop for disabled veterans is in its second year of operation at Red Cross Chapter headquarters, Sacramento, California. Transported to the workshop by Red Cross motor service, the veterans receive instruction in block printing, raffa work, rugmaking, painting, book-binding, beadwork and stenciling. The program was instituted at the request of the veterans.

Lay-Up Shot by Davidson is captured by this photo of the recent scrimmage with the Wilmington Junior College Seahawks. The Marines scored 107 points to their opponents' 37, as they used their fast-breaking offense to the fullest. Also visible are Ralph Nofsinger, No. 11, Marine forward, and Dann and Lewis of the Seahawks. (Photo by Pfc Snyder, 2nd Div. Photo Section).

Lejeune Cagers Topple Wilmington JC Score 107 Points In Scrimmage Game

The Camp Lejeune Marines emulated the North Carolina State Wolfpack when they scrimmaged the Wilmington Junior College Seahawks last Tuesday, and when the final whistle sounded the Marines had racked up a total of 107 points.

The Marines led 54-24 at half time, and more than doubled their lead during the second half. Using the fast break very effectively, the Lejeuners worked in and around their taller opponents, who will probably not be outclassed again this year like they were on Tuesday. Playing under scrimmage conditions, the Jaycees' poor showing can be attributed largely to lack of practice—they started workouts only three weeks ago.

High point man on the Marine squad was Andy Anderson, who played a sparkling game at guard, and caged 19 points. Kubiskey, lanky center, was only one point behind Anderson, with 18, and he kept the backboards under control effectively throughout the scrimmage.

Lewis, center for the Seahawks, did most of the scoring for his team, and rang up 15 points during the course of the workout.

The Lejeuners showed great promise as they easily penetrated the Seahawk defense, and broke away continually to add to their score. Coach Caputo played the entire squad, and they all played with fire and determination. Halloran, Kobza, and Davidson looked particularly improved, and Ralph Nofsinger was a ball-stealing threat at forward.

At present the local squad is on a road trip which has carried it to Bermuda, after a scrimmage with William and Mary last Friday. On their return, they will rest

for a day and then take on Wake Forest College on Tuesday, 7 December, at 2000. Game time is 2000 immediately following a preliminary by the Camp High School.

Lejeune High School Basketball Teams Split Twin Bill With Dixon

Camp Lejeune and Dixon High Schools divided a basketball twin bill at Gym 201 last Tuesday in preliminaries to the Camp team's scrimmage with Wilmington Junior College. The Lejeune boys trounced Dixon 46 to 8 in their opening game of the season, but the local girls lost to the Dixon girls in an exciting game. The final score in the girls' game was 39-36.

The local girls almost staged an upset in their first game this year with the Dixon sextet, but the more experienced Dixon team had the scoring punch to gain them the win.

pass to Husvar but Bayless knocked it down. Dawson and Overholt dropped Picton for a four yard loss when he tried to get around left end. Petrevitch took the ball on a hand off from Picton slammed over left tackle, twisted, turned, and fought his way through the secondary where he picked up four blockers, and galloped 65-yards for a touchdown with plenty of protection. Eysenback's conversion attempt was bad. CAMP LEJEUNE —14, PARRIS ISLAND—6.

Moody took Lobb's kickoff and ran it back to the Parris Island 38 from the Lejeune 5-yard-line. Big Hipps fumbled on the initial play and Wronck, Parris Island right end, recovered the ball. Parris Island, still steaming from their touch down, began to roll again and it looked as if they were on their way to another score.

Picton passed to Wronck for 12-yards and a first down on the Parris Island 47. Picton to Wronck to the Lejeune 32 and another first down. Picton rifled one to Husvar for the third successive first down to the Lejeune 20-yard-line and Husvar tried center of Lejeune's line but only made three. Picton flashed another to Husvar in the left flat for six more, making it third and one on the Lejeune 20. The officials called time for measurements, but the ball was short by inches. Kriever blasted center for five to the fifteen and it looked like Parris Island would score again. Picton tried a short one to Wronck, but Charlie Dawson reached out and batted it out of his reach. Picton flipped one to Kriever in the flat but this time Zakula got a finger on it and brought the downs to third and ten on the Lejeune 15-yard-line. Petrevitch tried an end run but only made two. Picton tried to get one to Smith but Hipps blocked it and Lejeune took over on their own 13-yard-line.

Zakula picked up a yard over right tackle and then Hipps skirted right end for one of his dazzling broken field runs to the Lejeune 45. Stein got back into the spirit of the game with a fifteen yard drive through center to the Parris Island 40 where Kelly managed to snag him. Zakula picked up two through center, and Sanchez and Little Hipps both tried to connect with Westfall but couldn't complete their passes. Stein kicked out on the Parris Island thirty. Picton tried to pass but Canzona, Charlie Dawson and Gigli got through the line and dropped him on the Parris Island ten for a fifteen yard loss. Picton got off a hurried aerial to Lobb but the pass was incomplete. Picton again tried to pass but Charlie Dawson snaked through the line and dropped him on the five. It was fourth and thirty for Parris Island when Lobb kicked to Chiapuzio on the fifty. Chiapuzio brought the ball back to the Parris Island 39 where he was nailed by Husvar. The third quarter ended before play could be resumed.

FOURTH QUARTER

First and ten for Lejeune on the Parris Island 39-yard-line. Zakula picked up four through right tackle. Stein went four more around right end to the 31. Sanchez tried a long pass to Hipps but the ball was knocked down. The next

play was one of the most mixed up plays of the football season. Sanchez called signals, handed the ball off to Big Hipps who fumbled. Sanchez picked up the ball on the run, fought his way clear of Parris Island tacklers, skirted left end to the "Boot" ten where he was hit hard and fumbled. Parris Island recovered.

After three tries at the line, Lobb booted out to Chiapuzio, who brought the ball back to the 32. Parris Island received another 15-yard penalty, this time for a personal foul, making it first and ten for Lejeune on the "Boots" 17-yard-line.

Hipps tried left tackle but only made two. Sanchez didn't get past the line of scrimmage around right end. Third and eight on the Parris Island 15-yard-line. Big Hipps took the ball on a reverse over right tackle to the three for a first down and goal to go. Hipps hit right tackle again, and made the third score for Lejeune. Hipps split the uprights for the extra point. CAMP LEJEUNE—21, PARRIS ISLAND—6.

Steepe's kick was brought back to the 32-yard-line. Husvar tried a line buck but was stopped cold. Picton unlimbered and tossed a beautiful pass to Chiapuzio, Lejeune quarterback, who brought the ball to the Parris Island 31. Zakula hit the right tackle for seven, and again for six to give Lejeune another first on the Parris Island 18-yard-line. Hipps waltzed over left tackle for another touchdown, but his conversion attempt was no good. CAMP LEJEUNE — 27, PARRIS ISLAND—6.

Zakula hit right tackle for two, and then Bayless picked up six on a handoff around right end. Big Hipps took a look at right tackle, broke through, and squirmed his way forty yards for the last score of the game. Zakula tried to run the extra point but was stopped on the five. CAMP LEJEUNE — 33, PARRIS ISLAND—6.

Golf Schedule

4 and 5 December — Dividend Flag Tournament—Prizes awarded to those who finish at 18th cup.

18 and 19 December — Points for Par Tourney—Play against par with 3-4 handicap.

8 and 9 January — Two Man Team Tourney — Both members drive then play alternate shots with only one ball.

22 and 23 January — Blind Partner Tourney — Partners drawn by lot after teeing off time—1-2 combined handicap allowed.

5 and 6 February—Least putts Tourney—Prizes for least putts in 18 holes. Net score of 80 or lower is necessary.

GOLF COURSE HOURS Tuesday thru Sunday—0800 to Sunset. Closed All Day Monday.

Intra-Mural Football Finished As Bulldozers Beat Boondockers, 18-6

The Intra-Mural football season at Camp Lejeune came to an end Thanksgiving Day when the 2nd Engineers took a well earned 18-6 victory over the 21st Marine Boondockers before a large crowd at Hadnot Point.

Marine Corps League Notes

Monday, 6 December, the New River Detachment of the Marine Corps League will hold its regular monthly meeting at the Community Building in the Holly Ridge Housing Project. All members are urged to attend as many very important issues are due to come up. All Marines in the Lejeune area, especially those living in the Holly Ridge Housing Project, are invited to attend this meeting, and future meetings, to become better acquainted with the League and its purposes.

The Ladies Auxiliary of the Marine Corps League is starting to form and will also hold a meeting at 2000, 6 December, in the Holly Ridge Community building.

Do not forget the activity schedule for the Holly Ridge community, sponsored by the New River Detachment of the Marine Corps League. Movies are shown every Tuesday, Thursday, and Saturday and Sunday Bingo every Friday. The Club is open every night from 1830-2000. Refreshments are served at the club.

Remember, if you are a Marine, or have served at least 90 consecutive days on active duty as a member of the Marine Corps Reserve or the Marine Corps Women's Reserve, the Marine Corps League is YOUR veterans' outfit.

Drop in at the Community Building in Holly Ridge anytime between the hours of 1830-2000. The club manager will answer any questions which you care to ask.

Seventy - nine Marines were awarded the Medal of Honor for acts of valor performed in World War II.

The Bulldozers, playing to earn themselves a third in the race for honors in the Intra-Mural League, took to the air for their winning margin, while their strong line held the valiant Boondockers down except for one quarter, the final one, when Serres, playing left half for the underdogs, connected with Sewell, end, for a 15-yard pass, and Sewell ran through the Bulldozer secondary for 35 yards to score.

It was early in the first quarter when the Bulldozers struck first, as Cochran threw a bottonhook to end Hoppe, 15-yards away, and then Hoppe drove the remaining distance to score.

The game was even throughout the rest of the first half, and was marked by the excellent end play of Albers and Hoppe, of the Engineers, and Sewell and Rollins of the Boondockers.

When the second half opened, it was to see the Bulldozers score twice early in the third quarter as Cochran again connected with Hoppe, standing thirty-five yards away in the Boondocker end zone. The big end went up and caught the ball, and the Bulldozers led by 12 points.

On the touchdown kickoff the Bulldozers scored another six-points when Breuer, stalwart guard for the engineers, went downfield and recovered his team's kickoff in the end zone.

The Boondockers came back fighting after their third period lapse, and throughout the 4th quarter the Engineers found themselves with their backs against the wall.

Their victory over the 21st Marines gave the Engineers a season's record of 2 wins, 2 losses, and 1 tie, putting them in third place in the Intra-Mural standings. The Boondockers remained in the cellar, ending the season without a victory, but handicapped by transfers, discharges, and lack of practice.

Civilian Personnel Guide

CIVIL SERVICE INSPECTION

The Industrial Relations Office at Camp Lejeune, N. C., is subject to an annual inspection by the Fourth U. S. Civil Service Regional Office from Washington, D. C.

The purpose of this inspection is to determine if the Industrial Relations Office is performing its duties according to instructions as outlined in the Federal Personnel Manual and Navy Civilian Personnel Instructions that are required by law.

This year the annual inspection began September 21 and lasted through September 24. The Industrial Relations Office was checked on the following: — Appointments, Reappointments, Reinstatements, Inter-Agency Transfers, Promotions, Position Changes, Efficiency Ratings, Position Classifications, Medical Examinations, Investigations, Veterans Preference, Reduction in Force, and Retirement.

The Industrial Relations Office wishes to take this opportunity to pass the above information to all civil service employees at this activity in order that they may understand better the operations of this office, and so that they will realize that the procedures of this office are subject to inspection and review by the Civil Service Commission.

FEDERAL EMPLOYMENT OPPORTUNITIES

The Fourth U. S. Civil Service Regional Office, Washington 25, D. C., announces an unassembled examination for the positions of Engineer, Mathematician, Physicist, Metallurgist at the rate of P-1, \$2974.80, per annum. The announcements are for probational appointments under civil service regulations in the states of Maryland (except the counties of Prince Georges and Montgomery), North Carolina, Virginia (except the city of Alexandria and Arlington County), and West Virginia. Applications will be accepted by the Director, Fourth U. S. Civil Service Region, Temporary Building "R", 3rd and Jefferson Drive, S. W., Washington 25, D. C., until the needs of the service have been met. The forms to file are the Standard U. S. Civil Service Commission Forms Number 57 and 5001 ABC. For additional information about the above announcements, contact the Industrial Relations Office.

VETERANS INFORMATION

Mr. Paul W. Crayton, Veterans Administration contact representative from New Bern, N. C., performs itinerant service every Wednesday at Building No. 8, Separation Center, Camp Lejeune, to assist all veterans with their V. A. problems. Mr. Crayton has furnished the Industrial Relations Office the information noted below:

The Veterans Administration to-

day reminded World War II veterans that vocational advisement and guidance is available in North Carolina at eleven centers established by VA in cooperation with educational institutions and other agencies.

Advisement and guidance is voluntary for veterans who wish to study or train under the G. I. Bill but is required for disabled veterans who wish vocational rehabilitation under Public Law 16.

Purpose of the program is to help veterans explore their interest, needs and abilities, as well as to provide them with information about schools, training and employment trends.

Veterans' guidance centers in North Carolina are located at: VA Office, City Hall Bldg., Asheville; University of North Carolina, Chapel Hill; VA Office, 217 West 7th St., Charlotte; Duke University, Durham; VA Office, 216 Winslow St., Fayetteville; VA Hospital, Fayetteville; A & T College, Greensboro; VA Hospital, Oteen; N. C. State College, Raleigh; Catawaba College, Salisbury; VA Regional Office, 310 West 4th St., Winston-Salem.

14 Do's And Don't's For Hunters Mark Red Cross Warning

With a sober look at last year's firearm accident toll, 2,500 deaths throughout the nation, the American Red Cross renewed their warning to hunters to be careful when the game-birds fly and the bunnies run, and suggests these fourteen commandments of safety.

1. Treat every gun with the respect due a loaded gun.
2. Carry only empty guns, taken down or with the action open, into your automobile, camp, or home.
3. Always be sure that the barrel and action are clear of obstruction.
4. Always carry your gun so that you can control the direction of the muzzle even if you stumble.
5. Be sure of your target before you pull the trigger.
6. Never point a gun at anything you do not want to shoot.
7. Never leave your gun unattended unless you unload it first.
8. Never climb a tree or fence with a loaded gun.
9. Never shoot at a flat, hard surface or the surface of water.
10. Do not mix gunpowder and alcohol.
11. Wear proper clothing and shoes.
12. Be careful about water.
13. Include first aid equipment and if possible, one person versed in first aid.
14. Drive sanely to and from the woods or fields.

Object Lesson

Wet pavement should be a sure-fire warning to proceed with extra caution. Light pressure on the brake pedal when the road is slippery can start a disastrous spin. (Photo by Cpl. Sage).

Television

CONT. FROM PAGE 1

sumes little beyond an elementary knowledge of the operation of radio receivers and this is built an understanding of the modern television set.

Students will receive more thorough grounding in the scientific theory involved in television. Practical application of the knowledge is stressed and repair of television sets systematically analyzed. Television SIMPLIFIED gives the student an excellent entree into the field of handsome rewards.

The Institute suggests that students enrolling for TELEVISION SIMPLIFIED have complete MCI radio course or have technical radio experience in order to assure an uninterrupted program of study.

Television is still cutting teeth, but through it Marine Corps men can see and hear the knock-out opportunity. Students desiring to roll in MCI's latest course see their education Officer. Men who wish further information about the course or guidance in career-planning, may write to Marine Corps Institute.

Starting Sunday, and on all Sundays and Holidays thereafter, there will be a matinee showing of the regular feature at the Camp Theater at 1430.

1240 ON YOUR DIAL
WJ NC

BY GORT WILBUR

DISA ABOUT DATA: With one eye cocked on the calendar and the other on this mill, me thinks it only fitting to make a lead paragraph out of a new show that we have that is definitely beamed in the general direction of that old gent who, so they tell me, comes down a lot of chimneys on the night of December 24. Make that two-fold. Beamed to the ancient gentleman and the expected wide-eyed young fry who will group around the tree on the ayem after. As was true last year; so it is true this year. "Moments With Santa" is back on the air. WJ-NC kilocycles it out to your little guy and gal every Monday, Wednesday and Friday from 5 to 5:30 P. M. So why not pass on the info and have he or she write a letter to Santa and have it read over the air. It's lots of fun and they'll get a big bang out of it.

I don't know what you did when you were a kid, but I used to innocently enough scrawl out a long tome, and with the blessings of my mother, toss it into the kitchen stove. Rumor had it then that such a way was quicker than mailing in the little green box on the corner. It would get to the north pole quicker. How was it in your day?

Leatherneck Sales In Mess Halls Soon

For the first time in recent years, individual copies of the Leatherneck magazine will be sold in mess halls and barracks throughout the base starting with the December issue, SSgt. Edward M. Green, circulation representative for Lejeune, announced this week. Sales are expected to start about 5 December.

P-TA Notes

A special meeting of the P-TA will be held on December 13th, at which time a Christmas program will be presented by the high school. Forty members of the High School Choir will furnish Christmas music. Christmas scenes will also be depicted by the choir. "The Christmas Story" will be read by Diane Granger and Janet Galloway. The program will be presented at seven-thirty in the evening at the Camp High School Auditorium. This promises to be an entertaining Christmas program and we hope all parents and children will be present. Remember the time—7:30 p.m.

BENEFIT MOVIE

"Fighting Father Dunn," with Pat O'Brien, will be shown at the Midway Park Theatre on December 3rd at five, seven and nine o'clock. This movie is for the benefit of our P-TA. The price of admission will be twenty-five cents for children and fifty cents for adults.

Fire Chief Sez---

Do not, at any time, park your automobile in driveways in front of fire stations. Such practice hampers response to fire alarms and—"it may be your quarters burning."

This Is Your Camp

Heating, Water, Sewerage, And Cold Storage Are Fascinating Divisions Of Camp Maintenance

By PFC. R. K. DALY

In this, the final article of a series concerned with the vital work of Camp Maintenance, four of the major divisions, Central Heating Plant, Water Treatment Plant, Sewerage Treatment Plant, and Cold Storage are briefly discussed. Each offers a fascinating story and is an important part of the Lejeune picture.

CENTRAL HEATING PLANT

All of the steam used on Hadnot Point is supplied by the Central Heating Plant. This plant has four boilers, which burn either pulverized coal, oil or gas. The coal, delivered in "nut" or "slack" form, is pulverized as fine as talcum powder and then blown into the boilers.

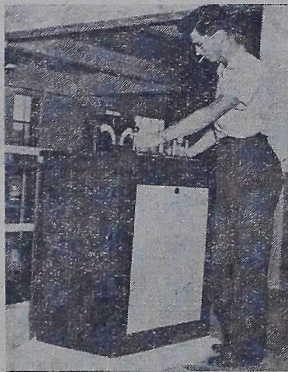

Before being used, all of the coal passes through a scale where it is weighed and all of the steam leaving the plant is metered. Thus the efficiency is determined by the number of pounds of steam delivered for each pound of coal burned. At present about 11.5 pounds of steam is generated per pound of coal. The average amount of coal burned during the cold season is 200 tons a day, approximately four car loads. The Central Heating Plant, first put into operation in 1943, was built at a cost of close to two million dollars. It has the equipment of 120 different manufacturers.

Throughout the plant there are about 180 motors with all of the firing of the boilers done by automatic control and steam pressure controlled automatically at 150 pounds per square inch. The plant has its own laboratory for testing the water used by the plant. On top of the building, which is one of the tallest on the reservation, is a 600 ton coal bunker. In the storage areas are approximately 35,000 tons of coal. This coal is moved to the bunker by means of bucket-type conveyers.

In the rear of the Central Heating Plant is the condensate Hot Well, recently put into operation. Condensate, steam condensed back into water, returning from outside steam distribution, empties into this hot well. The water in the hot well is then pumped into the surge tanks located in the top of the Heating Plant. There are 34 miles of steam return condensate lines in this area. Approximately 85% of all of the steam used is returned to this hot well in condensate form. There are 29 men employed by this plant and it operates on a twenty-four basis.

Purification

WATER TREATMENT PLANT

The Water Treatment Plant, building No. 20, was put into operation in the fall of 1942. The original capacity of this plant was 3,000,000 gallons a day, which has been increased to the present capacity of 5,000,000 gallons a day. The raw water taken from wells throughout the reservation is run through the Pernutit Co. pattern process of softening and iron removing. This is a catalytic process. Then it is run through a filtration process consisting of gravity sand filters. From these filters the water is chlorinated and pumped into storage reservoirs from which it is repumped into the various distribution lines.

The water supply comes from 21 deep wells located in and around Hadnot Point. An under-water treatment is used at Hadnot Point to the training and recreation pools. This section employs approximately 41 men. There are two storage reservoirs with an aggregate capacity of 1,500,000 gallons and also overhead storage with a capacity of approximately 1,300,000 gallons, three 300,000 tanks and two 200,000 tanks.

There are outlying stations at Tent Camp, Montford Point, Onslow Beach, Rifle Range and Courthouse Bay. A total of 41 men are employed by this section.

SEWAGE TREATMENT PLANT

The main Sewage Treatment Plant at Camp Lejeune is located in area five. This plant serves the Midway Park and Hadnot Point area with approximately 75 to 90 million gallons of sewage per month disposed of. The treatment method is primarily sedimentation with sludge digestion.

The sewage is brought to the plant by eight pumping stations situated at low points of gravity. At the plant the solids are removed and routed to sludge digesters. Gas formed in the process of digestion is utilized to run laboratory equipment, heat the plant and sustain digestion. The digested sludge is used as fertilizer. The effluent is chlorinated and discharged 1200 feet out in the river. The plant has job facilities for testing plant efficiency and operation guidance.

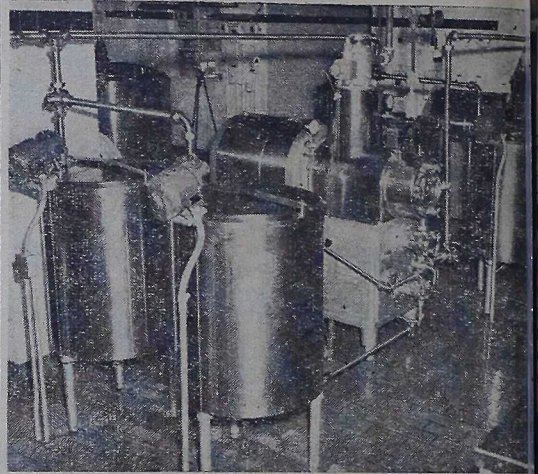

There are five outlying plants on the reservation. These are located in Tent Camp, Rifle Range, Courthouse Bay, Onslow Beach and Montford Point. All of these plants utilize the Imhoff Tank Treatment with the exception of Tent Camp which is chemical precipitation and sludge digestion. The six plants employ 18 men for maintenance and operation.

COLD STORAGE

The Cold Storage Plant, Bldg No. 1300 in the Industrial Area, is where the ice cream is made and the meat issued throughout

Ice Cream Plant

This partial view of the ice cream plant shows some of the new and complete up-to-date machines from which pour about 4,500 gallons of delicious ice cream each month. Approximately \$250,000 worth of equipment has been installed in this plant which is one of the first and largest in the Marine Corps. (Photo by Cpl. Rider).

the camp is stored. Two types of refrigeration are used in this plant, the ammonia system and the freon-22 system. There is approximately 170 ton refrigeration capacity on the ammonia system and 60 ton refrigeration capacity on the freon-22 system.

The ice made during the slack months is stored in two rooms, one with a 500 ton capacity and the other with a 150 ton capacity. Five rooms are used for the frozen foods, where the temperature is maintained from a minus 5 to a plus 3 degrees Fahrenheit. In the six rooms used to store vegetables and produce goods the temperature is maintained from 35 to 45 degrees Fahrenheit. The temperature of the ice cream room is kept at an even minus 13 degrees Fahrenheit. The one meat carcass room is capable of storing 12-13 carloads of meat.

Of the three rooms used by the Central Butcher Shop only one, the thawing room, does not use refrigeration. The two remaining rooms are the cutting room and the issue room. Approximately 18 men work at the butcher shop and cut everything but cold cuts, fish and fowl. Only the outlying mess halls are not supplied by this central butcher shop. An average of 130,000 pounds of meat are issued every month by this shop which has been in

operation for over a year supplying all mess halls with uniform cuts of meat.

Eleven men from the Bakery run the Ice Cream of the Cold Storage Plant. five hundred gallons of ice cream are delivered every other the various mess halls on the reservation. There is approximately 13 worth of equipment in this. It is capable of freezing 300 of ice cream an hour and month about 4,500 gallons of cream are manufactured.

The Cold Storage Plant has been in continuous operation since the latter part of 1942. eleven men of the maintenance section man a twenty-four watch, maintaining three crews each day.

MacQueen Assumes Duties As Marine League Commandant

Theus J. MacQueen, former of Marine Recruiting, has assumed his new duties with the detachment of the Marine Corps League. MacQueen, who enlisted in 1917 and served two enlistments, was a first veteran of World War I. He led the national all-Leatherneck organization. Prior to his assignment at the League's twenty sixth convention at Milwaukee, MacQueen served successive detachments and department commandant, national division commandant and national vice commandant.

Airline Offers Aids To Travelers, Gives Flight Schedules

Piedmont Airlines now offers very low cost travel to residents of the areas which it serves with the announcement of the inauguration of the Family Plan which was effective on November 6.

Under this Plan, all members of the family traveling together may travel for half-fare on Mondays, Tuesdays and Wednesdays of each week if one adult member is paying full fare. This service is also available over the routes of American Airlines from the connection points of Cincinnati and Louisville, making it possible for families to reach all the many points served by Piedmont and American at a greatly reduced cost.

As a further aid to travelers from this area, Piedmont offers a 50% round-trip discount on all travel over its routes which was effective on November 17. These two new features should make it possible for many people in this area to take advantage of a fast comfortable travel medium which was too costly before.

The Piedmont Airlines also an-

Island sinking into the ocean, and a complement of Marines swimming frantically for Saipan or Tinian, Leatherneck got hot", Milhon confides.

His tongue-in-cheek report on the rapid consumption of Guam by the world's slowest creature, illustrated by Cartoonist George Booth, is one of the funniest features to appear in the Marines' magazine for some time.

Featured also in the December issue, which goes on sale at the PX next week, is "Booth's Cartoons", a page by the former Leatherneck staffer who was discharged recently but who still has a large following in the Corps.

A number of Marine Aviation squadrons served on board naval aircraft carriers during World War II.

announces daily flights between the following cities: two between Wilmington and Cincinnati, one between Wilmington and Louisville and one between New Bern and Cincinnati.

Central Heating Plant

Fireman M. D. Midgett (below left) inspects one of the giant fuel injectors feeding a boiler at the Central Heating Plant. This plant occupies the tallest building at Lejeune and supplies heat for the entire Hadnot Point area. Coal, pulverized until it resembles black talcum powder, is fed into the boiler through the apparatus shown. In the photo at right, Midgett regulates the flame in one of the four boilers from an impressive but bewildering control cabinet. (Photos by Cpl. Wolfe, 2nd Division Photo Sect.)
