

## NASA launches LDSD on Kauai

NASA's low density supersonic decelerator (LDSD) technology demonstration hardware is readied for shipping at Jet Propulsion Laboratory to the test site at the Pacific Missile Range Facility (PMRF) on Kauai, Hawaii. (Editor's note: The LDSD was launched on June 28 on Kauai.)

U.S. Navy photo by MC2 Mathew J. Diendorf

NASA's high altitude balloon carrying the low density supersonic decelerator (LDSD) is inflated at the Pacific Missile Range Facility, Barking Sands, Kauai on June 28. After liftoff, the balloon carrying the LDSD test vehicle floated upward to an altitude of 120,000 feet. The balloon then released the LDSD test vehicle and its rocket fired, taking the craft to an alti-

tude of 180,000 feet. Traveling at about Mach 3.8, LDSD deployed the first of its new technologies, a doughnut-shaped tube called the supersonic inflatable aerodynamic decelerator (SIAD). At approximately Mach 2.5, the test vehicle deployed the largest parachute ever made which, though not fully deployed, carried the LDSD to the ocean surface.

## 15th Wing bids *aloha* to outgoing commander

Story and photos by  
Tech. Sgt. Terri Paden

15th Wing Public Affairs

The 15th Wing guidon was passed to Col. Randall Huiss, incoming 15th Wing commander, symbolizing the formal transfer of leadership of the wing from Col. Johnny Roscoe. The change of command ceremony was held June 27 on the flightline at Joint Base Pearl Harbor-Hickam.

"Men and women of the 15th Wing, I look forward to meeting each of you and facing these challenges in the days and weeks ahead," Huiss said.

"Our job is to be ready and provide options for our senior leaders. This is something we cannot take lightly as failure is not an option. We'll practice safe mission execution as we take care of our nation's business. In short, our job is to ensure that when our president threatens with a clenched fist or offers with an open hand, that his words become reality," he added.

Huiss declared total sup-

U.S. Air Force photos by Tech. Sgt. Terri Paden

(Above): Members of the 15th Wing stand in formation on the Joint Base Pearl Harbor-Hickam flightline during the wing change of command ceremony June 27. (Right): Lt. Gen. Russell Handy (left), 11th Air Force commander, passes the 15th Wing guidon to Col. Randall Huiss, the incoming 15th Wing commander.

port for his new Airmen. "I pledge to you my unwavering commitment to your mission readiness, your health and welfare, and the safety and security of you and your families," he said.

"I'm here to serve rather than be served, and I've experienced no greater honor and responsibility than to stand beside you as your

commander," Huiss said.

Huiss thanked Roscoe for his leadership and incredible hospitality before addressing the formation of Airmen.

"[Roscoe] obviously left some very big shoes to fill," said Huiss. "My goal is to build upon those relationships and the success he fostered with the hopes of taking the wing's perfor-

mance to even greater heights."

During the ceremony, Roscoe was awarded the Legion of Merit for exceptional meritorious conduct and performance of outstanding services as the 15th Wing commander. He retired after 26 years of Air Force service.

Among the many things accomplished under Roscoe's

tour as commander were the activation of the Air Force's only active-associate F-22 Raptor squadron, an "excellent" rating on the wing's consolidated unit inspection, and the execution of a total force response to the Philippines for disaster relief after the strongest tropical cyclones ever recorded tore through the region.

Huiss is a 1993 graduate of the United States Air Force Academy and a command pilot with more than 4,200 hours in the C-17A, T-37 and T-38. Prior to taking command of the 15th Wing, he was vice commander of the 436th Airlift Wing, Dover Air Force Base, Del. where he served as assistant to the commander for leadership in the combined C-5 and C-17 wing, providing worldwide movement of high priority personnel and cargo.

Adm. Harry Harris, commander of U.S. Pacific Fleet, answers questions during a Rim of the Pacific (RIMPAC) Exercise 2014 press conference held July 30 at Joint Base Pearl Harbor-Hickam.

## JBPHH change of command set for July 11

Leadership of Joint Base Pearl Harbor-Hickam will change hands next week when Capt. Jeffrey W. James will be relieved by Capt. Stanley Keeve Jr. during a change of command ceremony at 10 a.m. July 11 at the grassy knoll on Ford Island.

James assumed command

in May 2011 as the second commander of Joint Base Pearl Harbor-Hickam, which officially stood up in October 2010. As commander, James led the Navy's third largest fleet concentration area with 177 tenant commands and about 93,000 active duty personnel, family members, Department of Defense civil-

ians and contractors. Prior to reporting to joint base, James served on the staff of Commander, U. S. Pacific Fleet. He will retire after 30 years of naval service.

Keeve comes to Hawaii from the Pentagon where he served as military assistant to the Defense Business Board.

### Fourth of July Celebration tonight to include fireworks

The Joint Base Pearl Harbor-Hickam Fourth of July Celebration will be held from 3:30 to 9:30 p.m. today at Ward Field.

Featured artist 3 Doors Down will take the stage at 7:30 p.m. This multi-platinum rock band first rose to international fame with their hit single, "Kryptonite."

A fireworks display will

begin at 9 p.m.

The celebration will also include kids' activities, a car show, rides and inflatables, food and beverages available for purchase, and prizes and giveaways.

This event is open to all military-affiliated personnel and their sponsored guests. There will be a 100 percent ID check at the

gate. The schedule of events is subject to change without notice.

For safety reasons, no backpacks or purses (larger than small clutches), food or beverages, barbecues, tents, umbrellas, animals, glass or coolers are allowed.

For more information, see page B-2 and visit [www.greatlifehawaii.com](http://www.greatlifehawaii.com).

## France honors World War II veterans with Legion of Honor

Story and photos by  
MC1 David Kolmel

U.S. Pacific Fleet  
Public Affairs

Seven World War II veterans from Hawaii received the French National Order of the Legion of Honor aboard the French fl  rial-class frigate FS Prairial (F731) on July 2.

The honorees were Shiro Aoki, Yasunori Deguchi and Hiroo Endo, who served with the 442nd Regimental Combat Team; Edward Ikuma, Yoroku Ito and Shuji Akiyama, who served with the 100th Infantry Battalion; and Albert Brum, who was from Canada and fought with British and U.S. forces in France.

For more than a decade, the government of France has presented the Legion of Honor to U.S. veterans who participated in the liberation of France during World War II. The Legion of Honor is France's highest award. This award can only be presented by someone who has received it and is only given to living recipients.

Rear Adm. Anne Cullere, commander-in-chief of French forces in the Pacific, thanked the men for their courageous effort.

"This is a very special day today. We are gathered here to honor seven men that decided fighting for freedom was worth every effort unto the ultimate sacrifice," Cullere said.

"Here we are 70 years later honoring the sacrifice of too many of your comrades. We mourn with you. For what you achieved in the streets of Bruyeres and the dark woods of Vosges, we very heartily salute you. Today I will bestow the French Legion of Honor—the highest, honorific medal in France."

The award meant a lot to Edward Ikuma, who fought in France from October 1944 to March 1945.

"This is a great honor. At no point in my life did I ever expect to receive an award like this," Ikuma said. "This means more to me than anything I can express."

Yasunori Deguchi agreed with the significance of the award.

"There are no words that can express the appreciation and the recognition of the impact of the Japanese Americans

during the war," Deguchi said.

Adm. Harry Harris Jr., commander of U.S. Pacific Fleet, said the award is well deserved.

"This is a significant day and a huge honor that the government of France is about to bestow on these seven men sitting in front of me now," Harris said.

"This is about a country saying thank you, a grateful nation saying thank you, to some folks that did amazing things in defense of that country and liberating that country during World War II," he said.

The 442nd Regimental Combat Team was composed of Japanese Americans, most of them from Hawaii.

The 100th battalion fought in the Naples-Foggia campaign from September 1943 to January 1944 before becoming part of the 442nd Regimental Combat Team which was also comprised of the 2nd Battalion, 3rd Battalion, 522nd Field Artillery Battalion and the 232nd Combat Engineer Company. The 442nd RCT fought in Italy, then in France before returning to Italy.

The 442nd fought their most famous battle in France where they rescued the "Lost Battalion," breaking through the line to rescue 211 men who were cut off by German troops. The 522nd FAB also participated in the drive into Bavaria which freed inmates from Dachau prison that was being marched to their death. The 442nd, including the 100th, was the most highly decorated unit in the history of the United States for its size and length of service.

Brum, the lone Canadian honored, fought in France as a member of 101st Airborne and British 6th Airborne Division. After the war, he served in the U.S. Army, retiring as a colonel. He later became a U.S. citizen and lives in Kaneohe, Hawaii.

The ceremony was held aboard Prairial, which is homeported in Tahiti, here for Rim of the Pacific (RIMPAC) 2014 exercise. RIMPAC provides a unique training opportunity that helps participants foster and sustain the cooperative relationships that are critical to ensuring the safety of sea lanes and security on the world's oceans. RIMPAC 2014 is the 24th exercise in the series that began in 1971.

(See additional photo on A-5.)

Adm. Harry Harris Jr., commander of U.S. Pacific Fleet, thanks Ralph Tomei, a 442nd Regional Combat Team veteran, for his contributions during World War II. Tomei represented his friend Shiro Aoki as Rear Adm. Anne Cullere, commander-in-chief of French maritime forces in the Pacific, presented him with the French National Order of the Legion of Honor aboard the French fl  rial-class frigate FS Prairial (F731).

Hiroo Endo, Yasunori Deguchi and Albert Brum, all World War II veterans, give honors during the U.S. national anthem on July 2. Rear Adm. Anne Cullere, commander-in-chief of French forces in the Pacific, presented the veterans with the French National Order of the Legion of Honor during the ceremony aboard the French fl  rial-class frigate FS Prairial (F731).

## Celebrating birthday of our nation—freedom to be free

Col. Randy Huiss

15th Wing commander

It is an amazing time to be in Hawaii as we are about to celebrate the birthday of our nation. This will be a first for me as I just arrived on the island a little over a week ago and am really looking forward to seeing the fire-

Col. Randall Huiss

works over Pearl Harbor.

I am excited and extremely grateful to have the opportunity to continue serving alongside the exceptional men and women in uniform who help defend our freedoms and protect our nation for future generations that follow.

Through your careers in the Air Force, you will have,

or already have had, extraordinary opportunities to visit foreign lands. While each place has its own unique appeal, and I may have enjoyed my time while traveling abroad, it is always special to come back home. There is no place I would rather be than back in the U.S.A.

Our country is special, not because of the great material

riches or fancy gadgets that we have been blessed with and have come to enjoy but for the fortitude of the American spirit, the toughness that ensures we will get through anything together. The bullet pock marks on the PACAF headquarters building and the Pearl Harbor memorials bear witness to some of the trials our nation

has endured.

We all know that freedom is not free, so please take a moment this weekend—as you are enjoying the holiday with family and friends—to think of those who have come before. The torch is ours to carry now, and I wouldn't have it any other way. Happy Fourth of July everyone!

### Commissary Fourth of July hours announced

The Pearl Harbor Commissary will be open from 9 a.m. to 5 p.m. today for the July 4th holiday. The Hickam Commissary will be open from 10 a.m. to 6 p.m. For more information, call the Pearl Harbor Commissary at 471-8402, ext. 101 or the Hickam Commissary at 449-1363.

### Correction to Onizuka Village project – A2

A photo regarding the soil vapor extraction system at Onizuka Village housing, which was published on page A-7 of the June 27 edition of Ho'okele, incorrectly iden-

tified the employee's company affiliation. It should read: "An employee from contractor Directional Technology Drilling operates a horizontal drill rig June 10 that will install a

soil vapor extraction (SVE) system at Onizuka Village housing at Joint Base Pearl Harbor-Hickam." We apologize for the error and any inconvenience this may have caused.

# Largest international maritime exercise begins in Hawaii

**Vice Adm. Kenneth E. Floyd**

*Commander, U.S. 3rd Fleet;  
Commander, RIMPAC  
Combined Task Force*

Today (June 26) we kick off the 24th Rim of the Pacific exercise in Pearl Harbor, Hawaii, and I can tell you that there are more than 25,000 Sailors, Marines, Airmen and Soldiers from 22 nations here that are very excited to begin the world's largest international maritime exercise.

The RIMPAC series of exercises first started in 1971, and though the goal of the

Vice Adm. Kenneth E. Floyd

exercise hasn't changed—helping forces from different countries work together better at sea—with each edition the exercise evolves

to include new partners, new concepts, new ships and new technologies. With more than 50 ships and submarines and more than 200 aircraft, RIMPAC 2014 is the biggest ever.

There really is no other exercise in the world quite like RIMPAC. Forces from Australia, Brunei, Canada, Chile, Colombia, France, India, Indonesia, Japan, Malaysia, Mexico, Netherlands, New Zealand, Norway, People's Republic of China, Peru, the Republic of Korea, the Republic of the Philippines, Singapore, Tonga, the United Kingdom and the United States have gathered to work together

in Hawaii and the waters nearby, as well as in southern California. Their training includes everything from disaster relief and maritime security to complex warfighting.

In addition to two countries participating for the first time at RIMPAC, Brunei and China, we have hospital ships taking part in the exercise for the first time. We have added a special operations component commander, which is another first. And we will be using some new equipment, like the Independence variant of the littoral combat ship, with LCS-2 operating in the waters

near Hawaii and LCS-4 off the coast of San Diego.

The training at RIMPAC is realistic and relevant. The relationships that are forged at RIMPAC span oceans and years. Ask any veteran of RIMPAC's past, and they will tell you that what stands out most in their memory is the chance to work alongside sailors of different navies and ships of different nations, improving their skills and building trust so that when we are called upon to respond to a crisis or disaster, we are ready to respond as a team.

The global maritime environment is too large and too

complex for any one nation to safeguard, and countries in the Pacific region have experienced economic prosperity largely because of the security and stability that exists at sea. Our economies, lives and mutual interest are more intertwined now than ever before, and RIMPAC provides the opportunity for participating forces to train to ensure the ability to deter disruptions to global supply chains and threats to lines of communication and commerce.

We have put together a strong team for RIMPAC 2014, and I am looking forward to what is certain to be a great exercise.

Commentary

# The certainty, meaning of freedom: Independence Day

**Rear Adm. Rick Williams**

*Commander, Navy Region  
Hawaii and Naval Surface  
Group Middle Pacific*

For Americans, Independence Day is a time to celebrate the birth of our nation and reflect on our freedom, equality and heritage. "Life, liberty and the pursuit of happiness"—those are val-

Rear Adm. Rick Williams

ues we can share with others and defend and protect together.

Our independence and the freedoms we enjoy today came at a price of life's sacrifice from our dedicated military who came before us to fight for our independence and defend it during the past two centuries.

So, on this Independence Day, we should remember those who have gone before, and we should reflect on our freedoms and how our country has secured and maintained them. As recent world events show us, freedoms like ours should not be taken for granted; they have been hard earned.

This summer here in Hawaii we are making history. RIMPAC 2014 is the world's largest international maritime exercise, and our

region is proud to help host most of the 25,000 participants and observers from dozens of countries.

This weekend, I know many of us will share barbecues, sporting events, a concert and fireworks with our RIMPAC guests. Our guests will be able to see—some for the first time—the openness, hospitality and genuine goodwill of Americans.

This summer is an uncertain time in many parts of the world. With that uncertainty, there is an even greater need to promote understanding and build cooperative relationships.

Our Navy helps to provide certainty and security in an uncertain world. Security is one of our nation's leading exports.

We live in an intercon-

nected world, one which now depends on the ideals of freedom we defend: access to sea lanes and open oceans. As the nation's maritime strategy says: "Because the maritime domain—the world's oceans, seas, bays, estuaries, islands, coastal areas, littorals, and the airspace above them—supports 90 percent of the world's trade, it carries the lifeblood of a global system that links every country on earth."

RIMPAC helps our military team build capabilities in humanitarian assistance and disaster relief, maritime security operations, sea control and other skills. The net result: we are more able to work together to preserve peace and prevent conflict.

Every day I look around

and I see service members, civilians and families who are proud to be here in Hawaii and who are sharing the spirit of aloha here in this wonderful state.

This Fourth of July weekend, during RIMPAC, let's celebrate together. Let's further reflect on the meaning of Independence Day. And let's commit to making our celebrations safe, using common sense and making good decisions.

We need you safe, healthy and on our team to meet our mission—for certain.

We must also remember that this holiday weekend there will be many of our shipmates and fellow service members standing duty and forward-deployed in defense of our country and all it stands for. Keep them in your thoughts and prayers.

Housing residents may contact the publisher directly at (808) 690-8864 if they wish to discontinue home delivery.

## Stay safe on Fourth of July weekend

**Don Robbins**

*Editor, Ho’okele*

Here are some tips on ways to keep safe over the Fourth of July weekend holiday.

### Driving

- Be careful at intersections. Don’t assume others are going to do the right thing.
- When operating a vehicle, remember to stay focused (not distracted), and keep your eyes on the road.
- Stay aware of the drivers around you. If you see an erratic driver, don’t get angry, get away from them.
- Don’t drink and drive. If you plan to drink, plan your transportation in advance.
- Don’t drive if you are tired.
- Keep your car running well. Make sure your tires, brakes, headlights and taillights, and turn signals are all working perfectly.
- Obey the speed limit. In rain, fog and darkness, slow down.
- Drive defensively. Obey the rules and be predictable.
- Keep your children in car safety seats, and know how to install the seats.
- Use your turn signals and don’t make any sudden moves.

### Boating

- Learn to swim.
- Don’t drink while boating.
- Wear an approved life jacket, and make sure your passengers do, too.

### Grilling food

- Keep your grill at least three feet away from your house, porch, shed, trees or bushes.
- Use starter fluid that is made especially for barbecue grills. Follow the instructions about how to ap-

ply and light it.

- Don’t squirt starter fluid on a fire after you’ve already tried to start it.
- Never use gasoline to try to start or restart charcoal.
- If you have a gas grill, make sure you read and follow the instructions about how to use and store it.
- Store gas cylinders outside and keep them away from buildings.
- Keep children away from the grill both while you are cooking, and after you finish while the grill is still hot and when hot coals remain.
- Don’t leave lit grills unattended.

### Beach safety

- Protect your skin. Limit the amount of direct sunlight you receive between 10 a.m. and 2 p.m. and, wear a sunscreen with a sun protection factor containing a high rating such as 15.
- Drink plenty of water regularly and often even if you do not feel thirsty. Your body needs water to keep cool.
- Watch for signs of heat stroke: Heat stroke is life-threatening. Signs include hot, red, and dry skin; changes in consciousness, rapid, weak pulse, and rapid, shallow breathing.

### Swimming pools and kids

- If you’re at a pool with children who are either very young or who can’t swim, don’t leave them alone, even if they aren’t in the water.
- If you are taking care of an infant or toddler, don’t let them out of arm’s reach.
- Learn about rescue swimming and take a CPR course. You never know when you might have to rescue someone.
- Make sure you have life preservers handy.

Awards will be given for each event listed below:

First in-port period events (now to July 7), will be eligible toward RIMPAC Cup.

The following events will be held through July 7:

- Basketball tournament at Joint Base Pearl Harbor-

Hickam Fitness Center.

- Soccer tournament at Ward Field.

• Indoor volleyball tournament at Joint Base Pearl Harbor-Hickam Fitness Center and Naval Station Gym.

- Four-person sand volleyball tournament at Went-

worth Volleyball Sand Courts.

- Softball tournament at Millican Field.

From now through July 7, a singles and doubles tennis tournament at Wentworth Tennis Facility.

Second in-port period

## RIMPAC ship tours to be held Saturday

RIMPAC participants, military and Department of Defense ID-cardholders, their families and sponsored guests are invited to tour RIMPAC ships from 9 a.m. to 12 noon and from 1 to 4 p.m. on July 5, unless otherwise stated.

Requirements:

- Guests must be 8 years old or older.
- Must be independently mobile and able to walk aboard the ship and climb ladder wells and on gridded deck plates.
- Dress comfortably and wear covered shoes, no heels or slippers.
- Do not carry bags or anything that offers concealment.
- Photography will be limited to the immediate area where the ship is moored and onboard the ship during the tour, as permitted by the respective ships’ commanding officers.
- Be prepared to show your ID at security gates and check points.
- Parking is available in surrounding parking lots. No parking is allowed on the piers.

The following ships are available for tours and are subject to change:

### Bravo Piers (along Pearl Harbor Boulevard)

Enter via pedestrian gates located at B-24 and B-26.

USS Spruance (DDG 111) - Pier B-23; USS Sampson (DDG 102) - Pier B-23; USS Rodney M. Davis (FFG 60) - Pier B-24; USCGC Waesche (WMSL 751) - Pier B-24; USS Gary (FFG 51) - Pier B-24; USS Chosin (CG 60) - Pier B-25; USS Cape St. George (CG 71) - Pier B-25.

Enter via pedestrian gates located at B-19

ARM Revolucion (P 164, Mexico) – Pier B-3; JS Ise (DDH 182, Japan) – Pier B-4; HNoMS Fridtjof Nansen (F 310, Norway) – B-4; INS Sahyadri (F 34, India) – Pier B-7; USS Port Royal (CG 73) – Pier B-10; FS Prairial (F 731, France) – Pier B-16; CNS Blanco Encalada (FF 15, Chile) – Pier B-15; RSS Intrepid (F 69, Singapore) – Pier B-20; Almirante Padilla (FM-51, Colombia) – B-21; USS Michael Murphy (DDG

112) – B-9; USS Chafee (DDG 90) – B-15; USS Rushmore (LSD 47) – B-16.

### Mike Piers

Enter via pedestrian gate at M-4.

KRI Banda Aceh (LPD 593, Indonesia) – Pier M-1; USS Lake Champlain (CG 57) – Pier M-3; JS Kirishima (DDG 174, Japan) – Pier M-4

### Sierra Piers

Enter via pedestrian gate at Sierra-10

HMCS Calgary (FFH 335, Canada) – Sierra 8/9; HMAS Success (OR 304, Australia) – Sierra 8/9

### Hotel and Kilo Piers

Enter at pier security gate checkpoints.

USS Ronald Reagan (CVN 76) - Pier H 2/3 (tours start at the top of the hour); HMNZS Canterbury (L 421, New Zealand) – Pier H ¼; USS Peleliu (LHA 5) - Pier K-10. On July 5, available for tours only from noon to 4 p.m.; USNS Mercy (T-AH 19) - Pier K-5. Also available for tours on weekdays at 9 a.m. and 1 p.m.; PLA(N) Haikou (DD 171, China) - Pier K-7/8 8:30 to 11:30 a.m.; PLA(N) Peace Ark (T-AH 866, China) - Pier K-7/8 1 to 5 p.m.

## RIMPAC features sports tournaments, recreation

### Joint Base Pearl Harbor-Hickam Morale, Welfare and Recreation Athletics

RIMPAC sports tournaments will run during in-port periods. The deadline passed and most are at full capacity.

ness Center.

- Soccer tournament at Ward Field.

• Indoor volleyball tournament at Joint Base Pearl Harbor-Hickam Fitness Center and Naval Station Gym.

- Softball tournament at Millican Field.

• On Aug. 1, a 5K run will begin at RIMPAC Central across from Bravo Pier.

# Pearl Harbor-Hickam Highlights

An MV-22 Osprey with Marine Medium Tiltrotor Squadron (VMM) 161, Marine Aircraft Group 16, 3rd Marine Aircraft Wing, prepares to set down on the runway at Pacific Missile Range Facility (PMRF), Barking Sands, Kauai on June 24 during an initial test of PMRF's airfield capability to support possible future Osprey training. Two Ospreys practiced take-off and landing maneuvers on different parts of the airstrip. It was the first time that the MV-22 flew into PMRF. Two VMM squadrons will be based at Marine Corps Base Hawaii at Kaneohe Bay in support of III Marine Expeditionary Force (MEF) elements in Hawaii. The tiltrotor Osprey provides increased speed, longer range and greater mission versatility than a helicopter.

# RIMPAC Sailors volunteer, learn about Native Hawaiian culture

Sailors from USS Lake Champlain, USS Spruance and USS Sampson, volunteer their time at the Halealoha Haleamau Burial Platform at joint base.

Story and photo by  
Patty Coleman

Navy Region Hawaii  
Environmental Outreach

Sailors from the USS Lake Champlain (CG-57), USS Spruance (DDG-111) and the USS Sampson (DDG-102), who are currently participating in Rim of the Pacific (RIMPAC) Exercise 2014, volunteered their time June 27 to work and learn about Native Hawaiian culture at the Halealoha Haleamau Burial Platform at Fort Kamehameha on the Hickam side of Joint Base Pearl Harbor-Hickam.

Jeff Pantaleo, Navy Region

Hawaii archaeologist, cultural resources program manager and Navy Native Hawaiian liaison officer, explained that this platform was created in consultation with the Native Hawaiian community to be a respectful way to properly preserve ancient Native Hawaiian remains or 'iwi (ee-vee) that were discovered during various base construction and maintenance projects.

The platform is a replica of a traditional Hawaiian burial platform and is surrounded by a *naupaka* hedge, an indigenous plant that discreetly shields it from view.

As respectful stewards of the

environment, the Navy and Air Force seriously accepts its responsibility in maintaining this burial platform. "It's great, working with the ships," Pantaleo said.

"Everyone is eager to learn about the Hawaiian culture and participate in a community outreach opportunity like this located on base. It's a win-win for all!"

This year's RIMPAC, the 24th in the series that began in 1971, is scheduled from June 26 to Aug. 1. Twenty-two nations, 49 surface ships, six submarines, more than 200 aircraft and 25,000 personnel will participate.

## Navy water consumers in Hawaii receive annual water quality report

Story and photo by  
Denise Emsley

Naval Facilities  
Engineering  
Command Hawaii

The Navy's 2014 Water Quality Reports are being distributed to all Navy, Air Force, Department of Defense (DoD) and some non-DoD customers in Hawaii beginning June 23.

"Naval Facilities Engineering Command (NAVFAC) Hawaii operates six water systems and takes its mission of providing safe drinking water to customers very seriously," said Aaron Poentis, environmental business line director.

"We understand this important responsibility and have the knowledge and talent to make sure the treatment and distribution of this resource is properly executed in an efficient and secure manner."

As with all other drinking water providers throughout the nation, NAVFAC Hawaii is required by the U.S. Environmental Protection Agency (EPA) to report test results on water that has been delivered over the past year. These annual water quality reports, also called

the consumer confidence reports (CCRs), provide data on the quality of drinking water provided to Navy water consumers by including information on the sources of water, health effects, compliance status and other related statistics. They also contain tables listing all contaminants detected in the water at levels above the EPA's prescribed minimum detection limits.

"All sampling and testing is done by following strict protocols and performed by certified experts with the results provided by the Navy to state regulators for review and analysis," said Poentis.

"The annual reports deliver this information to water consumers to educate them as well as confirm to them that the drinking water is completely safe and meeting all federal and state drinking water standards," he said.

The six water systems owned and operated by NAVFAC Hawaii are located at: Barbers Point (Kalaeloa), Camp Stover, Naval Magazine (NAVMAG) Lualualei, Naval Computer and Telecommunications Area Master Station Pacific (NCTMAS PAC) Wahiawa, Joint Base Pearl Harbor-Hickam

(JBPHH) and Pacific Missile Range Facility (PMRF), Kauai. Annual reports are developed for each system, with the exception of NAVMAG Lualualei which does not require a report since it does not service any residents.

All Navy-provided water is from ground water sources similar to that of the city's Board of Water Supply. In accordance with Navy policy, it is chlorinated and fluoridated as indicated in the reports.

In June of each year, hard copies of the annual water quality report are mailed or hand-delivered to NAVFAC Hawaii's command customers. These customers are asked to post the report in highly-visible or high-traffic areas so that water users may see them.

For military housing residents, the distribution of water quality reports is handled through various housing management offices.

- JBPHH Water System – Most Navy housing residents near Joint Base Pearl Harbor-Hickam should contact Forest City's Residential Management office at the Aloha Center (Moanalua Shopping Center - 4825 Bougainville St., suite 100).

A water distribution system operator from Naval Facilities Engineering Command Hawaii's utilities water production section takes a sample of drinking water from building X29 on the command's main compound on June 11 at Joint Base Pearl Harbor-Hickam.

- JBPHH Water System – Air Force housing residents at JBPHH Hickam-side may contact Hickam Communities (211 Mercury St.).

- JBPHH Water System - Iroquois Point housing residents may contact Waterfront at Puuloa (5105 Iroquois Ave.).

- Camp Stover and NC-TAMS PAC Water Systems – Housing residents should contact Forest City's Pearl

City office (557 Lehua Ave.).

- Barbers Point Water System – Housing residents should contact their housing office, Kalaeloa Rental Homes (4285 Independence Road).

- PMRF Kauai Water System – Reports for this system will be distributed by the NAVFAC Hawaii Public Works Department at Bark-ing Sands.

In addition, all reports are

electronically available via NAVFAC Hawaii's public website at <http://ow.ly/yFW3P>. The new 2014 versions were posted June 23.

If unable to obtain a hard copy or electronic copy of the 2014 Water Quality report, contact NAVFAC Hawaii's Public Affairs at 471-7300 or the command's environmental compliance office at 471-1171, ext. 203

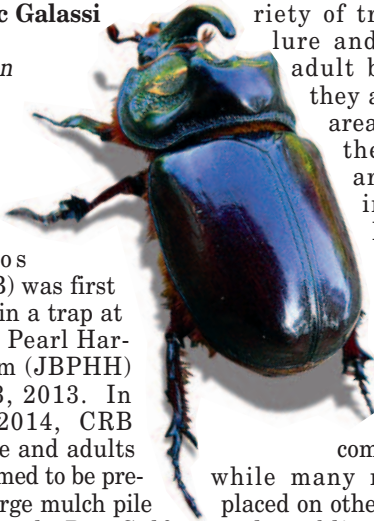

# Navy continues battle against coconut rhinoceros beetle

Lt. j.g. Eric Galassi

Navy Region  
Hawaii  
Public  
Affairs

The coconut rhinoceros beetle (CRB) was first discovered in a trap at Joint Base Pearl Harbor-Hickam (JBPHH) on Dec. 23, 2013. In January 2014, CRB eggs, larvae and adults were confirmed to be present in a large mulch pile on the Mamala Bay Golf Course on base.

Efforts have been underway since January to determine the extent of the beetle's infestation on Oahu. This has been done with a combination of methods, including conducting visual surveys of coconut trees and manila palms for feeding damage, searching through mulch and green waste piles for larvae, and by placing a va-

riety of traps that lure and capture adult beetles if they are in the area. Some of these traps are placed in Joint Base Pearl Harbor-Hickam

(JBPHH) communities, while many more are placed on other military and public grounds around the island.

The State of Hawaii Department of Agriculture (HDOA) is the lead agency in this effort. Navy Region Hawaii and JBPHH have remained in close coordination with HDOA and United States Department of Agriculture (USDA) while also working together with U.S. Fish and Wildlife Service, University of Hawaii, Department of

Land and Natural Resources (DLNR), and Animal and Plant Health Inspection Service Plant Protection and Quarantine (APHIS-PPQ). This team has been performing the surveys, extermination and public awareness work to minimize the spread and eventually eliminate the beetle on Oahu.

"Unfortunately, it appears that the beetle found favorable breeding habitat in areas of the Mamala Bay Golf Course where green waste had accumulated or was being composted [and] was continuously moistened by the course irrigation system," said Dr. Cory Campora, natural resources specialist at Naval Facilities Engineering Command (NAVFAC) Hawaii. The green waste or debris in the areas that were confirmed as CRB breeding sites was excavated and ground twice on site using a "tub grinder," similar to a wood-chipper but capable of reducing ma-

terial to a smaller size. The ground mulch was then enclosed in tarps and netting to deter adult beetles from laying additional eggs in or surviving life stages from moving out of the mulch while it awaits further treatment.

"Similar areas of green waste or mulch are present in other areas of the base but so far have been negative for CRB eggs and larvae. Because these are all potential breeding sites, all material at these sites are under quarantine, meaning they cannot be moved, until they are treated to ensure that no CRB are present," Campora explained.

The advantage provided by the Navy-funded grinding process is that it eliminates all but the earliest life stages of the CRB. Adults, pupae and large larvae are destroyed by the grinding. With only the early stages of eggs and small larvae remaining, this technique then provides time to develop and

perfect methods for eradication.

The CRB has a hard black shell with a horn on its head that is larger in males. Adult beetles are nocturnal and can grow to more than two inches in length. The beetle feeds on such plants as coconut palm trees, oil palms, other palm species, banana, sugarcane, papaya, sisal and pineapple. The CRB can often kill a palm tree when feeding on it, which makes it a very destructive species for Pacific islands.

The female adult beetles lay their eggs in decomposing organic matter where they develop into large C-shaped grubs before transforming into beetles, a process which takes about three to four months from egg to adult. Guam has experienced a particularly extensive infestation of the CRB that has killed off a significant number of the coconut palm trees on the island.

"It is unknown at this time how the CRB arrived

at JBPHH, and it is very difficult to determine the method of arrival," Campora said.

It is possible the CRB could have come on either military or civilian flights from many possible locations. In early November, inspectors at Honolulu airport picked up a CRB in luggage from a flight arriving from Japan but this was determined to be an isolated incident.

Since this effort began, approximately 500 adult and 600 larval beetles have been found. Of these, only 13 adults have been discovered outside of the JBPHH boundaries.

Residents can report any sighting of the beetle to the state pest hotline at 643-PEST (643-7378). Information such as physical address, latitude and longitude, and/or a description of where it was found is needed. Pictures of potential CRB may be sent to the following e-mail address: stoprhino@gmail.com.

# Fireworks, 3 Doors Down to highlight today’s Fourth of July celebration

**Joint Base Pearl Harbor-Hickam  
Morale, Welfare and Recreation**

The Joint Base Pearl Harbor-Hickam Morale, Welfare and Recreation July 4 Celebration will begin at 3:30 p.m. today on Ward Field.

Multi-platinum recording artists 3 Doors Down will headline the evening’s entertainment at 7:30 p.m.

The event finale will consist of a fireworks show which begins at 9 p.m.

Free activities during the day include a petting zoo, “Xpress Train,” airbrush tattoos, batting cage and a 360-degree photo booth. The event will also include free pizza samples while supplies last and a car show exhibit.

Rides will be available for purchase. There will be food and beverage booths.

Food choices for sale will include hot dogs, burgers, plate lunches and sweets.

Participants can register and get their sponsor’s punch card filled before turning it in at the spon-

sor’s tent. They will have a chance to win prizes including gift cards and a trip to Las Vegas.

For the safety and security of patrons and to expedite entry, the following guidelines have been established for the event.

**The following items are not permitted:**

- Audio and video recording devices and cameras, including tablets and computers, computer

bags and camera bags.

- Purses larger than a clutch bag.
- Food and beverages, water bottles, coolers or thermoses.
- All bags including backpacks, briefcases, fanny packs and cinch bags.
- Seat cushions, wagons, umbrellas or luggage of any kind.
- Tents or barbecues.
- Weapons and blades of any type.

- Pets and animals with the exception of service animals.

**The following are permitted items:**

- Cell phones.
- Strollers for infants and/or children in attendance and diaper bags with diapers, infant bottles with formula, infant and toddler food.
- Hand-carried ponchos, hats, sunscreen, jackets, blankets, folding chairs not

to exceed 32 inches in height. Leave all chair bags in your car.

- Clutch purses or clutch bags, with or without handles or straps, five inches height by seven inches by one inch deep.

Items can be carried in a clear, disposable plastic bag, no larger than quart size (seven inches by eight inches).

Exceptions may be made for those with extenuating

medical circumstances.

All personnel and items are subject to search.

North Road will be closed from noon until the end of the event from Nimitz Gate to the Pearl Harbor Boulevard intersection street along Ward Field.

Pearl Harbor Boulevard will be closed from 8 p.m. until the end of the event from North Road to Scott Pool (the street along Bravo piers).

# Visiting Sailors volunteer to clean historic Kalaeloa Heritage Park

**Lt. j.g. Eric Galassi**

*Navy Region Hawaii  
Public Affairs*

Eighteen volunteers from the visiting ships, USS Lake Champlain (CG 57) and USS Sampson (DDG 102), helped in a project to restore the historic Kalaeloa Heritage Park on June 26.

They were greeted with a Hawaiian blessing and a history of the park from Shad Kane, Native Hawaiian cultural practitioner. After a tour of the park and a depiction of its original inhabitants, the Sailors started work, clearing branches and

other plant waste to make space for landscaping that will use native plants.

Chaplain Lt. Shaun Kennedy of the Lake Champlain was appreciative of the history lesson.

“It’s so great how Shad Kane took the time out of his busy schedule for us, sharing his knowledge about the Kalaeloa Heritage Park. He spoke of how some ancient Hawaiians lived and possibly why they settled there in such a dry, arid area. I’ve never thought how the sugar plantations in the upper regions affected life at the lower regions by channeling water to other

areas to water their crops,” Kennedy said.

Kalaeloa Heritage Park is a 77-acre parcel of land located at the former Barbers Point Naval Air Station. After the air station’s closure, the land was declared a heritage park due to historical structures. These structures consist of several house foundations constructed with stacked karst stones as well as a stone-lined path that once extended four miles.

The settlement has been dated to about 560 years old and was determined to be inhabited by people from Tahiti due to the manner of construc-

**Photo by John Muraoka**

Volunteers from visiting ships USS Lake Champlain and USS Sampson clear plant waste as part of a restoration effort at Kalaeloa Heritage Park on June 26.

tion of the house foundations, typically using upright stone formations.

The plan for the park is to eventually turn it into a re-creation of the original

Tahitian settlement that was located there centuries ago.

# Port Royal gets overtime victory over ROKS SRS

Story and photo by  
Randy Dela Cruz

Sports Editor, Ho'okele

A late game-tying goal by Gunner's Mate 1st Class Jeanot Blaise set up an overtime triumph by USS Port Royal (CG 73) over ROKS Seoae Ryu Seong-ryong (DDG 993) on June 30 in a Rim of the Pacific (RIMPAC) Exercise 2014 international soccer matchup at Ward Field, Joint Base Pearl Harbor-Hickam.

Although Blaise scored both of the two goals in regulation for Port Royal, he said that the team couldn't have done it without the total teamwork and cooperation of every player on the squad.

"It was an all team effort," Blaise acknowledged. "We played that team not too long ago and they got us 7-3. Today, we got lucky on that last pass and I just put my foot through it."

Earlier in the first half, Blaise put Port Royal ahead on a give-and-go that saw him take a pass at the top of the block and sneak a shot past the goalkeeper for a 1-0 lead.

"I said that if I get it right back, I'll take the guy [goalkeeper] on," he said about his first goal. "Next thing I knew, it was just me and the goalie. I had to make it to make my team proud."

The lead stood up through

Culinary Specialist Seaman Apprentice James Luebbe smothers a penalty kick in overtime to help USS Port Royal (CG 73) defeat ROKS Seoae Ryu Seong-ryong (DDG 993) in a 2014 Rim of the Pacific Exercise (RIMPAC) international soccer matchup.

halftime, but minutes after intermission, Seoae Ryu Seong-ryong got a break when Chief Petty Officer Hwang Sang Hyun cleared himself on a breakaway near the Port Royal goal.

Circling around the top of the box, Hyun got the one-on-one he wanted and booted a shot past the outreached arms of Port Royal goal-

keeper Culinary Specialist Seaman Apprentice James Luebbe for the goal and 1-1 tie.

While it took Seoae Ryu Seong-ryong a little more that a half to pick up their first goal, it didn't take nearly as long for the team to put another one into the net.

After getting a free kick,

Chief Petty Officer Shin Sung Min set the ball down on the left sideline before launching a high shot that was right on target for the team's second goal and a 2-1 advantage.

With time running down, it appeared that the clock was going to expire on Port Royal before the team could get off another shot.

However, with less than two minutes to go, Blaise ran a hook pattern at the top of the box, got a perfect pass, and shot it through the goalkeeper for the tie.

"The pass was even better," said Blaise about his game-tying shot. "I just shot it. They were expecting a long throw, and we did it short and got them on

it."

In the penalty-kick overtime, Seoae Ryu Seong-ryong shot first, but any advantage they might have had by leading off was quickly erased by the quick reaction of Luebbe.

After settling in, Luebbe made a leap off of the kick and got enough of a lead to pin the ball down for the stop.

"Normally, the first way they look is where they are going to go," Luebbe pointed out. "It was a complete guess. It's guess and luck. That's all PKs are really."

Once they got the stop, Blaise said that it was just a matter of time before Port Royal would wrap it up.

"We were motivated," he said. "That (PK) is our game. We knew we were going to get it."

While the competition was tough, Luebbe said his teammates loved every minute of it.

Blaise said that the great thing about competing in RIMPAC is that once the battle on the field is over, there is nothing but sportsmanship and camaraderie between ships.

"I love it because not only we represent the Navy but the U.S.," he stated. "We kick and scream (during the game), but after that we give each other a big hug, nice getting to know you."

## Michael Murphy comes back to beat Ronald Reagan CS

Story and photo by  
Randy Dela Cruz

Sports Editor, Ho'okele

Down by five points with less than nine minutes remaining in the game, USS Michael Murphy (DDG 112) scored five straight points and then hung on to defeat USS Ronald Reagan (CVN 76) Combat Systems, 31-27, on June 29 in a 2014 Rim of the Pacific Exercise (RIMPAC) basketball game at Joint Base Pearl Harbor-Hickam Fitness Center.

A three-pointer by Electronics Technician 3rd Class Ryan McConnell put Ronald Reagan ahead, 24-19, but a trey by Yeoman 3rd Class Courtney Sims narrowed the margin before the shooting guard zeroed in on another basket to finally tie the score at 26-26.

Later a putback by Sims off of a missed shot by Culinary Specialist 3rd Class Terrance Sample put Michael Murphy ahead for good at 29-27 with only 52 seconds in the game.

Sims led all scorers with 14 points, nine coming in the second half, while McConnell paced Ronald Reagan with 11.

"It's all about motivation," said Sample about the team's come-from-behind victory. "Coach gave us a good talk. It's all about keeping your head in the game, slow it down and take it easy. That's what we did. We got the ball around and made some good shots."

In the first half, both squads teetered back and forth with the lead changing three times before taking a 13-13 deadlock into halftime.

Sims converted a basket-and-one for one tie and Sample knocked down a bomb from beyond the arc to put Michael Murphy ahead for the first time at 11-8 before Ronald Reagan caught them up just prior to intermission.

Ronald Reagan scored the first two baskets of the second half to go up by a score of 17-13, but instead of letting the game get away, Michael Murphy, behind the hot hand of Sims, stayed close behind.

With the score tied at 19-19, McConnell swished a 15-foot shot and connected on his third three-pointer of the game to put Ronald

Yeoman 3rd Class Courtney Sims goes airborne to score two of his game-high 14 points to lead USS Michael Murphy (DDG 112) over USS Ronald Reagan (CVN 76) Combat Systems, 31-27, in a 2014 RIMPAC games showdown.

Reagan up by five.

However, Sims accounted for Michael Murphy's next seven points in a row before throwing down a putback to seal the game.

"It's just the killer instinct," Sims said. "My teammates said, 'you got to get them,' so I got them."

Playing on an international scale, said Sims, provided an extra amount of motivation to compete at an even higher level.

"I think I showed the world," he said. "Me, I like to rebound and shoot that thing. I pride myself in crashing boards."

Sample said that things started to take a turn in their favor once the team came out with a more aggressive attitude.

"Once the momentum starts, offense reflects off of defense," he said. "It all

works together."

McConnell, whose long-range shooting helped keep Ronald Reagan stay within reach until the very end, said that although the team came up short, he was quite happy with the way his team performed.

"I think it was a lack of playing time together," he said. "This was actually our first time playing together, so for what it was, we actually played pretty well."

No matter what the score was at the end, McConnell said, just the opportunity to compete against another ship as part of the largest international maritime exercise in the world was a great experience.

"It's been a blast," he said. "Seeing all the other navies come in, play against each other, it's pretty awesome."

Lt. j.g. Brad Harden gets ready to pounce on an outside pitch. Harden got all of it and drove the ball over the right-field fence for a grand slam in the top of the fourth inning.

## COMSUBPAC rallies past VP-47 with grand slam

Story and photo by  
Randy Dela Cruz

Sports Editor, Ho'okele

Down by five runs, Commander Submarine Force U.S. Pacific Fleet (COMSUBPAC) needed a big swing to get back into the game and they got one in a thunderous way.

Facing two outs in the top of the fourth, COMSUBPAC loaded the bases and with one knock, Lt. j.g. Brad Harden drew his team to within a single run by crushing an opposite-field grand slam that hung just inside the foul pole and cleared the right-field fence to make the score 6-5.

Later COMSUBPAC would complete the rally and defeat the Golden Swordsmen of Patrol Squadron 47 (VP-47), 8-7, on July 1 in a softball semifinal of the 2014 Rim of the Pacific Exercise (RIMPAC) games.

"I knew we were down by five and the bases were loaded," Harden said. "I just kind of tried to drive a pitch, saw it on the outside half, took it to right and it stayed fair. The wind was blowing, but it barely made it over."

The comeback seemed unexpected as COMSUBPAC hitters were stymied by VP-47 pitcher Aviation Structural Mechanic 1st Class Dan Nicks, who had the opposing batters eating out of his hand for the first three innings of the game.

"Initially, we were swinging at a lot of bad pitches," Harden admitted. "He was throwing deep on us, so we were popping up a lot. We just started taking some pitches, hitting the ones we wanted to hit and then we started to get more hits."

While Nicks was shutting down the COMSUBPAC attack, VP-47 hitters were busy at the plate, scoring three times in the bottom of the first and second innings to take a 6-0 lead.

In the first, Aviation Ordnanceman Airman Dustin Vanderveen stroked a two-out single to drive in the first run of the game.

Later, with runners on second and third, Naval Aircrewman Avionics 2nd Class Eric Gordan beat out an infield singe to drive in two more runs and a 3-0 advantage.

The visitors from Marine Corps Base Hawaii continued their attack in their next turn at-bat as VP-47 got two runners on base with two outs before Aviation Structural Mechanic 3rd Class Sean Tolbert cleared the bases with a triple.

Nicks followed up with a base hit to drive in Tolbert and seemingly put AV-47 in the driver's seat with a 6-0 lead.

After both teams failed to score in the third, COMSUBPAC hitters started to stir, when Senior Chief Operations Specialist James Casteen led off the bottom of the fourth with a double

and scored the team's first run on an RBI single by Information Systems Technician 2nd Class Morgan Myer.

A single and walk loaded the bases, and after a foul out, Harden launched the shot that made it a brand-new ballgame.

In the top of the fifth, COMSUBPAC loaded the bases once again and with one out, Cmdr. Ian Wexler hit a Texas-league hit that fell just past third base and into left field to drive in the game-tying and go-ahead runs.

COMSUBPAC added an insurance run in the top of the sixth on a two-out single by Casteen to make it 8-6 before the team closed out the win in the bottom of the seventh.

After giving up six runs in the first two innings, Harden said that once his team got out in front, it used its gloves to seal the deal.

"Being pretty sure-handed out there and then limiting their opportunities to score was pretty big for us," he said. "We knew we had a pretty good team and felt like we could make a run."

While Harden said that the competition is pretty tough, he is having a blast going up against armed forces teams from all over the world.

"It's been a lot of fun," he said. "To see these different teams out here, interact with them, it's been a good time."

# Live the Great Life

## Free MWR clinics help to improve golf game

Reid Tokeshi

Joint Base Pearl Harbor-Hickam Morale, Welfare and Recreation

Golf may be a challenging sport to master, but players can improve at four golf courses managed by Joint Base Pearl Harbor-Hickam Morale, Welfare and Recreation (MWR). Each course offers its own unique features, for those considering taking up the sport. MWR helps beginning golfers with golf clinics every month.

Those looking to rise above being a “duffer” can register for these clinics and get some tips on improving their game. Three of the courses offer the clinics every month. The fourth, Kealohi, is a shorter, nine-hole course for those wanting to get in a quick round.

MWR Marketing photo

Free golf clinics provide tips for those looking to sharpen their game.

The Navy-Marine Golf Course will hold its next clinic beginning at noon July 10. On the Hickam side of the joint base, a similar clinic will begin at 9 a.m. July 12. For those living on the west side of the island, Barbers Point Golf Course will hold a clinic on July 19. All clinics are free.

Additional classes are added intermittently, including some tailored for specific groups. A junior clinic, taught as an introduction to the game, will be held at Barbers Point on July 16.

Women’s and youth clinics are also planned throughout the year. Patrons can call their preferred location to find out more information and to register. Call Navy-Marine at 471-0142, Mamala Bay at 449-2304 and Barbers Point at 682-1911.

## Summer teen center lock-in keeps things cool

Teens can join in on the summer fun and cool off with a slushee at the Sip-A-Slushee Sleepover Hickam Teen Center Lock-in. The lock-in will begin at 7 p.m. July 11 and end at 7:30 a.m. July 12. Registration is \$25 or \$20 with a canned food donation for the Hawaii Food Bank.

Each lock-in has a different theme. Participants can experience some of the regular teen center offerings like video games, pool, ping pong and movies. Special activities are also planned such as dodgeball, bowling and a photo booth.

Snacks are always provided, but for this themed lock-in there will be slushies

Teens can escape the summer heat with slushies at the lock-in.

and Spam musubis included. There will be designated safe sleep zones for boys and girls, so pillows and blankets are suggested.

Registration can be completed at the teen center, which is located on Hickam in building 1859 on McChord Street. Teens registering must have a current registration form filled out with a parent signature. For more information, call the teen center at 448-0418. Patrons can also “like” them on Facebook at facebook.com/jbphh teencenter.

## Your Weekly Fun with MWR

Visit [www.greatlifehawaii.com](http://www.greatlifehawaii.com) or subscribe to MWR’s digital magazine Great Life Hawaii.

**Teens Night Out** will be held from 5 to 7 p.m. today at Naval Station Bowling Center for youth ages 13 to 19 years old. Admission is \$15 and includes bowling games and shoe rental, plus a cheeseburger, fries and medium drink. FMI: 473-2574.

**Molokai Saint Damien Tour** will be held from 8 a.m. to 3 p.m. Saturday. The Information, Tickets & Travel tour to Molokai Island includes shuttle to aircraft, round-trip airfare and guided tour. Participants should wear comfortable clothes and walking shoes and bring their own snacks, lunch and drinks. The cost is \$325 per person. FMI: 448-2295.

**Machine Quilting: Kimono Quilt class** will be held from 9 a.m. to noon every Saturday from July 5 through July 26 at the Hickam Arts & Crafts Center. Students can learn how to cut fabric and assemble the pattern

while learning quilting tips and how to complete the quilt. Tuition is \$100. FMI: 448-9907.

**Origami Paper Folding classes** will be held every Saturday from July 5 through July 26 at the Hickam Arts & Crafts Center. The Beginning Origami class for youth ages 10 and older meets from 12:30 to 2 p.m. The Intermediate Origami class for youth ages 13 and older meets from 2:30 to 4:30 p.m. Tuition is \$40 for each class. FMI: 448-9907.

**Library Know-How** will begin at 2 p.m. Saturday at the Hickam Library. This free program will cover how to search the online catalog and use the Dewey Decimal system and will include demonstrations of available online resources. FMI: 449-8299.

**Ocean Adventure Summer Camps** will be held July 7 through July 18 and July 21

through Aug. 1 at Hickam Harbor. *Keiki* Camp for ages 7 to 9 years old meets from 9 a.m. to noon, and youth camp for ages 10 to 15 years old meets from 1 to 4 p.m. Two-week sessions include swimming, fishing, sailing, kayaking and more. Space is limited. The cost is \$160 for each session. FMI: 449-5215.

**Summer Craft Camp** will be held from 10 a.m. to noon July 8 through July 11 at the Hickam Arts & Crafts Center. Weekly sessions are available until the end of July for youth ages seven years and older. New creative projects will be offered each session. The cost is \$55 per session. FMI: 448-9907.

**Preschool Story Time** will be held from 9 to 10 a.m. July 9 at the Hickam Library. The theme of this free program will be “Dogs and Puppies.” FMI: 449-8299.

**Kids’ Book Club** will begin at 2 p.m. July 9 at the Hickam Library for youth in fourth and fifth grades. The club will discuss “Electric Ben,” a biography of Benjamin Franklin, and members can take home a copy of “Three Times Lucky,” a mystery by Sheila Turnage. FMI: 449-8299.

**Stars & Stripes 5K** will begin at 7 a.m. July 10 at Wahiawa Annex Fitness Center. This free fun run is open to all eligible patrons. FMI: 653-5542.

**Hickam Historical Tour** will be held from 9:30 a.m. to 1:30 p.m. July 11 with visits to the original World War II Hickam Field buildings. The tour departs from the Information, Tickets & Travel Hickam office and from Royal Alaka’i Lodge and includes lunch. Due to the nature of the tour, it is not recommended for children under 6 years old. FMI: 448-2295.

Community Calendar

JULY

FEDS FEED FAMILIES

**NOW** — Joint Base Pearl Harbor-Hickam (JBPHH) is once again participating in the annual Feds Feed Families program through Aug. 31. The program is a charitable campaign by the United States Department of Agriculture that collects canned goods and non-perishable food items for those in need. Collection boxes for the food items have been placed at several locations around JBPHH including base chapels, the Naval Surface Group Mid-Pacific administration building, and the third floor of building 150. Individual commands will place their own collection boxes. FMI: Chief Religious Program Specialist Kimberly Bell at 473-4512 or [www.fedsfeedfamilies.gov](http://www.fedsfeedfamilies.gov).

AMERICAN HERO OF THE YEAR

**NOW** —The Army & Air Force Exchange Service will salute the American Hero of the Year. All active-duty and retired U.S. military personnel and their family members are eligible to win a grand prize of \$25,000 or one of four runner-up prizes of \$1,000. Entries will be accepted through July 17. FMI: [www.shopmyexchange.com/homewardbound](http://www.shopmyexchange.com/homewardbound).

COMMISSARIES HOLIDAY HOURS

**TODAY** — The Pearl Harbor Commissary will be open from 9 a.m. to 5 p.m. today and the Hickam Commissary will be open from 10 a.m. to 6 p.m. FMI: Pearl Harbor Commissary at 471-8402, ext. 101 and Hickam Commissary at 449-1363.

SING THE 4TH OF JULY

**TODAY** — A “Sing the 4th of July” event will be held from noon to 1:30 p.m. at hangar 37 at Pacific Aviation Museum Pearl Harbor. The event will include choral groups Melemai Kapu'uwaimai and from China, Liao Qiyu Opera Troupe. Admission is free with museum admission and free to museum members. FMI: 441-1000 or [www.PacificAviationMuseum.org](http://www.PacificAviationMuseum.org).

GIANT VOICE TESTING OF MORNING COLORS

**SATURDAY** — Joint Base Pearl Harbor-Hickam will test the use of the giant voice mass notification system to broadcast morning colors. The testing entails an announcement at 7:55 a.m. for the first call of colors, followed by morning colors (playing of the national anthem) at 8 a.m. and closing with a “carry on” bugle. The test will take place over giant voice towers located throughout the joint base including Pearl Harbor-Hickam, Pearl City Peninsula, Ford Island, Wahiawa Annex and West Loch. Full implementation will begin July 14 when the giant voice towers will broadcast morning and evening colors.

SLEEP BETTER NOW

**7, 21** — A free two-part “Sleep Better Now” class will be taught by clinical psychologist Dr. Melissa Belanger from 11:30 a.m. to 12:30 p.m. at the Makalapa conference room, Naval Health Clinic Hawaii. Participants need to attend the first session. Military, their family members and retirees who receive medical services at NHCH clinics are welcome to sign up for the class. The class is for people having trouble falling asleep or staying asleep. FMI: 473-1880, ext. 2299.

TAKE 20 SECONDS TO RELAX CLASS

**8** — A “Take 20 Seconds to Relax” class will be held from 11:30 a.m. to noon at Makalapa Conference Room, Naval Health Clinic Hawaii. Participants can learn what to do to de-stress quickly on those days that they can't work out or when life is more hectic than usual. Military members and their families and retirees who receive medical services at NHCH are welcome to attend. FMI: FMI: 473-1880, ext. 2299.

STRESS MANAGEMENT

**8** — A stress management class will be held from 8 to 11 a.m. at MFSC Pearl Harbor. The class will discuss how stress affects personal and professional lives, how to decrease the stress and how to interrupt the stress cycle and use relaxation techniques. FMI: FMI: 474-1999 or [www.greatlifehawaii.com](http://www.greatlifehawaii.com).

MILLION DOLLAR SAILOR/AIRMAN

**8, 9** — The Million Dollar Sailor/Airman class can be held at Military and Family Support Center (MFSC) Pearl Harbor. This two-day class is designed for junior Navy and Air Force personnel who can learn about proper budgeting techniques, credit management, savings and investment options, insurance, military pay and allowances, consumer rip-offs, how to obtain a loan, credit scores, report, and new and used car purchasing techniques. FMI: 474-1999 or [www.greatlifehawaii.com](http://www.greatlifehawaii.com).

BUILDING GOOD SELF-ESTEEM IN CHILDREN

**9** — A class called “Building Good Self-Esteem in Your Children” will be held from 10 a.m. to noon at MFSC Pearl Harbor. FMI: 474-1999 or [www.greatlifehawaii.com](http://www.greatlifehawaii.com).

STARS AND STRIPES 5K

**10** —A Stars and Stripes 5K run will begin at 7 a.m. July 10 at Wahiawa Annex Fitness Center. This free fun run is open to all eligible patrons. FMI: 653-5542.

EFFECTIVE COMMUNICATION FOR COUPLES

**10** — A class called “Effective Communication for Couples” will be held from 8 to 11 a.m. at MFSC Wahiawa. FMI: 474-1999 or [www.greatlifehawaii.com](http://www.greatlifehawaii.com).

SMOOTH MOVE

**10** — A “Smooth Move” workshop will be held from 8 to 11:30 a.m. at Makai Recreation Center, 1859 McChord St. This workshop features speakers from various departments to provide a better understanding of the permanent change of station (PCS) process such as: entitlements, travel regulations, shipping your vehicle, filling out necessary paperwork, clearing quarters, researching new base and location, and financial planning. FMI: 474-1999 or [www.greatlifehawaii.com](http://www.greatlifehawaii.com).

COSMIC BOWLING NIGHT

**11** — A Single Airmen and Sailors Cosmic Bowling Night will be held from 7 to 9 p.m. at the Naval Station Bowling Center. Free bowling, pizza and soda are available for single, active-duty Airmen and Sailors only. FMI: 473-2583.

X-MEN: DAYS OF FUTURE PAST (PG-13)

The ultimate X-Men ensemble fights a war for the survival of the species across two time periods in “X-Men: Days of Future Past.” The beloved characters from the original “X-Men” film trilogy join forces with their younger selves from “X-Men: First Class,” in an epic battle that must change the past - to save our future.

## Bellows Air Force Station to hold July events at Turtle Cove

Bellows Air Force Station will show free movies with popcorn Mondays and Wednesdays at 4 p.m. at Turtle Cove. They include:

- July 7, The Legend of Hercules (PG-13).
- July 9, Jack Ryan: Shadow Recruit (PG-13).
- July 14, Pompei (PG-13).
- July 16, The Monuments Men (PG-13).
- July 21, Ride Along (PG-13).
- July 23, The Legend of Hercules (PG-13).
- July 28, Jack Ryan: Shadow Recruit (PG-13).
- July 30, The Monuments Men (PG-13).

In addition, a “Patriot Game Operation

Geocache” will begin at 10 a.m. July 18. Items will be stored away in a hidden place. The mission is to uncover a hidden box on Bellows by using clues and global positioning satellite coordinates. Instructions and coordinates will be available at Turtle Cove and by calling 259-4112 or visit [https://www.facebook.com/pages/B](https://www.facebook.com/pages/Bellows-Air-Force-Station/)

[ellows-Air-Force-Station/](https://www.facebook.com/pages/Bellows-Air-Force-Station/).

Events are open to active duty military, military retirees, Reservists, National Guard, current and retired Department of Defense civilians with an authorized ID card and their families.

For more information, visit [www.bellowsaafs.com](http://www.bellowsaafs.com) or call 259-4200.

## Clinic to have limited operations July 16

Naval Health Clinic, Hawaii will have limited health care on July 16. Beneficiaries are asked to take this into consideration when scheduling care.

For Makalapa Clinic, there will be limited health care operations from 7:30 a.m. to 4 p.m. Laboratory, pharmacy and radiology services are available.

For Kaneohe Bay, Camp Smith, Wahiawa and ship-

yard clinics all health care operations are closed including laboratory, pharmacy and radiology services.

Beneficiaries can speak to a health care provider at any time the clinics are closed by calling the toll-free “Nurse Advice Line” at 1-800-874-2273, ext. 1. For emergencies, dial 911 or go to Tripler Army Medical Center. For active duty dental emergencies, call (808) 864-4705.

## Blood Drive schedule updated

Tripler Army Medical Center Blood Donor Center has updated its schedule of upcoming blood drives as part of the Armed Services Blood Donor Program (ASBP). They include:

- July 8, 11 a.m. to 3 p.m., NEX, Tripler Army Medical Center.
- July 10, 9 a.m. to 1 p.m., Pearl Harbor Naval Ship-yard, building 2, Joint Base Pearl Harbor-Hickam.
