U.S. Pacific Fleet announces Sea, Shore Sailors of Year

MC2 Jerine Lee

U.S. Pacific Fleet Public Affairs

U.S. Pacific Fleet announced the selection of the 2012 Sea and Shore Sailors of the Year during a ceremony held April 12 at the Hale Koa Hotel in Waikiki.

Competing among 10 petty officer first class finalists, Hospital Corpsman 1st Class (FMF) Joseph Santos from Saipan, the largest island of the Commonwealth of the Northern Mariana Islands, was named the 2012 Pacific Fleet Sea Sailor of the Year. Mass Communication Specialist 1st Class (AW/EXW/IDW) Cassandra Thompson from Trinidad was named the 2012 Pacific Fleet Shore Sailor of the Year.

Adm. Cecil D. Haney, commander of U.S. Pacific Fleet, recognized the 10 finalists for their individual accomplishments in the fleet and for their consistent and superior performance to reflect the Navy's core values of honor, courage and commitment.

"This is a very special day to recognize these outstanding Sailors and their contributions to the warfighting readiness of the U.S. Pacific Fleet," Haney said. "Their dedication, professionalism and outstanding leadership are vital to our mission success, and we cannot thank and congratulate them enough for their work on behalf of our Navy and our nation."

Representing U.S. Marine Corps Forces Pacific, Santos will be meritoriously promoted to chief petty officer.

"No words can explain the amount and different kinds of emotions are going through me right now," said Santos.

"The junior Sailors and my mentors have worked so hard, and they are the reason I am here today. I can't even begin to explain how grateful I am for their support. Special thanks to my mentors, my amazing family and the Sailors and Marines from Marine Aircraft Group 24. I am more than excited to use their lessons in becoming a new deck plate leader and share my knowledge to other Sailors so they can have this experience as well," Santos said.

U.S. Navy photo by MCC Paula Ludwick

Adm. Cecil D. Haney, commander, U.S. Pacific Fleet, awards the Navy and Marine Corps Commendation Medal to Hospital Corpsman 1st Class Joseph Santos, the winner of the 2012 U.S. Pacific Fleet Sea Sailor of the Year.

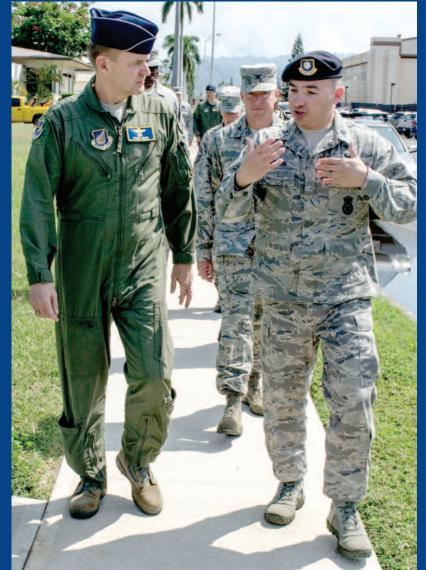

Cassandra Thompson, representing Commander, Naval Air Force, U.S. Pacific Fleet (COMNAVAIRPAC), will travel to Washington, D.C. this summer to represent the U.S. Pacific Fleet at the Chief of Naval Operations Shore Sailor of the Year competition. If selected, she will also be meritoriously

"I am very grateful for my junior Sailors for doing such a great job and getting me to this level," Thompson said. "I wouldn't be where I am today if it wasn't for my team of resilient, passionate and disciplined great leaders and MCs to give me the opportunity toe have this experience.

"I don't know where I would be if it wasn't for my wonderful support system being there for me through the long hours, deployments and challenging times. Most of all, I am proud to represent my rating. Hopefully I inspired them because as long as you work hard and help each other, there is no reason you can't

tion and extermination.

guests and a candle-lighting The ceremony began with ceremony by the Joint Base an invocation, introduction of Pearl Harbor-Hickam Honor

Guard. Six candles were lit to commemorate those who lost their lives during the Holocaust.

The theme of this year's event was "Never Again: the Warning Heeding Signs."

The late Pastor Martin Niemoller, a German and prominent Protestant pastor who spent the last seven years of the Nazi regime in a concentration camp, said this of the early postwar period: "First they came for the Socialists, and I did not speak out because I was not a Socialist. Then they came for the Trade Unionists, and I did not speak out because I was not a Trade Unionist. Then they came for the Jews, and I did not speak out because I was not a Jew. Then they came for me, and there was no one left to speak

Sexual Assault **Awareness Month** events planned at Joint Base Pearl Harbor-Hickam

April is Sexual Assault Awareness Month and upcoming events to raise awareness include:

• April 19, 6 a.m., Marine Corps Base Hawaii 5K Run fundraiser at the base flight line. For more information, call HM3 Tasha Joseph at 407-687-6394.

• April 24, 1 to 3 p.m., Denim Day ceremony at the PSD classroom, room 143, 4827 Bougainville Road. For more information, call Shari Freeman at 352-8834.

• April 28, 10 a.m. to 2 p.m. "Ryde" Against Sexual Assault Motorcycle Ride at Blaisdell Park. A barbecue will follow.

For more information, call Master Sgt. Charles Freeman at 599-0382.

Hawaii team's local action has global reach: Earth Day 2013

Rear Adm. Frank Ponds

Commander, Navy Region Hawaii and Naval Surface Group Middle Pacific

This year's Navy Earth Day theme, "Global Reach, Local Action," fits perfectly here in Hawaii. Consider our home in the islands, one

of the most beautiful natural places on our planet clean air, agua-blue Pacific Ocean, and green mountains and valleys, filled with life.

Every day is a reminder to protect the beauty around us.

Whether at sea or pierside, our Sailors are taking conservation and recycling seriously. At installations ashore, our service members, civilians and families are learning and living the meaning of "malama ka in 'aina" – "respecting the land." We are making a difference for this interconnected world around us.

The Sea Services have great respect for the marine partners to conserve enerenvironment. We have a special relationship with species, use renewable Honolulu, the oceans. We see the resources, recycle whenever Defense, power, moods and mystery of the seas as we operate our commitment to a cleanforward and stand watch in er environment – earth, air Manoa friends for tomordefense of freedom. We pro- and sea. tect marine mammals and ocean resources.

Navy diverts recyclable waste from local landfills

Sila Manahane

Naval Facilities Engineering Command Hawaii

April is Environmental Awareness Month and the Navy Region Hawaii's recycling program is an example of how reducing recyclable materials that could end up in local landfills on Oahu can be mutually beneficial to the Navy and the state

"We have made tremendous strides since inception in 1994 when the recycling program was run by Morale, Welfare and Recreation (MWR)," said Richard Vila, Naval Facilities Engineering (NAVFAC) Hawaii environmental protection specialist.

"It has now grown into an efficient, self-sustaining program with two convenient locations across Joint Base Pearl Harbor-Hickam (JBPHH)."

Initially under MWR, the recycling program could only accept a limited supply of materials such as paper and newspaper. Over time, control moved from MWR to the base's First Lieutenants Division and then in 2005 to NAVFAC Hawaii. Since 2005, NAVFAC Hawaii has shaped and expanded the Navy Region Hawaii's recycling program into what it is today.

"We have two convenient recycling locations on JBPHH, one on the Pearl side of the base (building 159) and the other on the Hickam side (building 1715), which both accept a long list of items," said Vila.

"We work with contractors to get the best deal we can on the materials, so that dollars made through recycling pays for the program's operation and the recapitalization of our equipment," he explained.

Recyclable items received by the program includes cardboard, wood, metals, white paper, newspapers/phone books, magazines, plastics and toner cartridges. Some items that are not accepted at the centers include, but are not limited to, the following: pressurized cylinders, light bulbs, treated lumber, envelopes with plastic windows and

"When we get a lot of a certain commodity such as paper or card-

U.S. Navy photo by Denise Emsley Aluminum cans are collected at the Navy Region Hawaii recycling program's

Hickam Redemption Center (building 1715).

are busy baling various materials every day."

NAVFAC Hawaii has implemented a number of developments to the program over the years including the addition of a redemption center at the Hickam location on one end of building 1715. The hours of operation are noon to 6 p.m. Tuesday through Friday and 9 a.m. to 3 p.m.

The redemption center operates with a voucher system where the customer can recycle their HI-5 cans and bottles in exchange for cash at the Hickam Bowling Center. The cans and/or bottles returned are equivalent to five cents each.

Customers can also request special pickups for bulk recyclable items such as metal furniture and other household appliances that are not in use. In addition, military, Department of Defense (DoD) civilians or contractor personnel may drop off their recyclables at either facility at their own convenience within the designated hours of oper-

At building 159 on the Pearl side, the facility is open from 8 to 11 a.m. and 12:30 to 2:30 p.m. Monday through Thursday and 8 to 11 a.m. Friday. For the facility on Hickam, it is open from 7:30 to 11:45 a.m. and 12:30 to 3:30 p.m. Monday through Friday.

Customers can also drop off plastic containers, glass bottles, aluboard we first have to bale it, then minum cans, paper and corrugated weigh and track it." said Vila. "We cardboard in designated 24-hour

drop off bins at buildings 159 and

"There is never a shortage in the supply of recyclable paper and cardboard," said Vila. "The annual report indicates we received, processed and recycled 1.4 million pounds of cardboard in FY12. White paper places second at 736,000 pounds which is equivalent to 368 small cars. However, the most valuable and profitable recycled goods are the ferrous and non-ferrous met-

The discarded ferrous and nonferrous metals are handled at the Pearl Harbor location. Out of all recyclable materials, metals reap the most benefits for the program, both quantitatively and monetarily. In FY12 alone, the metals collected and sold amounted to 2.1 million which pounds brought \$272,123.29 in support of the pro-

Navy Region Hawaii Recycling Program is an important way the service can contribute toward being good stewards of the environment and help work toward a sustainable future in Hawaii. With limited land resources, it is vital that everyone do their part to reduce waste being buried in local landfills. The Navy has made progressive steps toward achieving energy goals.

If you want to contribute to the Navy Region Hawaii Recycling Program or want more information, call 474-9207.

EARTH TIP

Rebecca Hommon

Navy Region Hawaii Environmental Counsel

Reminders are good things. They help us maintain focus on what needs attention or to return our attention to something forgotten or to refresh us to take renewed action.

Some tips to protect the environment include:

• Don't let pet waste run off. You can help reduce polluted storm water runoff by just picking up your pet's poop and dispose of it properly. Leaving pet waste on the ground increases public health risks or organic material to wash into the storm drain and eventually into local water bodies.

· Be extra aware of environmental conditions where older people live. As we age, our bodies become more sensitive to chemicals and environmental conditions. So you should carefully use products such as pesticides or cleaning solvents near areas where older adults live and sleep.

To read what the U.S. Environmental Protection Agency is doing for Earth Day, more tips on what we can all do to protect our environment, and to receive a daily Earth Tip during April (Earth Month), by allowing harmful bacteria visit: http://ow.ly/kaG7E.

PACFLT SOYs reflect on history

Continued from A-1

be at this level," she said.

Prior to the event, the 10 nominees spent the week at Pearl Harbor participating in events that encouraged networking while connecting with the Pacific Fleet's rich heritage and history. The Sailors visited the Battleship Missouri Memorial, the Pacific Aviation Museum and the USS Arizona Memorial where they paid their respects to the heroes of World War II with a wreath-laying

"These Sailors enjoyed a series of events throughout the week in which they were able to reflect on the history and heritage of the Sailors that came before them," said U.S. Pacific Fleet Master Chief John T. Minyard.

These 10 Sailors and their families represent the more than 120,000 Sailors in the Pacific. They embody our Navy's core values and continue to sacrifice so much for our country and citizens."

The other Sea Sailor of the Year nominees were Personnel Specialist 1st Class (SW/AW) Marianogerard Zamora, COM-NAVAIRPAC; Aviation Boatswain's Mate (Handling) 1st Class (AW/SW) Shawn-Patrick Bland, Commander, Naval Surface Force, U.S. Pacific Fleet (COMNAVSURFPAC); Builder 1st Class (SCW/EXW) Alfred Fehling, Navy Expeditionary Combat Command Pacific (NECC PAC); and Electrician's Mate 1st Class (SS) Franklin Tenney, Commander, Submarine Force, U.S. Pacific Fleet (COMSUBPAC).

The other Shore Sailor of the Year nominees were Explosive Ordnance Disposal Technician 1st Class (EWS) Jacob Shearman, NECC PAC; Electronics Technician 1st Class (AW/SW) Andrew Edwards, COMSUBPAC; Construction Mechanic 1st Class (SCW/EXW) Daniel Perez, COMNAVSURFPAC; and Cryptologic Technician (Networks) 1st Class (IDW/SW) Sha-nicca White, Commander, U.S. Pacific Fleet staff.

Former Chief of Naval Operations Adm. Elmo Zumwalt and former Master Chief Petty Officer of the Navy John Whittet established the Sailor of the Year program in 1972 to recognize those who best represent the group of dedicated and professional Sailors from each command and ultimately the fleet.

15th Wing brings touch of magic to Philippines

Staff Sgt. Terri Paden

15th Wing Public Affairs

One 15th Wing humanitarian recently spent time in the Philippines, using magic to help heal the spirits of impoverished communities while on a medical aid mission in the country.

Glen Bailey, 15th Wing Plans, Programs and Inspection office, said he jumped at the opportunity to join the Aloha Medical Mission in the Philippines when he was invited by the head of the organization.

The Aloha Medical Mission (AMM), a 30-year old non-profit corporation which includes members of the Hawaii medical community, prides itself on providing free medical care to low income areas. However, Dr. Brad Wong, AMM president, thought bringing along free entertainment would be an added bonus for the patients.

"Bringing Glen along was a no brainer," he said. "When I heard he wanted to come with us, I jumped at the opportunity. I've always thought having a magician to entertain the patients and their parents before and after their surgeries in order to take their minds off being operated on would be really great, and it really added to the mission."

As the volunteer entertainment, it was Bailey's job waiting areas, Bailey and his don't know they're poor

Glen Bailey, 15th Wing Plans, Programs and Inspection office, uses magic to turn his school-aged assistant into a rabbit during his magic show at an elementary school in Barangay Catituban, Philippines.

schools.

their families engaged while they waited to receive care. He did this by "magically" producing things for the kids to play with such as crayons and coloring sheets, matchbox cars, bracelets and hair clips.

"The reaction from the patients was tremendous," said Bailey. "They are sitting there for hours in sometimes extreme heat waiting to be seen, so we came and brought joy to their day by taking their mind off sitting there for so long with a little bit of magic.'

In addition to the hospital to keep the patients and team, which consisted of his

wife Lauren and fellow magician Bob Festa, brought the spirit of magic to more than 2,500 other members of the local communities by performing three 50-minute shows at area elementary

Bailey said the experience of bringing magic to towns so impoverished they didn't have running water or electricity was humbling.

We really had so much fun," he said. "These shows were in towns where no in other places. It's very other magicians had performed before and you know one thing I'll say is, kids until you tell them they're again."

poor. Even in poor situations, kids will be kids no matter what, and we got the same reaction from them as we always get when we perform for children. It was really something special for them.

However, the recent trip to the Philippines wasn't Bailey's first time using his unique skill to give back. The veteran magician said he has been donating his time to charity, in one way or the other, since the 1980s when he learned how to do magic while on active duty.

"I'm a firm believer that when you have a talent you should use it to give back," he said. "I have been doing charitable magic shows for years all over the world at homeless shelters, hospitals and Air Force bases.

In addition to the magical performances, the Aloha Medical Mission provided more than 250 surgeries and 700 dental procedures over six days.

"We go over there with the idea that we're going to change lives, but at the same time it changes your life," said Bailey.

"It makes you very much more appreciative of the things we have here in the U.S. that we take for granted that they just don't have humbling and satisfying to know we may have made a difference, and you walk away ready to contribute

Lighting retrofit project to help reduce energy consumption

Naval Facilities Engineering Command Pacific Public Affairs

Facilities Naval Command Engineering (NAVFAC) Pacific is conducting a lighting retrofit project, which began in March and continues to May, to reduce energy consumption on the Makalapa compound.

"NAVFAC Pacific is proactive about reducing energy consumption," said Edie Evans, operations energy program manager for NAV-FAC Pacific.

"We are one of four commands in the region that maintains 100 percent trained building energy monitors and conducts monthly energy audits. This effort has paid off for NAVFAC Pacific as our buildings are currently exceeding Commander Navy Region Hawaii's energy reduction goals," Evans said.

The three-month project scope is to replace existing lights with new efficient technology throughout the following buildings and parking lots on the compound: buildings 405, 391, 346 and 258 and parking lots A, B and C.

The work to be performed includes de-energizing ceiling light circuits, opening light fixtures, replacing ballasts, installing new lamps and re-securing fixtures. After installation is complete, the final stage re-energizes circuits and performs testing for proper operation.

"The exterior light fixtures for the parking lot have been scheduled after completion of buildings 346 and 258," said Ricky Nojima, NAVFAC Pacific facility manager. "The replacement parking lot light fixtures and the two-

U.S. Navy photo by Krista Catian Bryan Mafoa, MH Electric electrician, replaces the light fixtures with new ballasts at building 346. The ballasts have been reduced from four to two, which will reduce energy consumption and minimize long-term fixmaintenance replacement costs.

feet-by-two-feet interior light fixtures have not been received, so those areas will be scheduled last."

Work is scheduled to occur between 7 a.m. to 3:30 p.m. Dust and noise control in work spaces will be minimal, while corridors and exits will remain open for through traffic and/or signage will be posted to identify alternative exit routes.

Personnel who are displaced from their areas during this period may shift to an unaffected area, work in a swing space, use liberal leave or telework. Note that each option requires supervisory approval.

"We appreciate your cooperation and patience during this time and will keep you informed with the latest updates," said Nojima.

Work is expected to be completed by May 2013. For more information on the project, visit the NAVFAC Pacific employee portal at http://ow.ly/kcKhf.

Lt. Dustin Haynes, 96th Air Refueling Squadron, demonstrates the KC-135 flight simulator to Seth Clifton before his recent flight at Joint Base Pearl Harbor-Hickam.

96 ARS brings joy to ailing child

Story and photo by Staff Sgt. Terri Paden

15th Wing Public Affairs

A 15th Wing chaplain recently teamed up with members of the 96th Air Refueling Squadron to help make one child's "best week ever" just a little bit better.

Chaplain Lt. Col. Dave Terrinoni, 15th Wing deputy command chaplain, felt a sense of obligation to do something when he learned the 13-year-old son of his close friends would be visiting Hawaii to fulfill his life's wish, courtesy of the Makea-Wish Foundation.

"Nobody likes to see a sick child, and of course I have a vested interest in the family. All I could think about was a 13-year-old child having to be limited in what they could do," he said. "I wanted to help."

The idea was born to offer Seth Clifton, who suffers from an acute case of juvenile scleroderma, the opportunity to fly a KC-135 via the 96 ARS's flight simulator. It was an opportunity Seth readily accepted.

According to Brian Clifton, just that kind of person. He's Seth's father, Seth's initial wish was to visit Hawaii, swim with the dolphins, and see the whales and sharks. However, when he heard about the opportunity to operate a flight simulator, his excitement took him "over the moon."

always thinking of other peo-

Hawaii.

After spending a week enjoying all the adventure tours the Make-a-Wish Foundation could schedule, Seth was pleased to end his dream vacation to Hawaii on a high note.

"This was awesome!" he said. "This was my favorite part about the trip, and I can't wait to tell my friends how fun it was ... can't wait to tell them I landed a plane by myself."

For the past six years, Seth has undergone treatments for the chronic connective tissue disease, April Clifton, Seth's mother, said there were hardly words to describe the joy she felt about spending the week in Hawaii with her family.

"Seth really wanted to make sure his wish was something the whole family could have fun doing. He's

VP-9 'Golden Eagles' CSADD Sailors volunteer in community

MC1 Scott A. Buchholz

Patrol Squadron Nine

MARINE CORPS BASE HAWAII, Kaneohe Bay - The Coalition of Sailors Against Destructive Decisions (CSADD)at Patrol Squadron Nine (VP-9) recently held their first 2013 volunteer event at Enchanted Lakes Elementary School, Kailua, Hawaii.

Twenty-one "Golden Eagle" Sailors volunteered their time to clean and paint support columns and exterior portions of the school in an effort to improve its overall appearance.

"It was exciting to have so many people show up on a Sunday. It made the work go quickly because we were having fun," said Navy Personnel Specialist Seaman Ricardo Nazaire.

"Before the Navy, I was really into volunteer work, so when the opportunity to be involved came up, I jumped on board," added Nazaire, who is currently serving as the VP-9 CSADD yeoman.

Established in 2010 by the Navy in accordance with OPNAVIST 1500.80, CSADD serves as a peer-to-peer mentoring group for Sailors ages 18-25 years. The group was created to positively influence young Sailors' behavior through resources and tools that promote good decision-making.

"I didn't have CSADD coming up in the lower ranks. This is an opportunity to mold the junior Sailors and give them the guidance I didn't have coming up," said Hospital Corpsman 2nd Class Angelina Harris, VP-9 CSADD president.

"I am really motivated and looking for-

ward to CSADD growing as well as having more volunteers, increasing morale and having fundraising opportunities so we can give back to the Sailors," Harris said.

On Dec. 19, 2012, VP-9 CSADD was recognized Navy-wide when the Chief of Naval Personnel announced the CSADD 2012 Sea and Shore chapters of the year in NAVAD-MIN 384/12. VP-9, Navy Region Hawaii, was one of four chapters honored as a Region Sea Chapter of the Year.

Other chapters receiving region honors were Navy Region Mid-Atlantic, USS Enterprise (CVN 65); Navy Region Southwest, USS Peleliu (LHA 5) and Navy Region Japan, USS George Washington (CVN 73).

"I have always had this feeling inside that I want to give back, especially since I joined the military, and CSADD has given me that opportunity," said Intelligence Specialist 3rd Class Zachery Borice, VP-9 CSADD vice president.

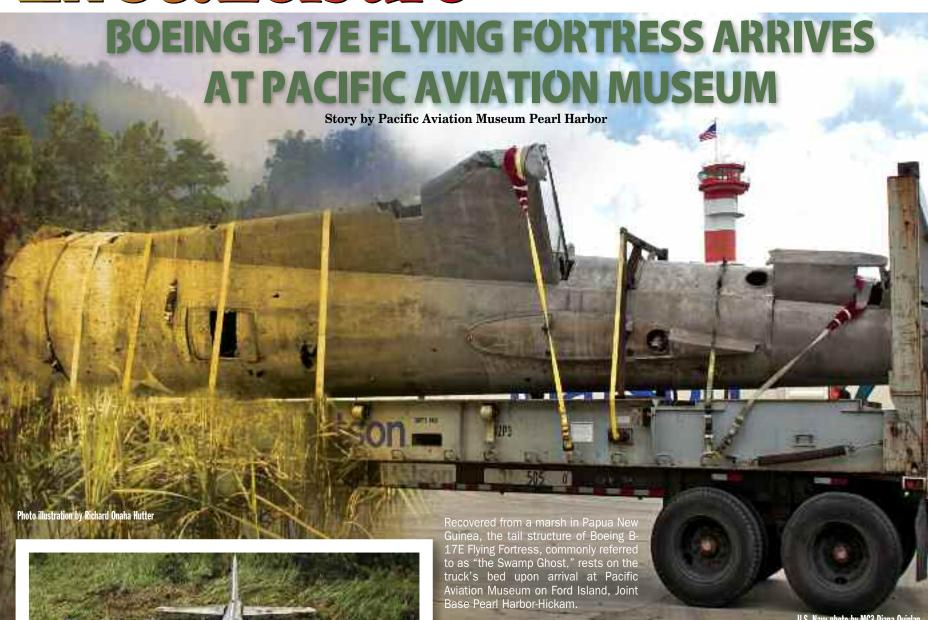

VP-9 CSADD is planning future volunteer and morale events which are open to all VP-9 Sailors and focused on providing positive opportunities for fellow shipmates.

Commissioned in 1951, VP-9 provides maritime patrol and undersea warfare services to the fleet by employing the latest technology and tactics to pro-vide advanced capabilities in multi-theater environments. VP-9 currently operates the P-3C Orion and will transition to the P-8A Poseidon in 2016.

For more informa-tion about VP-9, visit http://www.vp9.navy.mil/about.htm and Facebook at VP-9 Golden Eagles.

For more information about CSADD and how to start a chapter at your command, visit http://ow.ly/kaApE.

Life&Leisure

ne of the most talked about artifacts of American avi-Aviation Museum Pearl Harbor on April 10.

ation history, the Boeing B-17E Flying Fortress bomber #41-2446 "Swamp Ghost" arrived at Pacific

Matson shipped the World War II aircraft in pieces from California to the muse-

B-17E 41-2446 was one of the bombers in the Kangaroo Squadron stationed in Townsville, Australia.

It was supposed to have been one of the B-17s in the flight that made it to HickamArmy Air Field during the Dec. 7, 1941 attack. It was delayed due to engine problems but flew to Hickam on Dec. 17 and then leapfrogged its way to Townsville, Australia.

On the night of Feb. 22, 1942, five B-17s took off from Townsville with the mission of attacking ships at Rabaul, a harbor of Japanese-held New Britain. The mission was the first American heavy bomber offensive raid of World War II.

Unfortunately, this B-17 never made it back after sustaining damage from enemy fire, which caused the aircraft to run out of fuel, it crash-landed in the remote primitive Agaiambo Swamp on the north coast of Papua New Guinea.

Over the next several days, the ninemember crew battled malaria, fatigue and heat exhaustion while they hacked their way through razor-sharp swamp grass to safety. All nine men made it back to the

After crash-landing in one of the most remote locations on Earth, the aircraft virtually "disappeared" and slipped into an oblivion that lasted almost three decades until Australian soldiers on routine maneuvers spotted the aircraft in 1972, still partially submerged in the swamp and nicknamed it "Swamp Ghost."

To the soldiers' amazement, it was in remarkable condition and fully intact. The machine guns were in place fully loaded and, in the cabin, there was a thermos with what used to be coffee. This plane would become the best-preserved example of a combat B-17 in existence.

The story of this aircraft doesn't end there. Over the next 30 years, David Tallichet attempted to recover the bomber. The government of Papua New Guinea became involved, which further stopped the process.

Finally, after years of negotiations, son John Tallichet and Alfred Hagen of Aero Archeology were cleared in 2010 to return the bomber to the United States. In 2011, Pacific Aviation Museum Pearl Harbor began negotiations to receive the aircraft.

"We are absolutely thrilled that this national treasure will call Pacific Aviation Museum Pearl Harbor home," said Kenneth DeHoff, museum executive

"The B-17E 'Swamp Ghost' will be one of the crown jewels in our aircraft collection. While we restore these aircraft to static display standards of aviation museums globally, this one will take us several years to raise the funds to do so. We expect it to cost \$5 million dollars," DeHoff said.

When funds are received and restoration is complete, the B-17E Flying Fortress will join other aircraft in hangar 79, where it will tell the rest of the story of the war in the Pacific. For now, the plane is to be on display in an exhibit resembling the Papua New Guinea swamp in which it was found.

Museum, shows a miniature model of Boeing B-17E Flying Fortress to the local media while standing next to the plane's wing structure upon its arrival at the museum on Ford Island, Joint Base Pearl Harbor-Hickam. Shot down by Japanese forces during World War II in 1942, the plane was recovered and transported from Papua New Guinea and is scheduled to be part of an exhibit at the museum. (Above left): One of the volunteers at the Pacific Aviation Museum points to a bullet's exit hole. (Below): A miniature model of Boeing B-17E Flying Fortress displays the plane's crash site as parts of the original plane arrived at the Pacific Aviation Museum.

DVT-1 stays atop division with win over Halsey

Story and photo by Randy Dela Cruz

Sports Editor

Two goals from Equipment Operation Constructionman Juan Lopez, coupled with a dominating defense, propelled SEAL Delivery Vehicle Team-One (SDVT-1) to a 3-0 victory over USS Halsey (DDG 97) in an intramural soccer Gold Division matchup on April 13 at Earhart Field, Joint Base Pearl Harbor-Hickam.

The win raised the record of division-leading SDVT-1 to 5-0-1 and kept the team two points ahead of USS Michael Murphy (DDG 112), which also remained undefeated at 4-0-2 by beating USS Lake Erie (CG 70) earlier in the day.

Although Halsey entered their game versus SDVT-1 with a modest record of 1-1-2, the team managed to keep the score knotted up at 0-0 for the majority of the first half behind a quick and fast defense that was anchored by goalkeeper Ensign Mike Martof.

Finally, after six shots on goal, SDVT-1 broke through the deadlock on Lopez's first score of the game.

On the play, Lopez took a from teammate Culinary Specialist 3rd Class Christian Diaz and found himself one-on-one against Martof before maneuvering past the goalkeeper and kicking the ball to the net.

Despite being held scoreless for most of the first half, Lopez said that he and his teammates never panicked because they knew it would just be a matter of time before SDVT-1 got on the board.

"We got a good team," Lopez said. "Just take as many shots as we can and if it goes in, it goes in. If not, we just keep trying."

Up by only a score of 1-0, retired Chief Eric Gordon championship team, said

halftime that they were the No. 1 team in the division and needed to come out of the break and play up to their ranking.

'We're really a skillful team," Gordon noted. "Just to get everybody to start thinking about the open person and make the other team have to run and play at our speed. We wanted everybody to know that we are the top dogs."

reminded the players at that while it might be hard to imagine, he believes that this year's edition could be the best ever.

"I would say that this team is better than our previous teams," he admitted. "The reason why is that we have more unit cohesion. Overall, we're not as fast, and we're probably not as athletic as we were in previous seasons, but our skill level is much higher. And we've got a very deep team."

"I would say that this team is better than our previous teams... The reason why is that we have more unit cohesion. Overall, we're not as fast, and we're probably not as athletic as we were in previous seasons, but our skill level is much higher. And we've got a very deep team."

---Equipment Operation Constructionman Juan Lopez

The pep talk seemed to pay off right away as moments into the second half, Lopez took the ball away from two Halsey players near the goal and booted in his second score of the game.

"It's the same thing (as the first goal)," Lopez explained. "Try to keep calm, not in a rush, not any pressure and try to score. That's the main thing."

Finally, late in the game, SDVT-1 put Halsey away for good when Diaz and Electronics Technician 1st Class Joe Fields crashed the goal before Fields outraced Diaz for the shot and goal for a 3-0 lead.

squads including the 2010 SDVT-1 team captain Pearl Harbor intramural

With two-time defending champions Kunia Gallos no longer in the picture, it seems as though SDVT-1 should be the favorite to win it all this year.

Very few fans will forget the history of epic battles between the Gallos and SDVT-1, but Gordon said even without the team's rival, there won't be any shortage of competition.

"The 735th AMS team we played last week have a very solid team," Gordon pointed out. "Michael Murphy hasn't lost yet, so they are another team that is up there. I think that skill-byskill players and positions, we may be the favorites, but Gordon, who has been on I wouldn't say we're the several contending SDVT-1 favorites overall. You know, a couple unlucky bounces for us in this game and it's a whole different ballgame."

Equipment Operation Constructionman Juan Lopez, striker for SEAL Delivery Vehicle Team-One (SDVT-1), watches the ball go past a USS Halsey (DDG 97) defender and to the goal for his second of two scores. Division-leading SDVT-1 got past Halsey, 3-0, to improve their record to 5-0-1. For more photos, visit www.facebook.com/JointBasePearlHarborHickam.

Green Bean Coffee opens at NEX

A grand opening celebration and ribbon cutting for Green Bean Coffee at the Pearl Harbor Navy Exchange (NEX) food court took place April 12. In the photo, Capt. Jeffrey James, commander of Joint Base Pearl Harbor-Hickam, (left), is handed a cup of coffee from George Kennedy, Green Bean Coffee development manager. Green Beans Coffee started in 1998 by Jason and Jon Araghi on the U.S. Army Base in Eskan, Village, Kingdom of Saudi Arabia. Their mission is "Honor First, Coffee Second," meaning they honor men and women in uniform by donating a percentage of sales to organizations that support military families and children of the fallen.

Ten runs in two innings lift JPAC over 96th ARS

Story and photo by Randy Dela Cruz

Sports Editor

Joint Prisoner War/Missing in Action Accounting Command (JPAC) rallied for six runs in the third inning and four runs in the fourth to beat inning with a triple. the 96th Air Refueling Squadron (96 ARS) by a final score of 12-4 on April 16 in a Blue Division intra-Pearl Harbor-Hickam.

Down by a score of 3-0 going into the top of the third, JPAC got a leadoff double from Cmdr. Larry Gonzales.

With two outs and base, JPAC finally got just because of the nerves." things going at the plate by smashing three straight singles to tie the score before Department of Defense civilian Ben Fransen crushed a of the left-field fence for a was a knuckle ball, calmly two-run triple and a 5-3

"It felt like I got all of it," said Fransen about his shot to left. "I wasn't trying to go the way to preserve the win. be here and we could over the fence or anything. I

have hit the sweet spot.'

The big inning broke open a cold spell for JPAC, which of was held scoreless for the first two innings by 96 ARS pitcher Tech. Sgt. Joe Royer, who also started the team's three-run rally in the first

Royer came home on a fielder's choice, and the 96 ARS got RBI singles from Airman 1st Class Keith mural softball game at Prochaska and Senior Millican Field, Joint Base Master Sgt. Dicky Hunt for the early 3-0 lead.

"Normally, the first inning is just jitters," said JPAC Senior Chief pitcher Explosive Ordnance Disposal Jeremy Porter about being touched up for three. "That Gonzales still stranded on first inning means nothing

> Porter, however, settled down quickly and seemed to get tougher as the game

After the first inning, delivered back-to-back goose eggs, gave up a run in the 96 ARS batters the rest of Porter also helped him- contend."

was just trying to drive a hard self at the plate by driving one and get a base hit. It must in two of the four runs in the top of the fourth with a double

> Finally, Fransen put the exclamation mark on the victory by leading off the top of the fifth with a shot for an inside-the-park homer.

The win gave JPAC their second win of the season without a single defeat, while the 96 ARS fell to their second consecutive loss.

Although the season is young, Porter said that he likes what he sees so far and, if the team stays intact, he believes that JPAC has a shot to win it all this season.

"It depends on our deployment schedule," he said. "If we can keep the same guys, we should be pretty good."

Fransen also likes the team's chances - especially if JPAC can continue theirmodest winning streak.

"It's a good team. We got a lot of good bats," shot that struck the bottom Porter, whose main pitch Fransen admitted. "Our unit deploys a lot, so we'll have guys coming and going as the season goes fourth, and then shut out the on. But we got a good core of guys that are going to

The scoreboard tells the story as Senior Chief Explosive Ordnance Disposal Jeremy Porter, pitcher for Joint Prisoner of War/Missing in Action Accounting Command (JPAC), delivers a pitch against 96th Air Refueling Squadron (96 ARS). 15th MXG pulls away from Gunslingers in slugfest

Story and photo by Randy Dela Cruz

Sports Editor

A three-run blast over the leftfield fence by Staff Sgt. Corey fifth inning all but sealed the deal as 15th Maintenance Group (15 MXG) defeated Cyber Gunslingers (561st Network

matchup at Millican Field, Joint Base Pearl Harbor-Hickam.

lot by Hamilton put 15 MXG ahead at 15-7 before the team Hamilton in the bottom of the added two more runs to force umpires to call the game after five innings due to the league's 10run-mercy rule.

The win evened out the 15 runs in the first two innings

Operation Squadron Det. 1), 17-7, MXG's record to 1-1, while the April 16 in a Blue Division Gunslingers dropped their season opener.

"I hit it clean," said Hamilton The deep fly into the parking about his three-run jack. "It was a nice pitch over the plate and it's softball. I hit it clean, it went out."

The shot was a fitting way to usher in the final inning of the game after both teams opened up on fire by scoring a combined 14

by Senior Airman Daniel Swenson, got on the scoreboard first with two runs in the top of the frame.

However, in the bottom of the first inning, 15 MXG got a leadoff single from 2nd Lt. James Johnson, followed by a walk to put two runners on base, before Staff Sgt. Kenneth Travis drove in both men with a triple to tie the score.

A single by Tech. Sgt. Darrin

The Gunslingers, led by a double Okazaki with the bases loaded drove in two more runs and helped 15 MXG take a 6-2 advantage after one inning.

With still plenty of game remaining, the Gunslingers went back to work and after two outs, staged a four-run rally to tie the score at 6-6.

The big hit for the Gunslingers was a two-out, bases-loaded single by Tech. Sgt. Jack Dean that drove in two runs.

In the bottom of the second, with two outs and a runner on second base, Hamilton lofted a high fly deep into centerfield that was dropped-allowing both runners to score and putting 15 MXG back on top at 8-6.

Although 15 MXG would give up a run to the Gunslingers in the top of the third, the team followed up with three runs in the bottom of the frame before exploding for six

in the fifth to put the game away.

"It's momentum," explained
Hamilton about the team's hot day at the plate. "Once one person hits the ball, we all get fired up and we just keep it going."

Leadoff hitter Johnson also had a great day at the plate with three hits in his first three at-bats.

Johnson said that there is no secret to good hitting. It's all a matter of just placing the bat on the ball.

"Just make contact," he said. "We didn't hit well in our last game. It was just come out and play and make sure we make contact.'

While Johnson admitted that the team still needs to jell, he believes that the 15 MXG is right on track to ultimately challenge for a pennant.

Hamilton, on the other hand, was a bit more certain about what the future holds for the 15 MXG.

"We will be at the championship and we will win it," he said.

Staff Sgt. Corey Hamilton, 15th Maintenance Group (15 MXG), bashes a pitch during a Blue Division game versus Cyber Gunslingers. For more photos, visit www.facebook.com/JointBasePearlHarborHickam.

Air Force band to be featured at upcoming concerts

The RSVP deadline has been extended to April 22. FMI: hawaiijospouse@gmail.com or 474-1999.

OZ THE GREAT AND POWERFUL (PG) 3D

When Oscar Diggs, a small-time circus magician with dubious ethics, is hurled away from dusty Kansas to the vibrant Land of Oz, he thinks he's hit the jackpot — fame and fortune are his for the taking. That is until he meets three witches, Theodora, Evanora and Glinda, who are not convinced he is the great wizard everyone's been expecting.

Don't be 'That Guy'

That Guy, a multi-media campaign funded by the Department of Defense, uses online and offline communication with the goal of reducing excessive drinking among young servicemen. The campaign uses humor to deliver a serious message and encourages young enlisted personnel to reject binge drinking because it detracts from the things they care about: family, friends, dating, sex, money and reputation. For more information, go to www.thatguy.com.
