Commander Submarine Force U.S. Pacific Fleet Public Affairs

The Navy held a ribbon-cutting ceremony April 27 to dedicate the new drive-in submarine magnetic silencing facility (MSF) at Beekoning Point at Joint Base Pearl Harbor-Hickam (JBPHH).

According to officials, this facility is crucial to the mission and safety of

Navy submarines and their crews because its unique features help reduce steel-hulled vessels' susceptibility to magnetic-influence underwater mines and magnetic detection systems.

"After a culmination of 11 years of work by numerous Department of the Navy civilian contractors and Navy personnel, the completion and success of this treatment marks a milestone for future evolutions of

this type," said Aaron Leong, project lead supervisor of MSF Pearl Harbor. "With the certification of this facility, we now are prepared to continue operations for all types of submarines."

Due to magnetic fields that are constantly being encountered during normal ship operations, ships and submarines build up a magnetic signature. The earth's natural magnetic fields between the North and South poles are being

crossed routinely while the vessels are underway. The traversing of these natural fields, and vessels lying dormant for extended periods of time during scheduled maintenance, result in changes to a vessel's magnetic signature. Correcting those changes requires a thorough treatment process to minimize the level of permanent magnetism.

Deperming is performed at the submarine MSF by temporarily surrounding a submarine

with coils and supplying current to those coils to create high magnetic fields. By cycling the coil field, the permanent magnetization of the submarine is manipulated. The magnitude of the coil-induced magnetic field starts high, and then is decreased with each cycle. When the process is completed, the magnitude of the permanent magnetization is equal to the ambient field. The MSF can control the ambient field to

desired magnitudes.

A closed-wrap MSF requires the submarine to be manually wrapped with heavy copper cables whereas the cables at a drive-in MSF are built into the facility, suspended above, below and on the sides of the submarine.

"In the past, Texas would have had to have been hand wrapped in cables to conduct this same procedure. And

Peter Berg, director of " Battleship," meets Sailors at Joint Base Pearl Harbor-Hickam.

JBPHH Sailors preview ' Battleship'

MC2 (SW) Mark Logico

Navy Region Hawaii Public Affairs

More than 450 Sailors and their friends and families attended the advance screening April 28 of Universal Studio's " Battleship" at Sharkey Theater at Joint Base Pearl Harbor-Hickam.

Filming for the movie in Hawaii began in 2010 when hundreds of Hawaii-based Sailors, veterans and Navy ships played parts in the movie. The movie featured the capabilities of U.S. Navy destroyers and WWII veterans. In January 2010, even the Battleship Missouri Memorial sailed out to sea for some initial filming.

"We don't put enough

attention with our elders, in particular our veterans," said Peter Berg, the director of the movie. "By far, my favorite moment on ' Battleship' is getting to meet these veterans. Some of those guys are in their '90s, and they would come on board with the energy of a 20-year-old. They had all these stories. They were having the best time. They get to be on their ship. That was, by far, my career highlight."

The cast of " Battleship," including Peter Berg, Taylor Kitsch, Brooklyn Decker, Alexander Skarsgard and Rihanna, were all at Sharkey Theater to greet the audience.

"There was a time when Hollywood didn't see eye-to-eye with the military, and I

really think that time is no more," said Berg. "I think that Soldiers feel it. Soldiers are coming home from Iraq and Afghanistan to a different reception than they did when they came back from Vietnam, and I think that's great. I'm just glad to be able to do my part to pay respect."

The movie also featured Col. Gregory Gadson, the director of the U.S. Army Wounded Warrior Program, who is a Wounded Warrior himself. Gadson, who lost both his legs because of an improvised explosive device in 2007, practically played himself as Lt. Col. Mick Canales fighting aliens in the movie.

"I like to say that fighting

NAVFAC Hawaii turns over new JBPHH Fitness Center

Story and photo by Thomas Obungen

Naval Facilities Engineering Command Hawaii

Naval Facilities Engineering Command (NAVFAC) Hawaii handed the keys for the new Joint Base Pearl Harbor-Hickam (JBPHH) Fitness Center to officials from Navy Region Hawaii's Morale, Welfare and Recreation (MWR) office April 25. The project was completed on time and within scope.

NAVFAC Hawaii awarded the \$24.3 million design-build contract to Kiewit Building Group in July 2009. They broke ground the following June by clearing the site and demolishing building 1632, the first of four buildings taken down as part of the contract. Three additional buildings were removed earlier this month.

"Working with Kiewit to produce a facility of this caliber showed how much they really care about the customer and end-user," said Ryan Go, NAVFAC Hawaii project manager. "The contractor's staff recognized that the project would ultimately serve the men and women in uniform and their need to stay fit and mission-ready in defense of our nation."

Located on the site of a former fuel tank farm, next to Club Pearl, the modern 62,413-square-foot building replaces nearby aging fitness facilities at Bloch Arena,

constructed in 1940.

Using an efficient building technique of tilt-up construction, which consists of casting large concrete panels on site and tilting them up into place, Kiewit completed the facility's core structure within five months of installing the foundation.

Throughout construction, the contractor set the tone for the environmentally friendly facility by sorting and recycling building waste in separate containers and by purchasing material from local or west coast sources to minimize fuel consumption during shipping.

Historic berms from the former tank farm surrounding the center and its adjacent 242-stall parking lot are xeriscaped with rocks, synthetic turf and various native Hawaiian and drought-resistant plants that will help the facility conserve water.

The fitness center interior receives large amounts of natural light due to oversized exterior windows and a state-of-the-art daylight control system linked to overhead skylights and solar tubes. Smaller interior and administrative spaces make use of LED lighting and occupancy sensors that complement the rooftop 360-kilowatt photovoltaic system.

It is anticipated that numerous energy-saving features, as well as dedicated parking spaces for low-emission vehicles and the

Support Element West,
Detachment Hawaii

HONOLULU – Military service members, along with families and friends, attended the 27th Annual Combined Forces Military Band Appreciation Concert presented May 2 at the Hale Koa Hotel in Waikiki.

The Combined Forces Military Band consists of outstanding service members from the U.S. Army 25th Infantry Division Band, U.S. Navy Pacific Fleet Band, U.S. Marine Forces Pacific Band and the U.S. Air Force Band of the Pacific.

“These Soldiers, Sailors, Marines and Airmen and women are the best of their trade,” said Maj. Gen. Kurt Fuller, commanding general, 25th Infantry Division. “They’ve been selected through auditions, and they represent their services with great pride. They are some spectacular musicians.”

This year’s military

The 2012 Combined Forces Military Band performs during the 27th Annual Appreciation Concert at the Hale Koa Hotel in Waikiki. The concert launches a month-long celebration of Military Appreciation in Hawaii.

lead was the United States Army, led and conducted by Chief Warrant Officer 3 Lisa M. Guynn, U.S. Army Infantry Division Band.

“It was wonderful, it represented the best of the best,” said Rear Adm. Frank Ponds, commander of Navy Region Hawaii and Naval Surface Group Middle Pacific. “They say music is the universal language ... and it was just wonderful.”

The concert, hosted by the Honolulu Council of the Navy League, is the kick-off event for the National Military Appreciation Month in Hawaii.

“There’s nothing that we can’t do together that, separated, we couldn’t possibly do,” said Maj. Michael Willen, U.S. Air Force Band of the Pacific. “We salute each of the armed forces tonight. Whether we go to fight or whether we go to help people recover, we all go under the same flag.”

The Navy League’s mission is to educate the public on a need for a strong sea service, including the Navy, Marine Corps, Coast Guard and the Merchant Marine.

Air Force launches energy conservation program at Hickam Communities

Hickam Communities
LLC

This month, the Air Force will begin the first phase of the Department of Defense’s Resident Energy Conservation Program (RECP) with the mailing of energy conservation statements to Hickam Communities residents.

Onizuka Village residents will receive a statement this month, and residents in Earhart Village, Hale Na Koa and Officer Field will receive statements, respectively, in June, July and August. The statements are not bills, and no payment is due during the first phase of the RECP.

The purpose of the first

phase is to familiarize families with their utility consumption, provide them with information on how they can conserve energy, and prepare them for the second phase of the RECP, which is live billing. The Air Force anticipates starting the second phase sometime in 2013.

Statements will show how much energy a family is using and compare it to a baseline – the average energy consumption – that is determined by using data from homes of a similar or same model type. If a family’s consumption falls within 10 percent above or below the baseline or better yet, more than 10 percent below the baseline, the family has done an

Photo courtesy of Hickam Communities LLC

Amanda Kalski, an Onizuka Village resident and also a member of the Hickam Communities housing team, adjusts her thermostat to a more energy-efficient setting as she and her family prepare for the Department of Defense-mandated Resident Energy Conservation Program that begins this month at Hickam Communities.

excellent job managing its energy consumption.

If consumption is more than 10 percent above the baseline, it is recommended that the family look at its daily habits and determine simple adjustments that can help them conserve. Tips and information on how to conserve energy can be found on Hickam Communities website at www.hickamcommunities.com/Go/SYNERGY.

Hickam Communities is responsible for managing the Air Force’s RECP in Hawaii and, along with utility billing provider Minol USA, it is committed to supporting its families’ efforts to conserve. Questions about the

program or energy conservation statements can be addressed to Minol USA. The call center is available Monday through Friday from 8 a.m. to 5 p.m., and customer service agents can be reached at 1-888-636-0493.

In the coming months, Joint Base Pearl Harbor-conserve energy can be found on Hickam Communities website at www.hickamcommunities.com/Go/SYNERGY. Town hall dates and times will be announced on Hickam Communities website and Facebook page and in resident emails.

Resident Energy Conservation Program to launch Navy-wide

Commander, Navy
Installations Command Public
Affairs

WASHINGTON (NNS) -- Commander, Navy Installations Command will expand the scope of the Resident Energy Conservation Program (RECP) for public private venture (PPV) housing in the U.S. in phases beginning in October 2012.

RECP transfers the responsibility for payment of utilities from the PPV project to the residents, consistent with OSD policy. Research indicates that residents use less when their rent does not include utilities.

In 1998, OSD established policy requiring the transfer of responsibility for the payment of utilities from our PPV project owner to the residents. RECP was created to promote the responsible use of energy in Navy/Marine Corps PPV housing. RECP focuses on utility conservation efforts to reduce electricity and gas usage in PPV housing.

In January 2011, the RECP pilot program transferred responsibility for payment of utilities to residents living in PPV housing in Hawaii and in Marine Corps Housing at Parris Island and Beaufort, S.C. The pilot program reduced electricity usage by almost 10 percent and generated savings in excess of \$1 million to re-invest into the PPV housing project to fund reserve accounts used to sustain the financial health of the projects.

“RECP was a great success in Hawaii and Beaufort because our service members and their families increased their awareness of their electricity use, resulting in conservation of energy without sacrificing comfort,” said Corky Vazquez, CNIC housing program manager. “When we reduce our energy consumption, we save money. The money we save will be re-invested into the housing communities in which our Sailors and

their families live. These funds will be used to improve the homes and neighborhoods.”

The RECP methodology works like this: Like type groups of homes are metered and their utility usage is measured monthly (water excluded) to develop an average usage. A buffer of 10 percent is applied above and below the average to create an average usage band. Residents with usage above the band for their like type group pay, and those under, will receive a rebate. The program starts with a communication phase followed by a mock “trial” billing period that prepares residents for “live billing.”

The schedule for the RECP Navy-wide rollout will be in phases depending upon whether meters are in place and the project is ready to implement. During 2013, all PPV projects will start live billing. The tentative roll out schedule for live billing is shown by region of the country as follows:

- New Orleans: January 2013
- Northwest, midwest, southeast: April 2013
- Southwest: July 2013
- Mid-Atlantic and northeast: October 2013

For more specific information about when the RECP will roll out for a specific installation, contact your local Navy housing office. A master list of all Navy installation housing offices is available at www.cnic.navy.mil/housing.

Secretary of the Navy Ray Mabus laid out five aggressive energy goals in October 2009 to improve our energy security and efficiency, increase our energy independence, and help lead the nation toward a clean energy economy. This initiative assists in achieving the energy goal of increasing alternative energy afloat and ashore where by 2020, the Department of the Navy (DON) will produce at least 50 percent of shore-based energy requirements from alternative sources and 50 percent of DON installations will be net-zero.

Hawaii Sailors train to combat Spice

Story and photo by
MC2 (SW) Mark Logico

Navy Region Hawaii Public
Affairs

More than 400 Hawaii-based Sailors gathered May 1 at Sharkey Theater at Joint Base Pearl Harbor-Hickam to learn more about the policies, programs and risks regarding the abuse of synthetic drugs.

Representatives from Navy Region Hawaii (CNRH), Naval Health Clinic Hawaii (NHCH), Region Legal Service Office (RLSO) in Hawaii and Naval Criminal Investigative Service (NCIS) conducted training about synthetic drugs such as Spice and Bath Salts.

Spice, a synthetic drug, looks similar to marijuana or oregano and is used for its psychoactive and hallucinogenic effects. The Navy has zero tolerance for drug abuse, including the use of designer and synthetic compounds such as Spice.

CNRH Command Master Chief (SW/AW) Marc Sibal opened the training by saying that since he has been the Hawaii region command master chief, he has seen 20 to 30 Spice-related cases in the Navy in Hawaii.

“Spice is here,” said Sibal. “We still need to get our arms wrapped around it. It is still a problem. The bad thing about Spice is nobody knows about the long-term side effects of Spice. Nobody has done any studies with them.”

Sibal is part of Hawaii’s Armed Forces Disciplinary Control Board (AFDCB) that looks at several establishments which are suspected of carrying and selling illegal drugs. The AFDCB establishes guidance and off-limits areas to military personnel in Hawaii.

“We all joined the Navy for different reasons, to get an education, to serve our country, to get stationed here or there, to make master chief, but not to smoke

Naval Criminal Investigative Service (NCIS) Special Agent Steven Laskey talks to Sailors about the severe risks involved in the use and abuse of synthetic drugs such as Spice.

Spice and get kicked out of the Navy and to figure out what to tell your parents when you come home after one year in the Navy,” said Sibal.

Lt. Cmdr. Daryl Sulit, a Navy Medical Corps officer assigned to NHCH, was at the training to talk about the medical effects of Spice. Sulit said that medical personnel know the effect of marijuana over a long period of time. It has been used for centuries. Spice, on the other hand, is man-made and was introduced in the past decade.

“Spice is a designer drug made to mimic marijuana,” said Sulit. “If you look at the packaging, it looks very similar to marijuana, and it is smoked like marijuana. We don’t know if it will cause long-term brain damage, cancer, lung damage, heart damage.”

According to Navy Alcohol and Drug Abuse Prevention (NADAP), the chemical blends in synthetic drugs are continuously manipulated, and the strength of the synthetic chemical used is unknown. As a result, there is no way to know what a person is ingesting or what the long-term health risks are if used.

Sulit said that Spice not only affects the receptors in your

brain, which induce hallucinogenic effects, but it can also affect other organs such as the heart, kidney and digestive systems. Spice can take effect within 20 to 30 minutes but can last for as long as 24 hours.

“Spice is so much more dangerous because it is a lot more potent than marijuana,” said Sulit.

According to the Navy Bureau of Medicine and Surgery, Spice is five to 200 times more potent than THC in marijuana.

Sulit added that among the latest reports of the effects of Spice are anxiety and panic attacks.

“It causes confusion, delusion, hallucination,” said Sulit. “Spice can also cause depression, which could lead to suicide attempts, irritation and bizarre behaviors. It can also cause drowsiness and impaired cognition. It has been noted to cause high blood pressure, heart attacks, chest pain and increased heart rate.”

NCIS Special Agent Steven Laskey was at the training to talk about the policies and programs involved to combat Spice.

“This stuff is sold as incense,” said Laskey. “It is sold as potpourri. It is marked as ‘not for human consumption.’ However, it is marked as ‘not for human consumption’ because it is supposed to attempt to defer and trick law enforcement. It was made purposely for use by human consumption but labeling it ‘not for consumption’ makes it legal. Up until 2011, it was perfectly legal. It was sold and advertised as a safe and alternative means for marijuana. Well, it is not remotely safe, and it is not legal as well.”

In March 2012, the Navy announced that it has begun random testing of urine samples for synthetic chemical compounds like Spice. The Navy’s capacity for testing for designer drugs will continue to expand. During fiscal year 2012, the Navy will invest \$1.73 million to test for synthetic chemical compounds and expects to increase that amount to \$2.9 million in fiscal year 2013.

Sailors learn about War of 1812 battles

Jazzmin Williams
Contributing Writer

MC2 (SW) Mark Logico
Navy Region Hawaii Public Affairs

Commodore Oliver Hazard Perry led nine U.S. Navy ships that defeated and captured six British Royal Navy ships during a battle considered to be a turning point in the War of 1812.

As part of an effort to remember this pivotal point in Navy history and other battles during the war, Senior Chief Navy Counselor Tyrone Jiles, career counselor for Navy Region Hawaii, coordinated a training session about the War of 1812 for a select group of Joint Base Pearl Harbor-Hickam first class petty officers and chief petty officers. The training took place April 26 at Pearl Harbor Memorial Chapel.

“This training is a little bit of heritage training. We’re trying to train our junior Sailors and educate them on how the War of 1812 shaped our country and our Navy and also prepare these first classes to take my shoes one day,” Jiles said.

U.S. Navy photo by Jazzmin Williams

Senior Chief Navy Counselor Tyrone Jiles, career counselor for Navy Region Hawaii, addresses a select group of Joint Base Pearl Harbor-Hickam first class petty officers and chief petty officers during a War of 1812 training session April 26 at the Pearl Harbor Memorial Chapel.

The training is part of the MCPON’s “CPO-365” training program that allows prospective chief petty officers to have sufficient training with their chiefs. The presentation described the different battles of the War of 1812 in detail. After opening remarks by Jiles, nine Sailors took the podium in groups of two and three to describe the War of 1812.

The training session benefited both the presenters and the audience, with those in attendance learning about an impor-

tant event in Navy history and those on stage practicing speaking in front of large groups.

“I wasn’t always the one that would like to speak in front of people,” Jiles said. “It just comes with confidence and a lot of training. The more you speak to a large group of Sailors, the more confident you get as you progress in your career.”

Other training topics for CPO 365 include Navy heritage, Navy policies and procedures, equal opportunity guidance,

sponsorship and indoctrination, Fleet and Family Service Center programs, Perform-to-Serve, the enlisted retention board, career development boards and physical fitness and nutrition.

All of the presenters volunteered to be part of the training to improve themselves and take initiative, according to Jiles. Working together for eight weeks, the Sailors learned from each other so well that they were able to disseminate the information to a chapel full of fellow Sailors. “This is what it’s all about, first class and chief petty officers working together,” Jiles said.

During the training,

one of the more interesting moments of the historic War of 1812 battle involving Commodore Perry was discussed. At one point, Perry, who was aboard the heavily damaged U.S. Brig Lawrence, decided to transfer his personal pennant, a blue flag bearing the motto, “Don’t give up the ship,” to another ship, the U.S. Brig Niagara.

Amidst the chaos of battle, Perry and his crew traveled half a mile to Niagara where he continued to lead the U.S. fleet to victory.

The town of Put-in-Bay still remembers that battle 198 years later. In 1915, Perry’s Victory and

International Peace Memorial was erected on the island to honor those who fought in the Battle of Lake Erie and to celebrate the long-lasting peace between Britain, Canada and the United States.

Standing at 352 feet, the Doric column is among the tallest monuments in the United States (the Gateway Arch, San Jacinto Monument and the Washington Monument are taller).

(Editor’s note: Sailors from USS Lake Erie (CG 70, homeported at Pearl Harbor, have frequently been a part of the celebration at Put-in-Bay which commemorates the Battle of Lake Erie.)

Fitness center completed

Continued from A-1

facility’s centralized location, could earn the building a Leadership in Energy and Environmental Design (LEED) silver certification, with the possibility of earning a platinum rating. It is also expected to consume 55 percent less energy than the baseline set at other fitness centers.

“This facility is an additional tool for our Sailors and Airmen to achieve their fitness and health goals, ultimately improving their quali-

ty of life,” said Mark McFarland, JBPHH MWR fitness director. “By providing them with the best equipment and state-of-the-art facilities, we will successfully be able to serve those who serve our country.”

The ground level of the two-story fitness center features men’s and women’s locker rooms, cardio and weight training equipment including treadmills and ellipticals, a rock-climbing wall, total resistance exercise system, and two basketball courts featuring NCAA clocks

and glass backboards.

The second level contains two glass racquetball courts, classrooms, mirrored group exercise/physical training (PT) rooms and administrative spaces while a third-level loft houses the air conditioning units and other utilities.

The center will have a soft opening May 21 with a grand opening on June 11. Bloch Arena will close at 6 p.m. May 20. Patrons from all branches of service as well as Department of Defense civilian employees are invited to use the facilities.

Members of the Air Force Sergeants Association recently clean up Hawaii State Veterans Cemetery at Kaneohe.

Air Force Sergeants Association thanked for volunteer efforts

Dear editor, On behalf of the Hawaii State Office of Veterans Services, we would like to express our heartfelt thanks and deepest appreciation to the Air Force Sergeants Association for volunteering to clear brush and debris from our Hawaii State Veterans Cemetery at Kaneohe.

Under the leadership of

Tech Sgt. Lillian Barnes who coordinated two separate events, over 30 NCO’s rolled up their sleeves and came ready and willing to work. They cleared away overgrown brush on the cemetery hillside using chain saws and machetes.

Their combined efforts assisted enormously with our ongoing beautification

projects within the cemetery.

We commend their professionalism and volunteerism in helping keep these hallowed grounds with the highest degree of dignity and honor for our military members, our veterans and for our loved ones.

Willie Hirokane, director, Hawaii State Veterans Cemetery.

Mascot helped crew break Hawaii-to-Washington record

A teddy bear, named “Col. Elmer E. Elmer,” served as the mascot for the crew of the B-29 “Deacon Disciples,” which was the aircraft that broke the Hawaii-to-Washington non-stop record of 17 hours, 21 minutes. The fuzzy mascot was completely outfitted with a flight cap, insignia, decorations and parachute. The teddy bear became a regular crew member of “Deacon Disciples,” a battle-seasoned B-29 piloted during World War II by Maj. Charles J. “Deacon” Miller.

New solar-powered system is given blessing at Bowfin

Story and photo by
Jazzmin Williams

Contributing Writer

A blessing of the new solar-powered photovoltaic (PV) system for the USS Bowfin Submarine Museum and Park took place April 27 at the museum.

The system is expected to lower energy use and costs for the Pearl Harbor historic site. The USS Bowfin Submarine Museum and Park is part of the Pacific Fleet Submarine Memorial Association.

“Today we recognize their [the Pacific Fleet Submarine Memorial Association] continued commitment to education and technology by carrying on the tradition of reminding us of the many unsung heroes who served in the second World War on land and at sea,” said Rear

Kahu Cordell Kekoa uses ti leaves to sprinkle Hawaiian water on one of the new photovoltaic (PV) panels for the USS Bowfin Museum and Park’s new PV system. The solar-powered system was blessed April 27 at the Bowfin.

Adm. Frank Ponds, commander of Navy Region Hawaii and Naval Surface Group Middle Pacific.

Rear Adm. Katherine Gregory, commander of Naval Facilities Engineering Command Pacific, joined Ponds in giving remarks. Coordination by multiple engineering, solar and construction organizations resulted in the implementation of the photovoltaic system. Naval Facilities Engineering Command Hawaii provided support and assistance for installation and an interconnection agreement with Hawaiian Electric Company.

Kala Capital, LLC provided funding to reduce costs for the USS Bowfin Museum and Park.

“What your project does is exemplify how we need to ensure energy security mat-

ters, not just in how we operate our operational Navy, but how we run our shore Navy. Your moving to a PV array really sets an example for the rest of us on how we need to run our facilities,” Gregory said.

Kahu Cordell Kekoa spoke on the importance of blessings in Hawaii, prior to using three ti leaves to sprinkle Hawaiian rainwater on one of the panels, draped in a maile lei. The ti leaves symbolized healing, nourishment and protection. After prayers in both Hawaiian and English, Kekoa called upon the speakers to remove the maile from the panel in unison.

“This system represents the future of energy conservation, and not just conserving it, but the right use of it,” Kekoa said during his blessing.

‘Hiring Our Heroes’ job fair to take place May 16

U.S. Chamber of Commerce

A “Hiring Our Heroes” veterans event titled “Shipmates to Workmates” will be held from 9 a.m. to 3 p.m. May 16 at Neal Blaisdell Center, 777 Ward Ave. in Honolulu.

The U.S. Chamber of Commerce event is a hiring fair for veterans who are job seekers, active duty military members, National Guard and Reserve members, and eligible spouses.

The event is designed as a one-of-a-kind free hiring

fair for naval job seekers referred by the Shipmates to Workmates program.

The fair is part of the larger Workforce 2012 event being conducted by Hawaii Hires Heroes, in partnership with the U.S. Chamber of Commerce and the Shipmates to Workmates civil service hiring initiative spearheaded by Naval Sea Systems Command, Naval Air Systems Command, Space and Naval Warfare Systems Command, Naval Facilities Engineering Command, Naval Supply Systems Command,

Military Sealift Command and Commander Navy Installations Command, the Department of Labor’s Veterans Employment and Training Service, Hawaii Committee of the Employer Support of the Guard and Reserve, NBC News and other local partners.

Employers must call 536-7222 or email margarete@successhi.com. Job seekers can register free at HoH.GreatJob.net to guarantee admission.

Naval Shipyard job fair attracts 3,000

Pearl Harbor Naval Shipyard Public Affairs

An estimated 3,000 job-seekers recently attended the Pearl Harbor Naval Shipyard Career Fair at Honolulu Community College. Participants came to learn more about 150 openings – at least 100 apprenticeships and roughly 50 engineering and other positions – at Hawaii’s largest industrial employer.

It was a success, said Yvette Oyape, shipyard deputy apprentice program administrator, of the event turnout and feedback. “We had quite a bit (of attendees) in the morning and a nice steady flow the rest of the day.”

Representatives from 18 trades and two engineering departments set up displays at the career fair and were on hand to answer questions about their occupations. Many exhibits encouraged hands-on interaction by visitors, Oyape said.

For example, the rigging display featured chainfalls that guests could operate. The mechanical shop brought toy vehicles, made of Erector sets and used to

teach trainees how to read plans and practice simple mechanical skills.

Individuals hired as apprentices will begin their employment in January 2013. The apprentice program offers four-year, work-study apprenticeships that pay trainees while they learn a trade and earn an associate’s degree from Honolulu Community College and U.S. Department of Labor journeyworker certification.

The average starting pay is \$19 an hour. At the end of four years, apprentice program graduates will earn \$28 or more an hour.

Eligible applicants must be U.S. citizens, at least 18 years old by the first day of employment, and have a high school diploma or equivalent. Applicants must pass a physical exam, academic skills test and be able to obtain a security clearance. Males must be registered with the Selective Service System.

Engineering positions include naval architects, and mechanical, structural, welding, electrical and nuclear engineers. The starting pay for engineers ranges from \$45,000 to

\$69,000 a year, depending on their qualifications. Other positions include engineering technicians and physical science technicians.

Starting pay for physical science technicians ranges from \$36,500 to \$59,000 a year, depending on qualifications. Most newly hired physical science technicians require about a year of paid training to attain initial qualification. Engineer development positions are permanent full-time jobs.

Applications for apprenticeships and engineering-related positions will be accepted online at www.usajobs.gov. Application periods for engineering vacancies vary according to the positions. However, the application period for apprenticeships is tentatively scheduled for May 21-25.

For updates, go to the shipyard website at www.navsea.navy.mil/shipyards/pearl/default.aspx and click on “apprentice program info.” Applicants with questions can call 474-9216 and leave a message or email phnsyapprentice@navy.mil.

Drive-in sub facility has crucial role

Continued from A-1

manual wrapping is a labor intensive and extremely time consuming process. This facility replaces an antiquated process with the ease of a drive-in,” said Cmdr. Andrew Hertel, commanding officer of USS Texas.

The Pearl Harbor MSF, managed by Navy Region Hawaii and operated by personnel from the Naval Undersea Warfare Center Detachment Pacific, is capable of deperming all classes of U.S. submarines including Virginia-class submarines.

The ceremony included a presentation of colors, a Hawaiian blessing and invocation. Guest speakers for the event included Capt. Jeffrey James, commander of JBPHH; Cmdr. Andrew Hertel, commanding officer of USS Texas; Rick Heltzel, president of Healy Tibbitts; and David Lin, MSF program manager, Naval Sea Systems Command.

USS Texas is the first submarine in the U.S. Navy to carry the name of the Lone Star State and the second Virginia-class nuclear-powered attack submarine.

‘Battleship’ screened at Sharkey

Continued from A-1

aliens is no different than fighting a human,” said Gadson. “If you’re fighting for your life, you’re going to do whatever it takes to win.”

Gadson said he hopes the movie would also help all warriors, wounded or otherwise, and let them know that life can go on.

“You’ve got to put behind you what’s happened in the past,” said Gadson. “When you have an opportunity to learn and to go through hard experiences, you can come out the other side and live a productive life.”

To prepare for her role in the movie, Rhianna enlisted the help of Gunner’s Mate 2nd Class Jacquelyn Carrizosa, assigned aboard USS Ronald Reagan (CVN 76), during the filming in 2010.

“She really helped me out,” said Rihanna. “I paid attention to her, everything

about the way she dressed, the way she walked, her mannerisms, how she spoke, how collected she was. That was very crucial to me playing this part. She was a pretty girl but very, very tough. Her demeanor was so quiet and sweet, and then you see her put on this uniform and she walks on the set, she’s a whole different beast. She helps me as a friend, but when she gets in her element she’s very intimidating.”

During the filming, Rihanna and the rest of the cast interacted with many of the Sailors in Hawaii so the actors could better understand their roles in the movie.

“I was exposed to a lot of things that I didn’t know about the Navy, just seeing their demeanor, where you lived, where you stayed,” said Rihanna. “I heard about how long you guys stayed at sea without your

family. It really was an awakening for me. It made me appreciate what you guys do so much more.”

The film opens officially in U.S. theaters on May 18. The movie is based on a board game of the same name. It is about how a fleet of ships is forced to fight an armada of alien ships.

“The film is going to expose a lot of what the Navy does, and no one knows how these ships are fought and how the day-to-day stuff is,” said Kitsch. “I love how we exposed a lot of that. You read about the sacrifice and what it means to wear the uniform, and I think that’s what hit me the most. Not just meeting the Sailors and everyone, that’s a part of it, but the families, the sacrifices that they make as well. That was probably the biggest one that I took away: how much sacrifice that is.”

JPAC hosts arrival ceremony at JBPHH for fallen military personnel

U.S. Joint POW/MIA Accounting Command

Four transfer cases were escorted from the back of a C-17 Globemaster April 27 during an arrival ceremony at Joint Base Pearl Harbor-Hickam to honor fallen U.S. personnel whose identities remain unknown.

The remains receiving full military honors represent losses associated with World War II and the Vietnam War. The first transfer case represents individuals unaccounted-for from World War II and was recovered from Papua New Guinea. The final three transfer cases were recovered from Vietnam, Laos and Cambodia and represent Vietnam War losses.

Once the transfer cases arrive at Joint POW/MIA Accounting Command (JPAC's) laboratory, the process of forensically identifying the individuals will begin. If and when identifications are established, the names will be announced following next-

of-kin notification. Falling directly under the U.S. Pacific Command and employed by more than 400 joint military and civilian personnel, JPAC continues its search for the more than 83,000

Americans still missing involved in returning operations in order to support the Department of Defense's personnel recovery and laboratory accounting efforts.

2012 Air Force Climate Survey is coming soon

Jon Hanson

Air Force Personnel, Services and Manpower Public Affairs

JOINT BASE SAN ANTONIO-RANDOLPH, Texas (AFNS) -- Air Force active duty, Reserve, Guard, appropriated fund and non-appropriated fund civilians have an opportunity to voice their concerns to leadership during the 2012 Air Force Climate Survey, which kicks off May 14 and runs through June 22.

The chief of staff of the Air Force-directed survey enables Air Force personnel to provide feedback to senior leadership and commanders at all levels.

“This is a perfect opportunity for all total force Airmen to provide candid feedback on a wide range of topics,” said Col. Kent White, the Air Force Manpower Agency commander. “The results will help leaders determine the health of their organization and make changes if necessary.”

Topics in this year's survey include impact of deployment, trust in Air Force leadership, satisfaction, resources, recognition and performance.

Individual e-mail invitations for the survey will go out the third week of May. As in past surveys, unit leaders will receive their units' results, if 10 or more members respond, to improve their organization and their organization's ability to accomplish the mission.

More than 172,000 people responded in the 2010 Air Force Climate Survey. Results showed that more than 80 percent of the survey respondents were happy with their jobs, and 95 percent agreed their unit is suc-

cessfully accomplishing its mission. Additionally, 82 percent of all survey respondents indicated they were generally satisfied with the Air Force.

“Through the Air Force Climate Survey, all Air Force members have the chance to highlight concerns that directly affect them and their units' mission,” said Grover Lindsey, the chief of the performance management division at the Air Force Manpower Agency. “This feedback serves to improve each organization and our entire Air

Force. Look for your personal invitation to the survey in your inbox and speak today, shape tomorrow.”

For more information about the 2012 Air Force Climate Survey and to view the Air Force-wide results of the 2010 Air Force Climate Survey, go to the Air Force Survey Office webpage on the Air Force portal.

For more information on other personnel issues, go the Air Force Personnel Services website at <http://gum-crm.csd.disa.mil>.

‘Skinny Dragons’ take stand against sexual assault

Lt. j.g. Jenna Rose

Patrol Squadron 4 Public Affairs Officer

April was Sexual Assault Awareness Month, and VP-4 [Patrol Squadron 4] was increasing awareness throughout the squadron. On April 13, the squadron spent part of the day training on sexual assault awareness. In addition to participating in Navy-wide regulated training, the squadron has also promoted awareness through a variety of events.

On April 16, the Skinny Dragons partnered with the Golden Eagles of VP-9 [Patrol Squadron 9] for “One Sweet Day,” held a bake sale and conducted an educational session. Both squadrons’ sexual assault prevention and response (SAPR) program coordinators were joined by Sheri Freeman, the regional sexual awareness response coordinator (SARC), and Brenda Huntsinger, the SAPR program manager for Marine Corps Base Hawaii.

In addition to enjoying baked goods, everyone received information and flyers promoting prevention of sexual assault

U.S. Navy photo taken by MCI Nathan Laird.

Aviation Machinist’s Mate 2nd Class Michael Espinoza and Naval Aircrewman 1st Class Thomas Van Mun enjoy “One Sweet Day” with the regional Brenda Huntsinger SARC. Sheri Freeman and SAPR Program Manager for Marine Corps Base, Kaneohe.

through training. The event reinforced the commitment of the squadron to maintain a workplace environment that

rejects sexual assault and reinforces a culture of prevention, response and accountability. The event brought in a total of

\$123, which will be donated to the Hawaii Region SAPR Program and Sex Abuse Treatment Center at Kapiolani

Medical Center.

When asked about the turnout for the event, Chief Baby Wakefield said, “The event went very well. I was surprised to see how many people turned out, not only for the baked goods, but also to learn about our program. It was also a great event because we were able to partner with VP-9 to promote sexual assault awareness and pass information about future events.”

Additionally, the SAPR team sponsored a free 5K fun run on April 20 for the command. The five-kilometer run was conducted at Fort Hase Beach. The winners, first through third, in both male and female categories, were Aviation Electrician’s Mate Airman John Ciralli, Naval Air Crewman 3rd Class Matthew Carrell, Intelligence Specialist Seaman Jeffrey Torrance, Aircrew Survival Equipmentman 3rd Class Candace Tramel, Logistics Specialist 1st Class Meibol Kushiya and Chief Logistics Specialist Baby Wakefield. In addition to getting some early morning exercise, the Skinny Dragons also demonstrated their support for the SAPR program.

May to be celebrated as Asian Pacific American Heritage Month

An 2012 Asian Pacific American Month event will be held from 9 to 10 a.m. May 9 at the Military and Family Support Center, Hickam lanai at Joint Base Pearl Harbor-Hickam.

This year’s national theme is “Striving for Excellence in Leadership, Diversity and Inclusion.”

Guest speaker for the event will be CWO3 Andrew Nguyen.

Attendees must be seated 10 minutes before the start of the program. Military and civilian personnel are encouraged to attend with supervisor’s approval.

For more information on the event, call 449-0306 or email kathryn.keatts.ctr@navy.mil

Dumping is illegal

Don’t dump scrap tires and other trash at Joint Base Pearl Harbor-Hickam. Scrap tires collect and trap standing water, which attract mosquitoes that may carry infectious diseases.

Senior Chief Navy Counselor (SW) Johannes Gonzalez, the command senior chief aboard USS Reuben James (FFG 57), talks about the importance of career development boards in the Navy during the monthly training for Hawaii-based Navy career counselors.

Hawaii Navy career counselors host training

Story and photo by MC2 (SW) Mark Logico

Navy Region Hawaii Public Affairs

The Hawaii Chapter of the Navy Career Counselor Association and Navy Region Hawaii hosted monthly training April 25 for all area and visiting career counselors at Sharkey Theater at Joint Base Pearl Harbor-Hickam.

More than 150 career development team members in the region attended the event. Capt. David Sheridan, chief of staff, Commander Naval Surface Group Middle Pacific and USS Reuben James’ (FFG 57) Command Senior Chief Johannes Gonzalez were the guest speakers.

The training focused on annual career information periodic reviews (CIPR). Ashore and afloat commands must

have their CIRP programs assessed annually with a passing grade of 85 percent or better in order to be considered eligible for the retention excellence award.

“The message is, leadership involvement,” said Sheridan. “Ask for help early. Get folks to look at your program before you have to go through the review. It is very important ... that you invest the time to make sure you understand what’s going on with your Sailors in your retention programs.”

Gonzalez said the career development board is the most important aspect of every Sailor’s career progression, especially because of programs like Perform-to-Serve and Enlisted Review.

“Our Sailors need to know, the chiefs’ mess needs to know, the officers need to know all the

changes that are happening with our Sailors,” said Gonzalez. “One of these days the economy is going to pick up, and when the economy is going to pick up that’s when we are going to find ourselves trying to keep Sailors, trying to retain Sailors.”

Gonzalez said that even he, as a command senior chief for a frigate, needs a career development board.

Every year, the Navy evaluates each command and through a series of requirements and benchmarks, determines which commands have the highest personnel retention. The 2012 Retention Excellence Award continues to build on command sponsorship, command indoctrination, Perform to Serve, and career development boards, which are essential components of the career information program.

Wahine sailors race at Pearl Harbor

W. Dean Smith

Pearl Harbor Yacht Club

A total of 10 teams of women sailors competed in a wahine regatta, held at Rainbow Bay Marina and hosted by Pearl Harbor Yacht Club recently.

Competing in wind gusts up to 25 knots, the sailors completed a total of five races, with teams from Waikiki Yacht Club and Pearl Harbor Yacht Club placing first and second, and third place going to another team from Waikiki Yacht Club.

The regatta included both military and civilian women from yacht clubs around Oahu and also from Maui, and was held in the recreational sailing area of Pearl Harbor's east loch. Teams of two to three wahine sailors each competed in a round-robin series of races, with teams swapping boats after each race to ensure a fair distribution of competitors and equipment.

Eight Catalina 18-foot sailboats from Rainbow Bay Marina comprised the racing fleet, watched over by a Morale, Welfare and Recreation safety boat and a race committee boat.

Leslie Foster, from Waikiki Yacht Club, was the winning skipper, with

crew members Cecilia Jansson and Madelen Kype.

Second place went to skipper Benton Whitesides from Pearl Harbor Yacht Club, with crew member Holly D'Agostino.

Rounding out the awardees at third place was skipper Eric Magee from Waikiki Yacht Club, and her crew of Katie Greenlee and Kerri Schweibert. Other competitors included teams from Pacific Yacht Club, Kaneohe Yacht Club, Hawaii Yacht Club, Makani Kai Yacht Club and Maui Boat and Yacht Club.

The regatta was the first in a series of regattas organized by the Hawaii Yacht Racing Association to determine an overall winner for the Wahine Skipper of the Year trophy. An additional race was held in April and others are scheduled for July at Kaneohe Yacht Club, and in August at Waikiki Yacht Club and also at Pacific Yacht Club.

This is the third year of a series of reinvigorated wahine regattas, which have significantly expanded the role of women sailors in the local yachting community. The military sailing clubs of Joint Base Pearl

Harbor-Hickam, both Pearl Harbor Yacht Club and Pacific Yacht Club, offer opportunities for both men and women sailors to learn and hone their sailing skills. Sailors also have a chance to compete with local yachters, participating in a year-round series of events that welcomes all newcomers.

Pearl Harbor Yacht Club was established in 1924 and was one of the premier social clubs on Oahu in the pre-WWII years. Following the war, the club was reorganized as a military sailing club which also included members from the civilian community.

The club was based at the old U.S. Navy recreational beach on Keehi Lagoon in the 1950s and 1960s, and relocated to Rainbow Bay Marina in 1973 when that facility was constructed to replace the recreational beach lost to the new reef runway at Honolulu International Airport.

The club conducts recreational sailing every Thursday afternoon at Rainbow Bay Marina.

Football tournament scores touchdown for SAAM

Story and photos by
Randy Dela Cruz

Sports Editor

A total of 10 flag football teams, made up of members from all military services, converged on Makalapa Field near the headquarters of Commander, U.S. Pacific Fleet (COM-PACFLT) to engage in a friendly tournament that highlighted a serious message.

The 2nd Annual Sexual Assault Awareness Month (SAAM) Flag Football Tournament, held April 28, capped off a full month of activities and education on the seriousness of sexual assault.

The U.S. Department of Defense, slogan for this year's SAAM is "Hurts one. Affects all."

Teams such as the Gunners, Skinny Dragons, The Reapers, Team Unicorns, Titans, The "A" Team, Sunday's Finest, Average Joes, Green Machine and Not in this Navy, participated in the tournament, which was coordinated through the efforts of the office of the Navy Sexual Assault Prevention and Response program and the COM-PACFLT Junior Enlisted Association (JEA).

Donations collected from the tournament will go to the Sex Abuse Treatment Center, a program of Kapiolani Medical Center for Women and Children.

While the Skinny Dragons, a team made up of Navy, Marines, Army and Department of Defense (DoD) civilians, prevailed over the Titans, 20-19, to win the tournament's championship, tourney

coordinator Operations Specialist 2nd Class Alvin Balthazar said that this was an event in which everyone emerged as a winner.

"I know that every single person that was out here, even if their team lost, they're still a winner," Balthazar said. "That's why we gave out certificates to basically let them know what they were a part of and contributed to. So they can have a little piece of memorabilia to reflect upon every time they look at it and remember, 'Hey, this is what I did for Sexual Assault Awareness Month.'"

According to Shari Freeman, who works with Louella Cazimero-Bactad as Navy sexual assault response coordinators, the blending of a fun event with information on a serious topic really helped to get the message out.

"It's easier to get people to come out and play football than it is to come out to a rally," said Freeman, a DoD civilian. "People want to play. There's already teams and leagues that are made up, so it's kind of an easy transition to have people do what they want to do for a good purpose."

Prior to the start of the tourney's first game, Freeman gave a short speech about the devastating effect sexual assault can have on combat readiness and beyond.

Although she wouldn't say that sexual assault is on the rise in the military, Freeman admitted that it's becoming less hidden.

"We can't say that it's growing," she said. "The numbers are getting larger, but we can say that we are seeing more reports. Although that still doesn't speak to how much it happens because it's the most underreported crime. We just know that because we are doing so much more awareness and education, more people know how to report and feel more comfortable reporting, so that's why we see an increase."

Information Systems Technician 2nd Class Christopher Merz, United States Pacific Command (PACOM), who was still playing tackle football two years ago, said that the competition at the tournament was tough, but he understood that he and others were playing for a much tougher issue.

"It's definitely for a good cause," he stated. "I didn't mind investing a little off time to come out here and support it. Personally, I don't know anyone that's been through that (sexual assault), but it's definitely some-

thing I don't want anybody to go through. And if they did, I would want to be there to help them out."

One participant, Kendra Cunningham, a military spouse, who recently played on the Women's Flag Football League champions Navy Sharks, said that supporting a SAAM event was the

right thing to do.

"I think it's very important because we need to support what's going on here," Cunningham said. "What our part is, at least we can have one small part in it."

Balthazar said that while the tournament took a lot of planning and work, he credited several members of the JEA for helping to pull it off.

Even though the tournament was difficult to coordinate, Balthazar said it was a pleasure to do, and he is looking forward to next year.

"You take yourself out of the equation," he explained. "When you do something like this, it's not for self, but for others. So for us to do this, it's an honor."

Weather Squadron puts smackdown on NIOC ‘A’ team

Story and photo by
Randy Dela Cruz

Sports Editor

The 17th Operational Weather Squadron (17 OWS) scored two goals April 28 in the first half and three in the second to breeze through their much-anticipated showdown against the league-leading Navy Information Operations Command (NIOC) “A” team in a 5-1 win at Earhart Field, Joint Base Pearl Harbor-Hickam.

The battle between the top two teams in the Gold Division turned out to be a blowout for the 17 OWS, which raised their record to a spotless 6-0, while NIOC dropped their second game of the season and now holds a mark of 6-2-1.

“We got a really talented team – a lot more talented than last year,” said 17 OWS striker Aerographer’s Mate 2nd Class Dan Hicks, who scored one goal and passed for an assist in the second half. “We went to the semifinals last year, so we hope to get to the championship game this year.”

The 17 OWS posted their first goal early in the first half on a picture-perfect play that started with an outside pass from 1st Lt. David Moreno to Staff Sgt. Andres Aponte, who planted himself just beyond the goal.

Aponte took the pass and topped a slow shot to the goal, which looked headed for the goalkeeper, at first, but instead took a funny bounce and skipped into the net.

“What I like to see is keep it simple, and that’s what they did,” said retired Master Sgt. Jerry Dolan, who is the head coach of the 17 OWS. “The pass was no longer than five yards and he (Aponte) got a shot off.”

Meanwhile, the team’s second score of the first half came through the courtesy of NIOC defensive back Cryptologic Technician

Aerographer’s Mate 2nd Class Dan Hicks, striker for 17th Operational Weather Squadron (17 OWS), puts a shot on goal following breakaway during a Gold Division showdown against the Navy Information Operations Command (NIOC) “A” team.

(Technical) 3rd Class Jarrett Bennett, who made a good play to kick the ball away from 17 OWS forwards, but inadvertently booted the ball back and into his own goal for a 2-0 OWS lead.

Playing with the wind at their back in the second half, the 17 OWS stepped up their attack and flooded the front of the field with pressure from the outside.

Hicks added the team’s third goal on only its second kick on goal in the second half and was supported with a breakaway goal by Senior Airman John Steigerwald, who was moved up from his usual position of sweeper.

Later, Hicks feigned a drive to the goal to draw the NIOC goalkeeper away from his position near the goal.

Hicks then kicked a pass to Ashley Dolan, the coach’s daughter, who shot in the team’s fifth and final goal of the game.

While the 17 OWS enjoyed a solid first half, Dolan said he was much more satisfied with the results of the second half.

“To me, soccer is a beautiful game if it is played well,” Dolan noted. “That second half was beautiful because we were touching the ball and using each other.”

Dolan, a veteran coach of

over 25 years, said that the players entered the game with a plan and stuck to it to earn the one-sided victory.

“I’m a possession coach,” Dolan admitted. “What I like is maintain possession. If they (opposition) don’t get the ball, they cannot score.”

During the entire matchup, NIOC got only four kicks on goal, with the third shot, from the foot of Cryptologic Technician (Technical) 2nd Class (SA) Dylan Harris, going into the net for the team’s only score.

Bennett said that although the loss was disappointing, he believes

that the team will quickly put it away and come back strong.

“I knew coming into this game that we would be missing some key players,” said Bennett, who pointed out that NIOC was in major-deployment season and played against the 17 OWS short of a full roster. “We’ll take it, learn from it and look forward to seeing them again.”

Following the win, Hicks said that if his team wants to keep on winning, then it has to focus on each game and not become overconfident.

“Be humble,” Hicks stated. “We played really well last year, but couldn’t get it

finished. We’re undefeated right now, so we just need to continue playing our game. As long as we keep doing that, we have a good shot of running the table.”

Dolan said that the success of the team has him rethinking about the way he first approached the season.

“I don’t focus on winning and losing,” he said. “I got individual training plans, and they’ve all exceeding that to this point, so now I have to kind of reevaluate where I want to get them. We play ourselves and if they do what their level is and exceed that we’ll be fine. Winning will take care of itself.”

Bats keep on popping in 735th AMS win over 120th FW

Story and photo by
Randy Dela Cruz

Sports Editor

For the big bats of the undefeated 735th Air Mobility Squadron (735 AMS), mercy-rule endings have become habit forming and their last game versus the 120th Fighter Wing Det. 1 (120 FW Det. 1) turned out to be more of the same.

Bursting out with an 11-run first inning May 1, the 735 AMS walloped the 120 FW, 22-0, in a shortened Gold Division intramural softball game at Hickam Softball Complex, Joint Base Pearl Harbor-Hickam.

The win kept the co-division leader’s record spotless at 6-0, while the struggling 120 FW dropped to 1-5.

In the early-ending rout, the 735 AMS did an excellent job of hitting the ball into the open spaces on the field and continued their torrid pace through the top of the third, when the home umpire called a sudden halt to the matchup after Tech. Sgt. Jeff Taylor blasted a deep shot over the right-field fence for a bases-clearing grand slam.

While everyone on the 735 managed to get the barrel on the ball, Taylor had a fantastic day at the plate.

The outfielder stepped into the box with the bases loaded three times and delivered on all occasions.

Taylor crushed a pitch over the head of the 120 FW right fielder for a bases-clearing double, and then followed up by hitting a sizzling shot over first base and into the right-field corner for a three-RBI triple, before clubbing the walk-off home run.

In total, the left-handed slugger drove in nine RBIs in three at-bats.

“Base hit. That’s all I’m thinking about,” said Taylor

Tech. Sgt. Jeff Taylor, outfielder for the 735th Air Mobility Squadron (735 AMS), is about to crush a pitch for a bases-clearing grand slam during a Gold Division matchup against the 120th Fighter Wing Det. 1 (120 FW Det. 1).

in describing what he felt each time he walked into the box. “Hit it and make sure it drops on the grass so I can move my runners. All I ever worry about is not to try and hit it deep. All I’m thinking is line drive and let the ball do its work.”

Tucked in the 735’s tough batting order, Taylor said that playing with a team full of hitters makes it easy to focus on making contact.

“The whole team, everybody did a great job putting the bat on the ball,” Taylor said, “working

it, putting them down on the grass and making the hits count.”

With the team racking up runs, one player that seemed to have an easy outing on the field was 735 pitcher Staff Sgt. Tom Sherrod.

The hurler worked an easy one, two, three inning in the first and posted another goose egg in the second inning after giving up two singles.

Sherrod credited the team’s solid fielding for his success on the mound.

“The thing is that I know that I have all my guys behind me,” he stated. “My guys behind me, I have complete trust in, so I just go up there and throw the ball and make it hittable. If it’s hittable, I know my guys are going to take care of me.”

Otherwise, Sherrod said he also has a selection of pitches to keep the batters honest.

“I like to throw a little curve, a knuckle, a little back spin or forward spin,” Sherrod admitted. “But as long as it’s close, it’s good to have guys do what they do.”

Although the team seems to be running on all cylinders, as the regular-season winds down, Taylor said that it’s important to keep focused and not let the blowout wins go to their heads.

Taylor pointed out that in softball, any team has a chance to win.

“We had a game two weeks ago with a team that had, I think a 2-3 record, and they just turned it up on us the whole game,” Taylor said. “We won by two runs, but they were hitting the ball every inning, so you can’t really come in and be overconfident.”

While both Taylor and Sherrod believe that the 735 has the potential to go all the way to the championship game, Sherrod said that no matter what happens, playing on the squad with a bunch of great guys makes the season worthwhile.

“What’s crazy is we’re actually two different career fields in our squadron,” Sherrod pointed out. “We’re maintenance and transportation, but this brings us together and makes us one group. Its just good times.”

Spending plan can help you know how much money you have

Accredited Financial Counselors

Military and Family Support Center

Polls show that everyone is concerned with the increasing cost of gas, food and just about everything else.

As financial counselors, we believe that a spending plan (another name for budget) is the most effective

financial management tool available. It does not matter if you earn thousands of dollars a year or hundreds of thousands of dollars.

It is important that you know how much money you have to spend and where you are spending it. A spending plan is needed to produce a desired result and with it, you can control your financial resources, set and realize goals, and

decide in advance how your money will work for you. The idea behind budgeting is to save money up front for known and unknown expenses. A good spending plan will allow you to know exactly how much money you have, even down to the penny, if you want.

Communication: A budget is a communication tool to discuss priorities for where your money should be spent. Creating it

together is key to resolving differences about money handling.

Control: A budget will allow you to take charge of your finances. You can be in control of your money instead of having your money limit what you do.

Hidden money: A budget will produce extra money for you to do with as you wish. Hidden fees and interest paid to outsiders can be eliminated forever.

Savings, even small ones, can be accumulated and made to work for you. We have found it helpful to “put that debit card away.” Try using cash for such things as eating out (based on what you allotted in your budget). Don’t worry about the money when you know where it’s going. Worry about the money that you have no clue where it went. Have you ever pulled out \$100 from the ATM and by

the end of the day you say, where did it all go?

If you would like some assistance preparing a spending plan, the accredited financial counselors at Military and Family Support Center are available for free, confidential appointments. To schedule an appointment, call 474-1999 or check out financial classes that are being offered at www.greatlife-hawaii.com.

My favorite photo...

Using a long distance lens, Zeenat Mian, the wife of a retired Navy service member, took this photo April 10 at White Plains Beach. This is a male Hawaiian monk seal called Kermit. He usually hangs out between Nimitz Beach and White Plains. He goes to the ocean at night to forage and sleeps during the day at the beach.

WHO SAID IT?

“There are no traffic jams along the extra mile.”

Last Week's

WHO SAID IT?

“Independence is happiness.”

Susan B. Anthony

This Week's Trivia

When did Lt. Edward V. Rickenbacker, the leading U.S. ace of World War I with 26 victories, shoot down his first airplane?

Last Issue's Question: When did Gov. James Barbour of Virginia issue a general order to the brigadier generals of the state militia establishment, calling them into service against the British? **Answer:** The governor issued the general order on April 19, 1812. The order put on notice the 12,000 or so militiamen in the state.

Shipyard workers test prototypes

Pearl Harbor Naval Shipyard Public Affairs

Pearl Harbor Naval Shipyard workers tested prototypes of new equipment under actual work conditions during the First Submarine Corrosion Control Applied Innovation Challenge Contest held recently.

The initiative, sponsored by the Naval Sea Systems Command (NAVSEA) Team Submarine research and development office, featured products by four companies in the areas of ballast tank communications, personal protective equipment cooling, and work area lighting.

Coatings and services shop workers tried out the equipment aboard a submarine in dry dock and in the sandblasting facility and then filled out evaluation forms. Their comments will be used by the companies to further refine their equipment designs to meet worker needs, according to Dr. James Fabunmi of AHDC, the vendor hired by NAVSEA to coordinate the initiative.

“(Pearl Harbor) is the first shipyard to embrace the vision of this approach,” he said.

“It’s a way to get the technology with less guesswork,” he explained. The contest is

about “engaging the end user while competing who has the best ideas as expressed in the form of prototypes. ... (And) if the prototypes aren’t good enough, it’s determining what needs to be improved.”

Jesse Kruse, Sandblaster,

and one of the workers who evaluated products, was asked what he thought of the innovation contest. “I think it’s a good idea,” he said. “As technology gets better, we can do the job quicker, faster, more efficiently and safely.”

U.S. Navy photo by Marshall Fukuki

Bianca “Binx” Freitas, Pearl Harbor Naval Shipyard painter apprentice, tests a prototype radio on the floor of dry dock two. She and other trades workers evaluated communications, personal cooling and work lighting systems under development by companies participating in a week-long innovation competition sponsored by the Naval Sea Systems Command.

Armed Services Blood Program to hold upcoming donor drives this month

Tripler Army Medical Center Blood Donor Center has scheduled upcoming blood drives, as part of the Armed Services Blood Program (ASBP).

They include:

- May 7, 9 a.m. to 1 p.m., Marine Corps Base Hawaii Kaneohe chapel.
- May 8, 10 a.m. to 1 p.m., at Schofield Barracks Tropics.
- May 9, 9 a.m. to 1 p.m., Fort Shafter 205th.
- May 10, 9 a.m. to 1 p.m., Joint Base Pearl Harbor-

Hickam Personnel Support Detachment Moanalua Center.

- May 14, 9 a.m. to 1 p.m., Naval Submarine Support Command (NSSC), 822 Clark St., Ste. 400, Joint Base Pearl Harbor-Hickam.
- May 15, 9 a.m. to 1 p.m., Schofield Barracks 65th Engineers.
- May 16, 11 a.m. to 3 p.m., Schofield Barracks Main Exchange.
- May 22, 9 a.m. to 1 p.m., SPAWAR Hawaii, Victor Wharf Access Road, building

992, Pearl City.

- May 23, 11 a.m. to 3 p.m., Hickam Exchange building 1235, Joint Base Pearl Harbor-Hickam;.
 - May 29, 9 a.m. to 1 p.m., Joint Intelligence Operations Center (JIOC) building, Joint Base Pearl Harbor-Hickam.
 - May 30, 11 a.m. to 3 p.m., Tripler Army Medical Center Exchange.
- For more information, call 433-6699 or 433-6148 or email michelle.lele@amedd-army.mil.

PEARL HARBOR-HICKAM Maniawa Nanea LEISURE

Morale Welfare & Recreation

SPRING CRAFT FAIR AND FAMILY FUN
The spring craft fair and family fun day will take place from 9 a.m. to 3 p.m. Saturday at the Hickam Arts and Crafts Center lawn. Vendors will sell original, handmade art, jewelry and crafts. The event will also feature food booths, live entertainment, horse rides, youth activities and giveaways. Admission is free. FMI: 448-9907.

FATHER-DAUGHTER DINNER DANCE
A father-daughter dinner dance will be held from 4 to 7:30 p.m. Saturday at the Hickam Officers' Club lanai. The cost is \$15 for each father/daughter pair and \$5 per additional daughter. FMI: www.greatlifehawaii.com or call 474-1999, ext. 0.

GABRIEL IGLESIAS COMEDY SHOW
Stand-up comedian Gabriel Iglesias, also known as the "fluffy" comic in a Hawaiian shirt, will perform a free show May 10 at Joint Base Pearl Harbor-Hickam. Gates open at 5 p.m., and the show starts at 7 p.m. Blanket and chair seating is on a first-come, first-served basis. Food and beverages will be available for purchase. No pets, bottles or outside food is allowed. The show is recommended for audiences ages 16 years and older. FMI: www.greatlifehawaii.com.

WORLD FIRE KNIFE WITH LIBERTY
Traditional Polynesian dancers will perform during the free world fire knife competition May 10 with Liberty. Depart Liberty Express at 4 p.m., Beeman Center at 4:45 p.m., Instant Liberty at 5 p.m. and the Makai Rec Center at 5:15 p.m. This event is for single active-duty Sailors and Airmen only. FMI: 473-2583.

YOGA BY THE SEA
A free relaxing yoga class will be held near the beach while listening to the sounds of the ocean from 6 to 7 p.m. May 11 at Hickam beach cabana one, on the left side of the former Sea Breeze restaurant. FMI: 448-2214.

ABANDONED VEHICLE AUCTION
A Morale, Welfare and Recreation abandoned vehicle auction will be held from 8 a.m. to 2 p.m. May 12 at the abandoned car lot at Joint Base Pearl Harbor-Hickam. Vehicles are sold "as is." FMI: www.greatlifehawaii.com.

SUPER GARAGE SALE
A super garage sale will be held from 8 a.m. to noon May 12 at Richardson Field at Joint Base Pearl Harbor-Hickam. FMI: 473-0792.

For more information on events, visit www.greatlifehawaii.com.

Community Calendar

May

4-6 - May is fitness and military appreciation month. A family fun fitness fair will be held at the Pearl Harbor Navy Exchange Mall. Fitness experts from Morale, Welfare and Recreation will provide information about fitness classes, sports equipment and body fat analysis. Tripler Army Medical Center will also attend with various health education booths. Defense Commissary Agency (DeCA) will also stop by with healthy treats. FMI: 423-3287.

8 - The Armed Forces Communications and Electronics Association buffet luncheon will be held from 11 a.m. to 1 p.m. at the Ft. Shafter Hale Ikena Club. The speaker will be Maj. Gen. Stephen D. Tom, commander of the Joint PWE/MIA Account Command on the subject "Until they're home." Military and civilians are welcome. FMI: www.afceahawaii.org or Ken at 441-8524 or Barry at 441-8565.

8 - Each unit/activity is required by base regulation to have a primary and alternate fire warden assigned. The Federal Fire Department is sponsoring a fire warden training class 10 a.m. at Schofield Barracks, building 560, Sergeant Yano Library. FMI: Kevan Miller at 754-4382 or 471-3303, ext. 611 or kevan.miller@navy.mil.

9 - An Asian Pacific American Heritage Month event will be held from 9 to 10 a.m. at the Military and Family Support Center, Hickam lanai at Joint Base Pearl Harbor-Hickam. The theme is "Striving for Excellence in Leadership, Diversity and Inclusion." Guest speaker for the event will be CWO3 Andrew Nguyen. Attendees must be seated 10 minutes prior to the start of the program. FMI: Kathryn.keatts.ctr@navy.mil or 449-0300.

16 - A "Hiring Our Heroes" veterans event titled "Shipmates to Workmates" will be held from 9 a.m. to 3 p.m. at Neal Blaisdell Center, 777 Ward Ave., in Honolulu. Employers must call 536-7222 or email margarete@successhi.com. Job seekers register free at HoH.GreatJob.net to guarantee admission. FMI: www.uschamber.com/hiringour-heroes

24, 27 - All active duty service members are invited to compete in the Military Idol singing competition, which will be held at 5:30 p.m. in the Pearl Harbor Navy Exchange (NEX) parking lot. Applications to enter will be available at the NEX Aloha Center mall rotunda. Deadline to enter is May 17. First, second and third place winners will receive NEX gift cards. No purchase is necessary. FMI: Stephanie Lau at 423-3287.

Movie Showtimes

Mirror Mirror (PG)

When Snow White's beauty wins the heart of the prince that she desperately pursues, the queen banishes her to the forest, where a man-eating beast hungrily awaits. Rescued by a band of diminutive highway robbers, Snow White grows into an indomitable young woman determined to take back her realm from the treacherous queen. With the support of her subjects, she roars into action in an epic battle that blends spectacle, magic and contemporary humor in Singh's signature, jaw-dropping visual style.

Why commemorate the War of 1812 bicentennial?

www.ourflagwasstillthere.org

From 2012 to 2015, the United States Navy and its partners will commemorate the bicentennial of the War of 1812 and the writing of our national anthem, the Star Spangled Banner. It is remarkable that 200 years ago, the first declared war in our nation's history was fought against the two nations which have become our closest allies. Many things change in 200 years, but what doesn't change is the importance of sea power in the affairs of maritime nations.

Since its birth in 1776, the United States has always been a maritime nation, which means that unobstructed access to and free use of the world's oceans are essential to our national welfare and prosperity. That's what the United States went to war in 1812 to defend, and that is what the United States Navy has been protecting ever since.

Why is keeping the seas free so important? Here are a few facts about the world:

- 70 percent of the world is covered by the oceans.

- 80 percent of the world's people live near the oceans.
- 90 percent of all international trade travels on the oceans.

• 95 percent of all global communications are transported under the oceans. That's the world America lives in today. Looking at those numbers, one begins to understand the immense importance of ensuring the freedom of the oceans with capable and effective sea services.

Since America's Navy began with only six frigates, American sea power has been essential to countering threats, winning wars and furthering the interests of peace and prosperity worldwide. Today one of those first six frigates that 200 years ago fought in the War of 1812, the USS Constitution, is still a commissioned ship in the United States Navy.

Ultimately, the commemoration of the bicentennial of the War of 1812 is a salute to all Sailors and Marines who fought so gallantly against great odds in that conflict, in all of our nation's conflicts between then and now, and those who are today defending

freedom around the world – from the mountains of Afghanistan to the coasts of Africa to the Straits of Hormuz – and standing ready to provide compassionate humanitarian aid from Haiti to Japan to wherever catastrophe strikes.

The Navy and Marine Corps and Coast Guard are what they are because of the quality of the people that served over the last 200 years, and the tens of thousands of Sailors and Marines now making sacrifices every day, something that America can be very grateful has not changed over the past 200 years.

If America remembers the lessons of the naval war of 1812, lessons paid for with the lives of Sailors and Marines, then America can be confident that the nation will always answer Francis Scott Key's question in the affirmative:

“Oh, say does that that Star-Spangled Banner yet wave O'er the land of the free, and the home of the brave?”

For more information on the bicentennial, visit the website www.ourflagwasstillthere.org.

This Week in USAF and PACAF history

Charles Nicholls

PACAF historian

- On May 1, 1943, Staff Sgt. Maynard H. “Snuffy” Smith, a B-17 gunner on his very first combat mission, earned the first Medal of Honor awarded to an enlisted airman.

On that first mission, Smith's aircraft was badly damaged by German fighters and anti-aircraft artillery. Fires on the aircraft were fed by the fuel supply and burned so hot that they melted holes in the airframe and started exploding the ammunition stores.

Although he could have bailed out and several other crew members had already done so, Smith stayed onboard. For 90 minutes, Smith fired at enemy fighters, threw ammunition out of the aircraft, fought the fires, and gave first aid to the wounded.

- On May 1, 1945, Operation Chow-hound took place. Eighth Air Force sent nearly 400 B-17s from England on a mercy mission to drop nearly 700 tons of food to starving civilians in German-occupied Holland.

The Germans approved this flight and promised not to shoot down the bombers if they flew along specified routes so as not to observe German troop positions. Eighth Air Force and RAF bombers flew five more missions and delivered nearly 7,900 tons of food.

- On May 4, 1960, a groundbreaking ceremony for

the Hawaii Air National Guard (HIANG) fighter complex was held at the Hickam Harbor-Fort Kamehameha area. Following the ceremony, contractors began work on the \$1,847,000 project, which included a new parking apron, maintenance hangar, annex for administration and supply, roads, and utilities.

- Col. Betty L. Mullis on May 5, 1996, became the first woman to command a flying wing when she assumed command of the 940th Air Refueling Wing (AFRES) at McClellan AFB.

Military history events scheduled with Tuskegee Airmen

Airman 1st Class Un Young Pak

HQ Pacific Air Forces

The Artis-Baham-Goldsborough Chapter of Tuskegee Airmen Inc. wil participate in two military history events in May.

The first event is the Fort Derussy “Living History Day” from 10 a.m. to 3 p.m. May 19 at the Hawaii Army Museum.

This event commemorates

and educates the public through exhibits of weapons, equipment and insignia throughout history. It will also include people dressed in historical military uniforms reenacting different time periods. The event will also include information booths from various organizations educating others about, and commemorating, military history.

The second event including the chapter is the “WWII West Loch Internees Ceremony”

which will be held at 3 p.m. May 21 at the National Memorial Cemetery of the Pacific at Punchbowl. The ceremony, in collaboration with Hawaii joint military forces and the community, will be held to honor the fallen Soldiers who died at West Loch, Pearl Harbor on May 21, 1944. During the ceremony Philip Baham, an original Tuskegee Airman who resides on Oahu, will be presented with his Congressional Gold Medal by

guest speaker Rear Adm. Frank Ponds, commander of Navy Region Hawaii and Naval Surface Group Middle Pacific.

The West Loch incident was the second largest military disaster on Hawaii soil after Dec. 7, 1941. In all 163 men were killed and 396 wounded. The remains are buried in graves marked "unknown" since many were burned beyond identification in the inferno of a half dozen war ships docked in the West Loch Peninsula.

The explosion began with LST 353, where 104 black men from Schofield Barracks 29th Decontamination Unit were unloading mortar ammunition by hand. Six landing ship tanks were destroyed that day and burned for more than 24 hours.

For more information, call Airman 1st Class Un Young Pak at 449-8168 or Deloris Guttman, historian of African American Diversity Cultural Center Hawaii, at 597-1341 or visit www.aadccch.org.

Brief bridge closure planned for morning of May 16

The Adm. Clarey (Ford Island) Bridge will be closed to vehicle and pedestrian traffic from 9 to 10:30 a.m. May 16 for routine maintenance. The port security waterborne barrier will be closed during the maintenance period also, and small boat traffic will not be permitted under the bridge.

Myth vs. reality: renewable energy

Naval Facilities Engineering Command Hawaii

Myth

Renewable energy is still new and unproven.

Reality

Throughout history renewable energy sources, such as sunshine, wind, water, vegetation and the heat of the earth, have been successfully harnessed and used to provide energy. Almost 2,500 years ago, the Greeks designed their homes to use winter sunlight for heating.

Large, south-facing windows were used to collect solar heat, which was stored in massive walls and floors for gradual release throughout the night.

The wind has also been used as an energy source for centuries. Some of its early uses include propelling ships and pumping water. Today's technological advancements have developed more efficient means of harnessing and using renewable energy sources, and these sources are gaining increasing popularity.

Earth tip: Reduce risk of hazards

At work and at home, reduce the risks caused by hazardous wastes by buying non-toxic materials or the smallest available amount.

Children are particularly sensitive to fumes and residues left by cleaning products, solvents, pesticides and paints. Little ones may open the doors under sinks and think the spray cans and bottles are toys. To reduce the risk of exposing children and pets to these toxic hazards, lock any storage areas.

For more information, email Rebecca Hommon, Navy Region Hawaii environmental counsel, at rebecca.hommon@navy.mil.

Pacific Aviation Museum schedules upcoming events

Upcoming events at Pacific Aviation Museum Pearl Harbor include:

- May 19, 1:30 to 3 p.m., “Inside Look at The Blackbird with and without a Pilot” hangar talk by museum associate curator and aviation author Jim Goodall at the museum education center. The event is free with paid museum admission.

- May 28, 10 a.m. to 2 p.m., Home of the Brave Quilt Project. The event is free with paid admission.

See quilts being made and sign one that will be presented to the family of a fallen Hawaii Soldier.

- June 2, 3, the Battle of Midway commemoration. The commemoration will mark the 70th anniversary of this “turning point in the Pacific” epic battle, with two days of speakers, panel discussions, and the dedication and unveiling of the museum's new “Battle of Midway” exhibit. The event is free to active duty military service members with ID, museum members, and free with regular museum admission.

Commemoration events include:

- June 2 and 3, 9 a.m. to 4 p.m., symposium.

- June 2, 5 to 7 p.m., “Battle of Midway” new exhibit opening and cocktail reception, at museum hangar 79.

For more information and tickets, call 441-1000 or visit the Website www.Pacific-AviationMuseum.org.
