DEPARTMENT OF DEFENSE

Data, Analytics, and Artificial Intelligence Adoption Strategy

Accelerating Decision Advantage

# Strategic Goals and the AI Hierarchy of Needs

Figure 2: Strategic Goals and the AI Hierarchy of Needs

"The Hierarchy is helpful as a framework for assessing DoD AI readiness, and for guiding the Department's goals to accelerate adoption of data, analytics, and AI technologies to build enduring decision advantage. These interdependent goals, and their supporting activities and investments, cut across technology, human capital, process, and culture areas."

INVEST IN INTEROPERABLE, FEDERATED INFRASTRUCTURE: Optimize the Department's federated infrastructure to support scaling data, analytics, and AI adoption and improve interoperability.
