## HWAD cuts ribbon on refurbished Black Beauty Reservoir

HAWTHORNE, Nev. – Brig. Gen. Daniel Duncan, commander of Joint Munitions Command, served as the presiding official at Hawthorne Army Depot, marking the restoration of the Black Beauty Reservoir. The project focused on the infrastructure of the reservoir, which collects water from seven different sources. The reservoir provides an off-stream fresh water source used for collection, disinfection and distribution for HWAD's mission.

## Advanced manufacturing tech provides quick solutions

CORPUS CHRISTI ARMY DEPOT, Texas – Corpus Christi Army Depot continuously strives to be a leader in transformation, utilizing new technologies to support the warfighter faster and safer. As a result, the depot installed a new grinder in the Aviation Multipurpose Production Facility. "This was one of those moments when you see the machine operating as designed at CCAD and can visualize potential issues," said Justin Vance, general engineer.

## CECOM ILSC transforms in contact to support the Army

ABERDEEN PROVING GROUND, Md. – The Army is prioritizing the concepts of continuous transformation and Transforming in Contact within a dynamic global technology and geopolitical environment, placing a heightened demand for a formidable readiness and lethality posture. To support this, the ILSC is developing an artificial intelligence troubleshooting capability to support and assist Army field-level maintenance personnel.

## JMTC achieves aerospace milestone with AS9100 certification

ROCK ISLAND ARSENAL, Ill. – Rock Island Arsenal-Joint Manufacturing and Technology Center achieved the AS9100 certification, a globally recognized quality management system standard for the aerospace industry, marking a pivotal moment in the historic factory's ongoing modernization and its expansion into new, high-tech markets. The AS9100 standard demands a rigorous and comprehensive approach to quality management.

## Food service enhancements come to cadet summer training

ROCK ISLAND ARSENAL, Ill. – This summer, Cadet Summer Training at Fort Knox, Kentucky, is evolving, with significant enhancements to its food service program, according to Logistics Readiness Center Knox officials. CST is the Army's largest annual training event and has lasting effects as these students go on to commission as Army officers. Eleven dining facilities will provide support for junior leaders with 740,000 meals planned May 31 through Aug. 20.

## Aviation, sustainment teams conduct night missions

FORT EISENHOWER, Ga. – Helicopters from Fort Stewart-Hunter Army Airfield flew into Fort Eisenhower for aviation and sustainment missions during Operation Brawler Phoenix, a multi-day training exercise in May.
