AMC enters a new era of data-driven logistics

REDSTONE ARSENAL, Ala. – On the path to becoming a more data-centric organization, Army Materiel Command is leaning into advanced analytics and artificial intelligence, or A3I, to improve its operations. “Data is no longer just a support function, it’s central to everything we do,” said Lt. Gen. Chris Mohan, AMC deputy commanding general and acting commander. “Our focus on A3I is about empowering our people.”

Army and Air Force level up contracting with AI

REDSTONE ARSENAL, Ala. – Contracting has been a cornerstone of Army readiness since the nation’s founding. After calling for an Army to be raised, the Continental Congress recognized that securing supplies and resources was just as critical as fielding troops. Today, the spirit of that mission continues with Army Contracting Command leveraging AI to ensure that combatant commanders have what they need as quickly and efficiently as possible.

Leaders break ground on new CDC at Fort Knox

FORT KNOX, Ky. – Leaders from Fort Knox, the surrounding communities and U.S. Senator Mitch McConnell’s office broke ground June 20 on the long-awaited new child development center. Installation leaders have had the new child development center on the wish list for several years. The current facility has a closed-concept plan, which provides a greater challenge for staff supervising children.

Exercise Talisman Sabre 2025

FORT SHAFTER, Hawaii – More than 35,000 U.S., Australian and other international military personnel will participate in exercise Talisman Sabre July 13 to August 4, in Australia and Papua New Guinea, to strengthen relationships and interoperability among key Allies and partners, enhancing our collective capability to respond to a wide array of potential security concerns and maintain a free and open Indo-Pacific.

Storage modernization at the Pueblo Army Depot

FORT GREGG-ADAMS, Va. – The storage modernization program at Pueblo Army Depot, Pueblo, Colorado, began in 1964. At that time, the largest part of the receiving, processing, packaging, packing and shipping functions at the depot was being conducted in six World War II vintage warehouse buildings. Truck-tractor/semitrailer combinations were the primary means for transportation between various storage functions located in separate warehouses.

250th Birthday Ball celebrates world’s greatest Army

REDSTONE ARSENAL, Ala. – Retired Gen. Gus Perna headlined the Association of the United States Army’s 250th Army Birthday Ball. “For 250 years the Army has stood watch through the Revolution and Civil War, through world wars and the Cold War, through peacekeeping and humanitarian missions,” Perna said. “At the face of terrorism and ever-emerging threats, we stood tall. We can be counted on to do our jobs.”
