VOL. 4, NO. 10

ROCK ISLAND ARSENAL, ILLINOIS

Friday, May 19, 1967

FIVE GREEK ARMY officers get a briefing on the U.S. Army's M16A1 rifle by the Army Weapons Command's commanding general, Brig. Gen. W. J. Durrenberger, third from left. From left to right are: Col. Pandelis G. Tsarpalas, Col. Nikolaos A. Liapakis, General Durrenberger, Col. George P. Sakellariopoulos, Lt. Col. Miltiadis Z. Garouris and Col. Demetrios G. Belbas. The Greek Army officers visited here last week to get an orientation and briefing on the Army Weapons Command and toured Rock Island Arsenal's Research and Engineering, Operations, Quality Assurance and Depot activities.

## M16A1 RIFLE IS ADOPTED AS ARMY'S NEW STANDARD

The Department of Defense announced last week that the Army has adopted the M16A1 (previously the XM16E1) rifle as a standard Army weapon in addition to the M14 rifle now in general use. U. S. Army forces in Europe will continue to use the M14 which fires the standard NATO 7.62mm cartridge.

Since March 1963, responsibility for the M16A1 rifle has been assigned to Col. Harold W. Yount, Army Materiel Command's project manager. His office is here at Rock Island Arsenal under Army Weapons Command.

The M16A1 is manufactured by the Colt Firearms Division, Colt Industries Inc., Hartford, Conn.

The standardization of the M16A1 for general Army use was made after an exhaustive two-year study in which several small arms systems were evaluated and tested.

The study concluded that while the heavier M14 is slightly superior to the M16A1 in effects on targets at ranges beyond 300 meters, the M16A1 is equal or superior at shorter ranges where targets are usually engaged. The study also concluded that the M16A1 is a highly effective weapon and that a more effective

weapon is not likely to be available for some time to come.

The M16A1 has been battle-tested in Vietnam where it has been in the hands of U. S. troops for the past two years. Lightweight, fast-firing, rugged and hard hitting, it has demonstrated its versatility and effectiveness in combat.

The M16A1, designed to fire 5.56mm (.223 caliber) ammunition, weighs only a little over six pounds. This reduced weight will allow reduction of the individual soldier's combat load, sup-

ply tonnage, and ultimately, costs.

Procurement schedules will take into account the number of weapons on hand, requirements of other services and Allies, and the Military Assistance Program.

### Power For Peace

Progress means keeping pace with changing times. One outstanding example is today's modern United States Army. New weapons, new tactics, and always new ways of doing the job. That is your Army.

## DEPOT DECLARES 'TUBBY' O'BRIEN WEEK

With all the pomp and ceremony due a chief of state, the Rock Island Arsenal's Depot Division will celebrate a Francis "Tubby" O'Brien Week next week.

The announcement was made today by Depot division chief, Louis Carstens, who said, "We want to honor one of the most respected employees in our business."

Mr. Carstens insists that Mr. O'Brien will be "leaving" his job and not "retiring" at the end of this month after more than 40 years of federal service. O'Brien, presently chief

## TOP AWC OFFICIALS VISIT WEST COAST

A team of top officials of the Army Weapons Command recently returned from a West Coast visit to industries concerned with the development or production of AWC mission items.

Heading the group was Brig. Gen. W. J. Durrenberger, AWC commanding general. Accompanying him were Dr. Colin Hudson, deputy for Research and Engineering and chief scientist; Col. Leonard M. Orman, director of Research and Development; Maj. William E. Watts, assistant project manager for Aircraft Weaponization, and retired Col. Frank F. Reed, weaponization consultant to the command.

The team visited three West Coast industrial firms as part of a series of trips to maintain the momentum of the command's increasingly vital involvement in the management of weapon systems for Army aircraft. The industries visited

### RIA Gets Contract

The Headquarters of the U. S. Army Weapons Command today awarded a \$1,450,794 work order to Rock Island Arsenal. The order calls for the continued production of the M158 mounts for the 175mm gun to be used on the M107 weapon system.

The M107 is a lightweight, self-propelled, full track 175mm gun. It is superior to any of its predecessors in long range firepower capability and mobility.

All work on this order will be performed at the Arsenal with the exception of procurement of minor support components.

### Attend Convention

Six delegates representing Local 15 of the National Federation of Federal Employees are attending the NFFE state convention in Chicago today and tomorrow.

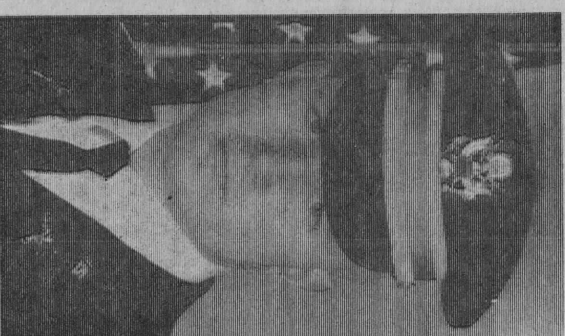

All employees of the Arsenal, they are: Lloyd Bull, Kitty Pierce, Greta Reichert, Gladys Webb, Margaret Stelton and Walter Schoening.

have been awarded contracts to develop or manufacture aircraft armament subsystems for use in Army helicopters.

The team visited the Hughes Tool Company's Aircraft Division at Culver City, Calif., the Aeronautical Division of Philco-Ford Corporation at Newport Beach, and the Lockheed-California Company of Lockheed Aircraft Corporation at Van Nuys.

Upon his return, General Durrenberger said, "In the area of mass production of materiel for our Armed Forces, we are completely dependent upon industry. We rely upon business—both large and small, prime contractors as well as subcontractors—to provide the American fighting man with the equipment he must have in order to preserve the freedom of our country."

The goal of the visitation program is to visit representative industries in each geographical area within the United States.

Lieutenant Rogers

WOUNDS suffered in combat in Vietnam proved fatal two weeks ago to 2nd Lt. George Rogers, 24, whose father is Lt. Col. George P. Rogers, former Inspector General for Army Weapons Command here. Lt. Rogers died in the 12th Evacuation Hospital near Cu Chi of wounds inflicted by an enemy mine. Colonel Rogers had been recently assigned to MAAG in Ethiopia but returned to Rock Island Arsenal on receiving word of his son's death. Lt. Rogers' wife, Gwen, his mother and three brothers lived in Quarters 32A on Arsenal Island.

### Army Weapons Command

Numerous are the awards that have been heaped on the popular Mr. O'Brien. Among others he has received letters of appreciation for Army regulation revisions and his latest was in 1965 for work contributions in Europe.

He has also received performance award certificates and in 1963 received a Department of Army Commendation.

Mr. O'Brien and his wife, Rosemary, live at 11 Thode Court, Davenport. They have eight children.

F. J. O'Brien

# ARMED FORCES DAY EVENTS BEGIN 9 A.M. TOMORROW

Armed Forces Day activities at Rock Island Arsenal will begin at nine, tomorrow morning, when the gates of the Arsenal are opened to the public. The day will mark the 18th annual Armed Forces Day climaxing Armed Forces Week throughout the United States.

At the final planning meeting yesterday at the Arsenal, Capt. David M. Alabran, Rock Island Arsenal, Armed Forces Day project officer, briefed the participating organizations on the plans for the day.

Participating units include: Hq. U. S. Army Weapons Command, Rock Island Arsenal, Army Corps of Engineers, U. S. Marine Reserves, Coast Guard, Iowa National Guard, Army, Navy, Marine and Air Force Recruiters, Roosevelt Military Academy, University of Iowa ROTC Unit, Davenport Naval Reserves, Moline Civil Air Patrol, Quad-City Science Fair, Quad-City Red Cross, Assumption High School Band, DeWitt High School Band and Davenport Model Airplane Club.

Morning activities will be confined to self-guided tours of Arsenal manufacturing facilities. Because many of the shops are working tomorrow, visitors will be able to see actual jobs in process. The shops will be

open to the public until noon.

The parade will start at 1 p.m., followed by a flag-raising ceremony at 1:30. The U. S. Marine Corps Reserves will raise the flag as area bands play the "Star Spangled Banner."

At 2 p.m., the SAC Headquarters drill team will give an exhibition of close order drill. Then the U. S. Marines will assault a fortified position using an "LVT" as an approach vehicle.

The first tank-auto demonstration will be presented at 2:35, followed by the University of Iowa drill team demonstration. At 2:55 the SAC team will present an unarmed self-defense demonstration, followed by the second tank - auto demolition.

The Roosevelt Military Academy drill team will perform at 3:35, followed by a model airplane demonstration by the Davenport Model Airplane Club.

Rock Island Arsenal will demonstrate the flame-thrower at 4:40, followed by the last tank-auto demolition.

The day's activities will end with a retreat ceremony at the flagpole at 5 p.m.

At the other end of the Island, with the Arsenal railroad providing transportation, the District Engineers will have open-house at Lock and Dam 15. The Golden-Rod, a Coast Guard Cutter, will be on display. Visitors will be able to board the vessel and get a guided tour of the boat by the crew.

Hq AWCers may ask  
MR. COST REDUCTION  
On Extension 4200

A SIMILAR SCENE to this M60 tank demolishing a full size automobile will be seen during Armed Forces Day activities here tomorrow. The demonstration of the awesome power of one of the U.S. Army's weapons systems was photographed during last year's open house.

## ISLAND CEMETERY SITE FOR RIA MEMORIAL DAY SERVICES

Dr. Earl H. Hanson, secretary of the Bi-County Memorial Day Association. The association is composed of veterans' organizations of Scott and Rock Island Counties.

Father F. J. Casey of St. Joseph's Church of Rock Island will give the invocation. The benediction will be given by Rev. M. F. Traynor of the Bethel A. M. E. Church of Davenport.

Music will be provided by the Rock Island Arsenal chorus and orchestra directed by Wilbey Fisher. The Moine Boy's Choir, led by Dr. Frederick Swanson, will also be on the program.

Grand Marshal of the parade will be Henry Therrien of Rock Island.

Mrs. Bessie Barth Richardson of Rock Island will present the GAR colors and carry them in the parade. The grand daughter of James J. Kinney, a Civil War veteran who carried the flag at patriotic ceremonies and Memorial Day services until his death, she has carried the same flag on Memorial Day for the past 55 years.

Quint-city scouts and junior marching units have

been invited to participate in the parade and ceremony.

At 11 a.m., weather permitting, there will be an aerial drop of flowers over the graves.

At the conclusion of the ceremonies at the cemetery, a firing detail will fire three volleys of shots and the musician will play "Taps" at the Confederate Cemetery.

Arsenal Island will be a tourist attraction during the day. With good weather, several thousand visitors are expected to tour the Island.

### Show Flowers

According to Frank B. Foley, unloading foreman in Building 299 and member of the board, the Davenport Horticultural Society will hold its second annual Spring Flower Show next Sunday, May 28.

Beginning at noon until 7 p.m., at Duck Creek Plaza in Bettendorf, the show is open to the public.

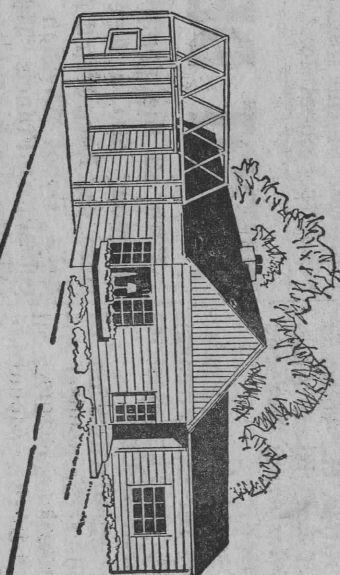

WERNER A. ENDE, a mechanical engineer with AMSWE-15, is on the fifth floor, center of building 350. (Ext. 5849).

# PRODUCTION PLANNER IS ECONOMY CHAMP

Herbert A. Hebel, a production planner in the Rock Island Arsenal Operations Division, has been named a 1967 Economy Champion by the Civil Service Commission. He received his award at a ceremony in Washington, D. C.

The only Army recipient to be honored at this ceremony, Mr. Hebel had earlier received a cash award of \$1,265 for his suggestion that aluminum be used instead of titanium in the manufacture of M-102 howitzer stabilizing stakes.

This suggestion resulted in a first year savings of \$212,000.

The Economy Champion program is to recognize employees who have earned awards for major savings in government operations during 1967. The program features a monthly honor roll of Economy Champions that is maintained in Washington, D. C.

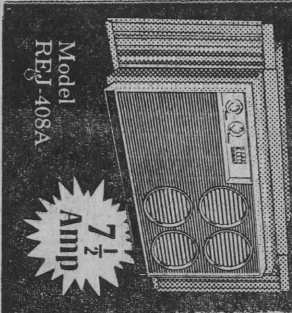

The award was presented by Civil Service Commission

sioner L. J. Andolsek. Present at the ceremony were F. W. Carlson, chief of the Rock Island Arsenal Planning Section, and Mr. Hebel's wife, Margaret.

In addition to the award, Mr. Hebel received a personal letter from President Johnson which read: "I welcome you to the partnership with me in the imperative task of cutting the costs of government."

"That is what you have proved to be — an active contributing partner in our constant drive for efficiency and economy."

"I know it is equally gratifying to you to know that every dollar you have saved will be put to harder work, to better use."

"Your economies help pay for the cost of freedom's struggle in Vietnam. They help to support our vital programs at home."

"Your concern has properly earned you recognition as an Economy Champion. As I salute you, I commend your example to every employee at every level of our government."

## Arsenalites' Contributions Will Top '66 Total

Donations this year from Arsenalites to the National Health Agencies topped last year's total, according to Harold Sedrel, project coordinator.

With a deposit of almost \$12,500 already made to the Rock Island Arsenal United Charities bank account, and individual checks still to be tabulated, the official was sure the total would top last year's \$12,800 donation.

"The fine response," said

WITH HIS SMILING WIFE, Margaret, watching, Herbert H. Hebel, center, an RIA production planner, gets his Economy Champion Award from Civil Service Commissioner L. J. Andolsek.

Mr. Sedrel, "is to be commended." An exact figure of \$12,421.81 has been deposited in the account. Checks that were made out to specific organizations in the agencies' drive were sent directly to the organizations.

Final tabulations are still being made. Contributions to the International Service Agency about to cross the street.

Careful drivers will know that a flashing red signal in a school zone means "stop" — children are crossing or about to cross the street.

"... only presidents, editors and people with tapeworm have the right to use the editorial 'we'..." Mark Twain.

by PAUL GOLDBERGER

A couple of times, we've put pictures of people in the TARGET for absolutely no reason in the world... except that they may have made a remark that they'd like to see it.

Only last week, we had a call from someone who had "made the news" in the past TARGET and he thanked us profusely for covering the story. He was thrilled because he had never before had his name or picture in a newspaper and that was the first time.

It got us to thinking that there are probably lots of people who work on the Arsenal who have never had their name or picture in a newspaper... and maybe never will.

It's only natural that commanders, office chiefs and supervisors are the ones who "make the news." But then again, you are the man behind the man behind the man, so to speak... and the TARGET is your paper.

So, what we'd like to do is this... any Thursday or Friday between 11 a.m. and noon, drop into the TARGET office—second floor, southwest wing, building 390—and say, "I'd like to be in the TARGET!"

That's all you have to do... we'll take care of the rest. Are you game?

## Power for Peace

"Power for Peace"—when first adopted as the official Armed Forces Day slogan, it was little known that this phrase would be vividly demonstrated in the sweat, tears and blood of American servicemen seeking peace in the defense of a small Southeast Asian nation called Vietnam.

"Power for Peace" was a term meaning an American armed force at the ready—ready to meet and repel any act of aggression anywhere in the world at anytime when directed by the President. It was a slogan born in an uneasy period when it was hoped that America's powerful armed services would act as a deterrent to aggressors.

As Americans the world over prepare to celebrate Armed Forces Day May 20, more than 400,000 U. S. Servicemen are bringing to the enemy in Vietnam the meaning of that slogan.

The Armed Forces Day theme is "Armed Forces Re-

port to the Nation"—a report which is carried daily in the dispatches from Vietnam where the United States is at work in a bloody conflict to stop another act of aggression.

It is symbolized by the peace-preserving presence of our Armed Forces in faraway places—in Europe, the Arctic, the Pacific, and other regions of the world.

President Johnson in his Armed Forces Day message points out that nowhere is America's dedication to the love of freedom "reflected more vividly than in the Armed Forces of the United States."

Terming America's military establishment "the mightiest of all time," the President said that this would not be the case, that this mighty arsenal "would give us neither peace nor security without the devotion to duty, the courage and sacrifice of the men and women who wear our country's uniform."

"In Vietnam—and around the world—they perpetuate the ideals which made and preserve us as a nation," President Johnson said.

Dedication... devotion... courage... sacrifice—this is the serviceman's report to his nation. It is a report written clearly among the rattle of small arms fire, the thump of mortars and cannon, and the earth-shaking blast of falling bombs. It is a report that hopefully will demonstrate once and for all the meaning of "Power for Peace."

## WELFARE GP. PLANS TRIPS

Although final plans are incomplete, the Civilian Non-appropriated Fund Council is in the process of arranging a combination baseball game-shopping trip to St. Louis on July 15-16.

Presently, information received shows the home-team Cardinals scheduled to play the Pittsburgh Pirates on Saturday afternoon, July 15, and the New York Mets the following day.

Reservations are contemplated at the nearby Howard Johnson's Motel for Saturday night and rates will depend on the number of persons on the trip and on single or double rates.

Plans are being worked on also for those persons who would rather see only one game during the trip and spend the other day shopping in downtown St. Louis.

Officials say that a ball game Saturday and a trip to the world-famous St. Louis zoo on Sunday would be an enticement for people to consider.

Taking advantage of the trip to do some shopping Saturday afternoon and see the Sunday game might be better for some people who consider that a better combination.

Future plans about other bus trips to Chicago to see the Windy City baseball teams in action are also in the planning stage.

On June 17 the White Sox play host to the New York Yankees, and on Aug. 19 they face the Baltimore Orioles in Chicago.

Another trip being discussed is for Aug. 5 when the Cubs and Atlanta Braves are due to play.

Final plans and prices will be published in the daily Bulletin and TARGET.

## TIME OF REDEDICATION

Memorial Day 1967 will be a day to honor those who have died in defense of the United States and renew the Nation's dedication to freedom.

For Armed Forces personnel, Memorial Day 1967 is a time to reflect on the responsibilities of those entrusted with the mission of National Defense. The soldier can and does provide the qualities of courage and dedication necessary to win battles and protect National Security.

Memorial Day also reminds civilians of their responsibility to be knowledgeable citizens interested in the Country's defense. This demands understanding the Nation's commitment to help other countries protect their freedom while guarding the rights of citizens at home.

WITHOUT STRAINING HERSELF, Sally Struck, a clerk typist at property disposal, frames her young face with her car's air cleaner. In Auto Talk you can read how to strain the winter's accumulations out of your car. —Bob Devore Photo

## Auto Talk

by Werner A. am Ende

It's that time again... the first real balmy weekend of spring is the cue to give the old bus a shot in the arm. A few hours spent now may save you from spending a few bucks later on.

If the car is the kind that needs the periodic lube job, that's the first item to think of for a "spring tune-up."

Then lift the hood and take a look at the engine. The fuel filter should be clean. Pull off the oil breather cap that covers the oil filler tube and make sure that's clean too.

Next, if there is any indication that the battery cable clamps are corroded, pull them off and clean them too. Make sure the top of the battery is clean. Putting some petroleum jelly on top of the replaced cable clamps will prevent corrosion.

Check the heat riser valve. If it sticks, squirt penetrating oil on the shaft and work it back and forth until it's free.

If you're a real conscientious

"do-it-yourselfer," you'll drain the anti-freeze, clean the radiator with a good cleaner and refill with clean water. Add a combination rust-inhibitor and water pump lubricant.

In order to give the old tub a treat, new points and plugs will probably make her purr like a pussy cat, unless you've already replaced the plugs within the last 5,000 miles.

By the way, the bargains some automotive stores have on good quality spark plugs these days make it cheaper to replace them than to clean the old ones.

Last, but not least, your automatic choke may need some adjusting. If the carburetor butterfly seems to be closed too much for smooth operation, try moving the cover to "lean" a few notches.

A word of caution about any more... unless you're well versed on maintaining the more complicated parts of your car, "don't touch." You could "goof it up" and it'll cost you more than if you had the buggy put into shape by a good mechanic.

## Armed Forces Day Prayer

God of our fathers, who hast made us heirs of brave and faithful men and women, accept, we pray Thee, this Armed Forces Day, our humble gratitude for the boundless blessings which they have bequeathed to us. Grant that we may prove worthy of their heroism and sacrifice.

We commend to Thy keeping all who are serving in our Armed Forces on land, sea and in the air. May Thy gracious Providence watch over them and guide them to victory and honor in defense of our nation and principles. In all things may they know Thy power and presence.

We thank Thee for the innumerable spiritual and material resources of our servicemen in their struggle for a just and lasting peace. Make us mindful of our own responsibilities to mankind. Be our refuge and strength so that in all battles of life we may be valiant in our service to Thee and our beloved country. Amen.

## 2nd Maintenance Conference Attracts Worldwide Army Units

Approximately 150 representatives from U.S. Army stateside and overseas activities will convene at Army Weapons Command headquarters at Rock Island Arsenal on May 29 to participate in the second Advance Army Worldwide Depot Maintenance Conference.

The announcement was made by Brig. Gen. W. J. Durrenberger, commanding general, Army Weapons Command. The command is hosting the conference. Command project officers are Lt. Col. C. Rutledge and S. Uzso.

Brig. Gen. Joseph M. Heiser, Jr., Department of the Army assistant deputy chief of staff for Logistics, will deliver the keynote address with Brig. Gen. John P. Thayer, director of Maintenance, Army Materiel Command, directing the maintenance program working groups.

In addition to personnel of Department of the Army

headquarters, Army Materiel Command headquarters, major subordinate commands and overseas commands, personnel from U.S. Air Force, Navy, Marines Defense Supply Agency and Agency for International Development will attend.

The major subordinate commands of the Army Materiel Command are responsible for supply management of all the commodities of materiel managed by the Army and the defining and support of maintenance requirements.

Commands to be represented at the conference include: Army Missile Command, Huntsville, Ala., for missile materiel; Army Aviation Command, St. Louis, Mo., for all aircraft materiel; Army Weapons Command, for combat vehicle and weapons materiel; Army electronic and communications equipment; Army Munitions Command, Dover, N. J., and Joliet, Ill., for ammunition and special weapons materiel; Army Tank Automotive Command, Warren, Mich., for tactical vehicle materiel and combat vehicle components; and the Army Mobility Equipment Command, St. Louis, Mo., for engineer, marine, rail and amphibious equipment.

Overseas areas to be represented include: U.S. Army Europe, U.S. Army Alaska, and U.S. Army Pacific as well as U.S. Army Vietnam.

## DRIVER'S TEST ON TV TUESDAY

Another national driver's test to emphasize defensive driving will be shown over the CBS television network Tuesday, May 23.

Locally the show will be seen on WHBF-TV, Channel 4, starting at 9 o'clock.

The test, produced by the network in cooperation with the National Safety Council and the Shell Oil Company will be televised for the third year.

The one-hour program will test viewers' skill in meeting various driving situations, such as passing motorcycle, loading a car-top carrier for vacation travel, and handling children in the car.

Much of the test is based on the Safety Council's defensive driving course.

Watched by more than 80 million viewers in the past two years, the National Driver's Test has won the Peabody Award, the Alfred P. Sloan Radio and TV Award, and the National Safety Council Public Service Award.

With this story is the test form to use for this year's test. Compare your answers with those of the studio audience of motorists, with friends' and family scores, and with correct answers provided by expert drivers.

# PROPOSAL DRAFTED ON APPEALS SYSTEM

A staff proposal to improve the Federal employee appeals system has been sent by the Civil Service Commission to Federal agencies, employees organizations, bar associations, and other interested groups for study and comment.

Further evaluation of the proposal will then be made by the Commission.

The proposal, as drafted by the Commission's legal staff, has five principal features:

1. The procedures by which agencies institute adverse actions would be simplified and made more uniform.
2. A single hearing would be conducted by a trained CSC hearing officer acting under direct delegation of authority from the Commissioners.

3. The employee would be retained on the rolls until after the hearing and decision by the agency, except in cases involving criminal offenses.

4. Duplicate hearings and duplicate reviews now conducted at agency and Commission levels would be eliminated. This would reduce time and cost to the employee and the Government.

5. There would be re-emphasis of the principles that the burden of proof is upon the agency, that the right to counsel exists at all stages of the procedure, and that objectivity should inhere in the factfinding process.

## Power For Peace

Modern equipment makes for a modern Army. That is why today's soldier receives the best training, the best support and the best in equipment. He is ready for any mission, confident of his tools to do the job.

## LBJ SALUTES, WELCOMES COST CUTTERS AS PARTNERS

President Johnson has sent the following message to Federal employees who qualify for the Roll of Economy Champions by saving the Government at least \$10,000 during this fiscal year:

### TO EACH ECONOMY CHAMPION:

I welcome you to partnership with me in the imperative task of cutting the costs of Government.

That is what you have proved to be—an active, contributing partner in our constant drive for efficiency and economy.

It is gratifying, when I contemplate the billions required to make our Government function for the people, to know that you share my concern over the waste of even

## COST REDUCTION MANAGER

one dollar.

I know it is especially gratifying to you to know that every dollar you have saved will be put to harder work, to better use.

Your economies help pay for the cost of freedom's struggle in Vietnam. They help to support our vital programs at home.

Your concern has properly earned you recognition as an Economy Champion. As I salute you, I commend your example to every employee at every level of our Government.

The President's message was read by Chairman John W. Macy, Jr., at the opening of a Roll of Economy Champions exhibit at CSC headquarters in Washington.

## AOA MEETS

The Spring - 1967 meeting of the Iowa-Illinois Chapter, American Ordnance Association, will be at Clayton House in Waterloo, Iowa, on May 25.

A. R. Gordon Jr., acting director, Marine Sciences Department, U.S. Naval Oceanographic Office, will speak on "The Seven Seas."

Included in the meeting will be an installation ceremony of new officers and members of the board of governors.

Arsenalites may ask MR. COST REDUCTION On Extension 4100

WITH PAPER DRESSES the vogue, Mrs. Catherine La Sota uses a facsimile of a \$100 U.S. Savings Bond to "dress up" the fact that she had just purchased a \$1,000 Bond and \$100 worth of Freedom Shares during the Rock Island Arsenal's kickoff entertainment luncheon. The AMCPM-VRF administrative assistant claimed she felt that Bonds "are a wonderful investment and as long as I can't fight, it's the least I can do to help."

## CIVIL SERVICE 'GOLD MINE' IN SEARCH FOR EXECUTIVES

Ever fancy yourself as an Administrator. Under Secretary, Commissioner, or the incumbent of one of the many other top-level appointive posts in Government?

It might come to pass.

Chairman John W. Macy, Jr., of the Civil Service Commission, who since November 19, 1964, has assisted the President in search for and identification of individuals of excellence for Presidential appointment, said in a recent address:

"The career civil service has been one of our most productive sources of talent."

He reported that as of Jan. 27, President Johnson had made 396 appointments to full-time positions in the executive branch and 132 to judicial positions. Then he added:

"A breakdown of the 396 executive appointments revealed that 176 persons, or 44.5 percent of the total had prior service in the Federal Government (83 in the career civil service, 77 in the foreign service, 7 in the Federal legislative, and 9 in the career military service)."

He gave these principal reasons why career civil servants have shown to such advantage in the highly competitive talent search:

1. The President makes no bones about his deep personal conviction that "This is the greatest civil service that ever existed." So, said Mr. Macy, "He encourages us to look inside as well as outside."

2. Career civil servants whose biographies are on file in the computer's memory bank are persons who have demonstrated the highest traits of knowledge,

integrity, enthusiasm, and ability—and they have done so in positions of great responsibility.

3. A very noteworthy reason for our success in matching the career man with the larger appointive job is imbedded in the word "mobility." It is awkward, personally for a university president or head of department to leave the town where he has friends and family ties to move to Washington. It is no less inconvenient for the business executive or the corporation counsel to pull up roots and move to Washington—often at a great sacrifice in salary.

## AGENCIES FIND NEW WAYS TO SERVE PUBLIC BETTER

Federal employees continue to strive for and achieve new and better ways to serve the public.

In his fourth report on this subject to the President CSC Chairman John W. Macy, Jr., revealed these among other recent gains:

—**Improvements by Federal agencies range from simple steps to major reorganization of services.**

—A fast reply in clear, simple language has become the goal of agencies in replying to correspondence.

—**Training on improved service and communication continues to be a major thrust of Federal agencies.**

—Last year the Civil Service Commission trained more than 6,000 agency employees on improved service and communications, and a heavy demand for such training is anticipated in the coming year.

—**Work hours of a**

number of Federal agencies have been extended to serve the public better.

—The first Federal Information Center, in Atlanta, has proved itself as a major step forward in providing referral service to citizens in a metropolitan area.

—**Government bookstores are becoming a reality.**

—Most agencies have adopted programs to award employees for outstanding accomplishment in communications and service to the public.

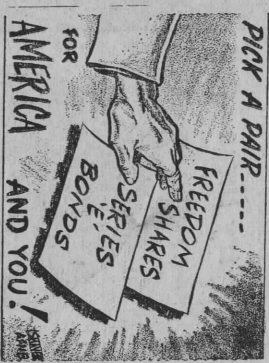

—With the Civil Service Commission serving as a clearinghouse, ideas and methods on improving service are being exchanged.

### VETERANS MEET

The Rock Island Arsenal Veterans' Association will hold its monthly meeting tonight at 8 in the old executive dining room.

Following the meeting there will be a door prize drawing, refreshments, a movie and Euchre tournament.

According to the association president, plans are being made for the annual picnic which will be held "the last of July."

## NAUSEOUS NELLIE SEZ:

A MESSY PLACE LIKE THIS makes even me look good! Our Cleanup Week character continues to find messiness and sloppiness around our offices such as this desk scene. The editor of the TARGET affirms that the scene, except for Bob Wells' creation, is not "rigged," but was in that actual condition when Nellie settled down. Don't let her catch your area in need of cleaning up or we'll camp her on your doorstep.

## Ask Viet Law

In a message to Congress on January 31, President Johnson praised the services of Federal civilian employees in Vietnam and recommended legislation in their behalf.

He said: "There are no front lines in Vietnam. These employees are frequently exposed to hazardous conditions. They have suffered terrorist attacks in hamlets, villages, and even in the larger cities. Despite their status as civilians, many have been killed, seriously wounded or reported missing."

## COST REDUCTION STILL PRIMARY INTEREST HERE

A report from the Cost Reduction officials tells of an increase of more than \$300,000 in reportable savings since the April 21 reading.

"That means," they pointed out, "that we have reported approximately \$30 million in savings to date, which is about 23 per cent of Army Weapons Command's goal."

Seven weeks remain in the current fiscal year's drive to meet Army Materiel Command's requirements. According to the latest figures, about \$1.5 million in reportable savings must be achieved weekly to meet the goal.

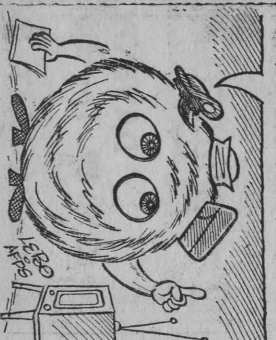

The byword around the Arsenal is still "Call Mr. Cost Reduction if you can see any way of doing your

### FOOF'S SPOOFS

ADVERTISING MAKES YOU THINK YOU NEED SOMETHING YOU NEVER HEARD OF BEFORE.

## DOD CHANGES PERFORMANCE APPRAISAL

Training sessions to instruct all personnel in the details of the Department of Defense's new civilian performance appraisal program are being conducted by Rock Island Arsenal's training branch this week.

Acting as coordinator for the sessions that run one hour a day for five days is Al Frandsen of SWERI-PTA. Conducting the orientations are Don Long and Ivan Cram, both from SWERI-PTA.

Approximately 670 supervisors are attending the courses to acquaint them with the new DA Form 1052 that will be used after June 4. They, in turn, will orient about 7,100 more employees that are affected.

The new system puts a minimum amount of emphasis on documenting the performance rating given by a supervisor. Instead, it emphasizes the most important aspect of a supervisor's job of improving the quantity and quality of his unit's output.

The new system has one essential objective: to improve employee performance by improving communications between the supervisor and his employees.

## Conference Ends

Ending today is a week-long conference on Army Supply Management sponsored by Headquarters Army Weapons Command.

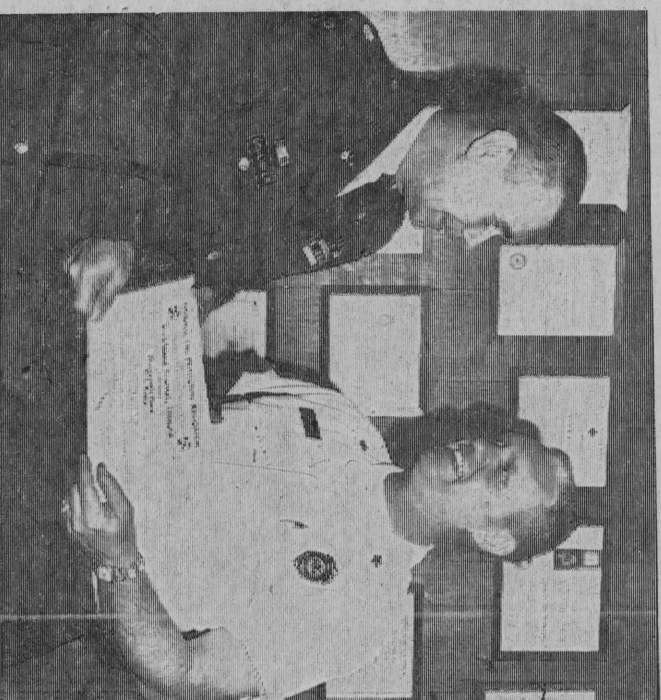

At the conference are some 40 supply specialists from Army commands and organizations throughout the nation and from the European Command in Germany.

Introduced at the meeting which started Tuesday was a new supply concept called Standard Army Management System-Supply Support Arrangements (SAMSA).

Implementation of SAMSA, a concept of supply in international logistics, has been directed by the Department of Army by July 1 at Army National Inventory Control Points.

A test of the new concept was conducted by AWC for five months last year. Its success was impressive enough to be considered for Army-wide adoption.

OFFICIALS AND WINNERS of the recent fifth annual Rock Island Arsenal Table Tennis Tournament pose after the presentation ceremony last week. From the left, are: Ray Reese, Welfare Fund custodian; Jean Carlson, open singles champion; W. G. McReynolds, tourney coordinator, and Gomer Royal, novice singles champion.

DOUBLES WINNERS of the RIA table tennis meet are, left to right, Mark Salsbury and Jean Carlson, first; and Syl Polite, second. Polite's partner, Coberly, was not present.

## Table Tennis Champs Crowned After Meet

Jean Carlson, of Army Weapons Command's Supply and Maintenance Directorate, picked up a table tennis paddle at the beginning of Rock Island Arsenal's fifth annual tournament April 21, and when he put it down hours later, he was the new singles champion.

In the interim, out of the 32 entries in the singles division, Carlson swept undefeated through his bracket. In the final matches he took three straight from Mark Salsbury, of Rock Island Arsenal's Research and Engineering Division.

Third place in the open singles division went to Bob Coberly, also from RIA's R&E.

Meanwhile in the novice singles, Gomer Royal, of RIA's Operations division, had a little more difficult time with RIA Installation Facilities' Bill Dunswoth. Royal lost the first game and then won the next two to claim top prize in the division.

Third place in the novice singles went to Marvin Gray, also of Operations.

The one-two men of the open singles division teamed up to claim the top prize in the doubles competition.

## EMPLOYMENT OFFICIALS TOUT OVERSEAS JOB OPPORTUNITIES

Officials of Rock Island Arsenal's employment office say, "Consider the advantages of an overseas assignment with the Department of Army. There is a continuing need for highly qualified and competent employees for overseas service."

Many interesting and challenging assignments are offered in Japan, Germany, France, Italy, Korea, Okinawa, Vietnam, Thailand, Hawaii and Alaska.

In fiscal year 1967 Army expects to place between 1,000 and 1,100 employees in overseas assignments. More than 80 percent will come from the current Army civilian work force.

Pay differentials, free housing or quarters allowances, separate maintenance allowances, and commissary and exchange service privileges are available, depending upon location of the assignment.

When an employee's tour of duty ends, the Overseas Interchange Program provides a system of priority placement in an area of preference in the United States provided the employee's performance and conduct have met the established criteria.

Under this program an employee is entered for placement at the grade level occupied by him at time of application or any lower grade indicated by him as acceptable. He also has reemployment rights back to the activity at the grade level he left.

Tours of duty vary depending upon the area to which assigned. Most tours are for 36 months. Others are for 24, 18 or 12 months.

Vacancies are primarily in the areas of engineering, general business and industry, contract and procurement, quality control and inspection, and inventory management. There are some vacancies in skilled Wage Board categories.

Employees in career programs are encouraged to indicate their availability for overseas assignments.

For information, employees should check the bulletin boards in the lobby of the Employment Office (Bldg. 102) and in the Cafeteria (Bldg. 60).

Information on qualifications for these positions can be obtained through your personnel technician.

Copies of any pamphlets on living and working conditions in a specific area can be obtained from Lone Prescott in the reception area of the Employment Office.

### Service Club Meets

The quarterly meeting of the Army Weapons Command-Rock Island Arsenal Ordnance Service Club will be at 8 p.m., Friday, June 2, in the Post Cafeteria.

The agenda includes an election, refreshments and a movie on the 1964 Alaska earthquake.

Members and government employees with 15 or more years' service are invited.

## TO OUR FELLOW QUINT CITIANS

**CHICAGO TRI-CITIES MOTOR FREIGHT** has resumed full-scale operations following the first major strike in the Motor Freight industry in this area. The interruption had painful results and the true background of the situation was probably not clear to the general public.

Local carriers such as ourselves were placed in the position of bearing the brunt of an inter-labor conflict. The Chicago carriers could have, at any time, accepted the higher wage and benefit demands of the Chicago negotiators, which would then have been passed to all carriers throughout the nation. We thus found ourselves in a last-ditch battle in the interest of the entire industry, to keep your transportation costs down and avoid the resulting inflation as much as possible.

We do not proclaim ourselves to be martyrs, but we helped fight the battle of the industry, suffering alone in the process.

It is our hope that our many friends who were inconvenienced will understand our position during these past weeks of chaos. We are still ready to offer the finest, most personalized service in our area.

## Three PEQUA Men Talk at Confab

Presentations were made recently by three U.S. Army Production Equipment Agency employees at the five-day conference sponsored by the American Society of Tool and Manufacturing Engineers.

At the Chicago confab, Harold E. Vessells, chief of the engineering division, and James W. Carstens, industrial engineer, presented "Planned Modernization."

The chief of PEQUA's

in a manufacturing technology department, Ralph E. Siegel, gave a talk on the agency itself.

Vessells and Carstens discussed the planning, forecasting, evaluating, justifying and reporting procedures of Army manufacturing installations as pertaining to planned modernization.

Siegel pointed out that PEQUA was "the right place to go with new ideas on manufacturing techniques, methods or processes." He then discussed how the agency sees that industries' technological advancements are used to the fullest extent.

## TROOP 9 PLANS PLAQUE CEREMONY

Ross E. Jasper of the Rock Island Arsenal Operations division's paint department, and Carl R. Hunter, who works in the RIA steel room, will have leading parts in the upcoming Boy Scouts of America Troop 9 "Green Tree" ceremony in LeClaire, Iowa.

Jasper is scoutmaster and Hunter is assistant scoutmaster of Troop 9.

The occasion, to be held Sunday, May 28, is part of a "Save Our Landmarks" program in which the scouts are attempting to restore the Buffalo Bill homestead near McCausland, Iowa.

Present for the ceremony, an address, will be Brig. Gen. W. J. Durrenberger, Army Weapons Command commanding general.

Also at the ceremony will be Congressman Fred Schwegel, and a grandson of Col. William F. (Buffalo Bill) Cody, Fred Garlow of Cody, Wyoming.

Mr. Garlow will appear "in full Buffalo Bill regalia which will make this an especially exciting event," said Mr. Jasper.

Also attending the ceremonies which begin at 1:30 p.m., and are open to the public, will be LeClaire Mayor Norman H. Meinert, and Mrs. Roy Baker of LeClaire, who will deliver a reading. Members of American Legion Post 347 will form a firing squad.

The Green Tree ceremony will consist of a plaque-laying ceremony in memory of the Green Tree elm. The 16" x 24" bronze memento was purchased by Troop 9.

Following the ceremony, the group will appear at about 3:30 p.m., at the site of the Cody Homestead, northwest of Princeton, near McCausland.

## Committee Meets

The Army Weapons Command Metal Cutting Advisory Committee met at Rock Island Arsenal April 26-27. The meeting was attended by military and civilian personnel from organizations on the Island and representatives of Quad-Cities industries.

Professor O. D. Lascoe, of Purdue University's School of Industrial Engineering, spoke on "Metal Cutting Studies for Technological Advancement" and "New and Old Processes in Machining."

## Power For Peace

"Wherever brave men fight, there am I." So goes the credo of the U. S. fighting men. Today's soldier remains ready around the clock. Ready for any mission—in war and peace. That's the job of the U. S. Army.

## COST REDUCTION MANAGER

## ILLUSTRATORS SET 'HISTORIC FIRST'

What officials termed "a historic first," was established at Letterkenny (Pa.) Army Depot May 9-11 when 35 key technical illustration managers representing the seven Army commodity commands met.

Sponsored by the Army Materiel Command Equipment Manuals Council, the meeting brought together for the first time in Army history, those responsible for preparation of equipment application and methods.

Serving as chairman of the meeting was David DeTaeye, a member of the council and from AWC's Supply and Maintenance directorate.

The group discussed problems relative to the more than 75,000 technical illustrations prepared annually for inclusion in Army equipment publications.

Another AWC employee, Donald Braddock, presented a paper entitled, "Biography of an Illustration."

THE COST OF LIVING KEEPS GOING UP-UP

But that doesn't apply to the cost of GAS and ELECTRICITY (per unit)

\*U.S. Bureau of Labor Statistics (1946 equals 100)  
\*\*For all Iowa/Illinois Customers

The cost of gas and electricity (per kwh, therm, or ccf) has stayed remarkably low — and for some very good, solid reasons. Greater use of gas and electricity in the home, on the farm, in industry, and in business has been a major factor in holding down the cost per unit used.

The vast networks of interconnected electric systems . . . larger generating units . . . improved, more efficient facilities and techniques . . . constant research and development . . . have also contributed substantially to this accomplishment.

In the future, as in the past, every effort will be put forth by this Company in keeping you supplied with plenty of gas and electricity — at reasonable cost.

yours for better living

## Family Nite

### At Ball Park

Tonight's the night it's the first Rock Island Arsenal Family Night at the ball park.

For only \$1 and an employee's badge, the whole family can attend the Davenport Municipal Stadium tonight and watch the local Quad City Angels take on the ball team from Quincy in a Midwest League baseball game.

Because tonight is the eve of Armed Forces Day, plans are also being made to include a quasi-military touch to the night's proceedings. Before the game, at approximately 6:30 p.m., a military demonstration will be performed, according to Ray Reese, Civilian Non-appropriated Welfare Fund custodian.

The format for Arsenal Family Nights will probably be the same as last year's, said Jerry Lambert, general manager of the local baseball club. There will be one or two more during the season.

## Tuesday Golf League Begins New Season

Thirty women became "golf widows" again for the next couple of months when the Rock Island Arsenal Tuesday Golf League swung into action two weeks ago.

Divided into three-man teams, the ten-team league is a 12-hole, match play competition with each round worth seven points. The league plays a double round robin through the summer season.

Included in the play are the following men: (The first name is the team captain) Dick Scherer, John Ackerman and Ron Carpenter; Werner am Ende, Warren Peterson and Emil Bushmeyer; Al Venckus, Frank Larson and Tom Gerey, and Gene Salmon, Walt Krance and Dave Johnson.

Also: Frank Burke, John

Compton and Carl Carlson; Bill Cahnan, George Meumann and Dick Castle; Mary Clain, Bob Pruden and Chuck Vaccaro; Bob Hansen, Bill Cain and Mary Schaubroeck; Van Hong, Jim McKaney and Dave Bootzin, and Russ Chapman, Ron Harroun and Randy Dorch.

Opening day's play saw two teams take all seven points to jump into an early lead: Venckus-Larson-Gerey and Clain-Pruden-Vaccaro.

Three other teams won four points apiece: am Ende - Peterson - Bushmeyer, Calnan-Meumann-Castle and Chapman - Harroun-Dorch.

WITH MIXED LOOKS of happiness, the champions of the Rock Island Arsenal Men's Bowling League hold their first place trophies after the presentation last week. From the left, members of the Kleen King squad are: Vern Kron, Benny Breitenstein, Larry Fox (sponsor), Phil Hermann, Bill Katzawal and Jim Brodston.

## RIA Men's League Elects Officers

At the presentation of awards ceremony for the Rock Island Arsenal Men's Bowling League last week, members of the league also voted their new officers for the 1967-68 season.

Elected to the presidency was Jim Montgomery who was congratulated by the outgoing president, Paul Nofke. The new vice president is Ray Olsen and Ernie Wells will continue as secretary-treasurer.

Among the guests at the dinner - presentation affair were sponsors of some of the teams in the league. At the head table was George Gesa, proprietor of the Central Lanes in Rock Island where the league bowls.

## TARGET TIDBITS

The kitchen is supposedly ruled by the women... but not necessarily all the time. To prove it, here is a recipe by a branch chief in AMSWE-PPR, Jack Graham. He says it's one of his favorites... and he has lots more.

Jack's New England Style Clam Chowder

- 1 can minced clams
- 4 medium size potatoes (coarsely diced)
- 2 cups half-and-half (cream)
- 1 medium onion (finely diced)
- 2 slices bacon (diced)
- 1/2 tsp. salt
- 1/4 tsp. pepper
- 1/2 tsp. parsley
- 1/4 stick butter

Boil potatoes until done, using quart-sized or larger pot and just enough water to cover potatoes. Set aside.

Fry out bacon until half crisp, then add onion until onion is (soft) yellow. Add to potatoes and place all

RUSSELL MARCELLUS, a contract price analyst with AMSWE-PPR, is on the fourth floor, north wing of building 350. (Ext. 6051).
