45 AWC MEMBERS IN AWARDS CEREMONY

In what may have been one of the largest single ceremonies held here — in terms of the number of recipients — 45 members of the headquarters of the Army Weapons Command received awards from Brigadier General William J. Dur-

AOA Officers Elected
Two members of the headquarters of the Army Weapons Command and two members of the Rock Island Arsenal were named as officers or as members of the board of directors of the lowa-Illinois chapter of the American Ordnance Association.

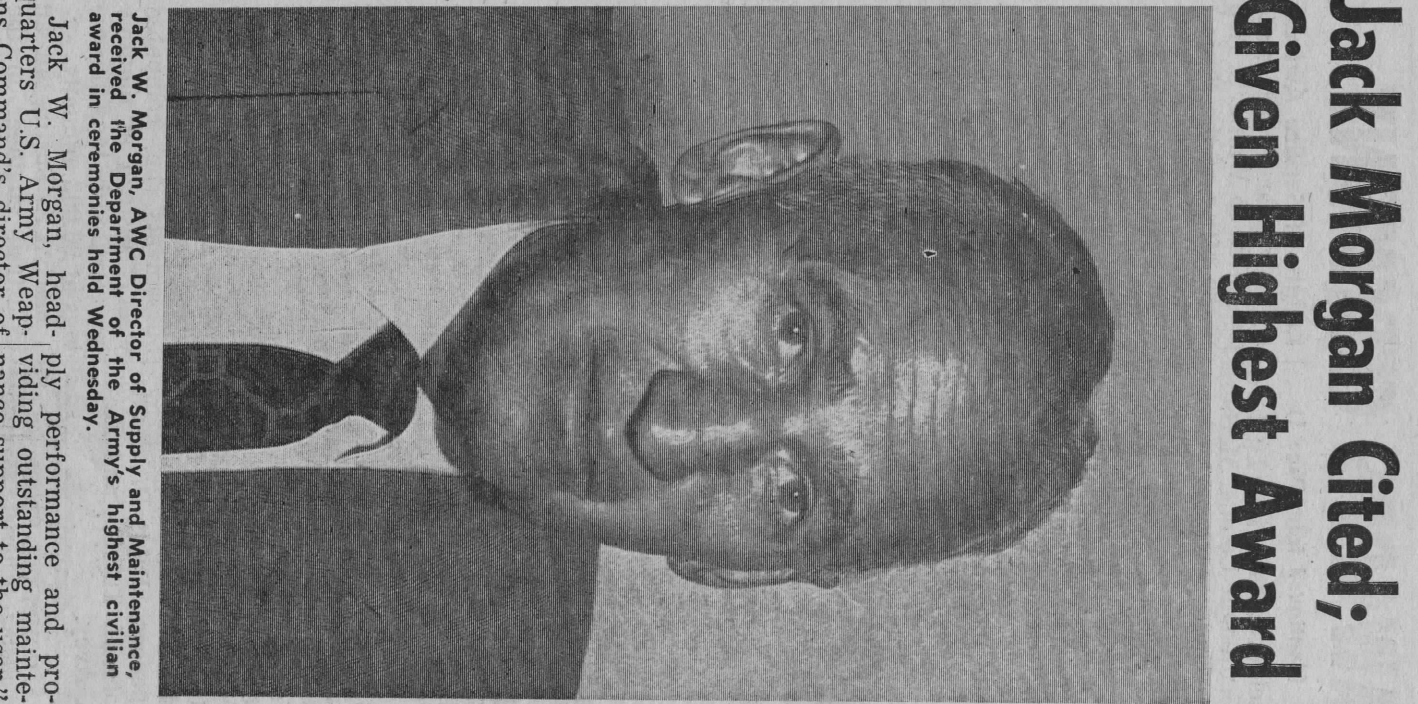

Reelected as the secretary of the chapter was Edwin M. Vaughan, a physical science administrator in the AWC Research and Development Directorate. Elected to the board of directors were Brigadier General W. J. Durrenberger, Commanding General of AWC; Colonel H. A. Snyder, Commanding Officer of Rock Island Arsenal; and W. M. Gibson, chief of the Engineering Test and Evaluation Section of the Arsenal's Research and Engineering Division.

Durrenberger, commanding general of AWC. The awards ceremony was held Wednesday in the AMETA auditorium.

The awards ranged from two of the highest civilian awards given within the Department of the Army. Also awarded were 29 Certificates of Achievement from the Department of the Army and 10 Length of Service Awards for 30 years of Federal employment.

Two Top Civilian Awards
Recipients of the two highest civilian awards — the Decoration for Exceptional Civilian Service and the Decoration for Meritorious Civilian Service — were Jack W. Morgan, Director of Supply and Maintenance, and William H. Crown, Jr., the Deputy Director of Procurement and Production. Crown was given his award for his services as Acting Director of Procurement and Production from May, 1965 to January, 1967. Morgan was cited for his service as the Director of Supply and Maintenance from January, 1964 to January, 1966. (See related story on this page.)

Military Awards
Six military personnel

Jack Morgan Cited, Given Highest Award

Jack W. Morgan, AWC Director of Supply and Maintenance, received the Department of the Army's highest civilian award in ceremonies held Wednesday.

Jack W. Morgan, headquarters U.S. Army Weapons Command's director of Supply and Maintenance since 1957, received the Department of the Army's highest civilian award Wednesday. In a formal ceremony in Building 90's auditorium, Brig. Gen. W. J. Durrenberger, AWC commanding general, presented Mr. Morgan with the Decoration for Exceptional Civilian Service.

It was the first time an Army Weapons Command employee received the award, according to personnel officials.

Mr. Morgan, who started working here 28 years ago, was cited for "consistently maintaining the highest sup-

The second recipient of a military award was Sergeant First Class Eugene J. Barnum, also of the Supply and Maintenance Directorate, who was awarded the First Oak Leaf Cluster to the Army Commendation Medal. SFC Barnum was cited for "exceptionally meritorious service as Small Arms Advisor to the First Republic of Korea Army" from December, 1965 to January, 1967.

Certificates of Achievement

Ramsey Tank Test Dedication Set

The official opening and dedication of the Ramsey Test Track will take place tomorrow morning, June 17, at 10 a.m. The test facility is being named in honor of Brigadier General Norman Foster Ramsey who was the 15th Commander of Rock Island Arsenal, from 1937 to 1944.

The general's widow, Mrs. N. F. Ramsey of Dover, New Jersey and their son, Dr. N. F. Ramsey Jr. of Cambridge, Massachusetts will unveil the memorial plaque as a part of the dedication program.

A unique event will be a ribbon breaking in place of the traditional ribbon cutting to mark the official opening of the Ramsey Test Track. A banner will be stretched across the track and an M-48 tank will break through the banner, fol-

lowed by a parade of various tracked combat vehicles.

Master of Ceremonies for the dedication ceremonies will be Joe Greer of the AWC Supply and Maintenance Directorate.

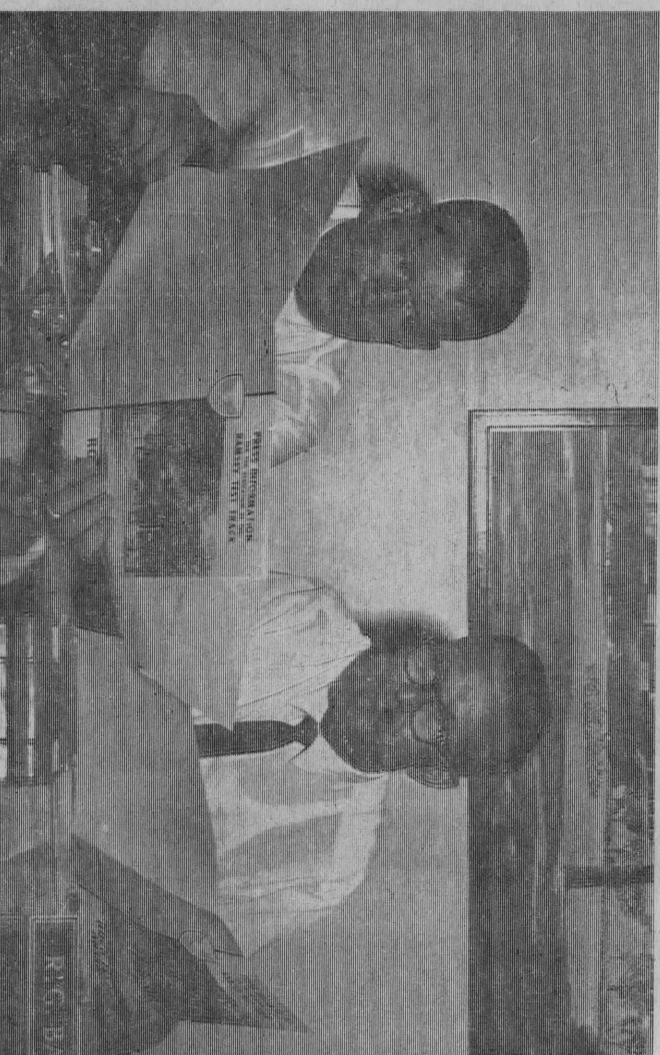

In the event of rain the ceremonies will take place at 10 a.m. in the main dining room of the Post Cafeteria.

Entrance to the Ramsey Test Track area will be from Confederate Drive, south of the outdoor pistol range.

The ceremonies are open to the public. All Arsenal Island employees and their families, who are free to go are urged to attend. Personal cameras will be permitted at the dedication site only.

The new track, along with

(Continued on Page 2)

Richard G. Barnett, RIA Assistant and the project officer for the official opening and dedication of the Ramsey Test Track (right) and Donald E. McGonegle, who is assisting Barnett on the project, look over some of the pictures to be used in information brochures for news media personnel covering the event.

AWARDS CEREMONY

(Continued from Page 1)

Achievement, included Lieutenant Colonel Herbert P. Underwood and Major Emanuel Podural, both of the office of the Project Manager, Rifles; Captain Warren N. Balish of the office of the Special Assistant for Aircraft Weaponization; and Sergeant First Class John R. Hansen, of the Supply and Maintenance Directorate. Sergeant Hansen received two Certificates of Achievement. One was from the 1st Logistical Command and the second was from Vietnam.

Civilian Awards

The 24 civilian recipients of Certificates of Achievement for services in Vietnam were all from the Supply and Maintenance Directorate. They included Kenneth C. Webster, Harold Davenport, Edwin P. Peterson, Ralph R. Tollinger, Charles Benton, Norbert E. Graff, Russell L. Beatty, and Patrick S. Braden.

Also Arthur DeDecker, Gibson Fryer, Robert G. Edmondson, John L. Sweeny, Dale L. Humphrey, Vincent V. Hannah, Edgar M. Bronenberg. Additional recipients included Robert D. Rainey, James R. Joseph, Delmar L. Spencer, Paul D. Shultz, John H. Turrell, and Keith L. Avey.

Length of Service Awards

Thirty year awards were presented to Walter E. Arp of the office of the Project Manager, Vulcan Air Defense System; Edmond R. Lucier of the Personnel and Training Directorate, as well as Stanley T. Bohanka and James A. Thompson of the Procurement and Production Directorate.

Also to Cole W. Minnick and Dorothy B. Nicholls of the Management Science and Data Systems Office; and to the following members of the Supply and Maintenance Directorate: Theodore R. Bailey, Charles W. Durham, Henry P. Reising, and Oswald H. Wilhelmus.

Suggestion Awards

Donald G. Wilcox of the Supply and Maintenance Directorate was presented with a Suggestion Award of \$460. Wilcox suggested the substitution of one type of oiler issued with some 60 millimeter and 81 millimeter mortars for a less expensive oiler. Tangible savings of \$9,130 have been reported.

Roger D. Beeler, of Comptroller and Director of Programs, received a suggestion award of \$305. His suggestion that cash disbursements be computed weekly instead of monthly has resulted in tangible savings of \$6,003 annually.

Marilyn K. Buffington, an industrial engineer in the Procurement and Production Directorate, received a Special Service award of \$300 for the period February, 1966 to August, 1966.

Cost Reduction Manager

R. CLAUD, AMSWE-SM, is a supply cataloger and is on the 4th floor, building 350 (Ext 5204).

Jack Morgan

(Continued from Page 1)

He has since earned a number of Sustained Superior Performance awards for his work performance. In 1959 he was awarded the Meritorious Civilian Service Award as an Ordnance Weapons Command employee.

The year before, he had been the Ordnance Command's nominee for the National Civil Service League's Career Service Award.

Married to the former Helen M. Blunk of Grand Mound, Iowa, the couple has two children: David H., who lives with his family in Bettendorf, and Linda, who will be attending the University of Iowa School of Nursing in the fall.

The careful driver will always obey a school patrol boy or an adult crossing guard. He will drive as though all of the children on the street were his own.

the climbing, braking, holding and water fording test facilities is designed to provide RIA with the capability to perform the exacting tests required to insure the quality and reliability of combat vehicles rebuilt at the Arsenal.

Among the dignitaries who have accepted invitations to attend the ceremonies are the Honorable Thomas Railsback, U. S. Representative from the 19th District in Illinois; Brigadier General C. H. Johnson, deputy commanding general of the Army Weapons Command; and the Mayors of the cities of Davenport, Rock Island, Moline, East Moline, and Bettendorf.

PROGRAM

- The program of events for the dedication of the Ramsey Test Track will be:
- National Anthem ----- AWC-RIA Orchestra and Chorus
 - Invocation ----- Rev. D. G. Long
 - Welcome ----- Pastor Broadway Presbyterian Church
 - Musical Selection ----- LTC H. A. Scheibler
 - Introduction of Distinguished Guests ----- AWC-RIA Chorus
 - Dedication Address ----- LTC Scheibler
 - Unveiling of Plaque ----- Mrs. N. F. Ramsey and Mr. N. F. Ramsey, Jr.
 - Parade of Vehicles -----
 - Benediction -----
- Starting time for the ceremonies is 10 a.m. In the event of rain, the ceremonies will take place in the main dining room of the Arsenal Cafeteria.

Parker In Print

"What Are You Doing to 'say' something. How, I then asked myself, could I manage this with my talent for no-talent."

Well, I reasoned, first I would find some old frames, make up some kind of backing, and then get something to act as my "picture message."

At this particular time I became a ware of AUCTIONS!

Here my natural instinct for gathering junk came to the fore.

I guess the whole world gets in there pitching for someone as naive as I, for I sure found lots of junk . . . and from it, I have made, and still have more making, for some rather unique wall decorations.

And you can do as well, I'm sure. The pictures you wind up with are not only "you," but become definite conversation pieces. As such, your guests are offered many a happy moment sharing your experiences as you relate your oftentimes hilarious adventures gathering the makings for each, separate, highly individual "picture."

P.S. If any of you are interested in making something out of "junk," just give me a call. We'll get some together, frame it, and make conversation pieces for your home. I mean it . . . call me! I'm positively loaded with information. See you.

Bicycle riders . . . never hitch onto a truck, car or other moving vehicle.

Arsenal Target

The Arsenal Target is published every other Friday. Editorial material for publication in the Target will be received only through the information Office, Armory, Weapons Command, Building 309, Rock Island Arsenal, Ill. Telephone 794-5751.

All advertising copy and payments will be received by The Herald, 922 15th Ave., East Moline, Telephone, 755-5524. The deadline for copy and advertising matter is the Tuesday before publication.

The Arsenal Target is distributed free of cost to all personnel at Rock Island Arsenal. Mailing arrangements, at \$4.50 per year, may be made with the publisher, The Herald. Retired Arsenal personnel may subscribe for \$2 per year.

National Symbol

Flag Day commemorated the adoption of a resolution by the Continental Congress on June 14, 1777, making the Stars and Stripes the flag of the United States.

Since that time, the nation symbolized by that flag has grown from 13 small states crowded along the eastern coastline into a mighty nation spanning the continent from east to west and stretching more than 1,500 miles north to south.

The 13 stars in the first flag have grown to 50, reflecting the growth, progress and determination of a people who would not be stopped by mountains, rivers, hardship or suffering.

Dedicated Americans have followed the Stars and Stripes through hails of arrows, musket fire, cannon shot and machine gun bullets to build and preserve this great nation. The Stars and Stripes is the symbol of the freedom and democracy enjoyed by us all, bought with the blood and sweat of dedicated patriots throughout our history.

First observed on a national scale in 1877, Flag Day is now recognized by presidential proclamation. It is a day that should be celebrated by displaying the Colors on public buildings and private homes and by patriotic programs throughout the land.

The Stars and Stripes represent the principles, history and strength of the greatest nation in the world.

Retiree Sends 'Boy' For Check

As the Nation observed Naval Air Station in San Diego on the first year of the Retirement Act.

—Among the long-timers still receiving annuities is a woman, now 81, who retired as a post office clerk in May 1921.

—Oldest annuitant on the rolls is 106. He retired as a letter carrier in July 1927.

Other Centurians on the rolls are a 103-year-old woman who retired in 1933, another woman aged 103 who retired a year later, and six others, four men and two women, all older than 100.

—The first annual report on operations under the Retirement Act showed that 551 employees more than 80 years old had retired in 1961.

President Asks 4.5% Hike in Pay

President Johnson has proposed to Congress a 4.5 percent pay increase for all except the very highest paid Federal civilian employees, to take effect October 1, 1967.

He recommended that Congress "take the final step this year to achieve full (pay) comparability with private industry," and proposed a two-stage plan to remove the remaining comparability lag in all grades by October 1, 1969. The first step would take effect in October 1968 and the second a year later.

Submitting the bill, the President said:

"Through the years, this Nation has built a corps of public servants whose quality is unmatched by any other country in the world. Our career employees are well-trained and experienced. In ever-increasing

DRIVING TIPS FOR MUCH SAFER TRIPS

"Whether your vacation plans include an automobile trip or not, you will probably be doing a lot of driving during the summer."

Safety Dir. John LeFever said today. That a p p y motor trip will include road maps, children's laughter, picnics, parks, special tours, motels — then, in less than a second, all the joy may be gone forever, if you are involved in a traffic smashup.

Safety Director LeFever advised drivers to follow the principles of safe driving listed below to make this a summer unmarred by accidents or injuries:

* DRIVE DEFENSIVELY

Expect the unexpected. Be prepared to compensate for the driving errors of others. Remember, even good drivers will sometimes do foolish things which

could cause an accident. Be alert behind the wheel.

* DRIVE COURTEOUSLY

Let the other driver have the right-of-way even when you know you are right. Be as courteous on the road as you are at the dinner table.

* DRIVE SKILLFULLY

Most people know the rules of good driving, but don't take the time to use them. Put all your driving skills into practice every time you drive.

* DRIVE WITH SELF-CONTROL

Don't drive when you are highly irritated, tired, or if you have been drinking. Don't daydream, and if you are on a long steady stretch, watch out for highway hypnosis.

* DRIVE WITH A SAFE CAR

Have your car safety-checked at regular intervals. Make sure it is in good mechanical condition before starting that vacation trip. Pay special attention to brakes, steering mechanism, tires, windshield wipers, rear view mirrors, lights and horn.

* OBEY THE RULES OF TRAFFIC

Remember, traffic laws were enacted for your protection and not to harass people who drive. Imagine the confusion if all drivers disobeyed the traffic rules all the time. In nearly every accident, one or more drivers disobeyed the traffic rules. Adjust your speed to the condition of the weather, road, other traffic, your car and your own condition.

Cost Reduction Manager

R. I. COUNTY BOND SALES GO OVER 7%

Rock Island county residents purchased a total of \$604,674 in series E and H United States savings bonds in April according to William A. Haddick of Moline, Illinois general county chairman of the savings bonds committee.

Purchases in the state of Illinois were \$30,766,675, according to Arnold J. Rauven, state director of the Treasury Department's savings bonds division. This accounts for 7.8% of national sales which were \$394,000,000. As of April 30 the dollar amount outstanding in U. S. savings bonds was over \$50.6 billion.

THAT EXTRA PAY GOES THE SAVINGS WAY!

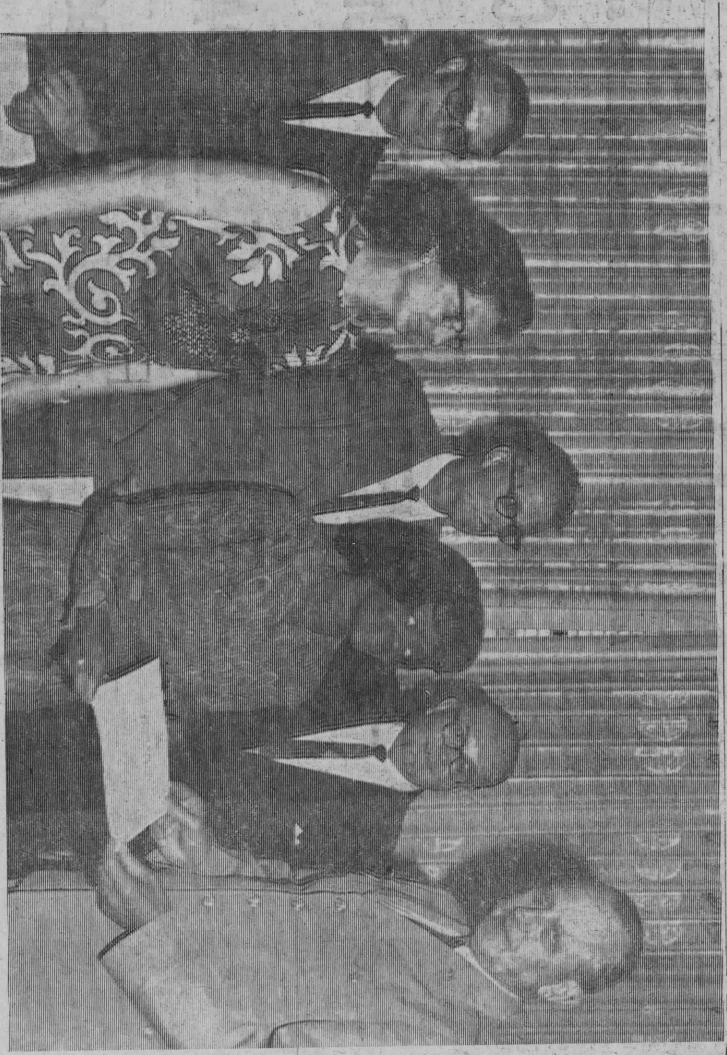

FIRE SAFE HOME

If you own a home or are planning to build or buy one, make fire safety a foremost thought, urges RIA Fire Chief Farrel Jordan.

Good construction for a fire safe home, according to the National Fire Protection Association, includes:

1. Built-in fire stops. These are barriers of wood or masonry between studs, joists, rafters or stringers that serve to prevent the spread of smoke and fire.
2. Solid doors for every room. An ordinary wooden door can keep smoke and fire out of a room for as long as 30 minutes.
3. Good escape routes. Best exits lead directly outside, not through, and operate easily enough for the youngest member of the family.
4. Interior finish of materials with low flame-spread characteristics. Wallboards made of gypsum, cement, asbestos and similar materials are non-combustible and resist flame spread.
5. Fire-resistant roofing material, such as asphalt shingles, slate, asbestos or metal. Wood shingles never should be used as a roof covering.
6. Proper wiring. Qualified electricians follow the provisions of the National Electrical Code when installing wiring, which means a fire safe installation.
7. A good heating plant properly installed and located, regularly inspected and cleaned. A furnace should never be located under stairs or near an entrance where fire originating in the heater might block escape.

Bicycle riders . . . keep both hands on the handle bars, except to signal a turn or stop.

Brig. General C. H. Johnson, deputy commanding general of AWC, presenting 20-year length of service awards to: (left to right) Ralph Miller, AMSWE-SM; Violet Meyer, AMSWE-CP; Donald Harmon, AMSWE-SM; Martha Polite, AMSWE-SM; and Kenneth Clark, AMSWE-SM.

EMERGENCY RELIEF FUND DRIVE ON NOW

Headquarters Army Weapons Command's annual Army Emergency Relief (AER) fund drive is being conducted during this month, according to AWC campaign manager 2nd Lt. R. E. Pettengell.

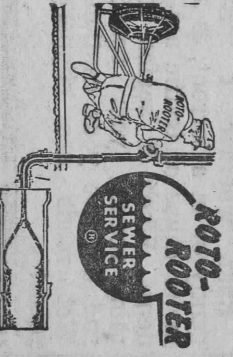

The lieutenant said that he has sent disposition forms to all eligible personnel to outline the collection program and will follow up with personal visits to explain the AER policies.

AER was authorized by the then Secretary of War in 1942 as a perpetual organization to collect and hold funds for future assistance to distressed Army members and their families. Its assistance is immediately available to these persons, either in the active Army or the reserve, through the sections of AER at all stateside or overseas Army posts or commands. Direct application to AER headquarters may also be made for assistance. Assistance may be ren-

TEAM TAKES 18 TROPHIES

At the recent monthly registered outdoor pistol tournament at Waukegan's Shoot-O-Rama, four headquarters Army Weapons Command military men brought home 18 trophies among them.

Leading the list was MSgt. Myrl Moser, Marine Corps Liaison office, who topped the marksman field in the grand aggregate scoring with a 2,252/25. He also won six other trophies. Maj. Ronald B. Stewart won three trophies, Sgt.

Maj. Ronald B. Stewart won three trophies, Sgt.

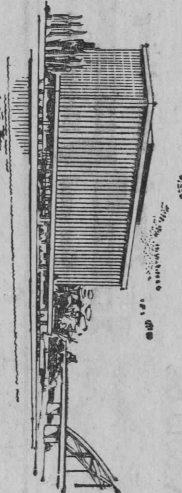

Maj. Ronald R. Bruner won four trophies, and 2nd Lt. Timothy R. Russell took home three awards. Sergeant Moser won first places in the .22 cal. National Match Course, timed fire, rapid fire, center fire timed fire, rapid fire and aggregate.

Major Stewart won first places in center fire National Match Course, .45 cal. slow fire and .45 cal. aggregate.

Lieutenant Russell won a first place in the .22 cal. slow fire, and second places in timed fire and .22 aggregate.

TODAY...

we plan for tomorrow

1966 — a year of planning and building — a year of continued growth and progress.

Modern Woodmen of America assets now total \$261 million. Life insurance in force totals \$929 million. Our solvency ratio of 116.19 provides \$116.19 in assets for every \$100 of liability.

Since its beginning 84 years ago, Modern Woodmen has returned over \$945 million to members and beneficiaries in the form of benefits and fraternal services and over \$35 million in the form of dividends.

Experience — sound investment — maximum protection — higher dividends — lower rates than ever before. These are the solid foundations on which Modern Woodmen is building for tomorrow.

Auto Talk

by Werner A. am Ende

Are we going back to electric cars? Continually increasing air pollution by the automobile assures this... as far as I'm concerned. Only lack of an efficient battery that provides extended range and speed is holding back production of these vehicles.

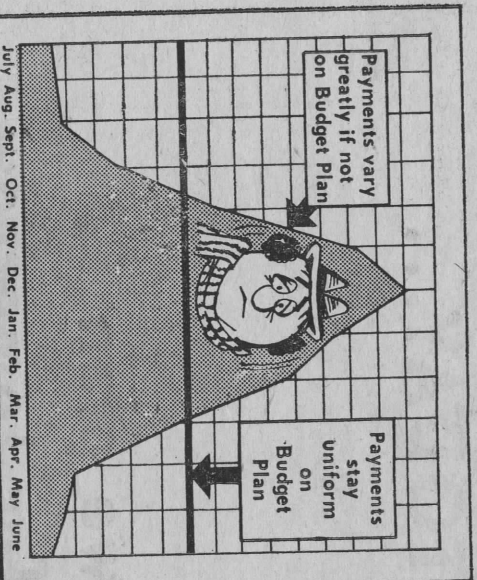

Automobile manufacturers are feverishly working on an acceptable battery. One company is working on a sodium-sulfur battery that is expected to deliver 15 times as much energy per pound as a lead-acid battery.

Right on its heels is another company with a zinc-silver battery and a hydro-

gen-oxygen fuel cell that has already driven a six-ton van 80 miles per hour. But both batteries are prohibitively expensive and the hydrogen-oxygen fuel cell is unsafe for highway use.

The breakthrough to provide a reasonably priced and efficient battery is not long off. The price trend of oil and gasoline is so definite and irreversible that electric propulsion vehicles may be an economic necessity in the near future.

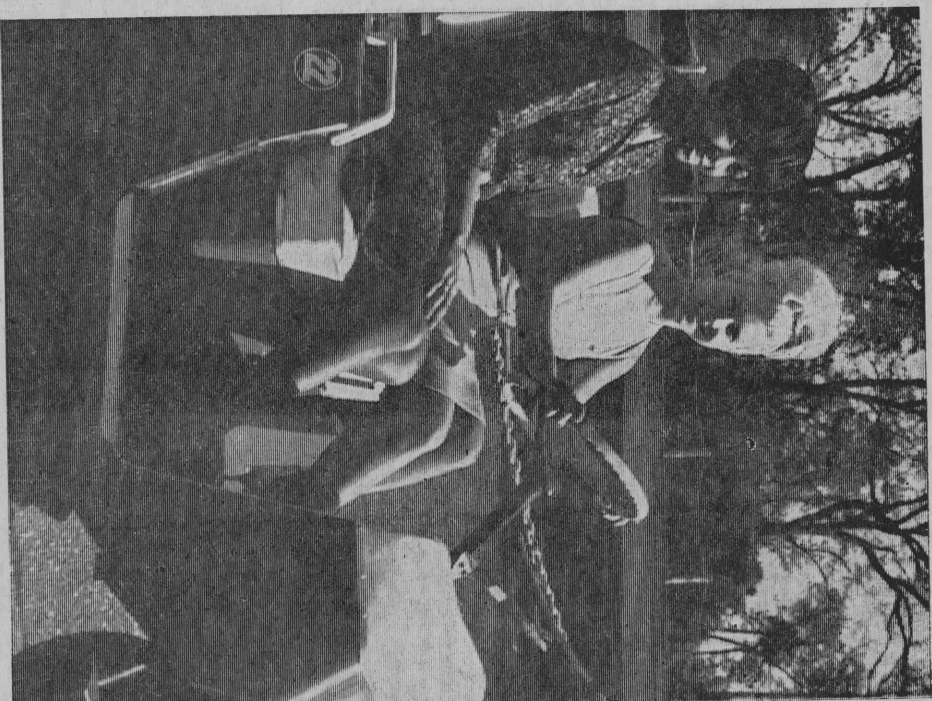

Don't think for one minute though that the petroleum manufacturers are standing idly by and letting electric energy take over. An oil company recently announced that it has devel-

AN ELECTRIC GOLF cart is the closest we can come to a sign of the possible future in transportation, as you can read in Auto Talk. But Linda White, left, a clerk-typist with AMSWE-CPS, and Pam Balzer, a clerk-steno with PEQUA, are definitely two pleasant signs of the present. —Bob Devore Photo.

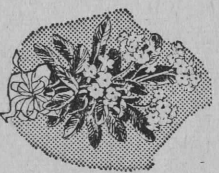

oped a device that would cut the typical annual release of hydrocarbons by the average car from 530 to 90 lbs.

One item that I haven't seen considered is to cut the internal combustion engine horsepower. To drive a car with 396 horsepower around town appears idiotic when the same kind of driving may be done more cheaply, more efficiently, and with less effort with a car hav-

ing an engine one-third the size. One result would be two-thirds less smog contribution.

California officials have already made the statement that unless toxic tail pipe emissions are drastically reduced, the internal combustion vehicle will be prohibited after 1980 on California roads.

In another TARGET I'll discuss operational costs of the electric car. See you then.

AMEIA MAN GRADUATES

William S. Shallman, supervisory industrial engineer and head of the U.S. Army Management Engineering Training Agency's department of Industrial Management here received his masters degree in Management from the University of Iowa on June 9.

Mr. Shallman, of 3915 29th St., Rock Island, Ill., completed a one-year course of study at the university as a part of a fellowship sponsored by the Army.

In that year he conducted a research study in which he evaluated the impact of network analysis and critical path methods upon design engineering organizations.

Originally from Chicago, Shallman served in the U.S. Marine Corps in 1946-48 and 1950-51. He received a bachelor of science degree from the University of Illinois in 1952.

He and his family have lived in the Quint-Cities area since 1956.

Mr. Shallman is a member of the American Institute of Industrial Engineers.

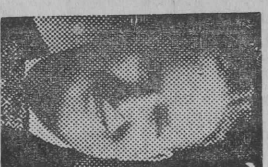

Shallman is married to the former Sarale Rakow and they have four children; Nancy Jo 10, Morton 8, Debra 6 and John 3.

SEVEN PASS MARK

According to records from the Rock Island Arsenal incentive awards office, seven 1,000-hour sick leave certificates were awarded on May 10 and 24.

Certificates went to: Catherine R. Vandamme, Aletta Kron, Helen G. Voltz and Charles Parrish, all of SWERI-PP; Harold L. Pierce and Mae Schmittgrund, of SWERI-IS, and Ellwood C. Westerdahl, of AMCPO-M42.

Rain, whether it falls gently or in a torrent, is a major cause of traffic accidents. When it begins to rain, reduce your speed and increase your caution. Wet roads are slippery roads!

PUBLIC NOTICE

In the personal interest and well being of our patients, your physician and your hospital are co-operating in the close regulation of the following policies for the more rapid recovery of patients in Lutheran Hospital.

Effective June 12, 1967:

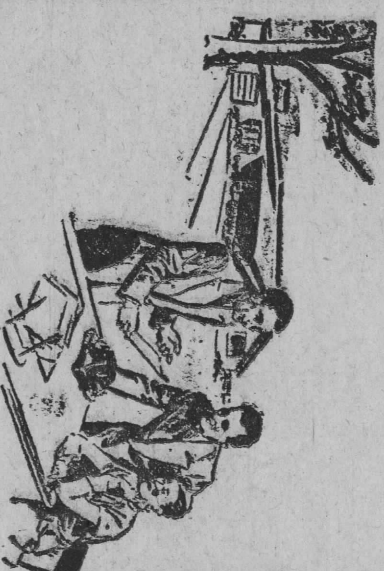

1. Visiting hours for medical and surgical patients at Lutheran Hospital will begin at 1:00 P.M. and end promptly at 8:30 P.M.
2. Two passes will be available for each patient, and must be obtained from the receptionist in the lobby before going to the patient areas.
3. Visitors other than the immediate family are encouraged to limit their visits to 15 minutes or less.
4. Smoking by visitors must be confined to the lobby area.

Today's hospital patient is different from the patient of a decade ago. Most importantly, his stay will not be long — seven days is the average.

While our patients are at Lutheran Hospital, the complex procedures of present day medicine — plus the diversion of television, telephones, magazines, and newspapers — leave little opportunity for boredom or loneliness.

Thank you

Continuing Education Progresses Under AWC Auspices

Education, covering subjects well beyond the level of the typical undergraduate degree program, is increasing at the headquarters of the Army Weapons Command. Because of the nature of its mission, the Command has a high ratio of scientists, mathematicians, engineers, and technical managers. Their continuing education is necessary in order to provide them with a means of maintaining their awareness of the latest developments in each of their specialized fields.

Aggressive support of the continuing education program is vital to the Army Weapons Command, including its subordinate Rock Island Arsenal.

Detailed coordination among the many educational institutions is necessary to insure the members of the Army Weapons Command are receiving the best 'mix' of courses.

Because of the immense interest in the continuing education program, the Command acted as the catalyst for the local metropolitan area in exploring the advantages of organizing a home grown "university." The purpose of the "university" would be to complement existing graduate courses with instruction in specific areas.

The "University of Army Weapons Command" uses existing training facilities. A "faculty" was created from some of the knowledgeable military, experts who

were also civilian employees of the Command or Arsenal, and volunteers from the Quad-City area. The "faculty" is presently constituted of six members including three military personnel, one civilian employee of the Arsenal, and two instructors from local communities. Their classroom presentations are in the form of credit-free (non-credit) courses given during off-duty hours.

Exemplifying the gamut of the credit-free courses is the current curriculum. One of the courses currently being offered is the "Review of Organic Chemistry," instructed by Capt. Robert Frame. Captain Frame was awarded his Ph.D. by Northwestern University. He is assigned to the Office of the Army Weapons Command Deputy

for Research and Engineering.

Another course being offered is "Introduction to Ordinary Differential Equations."

Captain (PhD) Robert Frame and his students discuss a chemical formula during a class session of "Review of Organic Chemistry." Classes such as these help members of the Army Weapons Command keep abreast of the latest developments in their field.

tions" instructed by Lieutenant Edward J. Haug, Jr. Lieutenant Haug was awarded a Ph.D. by Kansas State University. He is in charge of the Mechanical Engineering Section, Research and Engineering Division of Rock Island Arsenal.

"Pluroids" is instructed by Lieutenant R. Thomas Perry, a Ph.D. holder from the University of Minnesota. He is also a member of the RIA Research and Engineering Division, where he is in charge of the Chemical Engineering Section.

"Industrial Design Methods and Practices" is in-

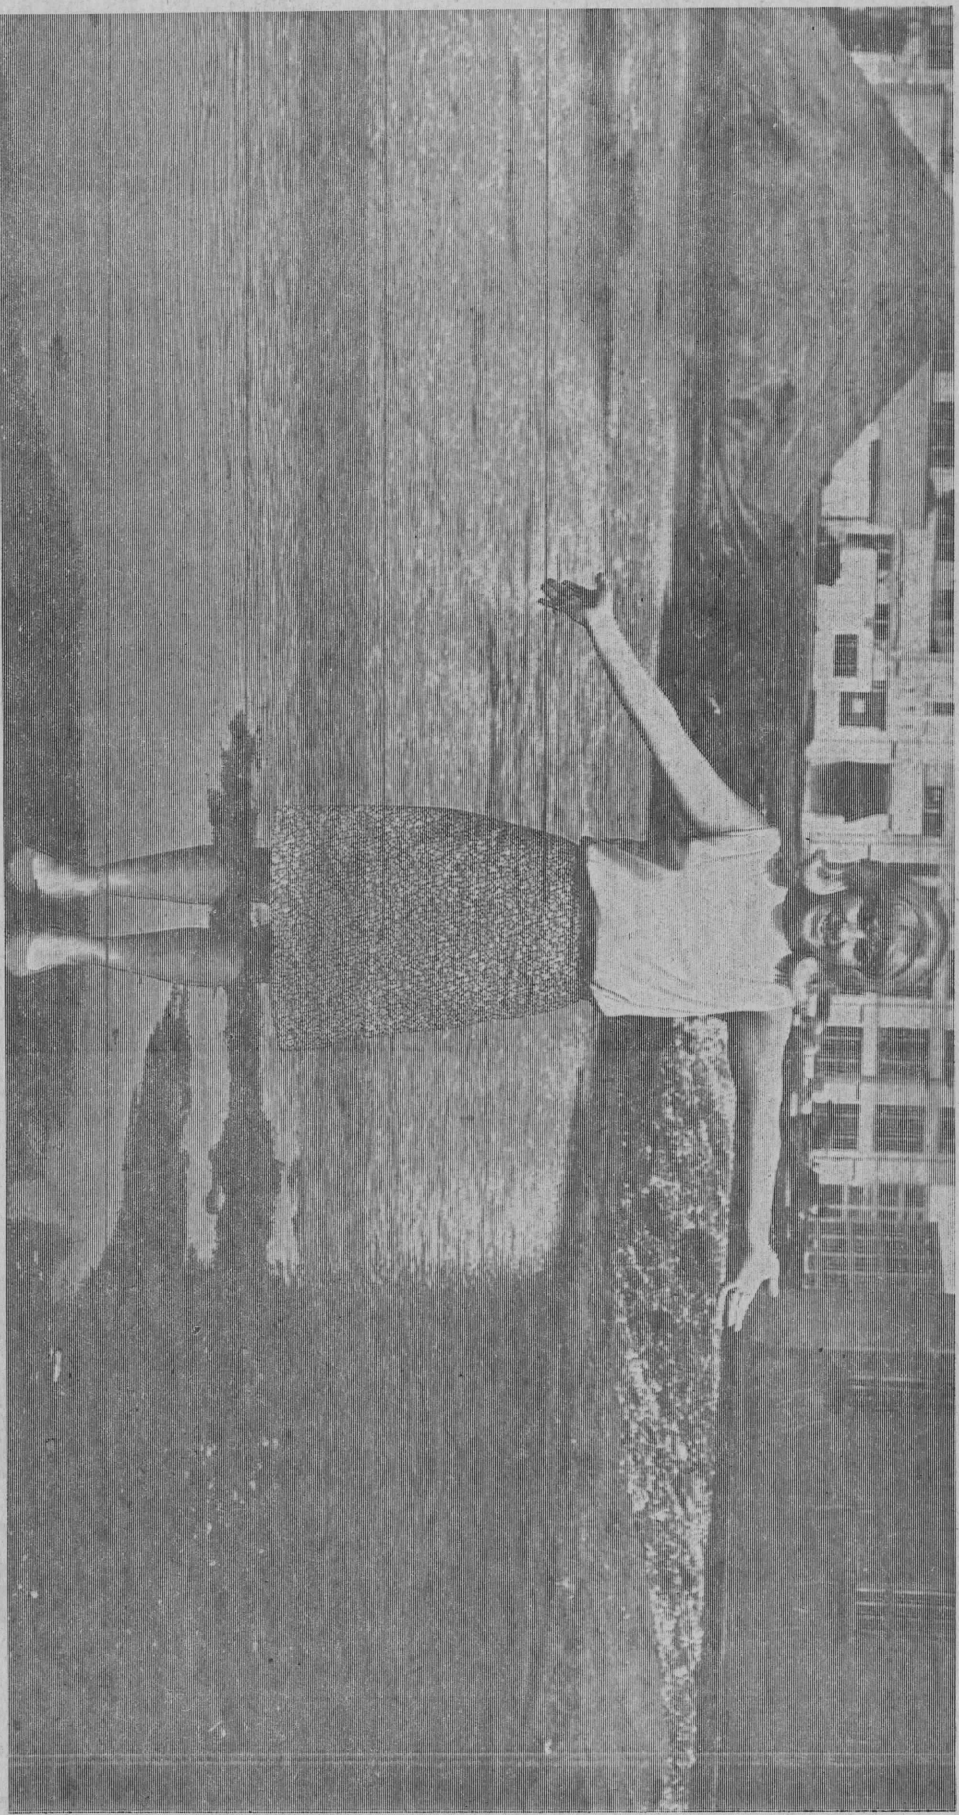

structed by Alan Galbavy of the Development Branch of the RIA Research and Engineering Division. He was awarded a Bachelor of Industrial Design degree by the Pratt Institute. He has been instrumental in developing the conceptual aspects of the Biomechanics program of the Arsenal.

"Introduction to Laser Science and Technology" is instructed by Doctor Robert Frank. Doctor Frank is the head of the Physics Department of Augustana College in Rock Island.

"Review of Engineering Mathematics" is instructed

by Doctor Carl Julian. Doctor Julian is the manager of the Applied Sciences Department of Deere and Company's Engineering Research Division.

Each semester, approximately 100 students enroll in the credit-free portion of the continuing education program. The courses are open to any qualified person in the Quad-City metropolitan area. The students this semester include representatives from almost all local industries, in addition to the members of most of the Federal agencies in the area. (Continued on Page 10)

AFTER OPERATION "CLEAN SWEEP" got underway, Pam returned to the same location and . . . no scrap. The scrap has been moved to the salvage yard where it will be sorted and sold. Incidentally, that's not a lake, just a temporary accumulation of water from last week's heavy rains. According to

Lieutenant Lawrence Bialas of the RIA Installation Facilities Office, the area will be filled in. Lt. Bialas also happens to be the project officer for the outdoor portion of Operation "Clean Sweep."

LUSWC Instead of AWC? It Almost Happened

Instead of AMC, it could have been LUSMC, or LUSWC instead of AWC. And how does LUSTE-COM sound as an alternative to TECOM, or LUCON-ARC rather than CONARC? The whole subject became academic on October 26, 1796, in Detroit as a result of several strokes of General "M a d" Anthony Wayne's pen. By signing a Citadel, the post-Revolutionary reorganization plan for this titanic version of the Pen-nation's army, which he commanded, he changed its name from the Legion of the United States (LUS) to the United States Army (USA).

General Wayne, as Commander-in-Chief of the Legion, took the action in his headquarters at Detroit's

IT'S OFFICIALLY THE CAISSON ROOM

It's official now! The new name of the old club room of the Rock Island Arsenal Officers Open Mess is The Caisson Room.

The name was chosen from among 130 entries in the club's recent Name the Room contest.

The winning name was submitted by George Nickolas of AMSWE-PP. Vern Long, Jack Miller and D. B. McKinzie submitted the same choice of names, however, Mr. Nickolas' entry was submitted first.

Runners-up in the contest were Fred Spec, Jack Rice and Victor Garvis. Their

name choice was not revealed.

As winner, Nickolas will receive as his prize, a free dinner for two at the club, including wine or champagne with the meal.

The runners-up will be entitled to a free meal for two, and the duplicate winners will get a bottle of champagne.

Just as the last issue of the TARGET was being delivered to the executive offices on June 2, Maj. and Mrs. Joachim D. Severino were becoming parents of a boy. They named him Vincent J., and he weighed in at 8 pounds, 11 ounces. The major is secretary of the general staff.

Our own Hazel Parker has big smiles this week because of some news she just received about her two sons in Vietnam. In the middle of all the ruckus there, John, a sailor on the USS Boston, and Jeff, an MCB4 Seabee, managed to spend two hours together on shore leave when their respective outfits were together in the war-torn land. She says that even Da Nang looked good to them for that two hours.

—0—

Dallas O'Donnell and his wife Mary became proud parents for the second time on June 8. Mary presented

Dallas with a girl. He is a general supply assistant in the Mutual Security office of the Supply and Maintenance Directorate.

—0—

Jim Ogden, an engineer at the Production Equipment Agency, and Masie Bickhouse of Quincy, Illinois were married May 26 at Quincy.

—0—

A six page article on the Rock Island Arsenal Biomechanics program is published in the May 25, 1967 issue of Machine Design Magazine. The article features the design work of Alan Galbavy of the Arsenal Future Concept Group.

—0—

Charleen Klinkrodt, daughter of Roy Klinkrodt, of the Arsenal Depot Division, was recently awarded a \$500 scholarship by the Davenport Business and Professional Women's Club. The report comes from Ida Valerius of PEQUA. According to Ida, the award was presented at the B&PW chapter's regular monthly meeting last Tuesday.

AWC Education

(Continued from Page 8)

Like the credit-free courses, the courses for graduate credit are held during non-duty hours in classroom space on Arsenal Island. The participation of members of the Command in graduate programs is conducted under the auspices of the Quad-Cities Technical Advisory Council, Incorporated. (QCTAC).

QCTAC is a non-profit organization designed to foster advanced education. It is co-sponsored by the Army Weapons Command and a local industry.

QCTAC works with universities located in both Iowa and Illinois in offering graduate courses appropriate to the interests and needs of the local community. For the Spring semester, the Council has scheduled eight graduate credit courses.

The courses currently offered typify the spectrum of professions represented in the student body. They include such diverse subject areas as "Foundations of Structures," "Seminar in

Advanced Mechanics," "Production Management," "Legal Environment of Industry and Unions," "Managerial Economic Theory," "Quantitative Methods in Business and Economics," "Complex Variables," and "Boolean Algebra with Application of Computer Circuits."

Still another unique feature of the continuing education program being emphasized by the Army Weapons Command, the Holiday Seminar, was introduced during the 1966-1967 scholastic year. The seminars are scheduled during university holiday periods and presented by the faculty of the College of Engineering at the University of Iowa.

For example, during the Christmas holidays a four day seminar was conducted on "Numerical Methods in Engineering." The seminar was conducted by Doctor Royce Beckett, Doctor Darrell Penrod, and Doctor Kwan Rim, all of the University of Iowa. Some 45 students representing the engineering sciences and related fields participated in the seminar. Certificates were presented to the participants by Doctor Hunter Rouse, Dean of Engineering of the University of Iowa, and Doctor Colin M. Hudson, Army Weapons Command Deputy for Research and Engineering and Chief Scientist.

During the Easter holidays, the four day seminar was on "Computers in Engineering." It was presented by the same three instructors who conducted the first seminar.

Approximately 40 students participated in this seminar. Doctor Hudson of the Army Weapons Command and Doctor J. W. Howe, Director of Mechanics and Hydraulic Research Center of the University of Iowa, presented certificates to the participants.

The Holiday Seminars, participation in graduate programs, and its own "university" constitute the three-pronged approach by the Army Weapons Command towards the continuing education program. As the program grows even larger and more comprehensive, the knowledge imparted to the scientists, engineers, mathematicians, and technical managers should reveal itself in the advanced and improved weapons of the future. The personnel of the Army Weapons Command can make sure that the weapons systems which they manage will be even more lightweight, simple to operate, and easier to maintain than they are today.

52 Workers Honored For Their Loyal Service to United States

Fifty-two members of the Arsenal were recently given Department of the Army Certificates and lapel pins in recognition of their years of service. The recipients included two for 40 years of Federal service, six for 30 years, and 44 for 20 years of service. Those honored included:

From the Arsenal Operations Division:

Henry F. Rome and Harry E. Sachau, both 40 years. Daryl K. Rundle, James S. Rasmussen, Harold J. Johansen, and Glenn H. Ohl, all 30 years.

Paul C. Pearson, Leonard F. Millage, Sr., S. J. Tubbs, Frank W. Carlson, Paul J. Smith, Raymond D. Baumann, Bruce C. Skogland, John Vana, Richard W. Kromback, Raymond E. McCombs, Donald G. Ankerson, and Robert L. Stuard, all 20 years.

Also: Wayne A. Wendhausen, William H. Stoltenberg, Donald E. Hintz, Melvin M. Lerch, Carl M. Hartsock, Roy E. Stewart, Ivan L. Arsonson, Harold V. Haeskett, Herbert A. Blanchard, Frank A. Urbaniak, Fred A. DeGeeter, Frederick R. Lawson, and Earl R. Stanton, all 20 years.

From Quality Assurance:

Nolan L. Sweetman, Vernon J. Profit, and Arthur J. McGill, all 20 years.

Research and Engineering Division:

Nelson W. Gatz, 30 years. Charles R. Bergstrom, Van Yee She Hong, and Anton M. Colbrese, all 20 years.

Arsenal Depot Division:

Ronald R. Meyer, Carl B. Carpenter, and Kenneth O. Cromoneos, all 20 years.

Management Science:

William H. Helms, 20 years.

Security Office:

Jerome J. Keefe.

Installation Facilities:

Zaro E. Poe, Kenneth J. Jensen, Mrs. Evelyn F. Wallen, and Mrs. Nadene C. Williamson, all 20 years.

Transportation Office:

John E. Kennedy, 30 years.

Murrel St. John, Glen A. Wynn, and Carl E. Hodson, all 20 years.

Data Processing Office:

Robert E. Muskopf, 20 years.

GOLFERS ADOPT NICKNAMES

Golfers of the Rock Island Arsenal Tuesday Night Golf League have tackled themselves with some pretty fancy monikers in place of the former numbering system they used to use to identify themselves.

For example, Team No. 1, with John Ackerman, Dick Scherer and Ron Carpenter, now call themselves the Sacs. Team No.

2, with Werner am Ende, Warren Peterson and Emil Bushmeyer, are known as the Wildcats. The other teams in the 10-team league are: Snakers (Al Venckus, Frank Larson, Tom Gerety); Grasshoppers (Gene Salmon, Walt Krance, Dave Johnson); Cacoburs (Frank Burke, John Comp-ton, Carl Carlson); Sodbusters (George Meumann, Dick Castle, Bill Calnan); Rufflers (Bob Pruden, Chuck Vaccaro, Mary Clain); Duffers Anonymous (Bob Hansen, Bill Cain, Mary Schaubroeck). Also, the Club Benders (Jim Mckaney, Van Hong, Dave Bootzin) and Lie-rs (Russ Chapman, Ron Harroun, Randy Dorch).

Living up to their name thus far, the Wildcats are tearing up their opposition and leading the group as of May 23 with 14 points. Only 1½-point behind are the Snakers and Sodbusters (13½ each), a similar gap in front of the Club Benders (13).

In fifth place are the Grasshoppers (12 points), followed by Lie-rs (11½), Cacoburs (9½), Sacs (7½), Duffers Anonymous (6) and Rufflers (4½).

Awards Given To Two 'Youngest'

A Boy Scout and a Scout-foreman in the Sanitation section of the RIA Installation Facilities Office. Mrs. Ellingsworth is a freight rate assistant in the Arsenal Transportation Office. DeCoster, of RIA Quality Assurance, works in building

1966. During his short term in the Boy Scouts, he earned 24 merit badges, three over the minimum requirement for Eagle. He passed the board of review for Eagle Scout in June of this year, just 15 months after he joined the Boy Scouts.

Seminar Attended By AWC and Tenants

Six representatives of the headquarters of the U.S. Army Weapons Command and the Rock Island Arsenal Tenant Activities recently returned from a four-day Equipment Management Workshop held in Denver, Colorado. Participants in the seminar held to discuss the AMC Equipment Management Program were Messrs. M. S. Reynolds, M. W. Belbin, and F. B. Hunter of the USAMC Installations and Services Agency; Messrs. K. L. Bridgford and J. W. Carstens of the U.S. Army Production Equipment Agency; and Mr. E. L. Kerr of AMSWE-IS.

All phases of the \$1,000,000,000.00 program were discussed with the 60 representatives of Hq, AMC, AMC major subordinate commands, installations and activities. Mr. Reynolds spoke on the Installation Equipment Acquisition program; Mr. Belbin discussed Equipment Utilization and Maintenance Management; and Mr. Hunter presented the AMC I&S Calibration Program.

Plan Courses For Fall Term

According to Rock Island Arsenal's training branch, AMETA building (Bldg. 90) will be the site for a number of graduate-level, university credit-courses this fall.

The former is offering Advanced Calculus, Applied Analysis in Engineering, Instrumentation and Measurements, Control System Theory and Design and Digital Computer Circuit Design.

Offered by Iowa U. are Marketing Information, Financial Management, National Income Analysis, Labor and Economic Relations, Structural Analysis, Structural Design and Energy Method in Structural Analysis.

The courses are expected to begin around Sept. 18 and will be scheduled for 1 1/2 hours in the evenings, once a week.

Advanced registration will begin this week and continue through July 18, said training officials.

BATHROOM REMODELING

We are remodeling experts. This is our only business. We do the complete job, including the tile work, floor, carpentry, wiring, PLUMBING and plastering. We move in on Monday — out on Friday. We make provisions for any inconvenience to customers. We install complete BATHROOMS, KITCHENS, dishwashers, disposers and sinks. With each estimate we will furnish you a list of our satisfied customers. We do no siding, dormers, garages, etc. Individual attention is given each job by the owners of the business. You may choose your fixtures from our display at HUFMAN PLUMBING CENTER, 4118 11th St., Rock Island or PHONE 788-7928 and a representative will be happy to call on you at your convenience.

—(Adv)

DeCoster and young Ellingsworth will formally receive their awards in ceremonies to be held June 28 at the John Deere Company administration building auditorium in Moline. DeCoster is Jeff Ellingsworth's sponsor.

Jeff was a Cub Scout for three years before becoming a Boy Scout in March,

TUESDAY TEE TIME

While the Wildcats of the Tuesday Night Golf League increased their points from last week's 24 to the current 26, the Club Benders swung from fifth place to second place. The Sod Busters leaped from sixth place in last week's standings to fourth place Tuesday night. The Grasshoppers now head the second division, having descended from last week's third place berth.

Jim McKamey had the best round Tuesday night, with a gross of 51 and a net of 43. In the previous round, Hansen and Ackerman each shot gross rounds of 57. In the net tabulation, however, Ackerman came up with a 46 to Hansen's 50.

In the National Voluntary Safety-Check Program, only half of the vehicles failing to pass were repaired and returned by their owners for a second check.

Water Safety Practices

A summertime tip from the American Red Cross: "Learn to swim. If you can swim, learn to swim better."

The Red Cross re-emphasized water safety during the summer months in a statement pointing out that there were 7,200 drownings in the country last year, a six percent increase over the previous year.

Some 60 percent of people who drown fall into the water accidentally, the Red Cross said, adding that most of the victims could have saved themselves had they been able to swim.

Some water safety tips:

*Never swim alone.

*If you have not been swimming since last summer, take it easy at first. Recognize your limitations and stay within them.

*Be sure to swim in a safe place, with rescue equipment such as buoys and poles readily available.

*Don't depend on a tube or inflated toy to hold you up. They can slip away from you.

*Whenever a storm approaches, get out of the water—it is a conductor of electricity.

*While water skiing, wear appropriate ski belt or life jacket. Stay away from objects such as docks, sea walls, and boats, and be thoughtful of the rights of swimmers, boatmen, and fishermen.

COUNCIL SCHEDULES TRIP

According to Alice Lea of the Civilian Welfare Council, the spirited response to the baseball trip to Chicago recently taken has prompted the Council to make tentative plans for a two day trip to St. Louis. The trip is scheduled for July 15 and 16.

As on past trips, Lil Dohrn, at extension 6519, will accept reservations. She recommends that reservations be made as early as possible, but in no case later than July 7.

Buses will leave the Island about 6 a.m. A breakfast stop will be made, probably in the vicinity of Monmouth, Illinois. Arrival in St. Louis will be about 1 p.m.

Baseball and Opera

For those who plan to take in the baseball game between the Cards and the Phillies, game time is 5:30 p.m. Tickets are \$2.50 each.

IOWA FOOTBALL TICKETS HERE

The Civilian nonappropriated welfare fund custodian, Ray Reese, announced this week that orders are now being accepted for University of Iowa football games.

He said that single-game tickets are \$5 and season tickets for the five planned home games are \$25.

Orders and money must be in the fund council office before July 28, he added. Orders may be placed by calling Lil Dohrn, ext. 6519. Home games for Iowa are against Texas Christian, Sept. 23; Oregon State, Sept. 30; Purdue (homecoming), Oct. 28; Minnesota (Dad's Day), Nov. 4, and Illinois, Nov. 25.

Coin Club Notes

The Rock Island Arsenal Coin Club will hold its next meeting on June 22 at 7:30 in the Post Restaurant. This will be the last meeting until Sept. 28.

Twenty-six members and guests were present for the meeting of May 25, at which there was an election of officers for the following year. A general discussion followed the election.

Officers for fiscal year 1968 will be:

President: Wayne Parrick, Corps of Engineers.
Vice President: Arnold Rumberger, retired.
Secretary: Irving Haefs, SWERI-PPF.

Secretary: Irving Haefs, SWERI-ADD.
Treasurer: John Wake-
(Continued on Page 13)

Those who do not attend the ball game may wish to see the famous Municipal Opera company in action. This is one of the country's better known light opera companies, according to Alice. The show scheduled in the outdoor auditorium is "New Moon." Reservations for tickets to the opera can be made. Ticket price is \$1.75 per person.

Sunday Relaxing

Sunday in St. Louis has been programmed as do-it-yourself day. Some of Alice's suggestions include: attend church, sleep late, or visit Forrest Park.

Within the boundaries of Forrest Park are the St. Louis Zoo, which has been called one of the finest in the world; the Jefferson Memorial; the Charles Lindbergh Collection; the Art Museum, and what Alice describes as "a fine dining room."

For baseball fans, game time on Sunday is 1 p.m. when the Cards meet the Mets. The buses are scheduled to depart St. Louis in time to arrive back here around midnight.

According to Lil Dohrn, bus fare for the round trip will be approximately \$8. Reservations at the Howard Johnson Motel will be available at the following rates: \$8-\$10 for singles and \$12-\$18 for doubles.

PLAN TWO COLLOQUIUMS

Two colloquiums for members of the area's scientific and engineering community have been announced by the U.S. Army Weapons Command here.

The first, on Random Vibrations, will be held at 1 p.m., today in classroom 1 on the second floor of building 60's east wing.

In the same place, but at 10 a.m., the second colloquium will be held Tuesday, June 20, on Properties of Dilute Magnetic Alloys.

Guest speaker today is Dr. Frank Speckhart of the Eastman Kodak Corporation. He will first present definitions of terminology—sample function, ensemble, probability density, etc.—then talk about excitation-response relations for random inputs.

The speaker Tuesday will be Dr. William Savage, of the University of Iowa's department of Physics. He will discuss the effect of concentration of non-magnetic materials with magnetic materials, and their unusual properties at low temperature.
