ROCK ISLAND ARSENAL, ILLINOIS

Friday, June 30, 1967

ARMY MATERIEL COMMAND 1966 SAFETY AWARD — to Army Weapons Command, Lt. General W. B. Bunker, deputy commanding general (left) of AMC, presents the AMC Award of Honor for the best Command Safety Program for FY '66 to Brig. General W. J. Durrenberger, commanding general of AWC.

AMC HONOR AWARD PRESENTED TO AWC

At a Commanders' Conference held last month at Aberdeen Proving Grounds, Lt. General W. B. Bunker, deputy commanding general of the U.S. Army Materiel Command, presented the Army Materiel Command Award of Honor to Brig. General W. J. Durrenberger, commanding general of AWC. This is the top safety award given by AMC to the major subordinate command for the best safety program. The award was presented to General Durrenberger in behalf of AWC for having the best safety program for FY 1966.

The Army Weapons Command's accident prevention program has earned the distinction for the best safety program of AMC's subordinate commands for three out of the four years of competition.

In his presentation of the award, General Bunker stated: "The AMC Award of Honor represents an outstanding accomplishment. I am pleased to extend personal thanks to the Weapons Command personnel for their excellent contributions to the best major subordinate command safety program in the Army Materiel Command."

NCO MESS REOPENS

"Off with the old and on with the new" is the word from the Rock Island Arsenal Noncommissioned Officers Open Mess these days.

Choose Leaders

New officers were elected and installed at a recent meeting of the Auxiliary Ordnance Service Club. They are: Dorothy Ohl, president; Ione Prescott, vice president; Helen M. Paulson, secretary; Dorothy I. Schoenthal, financial secretary; and Grett (Peggy) Reichart, treasurer.

Complete remodeling of the lounge is near completion and plans for refurbishing the ballroom are awaiting funds.

Next Friday, July 7, the club plans to open for regular business with its new look. A fancy, grand opening celebration is set for 7:30 p.m. on Saturday, July 15.

Attendance for the grand opening will be by reservation, club officials said, and may be made by calling the club secretary-steward, Sgt. Tom Zlotnik on Ext. 5437 during duty hours.

AWC PROCUREMENT DEPUTY GETS MERITORIOUS AWARD

William H. Crown, Jr., AWC deputy director of Procurement and production, has been awarded the Department of Army Department for Meritorious Civilian Service.

At a formal ceremony, Brig. General W. J. Durrenberger, AWC commanding general, presented the decoration to Mr. Crown. The award was for the period of May 1965 to January 1967, while he was serving as acting director of Procurement and Production. He was cited for having achieved a noteworthy and especially meritorious record of achievement.

Mr. Crown has been deputy director of Procurement and Production at Headquarters AWC since 1963. Prior to coming here he was civilian executive assistant at the Chicago Procurement District.

Crown is a graduate of Pennsylvania State University with a B.S. degree in mechanical engineering. He is a Colonel in the U.S. Army Reserves and served on active duty from 1939 to March 1947 and November

M48 TANK CUTS RIBBON TO OPEN 'RAMSEY TRACK'

With a rumble and a roar, accompanied by the strains of the "Army Goes Rolling Along," the newest Rock Island Arsenal test facility was officially opened, Saturday, June 17th.

The "rumble and the roar" came from an M48 tank as it smashed through a huge red and white banner stretched across the Ramsey Test Track. The music was provided by the AWC-RIA orchestra and chorus.

This unique ribbon "cutting" came minutes after the test facility had been dedicated to the memory of the late Brigadier General Norman Foster Ramsey, 15th commander of the Arsenal from 1937 to 1944. In his dedication address, Colonel H. A. Snyder, commanding officer of the Arsenal, said: "When planning the dedication of this test facility we looked for an important figure in Arsenal and Army history for whom to name the track. There is no more fitting person than the late General Ramsey."

Mrs. N. F. Ramsey, Dover, New Jersey, widow of the general, and their son, Dr. Norman F. Ramsey, Jr., Cambridge, Mass., then unveiled a brass plaque dedicating the tank test track. The plaque will be placed in a prominent place along Rodman Avenue in the near future.

A crowd estimated at

about 300 persons witnessed the dedication and ribbon breaking ceremony at the site of the Ramsey Test Track.

In addition to Mrs. Ramsey and Dr. Ramsey, other honored guests included Brig. Gen. C. H. Johnson, deputy commanding general.

Engineer's Son Gets Scholarship

HAROLD C. HANSEN

Harold C. Hansen, 2722 12th Avenue, Moline, son of John T. Hansen, Mechanical Engineer of the Tool and Equipment Division, Rock Island Arsenal, has been awarded a Moline Dispatch Scholarship.

The scholarship award of \$437 toward first year tuition, is one of four scholarships awarded each year by the Moline Dispatch in cooperation with the Moline National and First National Banks of Moline for former Dispatch carriers.

Harold graduated from Moline High School this spring and was active in dramatics, specializing in stage direction, lighting and sound control. He also assists with sound and lighting for the Quad City Music Guild's summer productions. He will begin study in Electrical Engineering at Iowa State University at Ames, Iowa next September.

RIFLES PROJECT MANAGER GETS LEGION OF MERIT

Colonel Harold W. Yount, project manager for rifles, served as director of the Production Equipment Agency (PEQUA). In 1963 he was awarded the Legion of Merit last week by Brig. General C. H. Johnson, deputy commanding general of AWC. The award was for exception a lily meritorious conduct in the performance of outstanding service while serving as Project Manager, Rifles, from March 1963 to June 1967.

Colonel Yount, who has been stationed here since 1962, left this week for a new assignment. He will become Group Commander of the 21st Direct Support Group in Korea.

Colonel Yount, a 24 year career Army officer, came to Rock Island Arsenal in June 1962. During 1962-1963 he

IT'S A BEAUTIFUL MEDAL — As Colonel Yount's wife, Jean, admires the Legion of Merit that he has just received. Col. Yount, project manager, Rifles, left this week for a new duty assignment in Korea. He has been stationed here since June 1962. The award was for exceptionally meritorious service while serving as project manager from 1963-1967.

with his oldest son, David. His other son, Donald, is presently undergoing officer's training at Aberdeen Proving Grounds.

During his tour of duty here, Colonel Yount has been active in the RIA Flying Club and was instrumental in the club obtaining several aircraft. On two occasions he served as vice-president of the group.

AWC Lets Contract

The headquarters of the Army Weapons Command, has awarded a contract to Bowen - McLaughlin - York, Incorporated, valued at \$3,221,155. The contract calls for the improvement and conversion of M48A3 and M48A4 tanks.

The M48A3 is an updated and dieselized version of the M48A1 series of tanks. The M48A3 is armed with a 90 millimeter gun mounted in a turret which is capable of 360 degree traverse, improved sighting components, and an improved suspension system. Both the

M48A3 and M48A4 have a crew of four.

The production of the M48A3 and M48A4 tanks by Bowen - McLaughlin - York, Incorporated will take place at the firm's plant in York, Pennsylvania. The award of contracts such as this one is a means by which the Army Weapons Command implements its responsibility for the research, design, development, procurement, and world-wide logistics support of almost all Army weapons except missiles.

C-E DISTRICT ENGINEER LEAVES FOR GERMANY TOUR

Col. Howard B. Coffman Jr.

Col. Howard B. Coffman Jr. will leave Monday, July 10, after a busy three years as District Engineer of the Rock Island District of the U. S. Army Corps of Engineers for Germany, where he will assume command of the 540th Engineer Group, near Stuttgart, Germany.

Almost every type of natural disaster occurred during his three-year tour of duty here.

Record low flows were recorded on this section of the Upper Mississippi River in the fall of 1964, followed by the all-time record flood in the spring of 1965. Damages during this flood totaled \$55,000,000 and many millions of additional damages were prevented by emergency flood protection work.

Colonel Coffman was very active in assisting local communities with flood protection measures and he later received the Legion of Merit for his excellent work during this period.

Corps of Engineers employees under Colonel Coffman helped survey damages following a severe tornado at Belvidere, Illinois, in the spring of 1967.

Congressional appropriations for the design and construction of flood control and navigation projects totaled \$57,300,000 during

Council Plans Trip

Arsenal Island employees who are planning on taking the Civilian Welfare Council trip to St. Louis on July 15th and 16th are reminded that they have only until July 7th to make their reservations.

Reservations should be made with L.J. Dohm on extension 6519.

Buses will leave the Island about 6 a.m. Arrival in St. Louis is scheduled for about 1 p.m.

Bus fare for the round trip will be approximately \$8. Reservations at the Howard Johnson Motel will be available at the following rates: \$8-\$10 and \$12-\$18 for doubles.

After the baseball game on Sunday, the buses are scheduled to leave St. Louis and arrive back in the Quad-cities about midnight.

Silverbars for Lt. William J. Hefnerman of Rock Island Arsenal Supply Management Office. Pinning on the new bars are Lt. Hefnerman's wife Kathleen with an assist from Col. H. A. Snyder, RIA commanding officer.

Auto Talk

by Werner A. am Ende

One of the most confusing items to buy that will fit your pocketbook and needs is a set of tires.

To choose among first-line and second-line tires, 18-24-36-month guarantee tires, super re-treads, 2-ply nylon, 4-ply nylon, rayon, ovals, slicks, and now radial tires, can be a nightmare.

A word about the new radial tires first. Contrary to advertisements the tire is about as new as 1952. It was first developed in France and has been universally accepted in Europe as a most reliable tire.

The radial was introduced into the United States only recently. High costs have kept the tire out of the average person's hands but there is little doubt that it is one of the safest tires today.

Steel cord plies keep the tread rigid and virtually eliminate distortion. Tires may be guaranteed for 40,000 miles against tread wear-out. The cost of a 750x14 tire varies, but could be around \$50. Incidentally, the radial tire requires a tube, it is not tubeless.

The new ovals have recently made their appearance.

Buy U.S. Savings Bonds

Star Spangled Savings Plan for all AMERICANS!

These are also premium tires with a wide tread surface providing more positive traction and quicker getaway. Like the radials, high initial cost makes them less popular than the more common tires. That brings us back to the original dilemma — what have we got to go by in order to get a good tire in the absence of government standards?

Generally, the tread wear-out guarantee is a good standard to follow. If the manufacturer is willing to guarantee the tire against tread wear-out for 36 months, and against failure due to road hazards for the life of the tire, you probably have a pretty good tire.

Think twice before you buy a tire guaranteed only 18 months. If you intend to keep your car beyond that time, it will probably be time to get a new set just about the time you're thinking of selling.

A cheap tire in that case could be the most expensive in the long run.

DETAILS ABOUT THE tires stacked behind Debbie Camp are outlined in this week's Auto Talk. The detail about Debbie is that she is a clerk steno in AMSWE-CP's administrative office.

—Bob Devore Photo.

Freedom's Anniversary

July 4, the 191st anniversary of the signing of the Declaration of Independence, is a birthday that will be observed by Americans the world over.

It is a birthday that has had world-wide significance.

The form of government adopted was untried and contrary to the accepted governmental systems of the period. Yet we made the system work, individual dignity became the cornerstone on which the nation was built and the country grew and prospered.

Our success became an inspiration throughout the world. New governments were founded on democratic principles recognizing the equality of man.

For others, America became their haven, their goal, their country. They came in increasing numbers, bringing their families, their religions and their toil.

From the wilderness they created a mighty nation which, despite its youth, became a world leader and an inspiration to all men who cherish freedom.

For nearly 200 years our Nation has been guided by the basic principles set forth in the Declaration of Independence. The same hardy spirit which helped our ancestors stand firm in 1776 has prevailed throughout our short history.

On this Independence Day, Americans are fighting, dying and standing ready to preserve the principles set forth in that famous declaration.

They, too, have mutually pledged their lives, their fortunes and their sacred honor.

Agencies Urged To Hire One Youth Per 100 Workers

In support of the President's Youth Opportunity Campaign, the Civil Service Commission has urged the heads of all Federal agencies to appoint at least one extra employee for every 100 regular employees on the rolls this summer.

Nicholas J. Oganovic, the Commission's Executive Director, said in a bulletin to Federal agencies: "The President has made it clear that he expects Federal agencies to lead the way in making the campaign successful."

Special appointing authorities again have been approved by the Commission to facilitate Federal agency participation in the Youth Opportunity Campaign.

One authority permits the excepted appointment of young people to temporary summer trainee positions.

Each Gives \$9.51

According to Washington Memos, military and civilian personnel in last fall's Combined Federal Campaign contributed almost \$22 million, a 22 per cent increase over the previous year.

Memos attributed the figures to a release from the Civil Service Commission.

CSC statistics reveal that 81 per cent of all civilian and military personnel contributed with an average \$9.51 per capita gift.

NEEDS PROOF

Rock Island Arsenal's Police Chief G. Dilling reminded all drivers who have decals that they are required to furnish proof of liability insurance renewal before their car insurance expires.

This may be done, he said, by bringing a paid renewal slip to the Auto Registration office, by having the insurance company send a copy to Auto Registration, or by having the insurance company call and confirm the renewal.

The chief also pointed out that failure to comply with this requirement, which is covered in Post Regulations, will result in administrative action.

Arsenal Target

The Arsenal Target is published every other Friday. Editorial material for publication in the Target will be received only through the information Office, Army Weapons Command, Building 390, Rock Island Arsenal, Ill. Telephone 794-4754.

All advertising copy and payments will be received by The Herald, 822 15th Ave., East Moline, Telephone 725-9224. The deadline for copy and advertising matter is the Tuesday before publication.

The Arsenal Target is distributed free of cost to all personnel at Rock Island Arsenal. Mailing arrangements, at \$4.50 per year, may be made with the publisher, The Herald. Retired Arsenal personnel may subscribe for \$3 per year.

Bull's Eyes

Last Friday, some Quad-Cities Army Reserve officers completed a four-year military career officers course at Fort Sill, Okla. Among them was **Lt. Larry Boeckman** of SWERL-SMD-W.

Edwin Vaughan, a lieutenant colonel in the Reserve and an employee of Army Weapons Command, is one of the Reserve duty instructors there.

Bob Mitchum of SWERL-CPF, will be on his way to a new assignment in Honolulu July 10, and take along his wife and two daughters. To

celebrate the occasion, his co-workers had a cake made that included Alohas and Hawaiian dancing girls.

In the new papa department is **SWERL-PPE's Merle Eldridge** of the Shop H packing and packaging unit. He and his wife, Linda Rae, now have a daughter, Susan Lynn, born June 20 at Moline Public Hospital.

Darlene Carstens, former-

ly of Rock Island Arsenal Personnel and whose husband is **PEQUA** engineer **Jim Carstens**, was recently awarded a Blackhawk College Floyd E. Kennedy scholarship. The presentation was based on academic achievement and is to be used to complete her baccalaureate degree. She majored in psychology and will enter Augustana College in the fall.

For employees who are scheduled to be working on the Fourth of July, one hot food serving line will be open in the Post Restaurant from 10:30 a.m. until 12:30 p.m. that day.

Local families with children serving in Vietnam were in the news last week. For one, **Mike Daniels**, whose father is **George Daniels**, director of **PEQUA**, and mother is **Eileen Daniels**, **AMSWE-RDW**, has been home on leave enroute from his Europe duty to a tour in Vietnam.

Another is **Lt. (JG) Robert E. Curtis**, whose father **Hugh Curtis** is an engineer in **RIA's** Tool and Equipment division, has just returned from Vietnam after flying combat missions in his **A-4 Skyhawk** off the carrier **USS Kitty Hawk**.

How it feels to be on the receiving end could be the story behind **Mary Lange's** recent stay in **St. Luke's** Hospital. She is a nurse in **Rock Island Arsenal's** Medical Section and was recently confined for two weeks of tests . . . in Room 555. Although she is due to leave today (Friday), she may like

"Proud and happy parents," was the quote from **Capt. David Alabran**, research chemist with **RIA's** Research and Engineering division, when his wife, **Marilyn**, presented him with a daughter, **Leslie Joy**, when Friday, June 23, was only 15 minutes old.

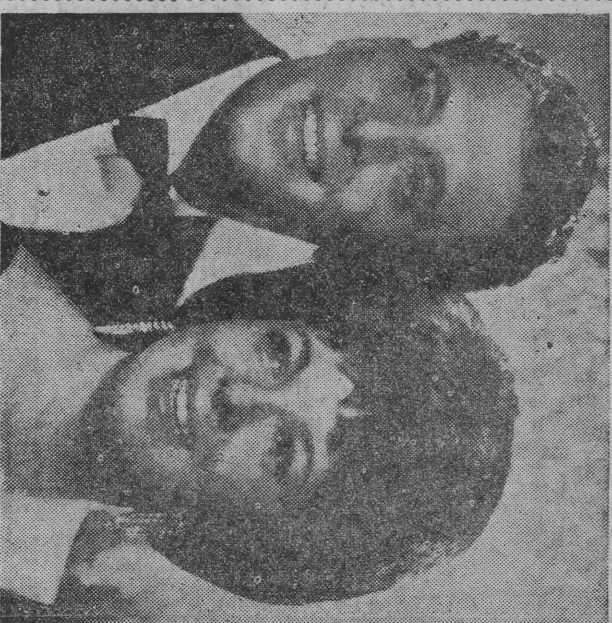

Mrs. Roberta Scott, with the Program & Control Branch of the Arsenal Depot Division, revealed that her 12 year old daughter, **Sally**, is a record-breaking swimmer. **Sally** started swimming when she was seven.

When **Sally** was 10 years old she competed in an **AAU** Invitational Swimming meet in Chicago, winning three events—the breaststroke, butterfly, and freestyle—all in record times.

At the Fort Dodge, Iowa state meet in March, 1967 **Sally** broke three State swim marks. In the 100-yard medley, **Sally's** time was 1:12.9 seconds, in the 50-yard butterfly, 31.1 seconds, and in the 50-yard backstroke she was timed at 34 seconds flat.

Parker In Print

Our June 2 TARGET came out just after we observed Memorial Day . . . a remembrance for those who have given their lives for a better world.

This TARGET comes out just before another special day . . . the Fourth of July, commemorating the signing of the Declaration of Independence.

These two days tie together in my heart . . . especially now with our loved ones engaged in mortal combat . . . in the terrible business of war.

I feel quite strongly against the utter futility of warring with force. Once before, I quoted Napoleon: "The more I study the world, the more I am convinced of the inability of brute force to create anything durable."

I grant that as long as there are two beings left on the face of this earth, there will be a difference of opinions. But somehow I feel that there must be a better way to settle those differences than to have one kill the other.

I feel also that much of the problem stems from man's inability to understand the other human's needs, actions and words. We, then, as women and

mothers especially, have the awesome responsibility to instill within our children the tremendous need to strive for this understanding among ourselves.

Our children, reared under our dedicated guidance, will one day be the ones to carry our nation's burdens.

We are involved in a war right now. We can't ignore it . . . it won't go away by closing our eyes.

Let each of us women here on Arsenal Island do our best to perform our particular duties with full hearts to support our men under arms. But, let's not lose sight of the challenge to teach understanding and live accordingly ourselves.

When we get our beautiful American flag out to proudly display on Tuesday, let us lift our eyes upward and spend a moment in silent prayer to all who have kept this precious freedom for us.

Then let us ask for guidance to teach others this understanding of one another that may someday become the substitute for war.

Can you think of any finer reason for our existence? See you.

INSTALLATIONS AGENCY HEAD RETIREES AFTER 26 YEARS

Colonel Joseph T. McQuaide, chief of the USAMC Installations and Service Agency, here on Arsenal Island, is retiring today after 26 years of Army service. He has been on his present assignment since last September.

At a formal ceremony last week prior to going on leave, Brig. General W. J. Durrenberger, commanding

CURRENT CAMPAIGN DEALS WITH TIME

Crowded for time? There seems to be no way to stretch an hour, but we can do something about fitting the minutes of each hour into their proper places. If we schedule minutes, hours will take care of themselves.

"It's not the time you put in, it's what you do that counts."

In our current suggestion campaign to improve service to the public, we need your good ideas on how to better serve the public — such as:

Did you know the Post Office serves the public 24 hours a day? and that —

Some government offices are open evenings and Saturdays to better serve the needs of the public?

All of us have good ideas, but we feel we don't have time to develop them. Again, it's planning the day, allowing time to develop ideas. With our broad knowledge of the total operation there must be plenty of quality suggestions in us — let's get 'em out!

Wildcats Top Tuesday League

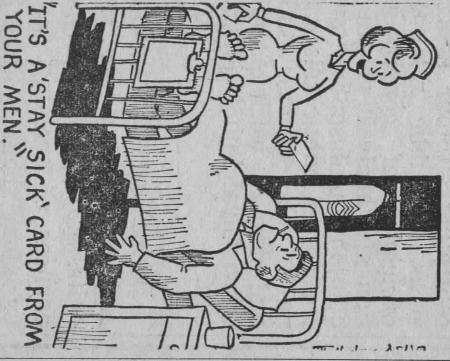

In spite of their 5-2 loss to the Sodbusters, the Wildcats of the Tuesday Golf League managed to hold on to a 1/2-point lead in the standings as of June 20.

The leaders have 28 points and behind them is a tie for second between the Sodbusters and Duffers Anonymous with 27 1/2 points.

Following the top teams are the Grasshoppers and Cacobus (26), Snakers (25 1/2), Club Benders (24 1/2), Lieers (23), Sacs (19) and Rufflers (18).

Individual play on June 20 saw Bob Hansen claim the low gross mark (56) and the low net score (49) which is par for the 12 holes.

Always think for two... the other driver and you.

IT'S A STAY SICK CARD FROM YOUR MEN

general of AWC, presented Col. McQuaide the Legion of Merit Award. It was for exceptionally meritorious conduct in the performance of outstanding service during the period of September 1966 to June 1967.

Colonel McQuaide was born in 1917 in Canton, Ohio. He received a B.S. degree in Ceramic Engineering from Ohio State University in 1941, a Civil Engineering degree from Cornell University in 1947 and a M.S. in Administrative Engineering from New York University in 1950.

Colonel McQuaide's family, his wife and four children, reside in Columbus, Ohio, where he plans to reside upon retirement.

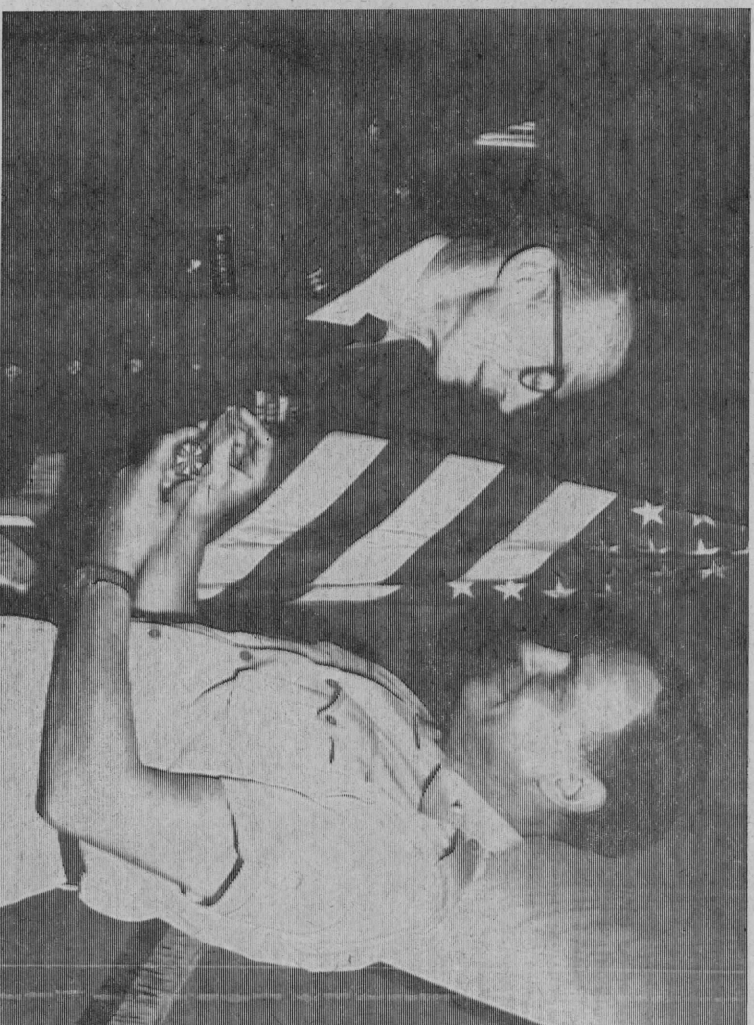

Col. McQuaide was commissioned a 2nd Lt. in the Army, Corps of Engineers, June 1941 and his first assignment was with the Combat Engineers. Subsequent assignments included duty with the Office Chief of Engineers and as a Post Engineer at the Defense Construction Supply Center, Columbus, Ohio and assistant to the Division Engineer, N. E. Division, Portland, Maine. Overseas assignments included tours of duty in the European Theater, North Africa, Japan, Vietnam and Korea. Upon retirement, Col. McQuaide is enrolling at the College of Education at Ohio State to complete requirements for a teaching certificate and he plans to teach at the high school level.

Ordinance Officers Elected June 2

In the June 2 meeting of the Ordnance Service Club, William Meitzen was elected president and Richard Paton was elected vice president of the group.

Other officers elected were: Secretary, Daryl Clong; financial secretary, Donald Beadel; treasurer, Arthur Mager, and trustees, Melvin Muth, John Turrell and Jay Kiser.

The new president reminded all that eligibility in the organization calls for 15 years of federal service.

LEGION OF MERIT — to Colonel Joseph T. McQuaide, chief of the USAMC Installation and Services Agency. Presenting the medal is Brig. General W. J. Durrenberger, commanding general of AWC. Col. McQuaide, who has been here since last September, retires from the Army today and will reside in Columbus, Ohio.

Resemblance Not Just Skin-deep

Those who attended the dedication of the "Ramsey Test Track" last week, or saw the event on local TV stations, probably noticed the remarkable resemblance of Dr. N. F. Ramsey, Jr. and his late father, Brig. General N. F. Ramsey. The resemblance does not end with the fact that they look very similar. Dr. Ramsey, like his famous father, is also an outstanding man in his field. He is considered one of the outstanding American physicists. He has been the Higgins Professor of Physics at Harvard University since 1966. He came to Harvard from Columbia University in 1947 and has been Professor of Physics since that time.

When Harvard built its Cyclotron in 1949, Professor Ramsey became chairman of the University Nuclear Physics Committee. He also served on the Executive Committee of the Bi-Electronic Accelerator which is jointly operated by Harvard and Massachusetts Institute of Technology.

Dr. Ramsey participated with Prof. Rabi in the discovery that the Hydrogen Nucleus was egg-shaped instead of spherical, as had previously been assumed. This discovery showed the existence of a previously unsuspected field of force between the elementary particles.

Before joining Harvard in '47, Professor Ramsey helped to establish the new Brookhaven Laboratory for Nuclear Research and served as its first chairman of the Physics Department.

He was born in Washington, D. C., 27 August 1915, and studied at Columbia University and Cambridge University in England. He has an AB degree from Harvard (35); PHD from Columbia (4); AB from Cambridge (37); and DS from Cambridge (54).

RICE AT SCHOOL

Jack A. Rice, of the Information Office, is one of the eleven civilians and 17 military personnel who are attending the Army's advanced public relations course, June 19 through August 12, at the University of Wisconsin at Madison.

The eight-week course is at the graduate level and will provide eight academic credits toward work on a masters degree.

The course will be concentrating on four general areas of public relations: principles of communication and analysis of public opinion; philosophy and process of public relations; public relations case study, and practical work in radio, television and photo-journalism.

By locking your car doors and buckling your seat belts, you will increase your chances of avoiding death or injury should you be involved in a traffic accident.

PEQUA Man To Committee

An employee of the U.S. Army Production Equipment Agency here at Rock Island Arsenal, Ill., has been appointed an Army member of the Technical Data and Standardization Policy subcommittee for the Impact of Computer Technology.

Chosen was John E. Frisby, 3217 Kenwood, Davenport, Iowa, to the Office of the Secretary of Defense, Installations and Logistics' subcommittee.

In government service since June 1964, Mr. Frisby came to Rock Island Arsenal and PEQUA from North

Dakota State University, where he had been an assistant professor in Mechanical Engineering.

The subcommittee is concerned with the effect on technical data policies and practices caused by increased use of computers in various fields.

The scope of the subcom-

mittee's efforts will embrace the entire range of functions from design through procurement, production, maintenance and supply—computer-aided design, computer graphics, numerically controlled productions, automated testing, etc.—to the extent the data policies and practices are affected.

THINK!

... DON'T SINK

Water is fun to play in — unfortunately it can also be very dangerous — even deadly. There are certain rules which aid to your safety in or on the water. The important ones are listed below. Learn and practice them.

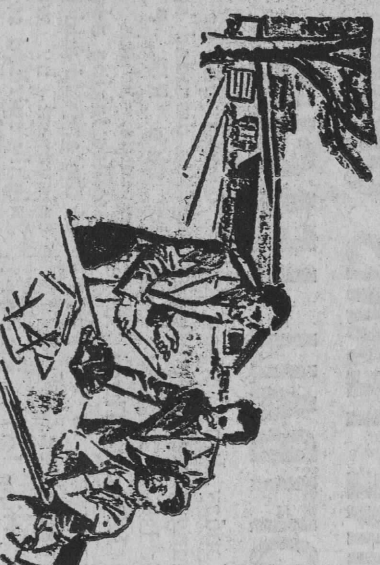

1. Do not swim in unsupervised areas.
2. Do not swim after dark.
3. Do not swim away from the shore, swim parallel with it.
4. Do not use tubes, balls, balloons, etc. if you are not an expert swimmer.
5. Do not let children use the above articles as the children will rely on them for buoyance.
6. Do not swim in unknown water.
7. Do not swim when overheated; cool off gradually.
8. Do not swim when tired.
9. Do not swim immediately after eating.
10. Do not dive into shallow water or areas which are not distinctly marked for depth.
11. Never swim alone.
12. If you use a boat for your holiday pleasure, be safe, have all poor swimmers wear an approved life-jacket.
13. Never swim for long periods of time.
14. For safety and enjoyment swim in water between 68 and 74 degrees F.
15. The lifeguards are responsible for your safety ... obey them!
16. If your boat or canoe capsizes ... hang on!
17. Don't overload your boat and don't drink when boating.
18. Plastic wading pools may be a deathtrap for children unless they are constantly supervised.
19. Don't panic if you get into trouble in the water.
20. Avoid horseplay in the water and in the boat; playfulness may cost a life.
21. Learn to swim properly.

THIS MESSAGE BROUGHT TO YOU BY SEXTON FORD WHO SAYS -

Family safety on your vacation trip — or to the corner super market — is also one of the most important things in your life. BEFORE YOU GO, ask us why you and your passengers are safer on the highways in a SEXTON RECONDITIONED USED CAR or maybe we can see eye-to-eye, with a big smile, and you can drive away in a new SEXTON FORD, MUSTANG, FALCON, FAIRLANE, or THUNDERBIRD ... THAT'S TOTAL PERFORMANCE!

NINE TEAMS OPEN SOFTBALL LEAGUE

Monday, June 26, saw the opening game played in the Rock Island Arsenal's Softball League. Three more games were to be played this past week.

Starting late in the season because of difficulty getting money for equipment and umpires, the ball players of each team got together to chip in for their own expenses.

Scheduled among nine teams representing various agencies and organizations of Army Weapons Command, Rock Island Arsenal and one from the Corps of Engineers, the teams plan to play one complete round (each team playing eight games) between opening day and August 31.

Then, in early September, the top four teams of the league will play a double-elimination tournament to determine the RIA champions for 1967.

According to Bill Helms of RIA's Management Science office, games will begin about 5:30 p.m. every Monday, Tuesday, Wednesday and Thursday. Fridays will be used for makeup games.

Games will be played on the diamond adjacent to the RIA Picnic Grounds, which affords families taking advantage of the area to add to their enjoyment by watching "highly spirited softball."

Teams entered in this year's play, and their managers, are: Bldg. 299 (Tom Nichol), Interns (Ken Arpin), R&D (Bill Selby), Military (Mike McCune) and AOD (Larry Rains).

Also teams from Management Science (Bill Helms), Apprentices (Jim Dixon), Clock Tower (Jack Bixton) and Bill Beasley, and Machining Unit (Ron Gray).

INTERNS NEEDLED 17-1 IN OPENER

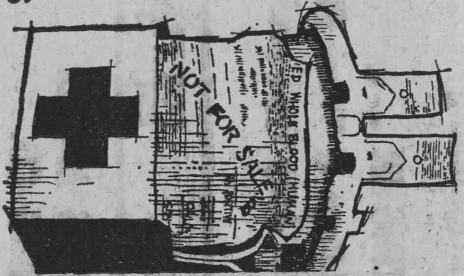

Monday's softball league opener saw the R&D team crush the hapless Interns, 17-1. The winners scored all their runs in the first two innings.

Other games scheduled this past week were: Apprentices vs. Clock Tower on Tuesday; Management Science vs. Machining on Wednesday, and Military vs. AOD on Wednesday. No games are set for the week including the Fourth of July.

Continuing play on July 10-13 will be Clock Tower vs. Management Science; Apprentices vs. Bldg. 299; R&D vs. Military, and Interns vs. AOD.

All games will be played on the softball diamond adjacent to the RIA Picnic Grounds and begin at about 5:30 p.m.

Name Officers

The Arsenal Marksmen recently named Gene E. Taylor their president and Elmer J. Schluenz, secretary-treasurer. They also named Charles L. Woodford as executive officer.

To the Marksmen board of governors, the following were selected for the number of years listed after their name: Anton A. Buton (4), Paul L. Brewer (3), Ronald L. Foreman (2) and Fritz W. Homann (1).

Eugene P. Hermes was named as non-employee coordinator and Lt. Robert E. Pettengell was named military advisor.

At their meeting, the club members discussed future matches planned by the club and their annual picnic to be held on Sept. 17.

Close Barber Shop

According to Mike Lazio of the RIA Barber Shop, the component of the Post Exchange facility will be closed from June 26 through Saturday, July 1 while Mike takes his vacation. It will re-open for business on July 3.

When you make that Fourth of July trip, short or long, be sure to turn on your low beam headlights (not parking lights). All drivers should Light Up and LIVE!

Establish Brackets For All-Arsenal Try

Target SPORTS

Including the defending 1966 champions, 76 men and six women golfers will tee off tomorrow in the opening round of the 1967 All-Arsenal Golf Tournament. Entries set their own time and place.

Matches in the men's championship, A, B and C flights must be played between tomorrow and July 10. Because of the low number of entries in the men's D flight and women's division, their opening matches will actually be the second round and must be played between tomorrow and July 24.

Top notch golf is expected to be the byword in this year's competition, especially in the championship flight with titleholders filling most of the brackets.

Establishing himself as odds-on favorite with a qualifying score of 142, is the present titleholder, Tom Maas, who was the 1965 runner-up. Also in the top flight is the 1965 champion and last year's runner-up, Bob Martin.

More champion flight competition includes Jim Keefe, 1965 A flight winner; Duane Magerkurth, last year's A flight winner, and Charles Van Ooteghem, for-

mer Tri-Cities amateur champion.

With the A flight crown available, Ed Segler made himself the man to beat with a 162 qualifying score. One stroke behind in the qualification marks are Bob Larson, 1966's B flight runner-up, and Linn Neighbors.

Low qualifiers in the C flight were Dan Roman, Mike Komodino and Don Caldwell, each with 170's. Among their competition is defending C flight titleholder Frank Martel, who qualified with a 176.

Low C flight qualifier is Al Boehme with a 182, followed by Vic Welk's 183.

In the D flight list, Harry Jager is the low man with a 207 and Gurth Hubbard qualified with a 208. At the end of the listing is Francis Moses, whose 253 score, he insists, "was completed on the same day I started."

In the women's division, defending champion Evelyn Brackeveld goes into the competition with a handicap of 6. The 1965 winner, Ethel Pickrel, also has a 6-handicap, while 1966's runner-up, Betty Benker, will have an advantage of a 12-handicap.

All tournament committee members have lists of the pairings and the master list will be posted in the Post Restaurant's cafeteria. All will be kept up-to-date as possible, said the officials, so that players and golf enthusiasts may keep abreast of the tourney.

TO THE VICTORS GO THE SPOILS — as the Hq AWC-RIA pistol team lineup with the "hardware" they acquired at the Iowa State Outdoor Pistol Shoot at Waterloo. (Left to right) S/4 Jeff Shields, 2nd Lt. Robert Pettengel, Sgt./Maj. Ronald Bruner and S/4 John Jugenheimer.

Discuss Boating

The Rock Island District, Corps of Engineers, will hold safe boating programs throughout the district during National Safe Boating Week, July 2-8.

The first of these will be held at 8 p.m. Monday, July 3, in the district conference room, adjacent to the Clock Tower building.

The Quincy Boat Club at Quincy, Ill., will be the location for the second program, at 8 p.m. Wednesday, July 5.

The third program will be at 8 p.m. on Thursday, July 6, at the Dubuque Boat Club in Dubuque, Iowa.

Military Pistol Men Take Outdoor Honors

The Army Weapons Command pistol team took top honors in the Service Marksman ship class at the Iowa State Outdoor Pistol Championship held at Waterloo, Iowa on June 17th and 18th. The team, composed of 2nd Lt. Robert E. Pettengel, SMG Ronald R. Bruner, SP-4 Jeff S. Shields and SP-4 John D. Jugenheimer, took the lion-share of the hardware at the tourney

and brought home 4 trophies and 16 medals. 1st Lt. Michael Fritz, although not firing with the team, picked up an additional medal to make the total 17.

The AWC team won the .22 cal. team match as well as the center-fire team match in the service class.

Individually, SP-4 Shields was high scorer. He won first place in the following events: .22 cal. slow-fire; .22 cal. timed-fire; .22 national match course; center-fire national match course; .45 cal. national match course and .22 cal. aggregate.

SMG Bruner, firing in the sharp-shooter class, won first place in the center-fire timed-fire; center-fire rapid-fire and center-fire aggregate.

2nd Lt. Pettengel, although not winning any individual medals, contributed excellent scores to aid in the team matches.

Lt. Fritz, who did not fire in the team matches, won first place in the center-fire rapid-fire match.
