VOL. 4, NO. 4

ROCK ISLAND ARSENAL, ILLINOIS

Friday, February 24, 1967

NAME QUEEN, SWEETHEART AT ANNUAL VALENTINE BALL

With the cheers of a thousand spectators at the Rock Island Arsenal Sweetheart Ball, resounding in her ears, Stella Tillotson, an inventory management specialist with the supply and support

division of Army Weapons Command's Supply and Maintenance Directorate, was crowned Arsenal Queen for 1967 at the annual St. Valentine's Day Ball.

A few moments later, the voices rose again as Connie Morford, a clerk-stenographer in the AWC Comptroller's office, was named Arsenal Sweetheart for 1967.

Presiding at the ceremony was the RIA commanding officer, Col. H. A. Snyder, who gave the winners their trophies as Ray Reese, acting as master of ceremonies, announced them.

First runner-up in the Sweetheart contest went to Linda Schoenthal, a waitress in the Post Restaurant's snack bar, and second runner-up trophy was won by Judy McDermott, a supply clerk in AWC's Tool and Equipment section.

Also on stage of the Colonial Ballroom in Davenport to help with the formal fes-

tivities were the 1966 Queen and Sweetheart, Queen Eunice Hagen presented a floral bouquet of red and white carnations to her successor, and 1966 Sweetheart Judy Hummel gave a similar bouquet to the new Sweetheart after pinning on the official banner proclaiming her new title.

Queen Stella wore a formal of white taffeta with a brocade top. Her skirt was white chiffon over the taffeta. As Eleanor Hoffman, acting as TARGET representative, said, "She looked radiant and composed, even when Mr. Reese announced her name."

"But her voice was a little shaky," Eleanor mused

10 CANDIDATES VIE FOR COUNCIL SEAT

Ten candidates will be battling for votes in the March 6 election of one member to the Civilian Non-appropriated Funds Council. The seat will be filled for a three-year term.

Ballots will be cast in 29 Rock Island Arsenal polling places throughout the island during the noon lunch period.

The five men and five women who filed nomination petitions before the Feb. 8 deadline are: Alice Litchfield, CC44841; Morris

Shendelman, CC47520; Ken Griffiths, CC3118; Minnie Nuef, CC9509, and Merle E. Eldridge, CC5352.

Also, Virginia R. Case, CC3118, Edith J. (fake) Jacobs, CC3030; Nadine Schultz, CC97724; William P. Grogan, CC2420, and Andy La Croix, CC11400.

Council chairman Everette Wildermuth said that regular civilian employees of Headquarters Army Weapons Command, Rock Island Arse-

NORWEGIAN OFFICERS VISIT HQ. AWC, RIA FACILITIES

Four Norwegian Army officers visited Headquarters Army Weapons Com-

mand and Rock Island Arsenal facilities last Monday. Here to get a general indoctrination of the organization and functions of AWC and RIA were Lt. Col. Mathias Wik, second-in-command, Army Quartermaster Corps; Lt. Col. Syver Christian Damhaug, commanding officer, Army Signal Depot and Workshop; Lt. Col. Arne Nyland, chief, G-4F (Logistics), Headquarters Army Command, and Lt. Col. Christian Tonsberg, chief, equipment office, Chief of Engineers.

After arriving, the visitors were welcomed by Col. H. A. Snyder, RIA commanding officer, and escorted through the RIA Depot, Operations and Research and Engineering Divisions.

That evening, the Norwegian guests were received by Brig. Gen. William J. Durrenberger, AWC commanding general. The next morning the visitors left for the U.S. Army Mobility Command in St. Louis, next stop in their tour of U.S. Army Materiel Command installations throughout the country.

Hq. AWC Maj. William T. Barrett acted as escort officer for the Norwegian dignitaries. They were accompanied by Alfred Stille, deputy chief of staff, Logistics, and Capt. Eric J. Norman, U.S. Army tour director.

DURING A BREAK in the Army Weapons Command commander's conference last week at Headquarters AWC, the commanding general, Brig. Gen. William J. Durrenberger, second from left, discusses a pair of small arms combat weapons with his Arsenal commanders. From the left are: Col. A. H. Sweeney, Springfield (Mass.) Armory; General

Durrenberger; Col. H. A. Snyder, Rock Island Arsenal, and Col. Fred Kornet, Watervliet (N.Y.) Arsenal. The general is holding an M14 standard infantry rifle, while Colonel Kornet holds an M16E1 automatic rifle, both of which are under the technical direction of AWC.

(Continued on Page 10)

OWC Installs New Officers

Installation ceremonies for the new officers of the Rock Island Arsenal Officers Wives Club concluded the ladies' meeting in the RIA Officers Open Mess Tuesday.

Presiding at the ceremony was the outgoing president, Mrs. Howard B. Coffman, whose husband is the district engineer of the Corps of Engineers on Arsenal Island.

Installed as president was Mrs. Paul B. Schuppener, wife of the Headquarters Army Weapons Command's chief of staff. The new vice president is Mrs. Paul E. Martin, wife of the project officer for special purpose

individual weapons in the AMC project officer, Rifles office.

The new treasurer is Mrs. William T. Barrett, whose husband is also in the Rifles project manager's office as a project coordinator in the technical management division, and installed as secretary was Mrs. Edward J. Haug Jr., wife of an officer in Rock Island Arsenal's Research and Engineering division.

Two of the military "first ladies" of the island were named honorary presidents of the Officers Wives Club... Mrs. William J. Durrenberger, wife of the Army Weapons Command commanding officer, general, and Mrs. H. A. Snyder, whose husband is Rock Island Arsenal commanding officer.

In addition to Mrs. Coffman, the outgoing officers were Mrs. Paul A. Simpson, vice-president; Mrs. David E. Pray, secretary, and Mrs. David Alabran, treasurer.

Ease up when there's a freeze up.

USING AN OVERSIZED gavel to emphasize the importance of the job, the new Rock Island Arsenal Officers Wives Club president, Mrs. Paul B. Schuppener, accepts the symbol from outgoing president Mrs. Howard B. Coffman as one of the club's honorary presidents, Mrs. H. A. Snyder, watches. Mrs. W. J. Durrenberger is also an honorary president.

OFFICERS CLUB ELECTS BOARD

Col. Joseph McKinney, U.S. Army Weapons Command's director of Procurement and Production, was elected president of the Rock Island Arsenal Officers Open Mess board of governors at a general meeting Friday, Feb. 10.

Reelected as members of the board for 1967 were Lt. Col. V. W. Carlson and Maj. Andrew C. Johnson. Again designated as financial advisor to the board was Capt. C. D. Jostad, RIA finance officer.

Also on the board is the mess secretary, 2nd Lt. James R. McBride.

New members elected include Lt. Col. H. A. Scheibler and 1st Lt. E. J. Haug Jr. Civilian advisors elected to the board were M. H. Ashcroft, Jack Swin and Ray Thomas.

A TIME TO DIE

Motion pictures, photographed at 1,000 frames per second, were made of an automobile striking a tree at 55 miles per hour, a speed most motorists consider safe.

A dummy driver was used in the photographed test crash.

On the following pages of this TARGET, we present results of that test in the timed sequence that occurred. For example:

... 1/10th of a second... Front bumper and chrome frosting of grill collapse. Steel slivers penetrate tree 1.5 inches.

Drive Safely

Self control comes before car control. Behind the wheel is no place to let off steam by reckless speeding or showing off. Remember, haste in traffic can be deadly.

Colonel Drennen

'BIG PICTURE' NOW ON WHBF

From depictions of historic moments in the U.S. Army's proud history, to up-to-the-minute coverage of present day accomplishments and action, that's the story of "The Big Picture," a half-hour television program currently scheduled over a local station.

Officials of WHBF-TV, Channel 4, Rock Island, said that "The Big Picture" is scheduled each Sunday at noon for four consecutive weeks beginning March 5.

Although no information is available as to the titles of "Big Picture" that will be shown, there are at least six episodes that feature the work of the U.S. Army Materiel Command, of which U.S. Army Weapons Command here is a major sub-command.

"Lifetime—The Difficult Task of AMC," is the story of supplying our forces at home and abroad. "No Margin for Error" is in production with AMC film shot in Vietnam and is expected to be released in a few months. "Firepower for Freedom" is the story of the Army Munitions Command.

Others are: "A Soldier's Warranty," the story of TECOM; "Double Dividend," the story of ECOM, and "The Army's Floating Workshop," in Cam Ranh Bay with AMC's repair unit.

Receives Award

Clarence D. Sherwood, a hydraulics branch engineering technician with the Corps of Engineers, was presented a Sustained Superior Performance Award by Col. Howard B. Coffman Jr., district engineer, on Jan. 19.

"... only presidents, editors and people with tapeworm have the right to use the editorial 'we'..." Mark Twain.

by PAUL GOLDBERG

EVA SCHAEFFER COLLECTED her bet against the TARGET editor last week. Here's the proof. Eva is sitting in the Post Cafeteria, enjoying one of its luncheon specials, while we check to see that there are enough funds for the repast. Deliberately she kept us in our fowl mood and ordered chicken while we ate crow.

Although any of the photographers in the RIA Lab do the picture-taking for the TARGET whenever we need them, lately Bob Devore seems to have been on most of the assignments. However, he is down in the sunny climes of Florida involved in the NASCAR races there and almost all the pics in this issue were taken by Ray Culley.

Let us slip out of character for a moment and publicly thank all of them for their cooperation and work, especially when faced with deadlines, gigglers, no-shows, and muggers. We feel that the picture quality of shots appearing in recent issues of the TARGET have shown much improvement.

Added Armament

Possessing the most modern and efficient weapons and equipment known, superbly trained by skilled, dedicated leaders, the men of our Armed Forces today are better prepared to combat enemies of our way of life than ever before.

But weapons and training are not enough. Each fighting man must also be armed with determination, confidence and dedication. These additional factors guide and govern the behavior of the serviceman in combat. They are the foundation for the Code of Conduct of the U.S. fighting man.

The Code is a reflection of the lives, deeds and valor of Americans who have faced the horrors of war in every conflict in which this Nation has been engaged.

The Code is built with individual faith in our Nation and upon each individual's knowledge of the fundamental precepts of our democratic system and institutions. It is held together with pride in service and respect for national, military and unit history and traditions.

Encompassing all this is the determination to defeat our country's enemies no matter what hardships must be overcome; the confidence that we are morally right to succeed in our cause; and the dedication to pay whatever price necessary to safeguard our country.

These are the things that have, throughout our history, made our Armed Forces the finest in the world and have stirred our men, despite overwhelming odds, to defend a position or gain an objective; given them strength to survive the harsh treatment of POW camps with honor and dignity; care for their fellow prisoners and make miraculous escapes. They have faced death bravely and with honor, firm in the belief their cause is just.

Citizens-soldiers and professionals alike have given meaning to the words, "I am an American fighting man. I serve in the forces which guard my country and our way of life. I am prepared to give my life in their defense."

Too Close for Comfort

With the increasing use your knowhow and driving of turnpikes, expressways, freeways and the growing congestion of ordinary traffic, rear-end collisions are becoming more frequent and severe every day. John LeFever, RIA safety director, warned. The tragedy is that rear-end collisions whether on superhighways or ordinary streets are easily prevented.

The rule of "one car length for each ten miles per hour" and one and a half or two for slippery conditions is one of the most effective defenses a driver can take.

There are, however, several other safety procedures required for close driving. Driving at close quarters leaves no margin for defective equipment or careless driving habits.

With a cushion of only a few feet on each side and a few score feet to the front and rear, a pulling brake, defective tire, faulty steering or similar defect can be deadly.

On many freeways, whole driving populations drive much faster and at closer intervals than is safe. Congestion does occur! Until control methods solve this problem, you will have to live with it by increasing

your knowhow and driving alertness. The safety director gave the following rules to observe to avoid those rear-end collisions:

Watch cars behind you. If one of your "followers" is too close, help him pass.

Stopping or slowing actions should be made as obvious as possible as soon as possible. Let other drivers know what you intend to do before you do it.

Lane changes should be signaled, regardless of where or how distant other cars may be.

Check the situation as far ahead as possible. This will give you decision-making time.

Watch other drivers for every sign of their intentions to slow, turn or stop.

Give driving your 100% attention. Remember, the car ahead always has the advantage because he can see the emergency first and may brake hard, instantly cutting your following distance.

USE THE WANT ADS

Auto Talk

by Werner A. am Ende

There is probably no single item that can be as irritating to the motorist as a set of malfunctioning spark plugs. To add insult to injury, they need not be worn out to cause trouble.

Unless the plugs are of the proper heat range, most unsatisfactory performance may be experienced in the form of intermittent jerking and engine miss.

Plugs will normally last around 10,000 miles in the modern high compression engine. This means they should be cleaned around 5,000 miles for efficient operation.

Generally, the manufacturer provides your car with plugs for "average driving."

Say you drove 80% in the city and 20% in the country and the car manufacturer recommended AC-44s. It may be to your advantage to replace the originals with hotter plugs.

You see, a hotter plug is best for a lot of stop and go driving—a colder plug for sustained driving.

Your plugs also double as a most efficient engine analyzer.

A sooty oily plug means either poor rings, rich fuel mixture, too much stop and go driving or cold plugs. Light grey deposits and burnt electrodes could mean "hot" plugs.

As a parting thought, next time you change plugs, look at 'em real good—they'll tell you more than the most modern electronic engine analyzer.

Discuss the business end of these "critters" with a reliable mechanic, and it

PROCUREMENT ADMINISTRATION

... is the theme of March for the special suggestion campaign to improve service to the public.

Our buying program is one of the major contacts we have with the public ... and all employees are encouraged to submit suggestions on how we can improve our image with companies doing business with the government.

Perhaps you can think of ways to speed up or eliminate any of the bureaucratic process—and still protect the interests of both the merchants and the government.

In this special suggestion campaign, your adopted suggestions may earn for you—cash awards and bonus prizes. Constructive suggestions are also solicited on any other government operations.

SUGGEST!!

A TIME TO DIE

... 2/10ths of a second ...

Good crumples, rises, smashing into windshield. Spinning rear wheels leave the ground. Fenders come into contact with the tree, forcing parts to splay out over the front door. Driver's body continues to move forward with a force 20 times that of gravity. His body now weighs 3,200 pounds. His legs, held straight out, snap at the knees.

The most dangerous spot on the highway is where you takes your eyes off the road.

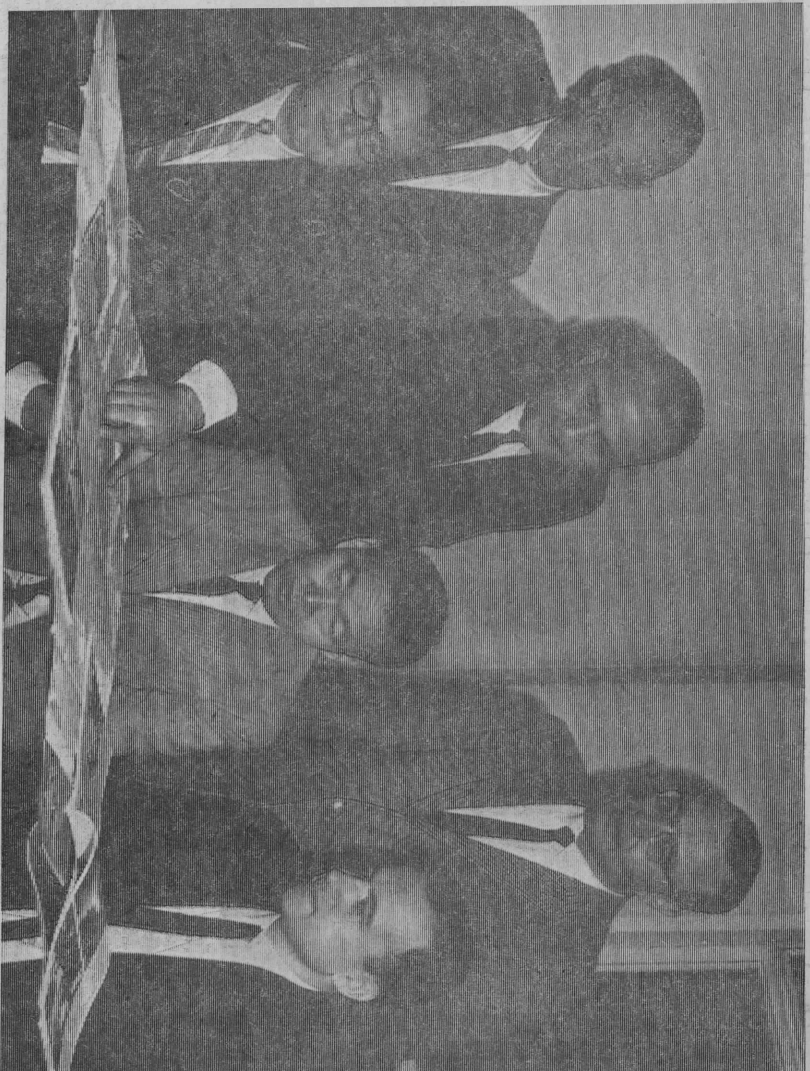

THE SPARK PLUG on the right ignites the mixture in an engine to cause it to run fast. Sue Gilmore does the same to a young man's heart and pulse ... and spring is closer than you think.

Arsenal Target

The Arsenal Target is published every other Friday. Editorial material for publication in the Target will be received only through the information Office, Army Weapons Command, Building 390, Rock Island Arsenal, Ill. Telephone 794-6754.

All advertising copy and payments will be received by The Herald, 822 15th Ave., East Moline, Telephone, 755-5224. The deadline for copy and advertising matter is the Tuesday before publication.

The Arsenal Target is distributed free of cost to all personnel at Rock Island Arsenal. Mailing arrangements, at \$4.50 per year, may be made with the publisher, The Herald. Retired Arsenal personnel may subscribe for \$3 per year.

THREE OF THE "OLD GUARD," standing, help some new faces on the Arsenal scene get acquainted with the area as (rear) Don Sonme/ille, Tom Hogue and Don Dresser show William Sarabacha, Dick Ede and Dave Evans maps of the Quad-Cities.

MOVES PROVE CAREER PROGRAM REALLY WORKS

"Off with the old and on with the new" is almost the way the Department of Army's Civilian Career Program works. But actually it is more of a way of furnishing careerists with incentive to continue learning and adding skills to help themselves and our national effort.

Recently six local employees were directly involved in moves almost simultaneously that emphasized the career program. Don Dresser, a 15-year veteran, is leaving his job here as a Rock Island Arsenal personnel management specialist and will go to First Army Headquarters.

Don Dresser, a 15-year veteran, is leaving his job here as a Rock Island Arsenal personnel management specialist and will go to First Army Headquarters.

The Army-wide career management program is designed to help careerists advance their careers with the Army.

Key element in the program is the registration and referral process. Registration is handled by a central automated records system and referral enables the careerist to compete for positions at various command levels.

'BERET' TALKS TO OPTIMISTS

Scheduled to speak before the Davenport Optimist Club next Friday, March 17, is Capt. Antone Remich, a former Vietnam "Green Beret," and now with the U.S. Army Weapons Command's Combat Vehicles project manager office here.

The meeting of approximately 175 persons will be in the Gold Room of Davenport's Blackhawk Hotel.

Captain Remich said he will speak on the same subject he discussed with the Davenport Kiwanis Club last month, "The 'Little Man's' Feelings of the War in Vietnam."

Captain Remich speaks about first-hand knowledge and personal experiences of the Vietnamese peasants and farmers. His talk is about their daily fears, frustrations and anxieties caused by their treatment from the Viet Cong in the battle-torn country.

Captain Remich

Receives Award

Mrs. Hulda Hartkop, a finance and accounting branch accounting technician with the Corps of Engineers, was presented a Sustained Superior Performance Award by Col. Howard B. Coffman Jr., district engineer, on Jan. 19.

Fete Director At Banquet

At the Headquarters Army Weapons Command-Rock Island Arsenal Chorus' annual banquet Friday in Davenport, director Wibbey Fisher was singled out for "his outstanding devotion to the direction of the chorus."

General chairman for this year's affair was Sue Swift. She was assisted by Jean Robbins, Darlene Mencke, Alice Lea, Merle Kirby, and Bob Williams.

Emceed by Joe Grear, the program included entertainment by the Multichords and the Chord Teasers quartet. Also songs by Sherrie Lainge, former Miss Davenport and a runner-up in the Miss Iowa contest. Miss Lainge was accompanied by Danny Roman.

Among the guests at the affair was the Army Weapons Command commanding general, Brig. Gen. William J. Durenberger and his wife, and the Rock Island Arsenal commanding officer, Col. H. A. Snyder and his wife.

Other guests were the RIA deputy for Equal Employment Opportunity and Civilian Welfare Fund custodian, Ray Reese, and Mrs. Reese, and Grace Beeler, former chorus accompanist and now retired.

Caution, care, common sense, eliminate holiday accidents.

CIVIL SERVICE INCREASES PAY RATES FOR 250 HERE

Higher pay rates for some 250 engineers and scientists employed by Headquarters Army Weapons Command, Rock Island Arsenal and tenant agencies on the Island have been approved by the U.S. Civil Service Commission.

The increases range from \$379 to \$945 per year based on the grade of the employee. It was put into effect to help federal agencies meet the salary compensation of private employers and recruit and retain well-qualified persons in these shortage categories.

All employees holding engineering and architectural

jobs in grades GS-9 through GS-12 will benefit from the rise. Others included here are physicists, chemists, mathematicians and mathematical statisticians as well as some employees in operation research.

The new rates, which apply to workers on the rolls as well as prospective employees, went into effect at the start of the first pay period after Feb. 1.

HQ AWC officials said they estimate a local yearly payroll increase of about \$150,000. They also estimate there are 50 job vacancies in these areas and indicate new openings occur regularly.

GRADE	FORMER SCALE	NEW SCALE
GS-9	8,479-10,828	9,001-11,350
GS-10	8,709-11,301	9,573-12,165
GS-11	9,536-12,371	10,481-13,316
GS-12	10,927-14,338	11,306-14,717

"LOVE THE WAY MY NEW GAS DRYER 'IRONS' PERMANENT PRESS CLOTHING!"

- Easy-to-operate Precision Controls!
- Weatherproof Washdays!
- Saves You Time... and Work!

Modern fabric cycles on new gas dryers are especially designed to keep the permanent press clothes promise of "no ironing ever." First, they fluff out wrinkles with just the right amount of heat... then they keep clothes in motion while they're cooled. That's the secret of flat seams... sharp creases... and a just-ironed look. Choose a new gas dryer with modern fabric cycles.

Radio Free Europe

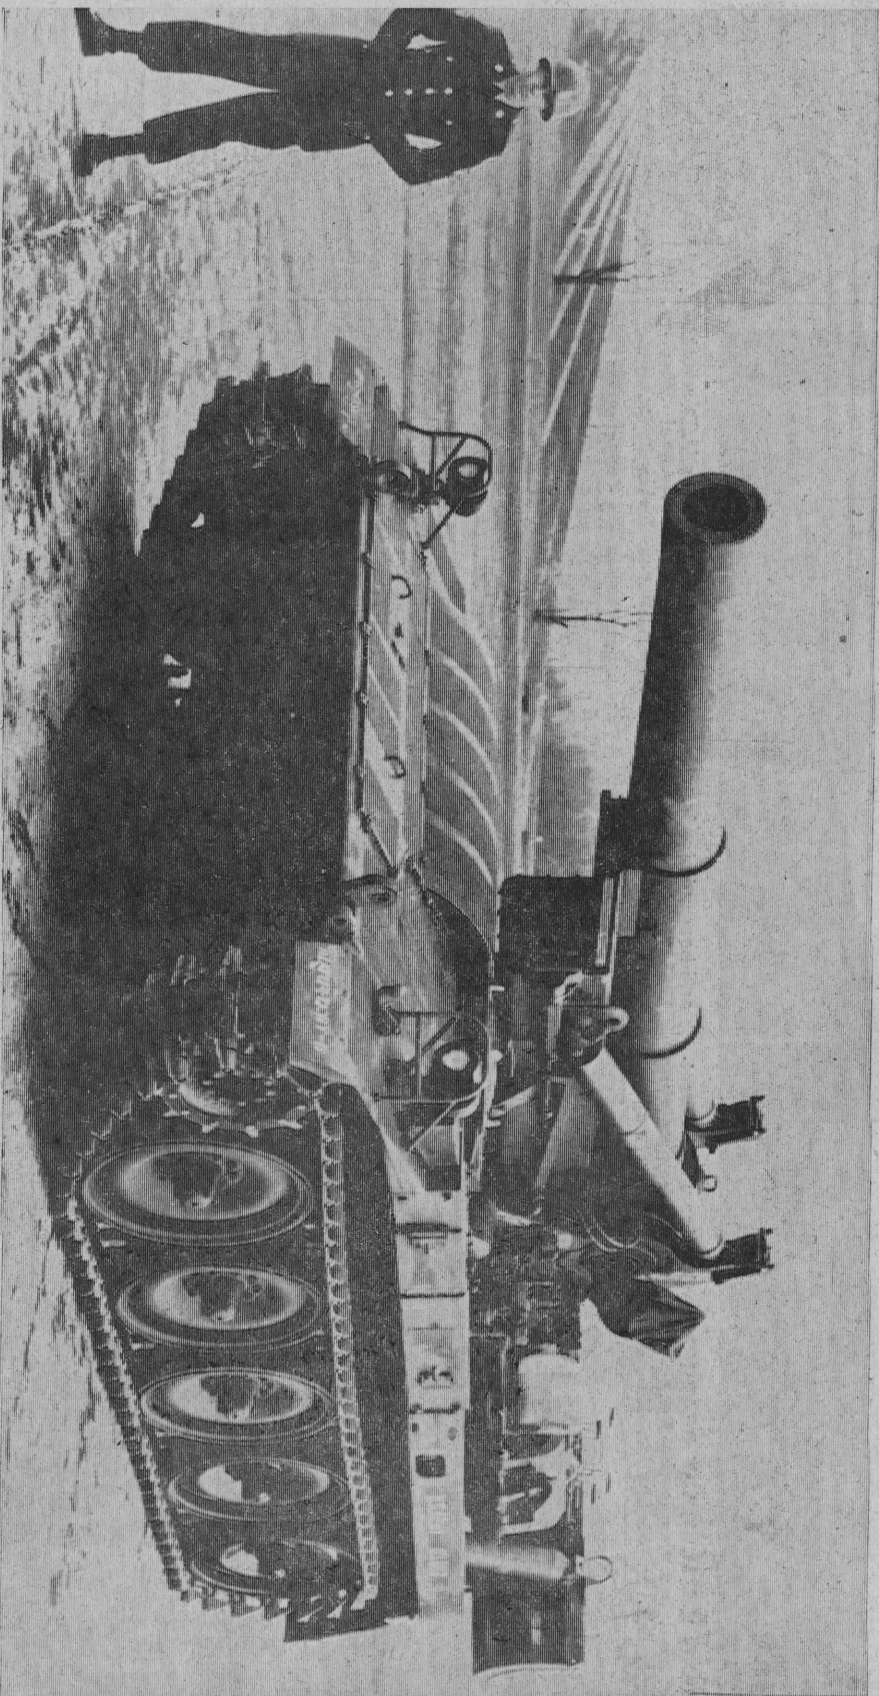

Radio Free Europe has played an important part during the last 16 years in the fragmentation of Communism in East Europe. Thanks to RFE's daily programs, 83 million inhabitants are no longer deprived of full access to the truth. With information acquired over the RFE network, East Europeans are making knowledgeable demands from their Communist governments and are obtaining greater personal freedom and economic concessions.

You can't stop on an icy dime.

BACK IN 1895, that was 72 years ago, this 7-inch Siege Howitzer was known as a "mighty weapon." Displayed proudly at Rock Island Arsenal the weapon became mobile when mounted on 60-inch diameter, wrought-iron wheels that

weighed 335½ pounds each. The horse-drawn, breech loader weighed 6,950 pounds and had a muzzle velocity of 1,085 feet per second.

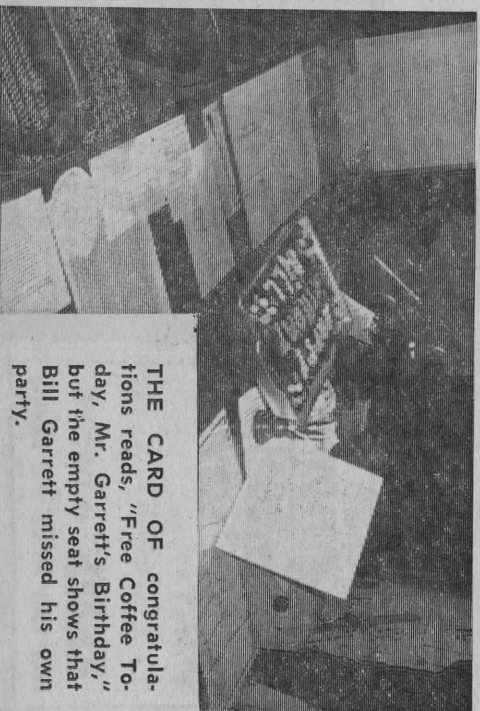

ONE OF THE U.S. Army's "mighty weapons" today is the 8-inch M110 Howitzer, a self-propelled, tracked vehicle that tips the scales at some 30 tons, and still manages more than 34 miles per hour powered by a General

Motors diesel engine. Also a breech loader, this "mighty one" has a muzzle velocity of 3,000 feet per second. —Produced by Ed Lowenberg, SWERI-SM.

Bull's Eye

Last Thursday morning all was ready for the birthday party . . . the cake was there, the friends were there, the traditional card of congratulations was there . . . the coffee was there . . . but **Bill Garrett**, of Project Manager, Rifles, wasn't. Boy, talk about surprise parties . . . this time the guests were surprised because the "birthday boy" was the one who didn't show up.

THE CARD OF congratulations reads, "Free Coffee Today, Mr. Garrett's Birthday," but the empty seat shows that **Bill Garrett** missed his own party.

Straight and true sped one of Cupid's arrows on St. Valentine's Day as **1st Lt. Harry E. Holloway** and **Pat Yenger** announced their engagement. The lieutenant is special assistant to the Army Weapons Command chief of staff, and Pat is a secretary in the Rock Island Arsenal Administrative office.

* * *

Evelyn Clemons, who works in Shop M's machine repair, is a pretty young lady who happens to also be interested in the Sweet Adeline-type singing groups . . . being a member of the local Sweet Adeliners. Two weeks ago the group performed at the Davenport Masonic Temple and a film clip of the event was shown a few days later over one of the local television stations. Next Saturday, March 4, groups of singers from all over the U.S. will perform at the Temple.

Did we say pretty? She was standing near the Col-

iseum Ballroom entrance during the Sweetheart Ball and many persons thought she was already one of the winners.

* * *

Just back from his fourth tour in Korea, and this time with his bride, the former **Duk Chung Ko**, is **MSGT. Joseph A. Ickowski** of Michigan. He's been in the Building 299 Receiving section since late November. The 22-year service veteran first went to Korea in 1953. Then another tour of 15 months in 1960, back here for three months, Korea 28 months, home 18 months, and finally the recent 13-month tour.

* * *

Ron Rohert of AMSWE-PT's training division, is now a reporter with the Davenport Times-Democrat, according to a note from the division reporter. His former co-workers gave him a luncheon before he left.

* * *

New in AMSWE-PT's military personnel division

is **Loren Lieske**. He's not new to the Arsenal because he used to work in RLA's Research and Engineering Division.

* * *

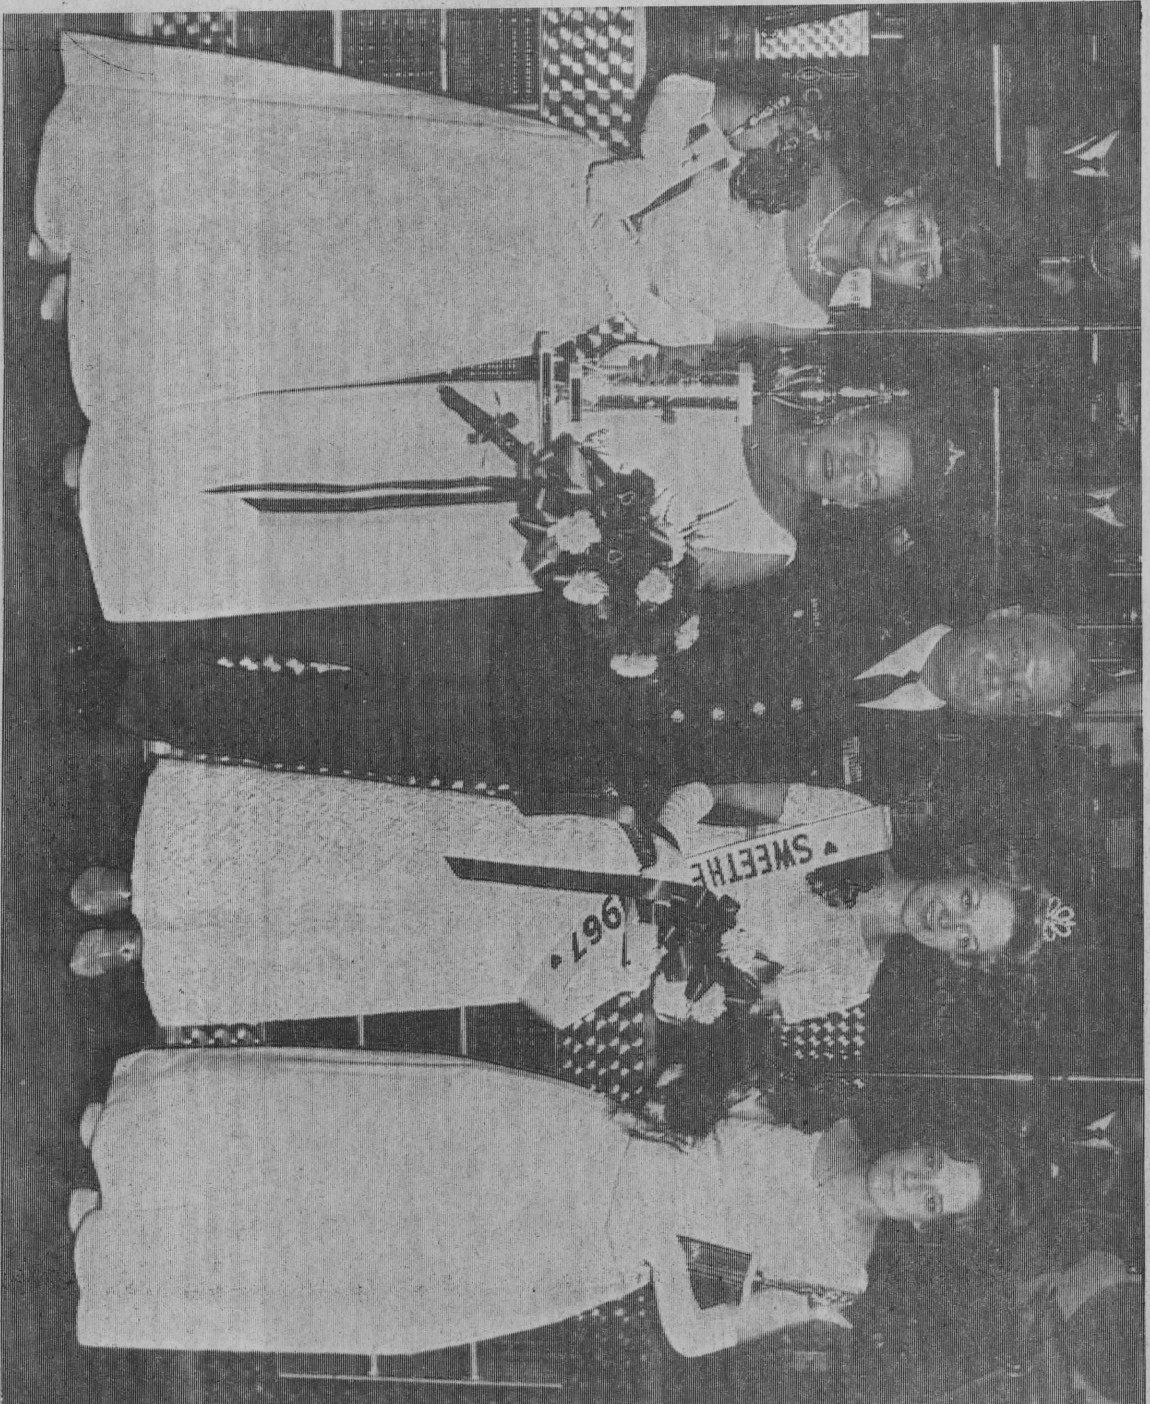

Bonnie Ullrich of the Installations and Service Agency, announced her engagement this month to **Bob Harksen**, a drafting trainee at SWERI-RDE. Bob's father, **Don Harksen**, works in SWERI-RDL.

* * *

Frank Zecchini, the Fearless Frank of TARGET and Notre Dame football fame, is a patient in Davenport's Mercy Hospital, following surgery Tuesday. He's in Room 406 in case anyone would like to send him a card that would be appreciated.

* * *

Two U.S. Army Production Agency employees are the latest recipients of 1,000-hour sick leave certificates — **Harold Vessells** and **Kathryn McDermott**.

ADDING HIS MILITARY BEARING to the line-up of Sweetheart Ball beauties is the Rock Island Arsenal commanding officer, Col. H. A. Snyder. He had just presented trophies

and bouquets to, from left, second runner-up Judy McDermott, 1967 Arsenal Queen Stella Tillotson, 1967 Arsenal Sweetheart Connie Morford, and first runner-up Linda Schoenthal.

Pre-Retirement Meetings Set

More than 225 Arsenal Island employees and their spouses are expected to attend the second series of specially designed Pre-Retirement Programs starting March 7.

One group will meet March 7, 14, 21, 28 and April 4... another group will meet March 9, 16, 23, 30 and April 6. Both groups begin their sessions at 7:30 p.m., in the Training Branch Auditorium, according to B. G. Williams, course coordinator, RIA training and development branch.

Topics will range from geriatrics to the wise use of leisure time during retirement, said Mr. Williams.

Speakers will include Col. H. A. Snyder, RIA commanding officer; Dr. Ruth F. Rominger, M.D.; Irene Rogers, SWERI-PTE; Coy Maze, director, Social Security Administration district office; and Harold Altermatt, SWERI-CPP.

Other speakers will be Jean Bliese, Smead-Bliese and Associates; Bruce Balch of Riedy, Katz, McAndrews, Durkee and Telleen law firm, and Luella Birks, director, Moline Senior Citizen's Center.

The initial seminars were held last November and December. Two new booklets are available for those who attended the first session "Are You Planning on Living the Rest of Your Life," and "You, the Law, and retirement."

The pamphlets are published by the Administration on Aging of the U.S. Department of Health, Education and Welfare.

Former attendees may obtain the booklets by writing "Pre-Retirement," with their name and office symbol on a sheet of 8" x 10½" paper and sending it to SWERI-PTT. "Write legibly," asked Mr. Williams, "the paper will act as the mailer."

COLLOQUIUM

SET TODAY

Another in a series of proposed colloquiums is set for 1 p.m. today in classroom 4 of building 60, according to 1st Lt. Edward J. Haug Jr., of Rock Island Arsenal's Research and Engineering division.

The meeting, normally open to local area scientists and engineers also, will include only Headquarters Army Weapons Command and RIA personnel, because of the meeting's classification.

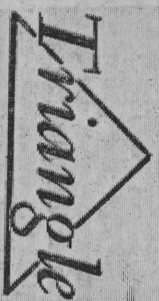

Leader of the discussion meeting will be Thomas Honeycutt of Redstone Arsenal, and the topic is "Lasers and Their Applications."

On Feb. 15, approximately two dozen scientists and engineers from the Arsenal and the Quad-Cities met and discussed "Hybrid Rocket Techniques." The speaker was Eugene Miller

FIREMEN SET BALL IN MARCH

Final plans have been formulated for the Rock Island Arsenal's annual Fireman's Ball, according to a spokesman from the RIA Firefighter's Union Local F-5, sponsors of the event.

The dance will be at the Moline Danceland Ballroom on Saturday, March 25. With music by Hy Morgan and his nine-piece orchestra, dancing is scheduled from 9 p.m. until 1 a.m.

Highlight of the evening, said the spokesman, will be the door prize selection, a portable television set. Admission tickets to the dance are available from any of the Arsenal firefighters, but table reservations are required, "so get them early," said the spokesman.

PROUD OF THE PORTABLE television set that will be awarded as a door prize at the Rock Island Arsenal's Fireman's Ball is RIA Firefighter Gary Wilharber. He is also president of the RIA Firefighter's Union Local F-5, sponsors of the annual event.

CHIEF ON PANEL

Forty fire chiefs from departments throughout Illinois held a planning meeting in the University of Illinois' Illini Union Building last month. Rock Island Arsenal's Fire Chief Farrel Jordan was among them.

The chief will be a member of a panel discussing Fire Department Administration at the 43rd annual Illinois Fire College, for which purpose the planners met.

Chief Jordan will sit with City Manager Browning of Champaign and Moderator Marvin Austin of the Illinois Inspection Bureau to answer the questions of some of the expected 700 attendees.

The chief's appearance will be on Saturday, June 10th, the second day of the four-day college, on the university campus.

Take your time in winter time.

Some Attend Workshops

A number of Headquarters Army Weapons Command, Rock Island Arsenal and tenant agency employees attended a pair of Army Materiel Command workshops last week in Cincinnati, Ohio.

On Feb. 14-15, they attended OPTIMUM, obtaining productivity through improved modernization facilities and updating maintenance methods, tools and equipment. On Feb. 16-17 they attended PRIMES, productivity integrated measurement system.

Dave O'Melia, AMETA, made a presentation on a proposed work measurement council.

Others were Herbert Bethrum (AMSWE-SMMO), Merle Kruse and Dale Helzman (AMSWE-MSI), Robert Dorman (SWERI-PPE), Wilbur Hass (SWERI-MS) and Ken Bridgford and Jim Carstens (PEQUA).

Once upon a time...
or...
the
REC-CHEK
fable

There once was a
businessman... a
happy businessman.

That is, he was happy most of the time, except when he had to unsmile his books and records at tax time. Finally, one cold March day, when all his receipts, checks, and interest records were more hopelessly entangled than ever, he decided to run away.

He hadn't gone far when he met a strangely-assorted group of men—all with big, happy smiles. He stopped to ask: "How can you look so happy at tax time?" Whereupon, the group began to dance and chant: Rec-Chek... Rec-Chek... Rec-Chek... Rec-Chek... Rec-Chek... Rec-Chek...

The businessman was so fascinated... he forgot he was running away. He looked at all these men more closely. There was a butcher... a baker... a candlestick maker... a doctor... a lawyer... a snakecharmer... a farmer. Even an Indian chief! Suddenly they stopped dancing, and began walking

again. So, the businessman followed. He thought: "Surely I can be happy again if I just follow them." Finally, the men came to a brick building and entered. He noticed the building had a big N W in front. It was a bank! It was Northwest Bank and Trust Company! Exhausted, he opened the door... fell on his knees and muttered: Rec-Chek... Rec-Chek... Rec-Chek... Rec-Chek... Rec-Chek... Rec-Chek... Now the businessman is "Happy Ever After"... and, do you know why? Because the helpful people at Northwest Bank told him this:

You always know where you stand financially with Rec-Chek. Precise monthly statements give you complete details of income, expenditures by category, year-to-date totals, and transaction totals by category. All the information you'll need at tax time, too. Why don't you "get happy?" Stop in or call Northwest Bank today and get all the facts on exclusive new REC-CHEK.

Parker In Print

Our Sweetheart Ball was certainly a lovely success. It not only is one of the prettiest social events in the Quad-Cities but is fast becoming the Arsenal's social highlight of the year. All contestants were beautifully gowned and coiffured and when the

votes were counted, diminutive Stella Tilloson was chosen to reign as our queen, and pretty Connie Morford as our sweetheart for the ensuing year. Lovely entrants, wonderful attendance, good music—Yes, there is no doubt about it—it was a very successful Ball.

Rap, rap, rap, everybody's attention now. Today is Les-son Day! Don't be frightened, however, it will be practically painless and, I hope, profitable for everyone.

With advances being made nowadays in so many new fields; with news media presenting us daily with stories of efforts and negotiations being made to bring peace to our world and what is happening in this world of ours; with so many more of us being called on to write reports or make speeches (or even to just plain converse intelligently) it is becoming increasingly important for us to enlarge our vocabularies.

If I were to take one or two words every once in a while and include them in this fortnightly offering, how would it please you? I think it's worth a try.

I will select a word, if you already know it—fine; if you do not and can use it, you will experience a great feeling of accomplishment. Should this new venture meet with your approval, I

shouldn't be adverse to your letting me know (Ext 6192).

Here are two words for you: **Deploy**: To spread out, to extend the front and reduce the depth (as with troops). **Proliferation**: Rapid growth. (A word used by reporters a lot meaning increasing troops.)

* * *
Humor (?) Overheard in conversation about taxes: "It's a good thing that I've got a little money saved so that I can afford to work this overtime"!!!!

* * *
Here's a recipe the editor received from Mrs. Marie Montz of Muscatine in answer to his recent losing wager.

Barbecued Scalloped Potatoes

Five pounds potatoes (sliced), two medium onions (sliced), one pound American cheese (diced), two teaspoons salt, one-quarter cup butter (or oleo), four and one-half cups scalded milk, one-half cup catsup, one teaspoon tabasco sauce and four tablespoons chopped parsley (can be dry).

Put half the potatoes and onions in a large, shallow baking pan. Sprinkle a little flour on these and then half the cheese and salt and then dot with butter. Top with the remaining potatoes and onion.

Combine milk, catsup and tabasco and pour over mixture. Top with remaining cheese, salt and butter and then sprinkle with parsley.

Cover with a cookie sheet or foil and bake for one and one-half hours in a 350 degree oven. Serves 20 hungry ones.

Gets C-E Award

Frank Phelan, an equipment repairer at Lock and Dam No. 14, LeClaire, Iowa, received a \$25 suggestion award for recommending that limit switches be installed for controller lock valves. He is with the Corps of Engineers.

HOPE Gives Hope

DEATH MARCH SURVIVOR TO RETIRE FROM ARMY

COLONEL DAVIS

The Army Materiel Command project manager for Combat Vehicles at Headquarters Army Weapons Command, here, Col. Thomas W. Davis III, will retire from the Army Tuesday after 26 years of military service.

Colonel Davis, a survivor of the Bataan Death March after being captured on Corregidor in 1942, will be presented the first Oak Leaf Cluster to his Legion of Merit in a ceremony the day of his retirement.

Making the presentation in his office will be Brig. Gen. William J. Durrenberger, AWC commanding general.

A graduate of Vanderbilt University in 1935 and the U.S. Military Academy in 1939, Colonel Davis has been in his present assignment since September 1964.

His Legion of Merit citation reads that he repeatedly demonstrated exceptional ability in the management of the M14A1 armored carrier, XM729 tank, Vehicle Rapid Fire Weapon System, XM701, XM723 and XM733 vehicles, and the M109, 155mm howitzer through production and delivery to the field.

The citation continues, "Through his selfless devotion to duty and vast personal effort, he met all delivery schedules and effected a constant reduction in cost for those vehicles in production."

In addition to the Legion of Merit, the colonel also

SQUARE-ROUND DANCERS MEET HERE NEXT MONTH

The fifth annual Iowa State Square Dance Convention will be held at Davenport's Hotel Blackhawk on March 17 and 18.

Bettie Johnson, a secretary in the Hq Army Weapons Command Office of Information, is a representative of the Quint-Cities Federation of Square and Round Dancers. She said that there are dozens of AWC and Rock Island Arsenal employees who belong to area clubs.

The convention agenda will include "plenty of square and round dancing" said one of the Arsenal club members. Dancing is scheduled from 8 to 11:30 p.m., Friday, and on Saturday from 1:30 to 11:30 p.m., with a two-hour break from 4:30 to 6:30 p.m.

In addition, a workshop to teach new steps and figures will be held Saturday morning from 10 o'clock until noon, and afterparties will follow the dancing on both nights.

Two leading Island exponents of the square and round forms of dancing are Betty Grinstead and Ed

Receives Award

Mrs. Irene Roach, a finance and accounting branch accounting technician with the Corps of Engineers, was presented a Sustained Superior Performance Award by Col. Howard B. Coffman Jr., district engineer, on Jan. 19.

PLAN MEETING

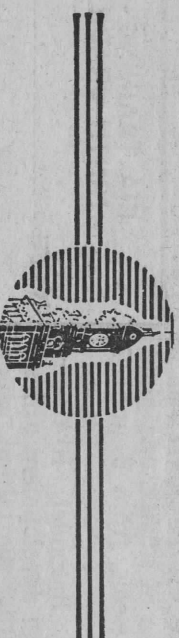

The regular quarterly meeting of the Ordnance Service Club will be held in the Post Cafeteria next Friday, March 3 at 8 p.m.

William M. Meitzen, club vice president, said that refreshments will be served following a short business meeting and program.

The meeting is open to all government employees with 15 years or more of service.

For further information about the convention, call 355-6770 or 391-4580.

Hospitals are always crowded by accidents that couldn't happen, but did.

DID YOU KNOW?

That many of your fellow workers never see their paychecks?

They have left instructions with their payroll department to forward their paycheck directly to Davenport Bank.

Upon receipt of their check, WE, in turn, apply their necessary payments to a mortgage loan . . . personal loan . . . Christmas Club . . . deposit to their savings account . . . and the balance goes into their checking account.

Pretty smart, wouldn't you say. They never have to worry about losing their checks — saves time — payments are made on time — receipts are mailed to them immediately — PLUS, increasing their savings account for something worth while.

Why don't you do the same! Contact your payroll department today — tomorrow at the latest.

You'll be glad you did!

OFFER HS ALGEBRA IN 10-WEEK COURSE

If you are interested in refreshing your knowledge of basic Algebra, or picking up the knowledge you may have missed in high school, then your chance has come.

The Rock Island Arsenal training branch has teamed up with the Rock Island Public Schools Education Program and will offer a 10-week course in Ninth Grade Algebra beginning around March 20.

The first-year Algebra course will be offered on a choice of nights, one night per week, from 5 until 7 p.m.

Al Broendel, RIA employee development officer, said that the tuition, which

will be used to defray the cost of instructor's salaries and purchase the necessary text book, "will be less than \$10."

The form (on this page) should be filled out completely and sent to SWERL-PTT before March 14. It should be attached to an 8" x 10" paper.

Interested persons are asked to indicate a first and second choice of nights by making a (1) and (2) in boxes above the days of the week indicated.

PHIL HERMANN, a bowler on the league-leading Kleen King team of the Rock Island Arsenal Men's League, is the new high individual game leader after bowling a 266-game last Monday, Feb. 13. He missed a 600-series by one pin by adding games of 173 and 160.

A holiday is a time to give, but not your life. . . . Don't take a life.

51-A-CARTON CIGARETTES OFFERED AS VN PRESENT

When popular brand cigarettes can be bought for less than a dollar a carton . . . that's news. And when those cigarettes are presents from you to the fighting men in Vietnam . . . that's even more important.

Capt. Antone Remich has been back from the war zone in Vietnam since August 1966, but he still remembers how hard it was sometimes for the soldiers up front to get the brand name cigarettes they wanted.

But he found out how they can get all they want and is willing to share his knowledge with all Arsenalites.

Tax-free, regular-size cigarettes may be sent as gifts to individual members or units of the U.S. Armed Forces overseas, for \$4.82 per five-carton order, the minimum that may be sent. Tax-free, king-size, men-

thol or filter-tipped cigarettes may be sent for \$5.01 per five-carton order.

There is no maximum amount that may be sent, and they do not have to be sent to individuals . . . they can be sent to a unit, or if no particular designation is made, the overseas USO will distribute them to units in Vietnam.

Each package of cigarettes sent this way will have a special label inserted which has the donor's name and address imprinted on it. The red, white and blue insert includes the admonition, "U.S. tax-exempt for use outside the U.S., Not To Be Sold."

Captain Remich, who is with AMSWE-SAV, said he would be glad to give information about brands and mailing instructions to anyone who is interested. Call him at 6516 or after duty hours at 324-2407.

He added he would be glad to accept any donations for the gift-giving idea, from those who "find the idea interesting but can not afford to buy the minimum five-carton offer." He said that he would accumulate these "and send them overseas in the name of Headquarters Army Weapons Command and Rock Island Arsenal."

A TIME TO DIE

... 7/10ths of a second . . .

GERALD WEBER, a member of Team 11 of the Rock Island Arsenal Mixed Bowling League, topped the rest of the league Jan. 26 with a 611 series. His games were 210, 219 and 182.

The entire body of the car is forced out of shape. Hinges tear, doors spring open, seat rams forward pinning driver against steering shaft. He is dead.

FIVE OF THE YOUNG ladies in the project manager, Sheridan, office, get help with their entry blank in the All-Arsenal Bowling Tournament. At the desk is committee member Edith Jacobs, helping, from the left, Mary Bloomingburg, Ellen Doyle, Cheryl Woner, Barbara May and Sonja Trone.

TARGET SPORTS

Deadline Approaches For Team Tournament

Two more weeks remain before deadline time to get entered in the All-Arsenal Employees' Team Bowling Tournament, reminded tournament officials this week.

Back to defend their titles are the winners of both the men's and women's divisions of last year.

Calling themselves the "Defending Team," so that one and all will be motivated, the women are Betty Benker, Patty Conwell, Mary Haubell, Syl-

via Neirnick and Bobby Evans.

The men's 1966 champs are from 2nd floor, Shop M. They are: Tom Yeager, Don Chamberlin, Pete Lehman, Frank Davis and Dick Hennig.

A member of the tournament committee said that there is a shortage of scorekeepers for the meet that will be held the weekends of March 18 and 25 and April 1 and 8. He added that each team is requested to bring a scorekeeper to work the games . . . or that the team captain will be responsible for scorekeeping.

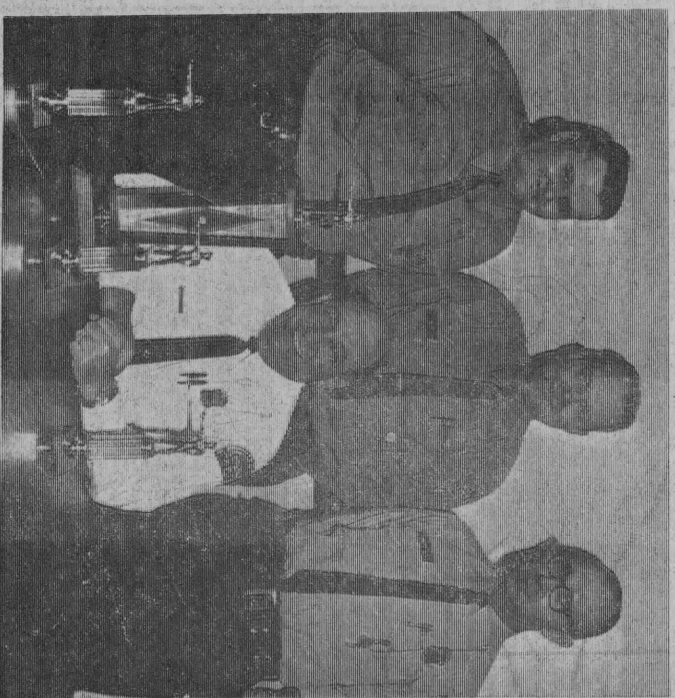

There was also a clarification of one of the rules of the tournament made; the rule that no more than three team members may bowl together on more than one team.

An interpretation of the rule explains that "three members may bowl on more than one team, but not four members."

Entry blanks are available in the Post Cafeteria or from any of the tournament committee members listed in the last two issues of the TARGET.

Drive Safely

In bad weather driving, your best defense is your ability to keep moving, see clearly and stop safely. Make sure your windshield wipers and defroster can keep the windshield clear in a snowstorm. Make sure your windshield washer is filled with antifreeze.

MEMBERS OF THE Rock Island Arsenal's Police Pistol Team pose with the first-place marksman trophies they just received for winning their class in the Summer Inter-City Police Pistol League. Seated is Capt. William Gharrett. Standing, left to right, are: Sgt. Larry Killian, Patrolman Conrad A. Mack and Patrolman Jack D. Valentine.

TOP MEN'S TEAMS BEAT .500 MARK

Only the top six teams of the Rock Island Arsenal Men's Bowling League have won-lost records over .500 of the 12 teams battling over the 33-week season.

NOT SO QUIET ON C-E FRONT

In her note to the TARGET editor, Dorothy Ry-mars, league secretary of the Clock Tower Bowling League, said, "things have been awfully quiet."

But that's not what the members of the Survey and Civil Defenders squads would say. The Survey team was in fourth place at the end of last month and now they lead the rest of the eight-team race.

Survey had a 22-18 record then and won all eight points on Feb. 7 to make its record, 30-18. Former leaders Design and Reproduction both added only two points to their win column and slipped into second place, still tied with each other at 28-20.

Meanwhile the Supply squad managed to add six points that night and made the second-place knot a three-way deal.

As far as the Civil Defenders are concerned, they have yet to show the form that won them the first half championship. They had managed to get into fifth place for a week, but last time out were whitewashed and slipped down into seventh place.

The individual highlight of the Feb. 7 outing was a 207 scratch game by Patricia Daxon. She bows with Reports and her 143 average is fourth highest on the distaff side of the ledger.

The season is about two-thirds gone now.

On top is the defending champion Kleen King squad with a 124-60 record. The Kleen King men have opened a 16-point gap over the second-place holders by adding 12 points to their record in the past two weeks.

Tied behind the leader are the Falstaff and Lou's Tap squads. Both have identical 108-76 records. Lou's Tap having added eight points since the last reporting period, and Falstaff managing only six points in its win column.

Monday night, Lou's Tap swept its series over Falstaff.

Within striking distance in fourth place is the Mid-west Fence squad (104-80), while Drewry's (102-82) is in fifth place and A & R Stores (96-88) is in sixth place.

The second division of the league looks like this: Sparks (87-99), McKay's (86-98), Buchhorn (82-104), Fritden's (80-104), Officers (69-115) and H & H Motors (60-124).

Scoring Feb. 6 showed Kleen King with the high game and series for the night, 996-2814, and its leadoff man, Phil Hermann, setting a new high game mark of 266 included in a 599 series.

The leaders led again Feb. 20 with a 1010-2794 while Jim Brobson rolled a 642 series which included a 244 game.

Give to AKF

For only \$150 the American-Korean Foundation can provide the material and instruction to help a refugee Korean family build a home of its own. Help the AKF through your gift to the ISA campaign.

MIXED LEAGUE STANDINGS SHOW VERY FEW CHANGES

Few changes were noted in the standings of the Rock Island Arsenal Mixed Bowling League over the past two weeks.

The league leading Team 19 stretched its gap to 10 points over second place Team 5. Team 19 has a 136-48 record compared to Team 5's 126-58.

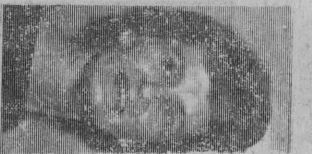

Only one point behind in third place is Team 11 with a 125-59 record. Following are Team 22 (117-67), Team 25 (112-72) and Team 4 (111-73) to round out the top half-dozen.

Seventh place in the 28-team league shows a three-way tie among Teams 3, 12 and 9 . . . each has a 102-82 record. Tenth place is held by Team 14 and its 101-83 mark.

According to the latest figures supplied by the league secretary, Willa Huston, the women's side of the league has itself all tied up in knots on the individual scoring front.

D. Stringer of Team 19

We hardly believe it, but not only do all the league

members know about it, Betty Zelner of Team 24 admitted it because it happened to her. She "couldn't quite find the spot" last week and wound up with a 43 for her first game. Undaunted, she added a 120 and 126 game to make out well above her 99 average.

and J. Forest of Team 21 are tied for top honors with 210 games. Three women are tied for third spot with 203 games: C. Wendell of Team 3, D. Tinsley of Team
