

ACCEPTING DONATION ENVELOPES from keyworkers are campaign office staff members Karen Cribbs, standing, and Phyllis Meyer. The fund drive keyworkers, left to right, are: Raymond Messmer, AMSWESM; Margaret Horn, SWERLQA, and Lyle Lindstrom, SWERLPP.

CHARITIES FUND DRIVE PASSES HALFWAY MARK

The Rock Island Arsenal and Army Weapons Command's International Service Agencies and National Health Agencies fund drive is marking the beginning of its final week today. It started April 10 and will be completed next Friday, April 28.

Donation envelopes and literature explaining the needs and accomplishments of the various organizations involved have been distributed to all employees on Arsenal Island.

Keymen and solicitors are to have the collection of the envelopes with their enclosed money completed by April 28. Employees have been asked by fund drive officials and their own supervisors to return their donations to the solicitors as soon as possible.

At the "kickoff" meeting for keymen on April 10, Col. H. A. Snyder, RIA commanding officer, stressed the importance of citizen support to the agencies and urged keymen to encourage generous giving to these causes.

He emphasized the interest in RIA's support of these agencies given by Brig. Gen. W. J. Durrenberger, Army Weapons Command commanding general.

Col. Snyder urged everyone to "show that Rock Island Arsenal can be as generous as any other Federal installation, and maybe a little better than most."

Harold Sedrel, fund drive project officer, added that the Army's stand on charitable organizations and their drives is that no coercion or pressure is to be used on any individuals, but that generous donations are encouraged.

Mr. Sedrel also explained that two envelopes are included in each portfolio to every individual to save administrative costs involved in running two separate campaigns.

UPGRADING POSSIBILITY FOR INTERNS

From GS-5 to GS-9 in two years is a possibility for interns in the Army Weapons Command's Supply Management program, according to word received this week.

Immediate openings for 30 trainees for the Supply Management Career Training Program were announced by AWC. Trainees start as GS-5s and upon graduation two years later, should have achieved GS-9, say officials.

The first year of training is accomplished at AWC's headquarters here at Rock Island Arsenal. The second year of training is usually conducted at Detroit, Mich., St. Louis, Mo., Philadelphia, Pa., Joliet, Ill., or Huntsville, Ala.

Interns in the program receive training in the classroom environment as well as on the job. The program helps meet the Army's need for highly trained personnel in the logistics field.

Information concerning specific requirements and applications for the program may be obtained by contacting the Rock Island Arsenal Personnel office.

Entertainment Galore For Freedom Share Start

They are noted as some of the best musicians in the area and will help Rock Island Arsenal and Army Weapons Command here start May's Freedom Share drive.

Set for an 11:30 a.m. kickoff on May 1 in the Post Cafeteria, Wibby Fisher and a select Dixieland Combo will furnish the musical background for the mid-day affair. Included in the band are Ken Clark, drums; Scotty Dault, sax; Lloyd Pollitz, clarinet; Bob Kuchis, trumpet, and Danny Rowan, piano.

More entertainment planned for the occasion will be furnished by the Echoes, members of the Mullichord chorus and state and national champions in female barbershop singing.

Arrangements are being made to get a male barbershop quartet "in on the act," said Ray Reese, custodian of the sponsoring Consolidated Civilian Welfare Fund.

Booked also are Wayne Rohlf and Ed Freeman, known around the Quad-Cities area as "magicians par excellence."

Mr. Reese said that there is a possibility of obtaining the reigning

Miss Scott County of 1966 to help put over the opening ceremonies of the RIA Share in Freedom drive.

Helping with the application signing will be "a bevy of local beauties" in the forms of Miss Arsenal Sweetheart of 1967, Connie Morford, and a group of finalists from the recent popularity contest.

The girls will be dressed in "star-spangled splendor" and roam the cafeteria to help with filling in the application forms for personnel who want to join the Freedom Share drive then and there.

As added inducement for early signers, the Quad City Angels Baseball Club has donated a number of free passes to local baseball games to be given away. Mr. Reese said that plans are being made to insure that varying lunch hour personnel would have equal chances to get these free tickets.

The Angels also are donating a number of autographed baseballs to be used for the same purpose.

"We won't stop now," said Mr. Reese in discussing plans for the May 1 kickoff. "By the time the special luncheon rolls around," he

Curt Hogberg Plans Retirement After 33 Years Federal Service

After 33 years of Federal service, all of which has been at Rock Island Arsenal, the "grand old man" of Personnel will retire next week.

Curt Hogberg, officially retiring April 28 as director of Army Weapons Command Personnel and Training, has been acting

DURING A BREAK in the Army Weapons Command's Maintenance Specialist Seminar this week, Brig. Gen. W. J. Durrenberger, AWC commanding general, and Jack Morgan, second from right, director of AWC's Supply and Maintenance, look over an M79 grenade launcher. W. E. Bellomy, left, AMSWE-SMM, is seminar coordinator, and F. I. Abel is chief of the national maintenance point, sponsors of the five-day event.

chief of Rock Island Arsenal Personnel since July 1966.

The 57-year-old Davenport-born division chief started here as a machinist's helper in Shop M in 1934 and rose to the position of production control chief by 1940. In 1945 he switched to the Personnel career field where he has been ever since.

A Personnel trainee in 1945, two years later Mr. Hogberg was the Personnel Director. Later in his career, the two-year syndrome appeared again when he was deputy chief of the Ordnance Command's Maintenance division in 1955, and its chief in 1957.

That same year, Mr. Hogberg was awarded one of the highest Department of Army citations that can be bestowed on a civilian employee, the Commendation for Meritorious Civilian Service.

During his career here, (Continued on Page 2)

COMMITTEEMEN PLANNING FOR CLEAN-UP CAMPAIGN

Timed to coincide with any necessary "flood clean-up" work and preparations for Rock Island Arsenal's observance of Armed Forces Day, a committee is being formed to plan for RIA's annual "Spring Clean-up Campaign."

Nominees for the committee have been sent to Col. H. A. Snyder, RIA commanding officer, for his approval, and include members of the Area Marshal/Wardens, Lt. Lawrence Bialis, H. R.

Gamber, H. O. Lewin, Ray Reese, John Casad, and others.

Spring Clean-up Weeks will be from May 1 until May 12, and be headed by RIA's Fire Department with Fire Chief Farrel Jordan representing the National Fire Protection Association, sponsors of the annual nationwide event.

Ideas for clean-up week will revolve around "inside" work this year, Chief Jordan said. Ridding areas of old and obsolete signs, cleaning out personal lockers, desks, files, shelves and closets of all excessive materials and instilling a "clean desk" attitude around the Island are included.

Manager

PETE KRUSE, a division chief with AMSWE-MS, is on the fifth floor, south wing of building 350. (Ext. 5936).

"We're even thinking," said the chief, "of some way to recognize those who continue to do the best jobs of cleaning up and keeping it clean." Fire prevention is the most important issue, he claimed, but our appearance to visitors and feelings for our own work areas are as important, he stressed.

The committee planned to hold a meeting with the commander yesterday to discuss details for this year's clean-up campaign.

CHARLIE TOO-LATE

Once upon a time there was a man named Charlie Too-Late who always waited too long to do everything. One day Charlie called JAMTO to make his vacation reservations and much to his dismay, found that once again he was too late. Being a very wealthy man, Charlie bought an airplane and flew to his destination.

Moral: If you have enough money you can afford to be too-late!

**For Your Reservations
Call JAMTO NOW!**

794-6333 or 794-6433 8 to 5 P.M.

Curt Hogberg

Local Television Personality To DOD Women's Committee

At a press conference last week in Rock Island Arsenal's Officer's Club, the appointment of Mrs. Jack Sundine to the Defense Department's Advisory Committee on Women in the Services was made by Col. Chester H. Johnson.

Army Weapons Command deputy commanding officer, and Lt. Cmdr. Jack Rothbart, USN (Ret.).

Mrs. Sundine, one of 15 women throughout the nation to be appointed this year to the committee, is hostess of WOC-TV's "Especially for You." Her husband is editor and co-publisher of the Moline Dispatch.

Active in community service organizations in the Quad Cities area, she is the only new appointee from the Midwest and will attend semi-annual meetings and field trips to study service

personnel routine and evaluate Selective Service practices.

The committee is limited to a membership of 50 women with special qualifications because of professional careers or interests. It serves as a liaison between the military and the women of the United States.

Final Seminars

The final pair of Pre-Retirement Seminars will start during the first week in May, according to a report from the Rock Island Arsenal course coordinator, B. G. Williams.

One group will meet May 2, 9, 16, 23 and 31, and the second group will meet May 4, 11, 18, 25 and June 1, he added.

All sessions will start at 7:30 p.m., in the branch's auditorium, second floor, field trips to study service

Curt Hogberg -

(Continued from Page 1)

he has lent his capabilities to many new programs. Among them are developments of tables of distribution, various manpower programs, cooperative education programs, the buildup of a number of apprentice programs and special training areas wherein agreements were negotiated with the Civil Service Commission.

In his career he has seen the establishment of the Management Science Office, which began as a function of the Personnel office, he was one of the Island's first advocates of air transportation utilization for civilian employees, and not only did the Army Management Engineering Training Agency (AMETA) complex have its beginning during his tenure, he was a part-time instructor there during its first year of operation.

Curt Hogberg says his plans for the immediate future are indefinite. His wife is an accountant and tax consultant in Moline and his son, Pete, is an industrial engineer in the Combat Vehicle project manager's office and president of the Moline Jaycees.

A daughter, Mrs. James Farra, lives in Studio City, Calif., and another son, Curt, Jr., is employed at Moline's IBM Corporation.

AOA TO MEET

The spring meeting of the American Ordnance Association's Iowa-Illinois Chapter will be held May 25 in Waterloo, Iowa.

Speaking at the installation meeting will be A. R. Gordon, director of Oceanographic Analysis Division, Department of Navy, who will talk on oceanography programs.

An official said that details of the meeting would be sent to all members of the association the latter part of April.

VETERAN'S MEET

The Rock Island Arsenal Veteran's Association will hold its monthly meeting at 8 p.m., today in the old executive dining room of the Post Cafeteria.

Following the regular business meeting will be refreshments, a Euchre tournament, movies and door prizes.

Have you done your work
In a money-saving way?

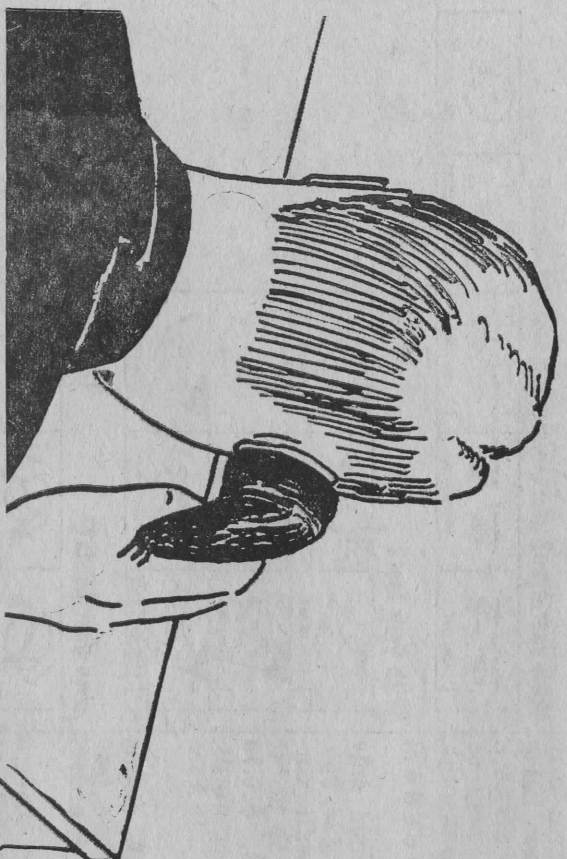

Help AWC and help yourself,
Call 'Mr. Cost Reduction' today!

Call 'Mr. Cost Reduction' . . .

Arsenal - Ext. 4100

HQ AWC - Ext. 4200

... for answers to your questions.

So you want to know what this Cost Reduction business is all about? How you fit in? Good!

Like all government agencies, we in the Army Weapons Command must do our job at the lowest possible cost. Our parent organization, Army Materiel Command, has given us a dollar savings goal to shoot at. It's pretty high . . . \$13.4 million in savings during FY 1967.

We need all the help we can get to meet our goal . . . so we're coming to you. Many of you no doubt have been doing things a different way to get your job

- THINK OVER THESE AREAS OF POSSIBLE SAVINGS**
- Better way of doing your job.
 - Improved transportation and traffic mgt.
 - Data processing innovations.
 - Better packaging, preserving or packing.
 - More economical use of equipment and supplies.
 - Any way in which you have saved the Command money.

and jobs like yours done . . . faster, better, at less cost. All you have to do is tell us about it.

Naturally, AWC looks to the directors, division and office chiefs, and others, whose activities account for most of AWC's costs, to come up with the big savings. But we're not overlooking the smaller savings either; they all add up.

A call to Mr. Cost Reduction will let you know whether you got something going for yourself . . . and the U.S. Army Weapons Command.

Paul prattles

"... only presidents, editors and people with tapeworm have the right to use the editorial 'we'." . . . Mark Twain.

by PAUL GOLDBERG

We know of a gal here who took a trip halfway around the world and back with advance planning of less than 24 hours. Believe it?

We wonder if you'd believe a tale of someone logging more than 75,000 miles in her 25-year-old car before having her first blowout on one of the original tires?

Would you be interested in knowing about a couple of Arsenalites who are among the top judoka in this area and are preparing for a Midwest championship? Or do you know what a tomoginagi is? Or do you care?

Did you know that we almost hit the jackpot with six out of seven nominees for national honors being named in the month their names were sent in? And the seventh was named the following month?

How about sitting in a classroom about 600 miles away from your instructor. Do you have extra sharp hearing or does he have an extra loud voice?

These and other stories of interest are just waiting for a little time to get around to being written. Now that we have cut down the Answer-The-Phone-And-Give-Out-The-Classified-Ad-Information calls to an even dozen, we may get around to them.

Pessimists disliked...

A pessimist will tell you he can predict failure, and often he can. But maybe you should tell him that sometimes you can predict success, because you're involved in its making.

Once the world was flat. Now it isn't. Once there were 92 elements. Now there are more.

Orville Wright flew his airplane 120 feet. Marconi sent signals across the ocean. Dr. Norman Vincent Peale called this triumph of "can do" the Power of Positive Thinking.

Beethoven was deaf. Edison's grades were poor in school. Churchill lisped during childhood. But persons like these, persons who might have been counted out before they began, somehow turned history against pessimism. And now nobody likes a pessimist anymore.

Tell a person it's impossible to live on Mars, or farm the ocean, or cure cancer or heart disease, or cut Government waste to the bone and he may put you in the same class with those who laughed at Henry Ford, John Glenn, or Dr. Jonas Salk. Yes, pessimism is a dying art. They also are learning that for one person to move the world, he first must move himself.

As John Paul Jones said to skeptics who asked him to strike his American flag, and waited for his words of defeat, "We have not yet begun to fight."

How about your fight for "can do" on the job. How about really getting behind the President's "War on Waste." Cut costs. Suggest now!

Cost Reduction

ARMY IMPROVES CIVILIAN PROGRAM

Army is currently taking steps to improve its civilian personnel management program to attract, develop and retain high quality employees for meeting manpower requirements.

About 75,000 career employees in GS-5 and higher grades are expected to benefit from many of these actions.

Major steps include strengthening the role and responsibilities of functional chiefs and major commands, the creation of career planning boards and screening panels and the formation of a career executive group.

Manager

CLETUS R. BERGTHOLD, a management technician with SWERLMS, is on the first floor, northeast wing of building 390. (Ext. 5246).

Arsenal Target

The Arsenal Target is published every other Friday. Editorial material for publication in the Target will be received only through the information Office, Army Weapons Command, Building 390, Rock Island Arsenal, Ill. Telephone 794-6754.

All advertising copy and payments will be received by The Herald, 822 15th Ave., East Moline, Telephone, 753-5224. The deadline for copy and advertising matter is the Tuesday before publication.

The Arsenal Target is distributed free of cost to all personnel at Rock Island Arsenal. Mailing arrangements, at \$4.50 per year, may be made with the publisher, The Herald. Retired Arsenal personnel may subscribe for \$3 per year.

YOUR SAVINGS and BOND QUIZ

Q. What is the interest rate on Freedom Shares?

A. Like Series E Bonds, they are bought at a discount and the increase to face value represents "interest." For Freedom Shares, this will average 4.74% a year when held for the full 4½ years to maturity.

Q. Does the same rate now apply to E Bonds?

A. No. E Bonds continue to return an average of 4.15% when held to their seven-year maturity.

Q. Can Freedom Shares be cashed before maturity?

A. Freedom Shares may be redeemed after being held for one year. Series E Bonds, of course, may be redeemed after two months.

Q. What do Freedom Shares cost?

A. They are issued only in face amounts of \$25, \$50, \$75 and \$100, with corresponding purchase prices of \$20.25, \$40.50, \$60.75 and \$81.00. In other words, they cost 81% of the face amounts.

Q. But Series E Bonds cost only 75% of their face values. Why do Freedom Shares cost more?

A. Because they mature in a much shorter length of time — only 4½ years as compared with 7 years for E Bonds.

Q. Do I understand that Freedom Shares cannot be bought separately?

A. That is correct. They must be bought in conjunction with Series E Bonds of the same or larger face amounts. For example, a \$25 Freedom Share may be bought with each \$25 E Bond, when on a regular plan. The total price would be \$39.00 (\$20.25) for the Freedom Share and \$18.75 for the Bond.)

Q. Can I buy as many Freedom Shares as I want, as long as I purchase Series E Bonds of the same or larger face amounts?

A. No, there are limits. If on a Payroll Savings Plan, your Freedom Share deductions are limited to \$20.25 per weekly pay period, or \$40.50 per bi-weekly or semi-monthly period, or \$81.00 per monthly pay period. On the Bond-a-Month Plan at banks, the limit on Freedom Share deductions is \$81.00 per month.

Q. Isn't there also some sort of annual limit?

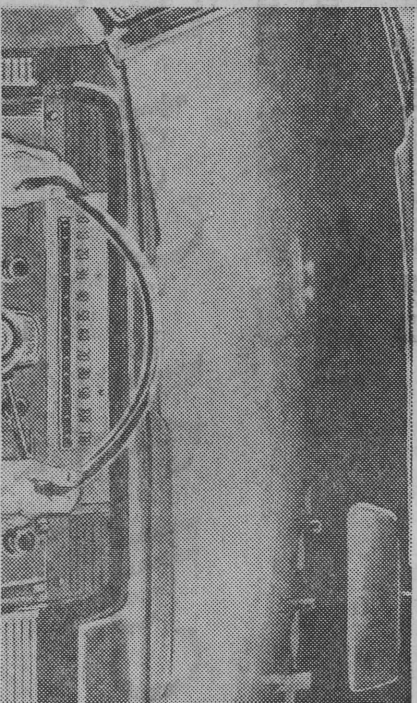

A. Yes, there is a limitation on holdings. This is \$1,350 (face amount) of Freedom Shares originally issued in any one calendar year to any one person. The annual limit on E Bond holdings, incidentally, is \$20,000.

Q. Then I can buy more E Bonds than Freedom Shares, if I like?

A. Yes, but not the reverse.

Without a motor vehicle inspection law in our state, thousands of motorists may never discover that their cars are unsafe in time to prevent an accident.

THE G.I. FORUM, an organization made up of individuals of Latin-American descent, met with Col. H. A. Snyder, Rock Island Arsenal commanding officer, Monday. The group met with Ray Reese, RIA deputy Equal Employment Opportunity officer for a luncheon before touring the Arsenal. Pictured

are, left to right, Ray Reese, Leonard A. Cervantes, Jesse Puebla, Joseph Perez, Robert Trujillo, Tony Terronez, Jesse Camarero, Jesse Perez, Jorge Gomez, Colonel Snyder, James Trujillo, Augustine Olivera and Col. James P. Luckey, RIA deputy commanding officer.

AMSWE-SMD WINS

In a late report to the TARGET, the favorite Military basketball team was upset by AMSWE-SMD in the final tournament game last week, 67-63.

SMD's Green scored 21 points and Frank Martel added 18 to top the scorers for the night's action.

Following the game, Col. James P. Luckey, Rock Island Arsenal deputy commanding officer, presented trophies to the winning team.

SNAFU ENDS KEG SEASON

The SNAFU Bowling League closed out its season recently with an awards banquet in Davenport.

Rock Island Sport Shop team, captained by Frank Larson, won first place. On the team were Ron Harroun, Randy Dorch, Fred Keoliner and Bill Humphrey.

Second place went to Divident Bonded Gas.

Individual prizes went to Schemm Scherer, high average, 180; Jim Hendren, high series, 656, and Hendren and Randy Dorch shared high single game honors with identical 279 games.

High team series and high team game was won by the Hamm's squad.

CG VISITS SPRINGFIELD

Brig. Gen. W. J. Durrenberger, Army Weapons Command commanding general, visited Springfield (Mass.) Army last week to discuss progress of the transfer of the small arms mission to Rock Island Arsenal.

The general commanded the armory in 1963-65.

General Durrenberger also talked to several groups of Springfield employees pertaining to job openings at RIA. He expressed a "keen desire" to have the Massachusetts employees transfer to our Midwest installation.

Accompanying the general were Col. H. A. Snyder, RIA commanding officer, and several staff officers of AWC and RIA.

Colloquium Is Next Tuesday

"Tailor-made Macromolecules" is the subject for the next Army Weapons Command colloquium. Speaker will be Dr. John K. Stille of the University of Iowa Department of Chemistry.

The meeting is scheduled for Tuesday, April 25, at 10 a.m., in classroom No. 1 of the RIA training and development branch. It is on the second floor, east wing, of building 60.

Plan Tulip Trip

A trip to Pella, Iowa, in time for the annual Tulip Festival is being planned by the Civilian Welfare Fund Council. The trip will be on May 13 and leave from behind the Post Cafeteria at 7 a.m.

Reservations for the trip, which costs \$4.75 for the round-trip, may be made by calling Lil Dohrn on extension 6519.

A breakfast stop is planned at Washington, Iowa, and a supper stop will be made at the same place on the way home.

This is a chance for interested persons to see the beautiful parade, tulip gardens, Wyatt Earp's home, children dance in their wooden shoes, and the people of the town scrub their streets and carry water on their shoulders, said officials planning the outing.

The chance taker is an accident maker.

WITH A CLOUD OF SMOKE and a loud roar, an Army 105mm howitzer sends some outgoing mail to the Viet Cong from a water-borne launching pad. The weapon system was designed and developed by Army Weapons Command, to meet the requirement for a helicopter-transportable, air-droppable, direct support artillery weapon for the airborne and air assault division. The 1st Infantry Division's 1st Battalion, 7th Artillery, teamed up with the 1st Logistical Command's 1099th Transportation Company in converting the LCM into a floating artillery base.

HOPE Gives Hope

Medical education programs aboard the famous hospital ship S.S. HOPE are conducted by top American surgeons, physicians and dentists, who leave their homes and practices and volunteer 2-month's service without pay.

Drive Safely

Safety is a state of mind. When driving, we should make safety our number one mental occupation. "Keep your mind on your driving," is good advice and is the first step to defensive driving. To avoid that next accident, drivers must condition their mental reactions to recognize and anticipate collision-producing situations.

BEULAH M. KIPPING is now the chief of Army Production Equipment Agency's Plans and Management office. Mrs. Kipping, who has 21 years' experience in the administrative and management field, was administrative assistant to the AMCIS commander for nine years.

YOUR SAVINGS and BOND QUIZ

Q. Suppose I am buying the limit on the Payroll Savings Plan where I work. Can I also go to my bank and buy the limit there on the Bond-a-Month Plan?

A. No, you may not. However, a husband might buy his limit as a participant in Payroll Savings while his wife buys her limit through the Bond-a-Month Plan. In both cases the other party may be listed as a co-owner of the securities.

Q. How will the Freedom Shares be registered?

A. The registration must be identical on the Freedom Shares and E Bonds bought in combination. You have three choices of registration: (1) a single individual; (2) two persons as co-owners; or (3) one individual owner with a second person as beneficiary.

Q. How about my other E Bonds?

A. Those -bought -separately -not in combination with Freedom Shares—may be registered in any one of the approved forms of registration.

Q. Are Freedom Shares subject to taxation?

A. The same as Series E Bonds. The interest on Freedom Shares — is subject to Federal income tax, but reporting may be deferred until maturity, redemption, or other disposition, whichever comes first. Interest is not subject to state or local income taxes. The current value of the Shares is subject to estate, inheritance, gift, and other excise taxes, both Federal and state.

Q. You mentioned earlier that Freedom Shares could be redeemed anytime after one year. How much would they be worth?

A. I can give you some examples. A \$25.00 Freedom Share, bought for \$20.25, would be worth after one year, \$21.07; after two years, \$22.03; after three years, \$23.14; and after four years, \$24.36.

Q. What does that represent in interest return?

A. After one year, 4.01%; after two years, 4.26%; after three years, 4.50%; and after four years, 4.67%.

Q. Suppose my bank tells me they are not authorized to issue the Freedom Shares?

A. If your bank is otherwise willing to make the deductions from your account on a regular on-a-Month Plan, they can obtain your Freedom Shares for you from a Federal Reserve Bank or Branch. You cannot buy them directly.

Q. Will Freedom Shares be extended beyond their maturity, as E Bonds have been?

A. No. Under the existing law, there is no provision for an extension.

CAFETERIA UNVEILS SPEEDY TECHNIQUES

A number of innovations thereby saving the second step of waiting for the cash. The innovation is aided by the installation of two new cash registers, as Linn Neighbors, food service manager, puts it, "that do the work of three people."

The new registers, with specially marked and pre-set buttons, can be rung with each item, or complete dinners, it can add and subtract, make change, and a checker to prepare a tick-count of every item as it is set to be used similarly to a check. The patron would then pay for his repast after his meal and upon leaving the cafeteria.

With the new system, in the same time and with the same motions necessary as before, the cashier can ring up the amounts for food and collect immediately...

or re-fill it as many times as he desires... all for the price of one.

The other cold drinks will still have to be served by one of the line servers, "but we're working on a change that may eliminate that bottle-neck too," said Mr. Neighbors.

To help even more, officials asked that patrons try to have their money ready by the time they reach the registers.

All in all, the food line will go faster at the cafeteria than ever before, said other officials of the sponsoring Civilian Welfare Fund Council.

MINORITY CENSUS SHOWS GAINS IN FIRST YEAR

The Civil Service Commission has reported that the 1966 study of minority group employment in the Federal Civilian work force on June 30, 1966, shows continuing gains in minority group employment, including increases in the middle and upper salary ranges.

Highlights of the report:

—Minority-group employees reported in the current census number 422,574 or 18 percent of the total work force included in the report.

—There was a continuation of the 5-year pattern of increased employment of Negroes: 13.9 percent of the total identified this year compared to 13.5 percent of total employment in 1965 and 13 percent of total employment in 1962.

—There were percentage increases for Negroes at all levels above entrance levels, but a slight drop at entrance levels in the employees reported this year. The Post Office Department reported an increase at entrance levels as well as at higher levels.

—In 1966, Negroes comprised 109,658 or 9.7 percent of General Schedule employees (the so-called white-collar occupations) reported, as compared to 106,706 or 9.5 percent of total General Schedule employees in 1965. In GS grades 5 through 8 Negroes

totaled 31,205 or 10.1 percent compared to 30,039 or 9.6 percent in 1965.

At GS grades 9 through 11 the number was 9,642 or 3.8 percent of those reported in 1966 as compared to 9,125 or 3.4 percent of the total in 1965.

At the highest GS grades, 12 through 18, the number of Negroes was 3,363 or 1.6 percent of those reported, compared to 2,815 or 1.3 percent of the total in 1965. Negroes in the Postal Field Service increased by 2,527 positions, from 15.7 to 15.9 percent of the work force.

—Employment of American Indian, Spanish-American, and Oriental groups in selected States included in previous studies compares as follows:

—Spanish - Americans comprise 10 percent of the work force reported in the five southwestern States where the percentage was 8.5 percent of the total in 1965.

—American Indians comprise 3.2 percent of the identified work force in the seven selected States where the percentage was 2.5 percent of the total employment last year.

—Orientals comprise 8,873 persons, or 2.8 percent, a slight loss, in the three selected States where they were reported in 1965. Annual surveys have been conducted each year since 1961 to assess progress and identify areas where further effort is needed to implement the Government's policies on equal employment opportunity.

CONGRESS-PASSED LAWS EXPLAINED

(Following is the last of three articles for the information of Arsenal employees.)

The 89th Congress passed, and the President signed into law, more than a score of laws affecting Federal employees. Following is a brief summary of principal new personnel laws:

Hazard — Public Law 89-512 authorizes the establishment of hazardous duty pay in certain cases. The act authorizes the Civil Service Commission to establish a schedule of pay differentials for employees under the Classification Act who perform irregular or intermittent duties involving unusual physical hardship or hazard not involved in the usual duties or classification of their positions.

Health Benefits — Public Law 89-504 amends the Federal Employees Health Benefits Act of 1959 to extend the maximum age limit for health benefits coverage of an employee's eligible children from 21 to 22. The title also increases the Government's contribution toward the cost of employee

health insurance by a maximum of 38 cents biweekly for a self-only enrollment and by 98 cents biweekly for a self and family enrollment.

Hours of Work — Public Law 89-478 permits variation of the 40-hour workweek of Federal employees for educational purposes. The act provides discretionary authority for the head of any agency to establish special tours of duty so that an employee may attend schools at his own expense in order to improve educational and professional qualifications for employment.

Moving Expenses — Public Law 89-516 amends the Administrative Expenses Act of 1946 to provide for reimbursement of certain moving expenses of employees, and to authorize payment of expenses for storage of household goods and personal effects of employees assigned to isolated duty stations within the continental United States.

Veterans Preference — Public Law 89-358, Veterans' Readjustment Benefits Act of 1966, amends the Veterans' Preference Act of 1944 to extend coverage to certain persons who served on active duty in any branch of the Armed Forces of the United States at any time for a period of more than 180 consecutive days after January 31, 1955, and who have been separated under honorable conditions.

ARMED FORCES DAY, May 20

Saturday, May 20, 1967, is Armed Forces Day, a day set aside by the President to promote public understanding and support of the Armed Forces and to honor the nation's service personnel.

The observance of Armed Forces Day is marked by a review of the military preparedness of the United States. This includes the readiness of the Army for "Landpower Missions Unlimited" as its part in contributing to the country's "Power for Peace."

The key element in these themes of Army readiness and power for peace is the U.S. Soldier, the best equipped and best trained soldier in the world. He must be teacher, humanitarian, linguist, diplomat, and leader. In addition, he has his major responsibility: to be ready to fight in the defense of his nation.

Manager
RALPH CLARKE, an inventory management officer with AMSWE-SMD-T, is on the fourth floor, south wing of building 350. (Ext. 6476).

Drive Safely

Good brakes are important in any driving. In bad weather driving they are vital! Remember, good tire treads can keep you from having that bad weather smashup. Smooth tires are dangerous at any time, but they can be deadly on slippery roads.

Explore Inner Space Library Week Theme

"Explore Inner Space" "main" library are Rosemary Dumoulin, Marian Dowell and Pauline Claeys. At the "branches" are Sallie Phillips, AMETA; and Beverly Johnson, Building 103.

The libraries here make it easy for employees to have access to the latest technical information and minimizes the possibility of duplicating research efforts among agencies.

The amount of technical information available doubles every ten years, according to some authoritative sources, so the value of the technical information program increases proportionately, said Mrs. Culbertson.

Known as the Technical Information Branch, the tech library also is responsible for handling the orders for all the books, magazines and newspapers for organizations on the Island. Currently, the library is responsible for approximately 12,000 bound books, almost 10,000 technical papers and almost 400 magazine subscriptions.

From algebra to chemistry to spelunking and beyond, the information is available at the nearest library. Explore Inner Space this week and every week.

TARGET TIDBITS
Here's another special recipe sent to the TARGET recently by Irene Hillis of Procurement. It sounds delicious.

Velveeta Jello Salad
One package Lime Jello, one cup hot water, one cup crushed pineapple, one cup shredded Velveeta cheese and one cup whipping cream.

Dissolve Jello in hot water and chill until beginning to firm. Then add cheese, pineapple and whipping cream.
Mix with thickened Jello. Chill until firm.

POINTING TO THE 12th of April, which signifies 30 years of service in one branch of Rock Island Arsenal's Depot Division, is Juanita Collinson, senior supply clerk for the cataloging section of the installation supply control branch. In the same branch since she started here in 1937, Mrs. Collinson says the biggest change she recalls is the one from totally manual operation to the automated IBM system in current use in her job. She also said she has no immediate plans for retirement.

CREATE CENTER

A Personnel Management Training Center has been established by the Civil Service Commission to improve the quality of personnel staffs.

Training Center is intended to reinforce and supplement — not replace — the "excellent training program in personnel now existing in some of the larger agencies."

Drive Safely

When stormy winds rage, beware of driving complacency that comes with the "getting used to winter driving." When the roads are blocked by heavy snow, it's a good idea not to go until the snow plows have cleared the way. Stalled cars hamper snow removal.

OWC CLUB ANNOUNCES \$500 SCHOLARSHIP

Some son or daughter of made during the first week an Arsenal Island employee in June.

Applicants are open to children of any civilian or military personnel employed by Rock Island Arsenal, Headquarters Army Weapons Command or other tenant agencies, or the Corps of Engineers here.

Any questions concerning the scholarships should be directed to Mrs. Joseph McKinney, Ext. 5717.

The scholarship will be granted to a college-bound, graduating high school senior on merit only and must be used for college-connected expenses, the chairman explained.

To be eligible for consideration, she continued, the senior must be accepted at an accredited junior or four-year college and must be in the upper 50 per cent of his graduating class.

Applications, such as appear in this issue of the TARGET, must be in the hands of the committee by April 28 in order to be considered. A board of selection will be named by the club to consider applications.

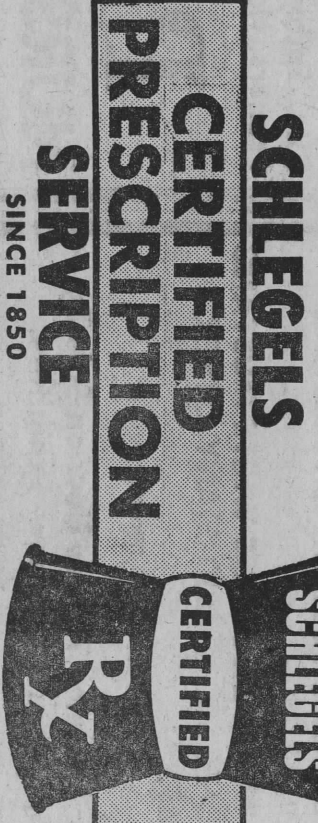

According to the committee chairman, announcement of the selection will be

Auto Talk

by Werner A. am Ende

In this issue of the TARGET, let's continue our discussion of the deadly subject of air pollution.

How are toxic gases produced? Any type of burning produces nitrogen oxides. This simply means that these gases are formed by

oxidation of nitrogen in air.

As these oxides are emitted into the air from the motor vehicle exhaust, solar energy speeds their reaction with hydrocarbons, changing nitrogen oxide into nitrogen dioxide, which, inci-

PERT AND PRETTY DIANE GASS holds a muffler that doesn't do much to stop poisonous gases from escaping into the atmosphere. Auto Talk tells you more about one gas but not much more about the other Gass.
—Bob Devore Photo.

dentally, is five times as poisonous as simple nitric oxide.

The deadly truth is that 95% of nitrogen dioxides inhaled by you remains in your body and may produce mutations in cells and result in lung cancer or emphysema. The death rate for emphysema increased tenfold between 1950 and 1964. This increase follows the growth rate of automobiles more closely than the increase in cigarette smoking.

Many of us are periodically bothered by throat irritations, chest pains, coughing and nausea. In a good many cases, the weather is blamed, or sudden changes in temperature, and often rightly so.

But, have you ever thought about the idea that perhaps the poisonous gas you breathe daily may have had a bearing on your sickness?

Although many of us are often bothered by the strong winds in the Quad-City area, they are a blessing in disguise, when associated with air pollution. So the next time we have strong NW winds, think of the pure air you're breathing.

The new Federal Government Clean Air Act makes it mandatory that all 1968 motor vehicles are to be equipped with anti-pollution devices.

Detroit is following two courses in dealing with the problem. General Motors proposes to burn the toxic gas somewhere between the exhaust valves and tail pipe. Injecting air under pressure into the exhaust manifold close to the exhaust valves is gaining favor. The Chrysler approach is to burn toxic

gases directly in the combustion chamber by creating more complete combustion. Air to fuel ratio will be as high as 14.7:1.

Since high air to fuel ratios will cause considerably higher combustion temperatures, new valves and associated parts will be required to withstand these high temperatures.

Present-day carburetors allow approximately a 12.5:1 and even as low as a 11:1 ratio. Higher air to fuel ratios will tend to increase gas mileage.

There is talk that Ford and American Motors may switch to Chrysler's concept. Although there are other concepts, the two foregoing systems are the most efficient methods of reducing toxic gas emissions.

Arsenalties (female species!)

Spring getting to you? Being co m i n g restless? Been thinking lately that the old job isn't what it should be? Feeling you're not "getting" what you should in pay and recognition?

Well, before you do anything drastic about it all, read on a bit. Maybe before you're through, things won't look so tough.

"Office employees will daily sweep the floors, dust the furniture,

FORGET SOMETHING?

USE ZIP CODES

shelves and showcases.

"Each clerk will bring in a bucket of water and a scuttle of coal for the day's business.

"Clerks will each day fill lamps, clean chimneys, trim wicks, wash the windows once a week.

"Office will open at 7 A.M. and close at 8 P.M. daily, except on the Sabbath, on which day it will remain closed.

"Every employee should lay aside from each pay a goodly sum of earnings for benefits during declining years, so as

not to become a burden upon charity of better.

"Employees performing labors faithfully and without fault for a period of five years, who have been thrifty and attentive to religious duties, and who are looked upon by fellowmen as substantial and law abiding, will be given an increase of five cents per day in pay, providing a just return in profits from the business permits it."

Above are excerpts from an office posting in 1872 by one Zachary U. Geiger, sole proprietor of the Mount Cory Carriage and Wagon Works.

I bet the janitorial services, electricity, shorter hours and weeks, health insurance, annual leave, sick leave, retirement and all the other things that we Arsenal women have going for us would really shake old Zach!

Well, how do things look now? Better? Good!

We ourselves might even be a bit humbled and even sort of grateful if we really took a good look at our "old" job and its benefits. What do you think?

See you.

CG, CO TO BE ON AOA BOARD

Brig. Gen. W. J. Durrenberger, Army Weapons Command commanding general, Col. H. A. Snyder, Rock Island Arsenal commanding officer, and W. M. Gibson, SWERI-RDE, will be installed as members of the Iowa-Illinois Chapter, American Ordnance Association, board of governors, at the chapter's next meeting.

The spring 1967 dinner meeting is scheduled to be held at Waterloo, Iowa, on May 25.

A. R. Gordon Jr., acting director, Marine Sciences Department, U.S. Naval Oceanographic Office, will speak on "The Seven Seas."

Reservations to attend the affair may be made before May 15 through E. M. Vaughan, AMSWE-RDR.

Cost Reduction

Manager

JACK V. AVIS, a foreman with SWERI-ISS, is on the first floor, southwest corner of building 350. (Ext. 6155).

Extinguishers

Go on May Sale

A special sale of fire extinguishers will be conducted by the Civilian Consolidated Nonappropriated Fund during May.

Available to Island employees will be 2½-pound capacity extinguisher that is designed for use in the home, car, or on a boat. It contains an all-purpose powder that is considered fast, effective protection against all three types of common fires.

Class A (wood, cloth, paper, and other ordinary combustibles), Class B (flammable liquids and gases) and Class C (electrical) fires are included in the protection capabilities.

The extinguishers will be on sale at the Rock Island Arsenal Fire Department from 8 a.m. until 4 p.m. daily. Cost of the fire protection device is \$8.50.

Fire Chief Farrel Jordan said the extinguisher is listed with Underwriters Laboratories and meets ICC and U.S. Coast Guard requirements.

There are now 22 states and the District of Columbia where compulsory inspection laws are in effect. In these states approximately half the cars fail to pass.

ANYTIME IS
COST REDUCTION TIME

THE PERPLEXED look on Rock Island Arsenal Fire Chief Farrel Jordan's face is caused by the condition of the envelope of a letter he had just received. The letter was an advertising piece from an East Providence, R.I., firm describing red - and - white markers used to "instantly locate extinguishers or fire boxes." The letter was charred and burned, obviously by a fire, somewhere between the sender and Chief Jordan. The advertising message on the postage meter stamp read, "Fire Safety Location Markers." There was probably no difficulty in finding this fire.

★ FEELING ★

**NOW
PAYING
4.15%
WHEN HELD TO
MATURITY**

Savings Bonds are a great way to build a solid financial foundation for your child (or grandchild).

It stands to reason. Every Bond you buy keeps growing right along with the child and becomes available for future, expensive needs.

Important needs like education, marriage or a business of his own.

Bonds not only grow—they work hard at insuring the family's future by insuring the future of the country. A big job that doesn't come easy.

Buy Bonds at your bank or on the Payroll Savings Plan where you work. And see if you don't feel good about it.

Your Uncle Sam will.

NOW—Savings Bonds Pay 4.15%!*

Interest on new E and H Bonds you purchase has been raised to 4.15% when held to maturity. E Bonds mature faster—now in just 7 years. Your old Bonds will earn more, too. Savings Bonds are better to buy, and hold, than ever.

Buy U.S. Savings Bonds

The U.S. Government does not pay for this advertisement. It is presented as a public service in cooperation with the Treasury Department and The Advertising Council.

THE TRADING CORNER

A free service to all employees on Arsenal Island. Ads may be mailed to the Target, AMSWE-IN, or given to a Target reporter, but will not be accepted by telephone. No business type ads. Give name and home phone number. "For sale" items must include a price. An individual may submit, for each classification, one ad of 30 words or less covering not more than three items. The deadline is 4:45 p.m. Monday of the week of publication.

Team 5 Claims Title In Mixed Competition

The bride finally became a bridesmaid in the Rock Island Arsenal Mixed Bowling League. Winner of the past few years' competition, Team 19 bowed this year to the new champions on Team 5.

On the winning squad (170-70) are: Ron Rettig, captain; Zote Lyddy, Barbara May and Dixie Tinsley.

Dubious honors will go to the last-place team of the 28-team league at the scheduled bowling banquet at Marando's on April 29 when team members, Kathleen Rice, captain; Betty Zelino, Norman Steelhamer and Don Caldwell win the booty-prize trophies.

Cash prizes and trophies will be presented to various categories of accomplishment. High series prizes will go to Carl Matthews (672) of Team 28, and Dulcie Stringer (604) of Team 19. High game awards were won by Charles Thornton (246) of Team 18, and Jean Krack (220) of Team 22.

George Conner of Team 1 ended up with the high average of the men, 188. Dulcie Stringer just nosed out Dixie Tinsley for the high average for women with a 161.57.

League secretary Willa

Huston said that prize money will be shared down to seven places in team and individual series, games and averages for both men and women.

Willa was most happy that she would win an award for her efforts in handling all the publicity for the league this year. Her team, No. 4, won the high series mark with a 2,107. On the high game side, Team 19 won out with a 746. Both teams will get cash, no trophies.

Most improved averages for the year were claimed by Team 8's James Hogan and Team 5's Barbara May. Jim increased his 147 start to a 158 finish and Barbara ended with a 130, 20 pins higher than her 110 beginning.

FLASH

Tuesday night the Design squad won eight points from the Civil Defenders and claimed the second half title. Reproduction also whitewashed the Engineering team to stay in second place.

Tomorrow at 2 p.m., the first-half winners, Civil Defenders, again face the Design team for the season crown.

Pinpoint Scores Make Difference In Annual Tournament Standings

Unbelievably close scores marked the final competition among the top teams of Rock Island Arsenal's second annual Bowling Tournament. Only two pins separated the first and second place teams in the men's division, and three points marked the difference between the leading money winners among the women.

The Red Ball squad of men, captained by Cecil Funk, picked up \$135 in prize money and trophies with its 2,957 final score. Team members, and their highest game scores, are:

Funk (225), Dan Wagner (189), George Conner (209), Dick Castro (228) and Sam Doane (177).

Earning \$85 and trophies for its second place 2,955 finish was the Hallas and Meade team. A. C. Stowe, captain. Members are: Stowe (179), Carl Matthews (201), Harry Jager (192), Joe Lopez (217) and Bill Aitken (176).

On the distaff side, the Hi Fives, captained by Lenora Harris, won \$75 plus trophies with their 2,836 total. On the team are: Harris (181), Lela Mitchell (145),

CE SECOND HALF STILL UP FOR GRABS

Right down to the wire go the top teams of the Corps of Engineers Bowling League. Six points separated the first and second place holders and a tie could develop as easily as not.

Tuesday night, the final night of the second half, league-leading Design (76-44) was to play the Civil Defenders (60-60). The Defenders are winners of the first half and have climbed steadily in the past few outings.

Second-place Reproduction (70-50) can upset the apple-cart with a sweep over last-place Engineering

... if the leaders take a resounding beating from CD. With a slim hope, Supply is in third place with a 68-52 record. Only a shellacking over Hydraulics Tuesday night, coupled with a whitewash of Design can give them even a tie in the final accounting.

In the meantime, the league president is making plans for the first and second half winners to roll off for the overall league championship tomorrow early in the afternoon at the Central Lanes in Rock Island.

Banquet details, not complete yet, include a Plantation party scheduled for May 5, pending final arrangements.

LEAGUE LEAD UNCHANGED IN RIA MEN'S BATTLE

Practically no change was seen in the first division standings of the Rock Island Arsenal Men's Bowling League. Still on top with only two weeks left to play are the members of the defending champion Kleen King squad (160-88).

Although 14 points behind the leader, second-place Lou's Tap (146-102) has a comfortable, although not insurmountable, 8-point lead over third-place Midwest Fence.

In order following the leaders are: A&R Stores (136-112), Drewry's (132-116) and Falstaff (130-118). The standings of the second division of the 12-team league show Sparks Real-

Mary Minnis (162), Janice Roberts (153) and LaDora Thierry (167).

Second place in the women's division went to the Happy Five and their 2,833 total, Louise Davis, captain. On the team are: Davis (157), Shirley Lenger (136), Mariann Robertson (149), Linda Stone (178) and Meredith Valley (153). They won \$50 and trophies.

More trophies went to individuals for their high games and series during the tournament. Top series was a 638 scratch by Kilmer Milligan of the Hammerers. Roger Werner of the AMSWE-CP team rolled the high game of 253.

Women's high series was a 553 scratch by Barbara Evans of the IFOs and the high women's game was a 213 scratch by Sylvia Neirnick of the You Name It team.

The men's third place team won \$65. The team was from Shop O, Team 3, captained by George Anderson. Third place prize money of \$38 for the women went to Four Hits and a Miss, team captain Edith Jacobs.

Prize money for the tournament went down to the first 20 places in the men's division and nine places in the women's division.

Last year nearly half of the 3.4 million cars and trucks examined in the National Vehicle Safety-Check program failed to get a passing grade.

tors (121-127), McKays Plumbers (118-130), Fritden's (106-142), H&H Motors (102-146), Buckhorn Bombers (100-148) and RIA Officers (99-149).

With little chance of dislodging the Kleen King men from their hold on the lead, bowlers have set their sights on individual and team marks to shoot at in the closing sessions.

McKay's holds the team high series and game marks with 2,892 and 1091. Falstaff Bob Showalter's 679 series and Kleen King Phil Hermann's 266 game are season highs.

Individual marks in the past two weeks did nothing to give the individual leaders any concern. K. Milligan and Jerry Woner rolled 234 and 233 games respectively and George Rogers and Bob Schertz made high series marks of 589 and 600 respectively.

On April 10, the RIA Officers managed high game and series for the night with 965/2769. Last week, H&H rolled a 2731 series and Kleen King logged a 974 game to lead the night's marks.
