IMCOM hosts relinquishment of command ceremony

FORT SAM HOUSTON, Texas – Lt. Gen. Omar Jones IV relinquished command of Installation Management Command during a ceremony July 23 at Fort Sam Houston Theater. Maj. Gen. James Smith, IMCOM deputy commanding general, will serve as the acting commanding general until Jones' replacement is announced. Jones spent four years at IMCOM. First as the deputy commanding general, and the last three as the command's eighth commanding general.

TACOM welcomes Brig. Gen. Behn as commanding general

DETROIT ARSENAL, Mich. – With crisp salutes and the passing of colors, Brig. Gen. Beth Behn assumed control of Tank-automotive and Armaments Command from Maj. Gen. Michael Lalor during a July 22 change of command ceremony. The ceremony celebrated not only a new era of leadership, but also the outgoing commander's accomplishments and TACOM's legacy. In her first remarks as commander, Behn said she's ready to hit the ground running and happy to be serving in Michigan.

CECOM enables GCSS-A for Equipment Service Optimization

ABERDEEN PROVING GROUND, Md. – Communications-Electronics Command Software Engineering Center recently deployed five changes to the Global Combat Support System–Army to support the Army's Equipment Service Optimization program which changes how Army equipment is serviced. The Department of the Army, G-4, implemented the ESO program to support the Chief of Staff of the Army's direction to reduce the maintenance workload on Soldiers and facilitate more time for readiness-generating tasks.

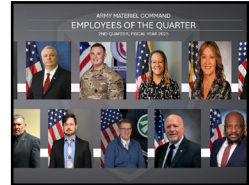

New interface simplifies procurement, financial processes

WASHINGTON – The Army Program Executive Office Enterprise and Office of the Deputy Assistant Secretary of the Army for Procurement successfully implemented the Logistics Modernization Program, Army Working Capital Funds and Army Contract Writing System interface. The new interface provides better automation for transmitting contract awards and financial data from ACWS to LMP, helping streamline procurement and financial processes across the Army enterprise.

JMC manages DOD's low-level rad waste

ROCK ISLAND ARSENAL, Ill. – Joint Munitions Command serves as the provider for low-level radioactive waste and low-level mixed waste disposition for the DOD and other federal agencies. The program ensures these materials are managed in a safe, compliant and cost-effective manner, protecting both people and the environment. The scope of this responsibility extends far beyond simply disposal; it encompasses the entire lifecycle of these materials from identification to final their resting place.
