INITIAL DIRECTION FOR UNITED STATES ARMY EUROPE AND AFRICA 2025

Situation. USAREUR-AF plays a critical role in supporting European and African security. We are at the heart of efforts to support Ukraine through the SAG-U and our MSCs. Through significant effort we achieved a position of advantage that must be exploited in 2025 as a year of execution. We continue to enhance our posture to ensure that we are best placed to deter adversaries and follow through on convergence with LANDCOM and the NATO MCLCC Core Staff Element at Clay Kaserne—the chronic, red pen, threat presented by Russia across both AORs demands it.

What does USAREUR-AF do? USAREUR-AF's purpose is to provide combat ready, credible forces to deter aggression, assure Allies and Partners that we will follow through on our commitments to security, and defend US interests as directed by our COCOMs. We will be the premier Warfighting organization, ASCC, CJFLCC, and MCLCC, by making NATO Convergence a reality, by being ready to fight from anywhere, and by building and mastering robust C2 systems that exploit cutting edge technology and live data to make decisions in any situation or environment better and faster than before. Transformation is fundamental to this effort. Only through rapid transformation and innovation will we remain ready to fight and win decisively as quickly as possible.

Lines of effort. USAREUR-AF is guided by four lines of effort that form the foundation of our actions:

- **1. Enable Ukraine to win their fight.** USAREUR-AF leverages its collective capability to continue to provide advice, material, and operational support. SAG-U, in close coordination with NSATU, will work to support Ukraine to restore a position of advantage in 2025. Through this enablement we will test our own war plans, continue to set the theater, while continuing to learn valuable lessons for LSCO.
- **2. Accelerate US-NATO C2 and plans convergence.** With our C2 structure established through convergence, USAREUR-AF refines our posture, structure, and our contingency plans to ensure continued effective deterrence and to be ready for immediate execution with the capabilities we have. Confirming that the theater laydown is correct is a key task within this effort. Critically, we must transform USAREUR-AF into a data centric organization to ensure that it is ready to outmatch any challenge. Throughout this we will work closely with our Allies to be seamlessly interoperable and drive innovation in capability.
- **3. Building readiness and experimentation in the European theater.** Europe and Africa provide an unequaled laboratory to develop land forces and leaders for Large Scale Combat. We will demonstrate to the Army that being forward deployed to our AOR builds readiness. We will master our warfighting skill at echelon through a demanding TREX program that supports our assigned war plans and builds Allied and Partner capacity to assume more of the mission burden. Equally, we will harness the professional curiosity of our people and build a culture of innovation through experimentation to drive future force design and fully exploit the opportunities of the Army's Transformation in Contact initiatives. We must use this initiative to tackle the demands of modern LSCO and change the way we fight—this is how we will stay ahead of our adversary who is fighting and constantly adapting in Ukraine.
- **4. Be ready and capable to respond to conflict, a crisis or seize opportunity.** USAREUR-AF must remain prepared to act decisively across the full spectrum of military operations—whether responding to an unexpected crisis, managing escalating conflict, or capitalizing on

emerging opportunities. This requires a forward-leaning, agile mindset at every echelon and across all formations. Our headquarters and response forces must maintain constant readiness to execute operations that go beyond established estimates and contingency plans, providing leaders with flexible options in uncertain and rapidly changing environments.

Delivering against these lines of effort will see Russia denied their strategic objectives, our forces more closely aligned with NATO, and with our collective fighting power transformed. This will be reinforced by increasingly lethal US forces ready for any eventuality.

Approach. We will ruthlessly prioritize warfighting and focus on our people. We will operate at the speed of relevance to deliver effective deterrence so our culture matters. Everyone in USAREUR-AF must understand who we are, what we are for, and our actions will be guided by the following tenets:

- Be the best teammates. At every level, be the team that everyone wants to work with, and to be part of everyday.
- Be unreasonable. Without compromising #1, do not accept any blocker or undecider to achieving our mission. If you cannot outthink or out work an issue elevate it.
- Be relentless in pursuit of the objective. Without compromising #1, work with a dedication and urgency as if it was a member of your family going to fight tonight.

By building the right culture, we maximize our capabilities, attract the best talent, and set the conditions to develop future leaders armed with the lessons of the Theater to take back to the wider Army.

Risk. To succeed we will require aggressive initiative and smart risk taking. We are in a state of protracted competition with Russia, China, Iran, and the DPRK. Therefore, we must be intentional in how we allocate resources and transparent in how we articulate our requirements to the COCOMs and HQDA. Our work will be underpinned by unassailable logic and clear, consistent communications.

USAREUR-AF has a proud legacy of over 8-years of service to the Nation. Despite that fact that we face the most challenging security situation in Europe for many decades, I am confident that this team has the capability and tenacity to face down any threat, and I am proud to be on your team!

Wiesbaden Standards Book

PART ONE General Guidance

- **1. Purpose.** This standards book will inform Soldiers, Noncommissioned Officers, and Officers of the USAG Wiesbaden about expectations for individual discipline, appearance, conduct, safety, and military courtesy as established by Army Regulations and policies. The proponent for this pamphlet is the SRO Command Sergeant Major.
- **2. Applicability.** This Standards Book applies to all United States Service Members assigned to the USAG Wiesbaden. USAG Wiesbaden Soldiers who reside on other installations will comply with the host installation standards and policies, should policies conflict.
- **3. Responsibilities.** Commanders and leaders are responsible to ensure Soldiers present a neat appearance and conduct themselves professionally and safely both on and off duty. Leaders are required to read and understand this pamphlet, brief their Soldiers, and enforce these standards. Leaders will ensure all Soldiers receive and have on their person, a copy of this pamphlet or digital copy while in a utility uniform. Consult your chain of command for the portions of this standards book that are punitive. Violation of the specific prohibitions and requirements of specific portions by Soldiers may result in adverse administrative action and charges under the provisions of the Uniform Code of Military Justice.

PART TWO Professional Conduct

- 1. Professional Conduct. You are expected to carry out your duties and to conduct yourself properly on and off-duty by living the Army Values, the Soldiers' Creed, and representing your Unit and the Army with pride. As a Soldier serving in a foreign country, you are expected to obey all German & US laws. You will use professional language in public and common areas on and off the installation. Profanity and inappropriate language are prohibited in common areas. Soldiers will demonstrate appropriate respect for all civilian authorities on and off the installation. Leaders are required to engage consistently with their Soldiers. Leaders are expected to discuss and enforce Army and USAG Wiesbaden standards, and life events IOT remain involved with their Soldiers' life and ensure their welfare.
- **a. On-the-Spot Corrections:** Leaders conduct on-the-spot corrections for Soldiers who do not know the standard OR knowingly violate the standard. USAG Wiesbaden leaders will conduct on-the-spot corrections to enforce the standards outlined in this book. If Soldiers are knowingly violating the standard, the leader will follow up with a phone call to the Soldier's chain of command. Soldiers may also tactfully make corrections when leaders or peers violate the standard. It is each Soldier's responsibility to adhere to the standard. Identify yourself, be professional, give one correction at a time, and do not make corrections in front of family members.
- **b. Relationships.** All Soldiers will adhere to AR 600-32, Conduct Between Soldiers of Different Grades. To maintain good order and discipline, AR 600-32 applies to all

relationships between Soldiers regardless of grade or grade differences, as is intended to prevent any actual or perception of impropriety that may arise during interpersonal interactions. Undue familiarity may include repeated visits to bars, nightclubs, eating establishments, or homes between an officer and an enlisted Soldier, or an NCO and a junior enlisted Soldier, except for social gatherings that involve an entire unit, office, or work section. Depending on the nature of the interaction, even one instance of such behavior could amount to undue familiarity.

- **c. Duty Hours**. Normally duty hours will coincide with duty days (e.g. 0600 1700 Monday Friday). Duty hours can also encompass times where the Soldier is "in uniform," "on call," or "on stand-by" and will remain on duty until properly relieved. For duties that exceed 24 hours in a 24-hour period, commanders should allot an equal amount of rest prior to return to duty, but this is again at the unit commander's discretion
- **d. Illegal use of drugs.** Use of illegal drugs and misuse of prescription drugs is strictly prohibited and is inconsistent with Army Values and standards of performance, discipline, and readiness necessary to accomplish the Army's mission. For further information regarding illegal drugs and Army policy, refer to AR 600-85 The Army Substance Abuse Program.
- **e. Use of Tobacco.** The use of any (including vape/vaping) tobacco products is prohibited inside all federal government buildings, including at least 50-feet from entrances, designated areas, school/child zones, etc. Further, use of tobacco in formations or walking in uniform is also prohibited.
- **f. Use of Alcohol**. IAW AR 600-85, IMCOM-E Policy 8, CPM, 18 consumption of alcohol is strictly prohibited during duty hours unless specifically authorized by the first GO or SES in the Chain of Command. If the first General Officer or civilian equivalent is not reasonably available, the Garrison Commander is the approval authority for alcohol consumption during duty hours.
- (1) Units (Tenant Unit, Rotational Forces, and any Unit representing USAG Wiesbaden) will formally request approval from the first O-5 (or higher) in their Chain of Command to have alcohol during official unit events. An official unit event is defined as, but not limited to: Military Balls, Dining Ins/Outs, Hail and Farewells, NCO Calls, LPDs, Right Arm Nights, Receptions as examples.
- **g. Off Duty Employment.** All active-duty personnel are prohibited from engaging in off-duty employment without their O-5/GS-14 approval IAW DODI 5500-07.R
- h. Missed Appointments. Missing an appointment demonstrates a lack of discipline. When Soldiers miss appointments medical, dental, garrison services, etc. it causes severe resource limitations on the community, negatively impacts Soldier-readiness, and wastes significant time and money. Supervisors will conduct a formal, event-oriented counseling, with an appropriate plan of action, with a Soldier who misses the first appointment. Units will consider further action for additional missed appointments during the same calendar year.

- **2. Military Courtesy.** Various forms of courtesy have become military customs and traditions. It is important to render these courtesies correctly IAW AR 600-25.
- **a. Saluting.** Soldiers will salute in garrison, unless instructed otherwise. Saluting and exchanging greetings while in civilian clothes is encouraged when on military installations. Soldiers who recognize an officer or senior officer while in the APFU will salute and render the appropriate response as outlined below:
- (1) Each salute should be rendered upon recognition with a greeting and response. The "(Greeting of the day), Sir or Ma'am". The greeting of the day will be acknowledged by the Unit's motto, or "Sword of Freedom".
- (2) When approaching an NCO, Soldiers will use the appropriate greeting of the day. NCOs are required to respond as well
- (3) Salute all standards and flags for senior officers displayed on military vehicles IAW AR 600-25.
- (4) Soldiers will **NOT** divert their walking routes to avoid saluting Officers or Warrant Officers.
- **b. Addressing Leaders.** Soldiers and NCOs will stand at attention when speaking with an Officer or Warrant Officer, until directed otherwise. Soldiers and NCOs will stand at parade rest when speaking to or being addressed by an NCO of superior rank, until directed otherwise.
- **c.** Reveille, Retreat, and National Anthem. Soldiers (on or off duty, in or out of uniform) are expected to render proper honors during Reveille, Retreat, and the National Anthem IAW AR 600-25. USAG Wiesbaden plays Reveille at 0630 and Retreat at 1700 on duty days. When you hear the music playing while operating a motor vehicle, and the conditions are completely safe (parking lot, side street, etc.), you will stop the vehicle, check your surroundings, and exit the vehicle to render appropriate honors at these times.

3. Barracks

- **a. Barracks Standards.** All Units have a barracks **SOP** that soldiers must adhere to. Each Soldier assigned a barracks room will receive a copy of the most recent barracks SOP and sign an acknowledgement of receipt or receive a counseling on DA Form 4856.
- **b. Barracks Assignment:** All unaccompanied Soldiers in the grade of E6 and below will be assigned to barracks housing. Depending on USAG Wiesbaden barracks occupancy rates, a SSG may obtain an HQDA G9 exception to policy to reside off-post (contact your Company CDR and 1SG, or the USAG Wiesbaden Unaccompanied Housing Representative).

4. Sponsorship.

a. Sponsorship Program. Effective sponsorship has a direct and significant impact on unit readiness. Ensuring proper sponsorship occurs both prior to, and upon arrival,

will significantly improve unit readiness. The appointed Unit Sponsorship Coordinator (primary and alternate) will manage this process.

- (1) ADOS personnel must contact the ADOS finance team for finance entitlements to ensure Soldiers are financially prepared to PCS at usarmy.wiesbaden.usareur.mbx.finance-ados@army.mil.
- (2) ADOS Personnel must contact SATO to schedule travel as soon as ADOS orders are received at +1 (800) 709-2190.
- **b. Sponsors.** Every incoming Soldier and Family will receive a unit sponsor to ensure that they are properly welcomed to the installation, provided with all necessary contact information, and receive necessary information prior to and after their arrival.

In addition, the SRO and the SRO CSM will provide an in-brief and conduct a patching ceremony where units will present new unit patches to the incoming Soldiers. Family members of the incoming Soldiers and Civilians are highly recommended to attend.

5. Physical Readiness Training

- **a. PRT.** Units will conduct PRT Monday through Friday (excluding training and federal holidays) at a pre-determined time established by Unit Commanders. Leaders should allow ample time for Soldiers to conduct personal hygiene, commute, and eat breakfast at their respective dining facilities.

In addition, all personnel must submit and receive approved Aircraft and Personnel Automated Clearance System (APACS) requests prior to traveling to countries outside of Germany. Soldiers should carry their CAC card, PCS orders to Germany, and tourist passports when travelling. Further, civilian family members should bring their no-fee passports and tourist passports when traveling. All Soldiers will follow the Foreign Clearance Guide directions for the countries they visit and will further complete any unit-specific requirements from their respective G2/S2.
- **5. Foreign Contacts**. While serving overseas it is crucial to remain vigilant in daily interactions, especially when forming friendships or relationships with foreign contacts as it can lead to the sharing of sensitive information or blurring of professional boundaries. Additionally, close and continuing contact with foreign individuals must be reported to the Unit G2/S2 and the foreign contact is reported your SF 86. Being mindful of the impact of personal relationships on professional duties and adhering to reporting protocols helps safeguard both security and mission integrity.
- **6. Prohibited Activity.** Personnel will not visit establishments with the purpose of engaging in sexual acts in exchange for money. Prostitution is punishable under the UCMJ. In addition, the sale of illicit drugs and paraphernalia while legal throughout parts of Europe is not authorized for use. Personnel will not knowingly use, buy, sell, possess, deliver, advertise, have custody of, manufacture, store, package, test, or conceal any controlled substance or drug-abuse paraphernalia. Personnel will not knowingly introduce controlled substances or drug-abuse paraphernalia into a military area, installation, building, or facility (See AEA Reg 600-1*).
- 7. Medical Emergencies: There are no emergency services at the Wiesbaden Army Health Clinic (WAHC). As such, for emergencies community members should go to the nearest hospital off-post. Soldiers can go to Uni Klinik Mainz, Horst Schmidt Kliniken (HSK), or St. Josefs Hospital (not for pediatrics, ocular, or inpatient BH emergencies). To avoid billing issues, Soldiers must contact the Tri-Care International SOS toll free at 0800-589-1599. Further contact information for the off-post treatment can be found in the important numbers section. Soldiers will notify their first line supervisor of any trip to an emergency room. If a Soldier receives medical treatment at an off-post medical facility, they will bring all required documentation to WAHC the next working day to ensure it is added to their military medical records.

b. HSK: Ludwig-Erhard Straβe 100, 65199 Wiesbaden

c. St. Josefs Hospital: Beethovenstraβe 20, 65189 Wiesbaden

8. Suicide Prevention: ACE– Ask, Care, Escort. Remain calm, ask directly about suicide ideation, express empathy, and safely escort at risk individuals to the appropriate response agency or to remain with them until help arrives. Leaders and Soldiers must increase awareness of suicide risk factors, warning signs and resources, and fight against stigma associated with asking for help.

 - c. See additional Behavioral Health and Crisis Resources in PART SIX of this book.
- **9. SEXUAL HARASSMENT/ASSAULT RESPONSE AND PREVENTION (SHARP) AND MILITARY EQUAL OPPORTUNITY (MEO):** Commanders, Soldiers, and Civilians must lean into a strong climate and culture to build an "upstream approach." An upstream approach helps prevent sexual crimes, suicide, and equal opportunity violations by mitigating risky behaviors, building safe and healthy climates, and promoting healthy coping strategies. Bottom-line, solid teams built on trust do not assault, harass, or discriminate against one another.
- **a. SHARP-** We maintain a zero-tolerance policy on sexual harassment and assault. Every Soldier will be trained on how to respond to sexual harassment and assault violations. However, the focus will be on prevention. Leaders must model and message prevention strategies like limiting risky behavior, achieving consent, and the Bystander Intervention Process: Notice the event, interpret the event as a problem, accept responsibility to do something, and decide how to intervene.
- **b. MEO-** We support the U.S. Army's MEO Program's mission to maximize human potential and to ensure fair treatment for all Soldiers based solely on merit, performance, and potential in support of readiness. The MEO philosophy is based on fairness, justice, and equity. All Soldiers and Civilians will be treated with Dignity and Respect. The MEO program supports all Soldiers both on and off-post, and within the limits of the law. Commanders and EO leaders are responsible for the execution of MEO policies in the organization.
