AMC honors 2024 top achievers with Dellamonica Award

REDSTONE ARSENAL, Ala. – Army Materiel Command is recognizing its top employees from across the enterprise for their outstanding accomplishments and contributing to AMC's mission and goals with the 2024 Louis Dellamonica Award. Each year, the Louis Dellamonica Award for Outstanding AMC Personnel of the Year is awarded to both military and civilian employees who meet the established criteria and who are below the rank of general officer and Senior Executive Service level.

SDDC streamlines cargo for 3rd CAB's NATO mission

SAVANNAH, Ga. – Soldiers and civilians from the 841st Transportation Battalion, 597th Transportation Brigade, Military Surface Deployment and Distribution Command (known as the Eastern Racers) provided surface movement and hazardous materials transport expertise to Soldiers from the 3rd Combat Aviation Brigade, 3rd Infantry Division, at Hunter Army Airfield. Working alongside unit movement officers, the Deployment and Distribution Support Team inspected cargo bound for overseas deployment in support of NATO operations. The team focused on hazardous materials documentation and vehicle dimensional data and more.

Soldiers help Tooele Army Depot move munitions

TOOELE, Utah – One of the specialties and main functions of Tooele Army Depot is the movement of munitions. Moving new munitions from trucks and trains to storage. Moving lethal munitions from storage to send to the warfighter. Also moving old, obsolete and unsafe munitions to internal demilitarization sites for destruction. In recent years, TEAD has seen a spike in the number of short tons of munitions moved every summer. This year was no exception, and that spike, 1,700 short tons this year, is attributed to Soldiers participating in Operation Patriot Press.

Fort Polk, Corvias team up on solar energy project

FORT POLK, La. – Fort Polk hosted an Aug. 5 ribbon cutting ceremony marking the opening of a \$29 million solar energy project that will provide power to about 1,800 military homes. The 13-megawatt system consists of more than 30,000 solar panels and Brig. Gen. Jason Curl, Fort Polk commander says it's a step forward in the installation's readiness by enhancing the resilience and reliability of on-post housing.

Army seeks housing solutions boost readiness, quality of life

ARLINGTON, Va. – To further improve the living standards for Soldiers and their families, Army leaders met with industry housing partners during the 2025 Privatized Housing Council Aug. 12-13. The Army Privatized Housing Council is held annually and brings together senior Army leadership, Office of the Secretary of Defense officials and privatized housing partners to address challenges and align the future of Army housing. The forum ensures the Army's housing initiatives remain focused on modernization, innovation and delivering a high-quality living experience for Soldiers and their families.
