

U.S. Army Materiel Command

Eye On AMC

Wednesday, September 10, 2025

Tobyhanna Army Depot's first drone shipment takes flight

TOBYHANNA, Pa. – Tobyhanna Army Depot is playing a pivotal role in the DOD's quest for battlefield superiority. The organization successfully completed its first delivery of first-person view small uncrewed aircraft systems, or sUAS, Aug. 28, marking a significant milestone in advancing its mission to enhance readiness for America's warfighters. The Army and DOD's transformation initiatives seek to facilitate a leaner and more agile Army through development of modernized UAS/sUAS capabilities.

CECOM showcases new innovations in ATI brief to AMC

ABERDEEN PROVING GROUND, Md. – Command Sgt. Maj. Jimmy Sellers, senior enlisted advisor of Army Materiel Command, said he had never seen an organization change as quickly and as responsibly as Communications-Electronics Command. He expressed the exuberance and acclamation for CECOM following a quarterly Army Transformation Initiative update brief given by Maj. Gen. James Turinetti IV, CECOM commanding general. The brief focused on projects being advanced across CECOM and highlighted efforts to develop capabilities that are government made, owned and operated.

AI assisted maintenance tool undergoes successful unit testing

ABERDEEN PROVING GROUND, Md. – The Communications-Electronics Command's Integrated Logistics Support Center is developing an Artificial Intelligence-Assisted Maintenance tool as part of their wider Logistics Assistance Program Transformation Initiative. CECOM ILSC Chief Warrant Officer 4 Lou Gerber and AIAM developer Sean Murphy visited the National Training Center. The objective of their trip was to demonstrate AIAM to both Soldiers and logistics assistance representatives, showcase the tool's utility, and capture meaningful feedback from real world scenarios.

Operation Patriot Press boosts readiness

REDSTONE ARSENAL, Ala. – Operation Patriot Press 2025, a large-scale logistical training exercise spanning nearly a year, concluded this month, demonstrating a significant win for total Army collaboration and cost-effective training. OPP is an annual, large-scale exercise designed to spotlight and test the total force integration of the Army Reserve, National Guard, and active-duty components in realistic training situations. The exercise is overseen by Army Materiel Command, and this year was led by the Indiana Army National Guard's 38th Division Sustainment Brigade in Kokomo, Indiana.

Over 100 Bradleys from 405th AFSB, TLSC-E issued to Soldiers

KAISERSLAUTERN, Germany – The 1st Cavalry Division is providing the Soldiers to support the next rotation of forces to Poland, and the 405th Army Field Support Brigade and Theater Logistics Support Center-Europe are providing them with the Bradley Fighting Vehicles they'll need for the mission. Soldiers from 3rd Brigade Combat Team's 2nd Battalion, 7th Cavalry Regiment, are deploying from Fort Hood, Texas, to Poland to support the mission, there. Meanwhile, over 100 M2A3 Bradley Fighting Vehicles were prepped and issued to them in Germany before being transported to Poland for the mission.
