

Appendix H

Army Surplus Property Notice for LRA Parcel 20

#3045–0170). Information will be collected from a nationally representative sample of AmeriCorps alumni who served in AmeriCorps NCCC, AmeriCorps VISTA, and AmeriCorps State and National programs and completed their most recent term of service 2, 5, or 10 years ago.

Information will be collected from AmeriCorps Alumni through an online survey that will be administered by a contractor on behalf of CNCS. The purpose of the survey is to better understand the long-term civic participation and career pathways of AmeriCorps alumni, the acquisition of hard and soft career skills obtained through national service, and the utilization of the Education Award and its effect on future post-secondary outcomes and career choices. These data may also be matched to administrative data collected by the US Census for the Longitudinal Employment and Household Data Set and by the National Student Clearinghouse in order to assess both employment and education outcomes within the national population. In addition, the agency is interested in exploring how member outcomes vary by life stage and by different types of service experiences. This survey is also an opportunity to determine the value of data collected from alumni who are at different stages following their service year for informing policy and program decisions. CNCS also seeks to continue using the current clearance until the revised survey is approved by OMB. The current clearance is due to expire on 4/30/18.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal

agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. All written comments will be available for public inspection on regulations.gov.
