receive their
certificates
of completion

• PAGES 4-5

Team PSNS & IMF,

You may have noticed a steady stream of visits lately—from senior Navy leaders to members of Congress. That's not a coincidence. The attention our shipyard is receiving is a direct reflection of your importance—of the work you do, the skill you bring, and the mission you carry out each day. When these leaders walk through these gates, they aren't here just touring infrastructure. They are here to see you. To understand your challenges, celebrate your accomplishments, and determine how they can better support you.

These visits aren't just tours or photo ops. They're focused engagements. Our visitors are asking questions, listening to your experiences, and looking closely at what you need to succeed—whether that's infrastructure upgrades, process improvements, or greater investment in the workforce itself. And the reason they're coming is because they know what we do here matters. A lot.

As the tempo increases, it can be easy to see these visits as just another thing added to an already full plate. But I ask you to see them as a signal—a clear one—that what you do is being seen and valued at the highest levels. They're coming here because this shipyard is a cornerstone of the Navy's future, and because your work plays a central role in getting ships and submarines back to the fight.

When we show them who we are—skilled, innovative, and committed—it helps make the case for continued investment. That includes modernized facilities, updated tools and processes, and support programs that help you do your jobs safely and well. It also means recognizing your input as critical to the long-term success of shipyard modernization.

You don't have to prepare a briefing or lead a tour to be part of this. Just continuing to do your work with precision and purpose sends a message. Maintaining clean work areas, following safe practices, and helping teammates succeed speaks volumes. Those small things build the bigger picture, and every visitor sees it.

We're going to keep welcoming leadership here. That's a good thing. It means our voice is being heard—and it's because of you. The shipyard you walk into every day is becoming more visible on the national stage. Let's keep showing up the way we always do: focused, capable, and united in what we deliver.

Thank you for making that possible.

A Ready Team Defines Us. Quality Drives Us. Mission Unites Us.

Captain JD Crinklaw
Commander, PSNS & IMF

2025 NAS SUPERINTENDENT OF THE YEAR

Shop 26 leader honored for his 'commitment to excellence'

PSNS & IMF Public Affairs

The National Association of Superintendents has selected Steve Dibert as its 2025 Superintendent of the Year, according to a recent NAS announcement.

Dibert, welding superintendent, Shop 26, Welders, was selected for his “extraordinary leadership” and “commitment to excellence” at Puget Sound Naval Shipyard & Intermediate Maintenance Facility, according to the announcement.

“[Steve] is a recognized leader in broader efforts across PSNS, dedicating himself to the effective coordination of personnel and resources necessary for national defense. This tireless service, demonstrated by his leadership and contributions to the industrial efforts of the shipyard, is what makes him deserving of this distinction,” according to the announcement.

A committee of past awardess, including 2024 recipient Chris Klinkert, director, Code 700, Lifting and Handling Department, convened to select this year's award winner.

“{Steve} is an exceptional leader who

embodies our core principles of service, skill, and unwavering support for our employees and his peers. He is a visionary who has demonstrated extraordinary leadership, mentorship, and a deep commitment to excellence. His tireless service, managerial skill, and strategic support have been instrumental in advancing our mission and maintaining the readiness of our nation's naval power,” Klinkert said.

In making the selection, NAS committee members noted Dibert's expertise in managing the complexities of an entire

Steve Dibert

trade shop while turning operational challenges into successful outcomes.

“He possesses the skill to lead people, coordinate efforts across multiple projects, and successfully execute major repairs and

modernization efforts,” according to the announcement.

Dibert's dedication and loyalty were also key to his selection as NAS Superintendent of the Year, according to the announcement.

“[Steve] ensures that a vital trade is not only productive but fully aligned with the Shipyard's overarching mission to sustain the fleet. His dedication and loyalty, demonstrated through his active role in the PSNS & IMF NAS Chapter, ensure that the shipyard maintains its position as a critical asset, providing reliable support to the military and to our country,” according to the NAS announcement.

Alternative Dispute Resolution

Did you know the ADR program is expanding to offer conflict coaching services, in addition to mediation, conciliation, and group facilitations?

Benefits of ADR include:

- Communications are confidential.
- Future-focused on results and collaboration, not fault and blame.
- ADR keeps decision-making control with the parties (mutually agreeable resolution).

To learn more or request ADR, call (619) 705-6156.

Apprentices from Puget Sound Naval Shipyard & Intermediate Maintenance Facility Detachment San Diego, Fleet Readiness Center Southwest, Portsmouth Naval Shipyard San Diego and Southwest Regional Maintenance Center, were celebrated during a graduation ceremony at Southwestern College at the WESA building, in Chula Vista, Calif., Jan. 23.

Thirteen graduates walked the stage to receive their degrees in honor of their successful completion of the Southwest Regional Apprentice Program.

The Scholastic Achievement Award was presented to David Cannon, marine machinery mechanic, SWRMC, for maintaining a 4.0 grade point average. Sinatala Filemoni, marine machinery mechanic, SWRMC, was selected as

VCNO briefed on shipyard operations during his daylong visit

PSNS & IMF Public Affairs

Adm. John Kilby, Vice Chief of Naval Operations, visited Puget Sound Naval Shipyard & Intermediate Maintenance Facility, Jan. 23, for a command brief and a tour of shipyard operations.

Capt. JD Crinklaw, commander, PSNS & IMF, announced the VCNO's visit to members of the command workforce in a recent All-Hands: Welcome Back (2026) message. "[Adm. Kilby's] visit is an opportunity to highlight the outstanding work [we] do and to have meaningful discussions about both our successes and the challenges we face," Crinklaw said. "We look forward to sharing takeaways with the workforce afterward as we navigate a period of significant change across the Navy and the defense industrial base."

The daylong visit included stops at Buildings 107, 427, 431, 460, 462 and 850A, and tours of Dry Docks 3, 4 and 6.

Other distinguished guests included: Rear Adm. Scott Brown, deputy commander, Industrial Operations, Naval Sea Systems Command; Rear Adm. Christopher Nash, commander, Submarine Group Nine; Capt. Keith Floyd, senior military advisor, Vice Chief of Naval Operations; Clint Carroll, audit special advisor, Vice Chief of Naval Operations; Cmdr. Alex "Panda" Yu-Rank, deputy executive assistant, Vice Chief of Naval Operations; Lt. Cmdr. Sean Garfola, flag aide, Vice Chief of Naval Operations; and Information Technician Petty Officer First Class Juan Munozrentas, Vice Chief of Naval Operations.

Apprentice of the Year. Filemoni was also chosen by his classmates to be the class speaker for the graduation ceremony.

In her remarks, Filemoni, reflected on the journey she and classmates went through as they completed the program, and what they have taken away from it.

"As we move forward into the workforce as journey workers, the responsibility now shifts to us," Filemoni said. "Our Sailors depend on the work we do. Our shops depend on our professionalism. And, future apprentices will look to us just as we once looked at the classes who came before us. The standard we set now—the quality we uphold, the leadership we show, and the pride we take in our trades—will shape not only our careers, but the legacy of this program."

Among this year's graduating class were students trained as production machinery electricians, machinist, marine machinery, marine electricians, pipefitters, riggers and welders.

The featured speaker for the event was Brian Karosich, commanding officer of Southwest Regional Maintenance Center. During his remarks, he challenged the graduates to continue to excel and grow their knowledge base.

"Your entrance to the government workforce comes at a critical time in the nation's history, where the demand for your skills and leadership will only increase," Karosich said. "Use this as an opportunity to build upon the lessons you have learned during your apprenticeship to expand your expertise. Continue to be curious and seek further knowledge. Challenge yourself to solve new problems that will foster growth through experience."
