Army Senior Sustainer urges speed, innovation

TAMPA, Fla. – It’s time for the sustainment community to go faster; that was the message the Army’s senior sustainer had for the military and industry leaders at National Defense Industrial Association’s Logistics Forum, Feb. 17-19 in Tampa. Army Materiel Command’s top leader, Lt. Gen. Chris Mohan, charged those in attendance to push themselves and their teams to move quicker to find the solutions for today’s Army.

Leaders highlight urgency of joint modernization

TAMPA, Fla. – The urgency of joint logistics integration and modernization was emphasized by military senior leaders throughout the National Defense Industrial Association’s Logistics Forum, Feb. 17-19.

Army employs telemaintenance for surgical repair

TRACY, Calif. – U.S. Army Medical Logistics Command recently showcased its telemaintenance capabilities by guiding the repair of a critical imaging device in Iraq, a vital medical device for troops supporting Operation Inherent Resolve. The successful mission, led from AMLC, highlighted how remote support is becoming a go-to solution for complex sustainment.

Strong Sergeants. Strong Soldiers. Strong Squads.

REDSTONE ARSENAL, Ala. – A quote from G. Michael Hopf’s novel, "Those Who Remain," reminds us that "hard times create strong men." In the Army, this idea resonates deeply. The Army exists to prevail in the hardest of times, and victory is never accidental it is built deliberately, day-by-day, leader-by-leader. When we talk about a Soldier, we mean anyone in a U.S. Army uniform.

CCAD launches Composite Blade Repair Program

CORPUS CHRISTI, Texas – The enduring fleet of the Army’s Blackhawk helicopter ensures a continuous workload for the Corpus Christi Army Depot in South Texas, particularly in the remanufacture of legacy platforms. In response to this sustained demand, CCAD has launched the first organic composite repair program for helicopter blades in the U.S.

Fort Buchanan’s enables regional power projection

FORT BUCHANAN, Puerto Rico – The Logistics Readiness Center’s Central Receiving Point under the 407th Army Field Support Brigade serves as a forward sustainment platform enabling joint force readiness and regional power projection.
