

RED HILL HIGHLIGHTS

35th Edition; March 4, 2026

The mission of Navy Closure Task Force-Red Hill (NCTF-RH) is to execute the permanent decommissioning of the Red Hill Bulk Fuel Storage Facility (RHBFSF) safely and expeditiously, and continue long-term environmental remediation in coordination with State and Federal regulators in order to protect public health and the environment.

FACT CHECK: As always, NCTF-RH remains committed to open and transparent communication with the entire community.

NCTF-RH Looks Forward to Providing Routine Operational Update to CWRM, Community

NCTF-RH provides routine update to CWRM in May 2025

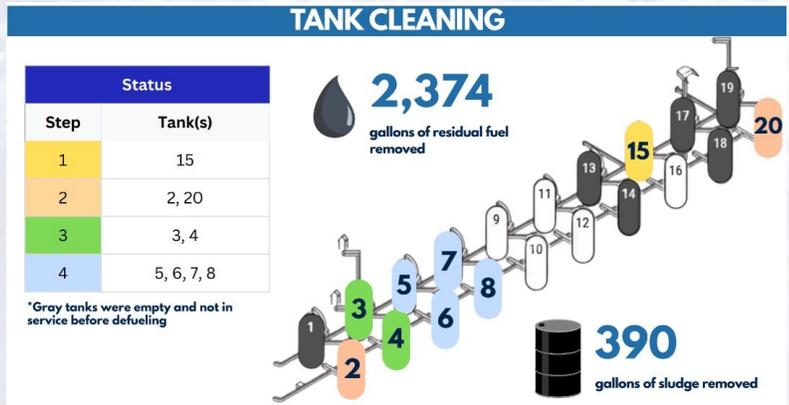

Due to a scheduling conflict last week, Navy Closure Task Force-Red Hill was unable to present at the Department of Land and Natural Resources (DLNR) Commission on Water Resource Management (CWRM) meeting on Tuesday. NCTF-RH respects CWRM’s decision to prioritize other agenda items of higher public interest that rightfully took precedence over NCTF-RH’s presentation and looks forward to providing its routine operational update to the commission and community on March 24.

The NCTF-RH presentation is publicly available at <https://files.hawaii.gov/dlnr/cwrmsubmittal/2026/sb20260224C1.pdf>. For information on upcoming events, download our mobile app NCTF-RH, or visit www.navyclosuretaskforce.navy.mil.

Tank 15 Degassing Operations Complete; Pressure Washing Preparations Begin

NCTF-RH completed tank 15 degassing operations last week and is preparing the tank for pressure washing in the coming weeks. Air quality monitoring continued throughout operations and data was posted hourly on the mobile app and daily on the NCTF-RH website at www.navyclosuretaskforce.navy.mil

For updates on tank cleaning and pipeline removal, check out the dashboard on the website or mobile app.
