Sustainment enterprise fields the future at AMEC

REDSTONE ARSENAL, Ala. – To maintain overmatch on the modern battlefield, the Army is preparing to field next-generation technology at an unprecedented rate - but delivering new gear is only half the battle. At the Army Modernization and Equipping Conference, leaders and experts emphasized that accelerating both the equipping of units and the divestiture of legacy systems requires a synchronized, unified push.

ASC showcases integrated sustainment powerhouse

ROCK ISLAND ARSENAL, Ill. – Maj. Gen. Eric Shirley, commanding general of Army Sustainment Command, together with other ASC leaders, virtually briefed Lt. Gen. Chris Mohan, commanding general of Army Materiel Command, on ASC's broadened role as the Army's sustainment enterprise, strengthened by the transition of the Joint Munitions Command to ASC.

Innovators automate path to zero trust with AI

ABERDEEN PROVING GROUND, Md. – Communications-Electronics Command Army Software and Innovation Center in partnership with the Warfighting Acquisition University and the C5ISR Center, has developed an artificial intelligence tool that significantly accelerates the Army's transition to a Zero Trust cybersecurity framework. This supports the mandate to achieve Target Level Zero Trust by FY2027.

USAG Hawaii advances barracks modernization

SCHOFIELD BARRACKS, Hawaii – Soldiers living in barracks across U.S. Army Garrison Hawaii are benefiting from improved living conditions through the delivery and installation of more than 500 new furnishings, including mattresses, dressers and bunk beds. This effort supports the Army's accelerated quality-of-life investments launched in October 2025.

New structure equals integrated armaments lifecycle

ROCK ISLAND ARSENAL, Ill. – Army Contracting Command officially integrated the capabilities of ACC-New Jersey into ACC-Rock Island Arsenal May 4, creating a unified contracting powerhouse to oversee the entire lifecycle of Army armaments and ammunition. This strategic consolidation was executed to streamline acquisition, eliminate bureaucratic redundancies and bolster the joint munitions enterprise.

Fort Bragg partnership provides future roadmap

Fort Bragg, N.C. – Through an Intergovernmental Service Agreement with the North Carolina Department of Transportation, Fort Bragg is fundamentally changing how it manages and funds installation road construction. The agreement provides a means to fund and manage road construction on Fort Bragg that reduces costs, provides the latest technologies and saves time.
